is a rapidly increasing population in that neighborhood, we deem it important that a speedy effort should be made to present the claims of the church there. We understand there is a canon of the church forbidding a clergyman to officiate within the limits of a city where there are regularly organized churches without the consent of the settled rector or rectors. We do, therefore, most respectfully and earnestly solicit your permission and co-operation in the furtherance of our wishes. We have understood that the Rev. Mr. Hutchinson, late president of Kemper College, will probably spend some months in this vicinity for the purpose of arranging some matters of business, and although he has not been advised with by us on the subject, we are not without hope that his services may be procured in aid of this important object." Signed, James Hutton, Robert Ranken, James Grasham, Robert C. Greer, David H. Armstrong, Frederic L. Billon, Isaiah Forbes, W. Carr Lane, H. S. Geyer, B. H. Randolph, Edward Tracy, Thomas Shore, Samuel B. Churchill, H. W. Chambers, Thomas T. Russell, Charles Pettit, Z. B. Curtis, T. S. Rutherford, P. H. McBride, Edward E. Areher, B. H. Batte, Henry C. Hart, David M. Hill, Henry B. Belt, Josiah Spalding, Britton A. Hill, M. S. Gray, J. O'Fallon, W. H. Pritchard, Henry Von Phul, G. Erskine, Edward Mead, William Glasgow, R. Wash, Wm. Smith, H. S. Case, Thomas Skinker, Edward Stagg, J. S. B. Alleyne, Julius Morise, Edward Charless, John D. Daggett, Dr. John Shore, F. W. Southack.

The necessary consent having been obtained, a meeting was held in the hall of the St. Louis Lyceum, Gen. William Milburn presiding, and a new parish organized, with the Rev. E. C. Hutchinson as rector, and John O'Fallon, Henry S. Geyer, William Milburn, Thomas Shore, James Henry, Josephus W. Hall, and Josiah Dent as vestrymen. The name of St. George was given to the church by the rector, after a church of the same name in New York, in charge of Dr. Milnor, a leader of the Evangelical school, the doctrines of which were indorsed by Mr. Hutchinson. On May 13, 1846, the church was admitted into the Diocesan Convention, and reported fifty-five communicants. For nearly two years the services were held in the morning at the public school-house on Sixth Street, and in the afternoon at the Methodist Church on Fifth Street. The first church building erected by the parish stood on Locust Street near Seventh, and was dedicated April 13, 1847. In 1851, Rev. S. G. Gassaway, of Georgetown, D. C., was chosen assistant rector. Questions which had arisen as to the administration, and afterwards as to the loss of Kemper College, of which Mr. Hutchinson was one of the creditors, caused much feeling and division, and although St. George's Church was built expressly for its first rector, and many of his friends thought that he should have remained and outlived the opposition which had begun to be manifested, after an assistant minister had been called Mr. Hutchinson resigned, in 1852, and three years later organized Trinity Church. Mr. Gassaway then became rector. He was one of the victims of the explosion of the

St. Louis and Alton packet, just after it had left the St. Louis wharf, Feb. 16, 1854. His many virtues and zealous devotion to his parish had greatly endeared him to his parishioners, who presented his family with five thousand dollars, and erected to his memory a marble tablet, which was placed in the church, and subsequently removed to the walls of the new building and placed near the font.

The rectors of the church since then have been Rev. William Colvin Brown, deacon, ordained priest Dec. 10, 1854; Rev. T. A. Hopkins, son of Bishop Hopkins, of Vermont, called July 8, 1855, resigned in the fall of 1857; Rev. Edward F. Berkley, D.D., of Lexington, Ky.,¹ took charge Nov. 20, 1858, resigned Dec. 5, 1871; Rev. Robert A. Holland, of Baltimore, called Jan. 1, 1872, resigned Nov. 1, 1879, to take charge of Trinity Church, Chicago; Rev. S. W. Young, of Canada, had temporary oversight of the parish until the present rector entered upon his duties (April 4, 1880). After the death of Mr. Gassaway, St. George's parish fell off from one hundred and fifty-five communicants to sixty-eight; the indebtedness increased from six thousand nine hundred dollars to over ten thousand dollars, and in February, 1855, a number of the members withdrew to form Trinity Church. In 1856, however, the Rev. Mr. Hopkins reported one hundred and sixty-six communicants and the church free from debt. In 1857 the church bought a lot in Bellefontaine cemetery for the interment of its indigent communicants. In 1860 the organ which is still in use was bought for four thousand three hundred dollars. At the close of the war, in 1865, the church was in debt to the extent of fifteen thousand dollars, but this was fully paid off in 1866. In September, 1868, the Diocesan Convention, which elected Bishop Robertson, was held in this church. In 1871 the present site of the church was bought for eighteen thousand six hundred and fifty-six dollars, and in 1872 the first church building and lot on Locust Street were sold to John R. Shepley for fifty thousand dollars, although services

¹ A controversy having arisen as to the mode in which Henry Clay, the Whig statesman, was baptized, the Rev. Mr. Berkley, who had officiated at that ceremony and who also read the funeral service at the interment of Clay at Lexington, Ky., was appealed to by W. A. Beil, of Paducah, Ky., for information on the subject. Mr. Berkley replied that Mr. Clay was baptized in his parlor at Ashland on the 22d of June, 1847, in the form ordinarily observed in the Episcopal Church,—i.e., "by pouring a handful of water on his head in the name of the Holy Trinity." One of his daughters-in-law and four of his granddaughters were baptized in the same way. It had been asserted that Mr. Clay had been baptized by immersion, but this statement was specifically denied by Mr. Berkley.

continued to be held there until the chapel of the new building was completed, May 1, 1873. The corner-stone of the present church edifice was laid May 30, 1873, and the first services in the completed church were held on Easter Sunday, 1874. The building is cruciform, the nave being one hundred and fourteen by fifty-five feet, and the transepts seventy-seven by twenty-five feet. The height from the street to the finial of the spire is one hundred and forty-five feet. The seating capacity is eight hundred. The property cost in all one hundred and fifteen thousand dollars, and a debt of fifty-nine thousand dollars which remained at the time of completion was entirely canceled in May, 1879. The present officers of the church are: Senior Warden, John W. Luke; Junior Warden, Joseph W. Branch; Secretary, D. E. Garrison; Treasurer, M. W. Alexander; Vestry, Edwin Harrison, Isaac M. Mason, Hugh Rogers, John G. Wells, H. T. Simon, H. H. Curtis, John D. Pope, John C. Orrick, and Western Bascome. The number of communicants in 1882 was two hundred and seventy-five, and the Sunday-school pupils numbered four hundred.

Trinity Protestant Episcopal Church is situated at the northwest corner of Washington Avenue and Eleventh Street. Rev. George C. Betts is its rector. In the sketch of St. George's Church it was stated that Rev. E. Carter Hutchinson, D.D., resigned the rectorship of that parish in 1852, much against the wishes of a large number of his friends. These friends at once conceived the project of organizing a new parish for him, but nearly three years elapsed before their efforts were successful. In February, 1855, however, Trinity parish was organized, mainly by members of St. George's, who withdrew for the purpose, and who elected as the first vestry, James W. Finley, senior warden; T. S. Rutherford, junior warden; and L. Levering, C. Derby, N. Phillips, T. Skinker, W. M. Price, M. Moody, S. O. Butler, T. Griffiths, L. P. Perry, E. Barry, and J. Y. Page, vestrymen. The new congregation met at first, and for some months, in St. Paul's Church, corner of Fifth and Wash Streets. A hall was then rented from the Cumberland Presbyterians, at Eleventh and St. Charles Streets, and later a building which had been used by the Congregationalists on Locust between Tenth and Eleventh Streets. The present site of the church was leased for a term of forty years from Feb. 1, 1859, Messrs. Derby, Powell, and Shands being the selecting committee, and in October, 1859, the erection of the building was begun. The corner-stone of the church was laid with impressive services by Bishop Hawks, assisted by several other

clergymen, on March 14, 1860, and the rector, Dr. Hutchinson, preached his first sermon in the completed building, then considered one of the finest in the city, on June 20, 1861. The structure was sixty-six feet long, forty-seven feet wide, and fifty-six feet high. The number of communicants June 20, 1861, was one hundred and thirty. On Jan. 22, 1865, the church was burned down, but was immediately rebuilt and again consecrated Aug. 27, 1865. It is a neat stone edifice, with a seating capacity of nearly seven hundred, and has a chapel and Sunday-school room in the rear. Dr. Hutchinson resigned the rectorship Feb. 1, 1869, and was succeeded by Rev. J. D. Easter, D.D., who served until 1872. During this period the parish suffered greatly from financial embarrassments and the withdrawal of its members, several of whom joined in organizing the Church of the Holy Communion. Rev. Joseph Cross, D.D., served as rector for a few months in 1872, but on the 15th of November, 1872, Bishop Robertson assumed the rectorship, with Rev. Edwin Coan as assistant, and under their management strenuous efforts were made to clear off the debt. Several changes were introduced, one that remains yet being the substitution for the paid choir of one composed of surpliced men and boys, whose music has become justly celebrated. The present rector entered upon his duties on Easter, 1876. Under his ministrations the church has prospered, and is now in a fair way to clear off all incumbrances. When the lease expires in 1899, or perhaps, sooner, the parish will probably be prepared for a removal farther west. The congregation at present numbers about one hundred families, or four hundred and fifty persons, with two hundred and seventy-five communicants. The Sunday-school is attended by ten teachers and eighty scholars.

The Protestant Episcopal Church of the Holy Communion, situated at the northwest corner of Twenty-eighth Street (Leffingwell Avenue) and Washington Avenue, Rev. P. G. Robert, rector, grew out of a mission Sunday-school in connection with Trinity Church (Rev. Dr. Hutchinson, rector), with William H. Thomson superintendent, which was held in a brick school-house on Morgan Street, near Garrison Avenue. This building had been fitted up for religious purposes, and services were held in it thenceforward every Tuesday evening, the city clergy officiating in turn. After several unsuccessful efforts the parish was finally organized Jan. 24, 1869, its first vestry consisting of Francis Webster and William T. Mason, wardens; Francis Carter, James Wilgus, N. G. Hart, William J. Lewis, R. W. Powell, R. M. Wilson, H. G. Isaacs, L. E. Alexander, Wil-

liam H. Thomson, Elijah Welles, and J. T. Utterback. Francis Carter was elected clerk, and L. E. Alexander treasurer. Rev. P. G. Robert, then at Little Rock, was chosen rector, and preached his first sermon June 6, 1869. A lot was bought on the corner of Washington and Ewing Avenues, which was subsequently exchanged for the present site, which is eighty and three-twelfths feet in width, and cost twelve thousand dollars. Ground was broken June 15, 1870, and a chapel (now the transept) was built and first occupied Dec. 18, 1870. The little school-house on Morgan Street, which this congregation had up to this period used, was the property of William J. Lewis (one of the vestrymen), who had given the use of it, rent free, for five years. Its site is now occupied by a residence. Work on the nave was begun June 15, 1876, the first stone was laid July 2, 1876, and the whole church was opened for service on Easter Eve, March 31, 1877. The building is of stone, and one hundred and twenty-five feet in depth, and it contains seven hundred and two sittings. In this church no pews are sold, and the singing is congregational, these having been two of the conditions upon which the rector took charge of the parish. Nearly all the furniture and ornaments of the church are memorials of deceased persons. The sacred vessels were manufactured from silver relics of departed friends, some of the articles being nearly two hundred years old, contributed for the purpose by members of the congregation. The communion-plate was first used Jan. 2, 1876, and the alms-basin on the Easter following. While the nave of the church was building the congregation worshiped in a wooden chapel which they had purchased from Dr. Brank's congregation. The parish began with twenty-three communicants, and now numbers four hundred and seven. Its membership embraces two hundred and twenty families. The Sunday-school has twenty-seven teachers and an attendance of two hundred and seventy-five pupils. Connected with the church are the Parish Aid Society, Maternity Society for assisting poor women, Young Ladies' Sewing Circle, and the Parish Missionary Society, all in vigorous operation, and the Parish Guild. The *Parish Record*, a four-page monthly journal, is published by an association of members of the parish. Its first number was issued Nov. 28, 1880.

Mount Calvary Protestant Episcopal Church, southwest corner of Lafayette and Jefferson Avenues, Rev. Benjamin E. Reed, rector, was organized Sept. 6, 1870, in Compton Hill Mission school-house, a small frame building on Henrietta Street, north of Lafayette Avenue. Prominent among its founders

were George D. Appleton, Wells Hendershott, Lewis Lipman, James O. Broadhead, T. A. Hutchins, David Davis, and Hugh Davis. Henry Shaw gave a lot, one hundred and seventy-five by four hundred feet, at the head of Lafayette Avenue, on Grand Avenue, and on this, through the munificence of George D. Appleton, who defrayed nearly the entire cost, a beautiful church was built at an expenditure, for building, furniture, etc., of about twelve thousand dollars. It was consecrated in 1871. C. B. Clark was the architect. The rectors have been Rev. W. O. Jarvis, who took charge Jan. 23, 1871, resigned Jan. 31, 1872; Rev. Dr. Hedges (*pro tem.*), resigned Sept. 30, 1872; Rev. Benjamin E. Reed, took charge Dec. 25, 1873. In the spring of 1877, the congregation having grown too large for the building, and the remoteness of the situation rendering its removal advisable, a joint-stock company was formed, under the title of "The Mount Calvary Building Association," which having purchased a lot seventy-five by one hundred and forty feet on Lafayette and Jefferson Avenues, erected (1877-78) a chapel with a seating capacity of three hundred and fifty, and at a cost of ten thousand dollars. This also has since proved too contracted, and the parish is contemplating the building of a large and handsome church capable of seating from eight hundred to one thousand. The present rector is also chaplain of the Episcopal Orphans' Home. The property on Grand Avenue still belongs to the parish. There are several societies belonging to the congregation,—a Humane Society (organized in 1872) for the relief of the poor, that has done important work, distributing in gifts about six hundred dollars per annum; a Sewing Society, Young Ladies' Association, Parish Library, Young Men's Guild, and a Missionary Society. In 1882 there were one hundred and eighty-six communicants, and the Sunday-school was attended by over thirty teachers and three hundred scholars.

Calvary Protestant Episcopal Church, an offshoot from Christ Church, was organized in August, 1859, by the Rev. J. W. Clark. Mr. Clark undertook the work with the understanding that there was to be no charge for pews or seats. At first the congregation worshiped in Veranda Hall, but soon after its organization steps were taken for the erection of a church building at the corner of Morgan and Twenty-first Streets, after designs by George Mitchell, of St. Louis. The corner-stone was laid on Sunday, June 4, 1860. The architecture was Gothic, of the early English style, and the exterior dimensions of the building, including vestibule, porch, and bell-gable, were to be one hundred and thirty-seven by fifty feet, affording about one thousand sittings. The material

to be used was brick with stone dressings, and the estimated cost was ten thousand dollars. Had it been completed it would have been the largest Episcopal Church in St. Louis, with the exception of the new Christ Church. The building committee was composed of E. Morgan, James Duncan, E. J. Cabbage, and Samuel Spencer. The church was never built. In his historical address, at the semi-centennial anniversary of Christ Church in 1869, Rev. Dr. Schuyler stated that the enterprise "soon died out."

St. James Protestant Episcopal Church, Elleadsville, Rev. C. S. Hedges, D.D., rector, was organized in 1870 (services having been held for a year before that), in which year the building of the church was begun. The edifice was completed and consecrated by Bishop Robertson, May 29, 1871. The rectors have been Revs. J. I. Corbyn, 1870-74; Louis S. Schuyler, 1874-75; D. E. Barr, 1875-76; and the present pastor since 1876. In 1882 there were twenty communicants, and forty pupils in the Sunday-school.

The Protestant Episcopal Church of the Holy Innocents, Oak Hill, Rev. Thomas H. Gordon, rector, was organized in the spring of 1871, Rev. Edwin Wickins holding the first services. The rectors have been the Revs. A. I. Samuels, M.D., 1871-72; J. N. Chestnutt, 1872-73; Louis S. Schuyler, 1873-78; A. Batte, 1879-80; Thomas H. Gordon since 1881. The church has no building of its own. The last report of the rector stated that there were fifty-five communicants, and ninety individuals connected with the Sunday-school.

The Protestant Episcopal Mission Church of the Good Shepherd, Eighth Street, between Lancaster and Pestalozzi Streets, Rev. H. A. Grantham, rector, was organized in March, 1871, in a building on Seventh Street, near Sidney, where the congregation worshiped until the completion of the present chapel in 1873. This building has since been enlarged. The rectors have been the Revs. Edwin Wickins, 1871-73; M. A. Hyde, 1873-75; H. D. Jardine, 1875-79; and the present rector since 1881. The communicants number one hundred and five, and the Sunday-school is attended by five teachers and fifty pupils.

St. Peter's Protestant Episcopal Church, Grand Avenue, between Olive Street and Washington Avenue, Rev. Edward F. Berkley, D.D., rector, was organized by its present rector in 1872, in a hall on the northeast corner of Jefferson Avenue and Olive Street, where worship was continued until the chapel now occupied was finished, in the fall of 1873. This chapel is of stone, of Gothic architecture, and will

seat two hundred and fifty persons. It stands in the rear of the lot bought by the church in 1872, on the northeast corner of Olive Street and Washington Avenue, the front part of which was sold after the erection of the chapel, fifty-five by one hundred feet being retained. The rector reports about sixty communicants, and one hundred and twenty pupils in the Sunday-school.

The Protestant Episcopal Church of the Good Samaritan, Rev. Cassius M. C. Mason, rector, was organized in 1873 by Rev. James E. Thompson, for colored members of the church. It was then called the Mission of our Saviour, and worshiped in the chapel of Trinity Church until 1875, when the old Jewish Synagogue, on Sixth Street, near Cerré, was purchased for its use. This building, however, was abandoned in 1881, the location having proved unsuitable, and the congregation now meets for worship in Trinity Church, at Eleventh Street and Washington Avenue. The second and present rector (appointed Sept. 26, 1880) reports forty-four families, or two hundred persons, with seventy communicants, as being connected with his church, and five teachers with ninety pupils in the Sunday-school.

The Protestant Episcopal Church of the Advent, Twentieth Street, near Wash, Rev. J. N. Chestnutt, rector, was formed out of a mission Sunday-school which was organized in 1871 and met in the Masonic Hall, corner of Wash and Eighteenth Streets, until 1876, when the present building was bought from the Presbyterians. It has since been much improved. The rectors have been the Revs. D. E. Barr, 1875-76; L. E. Brainerd, 1876-77; and the present pastor since 1877. There are eighty-three communicants, and ten teachers and seventy-five pupils in the Sunday-school.

St. Luke's Protestant Episcopal Mission was begun in 1881 in a hall at the corner of Garrison and Easton Avenues, where its services are still held. Rev. John Gierlow, Ph.D., is the rector.

UNITARIAN CHURCHES.

Church of the Messiah.—In the summer of 1830, Rev. Dr. John Pierrepont, an eminent Unitarian divine, poet, and temperance advocate, visited St. Louis and preached in the market-house at Main and Market Streets. Three years later Rev. George Chapman, a Unitarian minister from Louisville, Ky., preached three times in the parlor of the National Hotel, corner of Market and Third Streets, then just built. There existed in St. Louis at the time a small band of Unitarians, recent immigrants from New England, and among these Christopher Rhodes, James

Smith, and George H. Callender specially interested themselves in raising funds to provide for the rent of a room or hall and the board and lodging expenses of a minister. Their efforts resulted in the establishment in November, 1834, of regular religious exercises in Elihu H. Shepard's school-rooms, opposite the court-house. The minister was Rev. W. G. Eliot, Jr., then a recent graduate of the Harvard University Divinity School, and afterwards one of the most distinguished preachers and educators of St. Louis. On the 26th of January, 1835, "The First Congregational Society of St. Louis" was organized, with C. Rhodes as president, and Joseph M. Chadwick as secretary and treasurer. On the 1st of November of that year the society removed from the school-rooms to the third story of the Masonic Hall, at the corner of Main and Locust Streets, over John Riggins' store. This building is still standing, being one of the few business structures spared by the great fire of 1849. Previous to this, however, the society had purchased a lot at the corner of Fourth and Pine Streets. The corner-stone of the first church located on this site was laid in May, 1836, and the building was dedicated on the 29th of October, 1837. In 1842 it was enlarged, the addition being half the original size of the building, which, as remodeled, presented the appearance of a Grecian temple of the Doric order. In the winter of 1835-36 an informal association for the care of the poor, which has continued in active operation ever since, was organized. The first communion service was held at Easter, 1836, eight persons participating, and two years later, the number of communicants having doubled, a regular church covenant was adopted. In 1836 the first attempt was made to establish a Sunday-school, but it failed; eight teachers appeared, but no scholars. In the spring of 1837, however, a very small Sunday-school was organized, which in 1839 was put under the care of Seth A. Ranlett as superintendent, who served as such until 1870. In the fall of 1840 a "ministry at large" was established, Revs. Charles H. A. Dall, Mordecai De Lange, Carlos G. Ward, and Thomas L. Eliot, a son of Dr. Eliot, now settled at Portland, Oregon, successively, but irregularly, filling the position, and in November, 1841, the church members resolved themselves into a charitable association, with the minister at large as agent, for the conduct of schools for the poor, sewing and industrial schools, etc. For the use of these schools some years later a house and lot on Eighth Street, between Locust and St. Charles, were secured at a cost of fifteen thousand dollars. In 1879-80 the present mission house, a beautiful structure, situated at the southwest corner of Ninth and Wash Streets, was

erected and endowed, with provision for twenty-five constant inmates, orphans or neglected children. Here are conducted a day school of fifty children, for whom dinner is regularly supplied, and who receive more or less aid during the winter; a sewing-school, which meets on Saturdays, with two hundred and sixty scholars; and a Sunday-school with an attendance of nearly three hundred. Occasional Sunday services are held, although no minister at large is now employed.

On the 1st of May, 1850, ground was broken, and on the 1st of July following the corner-stone of a second church edifice was laid at the northwest corner of Olive and Ninth Streets, and the building, though not quite completed, was dedicated Dec. 7, 1851. It cost, when finished, one hundred and five thousand dollars, nearly half of which remained as a debt. For the purpose of devising a plan for the liquidation of this debt, a meeting of twenty gentlemen was held at the house of John Tilden, Oct. 19, 1852. Subsequently, by means of contributions varying from one hundred to three thousand dollars, several persons borrowing the money they gave, and the sale of pews, the whole amount was raised, and when all obligations were canceled a small amount remained over. The new church was a beautiful edifice of brick with stone cappings, and having a seating capacity of twelve hundred. It was situated on a lot, the dimensions of which were one hundred and five by one hundred and fifty-two feet, and had two fronts of seventy and one hundred and twenty feet respectively. The style of architecture was nominally "mixed Gothic," but possessed features original with the architect. Its general effect was that of breadth, solidity, and spaciousness. The building was regarded at the time as a model of good workmanship, and as being one of the finest and most durable church edifices in the city. The steeple was one hundred and sixty-seven feet in height, and was covered with thick copper plates from its base on the tower to its top. The church was sold in June, 1879, for seventy thousand dollars, and was converted into Pope's Theatre. Dr. Eliot continued as pastor of the society until the close of 1872, when he retired to become chancellor of Washington University, but at various times the pulpit was filled for continuous terms by other clergymen, either in the absence of the pastor or as his associates. Rev. W. O. White, of Keene, N. H., served for several months in 1846-47, and Rev. Robert Hassal was chosen as "colleague" during 1850, and Rev. Carlton A. Staples served in the same capacity from 1857 till October, 1861. Rev. Thomas Lamb Eliot was ordained as associate pastor in 1865, and continued as such until December, 1867. Rev. John

Snyder, of Hingham, Mass., was unanimously elected to succeed Dr. Eliot as pastor, and was installed April 20, 1873, Rev. Dr. Henry W. Bellows preaching the installation sermon. On the 6th of July, 1879, the last services were held in the old church, after which the congregation worshiped first in a small chapel on Beaumont Street, then at Pickwick Hall, and then in the Mission House at Ninth and Wash Streets. In November, 1879, ground was broken on the site of the new edifice, at the northeast corner of Garrison Avenue and Locust Street. The corner-stone was laid Feb. 1, 1880, and the finished building was dedicated Dec. 16, 1881 (although it had been occupied, in an unfinished condition, since Dec. 26, 1880), the sermon being preached by Rev. Dr. Henry W. Bellows. This discourse was the last from the gifted pen of that eminent minister, who died Jan. 30, 1882, in New York City.

The church is situated on a natural plateau one hundred and thirty-five feet square, raised several feet above the surrounding streets, to which the ground descends in terraces. It is built in the early English Gothic style, of blue limestone, quarried within the limits of St. Louis, laid in ashlar, and relieved by horizontal string-courses of drab sandstone from Warrensburg, Mo., which was also used for the facings of the doors and windows. The spire, of stone, is one hundred and forty-two feet in height, and about it the different parts of the church are picturesquely arranged so as to give them the appearance of a group of buildings. The furniture is of native, unpainted yellow pine, and the roof is of open timber-work, resembling that of Westminster Hall. The windows are nearly all memorial,—Hudson E. Bridge, Emily Frances Partridge Eaton, Georgiana C. Louderman, Ebenezer and Theoline Richards, Henry S. Reed, and Edward Y. and Susan A. Ware being thus memorialized. To the memory of James Smith a brass tablet has been erected in an arch of the eastern wall, and portraits of Seth A. Ranlett and of Henry Glover have been hung in the Sunday-school room. The church and ground, exclusive of the memorial windows, cost nearly one hundred and nine thousand dollars, and no debt remains upon them. In addition to the main building, which has a seating capacity of seven hundred, there are a chapel which is used for the Sunday-school, class- and library-rooms, sewing-room, pastor's study, a dining-room, and kitchen. The Church of the Messiah has always borne a prominent and active part in benevolent and educational work, and there is no charity in the city, Protestant, Catholic, or secular, to which its members have not been contributors. During the last twenty-five years the congregation has

annually given for extra religious work over forty thousand dollars. There are two hundred and twenty-five families connected with the congregation, and the Sunday-school has an average attendance of ten teachers and one hundred and fifty scholars. Rev. John Snyder is still pastor.

The history of the Church of the Messiah, as will be seen from the foregoing narrative, is conspicuously identified with that of the ministry of the Rev. W. G. Eliot, D.D., president of the Washington University, who was pastor of the congregation from November, 1834, until the close of 1872. Dr. Eliot's career in St. Louis has been one of remarkable energy, usefulness, and self-denying zeal. Both as pastor of the Church of the Messiah and head of the Washington University, he has been a prominent figure before the public of St. Louis for many years, and one of the ablest and most untiring promoters of religious, benevolent, educational, and reformatory enterprises, as well as of the moral and social progress of the community at large. He has been called "the most accomplished and successful beggar" for charitable objects of modern times; and while competency after competency has been presented to him unconditionally, he has invariably disposed of them in such manner as he deemed most likely to produce permanently good results.

Church of the Unity.—The Church of the Unity (Unitarian) is situated at the northeast corner of Park and Armstrong Avenues, and the pastor is Rev. J. C. Learned. In May, 1868, a few gentlemen, anticipating the formation of a new Unitarian Society, purchased for twelve thousand five hundred dollars a lot of ground at the above location, having a frontage of one hundred and sixty-five feet on Armstrong Avenue. When, in the following June, the congregation was organized and incorporated, the ground was conveyed by its purchasers at cost to the society, the incorporators of which were William H. Pulsifer, E. S. Rowse, William H. Maurice, J. S. Cavender, F. B. Homes, C. L. Dean, William N. Hinchman, J. P. Young, and C. L. Bush. The trustees set apart for sale seventy-five feet of the rear of the lot fronting on Park Avenue, and reserved the corner lot, fronting one hundred and twenty feet on Armstrong Avenue, for the erection of a large church edifice. Upon the remaining forty-five feet they built a neat Gothic chapel, thirty-five by sixty feet, and capable of seating two hundred and fifty persons. The corner-stone was laid Aug. 5, 1869, Rev. Mr. Staples, of Chicago, formerly associate of Dr. Eliot in the pastorship of the Church of the Messiah, and Rev. Mr. Harrison, of Bloomington, Ill., officiating. The building was dedicated May 15, 1870, the cost of its erection having been

about ten thousand dollars. Rev. John C. Learned has been pastor since his appointment in April, 1870. This church is an offshoot of the Church of the Messiah, and its creed is based not upon a declaration of belief, but upon an acknowledgment of duties. About one hundred families are connected with the church, and eighteen teachers with one hundred scholars compose the Sunday-school.

EVANGELICAL CHURCHES.

The earliest German Protestant organization in St. Louis was that of the "German Evangelical Church of the Holy Ghost," which was established in 1834. Its membership embraced both the Lutheran and Reformed denominations, which continued to worship together for nine years. In the year 1842, however, dissensions arose on points of doctrine, and in July, 1843, the pastor of the Church of the Holy Ghost, Rev. G. W. Wall, with Messrs. Buenemann, Schmidt, W. Schrader, Jacob Westerman, and seventy-two others, who adhered to the doctrines of the Reformed denomination, withdrew, and on the 31st of July organized the "German Evangelical Congregation of St. Louis." They worshiped in the Benton school-house on Sixth Street, between Locust and St. Charles Street, until 1845, when they erected two churches, one called the North Church, afterwards St. Peter's German Evangelical Church, at Carr and Fifteenth Streets, and the other known as South Church, afterwards St. Marcus' or St. Mark's Church, at the corner of Jackson and Soulard Streets. Both were alike in size and design, each being thirty by forty feet in dimensions, and remained the common property of the congregation until 1856, when a division was effected, and two distinct churches were organized. "The German Evangelical Congregation of St. Louis," organized in July, 1843, formed the nucleus of the "Evangelical Synod of the West," which has since spread over the United States. This Synod, in conjunction with a few congregations in Canada, is called "The German Evangelical Synod of North America," and being the American Branch of the Prussian State Church, it receives biennially the interest on a large fund which was subscribed some twenty years ago by the Evangelical congregations of Prussia for the benefit of their brethren in this country. The German Protestant Orphans' Home, formerly within the city limits, but now ten miles from the court-house on St. Charles Rock road, was organized by the German Evangelical Synod, as was also the Good Samaritan Hospital, Twenty-fifth and O'Fallon Streets. The same Synod is about to erect near St. Louis a building for its theological seminary. This seminary,

under the name of the Missouri College, has been located for about thirty-five years at Femme Osage, in St. Charles County, Mo., but will soon be removed to St. Louis. A building-site of eighteen acres has been secured on the St. Charles Rock road, seven miles from the court-house, just on the edge of the city limits, at an expense of nine thousand eight hundred dollars. Plans for the main building have been prepared, and the work is under way. The main building will have a front of one hundred and sixty-four feet, basement, three stories and attic, with tower. It will contain all the modern improvements, and have room for one hundred students. The cost, without furniture, will be fifty-six thousand dollars, and it will be completed by the fall of 1883. Rev. Louis Hacberle is inspector of the institution, and Rev. C. Kungmann the first professor, besides other teachers from the city. The Synod is divided into seven districts, and has four hundred and fifty ministers and upwards of five hundred congregations. It owns another college for ministers and teachers at Edinburgh, Page Co., Ill., sixteen miles northwest of Chicago.

The Independent Evangelical Church of the Holy Ghost was the outgrowth of the original German Evangelical Church of the Holy Ghost, which, as previously stated, was organized in 1834, and comprised both the Lutheran and Reformed congregations. The old congregation first met in the Methodist building at Fourth Street and Washington Avenue, but in January, 1839, removed to the directory of the First Presbyterian Church, on Fourth Street, between Washington Avenue and St. Charles Street. It had previously purchased a lot at Seventh Street and Clark Avenue, and here a building was erected and dedicated on the 9th of August, 1840. Rev. G. W. Wall had been appointed pastor in December, 1836, and was assisted at the dedication by the Rev. Louis E. Nollau, pastor of what was then known as the Gravois settlement. In 1843 the division of the congregation, resulting from the withdrawal of the adherents of the Reformed Evangelical Church, led to the organization of the remaining members of the congregation into the Independent Evangelical Church, which has continued as such ever since. In 1858 the present church, situated at the corner of Eighth and Walnut Streets, and known for some years as Pastor Krebs' Church, was erected. It is a substantial brick building, with a Gothic front, seating about two thousand persons, and has a parochial residence attached. In 1869 three schools had been organized in connection with the church,—one in the basement of the building on Eighth Street, with one hundred and

seventy-five scholars; one on Eleventh Street, between Carr and Biddle, with four hundred scholars; and the third on Decatur Street, between Geyer Avenue and Ann Street, with about one hundred and fifty scholars. The church is now so far from the residence centre of the city that a removal farther west will doubtless soon be effected. The congregation numbers two hundred and fifty families, with five hundred communicants, and there are six teachers and sixty scholars connected with the Sunday-school. Rev. J. G. Eberhard is the pastor.

St. Marcus or St. Mark's German Evangelical Church, situated at the corner of Soulard and Jackson Streets, Rev. John H. Nollau, pastor, was one of the three churches which sprang from the old German Evangelical Church of the Holy Ghost, the history of which, with which its own is identical until July, 1843, has already been narrated. On the 31st of that month Pastor Wall and seventy-six members of the original congregation withdrew and organized the German Evangelical congregation, from which subsequently sprang both St. Mark's and St. Peter's Churches. A building known as the South Church was erected at Soulard and Jackson Streets, and was dedicated on the 14th of December, 1845. Its dimensions were thirty by forty-five, and it remained, together with the North Church, the joint property of the association until 1856. In that year the congregation was divided, and the church at Soulard and Jackson Streets was thenceforth known as St. Mark's.

Pastor Wall was called to the Gravois settlement, and Pastors Cavizel, Ries, and Baltzer preached at both city churches until the separation in 1856, when Pastor Baltzer remained with St. Mark's until September, 1848, and was followed by Pastor Meier, until May, 1849, and Rev. W. Binner, until May, 1850, who resigned to take the presidency of the Evangelical Seminary at Marthasville. Pastor Wall was then recalled, and remained until his death, April 20, 1867. During his pastorate of seventeen years he twice represented the American congregations at the General Synod held in 1852 at Bremen, Germany, (Rev. C. Nestel supplying the pulpit in his absence), and in 1864 at Altenburg, Germany. During his absence on this occasion Rev. P. F. Meusch officiated at St. Peter's. In the spring of 1866 the first church building was torn down and the present one erected on its site. The corner-stone was laid Aug. 12, 1866, and the building dedicated Aug. 4, 1867. It is a two-story brick building with stone ornamentation, and its dimensions are fifty and one-half feet by ninety feet. Its seating capacity is eight hundred persons, and its whole cost, including organ and fur-

nishing, was thirty thousand three hundred and twelve dollars. The church lot is one hundred feet square, and contains also a parsonage and three large classrooms, in which a parochial school is conducted. Pastor Meier, a student of the seminary, preached for a few months after the death of Pastor Wall, and subsequently Rev. Henry Braschler became pastor, and remained until May, 1875. He was succeeded by Rev. J. Hoffman, who served until the fall of 1877, and Rev. J. H. Nollau, who has been pastor since Dec. 10, 1877. In 1856 this church bought a cemetery, known as St. Mark's, on Gravois road, seven miles from the court-house, and containing about thirty-seven acres. Before this it owned, in common with St. Peter's Church, a cemetery on Cherokee Street and Lemp Avenue, which has not been used for burial purposes since 1857. Connected with the church are a Benevolent Ladies' Society, reorganized October, 1877, and having now one hundred and one members; a Young Men's Christian Association, organized 1879; a Young Ladies' Society, organized February, 1882, and having forty-five members; a day school, established when the congregation was first organized, and which is attended by from sixty to one hundred pupils, under the charge of C. Braeutigam, and a Sunday-school with twenty-three teachers and six hundred and fifty pupils, organized in 1873, the pastor being its superintendent. The congregation numbers about one hundred and twenty families.

St. Peter's German Evangelical Church was one of the two Reformed congregations founded by Pastor Wall, of the Church of the Holy Ghost, in 1843. It was organized in 1844, and the first building occupied was erected at the corner of Sixth Street and Franklin Avenue in 1846, but was torn down on the removal (in 1850) of the congregation to the present building at Fifteenth and Carr Streets. It is a plain brick structure, with a steeple, and its dimensions are thirty by forty-five feet, with a seating capacity, including the gallery, of about one thousand. The first pastor was the Rev. Mr. Ries, the elders at that time being W. Shrader, H. Saeger, F. Riecke, W. Leunebrink, F. Dieckmann, D. Voepel. W. Shrader was also trustee. Since the pastorate of Mr. Ries the ministers in charge have been Louis E. Nollau, appointed Sept. 6, 1852; A. W. Roeder, appointed Oct. 10, 1860; E. Roos, appointed Sept. 26, 1870; A. B. P. J. Thiele, appointed March 1, 1880. The Sunday-school, organized in 1851, has now twenty-five teachers and three hundred and seventy-five scholars. The average attendance at the services numbers nearly six hundred persons. A Young

Men's Christian Association, organized in 1853; a Ladies' Aid Association, organized in the same year; a Young Ladies' Aid Association, organized in 1872; and Men's Aid Society (consisting only of members of the church), organized Feb. 19, 1872, are connected with St. Peter's Church.

St. Paul's German Evangelical Church, corner of Decatur Street and Lafayette Avenue, was organized Oct. 23, 1848, by Messrs. Jacob Kleiber, William Hogan, John Machenheimer, Frederick Christopher, George Henkler, Henry Hirb, Chr. Dietrich, Melchior Siemann, Jacob Schleyer, Martin Uebel, Frederick Weber, and Jacob Kleiber, Sr., with Rev. A. Baltzer as pastor. The present lot, one hundred and thirty by one hundred and twenty feet, was purchased and the erection of a building was begun during the same year. The church was completed and dedicated in 1849. It was a two-story brick building with school-rooms in the basement, and seated about five hundred persons. Pastor Baltzer was succeeded by the following: Revs. I. Will (who served ten years), J. C. Seybold, Dr. R. Yohn (who served fifteen years), C. A. Richter, Otto Telle (served ten months), Jacob Irion, and J. F. Köwing (acting temporarily in 1882). The society was incorporated Jan. 23, 1877, with H. H. Schweer, J. E. Brandenburger, Henry Spengemann, Henry Roth, John H. Baumann, and Henry Wiebusch as corporators, under the title of "The German Evangelical St. Paul's Congregation at St. Louis." Upon the lot are situated, besides the church, a parsonage, a young men's hall, and a parochial school which numbers sixty pupils. Connected with the congregation are a Young Men's Christian Association of sixty members; a Ladies' Missionary Society, sixty members; and a Young Ladies' Society, fifty members. About four hundred people compose the congregation, and the Sunday-school has twelve teachers and three hundred and fifty scholars. The church property is valued at sixty thousand dollars.

St. John's German Evangelical Church.—This church, situated at the southeast corner of Madison and Fourteenth Streets, Rev. Gottlieb Mueller, pastor, was organized in 1855, and has grown to be a large congregation. The church building, erected about the same year, is a fine Gothic brick structure, forty by seventy-five feet, with a spire, and is situated on a lot ninety by one hundred and seventy-five feet. Adjoining the church is a commodious parsonage. The parochial school is attended by four teachers and about four hundred and fifty pupils.

German Evangelical Friedens Church was organized in March, 1858, by its present pastor, Rev.

John M. Kopf, and first met for worship in the Fairmount Presbyterian Church building, at Ninth Street and Penrose Avenue, which was subsequently sold to the Congregationalists and is now Hyde Park Church. The corner-stone of the present building, which is situated at the southwest corner of Newhouse Avenue and Thirteenth Street, was laid in August, 1860, and the building was dedicated in April, 1861. It is a handsome Gothic structure of brick, forty-six by seventy-five feet, with a tall spire, and has a seating capacity for one thousand persons. On the church lot, the dimensions of which are one hundred by one hundred and twenty-three feet, are also situated the pastoral residence and the parochial school building. Connected with the latter are three teachers and two hundred and twenty pupils. The congregation comprises one hundred and fifty families, numbering fifteen hundred persons, and there are about eight hundred communicants. The Sunday-school comprises fourteen teachers and five hundred scholars. Several societies are maintained by the congregation, among them the ladies', young men's, and singing societies, and an association for the relief of widows and orphans. The church property is valued at thirty-seven thousand dollars.

Bethania German Evangelical Church was organized on the 15th of May, 1867, by Rev. Christopher F. Stark, now pastor of Bethlehem Church, in a hall at the southeast corner of Twenty-third Street and Franklin Avenue. It worshiped at first in a small chapel situated at the southwest corner of Twenty-fourth and Carr Streets, where Carr Lane School now stands, which was purchased from the Methodist denomination, the price paid for the building and lot (one hundred by seventy-five feet) being six thousand dollars. The chapel was a low one-story brick building, thirty by forty feet, and seating about three hundred persons, in the rear of which the congregation erected a substantial brick school-house. The erection of the present building at the northeast corner of Twenty-fourth and Wash Streets was begun in 1874 and finished in 1875. Rev. Mr. Stark resigned Jan. 1, 1878, and was succeeded by Rev. M. Herberg, who served less than a year, the present pastor, Rev. Lewis Austmann, succeeding towards the close of 1878. The church property, including lot fifty by one hundred feet, is valued at thirty thousand dollars. Connected with the congregation are about eighty members, a Sunday-school with twelve teachers and one hundred pupils, a parochial school with two teachers and fifty pupils, a singing society of twenty members, and Bethania Cemetery of sixteen acres, situated on St. Charles

Rock road, seven miles from the court-house, established about 1871.

Independent Evangelical Protestant Church (German).—This congregation, which numbers from six hundred to eight hundred members, worshiped originally in a church at the corner of Mound and Eighth Streets, which was purchased by it from the Presbyterians in 1856. The building occupied a lot seventy-five by seventy-six feet, and its own dimensions were fifty-four by thirty-six feet, affording a seating capacity for about five hundred persons. The lower story was used by a primary school, which numbered one hundred and fifty children. The building was of brick and had a small steeple. About 1868 the building was sold to an independent Baptist organization, and the German congregation erected a new church edifice ninety-two by fifty-six feet, with a steeple one hundred and seventy-four feet high, on the lot at the northeast corner of Webster and Thirteenth Streets, which is still occupied by the congregation. Rev. P. Godfrey Gerber was the pastor in 1869, and the present pastor is the Rev. John F. Jonas. There is no Sunday-school connected with the church.

Carondelet German Evangelical Church was organized by the Rev. John Will, who served as its first pastor, on the 7th of November, 1869. It is situated at Fourth Street and Koeln Avenue, South St. Louis, and the present pastor is the Rev. E. Berger. The corner-stone was laid in November, 1869, and the completed building was dedicated in November, 1870. It is a brick structure forty-two by seventy-two feet. Connected with the church are one hundred and fifty families, two hundred and seventy-seven communicants, nine teachers, and one hundred and twelve pupils in the Sunday-school, an Evangelical Young Men's Society, organized in 1880, and a parochial school, organized in 1882, with thirty-eight pupils.

Zion's German Evangelical Church, Rev. J. Henry Klerner, pastor, is located at the corner of Benton and Twentieth Streets. It was organized in 1869, in the hall of a market-house at Eighteenth and Montgomery Streets, the incorporators being J. H. Lippelman, Henry Klages, G. Frederick, and Rev. A. Müller. The first building occupied by the congregation stood at the corner of Nineteenth and Montgomery Streets. Its corner-stone was laid in the fall of 1869, and the church was dedicated in the fall of 1870. It was converted into a dwelling-house after the congregation had removed to its present location, in the fall of 1872. The pastors have been Revs. A. Müller, F. Koewing, and J. H. Kler-

ner. A Christian Aid Society, Ladies' Society, and Young Men's Society are maintained in connection with the regular organization of the church.

St. Lucas German Evangelical Church, situated at the northeast corner of Scott and Jefferson Avenues, Rev. Henry Walser, pastor, was organized in 1870 by Pastor Reusch, who was succeeded by Pastor Jungk, and in 1881 by the present incumbent. A small chapel was first erected on the rear portion of the church lot, which is now used as the parish school. An addition to it, which is used as the teacher's residence, has been built, and the school is attended by seventy-five pupils. The present elegant Gothic church edifice, of brick, forty by seventy feet, with a seating capacity of eight hundred, was built in 1878. The parsonage, on Jefferson Avenue adjoining the church lot, was erected in 1882, and is a neat and commodious dwelling. The membership of the church numbers nearly two hundred persons, and the Sunday-school is attended by fifteen teachers and seventy-five scholars.

St. Matthew's German Evangelical Church was organized Nov. 14, 1875, at the private school-rooms of G. H. Braeutigam, on Carondelet Avenue near Anna Street, the incorporators being Henry Braschler, Nicholas Frank, William Kollmeyer, John Voepel, and Louis Hunt. Besides these, P. Hueffner, P. H. Sauerwein, W. Winefeld, G. Schildroth, and a few others were the first members. The corner-stone of the church building, 3331 South Seventh Street, was laid Nov. 28, 1875, and the building was dedicated March 5, 1876. Rev. Henry Braschler has been the pastor from the first. The choir and Sunday-school were organized in March, 1876. The latter now numbers over three hundred scholars. The pastor resides in the church building, in which is also maintained a day school attended by fifty scholars, and conducted by Rev. Henry Drees, assistant pastor of the church. It was organized in 1879. The parish numbers about fifty families.

ST. MATTHEW'S CEMETERY, Pennsylvania Avenue and Morgan Ford road, is connected with St. Matthew's German Evangelical Church. The corporation was chartered April 18, 1878, with Charles Bauer, Henry Braschler, William Kollmeyer, William Habighorst, and Conrad Brinkmann as incorporators. It is distant three miles from the church, contains twelve acres, and is handsomely laid out and ornamented. The sale of lots is not confined to members of the church, but is open to all.

Bethlehem Church.—The congregation of Bethlehem German Evangelical Church was organized by its present pastor, the Rev. C. F. Stark, with twenty-

five members, on the 6th of January, 1878, in the church built by the Beaumont Street Baptist congregation, at the northeast corner of Morgan and Beaumont Streets. The Evangelical congregation rented the building, and occupied it for about one year and a half, at the expiration of which it was sold to the Turners. Their present building, situated at the northwest corner of Elliott Avenue and Wash Street, was purchased in January, 1881, from the congregation of St. Mark's English Lutheran Church, which had erected it at a cost of twenty-two thousand dollars. It is a brick edifice forty-six by eighty feet, with a capacity for seating five hundred persons, and has two stories, the first of which is used by a day school, attended by one teacher and thirty pupils, and a Sunday-school of seventy-five scholars, under the charge of the pastor and one teacher, and as a lecture-room. The lot is fifty by one hundred and thirty-five feet. About fifty families compose the congregation, and the communicants number seventy.

EVANGELICAL LUTHERAN CHURCHES.

In 1838 a body of Lutherans who had been subjected to persecution by the government of Saxony on account of their adherence to the doctrines of the Augsburg Confession of Faith emigrated to this country and settled partly in St. Louis and partly in Altenburg, Perry Co., Mo. Those who made St. Louis their home arrived there in the winter or early spring of 1839, and applied to the rector of Christ Church for permission to use the church building for their services. The request was granted, as appears from the following notice, which was read by the rector, Bishop Kemper, in the church one Sunday in March of that year:

"NOTICE.—A body of Lutherans, having been persecuted by the Saxon government because they believed it their duty to adhere to the doctrines inculcated by their great leader and contained in the Augsburg Confession of Faith, have arrived here with the intention of settling in this or one of the neighboring States, and having been deprived of the privilege of public worship for three months, they have earnestly and most respectfully requested the use of our church that they may again unite in all the ordinances of our holy religion. I have therefore, with the entire approbation of the vestry, granted the use of our church for this day from 2 P.M. until sunset to a denomination whose early members were highly esteemed by the English Reformers, and with whom our glorious martyrs Cranmer, Ridley, and others had much early intercourse."

This congregation of Lutherans occupied the basement of the church for three years from 1839 to 1842.

They established the first Evangelical Lutheran congregation of the Unaltered Augsburg Confession in St. Louis, which soon began to grow rapidly in membership and wealth. In 1869 four congregations had been established, with two large churches and over

six hundred communicants. There are now twelve churches of this denomination in St. Louis subject to the Evangelical Lutheran Synod of Missouri, Ohio, and other States, which, with three other Synods, constitutes the "Synodical Conference." The Synod of Missouri, etc., is now divided into eleven districts, with over eight hundred ministers, and owns and maintains the Concordia College and Theological Seminary in St. Louis, Concordia College at Fort Wayne, Ind., the Theological Seminary at Springfield, Ill., and the Teachers' Seminary at Addison, Ill. It also possesses an extensive printing establishment and book-store, situated on the northwest corner of Miami Street and Indiana Avenue, which is the central supply depot of the Synod, and at which are published *Der Lutheraner*, *Lehre und Wehre*, and *Evangelisches lutherisches Schulblatt* (three semi-monthly journals), *Magazin für Evangelischelutherische Homiletik* (monthly), the *St. Louis Theological Monthly*, and *The Lutheran Witness*. Members of this denomination settled in the vicinity of Concordia College and the Church of the Holy Cross form a large and wealthy community.

Concordia College and Theological Seminary was established jointly by the congregations of St. Louis and Altenburg, Mo., in 1842, and was located at Altenburg, but in 1850 it was removed to St. Louis, where the first college building had just been erected. The dedication of this structure took place July 11, 1850. In 1851 the ownership of the college was transferred by the joint congregations to the Synod of Missouri, Ohio, etc. In the summer of 1882 the first college building was demolished, and on its site is being erected a much larger and more imposing edifice, the corner-stone of which was laid Oct. 1, 1882. It is to be of Gothic architecture, with a central steeple one hundred and thirty-six feet in height, and the main building and two wings will have a frontage of two hundred and thirty-four feet. The depth will be sixty-four feet, and the buildings will contain a vestibule, a class-room for one hundred students, four class-rooms for sixty-eight students, a library- and reading-room, a number of smaller dwelling and sleeping apartments, bath-rooms, etc. In the basement of the tower there will be a gymnasium sixteen feet in height. The college will accommodate two hundred students. It was attended during 1882 by ninety-two students, and has a faculty of five professors. The college grounds, which are three hundred and fifty by two hundred and twenty-five feet in size, are situated on Jefferson Avenue and Winnebago Street, and in addition to the main building, are occupied by several smaller houses connected with the institution.

Dreinigkeits Church, U. A. C.¹—It has already been related how, in 1839, a body of Lutheran immigrants procured permission from Bishop Kemper to hold religious services in the basement of Christ Protestant Episcopal Church, and how the congregation continued to worship there until 1842. This society of Lutherans was organized under the name of the "Dreinigkeits" (or Trinity) Church of the Evangelical Lutheran denomination, and was the first or original congregation, from which sprang all the other German Lutheran Churches of St. Louis. In 1842 the congregation removed to a building of its own, on Lombard Street. The present building, at the southeast corner of Lafayette and Eighth Streets, was erected in 1865. It is a handsome brick structure in the Gothic style, and has a tower two hundred feet high. The nave measures sixty by one hundred and ten feet, and the transepts forty-five by ninety feet, and the building is capable of seating fifteen hundred persons. The dimensions of the lot, on which a fine parsonage is situated, are one hundred and fifty by one hundred and forty feet. The total cost of the ground and buildings was one hundred and twenty thousand dollars.

The pastors have been Revs. Hermann Walther, Z. F. W. Walther (brother to the former), Pastors Wienigen, Schaler, Brauer, and the present pastor, Rev. Otto Hanser. The parochial schools are conducted in two buildings, one on Victor Street and the other at Eighth and Barry Streets. They are attended by six teachers and four hundred scholars, who, in lieu of attending Sunday-school, assemble at stated periods for instruction and examination in religious subjects. The congregation embraces two hundred and twenty-five families.

Immanuel's Church, U. A. C.—Immanuel's Evangelical Lutheran Church, U. A. C., situated at the southeast corner of Morgan and Sixteenth Streets, was organized in 1848 by the Rev. F. Buenger, its first pastor, who died Jan. 23, 1882. His successor was the Rev. Gustavus Wangerin, who took charge on the 16th of August following, and is still the pastor. The first church erected by the congregation stood at the corner of Eleventh Street and Franklin Avenue. It was destroyed by fire on the 9th of December, 1865, the walls only being left standing. These were at once roofed over, and the building was still used for worship until the present edifice was ready for occupancy, when the former property was

sold and converted to business purposes. The present church was dedicated March 22, 1868, and the exercises were continued on the following day, Monday, March 23d. It is a noble Gothic edifice of brick, sixty by one hundred and thirty-five feet, and will seat fifteen hundred persons. The steeple is two hundred and nine feet, and rises from the main portal. Situated on the same lot are a handsome pastoral residence and a fine parish school building sixty feet square and two stories high, capable of seating three hundred and eighty-four scholars. There are three teachers and one hundred and eighty-eight pupils connected with the school. The cost of the ground and buildings was about one hundred and eighteen thousand six hundred dollars. The congregation comprises one hundred and eighty families and a membership of five hundred persons. The Norwegian Evangelical Lutheran Church, Rev. J. Johansen, pastor, a small congregation of about twenty families, assemble for worship in the parish school building on Sundays.

Evangelical Lutheran Church of the Holy Cross (Saxon).—This congregation, whose church is located on Miami Street, between Texas and Ohio Avenues, Rev. G. Stoekhardt, pastor, was organized in 1858 as the Third District of the First Evangelical Lutheran Congregation of the Unaltered Augsburg Confession in St. Louis, and until the erection of the present church building held its religious services at Concordia College. The corner-stone of the church building was laid on Trinity Sunday, 1867, and the edifice was dedicated on the second Sunday in Advent, 1867. It is located on the old cemetery of the congregation, which is no longer used for burials, this church, together with Dreinigkeits Church, now owning a cemetery near Gravois road. The old graveyard is three hundred by five hundred feet in area, and the church building is forty-five by sixty-five feet, and has five hundred seats. It cost thirty thousand dollars, and is a handsome edifice of modernized Gothic architecture. The tower and steeple are one hundred and seventy-five feet in height, and the general appearance of the structure is very pleasing. The parsonage on Texas Avenue stands on a lot fifty by seventy-five feet, and the house and lot are valued at two thousand dollars. The church has had two pastors,—Rev. Theodore Brohm, appointed June 22, 1858, and Rev. G. Stoekhardt, Oct. 13, 1878. The parish comprises one hundred and twenty-five families, or about six hundred and fifty persons, in addition to the students of Concordia College, and there are five hundred communicants. No Sunday-school is conducted by the church, but the parish maintains a

¹ The initials U. A. C. are an abbreviation of the term Unaltered Augsburg Confession, used to distinguish this particular branch of Lutherans.

flourishing day school, attended by three teachers and one hundred and eighty pupils. It was established in 1850, and first occupied a building erected for the purpose in 1851 in the Concordia College grounds. The present school-house is situated on the northwest corner of Ohio Avenue and Potomac Street. It was built in 1872, is thirty-five by sixty feet in size, and will seat two hundred and ten pupils.

St. Trinity Church (German), U. A. C., east side of Sixth Street, between Robert and Koeln Streets, South St. Louis, Rev. C. F. W. Sapper, pastor, was organized in 1860, and the first house of worship was dedicated on the third Sunday in Advent of that year. It is a two-story brick building, twenty-eight by forty feet, situated opposite the present church. It was used both for worship and school purposes, but is now entirely occupied by the school. The present edifice was dedicated on the third Sunday after Trinity, 1873. It is a handsome Gothic structure of brick, forty-five by one hundred feet, with a spire one hundred and fifty feet high, and will seat six hundred persons. The lots owned by the church measure two hundred by one hundred and fifty feet, and the property is valued at twenty-five thousand dollars. The pastors have been Rev. O. Hanser, appointed in 1860; Rev. M. Hamann, appointed in 1862, and the present pastor, who has served since 1866. This was the first German, and is still the only Lutheran congregation in Carondelet. It embraces one hundred and twenty families, with one hundred and five voting members, and eight hundred communicants. The parochial school, established simultaneously with the church, is conducted by two teachers, and attended by one hundred and twenty pupils. The cemetery connected with the church is located on Lami Ferry road, two miles south of Carondelet.

Zion Church, U. A. C. (German), situated on the southeast corner of Warren and Fifteenth Streets, Rev. George Link, pastor, was organized in 1860 by Rev. Frederick Boese, its first pastor. The present pastor was appointed in August, 1873. The church is a brick edifice, forty-five by seventy-five feet, of two stories, with a lecture-room on the first floor. A fine parsonage adjoins the church on the east. The parochial school building, erected in 1868, stands in the rear of the church, and the school comprises four teachers and two hundred and twenty pupils. The church lot is one hundred by one hundred and eight feet. Two hundred and twenty families compose the parish, and the communicants number twelve hundred. As is frequently the case in this denomination, no regular Sunday school is conducted, but the chil-

dren of the parish school are required to attend a class for instruction and examination in the catechism, the pastor conducting it in person.

St. Paul's Church (German), U. A. C.—The Evangelical Lutheran St. Paul's Church (German) was organized in 1862 at Lowell, North St. Louis, and first assembled for worship in a hall on what is now De Soto Avenue and Benedict Street, and in 1863 built a small frame church, which has since been converted into a dwelling. Rev. G. R. A. Claus, who organized the congregation, was its first pastor. The corner-stone of the present building, which is situated at the northeast corner of Prairie Avenue and Von Phul Street, was laid on Sunday, July 28, 1872, and the completed structure was dedicated May 25, 1873, Rev. J. H. Ph. Graebner, of St. Charles, Mo., preaching the sermon. On this occasion the second pastor of the church, Rev. I. Achilles, was installed. It is a brick building with a steeple, and its dimensions are thirty-four by sixty-eight feet. In the first story the parochial school is located, with two teachers and one hundred and two pupils. The present pastor, Rev. C. C. E. Brandt, was installed on Nov. 5, 1876, Revs. Professor G. Schaller, George E. Link, O. Lenk, and M. Hein being the officiating clergymen. There are now one hundred and five families, about five hundred persons, connected with the church, of whom fifty-two are members (voters), and three hundred and forty-five communicants. There are a Young Men's and Young Ladies' Society in full vigor, and in lieu of Sunday-school the pastor conducts a catechism class and examinations on Sunday afternoons.

St. John's Church (German), U. A. C., corner of Morgan Ford road and Chippewa Street, was organized in 1865 by Professor August Craemer, its first pastor. The congregation worshiped in the Episcopal Church until, in 1866, it began to occupy its present building, a frame structure with a seating capacity of one hundred and fifty. The church owns one acre of land, and is about to erect a second and larger building. Rev. Hermann Bartels, its second and present pastor, was ordained and installed by Professor Craemer, Aug. 1, 1875. About sixty families, with two hundred communicants, are connected with the congregation. The Sunday-school has eighty pupils, and the parochial school the same number.

Bethania Church, U. A. C. (German), Natural Bridge road, near Spring Avenue, Rev. M. Martens, pastor, was organized in 1872, by Mr. Mangold, who had previously conducted a private school, which then became the school of the parish. Rev. Mr. Heine was the first pastor. The congregation numbers about sixty members, and there are seventy pupils connected

with the day school. The building is a frame chapel, which is also used for the day school, under the charge of H. Papke.

St. Mark's English Lutheran Church.—St. Mark's English Evangelical Lutheran Church was organized on the 14th of May, 1867, at the residence of John A. J. Shultz, No. 1116 North Twentieth Street, by John A. J. Shultz, D. C. Siegrist, R. R. Honeyman, and their wives, with others. Their first house of worship was situated at the corner of Wash Street and Elliott Avenue. Its corner-stone was laid Sept. 6, 1868, and the completed building was dedicated on the 21st of January, 1872. The edifice was of brick, of Doric architecture, and its erection was superintended by G. W. Berry, after designs by C. S. Artaugh. The dimensions of the building were forty-five by sixty feet, and those of the lot on which it stood fifty by one hundred and thirty-two feet. The exterior was plain, but the interior is described as having been neat and attractive. Rev. Mr. Rhodes officiated, and the music was rendered by the "St. Cecilia Vocal Union," directed by Professor Malmene. The building cost twenty-two thousand dollars, and was sold in 1881 for seven thousand five hundred dollars. The church has had three pastors,—Rev. S. W. Harkey, D.D., Professor J. B. Corbet, and Rev. M. Rhodes, D.D.

At the beginning of Dr. Rhodes' pastorate, ten years ago, the congregation numbered only twenty members, and the church was embarrassed with a debt of twelve thousand dollars. This has since been paid off, and the membership has increased tenfold. The congregation is in a highly prosperous condition, and during the last ten years has contributed thirty thousand dollars to the benevolent operations of the church. The lot at the southwest corner of Bell Street and Cardinal Avenue, on which the present edifice stands, is most eligibly situated for its purpose. It is seventy-five by one hundred and thirty-four feet in area, and was purchased in 1880 for five thousand two hundred and fifty dollars. The corner-stone of the building was laid May 29, 1881, and the lower or lecture-room was first occupied Feb. 19, 1882. The completed church was formally dedicated Sunday, Oct. 1, 1882, on which occasion the exercises were participated in by a number of ministers from other churches, among whom were Rev. Drs. W. V. Tudor, James H. Brooks, W. W. Boyd, C. E. Felton, C. L. Goodell, H. D. Ganse, T. M. Post, and Rev. W. H. Black, of St. Louis; Rev. Dr. S. A. Ort, president of Wittenberg College, Springfield, Ohio; Rev. Dr. G. F. Stelling, of Omaha, Neb.; Rev. Dr. F. Springer, president of the Synod of Central Illinois, and others. The edi-

fice, which is entirely unique among the churches of the city, was designed and erected under the supervision of C. K. Ramsey, architect, and combines several styles of architecture, English Gothic predominating. The exterior dimensions of the building are seventy-five by one hundred and twenty feet. The main auditorium is sixty-five by ninety-five feet and thirty-six feet in height, and is arranged in the form of an amphitheatre; it will accommodate eight hundred persons, and is noted for the excellence of its acoustic properties. The walls are frescoed in oil, and the windows are of cathedral glass, rich in color and design. The church is furnished in walnut richly carved, and the organ is built in an alcove to the left of the pulpit, with a balcony extending for the choir. The basement contains three furnaces, a dining-room, kitchen, and other rooms. The lecture-room seats four hundred and fifty persons, and there are also class-rooms, a library, and other apartments for the use of the pastor and congregation. Altogether St. Mark's is one of the most complete and thoroughly appointed church structures in the country. As its pastor, Rev. M. Rhodes, D.D., says, "The whole edifice is a picture, a harmony, a magnificent tribute to the skill of the designer and the liberality of a joyous and favored people." The entire cost of the lot, building, and furnishing was a little over sixty thousand dollars. The present membership of the church numbers three hundred persons, and the Sunday-school is attended by two hundred and eighty pupils. A week-day school is conducted in the building, and is attended by one hundred and twenty-five scholars.

HEBREW CONGREGATIONS.

United Hebrew Congregation.—The oldest religious association of Hebrews in St. Louis is that of the "United Hebrew Congregation," Rev. Henry J. Messing, rabbi, located at the southeast corner of Olive and Twenty-first Streets. Its organization was effected in the spring of 1839, at the house of H. Marx, on Locust Street, between Third and Fourth Streets. A. Weigel was elected president, and services were held at first in a house on Carondelet Avenue, in the section then known as Frenchtown. In September, 1848, the society removed to a brick building on Fifth Street, between Washington Avenue and Green Street, which was consecrated on the 27th of the same month. In 1855 a lot on the east side of Sixth Street, between Locust and St. Charles Streets, was purchased from Judge W. Beirne for the sum of six thousand two hundred and forty dollars, on which a synagogue was erected. The work of construction was commenced in 1856, and the build-

ing was consecrated on the 17th of June, 1859, Rev. Dr. Raphael, of New York, officiating. It was a substantial and elegant structure of brick with cut-stone foundations, and school-rooms in the basement, stained windows, a gallery around the whole audience-room, and seats for about nine hundred persons. It was in the Romanesque style of architecture, forty-two feet front and eighty feet two inches in depth, and cost twenty-one thousand dollars. Its erection was specially due to the energetic labors of A. J. Latz, aided by other members of the congregation.

The Sixth Street property was sold in 1879. The synagogue now occupied by the congregation (at the corner of Olive and Twenty-first Streets) was completed in 1880, and is a lofty and handsome structure of brick, its dimensions being sixty by ninety-six feet.

In 1844, A. J. Latz purchased a lot on Pratte Avenue for a Hebrew cemetery, which was deeded to the trustees of the society by John Farrell, and was used for burial purposes until 1856, when Mount Olive Cemetery, in Central township, was given to the society by the B'nai Jeshurem congregation, which had purchased it in 1854. The present owners have erected on it a building costing five thousand dollars, and have greatly improved and beautified it. A. Gershon has been its superintendent for many years. The society now numbers one hundred and thirty members, and its officers are P. F. Myers, president; Abraham Spiro, vice-president; Falk Levi, treasurer; M. P. Silverstone, secretary; H. Rosinski, M. Kempf, Joseph Davis, Simon Zork, Joseph Rheinholdt, A. B. Jach, and Hermann Levi, trustees.

B'nai El Congregation, northeast corner of Chouteau Avenue and Eleventh Street, Rev. M. Spitz, D.D., rabbi, was established about 1839 or 1840. It worshiped subsequently in a building at Sixth and Cerré Streets, which was finished in 1855, and consecrated on the 7th of September of that year. It formed an octagon of about seventy-five feet in diameter, and terminated in a cupola. The seating capacity was about three hundred persons. In 1875 the present building (at Chouteau Avenue and Eleventh Street) was purchased from the Chouteau Avenue Presbyterian Church for fourteen thousand dollars, and was refitted so as to be adapted to Hebrew forms of worship. About the same time the Sixth Street property was sold to the Episcopalians for the Good Samaritan Church (colored).

Temple of the Gates of Truth.—In 1866 an association of some seventy wealthy Israelites of St. Louis was chartered under the name of the St. Louis Temple Association. The first president was Alex-

ander Suss, and the other officers were Isaac Hoffheimer, vice-president; T. Rosenfield, secretary; Joseph Weil, corresponding secretary; and Bernard Singer, S. Schiele, T. L. Bothahn, Isaac Hellman, M. Lansdorf, L. R. Strauss, Leopold Steinberger, M. L. Winter, P. Seligmann, S. Marx, and Levi Stern, directors. They were all laymen, and in the formation of their association were guided by the desire to "escape dogmatic discussions and dissensions," and to "bring the Israelitish form of worship into harmony with the views and principles of modern society." With this object in view they introduced the organ and choral singing into their services, and ordered that "the old oriental habit of entering the audience-room with covered heads be abandoned."

T. W. Brady was selected as the architect for the house of worship, which it was decided to build at the northeast corner of Seventeenth and Pine Streets, and on the 24th of June, 1867, the corner-stone of the structure was laid with Masonic ceremonies by the Grand Lodge of Missouri. Dr. Wise, of Cincinnati, was the orator of the occasion. The building, which is still used by the congregation, has a frontage of seventy-one feet on Seventeenth Street and a depth of one hundred feet on Pine Street, the dimensions of the lot being one hundred and ten by one hundred feet. The temple is a handsome edifice, its architecture being modeled after the Moorish style, and the façade is flanked by two towers, each fifteen feet six inches square. The building was dedicated in August, 1869. At that time the trustees of the congregation were Isaac Hoffheimer, president; M. Lansdorf, vice-president; Levi Stern, treasurer; Joseph Rosenfield, secretary; and A. Kramer, B. Hysinger, A. Wise, Joseph Weil, H. S. Winter, L. M. Hellman, S. Sandfelder, B. Singer, M. Friede, L. Steinberger, and A. Suss. Six months previously the old society had been organized into a congregation under the name of the "Gates of Truth congregation," and the following trustees elected: B. Hysinger, president; A. Kramer, vice-president; A. Frank, treasurer; and Messrs. Hoffheimer, Steinberger, Rosenfield, Wise, D. Dillenberg, S. Schiele, and M. Lansdorf.

While adhering to the essentials of the Jewish faith, the congregation, as indicated above, has discarded many of the ancient forms and ceremonies of the Jewish ritual. Rev. S. H. Sonneschein, the present rabbi, is a man of wide and liberal culture, and has been a frequent lecturer on historical and other topics. He has repeatedly tendered the use of his temple to Christian congregations, and is eminently popular among Christian ministers, as well as foremost in all public charities and reformatory move-

ments. The society is a large one, and connected with it is a well-attended Sabbath-school.

Congregation "Scheerish" Israel, 926 North Sixth Street, is a religious association of Hebrews who occupy a rented room and worship according to the most ancient forms. The present officers are M. Harris, president; H. Abrahams, vice-president; L. Lipman, secretary; J. H. Abrahams, treasurer; D. Privor, L. Michael, H. Rosenberg, A. Cohen, M. Schuchat, and P. Whol, trustees.

Chebra Kadish Congregation meets for worship on Seventh Street, between Franklin Avenue and Wash Street. Rev. M. Leberstin is rabbi.

BETHEL ASSOCIATION.

The **St. Louis Bethel Association**, located at 300 and 302 North Commercial Street, Rev. Peter Kitwood, chaplain, is an auxiliary of the Western Seamen's Friend Society. The headquarters of this society are at Cleveland, Ohio, and its ramifications extend throughout the West. The work in St. Louis was commenced in 1841, a meeting having been held on the 16th of June of that year for the purpose of devising measures for the establishment of "a Bethel Church for the use of the boatmen and watermen of the Mississippi." Rev. Wesley Browning presided, and resolutions were adopted to the effect that the work be undertaken without delay, and that two committees be appointed, one to procure a room and engage a minister, and the other to prepare a constitution for an association to be called "The St. Louis Port Society," under whose control the proposed Bethel Church should be placed. The committee appointed to secure the minister and a room was composed of F. W. Southack, Dr. Knox, John H. Gay, John Thompson, Samuel C. Davis, J. P. Sarpy, and L. Farwell. The committee chosen to draft the constitution consisted of George K. Budd, George Kingsland, Edward Tracy, Theodore Labeaume, Joseph Tabor, M. De Lange, A. Hamilton, Edward Dobyms, J. G. Dinnies, and C. D. Drake.

The mission does not appear to have been permanently successful, for in December, 1848, a meeting was held at the Westminster Presbyterian Church, of which Rev. W. S. Potts, D.D., was chairman, for the purpose of forming an association for the promotion of the moral and physical interests of the Western boatmen. The meeting resulted in the formation of the "Western Boatmen's Union of St. Louis," to the chaplaincy of which the Rev. Charles S. Jones was unanimously elected. Mr. Jones entered upon the discharge of his duties on the 22d of April, 1849. His first sermon to boatmen was preached to a con-

gregation of some eight or nine persons in a Methodist Church. Subsequently the use of Westminster Church was procured for afternoon service, in which building he continued to preach until the great fire of May 17, 1849. He then departed for the East, and commenced a vigorous canvass of the Eastern churches for funds to aid in the building of a Boatmen's Church. In this mission he was so far successful as to collect some fifteen hundred dollars. On his return he commenced divine services in the "Odd-Fellows' Hall." Subsequently a lot of ground was leased, on which an edifice was erected at a cost of fifteen thousand dollars, capable of accommodating between six and seven hundred persons, and fitted up, embellished, and arranged so as to be ostensibly and peculiarly a "Boatmen's Church." This building was located on Green Street, between Second and Third, near the river, and was said to be the first organized church of the kind west of the lakes. It was dedicated on the 21st of March, 1852. The officiating ministers were the pastor, Rev. Charles J. Jones, Rev. J. C. Abbott, Rev. Dr. Kavanaugh, and Rev. J. A. Lyon.

The mission proved successful during the time it was under the direction of Mr. Jones, but the church became involved, Mr. Jones was called to New York, and the institution practically collapsed, the building being appropriated to other purposes. It was also too remote from the Levee for convenience of the class intended to be benefited by it. Matters thus remained until 1868, but in that year the enterprise was revived, and a room in the Boatmen's Building, on the northwest corner of Vine Street and the Levee, was rented for the purpose of establishing regular religious services and a Sunday-school for boatmen and their families and others near the Levee not provided for by the city churches. The hall was dedicated March 14, 1869, the exercises being under the management of Gen. C. B. Fisk, president of the association, assisted by the directors, a number of clergymen, and boatmen from St. Louis and other cities. The following were the officers of the institution at that time: Managers, E. D. Jones, William C. Wilson, George Partridge, John G. Copelin, E. O. Stanard, Nathan Ranney, Clinton B. Fisk, Samuel Cupples, Austin R. Moore, Thomas Morrison, Joseph Brown, James Richardson, Isaac M. Mason, Thomas Rutherford, Nathan Cole. Officers, C. B. Fisk, president; Samuel Cupples, vice-president; Austin R. Moore, secretary; William C. Wilson, treasurer; Executive Committee, Joseph Brown, William G. Wilson, Samuel Cupples, C. B. Fisk, I. M. Mason; Chaplain and District Superintendent, Rev. M. Himebaugh; Corresponding Secretary, Rev. A. Wheeler, D.D., of Cleveland; President

and General Superintendent Western Seamen's Friend Society, Rev. B. Frankland, of Cincinnati.

In 1875 the mission was removed to 300 North Commercial Street, and in the spring of 1882 the adjoining building was added, doubling its capacity. The buildings are in the centre of the wholesale business portion of the city and of the steamboat traffic. They were erected and had been used for stores, and front both on Commercial Street and the Levee, four stories on the former and five on the latter. The two stores on the first floor (Commercial Street) have been thrown into one and constitute the chapel, in which a congregation of one thousand people have assembled. The floor beneath (entered from the Levee) is used as a restaurant, where poor working-men may obtain bread and a bowl of coffee for five cents, or a meal for ten. The upper stories are used as class-rooms, sewing-rooms, etc., and (the highest floor of all) as a dormitory, where over one hundred men find nightly lodgings at a cost of ten cents. The work of the Bethel is divided into two classes, religious and secular. The religious work comprises a Sunday-school, held in the afternoon (no services are held on Sunday mornings), attended during the winter months by forty to fifty teachers and over eight hundred scholars; a regular church service on Sunday evenings, attended by an average congregation of from two hundred to three hundred, of whom about one hundred are communicants; separate classes for religious and secular instruction, on Sundays and weekdays, for white mothers, colored mothers, colored boys, and colored girls, and several weekly prayer-meetings. The secular work is under the superintendence of David Crofton, and embraces the management of the restaurant and dormitory above mentioned, where deserving objects of charity are fed and lodged gratuitously; maintenance of outside charities among the worthy poor, for whom rent is paid, and to whom food and clothing are supplied, and of a sort of savings institution, consisting only of an iron safe, in which poor roustabouts and others are induced to deposit their earnings for safe-keeping instead of squandering them, and the deposits in which now amount to about two thousand two hundred dollars; and finally the work of the Ladies' Bethel Association, who conduct sewing-classes for girls and for mothers, teaching them to sew, and rewarding them with the fruits of their industry, the ladies themselves devoting one day of the week (Friday) to making garments and distributing them among the poor. Over one thousand children were clothed in 1882, and the Saturday sewing-school is attended during the winter by fully three hundred girls.

The officers of the Ladies' Bethel Association are Mrs. J. A. Allen, president; Miss Ellen Budd, vice-president; Mrs. George S. Edgell, secretary; Mrs. Chapman, treasurer. Two lady city missionaries are employed, Mrs. Margaret Skinner and Miss R. A. Manning, whose chief work is among the poor. The managers of the Bethel are Nathan Cole, president; G. S. Paddock, vice-president; J. C. Hall, secretary; George A. Baker, treasurer; Isaac M. Mason, J. H. Wear, John W. Larimore, H. N. Spencer, E. E. Souther, George S. Edgell, W. W. Carpenter, D. R. Wolfe, Leonard Matthews, D. Crawford, Jos. Specht, and P. Kitwood, directors. The Bethel is supported by voluntary contributions, and extends its benefits to all the poor, regardless of creed or color, the white and colored people having separate rooms for classes and lodging. It is affiliated with no religious denomination, but is aided by all. Its chaplain, Mr. Kitwood, is a man of untiring energy, and devotes his efforts specially to elevating the morals of the people in his field of labor.

SWEDENBORGIANS.

The First New Jerusalem Society of St. Louis, Lucas Avenue near Ewing Avenue, was organized by Rev. T. O. Prescott, of the Cincinnati New Church, at the house of Charles Barnard, druggist, on Morgan Street, between Tenth and Eleventh Streets, on Sunday, Nov. 20, 1842, with the following constituent members: Joseph Barnard, Francis B. Murdock, Charles R. Anderson, Eliza B. Anderson, Susan Barnard, Margaret Barnard, John H. Barnard, and Timothy Keith. On the following evening, at the house of John H. Barnard, on Morgan, between Ninth and Tenth Streets, a constitution was adopted, and Joseph Barnard was elected reader and F. B. Murdock secretary. It was decided that the congregation should meet for worship alternately at the houses of Charles and John H. Barnard and F. B. Murdock, the latter being at the southeast corner of Fifth and Elm Streets. From a paper bearing date March 27, 1843, it appears that a number of persons subscribed the sum of sixty-three dollars, in amounts ranging from one dollar to five dollars, for the purchase of New Church books, and on the 11th of May, 1843, a "society for the examination of the writings of Emanuel Swedenborg" was established, with Elijah C. Eads, J. H. Barnard, C. R. Anderson, Charles Barnard, Timothy Keith, and Joseph C. Edgar as constituent members. To these were subsequently added twenty-two others, among whom were Thomas H. Perry, B. G. Child, George F. Lewis, J. H. Brotherton, Richard Rushton, George I. Barnett, John Warden, and Charles Gleim. The society continued to meet in

private, and rented rooms for reading and discussion, and assembled for the last time "at the school-rooms of the late Professor T. H. Perry, former secretary of the society," May 17, 1849, and "was adjourned indefinitely." The New Jerusalem Society, however, continued to exist, and in October, 1847, reported twelve members, one of the original number having died, and a Sunday-school, organized Sept. 19, 1847, with fifteen scholars. On the 5th of December, 1847, a room was rented for meetings at the corner of Washington Avenue and Fifth Street, and Professor T. H. Perry, licentiate, preached every Sunday. On the 20th of August, 1848, Thomas H. Perry was ordained to the ministry in Peoria, Ill., by Rev. J. R. Hibbard, and was installed pastor of the St. Louis Society, but died in May, 1849. In the winter of 1849-50, Rev. George Field delivered a course of lectures in St. Louis, and on the 20th of April, 1850, he was elected pastor of the society, the election to date from October 1st following. He was installed Oct. 27, 1850, and resigned October, 1852. Soon after his installation he insisted on a change in the constitution which should make baptism by a New Church minister essential to membership or admission to the Lord's Supper. On this question the society divided, the majority, seventeen in number, indorsing the pastor. They seceded with him, and formed, April 17, 1851, the St. Louis New Church Society. The minority (of twelve members) met once, May 9, 1851, after the division, but there is no record of their existence since that time. On the 20th of May, 1850, a stock company was formed for the purpose of building a church, and on the 10th of October, 1850, the society met in its own hall, at the southeast corner of Sixth and St. Charles Streets. This property passed into the hands of the seceding society, of which Dr. C. W. Spalding was the leading member, being chosen at the first election president, superintendent of Sunday-school, and leader of the choir.

On the 1st of June, 1852, a lease for the lot at Sixth and St. Charles Streets was executed to the society by George F. Lewis, and on the 14th of June a building committee was appointed for the erection of a two-story building, the lower part to be rented as a store, and the second story to be used as a hall for worship. After the resignation of Mr. Field, the meetings were for the most part suspended until Aug. 30, 1856, when nineteen persons appeared at a called meeting, abolished the obnoxious baptismal requirement, and reorganized the society on a basis of first principles. Late in 1857 the society fell into pecuniary embarrassments, and the hall was rented to other parties. On the 26th of January, 1858, nine mem-

bers withdrew, and but a precarious existence was maintained, with occasional visits from Revs. George Field, Chauncey Giles, C. A. Dunham, and others, until January, 1864, when regular meetings were resumed and conducted by John Jay Bailey as reader, to which office he was elected July 7, 1864. He was licensed to preach by the General Convention, Oct. 19, 1864, and resigned the leadership of the society Jan. 11, 1866, at which time it had increased to forty active members. Rev. Charles Hardon was elected pastor March 14, 1866, and resigned June 24, 1867. Rev. Mr. Brickman supplied the pulpit during the fall of 1867, and Rev. J. B. Stuart was elected pastor Jan. 9, 1868, and resigned June 1, 1871. He reorganized the society and gave it the name of "The First Parish of the New Church in St. Louis," by which title it was incorporated March 28, 1868, with forty-six members. Its government was vested in a board of wardens, the first elected members of which were William Chauvenet, John H. Barnard, George W. Simpkins, John Warden, E. C. Sterling, George F. Lewis, G. B. Stone, R. L. Tafel, John Jay Bailey, C. S. Kauffman, David R. Powell, and Charles R. Anderson. In May, 1868, Mr. Stuart called a convention of New Church Societies in Missouri, and organized them into the diocese of Missouri, of which he was made bishop. After his departure a return to first principles was inaugurated, and on the 6th of May, 1874, the "Missouri Association" (as the "diocese" had come to be called) was finally dissolved. On the 21st of October, 1877, the "parish" was reorganized as the original First Society of the New Jerusalem in St. Louis, and was chartered March 8, 1878. On the 16th of March following the "parish" transferred to the society all its possessions and became extinct. The lease of the church lot expired June 1, 1872, and the building was sold for two thousand dollars, a lot forty feet front (the present site) purchased for four thousand dollars, and a chapel capable of seating one hundred persons erected on it at a cost of nine thousand and fifty dollars. The building was first occupied Sept. 29, 1878. During 1873-74, Rev. James E. Mills officiated as leader of the society, and services were subsequently conducted by a reader. On the 3d of December, 1878, Rev. E. A. Beaman was employed to preach two Sundays in the month, and on the 1st of October, 1882, Rev. A. F. Frost commenced an engagement as preacher, but no regular pastor was chosen. The constitution of the parish received, all told, one hundred and six signatures. The present society has had, in all, thirty-eight active members, now reduced by deaths to thirty-four, and the congregation numbers about seventy persons.

The Sunday-school has five teachers and about forty pupils.

The German New Jerusalem Society, corner of Twelfth and Webster Streets, was organized in 1854, and at one time worshiped at the corner of Howard and Fourteenth Streets. Its congregation numbers about two hundred, and about one hundred children attend the Sunday-school.

CHRISTIAN CHURCHES.

The Christians, or Disciples of Christ, more popularly known as "Campbellites," from Alexander Campbell, their foremost leader, who professed to restore the simple faith and worship of the primitive Christians, and discarding all creeds, to take the Bible for the sole guide in life and doctrine, have now three organizations in St. Louis, viz.:

First Church, southwest corner of Olive and Seventeenth Streets, Elder W. T. Tibbs, pastor.

Central Church, northeast corner of Washington Avenue and Twenty-third Street, Rev. J. H. Foy, D.D., pastor.

North St. Louis Church, southwest corner of Eighth and Mound Streets, Elders George Anderson and G. Jackman, pastors.

These three congregations sprang successively from a small gathering of Campbellites, originally only seven members, which met on Sundays at a private residence, and which in 1842 had increased in number to twenty-seven persons, with Elder Robert H. Fife as leader. They next rented a small school-room on Morgan Street, and a year later rented Lyceum Hall, and called to the pastorate Dr. W. H. Hopson, then a young man, who afterwards became one of the most prominent ministers in the denomination. Owing to his energy and activity the congregation increased so rapidly that in 1845 it removed to a more commodious building on Sixth Street and Franklin Avenue. Elder Jacob Creath was the next pastor for two years, and was succeeded by Elder Joseph Patton, who died in 1850. The church next purchased a lot on Fifth Street, between Franklin Avenue and Wash Street, and erected a building at a cost of twenty-five thousand dollars, which was dedicated Aug. 15, 1852, by the pastor, Elder Samuel S. Church. The structure was of the early English Gothic style of architecture, and its dimensions were sixty by one hundred and seven feet six inches, the seating capacity being about eight hundred persons. Mr. Church died some years later, and was followed by Elder Proctor, whom ill health caused to resign in 1861. In June, 1863, the church purchased from D. A. January the building now occupied, at the southwest corner of Olive and

Seventeenth Streets. It had been St. Paul's Protestant Episcopal Church, but was closed and sold for debt in 1861. It was dedicated in July, 1863, by the pastor, Elder Benjamin H. Smith, whose successors in the pastorate have been Elders Henry H. Haley, Henry Clark, John A. Brooks, O. A. Carr, Dr. W. H. Hopson, their first minister, who returned in 1874 and remained one year; T. P. Haley, who took charge in 1875 and resigned in November, 1881, leaving the church without a pastor until the appointment of Elder W. T. Tibbs, of Kentucky, early in 1882. In 1870 the question as to whether an organ should be placed in the church caused dissensions in the congregation, and in June, 1871, a large number who favored instrumental music withdrew and formed a new congregation, now called Central Church. They met in a hall at Fourteenth and St. Charles Streets, and in 1875 purchased the lot on which they erected their present house of worship, which they supplied with an organ and an efficient choir. Their first pastor, Elder Enos Campbell, was called to the charge at the time of the secession from the First Church and remained until 1879, when the present pastor was called. The congregation at Eighth and Mound Streets has long been a small and struggling one, but now, under its two able leaders, is beginning to increase and flourish. The First Church reports a membership of one hundred families and three hundred communicants, and twelve teachers and seventy-five pupils in the Sunday-school; the Central has two hundred members, and fifteen teachers and one hundred scholars in the Sunday-school; and the North St. Louis comprises about sixty families and one hundred members, with nine teachers and one hundred children in the Sunday-school.

CONGREGATIONAL CHURCHES.

First Congregational Church.—The first Congregational Society established in St. Louis was organized in the spring of 1852, and was an offshoot from the Third Presbyterian Church. In 1847, Rev. Truman M. Post, D.D., arrived in St. Louis under an engagement for four years as pastor of what was then the Third Presbyterian Church, whose members worshiped on Sixth Street, between Franklin Avenue and Wash Street. This congregation had been organized in April, 1842, by eighty-five members of the First Presbyterian Church, who had been dismissed for that purpose, and Dr. Post continued to serve as its pastor until about the time of the organization of the Congregational Society. At the request of several leading citizens, Dr. Post preached, on the 11th of January, 1852, a discourse on Congregationalism and

the expediency of forming a Congregational Church in St. Louis, and on the 14th of March following the First Congregational Society was organized by sixty-seven members of the former Third Presbyterian Church and ten others. The interest of the other owners in the building on Sixth Street was purchased, and the new organization continued to worship there with Dr. Post as pastor. Shortly afterwards the sum of twenty thousand dollars was raised by subscription, and a lot at the northwest corner of Tenth and Locust Streets was purchased. On the western edge of this lot a chapel was erected, into which the congregation moved in December, 1855, having sold the Sixth Street property and with the proceeds liquidated the debt incurred in building the chapel. The cornerstone of the main church edifice was laid in the spring of 1858, and the basement was occupied on the 16th of October, 1859. The chapel was then rented to the Homœopathic Medical College, and on the 4th of March, 1860, the church was dedicated, its entire cost being fifty-five thousand dollars. Since 1879 the building has been rented to the Young Men's Temperance Union. Its dimensions are one hundred by seventy feet, and it occupies a lot one hundred and two by eighty feet. It is a brick structure, with a solid stone basement. In 1863 the congregation found itself burdened with a debt of forty thousand dollars, and at the annual meeting of that year it was determined to liquidate it. The sum of ten thousand dollars was subscribed on the spot, ten thousand dollars more was obtained by subscription soon afterwards, and in 1864 the chapel property was sold, the society being thus lifted out of debt. Pilgrim Church was founded as a colony from the First in 1866, and during the same year several members withdrew for the purpose of forming the Webster Grove Church. The location of the First Church became from year to year more and more unsuitable, owing to the removal of population westward, and finally the present site of the church (Delmar and Grand Avenues) was purchased, and a wooden chapel erected, which the congregation first occupied in February, 1879, and in which it still continues to worship. In January, 1872, Dr. Post tendered his resignation as pastor, but withdrew it at the urgent request of his congregation, and on the 1st of January, 1882, he was allowed to retire from the active duties of his charge, his congregation, however, continuing him in honorary connection with the pastorate, under the title of Pastor Emeritus. The present pastor is the Rev. J. G. Merrill.

Rev. Truman M. Post was born in Middlebury, Vt., June 3, 1810. His father, a lawyer, died before

he was a year old, and his training devolved upon his mother. He attended the common schools of his native place, but studied and read independently of his teachers, his progress being so rapid that at the age of fifteen he entered Middlebury College, a self-taught and rather precocious young man. He graduated from this institution when only nineteen years old, as valedictorian of his class. He was then engaged for a year as principal of the Castleton Academy, and for two years as a tutor at Middlebury College. He then began the study of law, but he had also a decided bias for theological investigation, and in 1831, while a tutor at Middlebury, he was led to change his purpose. Accordingly, in the autumn of 1832, he went to Andover, with the view of pursuing a course of study for the Christian ministry, but when about to make profession of Christianity he found himself debarred from communions which seemed genuinely representative by creeds which required, as conditions of membership, categorical statements of belief which seemed to him speculative, and as to which he had no positive convictions. These difficulties not yielding, he turned again to the law, and in the prosecution of his studies spent the winter of 1832-33 in Washington, where he was a constant attendant upon the sessions of the Supreme Court, and a deeply-interested spectator of the exciting oratorical contests between Webster, Calhoun, and other giants of the period, which marked the close of the old *régime* and the inauguration of a new political era.

While yet in doubt as to his future course, Mr. Post was persuaded by Gen. (afterwards Governor) Duncan, of Illinois, to visit the West, and in the spring of 1833 started thither, passing a few days at Cincinnati, where he made the acquaintance of Salmon P. Chase, then a young lawyer, whose friendship he retained through life, and of Dr. Lyman Beecher, who advised him as to his religious difficulties. He arrived at St. Louis in May of that year, and made arrangements to enter the law-office of H. R. Gamble. Before settling down to his new career, however, he visited his friend, Gen. Duncan, at Jacksonville, Ill., and soon after his arrival there was prevailed upon to accept a temporary engagement as assistant instructor in Illinois College, at that point. This temporary arrangement was soon made permanent, and resulted in a stay of fourteen years at Jacksonville.

In the fall of 1833 he made his first formal public profession of faith in Christianity (his religious difficulties having been partly removed), and joined a little Congregational Church then being formed. In 1835 he revisited Middlebury, his native place, and married a daughter of the Hon. Daniel Henshaw, a

prominent citizen of Vermont. The union proved a singularly happy one.

In the financial revulsions of 1837-38 the funds of the college failed, and pecuniary considerations urged Mr. Post to return to the law. But while considering the problem he was besought by the church to "take license" and become its pastor. Eventually he acceded to the request, but on appearing before the association for examination he expressly repudiated the term "licensing" or "being licensed," and the implied assumption of spiritual authority over preacher or congregation. The association was startled, but on examination of Mr. Post's historical references it conceded his position, and granted him merely a recommendation as a preacher. For several years he combined the classical instruction and historical lectures of the class-room with the labors of the pulpit and the pastorate.

But the revenue from both sources was still insufficient to satisfy his pecuniary necessities, and a change became imperative. Meanwhile he had been repeatedly solicited to remove to St. Louis, to assume charge of the Third Presbyterian Church, and in 1847 he received a specially urgent call. He was, however, deeply attached to the college, and was also extremely unwilling to live in a community in which slavery existed. He finally accepted the invitation on the express condition that his letter of acceptance should be read publicly, and then the question of renewing the call be submitted to the people. In this letter he stated that he regarded holding human beings as property as a violation of the first principles of the Christian religion, and that while he did not require the church to adopt his views, he thought every Christian should be alive to the question of slavery; and as for himself, he must be guaranteed perfect liberty of opinion and speech on the subject, otherwise he did not think God called him to add to the number of slaves already in Missouri. The church heard the letter and unanimously renewed the invitation, whereupon Professor Post, in the fall of 1847, became the pastor of the Third Presbyterian Church of St. Louis, limiting the engagement to four years, in the hope that he might be able to return to the college at the expiration of that period.

But at the close of the allotted term, the church with great unanimity voted to become a Congregational Church, and chose Rev. Mr. Post as its pastor, a position which under the circumstances he was constrained to accept, and which he held uninterruptedly until his resignation, which took effect Jan. 1, 1882. Under his pastorate the church prospered, and became the rallying-point for opinions that later

became potential in the great civil war. During that period Mr. Post did not forbear to assert the supremacy of those principles of personal liberty and responsibility which he had brought with him from New England, but did so with so much courtesy as well as courage, that he commanded the entire respect of a congregation and community of widely differing opinions.

REV. TRUMAN M. POST, D.D.

Outside of the duties immediately pertaining to his pastorate, he became closely identified with the development of the educational and charitable enterprises of the city, and labored with an energy and catholicity of spirit not excelled by any in his profession. The abolition of slavery removed a great barrier to the spread of Congregationalism, and the subsequent rapid planting of churches of that faith in this portion of the Mississippi valley was greatly aided by his counsels.

His resignation as pastor of the First Congregational Church was accepted with reluctance, and, as previously stated, in recognition of his years of service, the title of Pastor Emeritus was conferred upon him. Many years ago his Alma Mater, Middlebury College, bestowed upon him the degree of Doctor of Divinity.

Force and effectiveness are the characteristics of Dr. Post as a preacher. He possesses a brilliant and poetic fancy, and his historical studies enable him to analyze events with a philosophic eye. This perhaps was the secret of his power and influence in the agitation preceding and attending the civil war. Many

of his discourses and addresses were widely circulated, and contributed greatly to strengthening the hands of the Unionists. He also aided the cause by frequent contributions to the press.

Although a prominent actor in the local agitation of the period, Dr. Post was never lacking in the performance of any of the usual duties of a pastor, and his nearly thirty-five years in the ministry in St. Louis were singularly faithful and useful ones.

In 1873, while in Europe, he was summoned home by the death of his estimable wife. Their union had resulted in three sons and three daughters, all living; two of the sons are lawyers and one is a physician, all of them occupying a creditable position in their several callings.

Pilgrim Congregational Church, corner of Washington and Ewing Avenues, Rev. C. L. Goodell, D.D., pastor, grew out of Pilgrim Sabbath-school, organized in 1853, by Rev. F. A. Armstrong, of Tennessee, temporarily residing in St. Louis. The school was established in the upper room of a two-story frame house at the northwest corner of Garrison Avenue and Morgan Street, where the residence of William Ballentyne now stands. After conducting the school one Sunday Mr. Armstrong was called away, and Stephen M. Edgell, a member of the First Congregational Church, continued it, chiefly at his own expense. For about twelve years he had personal care of the school-room, and in winter brought coal and kindling-wood from his own home, acting both as instructor and janitor. In 1854, the school having become too large for its quarters, Mr. Edgell leased a lot where now stands the residence of D. P. Rowland, 2910 Morgan Street, and erected on it a one-story brick building, in which besides the school religious services were held. On the 22d of September, 1865, an informal meeting was held at the house of William Colcord, 2800 Morgan Street, to consider the question of erecting a permanent building for the Sabbath-school and of organizing a new congregation. In June, 1866, S. M. Edgell and James E. Kaime purchased a lot fronting eighty and eight-twelfths feet on Washington Avenue, and one hundred and thirty-four and three-twelfths feet on Ewing Avenue, for \$7620, and presented it for the "uses of an orthodox Congregational Church." Pilgrim Chapel, a brick building, capable of seating four hundred people, and costing \$14,460.80, was erected on this lot during the same year. On the 5th of December, 1866, the proposed church was organized as a colony from the First Congregational Church, thirty-six of whose members had been dismissed for the purpose. The chapel was dedicated on the 22d of December, 1866,

the 22d being known as "Forefathers' day," the anniversary of the day on which the Pilgrim Fathers landed at Plymouth Rock. A council of Congregational Churches was convened for the occasion, with Rev. J. M. Sturtevant, Jr., of Hannibal, as moderator, and Rev. J. M. Bowers, of Sedalia, Mo., as scribe.

In 1867 the foundations of the present stone building were built, at a cost of three thousand and forty dollars and forty-five cents, and Dec. 21, 1867, the corner-stone was laid with appropriate services at the northeast corner. In 1871 the erection of the present edifice was commenced, and on the 22d of December, 1872 (Forefathers' day), the building was formally dedicated. The total cost, including that of organ and furniture, was fifty-six thousand three hundred and forty-eight dollars and nine cents. S. M. Edgell and D. F. Kaime were the building committee, and Henry L. Isaacs was the architect. The church is capable of seating thirteen hundred and twenty persons. The spire and tower were finished in 1876, and in the latter is the "Oliphant chime" of ten bells, presented at Christmas, 1876, by Dr. R. W. Oliphant, in memory of his deceased wife and son. In connection with the chimes is a tower clock, striking the famous Cambridge University quarters, the first of its kind in America. The bells, clock, etc., cost ten thousand dollars. The pastors have been Revs. John Monteith, Jr., of Cleveland, Ohio, began Nov. 1, 1866, dismissed with seventy-one other members to form a colony, March 15, 1869; W. C. Martyn, of Union Presbyterian Theological Seminary, appointed June 24, 1869, resigned Sept. 1, 1871; H. C. Haydn, appointed Dec. 1, 1871, resigned April 1, 1872; C. L. Goodell, called Sept. 12, took charge Nov. 27, 1872, and formally installed June 5, 1873, the installation having been delayed by his illness.

In December, 1871, S. M. Edgell presented the two-story brick dwelling-house and twenty-five feet of land adjoining the church for a parsonage.

The brick chapel was rebuilt in the autumn of 1873, with a stone front, and raised to the height of the main edifice, and was fitted up with sewing-rooms, parlors, etc., at a cost of \$13,229.80, and dedicated Jan. 21, 1874. The entire church property has cost \$106,207.89. This was the first church erected west of Seventeenth Street, and out of it have grown the Third, Plymouth, Fifth, and Hyde Park Churches. It has also dismissed several members to unite with the Congregational Church at Webster Grove. About fifteen hundred persons are connected with the church, and there are seven hundred and fifty communicants. The Sunday-school has seventeen officers, fifty-four regular teachers, and a reserve corps of nineteen others.

C. L. Goodell

During the year 1881 the whole number of scholars was seven hundred and fifty, the additions seventy-five, number of classes fifty-six, and number of volumes in the library five hundred and forty-two. Connected with the church are a Young Ladies' Missionary Society, a Ladies' Home Missionary Society, a Woman's Board of Missions, the Pilgrim Workers, a Flower Mission, etc., while the congregation is also largely represented in the Young Men's Christian Association, missionary work in the jail, and several other religious and benevolent enterprises. During 1881 the church contributed in outside benevolence \$26,638.85, and during the year previous \$25,-882.87.

Rev. Constans L. Goodell, D.D., pastor of Pilgrim Church, is descended from Robert Goodell, one of the early settlers of Salem, Mass., who came from England in the ship "Elizabeth," landing there in 1634, six years after the founding of that town and fourteen years after the Pilgrims landed at Plymouth. One of his descendants, Aaron Goodell, emigrated to Calais, Vt., where Constans L. Goodell was born March 16, 1830. He belongs to a race which has contributed much to the growth of Christianity in our own and other lands. His mother, Elvira Bancroft, was of a family which for five successive generations furnished a deacon in each (of the same name) for the church in Lynn, Mass. Eleven of his ancestors chose the ministry for their life-work, including the eminent Dr. William Goodell, for forty-two years a missionary of the American Board in Turkey.

Dr. Goodell is a graduate of the University of Vermont, class of 1855, and of Andover Theological Seminary, 1858. The degree of Doctor of Divinity was conferred by his Alma Mater in 1874.

He married, May 5, 1859, Miss Emily Fairbanks, daughter of Governor Erastus Fairbanks, and sister of Governor Horace Fairbanks, of St. Johnsbury, Vt. Mrs. Goodell has had a large share in his remarkable success, and few women have exercised so wide and valuable an influence on the life of a great city. All the rich gifts of her generous heart and cultured mind are fully consecrated to the work to which his life is devoted. She is beside her husband in all his labors, and all movements for the advancement of the church and for reaching and comforting the uncared-for and afflicted are planned by the two together. His first pastorate was at New Britain, Conn., where he was settled over the South Congregational Church in 1859, and where he remained fourteen years.

On Nov. 27, 1872, he commenced his pastorate in St. Louis, and this date marks the commencement of that rapid growth which has placed Pilgrim Church

among the great evangelizing forces of the city. That his work has been successful is clearly shown by its effects. The high position universally accorded him is the result of the labor which has developed a church of ninety-two members into one of eight hundred, and increased its benevolence from three thousand dollars a year to nearly thirty thousand dollars, all in the short space of ten years. He uses no sensational methods, but depends on quiet and effective labor. When asked once what was the secret of his success, from a human stand-point, he replied, "Eternal vigilance." He is remarkably successful in inspiring others with a love for Christian effort.

His belief is thoroughly evangelical, and what is technically known as the "New England theology," and he preaches only his convictions. No one has ever heard doubts ventilated from Pilgrim pulpit while he has occupied it. He is thoroughly consecrated to the work of the pastorate. He knows his people thoroughly, and is as well known by them. A stranger at one of the services said that when the preacher rose in the pulpit he knew at once that he was the pastor of that church; his manner, his prayers, and his preaching all showed that he was the shepherd of the flock. In the church of which he is the pastor people of all sects and circumstances are perfectly at home.

Many churches in St. Louis have felt the impulse of Dr. Goodell's work, and through him have gained courage to go forward. There are several organizations in the city besides Pilgrim Church that are now strong, and becoming more vigorous and useful every year, which might not be in existence but for him. At least three new churches have been organized within the city limits as the direct result of his wise planning and generous help; and they have all been set in motion with such a liberal spirit that their success was assured from the start. Numerous churches in various parts of the State afford the same evidence of the thoughtful care and wise generosity of Dr. Goodell. His influence on his brethren in the ministry is great, and not only by his example, but by his active sympathy and sound advice, has he saved them from many grave mistakes, and contributed greatly to their success.

In educational matters he has always been active. Drury College owes much of its prosperity to his labors as a trustee and an earnest friend. There are many who believe that but for him the college could never have survived the trials through which it has passed. Illinois College and other similar institutions have also felt the effects of his efforts and counsel.

Dr. Goodell's life is an eminently peaceful one. He

studiously avoids all controversies, believing that the plain preaching of the truth and earnest work form the best answer to any attack or criticism. It naturally follows that his influence in unifying and harmonizing Christian work is great. The Young Men's Christian Association has always found in him a faithful and practical ally. The different branches of union effort in the city have representatives and active workers from his membership, and look with confidence to the pastor of Pilgrim Church for help and advice. During the time that Rev. E. P. Hammond, the evangelist, labored in St. Louis, and later when D. L. Moody held his meetings, Dr. Goodell was foremost in the work. The Evangelical Alliance has learned to expect from him words of peace and wisdom on difficult points, and one of its pleasantest and most helpful years was that in which he was its president.

In his own denomination Dr. Goodell is recognized as a leader and has great influence. At the meeting of the National Council of Congregational Churches in Detroit, in 1877, his paper on "Woman's Work as a Part of the Religious Movement of the Time" was regarded as one of the wisest and most timely utterances ever made on that difficult subject. In 1881, in his sermon before the American Home Missionary Society at its annual meeting in New York City, he asked for "one million dollars a year for home missions," and the churches seem likely in the near future to meet this demand. He is a member of the committee of twenty-five, appointed for the purpose of framing a new statement of Christian doctrine, and occupies many other positions of trust and influence. There have been several efforts to draw Dr. Goodell away to other pastorates and positions of great importance, but his response in each case has been that his work was in St. Louis.

Third Congregational Church.—On the 22d of December, 1867, the Young People's Association of Pilgrim Congregational Church organized the Mayflower Mission Sabbath-school, which was located at the corner of Luckey Street and Grand Avenue. In the fall of 1868 a lot on Boston Street, between Grand and Spring Avenues, was purchased, and a chapel forty by fifty feet erected. The building was completed and dedicated June 13, 1869; a colony of sixty-two members from Plymouth Church, to whom the chapel was transferred, having on the 15th of March previous organized a new church, with the name of Mayflower Church. The pastors of Mayflower Church have been Rev. John Monteith, who assisted in the first organization, and resigned on account of ill health, April 26, 1871, but continued to officiate until re-

lieved by his successor; Rev. E. P. Powell, appointed April 26, 1871, took charge Sept. 17, 1871, resigned Sept. 12, 1873; Rev. W. S. Peterson, appointed January, 1874, resigned January, 1875; Rev. William Twining served as supply three months in 1875; Rev. Theodore Clifton, appointed Oct. 12, 1875. During the last quarter of 1873, the congregation being without a pastor, lost so many members that in January, 1874, it reorganized, and closed the year with sixty-six members, of whom thirty-nine had belonged to the former organization. In 1875 it suffered from the same cause, and the organization was only preserved by the determination of a few individuals. In December, 1875, when the present pastor, Rev. Theodore Clifton, took charge, only twenty-five resident members remained, the services during the interval having been conducted by a reader, and a debt of one thousand dollars had accumulated.

Since then, however, the congregation has prospered. On the 12th of April, 1876, the church united with the St. Louis Congregational Association, and Oct. 1, 1876, its name was changed to that of "Third Congregational." In November, 1876, S. M. Edgell, of Pilgrim Church, presented the church with fifty feet of ground on Francis Street, and in the fall of 1877 the Boston Street lots were sold, the debt was paid, and the building was removed to the new location on Francis Street, and enlarged, repaired, and refurnished at a cost of \$2015.35, of which \$1350 was given by the Pilgrim and First Congregational Churches. The remainder was raised by the members of the Third Church. The edifice was rededicated, free of debt, Dec. 19, 1877, by Revs. C. S. Goodell and Dr. T. M. Post. In June, 1882, the lot occupied by the present church, at the southeast corner of Grand and Page Avenues, was purchased from D. R. Garrison for the sum of twelve thousand dollars. Its dimensions are one hundred and twelve by one hundred and fifty feet, and on it is situated a handsome residence, which was included in the purchase and is now the parsonage. The church, a neat Gothic frame building, was removed to the new site, and two thousand dollars was expended in refitting it. A lecture-room and other apartments were added as a basement, and the building, which is capable of seating five hundred persons, was formally reopened on the 10th of November, 1882. The membership numbers over two hundred. There are about one hundred and fifty families connected with the church, and the average attendance is about one hundred and fifty. The Fair Ground Mission Sunday-school was organized July 17, 1870, and formally recognized as a mission of the church Dec. 19, 1877. It has fifteen teachers and

two hundred scholars. The Ladies' Aid Society, Young People's Christian Association, and Children's Missionary Society, called "Coral Workers," are active auxiliaries of the church.

Plymouth Church.—The fourth of the Congregational Churches of St. Louis, in point of organization, is Plymouth Church, situated on the west side of Belle Glade Avenue, north of Parsons Street, Rev. James A. Adams, pastor. It grew out of a Sunday-school called the "Hope Mission School," which was organized in 1865 by Rev. William Porteus, city missionary, at Elleadsville, then a suburb of St. Louis. His connection with it lasted only a few months, and it dwindled away until, in the fall of 1868, Mrs. Lucy J. Moody appealed to Pilgrim Church for laborers to sustain the school. The church in response sent out Deacons Wm. Colcord and Lyman B. Ripley, the latter of whom was soon compelled by the pressure of his church duties to leave the enterprise in the hands of the former, to whose efforts and pecuniary aid the school owed its growth, and Plymouth Church, perhaps, its existence. Mrs. Lucy J. Moody gave the school a lot thirty-three by one hundred and forty feet, and the erection of a building upon it was commenced in 1868, when in response to appeals for aid the First Pilgrim and Webster Grove Congregational Churches pledged each five hundred dollars towards the erection of a suitable building. These subscriptions were made with a view to organizing a church in connection with the school, and as further aid was promised from other sources the idea was adopted. The contract for the building was executed in March, 1869, and the structure was completed and dedicated July 11, 1869. On Saturday, July 31, 1869, a meeting was held and the church organized, its first communion occurring on the following day. The building is of frame, thirty by sixty-two feet, with a seating capacity of three hundred. In 1879 a lecture-room of the same seating capacity was erected beneath the superstructure. An additional lot, thirty-three by one hundred and forty feet, has been added to the first, and the property is now valued at five thousand dollars. The successive pastors have been Revs. W. H. Warren, a graduate of Harvard College and Andover Seminary, ordained and installed Dec. 7, 1869, resigned Sept. 25, 1872; Wm. Perkins (supply), May 4 to Nov. 30, 1873; then an interval without a pastor; W. B. Millard, a graduate of Chicago Seminary, installed June 26, 1874; resigned April 11, 1875; Alex. S. McConnell, May 16 to Nov. 16, 1875; J. E. Wheeler, November, 1875, to September, 1877; J. H. Harwood, a graduate of Williams College and Union

Seminary, Oct. 10, 1877, to Aug. 15, 1880; James A. Adams, a graduate of Knox College and Union Seminary, called September 4th, ordained and installed Dec. 3, 1880. Associated with the church are a Ladies' Aid Society, organized in 1878, and a Ladies' Missionary Society, organized in 1879. The church numbers one hundred and twenty-eight members, and its Sunday-school is attended by three hundred pupils.

Fifth Congregational Church, southwest corner of Clark Avenue and High (or Twenty-third) Street, Rev. George C. Adams, pastor, is the third child of Pilgrim Church, and was originally the High Street Mission Sunday-school. It was established by Pilgrim Church, Oct. 31, 1880, and carried on until May 1, 1881, when Rev. George C. Adams took charge of it and began holding regular services. On the 3d of July, 1881, the Fifth Church was organized. It was recognized by council Oct. 11, 1881, and Mr. Adams was installed as pastor. The building now occupied was erected by the High Street Presbyterian Church, and was purchased for the Fifth Church by Pilgrim Church, which up to Jan. 1, 1882, had spent six thousand one hundred and fifty dollars for the new society. It is cruciform, the nave being seventy-eight feet in length and the transept eighty feet. The dimensions of the lot are one hundred and thirty-four by one hundred and twenty-five feet, and the property is valued at nine thousand dollars. The congregation maintains in connection with its church work the Ladies' Aid Society, organized March, 1882; the Young People's Home Missionary Society, organized September, 1881; and the Youths' Christian Association, organized in January, 1882. The church membership embraces one hundred and fifty families, one hundred and thirty-one communicants, and an attendance of four hundred at the Sunday-school.

Hyde Park Church was the sixth Congregational Church organized in St. Louis, and the fourth offshoot from Pilgrim Church. It is situated at the northwest corner of Bremen Avenue and Twelfth Street, and the pastor is Rev. L. L. West. In April, 1881, a church building which stood on Ninth Street, between Farrar and Salisbury, and which had been known as the Fairmount Presbyterian Church, was purchased for its use. The building was removed to its present location opposite Hyde Park, refitted, and dedicated July 10, 1881. The society was organized with twenty-one members, July 25, 1881, and the present pastor, who is from Chicago Theological Seminary, was elected. The building, removal, and repairing cost Pilgrim Church \$3848.27. In May, 1882, the congregation comprised one hundred and

forty families and fifty-six communicants, and there were seventeen teachers and between one hundred and fifty and two hundred pupils in the Sunday-school.

In addition to the Congregational Churches named, the Fair Ground Mission Sunday-school, belonging to the Third Church, is conducted under the superintendence of Garden Hepburn. The Ministers' Meeting is held every Monday at eleven A.M., in the parlors of Pilgrim Church, and the St. Louis District Association of Congregational Ministers and Churches meets twice a year, in April and October. Its registrar is O. L. Whitelaw, 617 North Second Street. There is also a State Central Home Missionary Committee, composed of Rev. T. M. Post, D.D., Rev. C. L. Goodell, D.D., Rev. Henry Hopkins, Rev. Theodore Clifton, Rev. J. C. Plumb, Rev. E. B. Burrows, and S. M. Edgell.

CEMETERIES.

Early in the present century we find that portions of Col. Auguste Chouteau's property were used as burial-places, and on Oct. 12, 1815, he gave notice "forbidding any further interments in his land, near the court-house in the town of St. Louis, under penalty of prosecution." On the 1st of June, 1816, James Sawyer announced that "having purchased the lot No. 6 in Col. Chouteau's addition to the town of St. Louis, on which there are some graves, and being about to build thereon, the friends and connections of the departed are hereby notified that he will have no objection to their removing the remains of their connections; or if they prefer leaving them where they are, every respect shall be paid to them on my part of which the case will admit. The conditions on which Col. A. Chouteau sold this and all the lots in his addition expressly prohibit the purchasers from permitting the interring of the dead thereon for the future, under the penalty of forfeiting the lot; this inconvenience he hopes will be effectually remedied, as Messrs. Chambers, Christy & Co. have set apart a high and handsome situation in the vicinity of St. Louis for the use of a church and burying-ground, of which they have made a donation to the public, under the express conditions that it is at all times to remain open for the interment of the dead of all religious denominations."

The public burying-ground here referred to was that which was afterwards known as "the old Grace Church graveyard," at Warren and Eleventh Streets. Col. William Chambers, of Kentucky, an officer in the United States army, was the original purchaser, and afterwards sold a third each to Maj. Thomas Wright and William Christy. As an inducement for wealthy

persons to settle in that section, these gentlemen set apart four parcels of land for public uses, and among them a "circle" containing about one and three-fourths acres, "for the purpose of erecting a house of worship, and a burying-ground to be opened for the interment of all denominations of religious persons." This circle was used as a burying-ground as early as 1825, but it was not until 1844 that a graveyard was regularly established.

In the latter year a number of Episcopalians organized a church society, and induced other persons of various Protestant denominations to unite with them in establishing a burying ground, which remained under the control of the vestry of Grace Protestant Episcopal Church, the church and ground being originally consecrated by Bishop Hawks. During the cholera epidemic of 1849 the number of interments here was so large that the grounds were closed in 1851. A large number of the bodies were afterwards transferred to Bellefontaine cemetery. The subsequent improvements in the neighborhood of the graveyard, such as grading and opening new streets, etc., disturbed many of the graves, and the contents of others were exposed by crumbling of the hill on which the graveyard was situated, and in such instances the bones were removed to the basement under the church. Among the graves thus disturbed was that of Governor Howard. This circumstance was brought to the notice of the City Council, who authorized the reinterment of Governor Howard's remains in Bellefontaine cemetery. Years ago the cemetery circle had trees on it, and the place was a popular resort in summer and autumn evenings for loving couples, and the old people who lived in the vicinity amused their friends by narrating romantic and ghostly stories concerning courtship adventures in the old graveyard. It was customary in those days for displeased parents and jealous parties to get up ghost scenes to sear the young people when promenading or seated in the place.

In February, 1823, the trustees of the town passed an ordinance "prohibiting the burial of dead within its limits."

On June 28, 1824, Messrs. J. B. Belecour, M. Murphy, G. Paul, and J. McGovern, trustees of the Catholic Church, gave notice as follows: "The inhabitants of St. Louis and its vicinity are made acquainted that a public graveyard, under the superintendence of the wardens of the Catholic congregation, and adjoining their burial-ground, is now opened, and that burials may hereafter take place by conforming with the following resolutions passed by the committee: Applications for burials to be made to the warden

in office for the year. The price of burial to be ten dollars, five dollars for children under ten years of age. Persons who would fence in a particular spot for their family, each burial to be twenty dollars, and ten dollars for children under ten years of age. The amount of burial to be settled with the church warden before the burials take place. No grave to be dug but by the digger appointed for that purpose, and according to the regulations for said graveyard. The warden in office for this year is Mr. J. B. Belcour."

In 1827 we find that orders for graves in the city graveyard, and digging them, were received by the sexton, living next to it, and by A. Rutgers, on Church Street, between Plum and Poplar Streets, and are told that a lot for twelve coffins cost twenty dollars; for one coffin, five dollars; price for digging a grave, two dollars.

In 1833 the city authorities set apart a tract of ten acres, a portion of the commons belonging to St. Louis, lying southwest of the city, for the purpose of a burial-ground, but inclosed only one acre, which was "deemed sufficient for the purpose for some years to come."

The Bellefontaine cemetery was incorporated as "the Rural Cemetery," under an act of the General Assembly of Missouri, approved March 7, 1849, the incorporators being Messrs. John F. Darby, Henry Kayser, Wayman Crow, James E. Yeatman, James Harrison, Charles S. Rannels, Gerard B. Allen, Philander Salisbury, William Bennett, Augustus Brewster, and William McPherson. On May 24, 1849, the "Rural Cemetery Association" was organized by the election of Dr. William Carr Lane, president; A. G. Farwell, secretary; and a committee, consisting of Messrs. Wayman Crow, John O'Fallon, J. B. Crockett, Christian Rhodes, John F. Darby, John Smith, John Kerr, Nathan Ranney, and N. E. Janney, was appointed on the selection of a site for the cemetery and permanent organization. Upon this committee reporting the permanent organization was effected by the election of James Harrison, president; Wayman Crow, treasurer; William M. McPherson, secretary. The capital stock was fixed at fifty thousand dollars, and a tract of land comprising one hundred and thirty-eight acres was purchased from Luther M. Kennett, on the Bellefontaine road, at two hundred dollars per acre. On the 15th of May, 1850, it was dedicated as the "Bellefontaine Cemetery." Hon. John F. Darby presided at the dedicatory ceremonies, which were participated in by Rev. Mr. Bullard, of the First Presbyterian Church; Rev. Mr. Hutchinson, of St. George's Episcopal Church; Rev. Mr. Eliot, of the Unitarian Church; Rev. Mr.

Jeter, of the First Baptist Church, and Rev. T. M. Post. A hymn composed by Mrs. F. M. Brotherton, and an ode composed by William J. Blackwood, were sung by the choir. At the close of the ceremonies lots to the amount of thirteen thousand seven hundred and seventy-seven dollars were sold. The first interment in the cemetery was made May 19, 1850. On November 4th the first annual meeting of the association was held, and the following board of trustees was elected: John F. Darby, William M. McPherson, Gerard B. Allen, Augustus Brewster, William Bennett, Wayman Crow, James Harrison, Luther M. Kennett, John R. Shepley, John O'Fallon, and James E. Yeatman. Up to Jan. 1, 1878, two thousand four hundred and seventy-two lots had been sold, and there had been nineteen thousand nine hundred and seventy-one interments. At this time the resources of the association amounted to one hundred and thirteen thousand one hundred and seventy-six dollars, and the income for the preceding year was twenty-six thousand and seventy-three dollars. The cemetery at present comprises nearly three hundred and fifty acres. The present officers are James E. Yeatman, president; George S. Drake, vice-president; Samuel Copp, secretary and treasurer; A. Hotchkiss, superintendent.

The Wesleyan Cemetery Association was incorporated under an act of the Legislature of Missouri, approved Feb. 28, 1851. An amendatory act of March 5, 1855, provided that no street or highway shall be opened through any part of the Wesleyan cemetery. By a subsequent act, passed in 1874, the Wesleyan Cemetery Association was authorized to remove the bodies buried therein and to sell and dispose of the property. The association disposed of their old property in the city and removed the remains therein to the new Wesleyan cemetery.

In 1852 the *St. Louis Republican*, in speaking of the cemeteries and graveyards of the city, said, "The old French cemetery, at the corner of Second and Market Streets, is still fresh in our memory, and this thoroughfare is now one of the busiest in the city. So, too, of the burying-place at the corner of Fourth and Market Streets, started at a later period. The public cemetery, on Park Avenue, west of Carondelet, is to be recognized to-day only by the three or four broken tombstones which are left. Not a single trace of the inclosure exists, and as a new cellar is excavated or an adjacent street improved, the remains of the dead are taken up carelessly, to be placed in this or that cemetery. Nay, the cemeteries on Franklin Avenue, which were only a short time ago believed to be far beyond the encroachments of city improvements, to-

day form the centre of a populous, busy district, and their removal is already contemplated, as they retard in a measure the progress of necessary improvements."

In 1854 a new Catholic cemetery was laid out near the Bellefontaine cemetery, to which the name of Calvary was given.

In 1865 the St. Louis City Council passed an ordinance for the removal of bodies buried in the old city cemetery to the quarantine burying-ground. The ordinance provided that the bodies shall be removed by the city by the 15th day of March following, but that persons claiming the remains of friends or relatives buried might remove them.

In 1866, during the prevalence of the cholera, the city authorities decided to bury the victims of the scourge on Arsenal Island, where the smallpox hospital was situated. The bodies were conveyed to the foot of Miller Street in ambulances, and were transferred thence to the island in skiffs.

On June 22, 1873, the corner-stone of a new chapel in Mount Sinai cemetery was laid, Rev. Drs. Wolfenstein and Sonneschein officiating.

In 1827 a post cemetery was established a short distance south from Jefferson Barracks, on land belonging to the United States government, and the first interment was made there in 1828. This cemetery included an area of one and one-fourth acres, and in it seven hundred and fifty interments were made prior to 1863. In that year a national cemetery was established there, including twenty and one-half acres, and in 1877 additions were made to this, so that now the area of the cemetery is forty-five acres.

Forest-trees at first covered the ground, but these have been removed, the surface has been graded, and ornamental trees, shrubs, vines, etc., to the number of several thousand have been planted, so that the grounds have now the appearance of a well-kept suburban cemetery. There are here eleven thousand five hundred and eight graves; one thousand one hundred and six are those of Confederate soldiers, marked with cedar head-boards. All graves of United States soldiers are designated by marble regulation head-stones, or by monuments which the friends of those who lie entombed there have erected. Here repose the remains of the nation's heroes, and the lines of the soldier-poet, which are inscribed on a modest tablet near the entrance, are peculiarly appropriate,—

"On fame's eternal camping-ground
Their silent tents are spread,
And memory guards with solemn round
The bivouac of the dead."

The national flag floats constantly over this cemetery, and thousands of patriotic and grateful peo-

ple come here annually to bedeck the graves with flowers.

In addition to the foregoing there are a number of other cemeteries near the city, most of them being connected with the different religious denominations.

CHAPTER XL.

RELIGIOUS, BENEVOLENT, SOCIAL, SECRET, AND OTHER ORGANIZATIONS.

ST. LOUIS has always been justly famed for its public and private philanthropy, and its history is distinguished by a multitude of class or religious organizations, having for their sole object the relief of the needy, the destitute, and the suffering; yet it was not until within the past twenty years that the city, officially, made any movement to supplement the good work that was being accomplished by religious denominations, associations, and private individuals. This, however, may be accounted for, in a great measure, by the fact that the system of philanthropy referred to has been of the most disinterested and the broadest character, and whenever the field was found to be in need of more extensive or general work, the citizens arose spontaneously and by energetic action and liberal charity met fully the requirements of the hour. So, all the way down from the second decade of the nineteenth century, we find at intervals evidences of this commendable spirit on the part of the citizens. The first instance of this kind occurs in 1824, the ladies of St. Louis banding themselves together for the purpose of "relieving the poor of every description in this city." This organization was called the "Female Charitable Society," and at its head as officers were—

Mrs. Hough, who was first directress; Mrs. Robinson, second directress; Mrs. Coursault, treasurer; Mrs. Agnes P. Spalding, secretary; Managers, Mrs. J. Smith, Mrs. R. Paul, Mrs. Wahrendorff, Mrs. Landreyville, Mrs. Brazeau, Mrs. Spencer, Mrs. O. C. Smith, Mrs. G. Paul, Mrs. Tracy, Mrs. Forsyth, Mrs. Shackford, Mrs. Papin.

Again, in the early part of 1838, when the sufferings of the poor demanded extraordinary recognition, the St. Louis Samaritan Society was formed. It embraced the ladies of the city, who associated themselves for the purpose of making up and supplying clothing free of cost to those who could not get it in any other way, and who were not cared for by any charitable institution. The officers of this society were: First Directress, Mrs. Jones; Second Directress, Miss Berrien; Secretary, Mrs. Ross; Treasurer, Mrs.

Whitehill; Managers, Miss Page, Miss Patterson, Miss Learned, Miss Strother, Miss Van Zandt, Miss Marks, Mrs. Nourse, Mrs. Nevitt, Mrs. Stibbs, Mrs. Ranlett, Mrs. Wiswell, and Miss Smith. On Feb. 6, 1840, a meeting, at which Beverly Allen presided, was held in the court-house for the purpose of devising means to relieve the suffering poor within the city, at which it was deemed expedient to take up a collection for the suffering poor of the city, and for this purpose a committee of three from each ward was appointed by the chair to obtain subscriptions, and a committee of five was appointed to properly distribute the moneys thus obtained. A few days later a "Society for the Diffusion of Alms" was formed, which announced that "We, the undersigned, do resolve ourselves into a society for the general diffusion of alms, and without heeding anything of the poor, save their honest poverty, do pledge our exertions to bestow our mite upon them with impartial observance." The officers of the society were—

M. P. Leduc, president; Christopher Garvey, first vice-president; Stewart Matthews, second vice-president; L. A. Benoist, treasurer; A. W. Manning, secretary. Collectors, First Ward, John Picher, Francis Mallet, John O'Rourke, and James P. Barry; Second Ward, Baptiste Belcour, Joseph W. Walsh, Michael Tesson, and L. V. Bogy; Third Ward, John Timon, Patrick Walsh, P. A. Berthold, and L. T. Lebeaume; Fourth Ward, Christopher Garvey, Matthew Lyon, M. Hogan, and John Walsh. Distributors, First Ward, H. O'Neil (chairman), R. A. Darst, John T. Mitchell, Peter Weizenecker; Second Ward, William Tighe (chairman), John McEvoy, J. C. Dinnis; Fourth Ward, Austin Piggot (chairman), Edward Walsh, Hugh O'Brien. Physicians, Dr. Vitali, Dr. Luthy, Dr. H. Lane. Counselors, B. Mullanphy, T. Polk.

In December, 1842, a public meeting for the relief of the poor was held at the court-house. Nathan Ranney presided, and Martin Thomas was secretary. The following committee was appointed to solicit donations: First Ward, William B. Wood, Henry C. Lynch, Phineas Bartlett; Second Ward, Matthias Steitz, H. L. Hoffman, Capt. W. Greene, Warrick Tunstall; Third Ward, Jesse Little, Robert B. Fife, Dr. Robert R. Simmons; Fourth Ward, Asa Wilgus, John C. Dinnis, Henry S. Coxe; Fifth Ward, Nathaniel Childs, T. O. Duncan, Martin Thomas, George K. Budd, John Whitehill, William C. Christy; Township, James H. Lucas, S. H. Robbins. The following committee was appointed on distribution, with James Clemens treasurer: First Ward, W. H. Wood; Second Ward, Thomas Cohen; Third Ward, D. D. Page; Fourth Ward, Wayman Crow; Fifth Ward, H. O'Brien; Township, Rev. N. Childs.

In the spring of 1844 the Mississippi overflowed its banks and rendered hundreds of families destitute and homeless. To relieve their suffering and destitu-

tion a meeting of citizens was held in front of the court-house, and on motion of A. B. Chambers, Bernard Pratte was called to the chair, and Henry B. Belt was appointed secretary. It was then resolved that a committee of twenty should be appointed to carry out the objects of the meeting, and the following gentlemen were appointed for the purpose, viz.: John M. Wimer, John Sefton, W. Glasgow, John Simonds, Ferdinand Kennett, T. B. Targee, Asa Wilgus, René Paul, A. Gamble, Charles C. Whittlesey, Dr. Simmons, A. B. Chambers, Frederick Kretschmar, W. Furness, Dr. Adreon, William Lowe, T. Polk, W. C. Jewett, W. R. Dawson, and Henry Singleton.

The committee, after consultation, recommended that application should be made to the City Council to appropriate some funds for the relief of the sufferers, and that a committee of five should be appointed to solicit subscriptions in each ward. The suggestions of the committee were acted upon, and the following gentlemen were nominated to collect gratuities:

For First Ward, Matthias Steitz, H. G. Soulard, John Dunn, William Horine, and John Withnell. For Second Ward, Hiram Shaw, S. M. Sill, J. G. Barry, George Morton, and John J. Anderson. For Third Ward, John B. Sarpy, J. B. Brua, A. L. Mills, T. B. Targee, and Gibson Corthron. For Fourth Ward, George A. Hyde, Col. George Mead, Robert P. Clark, J. B. Camden, and Jacob Hawkins. For Fifth Ward, N. Aldrich, A. Carr, John Leach, John Whitehill, and J. G. Shands. For Sixth Ward, Dennis Marks, W. Field, James Gordon, and T. O. Duncan. There was also a committee appointed to distribute among the sufferers the sums collected from private bounty.

On Dec. 3, 1845, another public meeting was held, at which George Collier presided, and Henry B. Belt was secretary. A committee, consisting of Hon. Bryan Mullanphy, Gen. Nathan Ranney, Unit Raisin, Capt. Connolly, Edward Bredell, H. D. Bacon, Edward Tracy, M. De Lange, Maj. A. Wetmore, Mr. Meyers, Alex. Kayser, Dr. R. P. Simmons, was appointed to inquire into the condition of the poor of the city. The committee reported to an adjourned meeting the following day that a supply of fuel was more needed than anything else, as that the article was selling at eight dollars per cord for wood, and twenty cents per bushel for coal. The following gentlemen were appointed for the several wards to inquire into the cases of suffering and want in the same:

First Ward, A. Wetmore; Second Ward, N. Ranney; Third Ward, Edward Tracy; Fourth Ward, Capt. Connolly; Fifth Ward, Alex. Kayser; Sixth Ward, B. Mullanphy.

This led to provisions for ample relief at that time. A meeting of the citizens was held at the court-house Jan. 7, 1847, for the purpose of adopting some measures of relief for the suffering poor. John Simonds was called to the chair, and C. C. Cady appointed secretary. The meeting resulted in the appointment of a committee of seventy to take whatever measures were necessary for the relief of the destitute. The committee was composed of—

Sixth Ward, William Vandeventer, Col. A. P. Field, Peter Brooks, Gregory Byrne, Charles B. Anderson, D. W. Dixon, Dr. E. B. Smith, Calvin Case, Maj. Dobyms, John Sigerson, Larkin Denver, A. P. Ladew; Fifth Ward, Dr. Reuben Knox, Lyman Farwell, John Leach, John B. Carson, John Whitehill, Samuel Gaty, David Tatum, Capt. Sparhawk, Laurason Riggs, William Brannagan; Fourth Ward, George Collier, J. B. Brant, H. T. Darrah, C. B. Parsons, Samuel H. Peacke, Wm. T. Christy, Wayman Crow, William Nesbit, Asa Wigus, Demetrius A. Magahan, N. E. Janney; Third Ward, Bernard Pratte, Dr. Anderson, Dr. Linton, Col. L. V. Bogy, H. L. Patterson, George K. McGunngle, Edward Walsh, W. P. Fisher, P. B. Tiffany, Edward Bredell, Col. Keemle, Col. A. P. Field, B. Mullanphy; Second Ward, John Wolff, John Simonds, Patrick Ryder, Robert Campbell, Dr. Julius Henry, Charles S. Rannels, John H. Watson, D. D. Page, George R. Taylor, A. B. Chambers, Charles Jacoby; First Ward, Col. P. M. Dillon, H. Milkington, C. Urici, Charles Huth, Wm. Glasgow, Jr., Judge David Chambers, John Black, D. B. Hill, Matthias Steitz, John Dunn, D. D. Donovan; township, R. Barth, Ernest Angelrodt, Adolphus Meier, Col. J. P. Thompson, H. D. Bacon, Henry Chouteau, Neree Vallé, Isaac McHose, John Withnell, H. Paddleford.

This committee made collections, and a second committee was appointed on distribution, consisting of—

First Ward, David P. Hill, treasurer; Charles Huth, C. Ulrich, H. Pilkington, B. Soulard. Second Ward, G. H. Taylor, treasurer; Nathan Ranney, Charles S. Rannels, David Keith, Henry Keyser. Third Ward, Henry Von Phul, treasurer; Adam L. Mills, Charles R. Hall, J. C. Bredell, Henry T. Blow. Fourth Ward, William C. Christy, treasurer; Theron Barnum, Wayman Crow, H. R. Singleton, C. C. Whittlesey. Fifth Ward, Laurason Riggs, treasurer; Dr. R. Knox, John Whitehill, L. Farwell, Joshua Tucker. Sixth Ward, Dr. Donelson, treasurer; Col. William Chambers, A. P. Ladew, W. Vandeventer, G. Byrne. Township, Robert Barth, treasurer; Adolphus Meier, John Withnell, H. D. Bacon, Augustus H. Evans.

During the prevalence of the cholera in St. Louis in 1849, Mayor John M. Krum called a public mass-meeting to adopt measures for the relief of the sick and suffering poor, and later in the year another mass-meeting was held "for the relief of the children made destitute by the prevailing epidemic." At the latter meeting ample measures were adopted by a committee consisting of Hiram Shaw, John H. Gay, Waldemar Fisher, T. B. Hudson, W. W. Greene, W. D. Skillman, A. J. P. Garesché, John S. Blane, Edward Hale, Francis Toncray, John R. Hammond, Rudolph Bircher, A. Riddle, John

R. Hammond, and Nathaniel Childs, who operated under the supervision of the Committee of Public Health, comprised of R. S. Blennerhassett, Truett Polk, G. Thomas, A. B. Chambers, Isaac A. Hedges, J. M. Field, L. M. Kennett, Lewis Bach, William G. Clark, T. T. Gantt, H. L. Patterson, and Thomas Dennis.

The following extract from a local paper in 1852 shows the feeling existing among the citizens of St. Louis regarding charity and benevolence:

"The present year has been one of signal instances of noble-hearted contributions to objects of general utility and public benevolence. There was the subscription of twenty thousand dollars by H. D. Bacon to the Mercantile Library Association, then Col. O'Fallon built and donated to the Medical College the elegant edifice at the corner of Seventh and Spruce Streets, at a cost of more than twenty thousand dollars, for the purposes of a dispensary for the use of the poor. He has also made provision for the perpetual payment of one thousand dollars per annum for the support of the dispensary. Recently the lady of one of our citizens has been instrumental in securing ten thousand dollars for the purpose of erecting an asylum for poor widows, or a 'widows' home.' In this ten thousand dollars there are six one-thousand-dollar subscriptions; and it may be mentioned, to the high honor of Col. O'Fallon, that in addition to a subscription of one thousand dollars to this object he subscribed fifteen acres of valuable land near the city to the same. It is a noticeable fact in St. Louis that our young men are among the most generous contributors to benevolent objects. Of the six who subscribed one thousand dollars each to the Widows' Home, three are among our young business men, Messrs. H. T. Blow, William Belcher, and H. D. Bacon. The same week that Mr. Belcher subscribed to this object he subscribed one thousand dollars to the church under charge of the Rev. Mr. Homes, and Mr. Bacon, as is well known to many, has, with unbounded liberality, entered into the same enterprise."

The general periodical movements on the part of the citizens culminated in the formation of the St. Louis Provident Association in 1862, with the object of looking after the interests of the poor of the city not otherwise provided for by churches or other benevolent bodies, of providing them with suitable employment when expedient, and of otherwise aiding them in such ways as might be deemed most judicious. As an organization it depended almost entirely for its support on public confidence in its directory and the principles upon which it was governed, which were, briefly, to relieve no case except upon personal investigation, and only through the visitor of the applicant's district, and then to give only necessary articles, to prevent interference with the sphere of churches and charitable associations, and to prevent applicants from receiving assistance from various charities at the same time. In 1863 the association was incorporated by an act of the Legislature. During the epidemic which prevailed in the city in 1866 the calls upon the association greatly increased. The County Court, with

commendable liberality, gave five thousand dollars to assist the poor, to be dispensed by the Provident Association. The officers of the association then were Joshua Cheever, president; William Downing, vice-president; S. A. Ranlett, treasurer; and J. W. McIntyre and Levin H. Baker, secretaries. The directors were William Downing, Levin H. Baker, Joshua Cheever, Henry C. Yeager, Thomas Morrison, James P. Fiske, J. W. McIntyre, John R. Lionberger, J. P. Doane, and D. K. Ferguson. The incorporators of the association in 1863 were M. M. Harrison, J. W. McIntyre, T. B. Edgar, R. I. Lockwood, John R. Lionberger, Joshua Cheever, Thomas Morrison, Edward D. Jones, William Downing, and Levin H. Baker. Its officers in 1882 were—

George Partridge, president; George H. Morgan, secretary; Directors, George Partridge, Henry S. Platt, John W. Donaldson, John W. Larimore, Charles Forthwein, R. M. Scruggs, Dwight Durkee, John R. Lionberger, George S. Drake, S. M. Dodd, Augustus Knight, Robert Dougherty, T. B. Chamberlain, John T. Davis, Charles W. Barstow, Joseph W. Branch, John C. Fischer, James M. Corbitt, G. Sessinghaus, George A. Baker.

The depot of the association is at No. 1416 Chambers Street. From its organization until Nov. 1, 1881, the association had expended for the poor of St. Louis \$418,657.42.

In 1867 an association of Protestant ladies was organized in St. Louis for the gratuitous maintenance and liberal education of Southern female children whom the calamities of war have deprived of other means of education. The best schools of such different Protestant denominations as were desired by parents or guardians were selected, as near the respective homes of the pupils as eligible, and every care was taken to secure the welfare and happiness of those committed to the association. The officers of the association were: President, Mrs. Jane E. Lewis; Treasurer, Mrs. Archibald Robinson; Recording Secretary, Mrs. William N. Beall; Corresponding Secretary, Miss Pamela H. Cowan.

Bible and Tract Societies.—In the year 1814 two missionaries, Messrs. Mills and Smith, mentioned elsewhere, visited St. Louis and awakened an interest in the minds of several persons regarding the circulation of the Bible in the city and State, but at that time nothing was accomplished to this end. In 1817 the first Bible Society west of the Mississippi was established in Washington County, Mo. On Dec. 15, 1818, a meeting of the citizens of St. Louis was called at the court-house for the purpose of forming a Bible Society. It was largely attended, Col. Rufus Easton presiding, and John Simonds being secretary. A constitution was adopted declaring that, "impressed with

the importance of a general circulation of the sacred Scriptures, we, the undersigned, agree to form ourselves into a society designated by the name of the Missouri Auxiliary Bible Society." On December 22d following an adjourned meeting of the society was held at the residence of Rev. Salmon Giddings, at which the following officers were chosen:

Nathaniel B. Tucker, president; Stephen Hempstead, Col. Alexander McNair, and Rev. James E. Welsh, vice-presidents; Col. Samuel Hammond, treasurer; Rev. S. Giddings, secretary; Col. Rufus Easton, Rufus Pettibone, Rev. John M. Peck, John Jacoby, Charles W. Hunter, John Simonds, Thomas Jones, directors.

In an annual report a few years later the executive of the society, referring to the original formation of the organization, said,—

"It is fully in the recollection of some present that at that period irreligious principles and contempt for the holy Scriptures were openly avowed. Societies for their circulation met with sneers and ridicule. Those who ventured forward in the Bible cause counted the cost. They enlisted with the determination to persevere."

In 1819 an auxiliary Bible Society was established at St. Charles, and accomplished good results in the country in the forks of the Missouri and Mississippi Rivers, and "among the soldiers at Council Bluffs."

For several years the society, as stated at that time, did little more "than to be almoners of the bounty of the parent institution, and to circulate a box of Bibles, barely retaining its existence." In 1825 efforts were made to revive it, and the following well-known citizens were associated with it as officers:

Col. John O'Fallon, president; Rev. Andrew Monroe, Rev. Thomas Horrell, Hon. Thomas H. Benton, vice-presidents; Rev. James Keyte, secretary; Rev. J. M. Peck, assistant secretary; Rev. Salmon Giddings, treasurer; Charles S. Hempstead, Josiah Spalding, Joseph V. Garnier, Thomas Essex, Dr. H. L. Hoffman, Dr. John Young, managers.

The latter part of the following year found many of those who had been identified with the Bible Society interesting themselves in the formation of a tract society. This movement resulted in the organization, on Dec. 11, 1826, of the Missouri and Illinois Tract Society, auxiliary to the American Tract Society in New York, the object of which was "to promote evangelical religion and morality by the circulation of religious tracts, and to aid the parent society in extending its operation." The officers of this society for the first year were—

Rev. Thomas Horrell, president; William Collins, vice-president; Rev. S. Giddings, corresponding secretary; John Russell, recording secretary; Rev. James Keyte, treasurer and agent; Rev. J. M. Peck, Rev. John Drew, Stephen Hempstead, executive committee.

In February, 1843, in accordance with a public notice read in the pulpits of the various Evangelical Churches, a meeting was held in the Fourth Street Methodist Church, having for its object the formation of an evangelical association. On motion of Rev. Dr. Bullard, Rev. Dr. Potts was called to the chair, and stated the object of the meeting and the character of the society to be formed. H. M. Field was chosen secretary. A committee, consisting of Messrs. Boyle, Bullard, and Wall, was appointed to report a constitution, which they did in a short time, and the title of "The Evangelical Society of St. Louis" was adopted, its objects as stated being to "promote the moral and spiritual interests of the inhabitants of the city by the distribution of Bibles, religious books and tracts, and personal visitation." The following officers were elected:

President, Capt. John Simonds; Vice-Presidents, Revs. A. Bullard, D.D., William S. Potts, D.D., I. T. Hinton, J. H. Linn, Joseph Boyle, H. M. Field, G. Smith, W. M. Rush, D. W. Pollock, L. S. Jacoby, G. W. Wall; Superintendent, Rev. Dr. Heath; Secretary, Moses M. Pallen, M.D.; Treasurer, S. A. Kellogg; Executive Committee, Rev. Nathaniel Childs, Jr., William M. McPherson, David Keith, J. A. Ross, R. R. Field, Seymour Kellogg, John Schoettler.

The society was in existence several years, and accomplished much good.

In 1847 the Missouri Bible Society was established, and among its promoters were Hon. Peter G. Gamden, Hon. Edward Bates, Trusten Polk, George K. Budd, J. B. Crockett, H. S. Geyer, Nathaniel Childs, David Keith.

The St. Louis Young Men's Christian Association.—On Thursday evening, Oct. 13, 1853, twenty-three young men from various churches of this city met in the lecture-room of the Second Baptist Church to deliberate upon the expediency of the formation of a St. Louis Young Men's Christian Association. At this meeting it was unanimously decided that an organization should be effected, and a committee of five, consisting of George W. Tracy, S. B. Johnson, Charles C. Salter, Henry W. Rice, and John T. Campbell, with the chairman, was appointed to draft a constitution and by-laws, to be presented at an adjourned meeting to be held one week thereafter in the lecture-room of the Second Presbyterian Church. This committee met from evening to evening in pursuance of its duty, and finally, on Oct. 1, 1853, permanently organized under the title of "The St. Louis Young Men's Christian Association," at the Westminster Church, by the election of E. W. Blatchford, president; A. Henry Forinan, secretary; Isaac Wyman, treasurer. On Sunday evening, November 13th, the first public meeting was held in the Second Presbyterian Church. The evangelical churches throughout

the city were closed, and the clergymen representing eight different denominations participated. The present association of the same name was permanently organized Dec. 16, 1875, after a preliminary meeting November 4th preceding in the pastor's study of the then Union Methodist Episcopal Church, now the property and home of the association. The original officers were H. C. Wright, president; F. L. Johnston and Dr. L. H. Laidley, vice-presidents; Charles C. Nicholls, recording secretary; S. J. Junkin, registering secretary; E. D. Shaw, corresponding secretary; E. Anson Moore, treasurer. The early meetings were held in a small room in a hotel corner of Twelfth and St. Charles Streets, kept by Mrs. L. H. Baker, until early in 1876, during the meetings conducted by Messrs. Whittle and Bliss at the Rink, and through their agency the association made such progress that on March 30, 1876, with a membership of one hundred and fifty, rooms were rented in the Singer Building, corner of Fifth and Locust Streets. Soon after this it became practicable to employ a general secretary, and Walter C. Douglass, then a young convert, was appointed to the position, which he continues to fill. In September, 1876, the growing membership and increasing work necessitated a second removal to 620 Locust Street, in which building were fitted up a pleasant reading-room, a large hall for prayer and business meetings, social gatherings, lectures, concerts, etc., and an office for the general secretary. The association was chartered Nov. 30, 1877, Messrs. E. Anson Moore, F. H. Bacon, and H. M. Blossom being the incorporators.

In January, 1878, a third removal was made into more commodious rooms at 704 Olive Street. As the result of efforts on the part of Rev. D. L. Moody, at the close of his labors in St. Louis during the winter of 1879-80, and through the aid of citizens, the association was enabled to purchase, May 4, 1880, from the trustees of the Union Methodist Episcopal Church, the property which it now occupies, at a cost of thirty-seven thousand five hundred dollars.

The building was erected by the Union Presbyterian Church (an independent organization), and Messrs. Page & Bacon, then the leading bankers of the city, were the principal contributors to its erection, as well as to the support of Rev. Mr. Homes, its pastor; but when this banking firm failed, and Mr. Homes retired from the ministry, the congregation became disorganized and eventually dissolved. On March 14, 1862, they sold their church to the Methodists, who paid them for it thirty-seven thousand three hundred dollars. It had cost to build, including parsonage and furniture, ninety thousand dollars.

The lot has a frontage on Eleventh Street of one hundred and two and a half feet by a depth of one hundred and twenty-one feet. The building fronts on Eleventh Street, and runs back on Locust Street the entire length of the lot. The square tower at the southeast corner of the building is one hundred and forty-five feet in height, and commands a fine view of the city. On the first floor of the building is a large and commodious reading-room. Directly in front of the main entrance and to the left of this are the offices of the general secretary, assistant secretary, and secretary of the German branch.

To the left of the side entrance to the building on Locust Street is a large, pleasant, airy hall, in which are held all the noon-meetings, the Sunday-school, etc. The upper floor, formerly the main auditorium of the church, is used for concerts, lectures, larger gospel meetings, and as a public hall for outside lectures. It is handsomely carpeted, and has a capacity for one thousand persons.

The former church parsonage, a building of ten rooms, adjoining the main building on the north, has been converted into a free dispensary for the relief of the indigent sick from all parts of the city. The German Young Men's Christian Association united with the general association on July 16, 1880, with a membership of one hundred and twenty-five. The association has two branches for railroad work, one in East St. Louis, where a handsome and commodious building has been erected on ground leased for a nominal sum from the Vandalia Railroad. The building was put up at a cost of two thousand dollars, which was defrayed by the several railroad and transportation companies centring here, and they also unite in providing for its maintenance. It contains a reading-room, wash-rooms, barber-shop, etc. The other branch is in the Union Depot building, where the association has established a reading-room, with checker-boards, dominoes, and chess.

E. Anson Moore was the second of the three presidents whom the association has thus far had. The present board of officers consists of F. L. Johnston, president; H. C. Wright and I. M. Mason, vice-presidents; H. H. Wright, recording secretary; H. E. Knox, registering secretary; W. H. Mason, corresponding secretary; E. P. V. Ritter, treasurer. Paid officers: Walter C. Douglass, general secretary; Geo. W. Jones, assistant secretary; Jacob Kessler, secretary German branch.

The St. Louis Women's Christian Association was organized November, 1868, and chartered Jan. 5, 1870, Jane E. Allen, Mary A. Edgar, Anna C. Moore, Clarice C. Partridge, Emily R. Stevens,

and C. R. Springer being the incorporators. Its object was, at first, the care of young industrial women, but this care has since been extended to aged men and their wives. The Women's Christian Home was first located in rented rooms on the corner of Fifth and Poplar Streets. The corner-stone of the present building, No. 1812 Washington Avenue, was laid in May, 1876, and the building occupied in January, 1877. There is also a Branch Memorial Home at Grand and Magnolia Avenues. The presidents of the association have been Mrs. J. E. Allen, 1869 to 1875; Mrs. C. R. Springer, 1875 to 1882. The first board of directors consisted of Mrs. J. E. Allen, president; Mrs. A. H. Burlingham, corresponding secretary; Mrs. C. R. Springer, recording secretary; and six vice-presidents. The present board is composed of Mrs. C. R. Springer, president; Mrs. D. Arnold, corresponding secretary; Mrs. Q. J. Drake, recording secretary; and six vice-presidents.

Colonization Societies.—In March, 1825, a public meeting was held in the Methodist Episcopal Church to take into consideration the propriety of establishing in St. Louis an auxiliary to the American Colonization Society. Rev. Salmon Giddings was chairman, and Rev. James Keyte secretary. On motion of Hon. William Carr Lane, it was resolved that it was expedient to form the society, and Messrs. A. Monroe, S. Giddings, and J. Keyte were named as a committee to draft a constitution. The permanent organization was not, however, effected until 1828, when Hon. William C. Carr was chosen president; Col. John O'Fallon, Hon. James H. Peck, Dr. William Carr Lane, and Edward Bates, vice-presidents; Theodore Hunt, Edward Charless, Henry S. Geyer, Charles S. Hempstead, Thomas Cohen, Robert Wash, H. L. Hoffman, John Smith, Joseph C. Laveille, Salmon Giddings, John H. Gay, and John M. Peck, managers; Josiah Spalding, corresponding secretary; D. Hough, recording secretary; H. Von Phul, treasurer. The title of this organization was the St. Louis Colonization Society, auxiliary to the American Society. In 1831 the officers of the society were—

William C. Carr, president; William Carr Lane, first vice-president; Henry S. Geyer, second vice-president; A. McAlister, third vice-president; A. Gamble, fourth vice-president; Henry Von Puhl, treasurer; Beverly Allen, corresponding secretary; D. Hough, recording secretary; Managers, Henry S. Potts, Thomas Cohen, John Shackford, John Finney, J. V. Garnier, John H. Gay, H. R. Gamble, John K. Walker, A. L. Johnson, Edward Bates, N. Ranney, E. J. Phillips.

We find no further record of this organization. On the 26th of July, 1839, the friends of the American Colonization Society met, pursuant to adjournment, at the Methodist Church. The committee to which

was assigned the duty of preparing a constitution for the Missouri State Colonization Society, and furnishing a list of candidates for the same by its chairman, Logan Hunton, presented a constitution and list of officers. The officers, who were unanimously elected by the meeting, were—

President, Beverly Allen; Vice-Presidents, Hon. William C. Carr, Right Rev. Jackson Kemper, Rev. A. Bullard, Rev. William M. Daily, Rev. W. S. Potts, Hon. William Carr Lane, Gen. Ranney, of Cape Girardeau; Hon. D. Dunklin, Washington County; S. L. Hart, Jefferson City; Hon. David Todd, Boone County; Maj. W. Blakely, Marion County. Managers, H. R. Gamble, H. S. Geyer, P. G. Camden, John C. Dinnies, Rev. Joseph Tabor, George K. Budd, Wayman Crow, Josiah Spalding; Treasurer, J. B. Camden; Secretary, Trusten Polk.

The Missouri State Colonization Society continued in existence for several years. Its annual meeting, held Nov. 14, 1844, in the Centenary Church, was addressed by Charles C. Whittlesey, Rev. R. S. Finley, Artemas Bullard, I. T. Hinton, Joseph Boyle, J. H. Linn, Mr. Heath, and Dr. F. Knox. Gen. N. Ranney presided, and the following officers were elected for the ensuing year:

President, Hon. Edward Bates; Vice-Presidents, Hon. J. C. Edwards, Gen. N. Ranney, Rev. A. Bullard, I. T. Hinton, William S. Potts, H. H. Johnson, Wesley Browning, — Goodrich, of Jefferson City; Right Rev. C. S. Hawks, Hon. James Young, and Abiel Leonard, of Howard County; Secretary, Rev. Robert S. Finley; Treasurer, Charles C. Whittlesey; Managers, Rev. James Boyle, H. H. Field, William G. Eliot, Wyllys King, John Camden, Archibald Gamble, William Burd, Trusten Polk, William M. McPherson, Thomas Shore, John Whitehill, Wm. M. Campbell.

On Jan. 11, 1848, we find that at the meeting of the Young Men's Colonization Society, held at the Unitarian Church, John F. Darby was called to the chair, and William Glasgow, Jr., appointed secretary. On motion of the Rev. Mr. Finley, a committee of three was appointed to nominate officers for the ensuing year; whereupon the following nominations were made and confirmed: President, Rev. William G. Eliot; Treasurer, H. S. Woods; Secretary, J. R. Barret; Board of Managers, Rev. Mr. Finley, Josiah Dent, Barton Bates, R. F. Barret, John Henderson, Mr. Jamison, William Warder, and C. Carroll.

The Erin Benevolent Society.—About the 1st of February, 1818, "a meeting of Irishmen to form a benevolent society" was held at the house of Jeremiah Conner, of which Thomas Brady was chairman, and Thomas Hanly, secretary. A committee on organization was appointed, consisting of Jeremiah Conner, John Mullanphy, James McGunneagle, Alexander Blackwell, and Arthur Maginnis. From this on to Oct. 10, 1819, no progress appears to be made. On that date another meeting was called at the office of

Jeremiah Conner, who was called to the chair. James Nagle was chosen secretary. A committee of seven was appointed to draft a constitution for the "Erin Benevolent Society," for the "relief of those of our countrymen who may be in distress." The meeting then adjourned to the 15th, when the committee reported a constitution, which was adopted, and the following officers were elected:

President, Jeremiah Conner; Vice-President, Thomas Hanly; Treasurer, Hugh Rankin; Secretary, Lawrence Ryan; Standing Committee, Robert H. Catherwood, Thomas English, Hugh O'Neil, Joseph Charles, Sr., and James Timon; Visiting Committee, John Timon, Robert Rankin, and Francis Rochford.

The French Benevolent Society was established about 1840, and after languishing until April, 1851, was reorganized with M. Cortambert as president. It now meets at 408 Washington Avenue.

The St. Andrew's Society.—A meeting of the natives of Scotland resident in St. Louis was held in the school-room of Mr. Brown on the night of Sept. 31, 1839, for the purpose of forming a benevolent association. John S. Thompson presided, and T. T. Stewart was secretary, and on motion of T. S. Rutherford, an organization was effected under the title of "The St. Andrew's Society of St. Louis, the object of which will be not only to cherish and keep alive that kindly feeling which ought to subsist between natives of the same country, but also to render aid to those whose circumstances require it"

Mechanics' Benevolent Society.—An association of this name was organized April 10, 1817, with Joseph Charles, president; Abraham Keys, secretary.

The American Sunday-School Union, the main house of which is located at No. 1122 Chestnut Street, Philadelphia, was first represented in St. Louis in 1867, when a branch house was established, with S. Paxson & Co. as agents. It was continued as the depository of the American Sunday-School Union until 1879, when a change was made in its management, and A. L. Paxson succeeded to the business as merely resident agent for the Union. Stephen Paxson, during his connection with the American Sunday-School Union for a period of thirty years, established thirteen hundred and fourteen Sunday-schools, containing eighty-one thousand teachers and scholars.

St. Louis Prison Discipline Society.—In 1848 a society of this name was organized, with the following officers: Hon. James B. Townsend, president; David N. Hall, vice-president; Charles H. Haven, corresponding secretary; Spencer Smith, recording secretary; Franklin Fisher, treasurer. It began its

labors with a library of one hundred and fifty volumes in the county jail, and carried on a beneficial work among the prisoners.

The Catholic Orphan Association, of St. Louis, was founded Feb. 13, 1841, the founders being Angela Hughes, Frances McEnnis, Prudentia Dorsey, Winnifred Mullen, Milonel Doyle, and Bibiana O'Malley. The board of managers included John B. Sarpy, Edward Walsh, Bryan Mullanphy, Amadee Vallé, Joseph Murphy, John Haverty, Thomas Gray, Thomas Flaherty, and Patrick J. Ryder. Under this management it was incorporated in 1849 as the Roman Catholic Male and Female Orphan Asylum of St. Louis. On Sept. 17, 1849, the managers assembled for the purpose of organizing. John B. Sarpy was elected president; John Haverty, vice-president; Amadee Vallé, treasurer; and Thomas Flaherty, secretary. The first location of the asylum was on Walnut Street, near the Cathedral. The building was torn down in 1841, and a home for female orphans was established shortly after on a lot donated by Mrs. Ann Biddle, at Tenth and Biddle Streets. A male department was established at Fifteenth Street and Clark Avenue, in a house built by the managers. St. Bridget's Half-Orphans' Asylum for Girls was established on Lucas Avenue and Beaumont Street in 1858. Sister Seraphine is the present Superior of the latter house. Half-orphans from five to twelve years old are placed here by the surviving parent. In connection with the asylum there is a Catholic protectorate at Glencoe, under the management of the orphan board. Orphans over nine years old are sent there from the city institutions, and are taught farming and trades. The three asylums are under the management of the board, which meets on the second Thursday of each month. The present officers are Rev. P. J. Ryan, president; Rev. William Walsh, vice-president; Rev. Philip P. Brady, secretary; Joseph O'Neil, treasurer; Rev. James Henry, Rev. M. W. Tobin, Rev. John J. Hennessy, Rev. James McCaffrey, Rev. Andrew Eustace, Messrs. M. Dougherty, Alexander J. P. Gareschè, Charles Slevin, J. B. C. Lucas, Patrick Fox, and John F. Gibbons, directors.

St. Vincent's Seminary, at Grand and Lucas Avenues, conducted by the Sisters of Charity, was established in 1843, at Tenth and St. Charles Streets, where it remained for many years. When the business portion of the city had spread beyond the seminary, and the number of pupils increased, the sisters sought another location, and the present site was chosen, and in November, 1875, the sisters moved into the extensive building which had been com-

pleted for them. Sister Olympia, who died in 1875, was the first Superior; she was succeeded by Sister Lucina. The office was next filled by the present incumbent, Sister Mary Elizabeth. The seminary is managed by twelve sisters, and is self-sustaining. The old building on St. Charles Street is owned by the sisters, and leased as a glass-factory.

The Convent of the Good Shepherd is located at Seventeenth and Pine Streets. The Sisterhood of Our Lady of Charity, better known as Sisters of the Good Shepherd, was organized in France some two hundred and fifty years ago by a band of ladies belonging to the nobility, and its members are drawn from the very flower of Catholic maidenhood, and must be in independent circumstances, for the work brings no pay. The work of the order in St. Louis was begun in January, 1849. Its first location was on Decatur and Marion Streets; the corner-stone of the present convent was laid in 1852, and it was dedicated in 1854, having since been enlarged by successive additions; the land on which it was built was donated by Mrs. L. Hunt. The objects of the institution are the reformation of fallen women and the preservation of young girls in danger. Its inmates are divided into four classes, which are kept entirely separate in occupation, recreation, worship, and living, as follows: (1) the Industrial Class, or orphans of respectable parentage; (2) the Class of Preservation, or young girls rescued from danger and the beginnings of evil; (3) the Penitents, or class of reformed women; (4) the Magdalens, or such of the reformed as choose to remain in the institution, some of whom have been there twenty and some even thirty years. The order in St. Louis was chartered under the name of Sisters of the Good Shepherd in 1869. Rev. Mother Provincial, Sister Mary of the Sacred Heart, has been in charge of the order since 1861; Sister Frances Patrick is her assistant. In the spring of 1882 they were divided as follows: inmates, First class, forty-two; second class, one hundred and twenty-one; third class, one hundred and seventy-five; fourth class, sixty-six. In all these classes industry, education, and religion are brought to bear.

The Convent of the Sisters of St. Mary was founded by Mother Odilia, who, with six sisters of the order of the Servants of the Divine Heart of Jesus, commonly called Sisters of St. Mary, arrived in St. Louis from Germany in November, 1872, and were chartered in 1873, under the corporate name of Servants of the Divine Heart of Jesus, Sisters Margaret Mary, Bernadine, Clara, Elizabeth, and others being the incorporators. The community is devoted to nursing and visiting the sick and poor in

their own homes. The convent of the order is located at the corner of Third and Mulberry Streets; it was built in 1873 on a lot of ground donated by Archbishop Kenrick. They have also a hospital on Papin Street, between Fifteenth and Sixteenth Streets, known as St. Mary's Infirmary, which was established in 1877. The first president of the community was Mother Odilia, who died Oct. 17, 1880, and was succeeded by Mother Seraphia. The present board of officers consists of Mother Seraphia, president; Sister Margaret Mary, mother assistant and mistress of novices; Sister Cecilia, secretary and treasurer.

The House of the Guardian Angel.—In 1859, Archbishop Kenrick gave the Sisters of Charity a small two-story building on the corner of Marion and Menard Streets. In this little house, with four rooms, the sisters opened a female protectorate. In a few years their work extended, and a larger building was erected on the same lot. In 1882 another addition was made. There are about fifty children in the house. Sister Mary Rose is the Superior.

The Convent of Carmelite Nuns, at Second Carondelet Avenue and Victor Street, was built in the year 1877. This community was declared incorporated under the name and style of "The Carmel of St. Joseph" in the year 1873. The incorporators were Louise J. Roman, Jane B. Edwards, Mary J. Smith, Ella M. Boland, Elizabeth Dorsey, Mary Eliza Trémoulet, Anna M. Wise, and others. The corner-stone of the present building was laid in 1873. They had, previous to the year 1877, occupied the country residence of Archbishop Kenrick, west of Calvary Cemetery. They elect one of their own number as Prioress every three years. The present Mother Prioress is Mother Mary.

St. Vincent's German Orphan Asylum, on Twentieth Street, between O'Fallon Street and Cass Avenue, was organized June 13, 1851, and incorporated the same year. The incorporators were John Mountel, F. L. Stuver, Francis Sturwald, F. J. Heitkamp, J. H. Grefenkamp, Francis Saler, and S. F. Blattarr. The original officers were F. L. Stuver, president; Charles F. Blattarr, secretary; Francis Saler, treasurer. Present chief officers: Fred. Arndes, president of society; H. J. Spaunhorst, president of board of trustees. The corner-stone of the building was laid in September, 1850. The object of the asylum is to receive, maintain, and educate orphans of German parentage. The institution has one hundred and seventy-eight children, in charge of the Sisters of St. Joseph, who receive a small annual compensation from the society. The entire expense is borne by members

of the St. Vincent's Society of German Catholics, and by semi-annual collections in the German Catholic Churches. The improvements and grounds cost over sixty thousand dollars. The boys receive two hundred dollars when they become of age, and the girls fifty dollars.

Western Female Guardian Society.—In May, 1866, a number of ladies resolved to establish a society, the object of which should be to protect the unprotected, house the homeless, save the erring, and help the tempted and destitute women in obtaining an honest livelihood. The society was to consist of those persons who would annually contribute one hundred dollars to its treasury, or give five years' faithful service to its board of managers. It was some time before a suitable location could be decided upon for such a home as was needed. In June the Weimar mansion, fronting on Brooklyn Street, near Twelfth, with a depth of one hundred and twenty-five feet and three stories high, was bought for the sum of fourteen thousand five hundred dollars, and nearly five thousand dollars more were spent upon it for repairs. Immediately after its opening the house was filled to its utmost capacity.

The Home of the Friendless, Carondelet road, south of Meramec Street, Mrs. Mary S. Burroughs, matron, had its origin in the circumstance of the death at the county poor-house of an elderly lady, who from a position of wealth and refinement had fallen into poverty. Thereupon Mrs. Joseph Charless undertook to establish a retreat for other ladies who might be similarly afflicted. She obtained from her husband five hundred dollars as a nucleus, and from Henry D. Bacon a subscription of one thousand dollars, conditioned on her securing a total subscription of ten thousand dollars. She did secure subscriptions to the amount of thirteen thousand dollars, whereupon the Home was organized and incorporated by charter bearing date Feb. 3, 1853, and designating as the corporation "all such persons of the female sex as heretofore have, or hereafter may, become contributors of pecuniary aid to said institution." As the managers are required to be corporators, the male sex is entirely excluded from active participation in the affairs of the Home. The first board of trustees consisted of Mary O. Darrah, first directress; Sarah B. Brant, second directress; Amanda M. Park, treasurer; Helen C. Annan, secretary; and Anna M. Perry, Mary S. Bennet, Julia A. Bacon, Mary H. Belcher, Sophia Gay, Charlotte T. Charless, Louisa Pratt, Angelica P. Lockwood, Minerva Blow, Rebecca M. Sire, Susan M. Simonds, Amelia J. Ranney, and Caroline O'Fallon, managers. The charter authorized the

city of St. Louis to give to the Home thirty thousand dollars in land or bonds, and the county to give twenty thousand dollars in bonds. The county court did give the amount so authorized, and the present site of the Home was bought for eighteen thousand dollars, soon after the issue of the charter. The house had been built for a Swiss Protestant College, but the enterprise fell through. Two years ago an addition of twenty rooms was made to the original building; they were dedicated in December, 1880. They are largely the product of memorial offerings, and on the doors of many of them may be read the names of those who are thus memorialized.

The Home now contains sixty-four rooms for inmates and six rooms for offices; the grounds contain over seven acres, and are beautifully laid out. Every comfort, almost every luxury, of life is provided for the inmates, who now number fifty-five; the location of the Home and the views from its windows are truly delightful. The rules provide that no one under the age of fifty (except such as are disabled) shall become an inmate; that all shall pay an admission fee of one hundred dollars, and shall further covenant to reimburse the Home for their maintenance in the case of their subsequently acquiring property. Since its establishment the Home has furnished shelter to six hundred old ladies; its total income last year was ten thousand two hundred and seventy-seven dollars and forty-three cents, of which five hundred and six dollars was from annual subscriptions of the corporators, seven hundred and fifty-nine dollars and seventy-seven cents from cash donations, and the balance from vested funds, legacies, etc. The principal subscribers to the original fund for the establishment of the Home were as follows: Subscribers of \$1000, Henry D. Bacon, Henry T. Blow, William H. Belcher, Pierre Chouteau, John Gay, Wylls King, William M. McPherson; subscribers of \$500, Joseph Charless, Oliver Bennett, Edw. J. Gay, John Simonds, Bernard Pratte, William M. Morrison, Alfred Vinton, Ann M. Perry; of \$300, Andrew Christy, R. J. Lockwood, D. A. January; of \$250, J. B. Brant; of \$200, Taylor Blow, W. H. Barksdale, Wayman Crow, O. D. Filley, James E. Yeatman, Loker, Renick & Co.; \$150, George R. Robinson; the rest being subscribed in amounts of \$100 and less. Other benefactions have been as follows: County of St. Louis, in September, 1853, bonds which sold at par \$20,000, used in purchase of the Home; and the following legacies: 1862, Mrs. Jane Wilgus, \$2500; 1867, Asa Wilgus, \$5000; 1869, Andrew Christy, \$500; 1874-82, Maj. William H. Bell (one-eighth of estate), \$16,500; 1875, Mrs. R. W. Oliphant,

\$500; 1876, Hudson E. Bridge, \$5000; 1876, Clara B. Ridgway, \$6000; 1881, Mrs. Henrietta Jaccard, \$1124.07. John O'Fallon and wife in 1858 gave to the Home fifteen arpens of land just west of the Fair Grounds, estimated value \$15,000 to \$20,000. The successive first directresses of the Home have been Mrs. Henry T. Darrah, February, 1853, to November, 1854; Mrs. Joseph Charless, to April, 1865; Mrs. George Partridge, to November, 1866; and Mrs. Charles Holmes, from November, 1866, to the present time. The second directresses have been Mrs. Sarah B. Brant, Mrs. George Partridge, Mrs. Rebecca M. Sire, Mrs. Charles Holmes, Mrs. George Partridge, Mrs. William Downing, Mrs. Henry T. Blow, Miss Martha Smith, Mrs. A. F. Shapleigh. Secretaries, Mrs. Helen C. Annan, Mrs. Henry T. Darrah, Mrs. George Banker, Mrs. James Fiske, Mrs. L. N. Bonham, Miss Martha Smith, Mrs. J. G. Chapman (since 1873). Treasurers, Mrs. Andrew Park, 1853 to 1864; Mrs. Samuel Copp, 1864 to the present time. There now sixty-two inmates. The officers are—

Mrs. Charles Holmes, first directress; Mrs. A. F. Shapleigh, second directress; Mrs. J. Gilbert Chapman, secretary; Mrs. Samuel Copp, treasurer; and Mrs. Henry Kennedy, Mrs. William Stobie, Mrs. Thomas Howard, Mrs. Gerard B. Allen, Mrs. E. C. Copelin, Mrs. E. A. Hitchcock, Mrs. E. E. Webster, Mrs. John C. Vogel, Mrs. S. F. Humphreys, Mrs. G. Mattison, Mrs. J. C. Kraft, Mrs. D. C. Young, Mrs. John T. Davis, Mrs. William H. Benton, Miss Jennie Glover, Mrs. L. M. Collier, Mrs. S. C. Cummins, board of trustees.

The Girls' Industrial Home.—In 1854 a number of the ladies of St. Louis established a charitable institution called "The Industrial School and Temporary Home for Destitute Children," for the purpose of reclaiming and teaching habits of industry to and educating orphan children and the children of destitute parents. In 1855, Mrs. Mary B. Homes, Mrs. Mary Ann Ranlett, Mrs. Mary B. Murray, and Mrs. Caroline E. Kasson, as incorporators, obtained from the Legislature a charter under the name of "The Girls' Industrial Home," by which name it has since been known. The Home is now situated at the corner of Nineteenth and Morgan Streets, to which place it was removed in 1867. Its first president was Mrs. Mary Ann Ranlett, but for the past twenty-five years Mrs. John S. Thomson has filled that position. Its present officers are—

Mrs. John S. Thomson, president; Mrs. Robert Anderson, first vice-president; Mrs. Jonathan Jones, second vice-president; Mrs. E. W. Clarke, recording secretary; Mrs. Edward Morrison, corresponding secretary; Mrs. W. A. Jones, treasurer. Managers, Mrs. Clara Barnard, Mrs. S. Cupples, Mrs. A. S. W. Goodwin, Mrs. J. M. Corbett, Miss M. P. Simons, Mrs. E. A. Morse, Mrs. J. Arnot, Mrs. R. E. Briar, Mrs.

George A. Madill, Mrs. M. C. Libby, Mrs. F. B. Chamberlain, Mrs. J. O. Talbot, Mrs. E. N. Leeds, Mrs. J. H. Alexander, Mrs. E. O. Stanard, Mrs. W. H. Gregg, Mrs. M. M. Buck, Miss Mary Ganse, Mrs. Charles H. Smith, Mrs. John A. Smithers, Mrs. S. Pepper, Mrs. H. D. Waterman, Mrs. William Mitchell, Mrs. W. F. Brinck, Mrs. E. G. Obear, Mrs. J. S. Dunham, Miss Anna Pulliam, Mrs. F. S. Waters, Mrs. G. L. Joy. Sewing Committee, Miss Ella Fairman, Miss Belle Anderson, Miss Laura Anderson, Miss Ewald. Advisory Committee, A. F. Shapleigh, S. Cupples, E. G. Obear, E. Morrison. Counsel, Henry Hitchcock, S. P. Galt. Physicians, J. F. Stevens, J. M. Stevens.

The Working Women's Home and Home for Blind Girls.—The Working Women's Home was organized in 1875, under the direction of the Western Sanitary Commission, comprising George Partridge, C. S. Greeley, James E. Yeatman, and J. B. Johnson. The object of this institution was to supply a home for working women and a day nursery. In connection with the Working Women's Home a Home for Blind Girls was established in 1879. The latter was founded because it was found that many of the girls on leaving the Missouri Institution for the Blind were left without a place of refuge. A society was organized among the blind girls of the institution, known as the Blind Girls' Band. At a meeting held by them for raising a fund the collections amounted to one dollar and sixty-two cents. The band went to work, and by their exertions, with a few donations, succeeded in raising a fund of six thousand five hundred dollars. The Western Sanitary Commission offered the band the use of a portion of the Working Women's Home free of charge, and they established an Industrial Home for the benefit of poor blind girls. Mrs. M. A. Evans has long presided over the management of the Home. The Home is on Twelfth Street, between Cass Avenue and O'Fallon Street. The buildings are owned by the Sanitary Fund.

The Worthy Woman's Aid, 1712 North Tenth Street, is a home institution, conducted by Mrs. Hariot for women who are out of employment. Shelter is given them, and situations are sought for worthy applicants. Mrs. Hariot conducts the Home, which has twenty inmates, without the aid of any organized charity.

The Methodist Orphans' Home.—In 1865, William H. Markham determined to establish an orphans' home. His object was to take care of the helpless orphan children of Methodist parents, and if able to receive and provide for any destitute orphans, without regard to the religion of the parents, to educate them at the public schools so far as necessary for business, trades, etc. Mr. Markham proposed to bear the responsibility for all necessary expenses, but no one was prohibited from contributing to the enter-

prise. In 1866 a building known as the Chamburg House, on the southwest corner of Twelfth and Monroe Streets, was rented and furnished. It was soon found that this house was too small, and the Doby mansion being then for sale, it was purchased by Mr. Markham for about thirteen thousand dollars. The Home is located on the southwest corner of Twelfth and Brooklyn Streets, and both the house and the grounds are admirably adapted to its purpose. In 1867 the control of the Home was transferred to the keeping of the Methodist Episcopal Church South, by which it was reorganized, and went into operation with the following officers:

William H. Markham, president; Levin H. Baker, first vice-president; Hiram Shaw, second vice-president; Austin R. Moore, permanent secretary; and Hon. Truett Polk, William T. Gay, Robert Baker, James Bissell, and John C. Bull, Mrs. William Finney, Mrs. J. G. Shelton, Mrs. William T. Gay, Mrs. C. C. Anderson, Mrs. Levin H. Baker, Mrs. P. H. Lockwood, Mrs. John O'Fallon, Mrs. Truett Polk, Mrs. Samuel Cupples, Mrs. Edwards, Mrs. Jesse Arnot, Mrs. Dr. Bryant, Mrs. M. R. Collins, Mrs. Bissell, Mrs. Capt. Logan, Mrs. Jesse Boogher, Mrs. A. McCamant, Mrs. J. B. Coleman, Mrs. Nathan Coleman, Mrs. W. C. Goodwin, Mrs. Dr. William Johnston, Mrs. O. G. Rule, Mrs. James Merriman, Mrs. Barbee, Mrs. Mary Avis, Mrs. Higgins, Mrs. Jos. Patterson, Mrs. Gates, Mrs. W. L. Larimore, Mrs. Vandever, Mrs. T. F. Drake, Mrs. Smizer, Mrs. James Miller, Mrs. J. C. Bull, Mrs. McCausland, Mrs. Dr. Penn, directors.

After the reorganization the Home was removed to 3533 Laclede Avenue, its present location.

Mullanphy Emigrant Relief Fund.—Bryan Mullanphy, a philanthropic citizen of St. Louis, who died June 5, 1851, left the following will:

"I, BRYAN MULLANPHY, do make and declare the following to be my last will and testament:

"One equal undivided third of all my property, real, personal, and mixed, I leave to the city of St. Louis, in the State of Missouri, in trust, to be and constitute a fund to furnish relief to all poor emigrants and travelers coming to St. Louis, on their way, *bona fide*, to settle in the West.

"I do appoint FELIX COSTE and PETER G. CAMDEN executors of this my last will and testament, and of any other will or executory devise that I may leave; all and any such document will be found to be olograph, all in my own handwriting.

"In testimony whereof, witness my hand and seal.

"BRYAN MULLANPHY. [SEAL.]

"Witnesses present:

"ADOLPHUS WISLIZENUS.

"JOHN WOLFF.

"M. W. WARNE.

"D. AUGUST SCHNABEL."

The city of St. Louis accepted the trust, but the will was contested by relatives of the deceased. After litigation for several years, the will was declared valid, and the terms of the instrument have been carried into effect. The fund consists of real estate altogether

and the income from it, and it is now estimated at nearly \$600,000. It is managed by a board of thirteen commissioners appointed by the City Council, the mayor being *ex officio* a member of the board. An immense amount of good is being done for poor emigrants and travelers through the distribution of this fund. Commissioners are appointed every three years, but their terms of office do not expire at the same time, three being chosen each year. The present board is composed of August Frank, president; Alexander Cameron, vice-president; G. H. Boeckenkamp, Dr. Frederick Hill, Adam Linck, H. C. Meyer, C. H. Miller, L. W. Mitchell, William Nichols, E. J. O'Connor, D. T. Parker, Philip Stock, and R. M. Scruggs. William H. Block is secretary of the board, and the general office is located at No. 807 Locust Street.

The Home for Aged and Infirm Israelites of St. Louis.—About twenty years ago the Hon. Isidor Bush and others endeavored to establish in St. Louis a Jewish hospital. The city authorities donated a block of ground near the Marine Hospital for that purpose, conditioned, however, that the hospital be erected within two years thereafter. The Jewish community being unable to raise the requisite means to build the hospital, and other difficulties arising, the property reverted to the city. No action was thereafter taken to further the object until Oct. 13, 1878, when at the suggestion of the late Bernard Singer, its president, the United Hebrew Relief Association of St. Louis subscribed sixteen hundred and twenty dollars in annual meeting in aid of a home for old and infirm Israelites, and appointed a committee, consisting of Rev. Dr. Sonnesehein, Jacob Furth, and A. Binswanger, to draft an appeal to all Israelites of the city to meet at Harmonie Club Hall Oct. 27, 1878, for the purpose of organizing a Jewish Hospital Association. The appeal was issued; a large number of persons convened, and the association adopted as its name the title of "Jewish Infirmary and Hospital Association of St. Louis." At this meeting eight hundred and seventy dollars, additional to the sixteen hundred and twenty dollars before contributed, were subscribed, with the understanding that no part of said subscriptions were to be collected until the sum of five thousand dollars was subscribed. The association organized by electing Jacob Furth as president, William Goldstein as treasurer, and A. Binswanger as secretary. After this there appeared to be a lack of interest in the subject, and the Relief Association, in view of this fact, concluded to establish a home for aged and infirm persons, with a hospital as an appendage, thereby reversing the plan previously adopted, and making the

hospital an appendage to "the Home." To carry out this purpose they annually set aside from the proceeds of grand charity balls of the Relief Association certain sums of money until the sum thus set apart amounted to seven thousand two hundred dollars. For about twenty years there had existed an association known as "The Ladies' Widows and Orphans Society," which had been organized to aid in establishing an orphan asylum here. The asylum being located at Cleveland, Ohio, under the auspices of the order of B'nai B'rith, the Ladies' Widows and Orphans Society kept its fund intact, but donated the interest thereof annually to the Cleveland Orphan Asylum. In 1882 it had a fund of ten thousand dollars in its treasury. The president of the Relief Association conceived the idea of persuading the society to donate its fund to establishing a home for aged and infirm persons, and after much deliberation the fund of the Ladies' Widows and Orphans Society was equally divided between the Cleveland Orphan Asylum and this association.

The Ladies' Zion Society, through its president, Mrs. Joseph Wolfort, was next enlisted in this behalf, and it generously promised to contribute fifteen hundred dollars. Then the young ladies of the city, under the leadership of Misses Flora Isaacs, Clara Maas, Josie Bush, Sophie Glaser, and Sarah Schiele, organized an association called the Young Ladies' Hospital Aid Society, whose chief purpose was to raise means to furnish the hospital when erected. They raised the handsome sum of fourteen hundred dollars, which was placed in the hands of Jacob Furth and Joseph Wolfort as trustees. The idea of establishing a hospital having been abandoned, they agreed to contribute this fund, which had swelled to the sum of eighteen hundred dollars, towards establishing a "Home." The property No. 3652 Jefferson Street was purchased in April, 1882, by the United Hebrew Relief Association, and a society was permanently organized as "The Home for Aged and Infirm Israelites of St. Louis," with B. Hysinger, president; A. Binswanger, secretary. The home was formally dedicated May 28, 1882. The contributors to the purchase and equipment of the institution were the United Hebrew Relief Association, \$7777; the Ladies' Widow and Orphan Society with \$5000; the Young Ladies' Aid Society with \$2000; the Ladies' Pioneer Society with \$1000; the Ladies' Zion Society with \$1500; the Ladies' Hebrew Relief Society with \$300; L. M. Hellman, \$1000; Mrs. Lewis Beaman, \$1000; Nicholas Scharff and wife, \$500; Marcus Bernheimer and wife, \$500; Albert Fischer, \$250; M. Fraley, \$100; and Albert Fishel, of Pittsfield,

Ill., \$50. The house and lot cost \$10,500, the improvements necessary to fit the building for a home cost \$2000, the furniture and carpet cost \$3500, and other incidentals cost \$500; total, \$16,500. The grounds are two hundred and eighteen by two hundred and seventy-nine feet, and are tastefully laid out and carefully kept. The house is a brick structure, three stories in height with a basement. Fifty persons can be cared for in the Home, and only infirm Israelites over sixty years of age and of good moral standing are admitted. The present officers are B. Hysinger, president; Mrs. Albert Fischer, vice-president; August Binswanger, secretary; Benjamin Eise-man, treasurer; and L. M. Hellman, N. Scharff, Mrs. A. Frank, Miss B. Langsdorf, Mrs. J. Wolfort, Mrs. M. Fraley, W. Goldstein, Mrs. L. Stern, M. Loewenstein, directors.

The German General Protestant Orphans' Association of St. Louis was organized Feb. 13, 1877, and located on Natural Bridge road, near White Avenue. The names of the incorporators are Philip Krieger, Sr., Charles G. Stifel, Heinrich Hertz, Fritz Zelle, Francis H. Krenning, Claus Kiehts, William Lefmann, John H. Conrades, Adolph Fischer, Gerhard Boeckenkamp, Ernst Knickmeyer, August Schulenberg, Nicholas Berg, Friedrich Dietroeger, Otto Peters, Casper Prange, William Reipschlaeger, Hugo Starkeoff, and John Woestmann. The object of the association is to receive, as far as possible, all poor orphans and educate them without charge, also to receive half-orphans and orphans with means provided by the surviving parent or guardian. The first president was Philip Krieger, Sr., who resigned May 26, 1879. His successor, who is now holding the office, is John H. C. Conrades. The cornerstone of the building was laid Sept. 6, 1877. On Oct. 20, 1878, it was dedicated, and occupied by the first orphans a few days after its dedication. The present officers are John H. C. Conrades, president; Charles G. Stifel, vice-president; Ernst Knickmeyer, secretary; Frederick Zelle, financial secretary; Francis Krenning, treasurer; Adolph Fischer, William Reipschlaeger, William Lefmann, William Noelker, Friedrich Diekroeger, H. Bloebaum, Gerhard Boeckenkamp, Theodor Lessinghaus, Claus Kiehts, Claus Grote, H. W. Moermann, Conrad Fath, August Gehner, and C. Hager, directors.

The German Emigrant Aid Society was organized Feb. 6, 1851, and was chartered under an act of the Legislature of Missouri, Feb. 27, 1851. The original incorporators were Robert Hanning, Arthur Olshausen, William Stumpf, Ferdinand Overstoltz, and others. Its object is the relief of German im-

migrants after their arrival in this country, by furnishing them with money, supplies, etc. The present officers are Arthur Olshausen, president; C. J. Stifel, vice-president; H. T. Wilde, recording secretary; Dr. H. Kenney, corresponding secretary; and C. R. Fritsch, treasurer.

The Farmers' and Mechanics' Mutual Aid Association of St. Louis was incorporated Sept. 22, 1878, with J. F. C. Fagg, F. M. Doan, A. V. Cobb, J. S. Brown, F. K. Doan, S. R. Peters, and G. Hurt, incorporators, as a beneficial association. Its present officers are Hon. Thomas J. C. Fagg, president; Nathan Shumate, vice-president; F. M. Doan, secretary; J. S. Brown, treasurer; Frank K. Doan, general manager; S. R. Peters, counsel; Garland Hurt, medical director.

Covenant Hall Association.—This organization was incorporated in December, 1877, by A. Kramer, Isidor Bush, S. Wolfenstein, H. Newland, Jacob Furth, and David Loewer, for the purpose of providing and furnishing a suitable meeting-place for the different Jewish benevolent societies. It is located in the Druid Hall building, corner of Ninth and Market Streets. Its present officers are H. Newland, president; and Isidor Bush, secretary and treasurer.

The Mullanphy Emigrant Home.—This building, situated on Fourteenth Street, between Mullanphy and Howard Streets, was erected in 1867, at a cost of thirty thousand dollars, partly supplied from the Mullanphy Fund. The Home was maintained until 1877, when the trustees, finding that it was less expensive to carry out the provisions of the devise in other ways, leased it to the school board, by whom it is now used for school purposes.

The St. Paul's Benevolent Society was incorporated May 16, 1868, by Frederick Arendes, Nicholas Helmbacher, G. L. Gretz, A. Geisel, Louis Metts, and others. The membership numbers nearly six hundred. The object of this society is to render aid to its members in case of sickness or death. The officers are Frederick Arendes, president; Julius Peterson, treasurer; P. W. Bergs, secretary.

Ancient Order of Hibernians.—In 1847 some Irish-Americans of New York City organized the Ancient Order of Hibernians, to relieve the distresses of the thousands of their countrymen who in that period were fleeing to this country to escape the horrors of the memorable famine in Ireland. It is said they patterned it after some of the numerous patriotic secret societies which for centuries have flourished on Irish soil. The order gradually spread to other States, and finally assumed a beneficial char-

acter. In St. Louis the first division was established in 1870 by John Tigh, Andrew Ferry, Peter Leonard, Patrick Coughlin, and others. Divisions 2 and 3 were organized during the same year, and others followed until at the present time every district in the city is supplied.

The order provides sick benefits, and a death benefit of one thousand dollars. Members must be Irish, or of Irish descent, and must also be Catholics. The opposition to the order on the part of the church authorities in some sections has never been manifested in St. Louis; on the contrary, it has always had their sanction and support.

In 1870 a State Division was also established. There are now sixteen divisions in Missouri, with about nine hundred members. The present State officers are: State Delegate, P. J. Kelley, St. Louis; State Secretary, John J. Granfield, Kansas City; State Treasurer, Charles Landers, St. Louis.

The affairs of the order in St. Louis are managed by a board of five officers from each subordinate division. The present County Delegate is James Garrigan; County Treasurer, J. A. Flynn.

The divisions in St. Louis are as follows:

Division No.	Membership.
1.....	135
2.....	120
3.....	150
4.....	80
5.....	75
6.....	58
7.....	114
8.....	119
9.....	89
10.....	100
Total.....	1040

The **Helvetia Huelfs-Gesellschaft** is an association of Swiss residents of St. Louis, organized in 1873 to relieve the distress of needy immigrants or travelers of that nationality, as well as the wants of any of its members. It has about fifty members. It is supported by fees and dues, and by appropriations from the Swiss government and Swiss cantons. The yearly receipts are about one thousand dollars. During the last year two hundred and forty-six persons were relieved. The officers are: President, Rev. J. G. Eberhard; Vice-President, F. T. Ledergerber; Secretary, H. Graf; Treasurer, Jacob Buff. While an independent body, it is in affiliation and correspondence with similar associations in Philadelphia, Chicago, and New Orleans.

Marine Engineers' Association, No. 6.—The Marine Engineers' Association, No. 6, was organized Feb. 25, 1875, for the purpose of the mutual improvement of its members. It obtained a charter April 25th of the same year. It was located at first

on the corner of Eleventh Street and Franklin Avenue, but afterwards removed to No. 411 North Third Street, where it is now situated. Its presiding officers have been J. W. Shea, Hunt Owen, and Thomas H. Nelson. Its present secretary is James H. Harris. The association numbers three hundred and fifty members. There are thirty-four similar associations in the United States.

Millwrights' Assembly.—This assembly was organized March 7, 1880, for the purpose of improving the condition of its members and obtaining legitimately for their labor as high wages as possible. It was chartered in April, 1880, with Porter Pleasant, C. F. Metz, F. O. Semn, and J. O'Connell, incorporators, and located at No. 902 South Fourth Street. Its presiding officers have been, successively, A. Landgraf, P. Pleasant, J. McClure, and J. C. Booth. Its present officers and directors are A. Landgraf, A. J. Burns, C. F. Metz, F. Woehne, C. Schmidt, H. Berneh, and T. Hill, with Thomas Howard, secretary.

United Sons of Erin Benevolent Society.—This is an open association of Irishmen who are Catholics for mutual assistance. It was organized in 1866, and among the early members and promoters were Rev. James Henry, Francis Noonan, Dr. W. H. Brennan, James Bligh, and others. It is the only association of the name in St. Louis, is confined to the city, and has about two hundred members. It pays six dollars a week for sick benefits, and in the event of a member's death the heirs receive one dollar from each surviving member. The officers for 1882 were—

Spiritual Director, Rev. Father Henry; President, M. Whalen; Secretary, John Costello; Treasurer, Richard O'Neill; Medical Examiner, Dr. W. N. Brennan.

Gruetli Verein.—By 1845–48 quite a colony of Swiss had settled in St. Louis, and in 1848–49 (some say a year or two earlier) the "Swiss Benevolent Society" was formed. It appears to have been subordinate to the National Gruetli Verein, which was organized in 1848. About the same time the Gruetli Gesangverein was organized, and after some years the two societies consolidated. Both had good libraries, and the benevolent society had three hundred and fifty dollars. The association was known as the Gruetli Verein, and its objects were beneficiary. Ultimately the song section withdrew and became the Swiss Maennerchor.

The Gruetli Verein was one of the first of the foreign societies to parade in St. Louis, and its appearance in public on the 4th of July and November 17th, when the "Gruetli Oath" was celebrated, occasioned much comment. One of its conspicuous mem-

bers was John Bachman, who was dressed as William Tell, and whose gray beard fell to his knees.

In 1861 the Gruetli Verein was chartered, the incorporators being J. C. Brandenberger, Francis J. Ackerman, J. J. Kiburz, John Rudy, Gregor Meury, Ole F. Schneider, J. C. Kaiser, Noel Kiburz, and Charles Ehrmann.

During the war it lost many members who fought on the side of the Union. Since then its career has been without special incident. It has about one hundred and fifty members, and pays six dollars a week for sick benefits, and three hundred dollars in case of death. Of late years it has worked independently of any outside authority.

The present officers are: President, J. C. Mueller; Vice-President, John Meyer; Secretary, G. Hegg; Financial Secretary, John Grob; Treasurer, Conrad Hippenmeier; Librarian, J. Schlaeh.

Sons of Temperance.—This order originated in New York in 1842, and in February, 1844, A. Spalding, of St. Louis, petitioned the National Division for a charter for a division in St. Louis, which was granted, and St. Louis Division, No. 1, was organized, probably during the same year. In 1846, Henry Stagg, the Recording Scribe of the division (a well-known lawyer), and W. F. Chase represented Missouri in the National Division. On the 5th of May, 1847, the Grand Division of Missouri was instituted by William S. Stewart, Deputy M. W. P. Five divisions existed in Missouri, and Rev. C. B. Parsons, D.D., was the first Grand Worthy Patriarch. Among the prominent members of that body were Bernard Bryan, Ira Vail, J. R. Lackland, Rev. W. Z. Prottzman, Jonathan Jones, James Spore, John B. Higdon, William A. Lynch, Isaac N. Hedges, and T. H. Cavanaugh. William S. Stewart was a prominent Odd-Fellow, and had been Grand Master of the I. O. O. F. Grand Lodge.

The records of the Grand Division of Missouri are lost, and details of the progress of the order in the city are very meagre. Bernard Bryan represented the State in the National Division in 1848, and reported two thousand two hundred and eight members; in 1849 three thousand three hundred and seventy members were reported. At one period before the war there were one hundred divisions in the State, with perhaps fifteen thousand members, but the war nearly destroyed the order, leaving but eight or ten divisions, with only about two hundred members. In St. Louis there were ten divisions before the war, with a membership of one thousand to fifteen hundred. There is now but one St. Louis division, No. 1, about fifty members. There are six divisions in Missouri,

with some three hundred members. The present Grand Division officers are—

G. W. P., P. R. Ridgeley, Palmyra; G. W. A., Miss R. E. Anderson, Palmyra; G. S., J. J. Garver, St. Louis; G. T., Mrs. F. E. Lane, Palmyra; G. Chap., Rev. M. M. Hawkins, Palmyra; G. Con., N. W. Dunn, Philadelphia; G. Sent., J. W. Tattman, Philadelphia; E. H. Hulin, Palmyra, P. G. W. P.

Catholic Total Abstinence and Benevolent Society.—This society was the pioneer of all the Catholic temperance societies which have sprung up within the past thirty years. It was organized on the 15th of August, 1848, by the Rev. John Higginbotham, a retired chaplain of the British army. He was the pastor of St. John's Catholic Church, and built the new St. John's Church, and remained at the head of the society until he left St. Louis, which was about 1855. He went to Halifax, N. S., and started a similar and flourishing society there, and then re-entered the British service. After some years he was retired, and is now living in England with the rank of colonel.

The second president of the society was Rev. James Bannon, who in 1861 or 1862 entered the Confederate service as chaplain, and after the war returned to Dublin, where he is living, a Jesuit Father, and regarded as one of the ablest preachers in Ireland. The third president was the Rev. James O'Brien, who in 1863 or 1864 was succeeded by the Rev. Father Henry, who has been the president uninterruptedly ever since. Father O'Brien is reported to be teaching in a college in Illinois.

The first officers of the society were—

President, Rev. John Higginbotham; Vice-President, Michael McEnnis; Secretary, Thomas Lawless; Treasurer, Michael Hogan; Grand Marshal, Col. Joseph Kelley.

Of these officers, Father Higginbotham, as previously stated, is still living. Mr. McEnnis is also still alive, and in 1881 was president of the Merchants' Exchange. He was succeeded by Dennis Kehoe, who is dead. James Mulholland was the second secretary, and the third secretary was Patrick Sullivan, who has filled that office for many years. Michael Hogan was treasurer for a number of years, and then Michael Whelan. Both are dead. The next treasurer was Edmund Burke, and the next was Michael E. Smith, who was succeeded by Michael Clary, who has held the office for nearly a decade.

Until the civil war the society had seasons of great prosperity, and at one time nearly one thousand members were enrolled. The war caused a serious division, and many of the members enlisted, some on the side of the Confederacy, but the great majority in the Union army. After the war the society was

subjected to loss by reason of the establishment of numerous beneficiary orders, which attracted the young men; consequently it is now composed principally of middle-aged and old members. Originally established purely as a temperance society, relying on moral inducements, it was found expedient some years ago to adopt certain beneficiary features, viz.: Funeral benefits of one dollar *per capita* on the death of a member; seventy-five dollars on the death of a member's wife, and five dollars per week sick benefits. The society is not secret, and it is confined to Catholics. The present membership numbers nearly three hundred, and the present officers are—

President, Rev. Father James Henry; First Vice-President, Robert Kelleher; Second Vice-President, Thomas J. Donahue; Secretary, Patrick Sullivan; Treasurer, Michael Cleary; Marshal, James Duffy; Messenger, Dennis Daly.

In relieving distress and in assisting those of infirm will to escape the bondage of drink, the society has done an amount of good that cannot be estimated.

Independent Order of Good Templars.—This popular temperance organization originated in Central New York in 1852, and was the first society of any kind to admit women to every position of official dignity and honor on equal terms with men. The first lodge in Missouri was established at Booneville, April 25, 1854, by B. F. Mills, a prominent member of the Sons of Temperance, who during a visit to the East in the interest of that order was initiated into a Good Templars' lodge, and returned full of enthusiasm for this new temperance institution. The first lodge in St. Louis was instituted early in 1855, and soon after, in the order named, St. Louis Lodge, Lily of the Valley Lodge, and Mound Lodge were established. Mr. Mills was the instituting officer of all these.

On the 14th of March, 1855, the Grand Lodge of Missouri was established in St. Louis. So rapidly had the order grown that there were seventy-seven lodges and several hundred Good Templars in the State, yet at the institution of the Grand Lodge only eleven lodges were represented, located in Alexandria, Columbia, California, Farmington, Paris, Platte City, Springfield, Warsaw, two at Warrenton, and one (Mound Lodge) at St. Louis, the delegate from the latter being Mrs. Jane P. Moon, still a resident of St. Louis, who has been uninterruptedly a member of the order. The first Grand Worthy Chief Templar of Missouri was Col. William F. Switzler, of Columbia, and of the fifteen members of that Grand Lodge he and Mrs. Moon are believed to be the only survivors. The first officers of the Grand Lodge were—

Grand Worthy Chief Templar, Col. William F. Switzler, Columbia; Vice-Templar, Mrs. Jane Walker; Counselor, R.

E. Blakeley; Secretary, B. H. Mills; Treasurer, E. E. Pleasant; Chaplain, Rev. W. M. Rush; Marshal, H. B. Callahan.

Up to the breaking out of the war the order flourished in St. Louis, and among its promoters were John F. Grandy (now dead), who became Grand Secretary and Grand Worthy Chief Templar; John Libby (now dead), who became Grand Secretary, and who at one time edited a temperance paper; John Campbell, now of Moberly Mound, who also became Grand Worthy Chief Templar; C. S. Barrett, a lumber merchant of Carondelet; R. R. Scott, still living, and for several years one of the most energetic Grand Secretaries the Grand Lodge ever had; and Timothy Parsons, an active member of several other temperance societies.

When the war broke out the Good Templars had nearly five hundred lodges in Missouri, but that contest nearly broke the order up, and when the first Grand Lodge met after the war only about twenty-five lodges responded to the call. In St. Louis, however, the order did not greatly suffer, as the lodges were recruited from the numerous bodies of soldiers in the city, and one of the most flourishing lodges was the one in connection with the camp at the Fair Grounds. The Good Templars reached their greatest prosperity in St. Louis after the war, when, under R. R. Scott's Grand Secretaryship, there were eleven lodges in the city, with about twelve hundred members. There are now eight lodges in St. Louis, as follows:

Anchor, No. 1; Lily of the Valley, No. 5; Resolute, No. 216; Our Neighbors, No. 233; Hope, No. 963; Western Star, No. 58; North Star, No. 904; Lone Star, No. 44; Meramec, No. 46.

The present officers of the Grand Lodge are as follows:

G. W. C. T., W. F. Switzler, Columbia, Mo.; G. W. C., J. Y. Nesbit, Paris, Mo.; G. W. V. T., Mrs. Mary J. Alexander, St. Louis; G. W. Sec., W. D. Crandall, Brookfield, Mo.; G. W. Treas., Mrs. Ann W. Broughton, Paris, Mo.; G. W. Chap., T. J. Hutchinson, Springfield, Mo.; G. M., R. Brookes, Fredericktown, Mo.; Supt. of Juvenile Templars, Mrs. Jane P. Moon, St. Louis.

Several attempts have been made to organize lodges among the colored people of St. Louis, but without much success.

The order has not been beneficial, but in 1881 the Grand Lodge authorized the organization of a Mutual Benefit Association, and in May, 1882, the "Good Templars' Mutual Benefit Association of America" was reported organized, with headquarters at Columbia, Mo. It embraces insurance for one thousand, two thousand, three thousand, four thousand, and five thousand dollars.

The Shamrock Society.—In the summer of

1854 a riot occurred in St. Louis, continuing three days, and among the victims were many Irishmen. While engaged in caring for their injured countrymen, some of the leading Irishmen of that period projected the establishment of a permanent society to relieve the wants of their distressed compatriots, and in September, 1854, the Shamrock Society was organized. The meeting was held at the house of Patrick Moran, Eighth and Biddle Streets, and among those participating were M. J. Dolan, William Hughes, William Delehunt, Patrick O'Neill, Edward Lester, Martin Keary, and several others. Edward Lester was the first president. The object of the society was declared to be beneficial, embracing sick benefits of five dollars per week, and an assessment of one dollar per member in case of death. The society flourished up to the war, and at one time had nearly three hundred members. During the war it suffered from political divisions, but since that period has had a prosperous but unostentatious career, and now numbers about two hundred and twenty-five members. It is not a secret society. While exclusively a St. Louis organization, it is in correspondence with the Irish Catholic Benevolent Union, and traveling members receive help if needed. Safeguards, however, are provided for the protection of the society against fraud. The present officers are—

President, Patrick Monahan; Vice-President, Richard Reddy; Recording Secretary, Thomas Cullinane; Financial Secretary, John Walsh; Treasurer, John Hall.

Chapter of Temperance and Wisdom.—On Sept. 5, 1859, some young men who had been members of a temperance order for young people in Buffalo, N. Y., organized Mount Vernon Chapter of Temperance and Wisdom of St. Louis. The charter members were D. R. Mason, H. D. Moore, C. F. Parsons, M. Dole, David Daniels, M. D. Degge, Charles C. Lacey, Franklin Lacey, A. J. Fox, Henry Fox, and D. R. Mason was the first presiding officer (or king). In 1860 the Grand Chapter of Missouri was organized, the Grand King being Timothy Parsons. This chapter assumed supreme functions, and issued charters for chapters in Pittsburgh, Pa., and Springfield, Mo., besides organizing several chapters in St. Louis,—Perseverance Chapter, in 1870; North Star Chapter, in 1872; and Silver Star Chapter, in 1873. All these chapters were very successful for a season, and had at one time five hundred members in the aggregate, but eventually all died except one, which has about one hundred members. The order was specially designed for the young, and the ritual was showy and attractive. The existing chapter has the following officers:

Grand King, H. D. Moore; Grand Queen, Emma R. Barnes; Grand Marshal, J. W. Barnes; Grand Recorder, J. J. Garver; Grand Treasurer, Alexander McAllister.

The Catholic Knights of America, organized at Nashville, Tenn., about the year 1874, for mutual aid and support, is a beneficiary order, paying two thousand dollars death benefits, and sick benefits at the option of the subordinate branch. In St. Louis the first branch of the order was organized Sept. 4, 1879, by J. W. Mertz, J. W. Rooney, P. O'Brien, James Mullen, A. R. Rivet, Robert Parkinson, F. W. Stephens, J. P. Kane, and Daniel Gray. Among other prominent promoters of the order in St. Louis are J. St. Cyr, J. W. O'Connell, J. Guignon, P. Monahan, Dr. F. Lutz, M. J. Brennan, A. Finney, John J. O'Neill, J. Moran, M. Haughey, F. A. Rogers, Henry McCabe, M. W. Hogan, and others. There are thirteen branches in St. Louis, with about nine hundred members. The membership in Missouri is about fourteen hundred. The State Council was organized April 12, 1882, with the following officers:

Spiritual Director, Rev. W. H. Brantner, St. Louis; President, John J. Thompson, St. Louis; Vice-President, H. B. Denker, St. Charles; Secretary, P. O'Brien, St. Louis; Treasurer, James Glass, Sedalia.

The Band of Hope.—The Chapter of Temperance and Wisdom may justly be regarded as the parent of an important and useful organization among the young known as "Bands of Hope." To these youth of both sexes are admitted, and the pledge enjoins abstinence from tobacco, profanity, and intoxicating liquors. The first band was organized April 14, 1861, and the chief promoter was H. D. Moore, who had been a prominent worker in all the temperance orders of the period. Five small boys were all that could be mustered for charter members. One of them was chosen president, but soon Mr. Moore was elected to that position, and has occupied it continuously until the present. The society grew rapidly, and at intervals has had five hundred members, and for the past ten years has averaged three hundred. It has assisted in the organization of numerous societies of a similar character, many of which flourished for a season and finally died, but several still live and are doing well.

The band was organized at the corner of Washington Avenue and Fourth Street, over what was then Tiehnor's clothing-store; it met here a year, and subsequently for six years at Dr. Post's church, Tenth and Locust Streets; it then made several changes, and occupied the "old Ebenezer Church," Seventh Street and Washington Avenue, where it was

burned out. After one or two more removals it located in "Avenue Hall," northeast corner of Washington Avenue and Ninth Streets, in a building erected by Mr. Moore himself, but the Lindell Hotel having been destroyed by fire, and Washington Avenue greatly impaired for business purposes, Mr. Moore's investment proved a poor one, and the society had to abandon the hall and returned to Dr. Post's church, which it has occupied for ten or twelve years.

The society is claimed to have accomplished an immense amount of good. It is asserted that fully one-half of the members of the adult temperance societies are graduates from the Band of Hope. More than sixty of the female teachers in the St. Louis public schools were members of the band, and the boys who have graduated from the same organization are now numbered among the best of St. Louis' young business men, and are prominent in temperance and church work in the city, and in this and neighboring States.

The list of those who, as superintendents, have assisted Mr. Moore embraces the names of John Libby, a well-known citizen, now dead; Mrs. S. S. Gannett, a lady noted for her philanthropy; the Rev. Mr. Coffland; Dr. T. H. Hammond; H. Eberly, a prominent real estate broker, and J. W. Barnes, a well-known builder, the last of whom has been superintendent for several years.

In addition to Mount Vernon Band, which is the pioneer, there are five bands in various parts of the city. The full list is as follows:

Name and Number.	Where Located.	Membership.
Mount Vernon, No. 1.....	Central St. Louis.....	300
Fairmount, No. 2.....	Salisbury St., North St. Louis...	600
Anchor, No. 3.....	St. Louis Avenue and 18th St....	400
Central, No. 4.....	Twenty-fourth and Morgan.....	300
Washington, No. 5.....	North St. Louis.....	450
Western Star, No. 6.....	Elleardsville, West St. Louis....	250
Total.....		2300

Anchor Band of Hope is composed largely of youth of German parentage. Its superintendent is Charles Goessling, a young German.

Father Mathew Young Men's Total Abstinence and Benevolent Society.—The object of this association is to inculcate and encourage temperance, and provide a fund for the families of deceased members, etc. Members are pledged to total abstinence. It is named after Father Mathew, the distinguished Irish temperance apostle, who visited St. Louis in the spring of 1850, and its members are of Irish lineage. This society was instituted in St. Louis in 1870, and among the charter members were Thomas Fox, Edward Devoy, James Hagerty, John D. Hagerty, James McGraw, James J. McGeary, Francis Lacey, Charles F. Irving, and Martin Duddy.

It is confined to St. Louis, and there is but one council of the order in the city. A benefit of two dollars from each member is paid on the death of a member. In 1873 the council was most prosperous, having thirteen hundred members; the membership now is about three hundred and fifty. The present officers are—

President, Jeremiah Sheehan; First Vice-President, Matthew Bond; Second Vice-President, James Hennessy; Recording Secretary, S. M. Ryan; Financial Secretary, James Hagerty; Treasurer, Patrick Cassidy.

United Hebrew Relief Association.—This association of the Hebrews of St. Louis originated in 1871, when the great fire in Chicago scattered thousands of the Jews of that city. Hundreds of them sought shelter in St. Louis. They found the Hebrews of the city totally unprepared to meet the unexpected draft upon their energies. Nevertheless a number of young unmarried Hebrews hastily organized a temporary relief committee, with Augustus Binswanger as chairman, and among the other members the names of Lewis Hutzler, Nathaniel Myers, and Simon Popper have been recorded. A call for a meeting to organize permanently to relieve the distressed Hebrews from Chicago was seconded by Abraham Kramer, president of Congregation Shaare Emeth; Adolph Isaac, president of United Hebrew Congregation; and L. R. Straub, president of Congregation B'nai El. Pursuant thereto a meeting was held Oct. 17, 1871, at the synagogue, then at the corner of St. Charles and Sixth Streets, and the United Hebrew Relief Association was organized. The officers were as follows:

President, B. Singer; Vice-President, A. Jacobs; Treasurer, William Goldstein; Secretary, Augustus Binswanger; Corresponding Secretary, Nathaniel Myers; Directors, William Keiler, Isaac Baer, Moses Fraley, Lewis Hutzler, Simon Popper, Joseph Baum.

The association pushed forward with great energy the work of relieving the needs of the Chicago sufferers, and took its place as one of the established and permanent Jewish institutions of the city, its province being to care for indigent Hebrews, whether transient or resident. It has also established and maintained an employment bureau, which has proved of great benefit. For the ten years from 1871 (when it was organized) until 1881 the association disbursed thirty-eight thousand one hundred and ninety dollars and thirty-five cents for relief, besides laying aside seven thousand two hundred dollars for a Home for Aged and Infirm Israelites.

During the winter of 1881-82 the association undertook the work of caring for such Hebrew refugees,

the victims of Russian persecution, as might be sent thither, and afforded relief and found situations for a large number of immigrants.

The present officers of the association are—

President, B. Hysinger; Vice-President, L. M. Hellman; Secretary, Augustus Binswanger; Treasurer, M. Levy; Directors, B. Eisemann, A. Fisher, George Lewis, B. Cohen, A. Rosenthal, Rev. Dr. Rosenthal, Rev. Dr. M. Spitz, Rev. H. J. Messing, R. Weil; Superintendent, L. Wolfner; Medical Staff, Dr. Bernard Block, Dr. M. J. Epstein, Dr. J. Friedman, Dr. H. Tuholske, Dr. Moritz Block, Dr. W. E. Fischel, Dr. F. Kolbenheyer, Dr. S. Pollitzer.

Knights of Father Mathew.—This order was instituted on Ascension Thursday, May 9, 1872, under the title of "Knights of Father Mathew, St. Louis, Mo.," with Thomas Fox as president; Thomas E. Phelan, vice-president; John Rohlf, corresponding secretary; John McGrath, financial secretary; and John B. Haggerty, treasurer. Total abstinence was the corner-stone of the organization. All members were required to appear in uniform on public occasions, and to be thoroughly drilled. The organization continued in its original form for some nine years, with an average membership of about one hundred. On the 18th of July, 1881, the order was incorporated under the title of "Knights of Father Mathew of Missouri," with the following charter members: Rev. P. F. O'Reilly, Thomas Fox, Patrick Long, Daniel O'C. Tracy, John B. Haggerty, James Hagerty, Michael Larisey, Patrick Mulcahy, Michael J. Ratchford, James Walsh, John H. Gamble, James Meegan, James Hardy, Festus J. Wade. An insurance feature of two thousand dollars was added to the provisions requiring members to be Catholics and to practice total abstinence. The "new departure" proved immensely popular. Within a year the membership was increased to nearly one thousand, and but one death had occurred.

There are twelve councils in St. Louis, as follows:

St. Louis, No. 1; St. John's, No. 2; Annunciation, No. 3; St. Patrick's, No. 4; St. Lawrence O'Toole's, No. 5; St. Malachy's, No. 6; St. Teresa's, No. 7; St. Bridget's, No. 8; St. Mary and St. Joseph's, No. 9; Emerald, No. 10; Immaculate Conception, No. 11; Cathedral, No. 12.

Connected with the order is a literary and debating society, which holds frequent debates and other exercises. D. O'C. Tracy is its president. There is a ritual appropriate and special to the order. While the society is in no sense a secret one, as commonly understood, it claims and exercises the right of legitimate privacy in all its affairs. Father John O'Neil, S.J., of the St. Louis University, was the first spiritual director. His successors were Father E. A. Noonan and Rev. Father P. F. O'Reilly. The

following are the officers and members of the Supreme Council:

Supreme Chief Sir Knight, Rev. P. F. O'Reilly; Deputy Supreme Chief Sir Knight, Patrick Mulcahy; Supreme Recorder, Charles C. Concannon; Supreme Banker, John B. Haggerty; Supreme Financial Recorder, Thomas Morris; Supreme Medical Examiner, Dr. E. L. Feehan; Supreme Sentinel, Thomas Fox. Members of Executive Board, Daniel O'Connell Tracy, John Clark, James Hennessy, Richard T. Sheehy. Members of Supreme Council, Festus J. Wade, Thomas P. Culkin, James Hardy, James Meegan, M. J. Ratchford, Michael Larisey, Dennis Dunn, Thomas Carroll, John H. Gamble, James Haggerty, James Walsh, J. B. Hagerty, John W. O'Connell, John Marriner, Patrick Long, John Hunt, Thomas F. Doyle, John Coughlin, James K. Grace, P. J. Harris, Thomas Horan.

The Central St. Louis Unterstuetzungs Verein is a secret benevolent society of German ladies, organized Jan. 28, 1878, and with one hundred and twenty-five members. The officers are—

President, Katrine Zilek; Vice-President, Marie Vindel; Secretary, Mrs. Sophia Krage; Financial Secretary, Mrs. Katrine Roesner; Treasurer, Mrs. Sophia Brown.

The Spiritual Association was incorporated in November, 1882, by John B. Crocker, president; C. H. Crocker, vice-president; E. M. Moore, secretary; and S. T. De Wolf, treasurer; Miss May Bangs, C. Burrows, E. E. Weber, August Wobe, and William F. Burrows. The objects of the association are to ameliorate all conditions of suffering and distress by establishing retreats for the infirm, and hygienic institutions for the prevention as well as cure of all physical diseases and moral disturbances, "to afford material aid and protection in the exercise of those spiritual gifts and mediumistic qualities with which its members may be endowed, and to guarantee the rights of private judgment, liberty of conscience, and universal toleration in matters of opinion." The Spiritualists established themselves in St. Louis in 1860. Their meetings are held at the Mercantile Library Hall. Charles Tuckett is the president.

The Liberal League was incorporated in 1871. The meetings are held in a hall on the corner of Eleventh and Olive Streets. The membership numbers about three hundred. Charles Kershaw is president; Mrs. Jackson, secretary; and John Pampling, treasurer.

The Turnverein.—As stated elsewhere, the failure of the German revolution of 1848 and the vehement persecution of the men engaged in it drove to this country thousands of the most advanced thinkers and most energetic spirits of Germany. Most of them had been schooled in the celebrated gymnasium (or *turnschulen*) of "Father Jahn," and they at once proceeded to establish that system of training in their adopted country.

On the 12th of May, 1850, Carl Speck, F. Roeser, L. Barthels, Carl B. Dieckride, Johann Bolland, Theodor Hildebrandt, Wilhelm Meyer, Willibald Moll, and Wilhelm Grahl met and organized a gymnastic society (or *turnverein*), and called it *Bestrebung* (or Endeavor), but soon afterwards they gave it the name of St. Louis Turnverein. For two or three years the young society had modest quarters at or near Collins and Cherry Streets, but being cramped for room the leasehold of a lot on Tenth Street near Market was secured, a stock company was organized, and on the 12th of November, 1855, the corner-stone of the present Central Turnhalle was laid. In November, 1858, the building, a spacious one for those days and considering the size of the society, was dedicated.

In 1852 the Verein was divided, and the Missouri and Germania Associations were successively organized; but they were short-lived, and many of the seceders returned to the mother organization, which went into the new building with one hundred and fifty members.

When the war broke out five hundred names were enrolled, but on the first call for troops many of the members enlisted, and as the conflict progressed hardly enough Turners were left to keep the society in existence. The first Turner platform obligated every member to oppose slavery in every form with all his power, and it was therefore natural that the Turner should heartily espouse the cause of the Union. Long before hostilities were declared, their hall was a gathering-place where the members prepared for the contest which many felt was imminent, and their stanch advocacy of Union principles in those early days, as well as their readiness to go forth and fight for them, first directed general attention to the Turners and their system, and caused them to be regarded with much greater interest than had hitherto been the case. Whole companies of volunteers, and almost whole regiments, were composed of Turners, and among the most gallant of them was the famous Seventeenth Missouri, or the "Western Turners' Regiment."

When the war was over the Turnbund was organized. The St. Louis Verein again prospered, its only losses being the depletions it has sustained from the formation of six additional organizations.

This union has four hundred and sixteen members and a school of two hundred and fifty pupils. Its hall is valued at twenty-five thousand seven hundred dollars, and is clear of debt; and it has a library of two thousand one hundred and thirty-two volumes, and a song section of twenty-two voices.

The verein pays sick benefits of five dollars per week and funeral benefits of one hundred dollars.

The present officers are: President, C. A. Stifel, who has been a member since the second year; Vice-President, Henry Braun; Recording Secretary, Louis Kaufman; Corresponding Secretary, Herman Um-rath; First Cashier, George Klein; Second Cashier, William Muegge; Librarian, Hugo Gollmer.

South St. Louis Turnverein.—In 1865 the verein established a turn-school in South St. Louis. During that year, through the exertions of Messrs. A. Kriekhaus, C. A. Stifel, and Charles Speck, money was raised to build a turnhalle, and in the fall the edifice was ready. It was located at the corner of Ninth and Julia Streets. For four years it served as the training-place for the youth of the St. Louis Turnverein. On Sunday, Sept. 12, 1869, some members of the parent verein assembled at the hall and formed a new turnverein, the second organized in this city. The number of members was fifty-one, and the first officers were: President, F. P. Becker; Vice-President, Jacob von Gerichten; Treasurer, F. Dietz; Recording Secretary, F. C. P. Tiedeman; Corresponding Secretary, John Mohrstadt. Of the original fifty-one only the following remain with the union: T. Faust, Henry Rauth, George Loeb, Theodore Rassieur, Jacob von Gerichten, C. H. Vortriede, F. P. Becker, and F. C. P. Tiedemann.

The society rapidly grew, and proved a great convenience to Turners, whom distance prevented from frequently visiting the Central Turnhalle. Eventually the need of a larger hall was felt, and finally a lot was bought at Tenth and Carroll Streets, and on May 15, 1881, the corner-stone of a new building was laid, and on May 6, 1882, the new hall was dedicated with appropriate exercises, most of the German societies in the city participating. The building is a stately one, and is one hundred and seventeen by eighty-four feet, two stories in front and four in the rear, has a large hall thirty feet high, with dressing-rooms, a billiard-room, etc., and cost twenty-one thousand dollars. It was built by stock subscription, and there is a debt of eight thousand dollars on the property.

The verein has two hundred and seventy-seven members and a school of three hundred and fifty-seven pupils. It maintains a fund for sick and distressed members.

The present officers are Francis P. Becker, president; Francis P. Troll, vice-president; F. C. P. Tiedemann, secretary; William Merckens, treasurer.

Socialer Turnverein.—On the 8th of October, 1872, a dozen Turners organized the Socialer Turnverein, the first president being Charles Wedig. For

some years the society met at Sixteenth and Montgomery Streets, but had a struggling life until it gained prominence by the occupancy of Sturgeon Market Hall. On the 8th of September, 1878, it laid the corner-stone of a new hall at Thirteenth and Monroe Streets, and on Jan. 8, 1879, the building was dedicated. This is regarded as in some respects the finest building of the kind in the city. Its dimensions are eighty by one hundred and twelve feet, and its gymnasium and dance hall are noteworthy for being free from pillars and resting entirely on the walls, supported by trusses. The hall was built by a stock association. It cost about eighteen thousand dollars, and is free of debt. The society has also personal property amounting to nearly three thousand dollars. The membership numbers 217; scholars, 239; library, 240 volumes. It also has an excellent song section of some thirty voices. The society levies one dollar per member in case of death for the benefit of the heirs of the deceased.

The present officers are: President, Henry Oversehlp; Vice-President, Mr. Lammersick; Recording Secretary, Mr. Knoeh; Corresponding Secretary, Odo Stifel; Cashier, F. W. Wieseahn; Second Cashier, Charles Link.

Concordia Turnverein.—In December, 1875, some thirty-two persons, mostly members of the Central Turnverein, but who lived too far from the Central Hall to conveniently attend the society, signed a call for a meeting to organize a turnverein in extreme Southern St. Louis, and on Jan. 8, 1875, the society was organized, with E. F. Schreiner, president; Nicholas Berg, vice-president; J. R. Ballinger, recording secretary; C. F. Groffman, corresponding secretary; and C. C. Goelde, treasurer. On June 1, 1875, articles of incorporation were granted C. Schreiner, R. Glaessner, J. H. Kassing, C. H. L. Hoffman, and Richard Fischer. On the 13th of October, 1876, the society was incorporated by William Hahn, G. W. Hall, C. F. Vogel, W. J. Lemp, Hermann Stamm, and C. C. Goedde, and on Jan. 24, 1877, the corner-stone of a new hall was laid at Arsenal and Carondelet Streets. On the 18th of November, 1877, the building was dedicated. It cost nineteen thousand five hundred dollars, on which a debt of two thousand dollars remains. The society has also personal property valued at two thousand three hundred and fifty dollars. The membership numbers 410; pupils, 445; library, 300 volumes; song section, 15; singing-school, 125.

The present officers are—

President, Oscar Hoefler; Vice-President, Julius Hertz; Recording Secretary, R. Bennecke; Corresponding Secretary, Bernhardt Keuss; Cashier, Jacob Walter; Treasurer, Nicholas Berg; Book-keeper, C. F. Laitner; Turnwart, Fred. Hahn; Second Turnwart, Alexander Lifka; Librarian, H. Ruppelt.

The Carondelet Turnverein was organized April 4, 1875, and the corner-stone of the present hall at Fourth and Taylor Streets, Carondelet, was laid Sept. 4, 1875. The building was dedicated March 11, 1876. The hall cost about eighteen thousand dollars, on which is a debt of twelve thousand three hundred dollars. The verein has about twelve hundred and fifty dollars in personal property. The membership is eighty-five, pupils thirty-four, library about fifty books. Connected with the society is a very efficient ladies' and dramatic club.

The present officers are—

President, Herr Hinsmann; Vice-President, Christian Koeln; Recording Secretary, Charles Bruno; Corresponding Secretary, Rudolph Giebertmann; Cashier, F. W. Dauth; Second Cashier, E. G. Hofmann; Turnwart, John Wette; Second Turnwart, Thomas Ahrens; Zeugwart, Martin Stein; Chairman of the Literary Committee, Dr. H. M. Stackloff.

Vorwaerts Turnverein.—This society was organized Dec. 21, 1878, and once had forty members. It never accomplished much, and after a flickering career was disbanded in 1881.

West St. Louis Turnverein.—For some years there flourished a "Schiller Club," at Franklin and Leffingwell Avenues, and during the summer of 1879 one hundred and twenty-eight of the members agreed to merge the society into a turnverein. An organization was effected Sept. 22, 1879, and Dec. 19, 1880, the corner-stone of the present hall was laid at Beaumont and Morgan Streets. The property was occupied by the Second Baptist Church as a mission, and the verein proceeded to put up an additional building, making the hall seventy-five by thirty-six feet. The building was dedicated May 8, 1881. It was erected by a stock association, of which J. J. Suller was president; A. W. Straub, vice-president; John Denberger, secretary; J. F. Conrad, treasurer; and J. H. Trorlicht, John Nies, J. L. Bernecker, F. W. Henze, John Schoenke, Julius Hirschfeld, and Louis J. Holthaus directors. The building and its equipments cost about five thousand dollars, on which a debt of less than one thousand dollars remains. The membership numbers five hundred, the largest in the city; pupils, four hundred and thirty-six; library, three hundred volumes; song section, twenty-five voices.

The present officers are—

President, Emil A. Becker; Vice-President, Adolph Braun; Recording Secretary, Christ. F. Hertwig; Corresponding Secretary, George Scherer; Cashier, L. H. Hasselbarth; Treasurer, J. F. Conrad; Turnwart, Otto Keil; Second Turnwart, George Powell; Zeugwart, Theodore Klipstein.

The membership of the St. Louis Turners' Association is classified as follows:

	Members.	Active Members.	U. S. Citizens.
St. Louis Turnverein.....	416	149	366
South St. Louis Turnverein.....	277	140	241
Socialer Turnverein.....	217	120	190
Concordia Turnverein.....	410	39	410
West St. Louis Turnverein.....	506	200	475
North St. Louis Turnverein.....	185	125	180
Carondelet Turnverein.....	85	25	75
Total.....	2096	798	1937

The St. Louis associations, with those at Highland, Trenton, Belleville, Nashville, Alton, and Quincy (all in Illinois), constitute the "St. Louis Turn Circuit," which is the largest district, numerically, in the country, although several others own more property. St. Louis Turnbezirk has thirteen societies, with: Members, 2623; active Turners, 1102; citizens of the United States, 2431; scholars, boys, 1549; scholars, girls, 700; value of property, \$158,485; debts, \$41,670; excess of property over debts, \$116,815; volumes in the libraries, 7302. Eleven of the societies own their halls.

The present officers of St. Louis Bezirk are—

President, Francis P. Becker; Vice-President, Emil Mueller; Recording Secretary, C. H. Hertwig; Treasurer, Ernst Eisehmann; Turnwart, Mazzini Kruer; Directors, Herman Ruppelt, B. von Gerichten, Rudolph Geibermann, C. J. Trebers, John Schoenle.

The St. Louis Microscopical Society was organized in 1869, the officers consisting of Homer Judd, M.D., president; D. V. Dean, M.D., vice-president; W. H. Eames, D.D.S., treasurer; T. H. Hammond, M.D., recording secretary; T. F. Rumbold, M.D., corresponding secretary; H. Z. Gill, M.D., librarian. It was incorporated Aug. 17, 1872, with Drs. H. Z. Gill, Homer Judd, Thomas F. Rumbold, R. J. Steele, and D. V. Dean as the first officers under the act of incorporation. The society is still in existence, and has quite a sum of money in the treasury, but has not held regular meetings for two or more years.

The Western Rowing Club was organized in 1867, and chartered in 1870, with John F. Johnson, Jacob L. Reinhardt, Paul M. Hunt, Leo Rassieur, Charles Hilliker, Thomas Hilliker, and E. H. Vordtriede as incorporators, to cultivate the art of rowing. Its boat-house is located on the river front, between Harper and Dorcas Streets. Leo Rassieur has been the president since its formation. This club is the oldest of the kind in St. Louis, and is the parent of the half-dozen clubs now in existence. As far back as 1819, however, there is a record that Capt. George H. Kennerly, Alexander St. Cyr, the Arnold brothers, and others formed a boat club which had its house on the banks of Chouteau's Pond, about three hundred yards north of Chouteau's mill. The members of the club wore a uniform of Scotch plaid.

St. Louis Institute of Architects.—In January, 1870, a number of St. Louis architects met and decided to form an association for the purpose of "uniting in fellowship the architects of the city and vicinity, and combining their efforts so as to promote the artistic, scientific, and practical efficiency of the profession." As a result of this meeting the St. Louis Institute of Architects was incorporated during the same month by George I. Barnett, John F. Mitchell, J. C. Edgar, Thomas Walsh, A. Grable, G. W. Osborne, George D. Rand, J. W. Herthel, E. Jungenfelf, S. M. Randolph, C. B. Clark, and others. A permanent organization was immediately effected by the election of the following officers:

Thomas Walsh, president; George I. Barnett, M. Randolph, John F. Mitchell, trustees; R. Desbonne, treasurer; George D. Rand, secretary.

Since its inception the institute has been successfully sustained, and has been very influential in its operations. The meetings were first held in the office of Randolph Brothers, northwest corner Walnut and Fifth Streets. Subsequently rooms at 320½ North Third Street were occupied until an arrangement was made with the Board of Public Schools, whereby the session-room of the Polytechnic Building was secured, and has been used ever since. The several presidents of the institute have been Thomas Walsh, George I. Barnett, John F. Mitchell, J. C. Edgar, C. B. Clarke, J. W. Herthel, J. H. McNamara, F. W. Raeder, John Beattie, A. Druiding. The present officers are—

President, A. Druiding; Trustees, A. Grable, T. J. Furlong, J. H. McNamara; Treasurer, C. B. Clarke; Secretary, J. F. Mitchell; Board of Managers, A. Druiding, A. Grable, T. J. Furlong, J. H. McNamara, J. F. Mitchell, C. B. Clarke.

The North St. Louis Turnverein.—This society was organized in 1868 as the North St. Louis Turnschule and Kindergarten, reorganized Oct. 25, 1870, and in February, 1874, incorporated as the North St. Louis Turnverein. The society had their hall at first at the corner of Bremen Avenue and Broadway, and afterwards in a hall at the corner of Bremen Avenue and Fifteenth Street. In 1879 the society decided to have a permanent hall. A lot on the southeast corner of Salisbury and Fourteenth Streets was purchased for four thousand dollars, and a building sixty-five feet front on Salisbury Street, with a depth of one hundred and twenty-five feet on Fourteenth Street, was erected. The building, which cost eighteen thousand four hundred and twenty-five dollars, was erected under the supervision of H. W. Kirehner, architect. The board of directors and building committee of the society were as follows: Francis H. Brinkman, chairman; Charles E. Kircher, treasurer; Charles J. Doerr, sec-

retary; and Henry Schmidt, Louis Hammer, Anthony Noake, J. F. Voyt, Charles Kohlberg, William Shreiber, Herman Schwartze, E. O. Haus, Aug. Allershausen, and Matthias Herman. The society has one hundred and eighty-five members, one hundred and forty pupils, a song section thirty strong, a ladies' dramatic section of about sixty, a corps of drummer-boys, and a library of about three hundred and fifty volumes. Its presidents have been L. Edward Witte, L. W. Tenteberg, Albert Haeseler, W. H. Inderwark, Herman Umrath, Louis K. Hammer, Francis H. Brinkman, Anthony Nacke, and Hugo Muench.

The officers in 1882 were—

President, Hugo Muench; Vice-President, Henry C. Schmidt; Recording Secretary, William Yost; Corresponding Secretary, Charles C. Trebers; Cashier, C. E. Kircher; Second Cashier, L. Kohlberg; Librarian, Charles Stoelting; Turnwart, L. Herbster; Second Turnwart, Charles Steiner; Zeugwart, Charles H. Blumentrill.

The Missouri Gymnastic Society.—This society was organized in 1857 by a few clerks in a small room in the old city buildings, Commercial Alley. The membership increased so rapidly that it was necessary to procure a larger hall, which they did at Fourth Street and Washington Avenue, from there they removed to Seventh Street and Washington Avenue. A stock company was then formed, and through the efforts of Joshua Cheever, James C. Maginniss, and others they secured, in 1867, on leased ground their present building, No. 814 St. Charles Street, which they entered with a debt of four thousand dollars, all of which has been paid. In 1877, John L. Stockwell was elected superintendent, and under his management the society at once became a success. In 1878 it was reincorporated under the same name by J. M. Chambers, J. A. Dillon, W. J. Blakely, J. D. Phillips, W. J. Gilbert, A. J. Hyde, M. L. Holman, J. Schaeffer, and J. L. Stockwell as incorporators. Its officers and board of directors in 1882 were—

James M. Chambers, president; J. A. St. Johns, vice-president; John D. Phillips, treasurer; John L. Stockwell, secretary and manager; Directors, W. J. Gilbert, John A. Dillon, R. A. Barret, M. L. Holman, Eug. Sailor.

The St. Louis Natatorium, corner of Nineteenth and Pine Streets, was built in May, 1881. The incorporators were George B. Thompson, Joseph Franklin, John T. Davis, Charles A. Fowee, E. C. Simmons, and W. L. Huse. The building is sixty-six feet front and two hundred and seventeen feet in length; bathing-pool forty feet wide and one hundred and forty feet long, with a depth of two to eleven feet. During the summer season it is a fashionable resort for those who are fond of aquatic sport, and in winter it is fitted up for roller-skating.

The St. Louis Long-Range Rifle Association was incorporated Dec. 26, 1882. The incorporators were William P. Schaaf, C. A. B. Battee, J. M. Battee, J. W. Rannels, Julian J. Laughlin, F. W. Rockwell, H. C. Bagby, J. P. Foster, C. B. Smith, W. F. de Cordova, E. H. Gorse, P. B. Leach, S. S. Blackwell, H. E. Weber, J. B. Martin, H. C. Pierce, August Bengel, and Henry Hitchcock. The object for which the association is formed is practice at rifle-shooting at long range. Phineas B. Leach is president; William F. de Cordova, secretary; C. B. Smith, treasurer; J. J. Laughlin, captain; and W. P. Schaaf, coacher. The association has at present forty-five members.

The Society of Pedagogy has for its object the free discussion of all educational topics.

SECRET SOCIETIES.

Masonic Order.¹—Before the acquisition of Louisiana by the United States, in 1804, there was nothing in the shape of organized Masonry in St. Louis, the early inhabitants being nearly all of French origin, and almost universally of the Catholic faith, which does not tolerate secret associations. There might have been, and no doubt was, among those who came from other places occasionally a member of the order; but not until after the transfer to the United States did there seem to arise any occasion for introducing it in an organized state.

Among the most prominent of the early Americans who came from other localities and established themselves in the three villages of Kaskaskia, Ste. Genevieve, and St. Louis were a number of members of the order, and these, shortly after the change of government, took the incipient steps to introduce it by the establishment of lodges.

On the 9th of March, 1805, a petition was presented to the Grand Lodge of Pennsylvania of Ancient York Masons for a dispensation to open a lodge at Kaskaskia, Indiana Territory, signed by the following Master Masons: Robert McMahan, of Stanton Lodge, No. 13, Virginia; William Arundel, of St. Andrew's Lodge, No. 2, Quebec, Canada; James Edgar, of Lodge No. 9, Philadelphia; Michael Jones, of Lodge No. 45, Pittsburgh, Pa.; James Galbraith, of Lodge No. 79, Chambersburg, Pa.; Rufus Easton, of Roman Lodge, No. 82, Rome, N. Y.; Robert Robinson, of Stanton Lodge, No. 13, Virginia.

In compliance with the petition, the Grand Master of the Grand Lodge of Pennsylvania, the Most Wor-

¹ For the accompanying sketch of the Masonic order in St. Louis the author is largely indebted to Frederic L. Billon.

shipful Israel Israel, attested by the seal of the Grand Secretary, George A. Baker, issued his dispensation for six months, dated at the city of Philadelphia, Sept. 24, 1805, authorizing James Edgar, a Past Master, and his associates to open a lodge as prayed for; and on Saturday, Dec. 14, 1805, the persons named above assembled, and proceeded to open their new lodge, to which they gave the name of Western Star Lodge, Messrs. Jones and Robinson being appointed a committee to prepare a code of by-laws for its government. This lodge worked under the dispensation until the 24th of March, 1806, the date of its expiration; when the dispensation was returned, with a copy of the lodge's proceedings under it, to the Grand Lodge, which, having approved of the same, issued a charter, as follows:

"To Western Star Lodge, No. 107, registry of Pennsylvania, dated June 2, 1806, to James Edgar, Worshipful Master, Michael Jones, Senior Warden, and James Galbraith, Junior Warden, and their associates, etc., signed by Right Worshipful James Milnor, Grand Master, and attested by George A. Baker, Grand Secretary, with the seal of the Grand Lodge;" and on Saturday, Sept. 13, 1806, they held their first meeting under their charter.

The last meeting of this lodge, as appears from the record-book, was held on Dec. 9, 1820, and its last return to the parent Grand Lodge of Pennsylvania was in the year 1822, after which date it was stricken from the registry of that Grand Lodge.

This was the first Masonic lodge established in the upper portion of the valley of the Mississippi, there being two lodges in the city of New Orleans, Nos. 90 and 93, already in existence, established also by the Grand Lodge of Pennsylvania.

Ste. Genevieve, being nearly opposite to Kaskaskia, and some thirty years older than St. Louis, was for many years the largest place on the west bank of the river, and even at the date of the transfer to the United States had a larger population. It was not until the period of the war with Great Britain, 1812-15, that St. Louis began to outstrip Ste. Genevieve, her growth resulting in a great measure from the large number of troops stationed at Bellefontaine, then the westernmost military post of the United States. The Grand Lodge of Pennsylvania, upon the application of a number of Masons residing in and about Ste. Genevieve, granted them a charter for a new lodge to be held at that place, dated July 17, 1807, under the title of Louisiana Lodge, No. 109, appointing Aaron Elliott, Worshipful Master; Andrew Henry, Senior Warden; and George Bullitt, Junior Warden. But little or nothing is known at the present day of the

work of this lodge, nothing to show who were the petitioners, date of dispensation, etc. The last return to the parent Grand Lodge was made in 1815.

The transfer of the upper portion of Louisiana to the United States took place on the 10th of March, 1804, at St. Louis. The few villages in the Territory at that time comprised St. Louis, St. Charles, Ste. Genevieve, Mine à Breton (now Potosi), Cape Girardeau, New Madrid, etc., the largest containing but a few hundred inhabitants. Before this time there was not a Masonic lodge in the country. The few merchants in those villages at that day usually procured their small stocks of goods from New Orleans; but after that period, having become citizens of the United States by the transfer, they commenced making annual visits to the city of Philadelphia to purchase their goods, and as they were mostly of French descent, several of them were made Masons in that city in the French Lodge l'Amenité, No. 73 of the registry of the Grand Lodge of Pennsylvania.¹

In a few years, as the population of some of these places and the country generally gradually increased, the Grand Lodge of Pennsylvania chartered several lodges in this then remote region, viz.: Western Star Lodge, No. 107, at Kaskaskia, Ill.; Louisiana Lodge, No. 109, at Ste. Genevieve; and St. Louis Lodge, No. 111, at St. Louis. After an existence of a few years these lodges, owing, doubtless, to the sparseness of the population, followed shortly after their organization by the war with England, in 1812, gradually ceased work, in a few years became extinct, and were erased from the registry of the Grand Lodge of Pennsylvania.

The charter of St. Louis Lodge, No. 111, dated Sept. 15, 1808, was granted to Merriwether Lewis as Worshipful Master, Thomas Fivecash Riddick, Senior Warden, and Rufus Easton, Junior Warden, as the first officers, and to their associate brethren. This lodge comprised in its membership a number of the most prominent of the early citizens of the place, many of whom then and subsequently filled important official positions in the Territorial and State governments. Among them were

Capt. Merriwether Lewis, first Governor of Louisiana Territory, Worshipful Master.

Col. Thomas F. Riddick, who held various civil offices, Senior Warden.

Col. Rufus Easton, first postmaster and attorney-general, Junior Warden.

Joseph V. Garnier, clerk of the Supreme Court, Secretary.

Gen. William Clark, Territorial Governor and superintendent of Indian affairs.

¹ Among the well-known early residents of St. Louis who received their degrees in this lodge were Charles F. Billon and Gabriel and René Paul.

Frederick Bates, secretary of the Territory, recorder, Secretary of State, and Governor.

Col. Alexander McNair, first Governor of the State of Missouri.

Joseph Charles, editor and proprietor of the *Missouri Gazette*.
Jeremiah Conner, sheriff of St. Louis.

Maj. Wm. Christy, first register of lands.

Judge Wm. C. Carr, judge of Circuit Court.

Dr. Bernard G. Farrar, judge of the Court of Common Pleas.

Capt. Risdon H. Price, merchant.

Alexander Stuart, circuit judge.

Silas Bent, presiding judge Common Pleas and county clerk, as also a number of the United States military officers then stationed at the military post at Bellefontaine cantonment.¹

The lodge occupied an old French house of upright timbers of twenty by forty feet, one of the first in the village, built in 1765 by Jacques Denis, a joiner, for a billiard-room, and occupied as such during the whole of the Spanish *régime*. It was situated on the east side of Second Street, next below the corner of Walnut Street. The lodge was in existence but a few years, and made no return whatever to the parent Grand Lodge. This fact, in connection with the suicide of the Worshipful Master, Hon. Merriwether Lewis, in 1809, leads to the conclusion that it had accomplished but little, if anything, in the way of Masonic labor. After the death of its principal officer, the lodge gradually fell into decay, and was eventually stricken from the roll of the Grand Lodge about the time of the war of 1812.

The following advertisements in the *Louisiana* (afterwards *Missouri*) *Gazette* show that the lodge celebrated the Masonic festival of St. John the Baptist on at least two occasions with a public dinner:

"The St. Louis Lodge, No. 111, will celebrate the festival of St. John the Baptist on Saturday, the 24th instant, at their lodge-room in St. Louis. Such brethren (not members of the lodge) as may wish to join in the celebration of this festival are requested to attend.

"The procession will form at the lodge-room at twelve o'clock

precisely, and march from thence to the church, where a Masonic oration will be delivered by a brother.

"Dinner on the table at three o'clock.

"By order of the lodge,

"JOSEPH V. GARNIER, Secretary.

"June 20, 1809."

"Monday, the 24th instant, being the festival of St. John the Baptist, such brethren (not members of the lodge) as are desirous to celebrate the above festival are notified that St. Louis Lodge, No. 111, will assemble at their room in the morning of said day, and march from thence to Broth^r Christy's, where a dinner will be provided for them.

"ALEXANDER MCNAIR,

"JEREMIAH CONNER,

"JOSEPH V. GARNIER,

"Committee of Arrangements.

"June 11, 1811."

There was also a celebration by this lodge of the festival of St. John the Evangelist, Dec. 27, 1811, at which was sung a Masonic ode composed expressly for the occasion by Lieut. Joseph Cross,² of the United States artillery, which is to be found in the *Louisiana Gazette* of Jan. 18, 1812.

No further notice of this lodge is found in the *Gazette*, and as the war broke out shortly afterwards, and nearly every man in the village was enrolled in the military service, the members became scattered, and, as stated above, the lodge became extinct.

During the continuance of the war the general government kept a large body of troops at St. Louis. Many of the officers and men were Masons, and at the termination of the war, and after the reduction of the army to the peace establishment, a large number of them remained and established themselves in and about St. Louis, which had at the close of the war reached a population of about fifteen hundred souls. The return of peace, therefore, found a large number of the Masonic fraternity from various localities identified with St. Louis, far the larger part of whom were gen-

¹ Shortly after the acquisition of the country, "one William Massey sold to Gen. James Wilkinson, for the United States, April 20, 1806, for two hundred and fifty dollars, five acres of land at Bellefontaine, on the Missouri River, including the old Indian factory and buildings and the use for five years of the adjoining land, on which troops were then cantoned. On this tract the United States subsequently erected barracks for the troops, and it was for a number of years the westernmost military post of the United States. Of the United States military at Bellefontaine cantonment, several officers of rank died during these years, and doubtless some of them were Masons, as was pretty much the case with army officers during and after the Revolution. Among those who died there were Maj. Russell Bissell, commandant, who died in 1807; Col. Thomas Hunt, First Regiment, commanding the fort, an officer of the Revolution, who died July 17, 1808 (his wife died six months after him, in January, 1809); Lieut. Joseph Dorr, died Dec. 31, 1808 (his wife two months previously); and others whose names are not to be found on record at this day.

² Joseph Cross was born about 1776, and entered the United States army in 1797, being attached to the First Regiment of Artillery. About the close of 1807, Lieuts. Joseph Cross and Hannibal M. Allen, of Vermont (a graduate of West Point in 1807), were married at Niagara, N. Y., to two sisters, the Misses Ann and Catharine Lowe, who, it is thought by Rev. R. P. Farris, of St. Louis, a grandson of Capt. Cross, were born in Westmoreland County, Pa. Capt. Cross' first child, Catharine Ann, was born in Fort Pitt (Pittsburgh), in 1808. He came to St. Louis with troops for Bellefontaine in 1810, went below in the fall to Natchez, where the United States troops were concentrating for the purpose of taking forcible possession of Baton Rouge, illegally withheld by the Spanish authorities, and went around by sea to the East. He came a second time to St. Louis in 1811, where his second child, the late H. N. Cross, was born in that year. During Capt. Cross' sojourn in St. Louis, being a Mason, he participated in the transactions of old St. Louis Lodge, No. 111. He left the service of the United States in 1813, with the rank of captain of artillery.

tle men of position, intelligence, and education. There being then no lodge in existence, it was determined to establish one, and accordingly a petition was presented to the Grand Lodge of Tennessee for a dispensation.

At a meeting of the Grand Lodge of Tennessee, held Oct. 3, 1815, a dispensation was issued to Joshua Norvell,¹ John Pileher, and Thomas Brady to open a lodge in St. Louis to be called Missouri Lodge. This dispensation was signed by Robert Searey, G. M.; James Trimble, S. G. W.; David Irwin, J. G. W.; Wilkins Tannehill, G. Sec.; J. C. McLemore, G. Treas.

On the 8th of October, 1816, the by-laws and proceedings of the lodge under the dispensation were received and approved, and a charter was issued by the Grand Lodge,—M. W. Robert Searey, G. M.; O. B. Hayes, D. G. M. *pro tem.*; James Trimble, S. G. W.; and Wilkins Tannehill, Grand Sec.,—dated Nashville, Oct. 8, 1816, which constituted Joshua Pileher, W. M.; Thomas Brady, S. W.; and Jeremiah Conner, J. W., and their associated brethren into a regular lodge of Master Masons, to be held at the town of St. Louis, Territory of Missouri, under the name of "Missouri Lodge, No. 12."

The first secretary of No. 12 was Judge William C. Carr, the first records being in his handwriting. He had been initiated into the order in the old lodge, No. 111, the most of the members of which still remaining in the place affiliated themselves with the new lodge. Among them were Governor William Clark, Col. Thomas F. Riddick, Governor Frederiek Bates, Judge Alexander Stuart, Judge Robert Wash, Joseph V. Garnier, William Christy, Alexander McNair, and others.

Missouri Lodge, No. 12, worked under this charter from Tennessee for about five years, until the establishment of the Grand Lodge of Missouri in 1821, when by the right of seniority it received charter No. 1 under the new jurisdiction of Missouri.

During these five years, owing to the great increase of population of the place after the war, the lodge was in a very flourishing condition, adding largely to its membership by initiations into the order and admissions of members from other localities. Among these were the following :

Maj. Thompson Douglass, Maryland, paymaster U. S. A.; Capt. Risdon H. Price, Eastern Shore, Md., merchant; Judge Nathaniel B. Tucker, Virginia, judge Circuit Court; Col. Thomas H. Benton, Nashville, Tenn., lawyer; Capt. Peter Fer-

guson, Norfolk, Va., afterwards judge of probate; Dr. Edward S. Gantt, surgeon U. S. A.; John Rice Jones, judge Supreme Court, Ste. Genevieve; Capt. Henry S. Geyer, Hagerstown, Md., lawyer; Sergeant Hall, Cincinnati, lawyer and editor; Jonathan Guest, Philadelphia, merchant; William H. Hopkins, Philadelphia, merchant; William Renshaw, Sr., Baltimore, merchant; David B. Hoffman, New York, merchant; Abraham Beck, Albany, N. Y., lawyer; Moses Scott, Ireland, justice of the peace; George H. C. Melody, Albany, N. Y.; Joseph C. Laveille, architect, Harrisburg, Pa.; Daniel C. Boss, Pittsburgh, Pa., merchant; William G. Pettus, Virginia.

Among those who received their degrees in Missouri, No. 12, were the following :

Edward Bates, Virginia, lawyer; Stephen Rector, surveyor; James Kennerly, Virginia, merchant; James Howard Penrose, Philadelphia; John F. Ruland, Detroit; Amos J. Bruce, Virginia; John D. Daggett, Massachusetts; George Morton, Scotland; Thomas Andrews, Pittsburgh; Thornton Grimsley, Kentucky; John Walls; Walter B. Alexander, Virginia; Joseph C. White; William L. Long, Gravois; William K. Rule, Kentucky; Robert P. Farris, Natick, Mass.; Isaac A. Letcher, Virginia; William Clarkson, Virginia; James F. Spencer; Thornton Grimsley, Kentucky; William Stark, Kentucky; John E. Tholozan, France; Peter Haldeman, Kentucky; John Jones, David Kneeland, Hart Fellows, Henry Rollins, William Leneve, Philip Rocheblave, William Hughes, Joseph Walters, George Blanchard, John Hay, John Wallace, Phineas James, John J. Douberman, Zenas Smith, Thomas Berry, Moses B. Wall, Joseph M. Yard.

In 1816, Gen. William Clark built on the east side of Main Street (now in block No. 10, between Pine and Olive Streets) a two-story brick house, the sixth brick structure in St. Louis, of twenty-one feet front by about thirty-two deep. The lower floor was occupied by a store and counting-room, with a staircase in the southeast corner, and the second story was divided into two rooms. On this floor Missouri Lodge, No. 12, had its lodge-room for about two years, until its removal into "Douglass' new house," on Elm Street, late in 1817. This building had been erected during that year by Maj. Thompson Douglass, and was located on the north side of the present Elm Street, between Main and Second Streets, a two-story brick dwelling-house of about thirty-eight feet square, divided into four rooms on each floor. While the building was in progress of erection, the room then occupied by the lodge in Clark's house being poorly adapted for Masonic purposes and inconveniently located, Douglass, then Worshipful Master, and a zealous Mason, was induced to add an attic or third story for a lodge-room for No. 12. This room was used for Masonic purposes for about sixteen years, until the close of 1833, when Missouri Lodge, No. 1 (the successor of No. 12), under the pressure of circumstances, ceased its labors for a time, and the Grand Lodge was removed to Columbia, Boone Co.

In this room Missouri Royal Arch Chapter, No. 1,

¹ Joshua Norvell removed from Nashville to St. Louis in 1815 to conduct the *Western Journal* in opposition to Charles' *Gazette*.

was organized and commenced operations, as was also the Grand Lodge of Missouri, and it was here that on Friday, April 29, 1825, the Grand Lodge was honored by a visit from the distinguished Revolutionary soldier and French patriot, Gen. Lafayette.

Missouri Lodge, No. 12, unlike its predecessor, St. Louis Lodge, No. 111, did not as a rule make public displays on the occasion of the Masonic festivals of St. John. The only observance of which any record remains occurred Dec. 27, 1819, on which occasion there was a procession from the lodge-room to "the long room at Bennett's Hotel," where an oration was delivered. Among the Masonic interments in which No. 12 participated was that of Capt. Thomas Ramsay, Aug. 17, 1818, of the First Regiment United States Rifles, killed in a duel by Capt. Martin of the same regiment.

After the establishment of the Grand Lodge of Missouri, Missouri Lodge deposited its old charter, No. 12, with the new Grand Lodge, and being the senior of the three lodges that participated in the organization of the Grand Lodge, received a new charter, as heretofore stated, numbered one under the new jurisdiction, under which it continues to work.

The charter thus granted reads as follows:

"Sic Lux et Lux Fuit.

"The Most Worshipful

"Thomas F. Riddick, Esq., Grand Master.

"To all and every, our Right Worshipful and Loving Brethren, Honorable Society of Free and Accepted Masons in the State of Missouri, send greeting:

"Know ye, That we, at the petition of our Right Worshipful and well-beloved brethren, Edward Bates, John D. Daggett, and John Walls, and several other brethren residing at and near St. Louis, in the State of Missouri, do hereby constitute the said brethren into a regular lodge of Free and Accepted Masons, to be opened at St. Louis, by the name of 'Missouri, No. 1,' and do further, at the said petition and of the great trust and confidence reposed in the above-named three brethren, hereby appoint Edward Bates, Master; John D. Daggett, Senior Warden; and John Walls, Junior Warden, for opening the said lodge, and for such further time only as may be thought proper by the brethren thereof. It being our will that this our appointment shall in nowise affect any future election of officers of that lodge, but that the same shall be according to the regulations of the lodge, and consistent with the general laws of the society contained in the book of constitutions. And we do hereby require you, the said Edward Bates, to take special care that all and every of the said brethren are or have been regularly made Masons, and that they do perform, observe, and keep all the rules and orders contained in the book of constitutions, and also such as may from time to time be transmitted to you by us. And, further, that you do from time to time cause to be entered in a book to be kept for that purpose an account of your proceedings in the lodge, together with such regulations as shall be made for the good government thereof, a copy of which you are in nowise to omit laying before the Grand Lodge once in every year, together with a list of the members of the lodge. That you annually pay into the grand treasury the sum

of — dollars towards the grand charity. And, moreover, we hereby will and require of you, the said worshipful Edward Bates, as soon as conveniently may be to send an account in writing of what shall be done by virtue of these presents.

"Given at St. Louis under our band and seal of Masonry this fourth day of September, A.L. 5821, A.D. 1821.

"Attested:

"WILLIAM RENSHAW,

"Grand Secretary.

"THOMAS F. RIDDICK, G. M.

"JAMES KENNERLY, S. G. Warden.

"WILLIAM BATES, J. G. Warden."

The following is the roll of the members of Missouri Lodge, No. 12, at the date of the organization of the Grand Lodge of Missouri, April, 1821:

Edward Bates, W. M.; John C. Daggett, S. W.; John Walls, J. W.; Peter Haldeman, Treasurer; William K. Rule, Secretary; Isaac A. Letcher, S. D.; Thomas Andrews, J. D.; Joseph White, Steward; John C. Potter, Tyler; Thomas F. Riddick, Thomas H. Benton, William Renshaw, George H. C. Melody, John Jones, Stephen Rector, Hart Fellows, William Leneve, Risdon H. Price, Nathaniel B. Tucker, James Kennerly, David B. Hoffman, Joseph V. Garnier, William Clarkson, David Kneeland, Amos J. Bruce, Henry Rollins, Thornton Grimsley, Daniel C. Boss, William Stark, Joseph C. Laveille, Philip Roebblave, Robert P. Farris, William Hugbes, Joseph Walters, George Morton, James P. Spencer, Moses Scott, George Blanchard, John E. Tholozan, John Hay, William L. Long, Jonathan Guest, John Wallace, Phineas James, Zenas Smith, John J. Douberman, Thomas Berry, Moses B. Wall, Joseph M. Yard, Walter B. Alexander.

The following is a full list of all those who received degrees in old Missouri Lodge, No. 1, from June, 1821, to October, 1833, inclusive, with the date when "raised":

Walter B. Alexander, June 12, 1821; William Robertson, Oct. 16, 1821; James Conner, Oct. 30, 1821; Samuel Stebbins, Nov. 16, 1821; Paul M. Gratiot, Jan. 16, 1822; Lewis C. Beck, Jan. 22, 1822; Theodore L. McGill, Jan. 30, 1822; Francis Mason, March 23, 1822; Sullivan Blood, March 23, 1822; Daniel Blair, April 2, 1822; Richard Milligan, June 10, 1822; Asa Wheeler, April 4, 1823; Frederic L. Billon, Dec. 10, 1823; Lawrence Taliaferro, Feb. 3, 1824; James D. Earl, July 9, 1824; Charles Bent, Aug. 9, 1824; William Spiekernagle, Aug. 2, 1825; Evil Baker, Oct. 4, 1825; John Simonds, Sept. 30, 1826; Edward Klein, Sept. 30, 1826; Phineas Block, Sept. 10, 1827; John M. Causland, Feb. 22, 1828; Chris. M. Price, Feb. 22, 1828; Bernard Pratte, Jr., Feb. 22, 1828; Nicholas Warnock, Nov. 5, 1828; H. B. DeWitt, March 3, 1829; George Wilson, March 3, 1829; Washington Hood, March 28, 1829; David Waldo, May 5, 1829; Beriah Graham, June 24, 1829; John M. Pollock, Dec. 19, 1829; James R. Pullen, Dec. 4, 1830; Thomas H. West, Feb. 1, 1831; John B. D. Valois, Sept. 7, 1831; Ruel Bryant, Sept. 7, 1831; Alpha O. Abby, Sept. 8, 1832; Bernard McAnulty, Sept. 8, 1832.

Admitted to membership: Abran S. Platt, March 4, 1823; John Sbackford, Feb. 5, 1822; Hamilton R. Gamble, Nov. 2, 1824; Jacob Cooper, Feb. 2, 1825; Robert Wash, Feb. 7, 1826; James S. Lane, April 8, 1826; Hardage Lane, July 8, 1826; David E. Cuyler, Aug. 1, 1826; John Russell, April 3, 1827;

Adam L. Mills, July 3, 1827; Augustin Kennerly, Jan. 12, 1828; George Maguire, Jan. 12, 1828; Dugald Ferguson, Jan. 12, 1828; William T. Smith, Jan. 12, 1828; George Knox, Jr., May 6, 1828; John Woolfolk, Dec. 14, 1830; R. W. Coan, Dec. 14, 1830; Cornelius Campbell, June 7, 1831; Archibald Gamble, Dec. 27, 1831; John Haverly, Jan. 3, 1832; John M. Raulston, Jan. 3, 1832; Jesse Little, May 1, 1832; J. G. A. McKinney, May 1, 1832.

Fellow-craftsmen: Edward Moore, March 9, 1822; John J. Lacroze, May 18, 1822; French Strother, Feb. 7, 1826; Richard H. Woolfolk, Dec. 4, 1827; Valen J. Peers, Dec. 4, 1827.

Entered apprentices: Otis Tiffany, Aug. 6, 1822; John F. A. Sanford, Dec. 16, 1825; William Orr, Sept. 3, 1822; Francis W. Hopkins, April 28, 1826; James Sterritt, Oct. 14, 1826; Peter R. Pratte, Aug. 22, 1829; Joseph Rudisell, Oct. 13, 1829; Charles Cabanné, May 8, 1830; E. T. Christy, June 31, 1831.

In the year 1824, Charles S. Hempstead, trustee of the estate of Jeremiah Conner, deceased, conveyed to John D. Daggett a lot or square of ground in Conner's addition, outside the then city limits (Seventh Street), and considered a long distance "in the country," and on April 2, 1824, John D. Daggett sold this lot to Missouri Lodge, No. 1, Edward Bates and Archibald Gamble, trustees, for four hundred dollars, for a Masonic burial-ground.

On the 12th of April, 1824, the body of Dr. Richard Mason, late of Philadelphia, was there interred by the lodge, the procession being escorted by Capt. Archibald Gamble's troop of City Cavalry, of which the deceased was a member. The ground being found too wet and swampy, and otherwise unsuitable for the purpose designed, the body was subsequently removed, and the trustees were instructed to dispose of the lot. This they accomplished after a few years, selling it to Peter Ferguson on Sept. 1, 1831, for the sum of seven hundred and fifty dollars, then a fair price for it. That lot is now "City Block No. 179," two hundred and seventy feet front on the south side of Washington Avenue, from Tenth to Eleventh, by one hundred and fifty deep, south to St. Charles Street, opposite the St. Louis University, and is now the property of Peter Ferguson's son, William F. Ferguson.

After many vicissitudes and fluctuations in the history of the lodge, resulting mainly from the political anti-Masonic excitement then existing in various por-

Up to October, 1833, the statistics were :

Members remaining October, 1833.....	28

The officers of Missouri Lodge, No. 1, from 1821 to 1833 were—

tions of the Union, the few active remaining members arrived at the conclusion that it was best for the interests of the institution to suspend its labors, for a time at least.

On the 18th of October, 1831, the Grand Lodge submitted to the subordinate lodges a proposition to dissolve the grand and subordinate lodges in the State, and when the proposition came before this lodge on the evening of Dec. 12, 1832, the following was adopted :

Resolved, That it is the wish of Missouri Lodge, No. 1, that the Worshipful Masters and Wardens of said lodge attend the Grand Lodge on the next Monday, the 19th, and that it is the sense and wish of this lodge that said Worshipful Masters and Wardens vote against the dissolution or suspension of said Grand Lodge, or the lodges subordinate thereto."

Edward Bates, Worshipful Master, offered the following :

Whereas, Under existing circumstances, and in view of the high excitement which unhappily prevails in many parts of the United States on the subject of Freemasonry, many good and virtuous persons having been led to doubt whether the beneficent effects resulting from the exercise of our rules do more than counterbalance the evils inflicted upon society by the passions and prejudices brought into action by our continuing to act in an organized form; and while we feel an undiminished reverence for the excellent principles inculcated by the order, and an unshaken belief in the many and great services it has rendered mankind; nevertheless,

Be it Resolved, That immediately after the close this evening this lodge shall cease to act as an organized body, and that its charter be surrendered and returned to the Grand Lodge."

Many of the members becoming dissatisfied with the course of the mover of this resolution during the preceding months, had already "demitted," and on the 5th of October, 1833, the lodge surrendered its charter to the Grand Lodge, and ceased its labors for the time.

Having nearly six hundred dollars, a large sum then, in the treasury, it made the following disposition of its surplus funds :

To the Sisters of Charity, who had then but recently erected their hospital building, at Fourth and Spruce Streets, two hundred dollars; to the St. Louis Library Association, then just set on foot, two hundred and fifty dollars. The balance, one hundred and twenty-eight dollars, was applied to the payment of rent, Grand Lodge dues, and other incidentals.

Following the return of the charter of Missouri Lodge, No. 1, to the Grand Lodge of Missouri, in October, 1833, some few of its members, in conjunction with others, in 1834 petitioned the Grand Lodge for a charter for a new lodge in St. Louis, to be called Lafayette. The Grand Lodge changed the name, and in 1836 granted a charter to the lodge as St. Louis, No. 20.

On Tuesday, Oct. 18, 1842, at the annual meeting of the Grand Lodge, Priestly H. McBride, M. W. G. M.,—

"The petition of Brothers Jesse Little, Thornton Grimsley, William Renshaw, John D. Daggett, Augustin Kennerly, Thomas H. West, A. L. Mills, James S. Lane, George Wilson, and Frederic L. Billon, late members of Missouri Lodge, No. 1, praying that the Grand Lodge grant them the liberty of resuming their Masonic labors and the enjoyment of Masonic privileges, under and by virtue of their former charter, as a regular lodge of Free and Accepted Masons, was presented.

"Thereupon, upon motion of Brother Carnegy, it was unani- mously ordered that the prayer of said petitioners be granted."

Pursuant to the above the following members of Missouri Lodge, No. 1, assembled at the hall Oct. 20, 1842, and proceeded to reopen Missouri Lodge, No. 1, viz.: Jesse Little, Thornton Grimsley, John Simonds, Adam L. Mills, Augustin Kennerly, George Wilson, S. W. B. Carnegy, P. G. M., Joseph Foster,

S. G. W., John M. De Bolle and Esrom Owens; Joseph Foster as W. M.; John Simonds, S. W.; Thornton Grimsley, J. W.; Augustin Kennerly, Treas.; S. W. B. Carnegy, Sec.; George Wilson, S. D.; Jesse Little, J. D.; Esrom Owens, Tyler.

It was unanimously resolved to accept the privi- leges granted by the Grand Lodge, and the lodge then proceeded to an election of officers, which re- sulted in the choice of the following: John Simonds, W. M.; John D. Daggett, S. W.; Thornton Grims- ley, J. W.; Frederic L. Billon, Sec.; Augustin Kennerly, Treas; George Wilson, appointed S. D.; Jesse Little, appointed J. D.; Esrom Owens, ap- pointed Tyler. These officers were installed the same evening by P. G. Master S. W. B. Carnegy. The transaction of business was proceeded with, and thus the old lodge was revived.

Following is a list of the members initiated in Mis- souri Lodge, No. 1, from 1842 to 1848, inclusive :

	Initiated.	Passed.	Raised.
John M. Eager.....	Dec. 1, 1842.	Dec. 13, 1842.	Feb. 8, 1843.
E. Carter Hutchinson.....	Dec. 9, 1842.	April 14, 1843.	Oct. 11, 1843.
James M. Martien.....	Dec. 9, 1842.		
Joseph B. Walker.....	Jan. 26, 1843.	March 10, 1843.	April 7, 1843.
Henry Caldwell.....	Feb. 6, 1843.	March 10, 1843.	April 6, 1843.
Anthony Bennett.....	March 6, 1843.		
James Gresham.....	Oct. 10, 1843.	Oct. 24, 1843.	Nov. 2, 1843.
Isalah Forbes.....	Dec. 7, 1843.	Jan. 4, 1844.	Feb. 1, 1844.
Edwin T. Denig.....	Aug. 30, 1844.		
T. C. Hovaker.....	Oct. 3, 1844.	Nov. 16, 1844	Dec. 2, 1844.
Daniel Meloy.....	Dec. 7, 1844.	Jan. 2, 1845.	Jan. 23, 1845.
David Levison.....	Jan. 2, 1845.	Jan. 23, 1845.	Feb. 6, 1845.
Damassus Gezzi.....	Feb. 12, 1845.	March 6, 1845.	April 11, 1845.
Wm. H. Merritt.....	March 11, 1845.	April 3, 1845.	May 13, 1845.
Philip Ewald.....	June 13, 1845.		
Gabriel Hains.....	June 13, 1845.	July 15, 1845.	Aug. 28, 1845.
Erastus Wells.....	July 3, 1845.	Aug. 12, 1845.	Oct. 8, 1845.
Thomas Davenport.....	Sept. 4, 1845.	Oct. 2, 1845.	Dec. 22, 1845.
Gustavus W. Dreger.....	Sept. 12, 1845.		
Nap'o'n Koscielowski.....	March 5, 1846.	April 24, 1846.	Aug. 31, 1846.
Isaac H. Keim.....	April 2, 1846.	May 12, 1846.	June 12, 1846.
Meejah Littleton.....	April 19, 1846.	April 20, 1846.	April 20, 1846.
Lie Curtis.....	May 7, 1846.	July 3, 1848.	July 6, 1848.
Ed. S. Polkowski.....	May 7, 1846.		
Conrad Smith.....	June 4, 1846.		
Thomas Dndman.....	Aug. 6, 1846.	Feb. 4, 1847.	
Theodore Baker.....	Dec. 11, 1846.	June 14, 1847.	Aug. 23, 1847.
H. W. Leffingwell.....	Jan. 12, 1847.	Feb. 4, 1847.	Feb. 27, 1847.
Wm. F. Chase.....	Jan. 12, 1847.	Feb. 4, 1847.	Feb. 27, 1847.
Thomas Ryan.....	April 16, 1847.		
B. Liverman.....	Jan. 6, 1848.	March 15, 1848.	May 26, 1848.
John Libby.....	April 6, 1848.	Oct. 5, 1848.	March 1, 1849.
William H. Latham.....	Aug. 18, 1848.		
Isaac N. Barnes.....	Sept. 7, 1848.	Dec. 29, 1848.	Dec. 29, 1848.
Edmund Flagg.....	Sept. 7, 1848.	Feb. 26, 1849.	March 28, 1849.
Ed. C. Blackburn.....	Nov. 2, 1848.	Feb. 1, 1855.	

The elective officers of Missouri Lodge, No. 1, from 1842 to 1882, inclusive, have been :

Missouri Lodge, No. 1, has recommended to the Grand Lodge of Missouri the granting of the following petitions for charters for new lodges in the city of St. Louis, viz.:

1845. Dec. 4th, petition of E. G. Simons and associates for a new lodge to be called "Polar Star."

1848. Oct. 5th, petition of William H. Merritt, Erastus Wells, and associates for a new lodge in the northern part of the city to be called Beacon Lodge.

1850. May 2d, petition of Mr. Baumgartner and associates for a new lodge in the southern part of the city to be called Irwin Lodge.

1854. Oct. 5th, petition of Messrs. Brennan, Brooks, Hall, and others for a new lodge to be called Tyrian Lodge.

1857. Jan. 15th, petition for a new lodge in the city to be called Pride of the West.

1865. March 16th, petition of Messrs. Wannell, Dozier, Shorn, and associates for Keystone Lodge.

1867. Sept. 5th, petition of Messrs. Gibson, Butts, and others for a new lodge to be called Aurora.

1868. Feb. 20th, petition of Messrs. Wolke, Sues, Sears, etc., Cosmos Lodge.

1869. Oct. 21st, petition of B. Goldschmidt, Charles Buechel, and J. Hafke, for Meridian Lodge; afterwards rescinded; no signatures to the petition.

1870. Feb. 17th, Petition of Thomas C. Ready and fifty others for Tuscan Lodge.

1871. June 15th, petition of R. A. Waters, B. A. Dozier, F. J. Rice, and others for Cache Lodge, at Carondelet.

1871. Sept. 21st, petition of Edward Nathan, J. J. Fiseher, and Adolph Klementpf, for Itaska Lodge.

1872. Feb. 15th, petition of C. C. Rainwater, Thomas R. Garrard, and R. M. Hubbard, for Anchor Lodge.

1872. March 7th, petition of John M. Collins, S. F. Ramsdell, and M. H. B. Atkins, for Westgate Lodge.

1872. June 20th, petition of A. B. Barbee, William T. McCutcheon, and James J. Denny, for Lambskin Lodge.

The fiftieth anniversary of the date of the charter to Missouri Lodge, No. 12, was celebrated by Missouri Lodge, No. 1, Oct. 8, 1866. The following

account of the proceedings was obtained from the record book:

"A called communication of Missouri Lodge, No. 1, was held at Masonic Hall, northeast corner of Chestnut and Third Streets, on Oct. 8, 1866; present, George Frank Gouley, W. M.; John McKittrick, S. W.; William A. Pratt, J. W.; Judah A. Hart, Treas.; George C. Deane, Sec.; James H. Tollman, S. D.; Joseph Nutt, J. D.; George B. Brua, Tyler; John Goodin, P. M.; James O. Alter, P. M.; Ross Elms, John D. Melvin, George W. Ferris, William N. Morrison, John Geekie, J. M. Broomfield, Alonzo B. Pearson, William H. Goodin, J. J. Outley, R. M. Mather, D. L. M. Robinson, A. Newmark, L. Kingsland, Jacob Kuhn, James X. Allen, Richard L. Parker, John W. Reeder, Lewis Holden, John Brooke, Charles H. Rochow, thirty members, and the following visitors: J. A. H. Lampton, P. M.; James Merry, John Glenny, T. H. Russell, S. D. Howard, J. K. Dalmas, William H. Stone, W. F. Dieterichs, Jr., of George Washington Lodge, No. 9; Theodore Nagle, William W. Worstall, of St. Louis Lodge, No. 20; John C. Bloomfield, William B. Parker, of Naphthali, No. 20; Henry Cupps, of Pride of the West Lodge, No. 179; J. B. Austin, W. M.; William B. Buckland, J. W.; A. B. M. Thompson, Sec.; Martin Collins, P. M.; William N. Loker, P. M.; William Bosbyshell, J. H. Case, John King, brevet major U. S. A.; W. W. Wallace, James Buckland, E. W. Klipstein, H. Silvester, Dr. George H. Bliekhahn, Thomas Richeson, W. A. Miller, R. M. L. McEwen, James McArthur, of Occident Lodge, No. 163; Frederick Volmer, Sec.; B. H. Miles, of Keystone Lodge, No. 243; William C. Defriez, W. M.; John W. Luke, P. M.; William P. Curtis, Sec.; Charles C. Whittlesey, Samuel D. Hendel, of Polar Star, No. 79; Thomas Jessop, Hermitage Lodge, No. 356, Illinois; Morand Smith, Sacramento Lodge, No. 40, California; J. W. McDonald, W. M.; Kansas City Lodge, No. 220; L. Wright, Columbian Lodge, No. 484, New York; William M. Fisher, Kane Lodge, No. 454, New York; N. D. Rogers, Palmyra, No. 128, New York, seventy-three present.

"George F. Gouley, W. M., presiding, delivered an address, giving a brief history of the lodge for the fifty years of its existence, so far as he had been able to gather it from the limited sources of information in his possession as Grand Secretary (the records from 1816 to 1833, inclusive, have been lost or destroyed at the death of John B. D. Valois, the secretary, in 1834)."

Among the public demonstrations in which Missouri Lodge, No. 1, has participated are the following:

1823. Dec. 27, St. John the Evangelist's day, observed by the installation of the officers in the lodge-room, and "a collation in the room on the second floor below."

1825. Dec. 27, St. John the Evangelist's day, procession to the First Presbyterian Church, northwest corner Fourth and St. Charles Streets; divine services by Revs. Salmon Giddings and J. M. Peck, and an oration by Hamilton R. Gamble.

1827. June 24, St. John the Baptist's day, procession to the Presbyterian Church, divine services, and an oration by Rev. Joshua T. Bradley (a member of the order), of the Episcopal Church, New York. Among those present was the distinguished officer, Maj.-Gen. Jacob Brown.¹

1828. Dec. 27, St. John the Evangelist's day, procession to the Presbyterian Church and a discourse by the pastor, Rev. William Potts, followed by the usual dinner.

1829. Dec. 27, St. John the Evangelist's day, procession to Christ Episcopal Church, where divine services were held.

1844. June 24, festival of St. John the Baptist, was observed by the four lodges of St. Louis—Missouri, No. 1; St. Louis, No. 20; Naphthali, No. 25; and Coleman, No. 40—by a procession to the Methodist Church, under the direction of Missouri, No. 1, as the senior lodge, where an oration was delivered by Willis L. Williams.

1847. Feb. 15, the eighty-third anniversary of the founding of St. Louis, was celebrated by the people of the city, the various societies, associations, and organizations, and the military of the place uniting in the affair, by a public display, a procession to the court-house, oration, firing of cannon, dinner, and ball, the Masonic bodies joining in the procession by special invitation from the authorities.

1852. Nov. 4, the centennial anniversary of the initiation of Gen. George Washington into the Masonic order, was publicly celebrated by the fraternity in St. Louis, under the auspices of Missouri Lodge, No. 1, by a procession to Centenary Methodist Church, northwest corner of Washington Avenue and Fourth Street, with exercises and ceremonies appropriate to the occasion.

The procession assembled at the hall, Third and Chestnut Streets, and formed with the right resting on Fourth and Chestnut Streets, in the following order:

- Sixth Infantry Band.
- Meridian Lodge, No. 12.
- Irwin Lodge, No. 120.
- Beacon Lodge, No. 3.
- George Washington, No. 9.
- Polar Star, No. 20.
- Mount Moriah, No. 40.
- Naphthali, No. 25.
- St. Louis Lodge, No. 79.

Missouri Lodge, No. 1.

Transient Brethren.

Alton Lodges.

Belleville Lodges.

Orator and Chaplain.

Royal Arch Chapters.

Knight Templar Encampments.

N. Wall, chief marshal; H. J. B. McKellops, aid; J. J. Anderson, assistant marshal; J. W. Crane, assistant marshal; Bernard Pratte, assistant marshal.

Arrived at the church, Past Grand Masters of the Grand Lodge of Missouri E. M. Ryland and A. B. Chambers presided. Rev. Mr. Newland opened the exercises with prayer, after which Rev. Mr. Kavanaugh delivered an address. R. W. G. C. Libby then pronounced the benediction. The procession again formed, and after marching through several streets returned to the lodge-room, where it was dismissed. At three o'clock a large number of the order, with many ladies, partook of a dinner at Odd-Fellows' Hall.

1864. Dec. 27, dedication of the hall of Occidental Lodge, No. 191, by a procession of the fraternity and appropriate ceremonies and exercises at the new hall.

1874. June 6, Missouri Lodge, No. 1, with the other city lodges, joined in the procession formed by the Grand Lodge of Missouri for the purpose of laying the corner-stone of the new Merchants' Exchange.

As may be seen from the foregoing pages, the early membership of the lodge included many of the leading citizens of St. Louis, some of whom occupied prominent and influential places in the councils of the nation. Among these may be mentioned Senator Thomas H. Benton, Hon. Hamilton R. Gamble, Governor of Missouri; Edward Bates, Attorney-General of the United States; Hon. John D. Daggett, mayor of St. Louis; James Kennerly, William Renshaw, Hardage Lane, Thornton Grimsley, Thomas Andrews, Archibald Gamble, Frederic L. Billon, William K. Rule, Thomas F. Riddick, Nathaniel B. Tucker, Joseph V. Garnier, Sullivan Blood, Jesse Little, and many others.

GRAND LODGE OF MISSOURI.—When Missouri was organized as a State (in 1820) there were three chartered lodges within the limits of her territory, all working under the Grand Lodge of Tennessee. These lodges were Missouri Lodge, No. 12, at St. Louis; Joachim Lodge, No. 25, at Herculaneum, Jefferson Co., and St. Charles Lodge, No. 28, at St. Charles.

It being deemed expedient to establish a Grand Lodge for the new State, and having the necessary number of lodges required by the ancient constitutions for the purpose, at the invitation of Missouri Lodge, No. 12, delegates from the three lodges met in convention at St. Louis on Thursday, Feb. 22, 1821, and appointed a committee of three—William Bates, of Joachim, No. 25; Nathaniel Simonds, of St. Charles, No. 28; and Edward Bates, of Missouri, No. 12—to draft a constitution for the government of the new Grand Lodge, to be submitted to the lodges for

¹ Maj.-Gen. Jacob Brown, accompanied by his aid, Lieut. Vinton, of the United States artillery, arrived at Jefferson Barracks on June 20, 1827, on a tour of inspection of the military posts of the United States. On the 22d he reviewed the troops there,—six companies of the First Regiment, six of the Third, and the whole of the Sixth Regiment,—twenty-two companies. On the 23d, with Gen. Atkinson, he visited the arsenal at Bellefontaine. On Sunday, the 24th, he attended divine service at the Presbyterian Church on the occasion of the anniversary of St. John the Baptist. On the 25th a dinner was given by the officers at the barracks. He left on the 27th, in the 'Herald,' for Louisville.—*Republican*, June 28, 1827.

their consideration. The lodges then adjourned to meet at the same place on the 23d of April following. Pursuant to this adjournment the three lodges again met, with the following representatives: Missouri Lodge, No. 12, Edward Bates and John D. Daggett; Joachim Lodge, No. 25, William Bates and T. F. Riddick; St. Charles Lodge, No. 28, A. S. Platt and H. Hunt, and decided to proceed with the organization of the Grand Lodge. After filling the various stations with officers *pro tem.*, they opened in form, and on the following day elected the following officers:

Brother Thomas F. Riddick, M. W. Grand Master; Brother James Kennerly, R. W. G. Sr. Warden; Brother William Bates, R. W. G. Jr. Warden; Brother Archibald Gamble, W. G. Treasurer; Brother William Renshaw, W. G. Secretary.

On Friday, May 4, 1821, the first public demonstration of the new Grand Lodge took place,—a procession to the Baptist Church, where the officers were installed and the Grand Lodge duly consecrated by Thompson Douglass, of Missouri Lodge, No. 1.

On the 5th of May, 1821, the following persons were appointed a committee to draft a code of by-laws for the government of the Grand Lodge: Thompson Douglass, W. G. Pettus, and J. V. Garnier, which duty they performed, and on the same day the code presented by them was adopted.

On the evening of Oct. 10, 1821, the Grand Lodge being in session, a Past Master's Lodge was opened, and the M. W. Nathaniel B. Tucker was installed Grand Master of the Masons of the State of Missouri.

Having been placed in Supreme Masonic authority in the State of Missouri, the Grand Lodge proceeded to recharter the lodges under its jurisdiction, and Missouri Lodge being the oldest, received, as we have seen, first place as No. 1, pursuant to its new charter on the 4th of September, 1821; Joachim became No. 2, and Hiram, of St. Charles, No. 3.

In 1831 a resolution was offered, but afterwards withdrawn, to dissolve the grand and subordinate lodges in the State.

The following was unanimously adopted:

“Resolved, That the Grand Lodge in the State of Missouri will earnestly support the interest and dignity of the fraternity,

	Grand Masters.	G. Sr. Wardens.	G. Jr. Wardens.	Grand Treasurers.	Grand Secretaries.	Deputy G. Masters.
April, 1821...	Thomas F. Riddick.	James Kennerly.	William Bates.	Archibald Gamble.	William Renshaw.	
Oct. 1821...	Nathaniel B. Tucker.	Edward Bates.	“ “	“ “	“ “	Thomas Douglass.
“ 1822...	“ “	“ “	William G. Pettus.	“ “	“ “	“ “
“ 1823...	“ “	“ “	“ “	“ “	Thomas Douglass.	George H. C. Melody.
“ 1824...	“ “	William G. Pettus.	Thornton Grimsley.	“ “	“ “	“ “
“ 1825...	Edward Bates.	“ “	“ “	“ “	John D. Daggett.	“ “
“ 1826...	“ “	Martin Ruggles.	John F. Ryland.	Rich'd T. McKinney.	“ “	Hardage Lane.
“ 1827...	“ “	“ “	H. R. Gamble.	Thornton Grimsley.	“ “	“ “
“ 1828...	Hardage Lane.	Ham. R. Gamble.	Adam L. Mills.	“ “	“ “	George H. C. Melody.
“ 1829...	“ “	“ “	“ “	“ “	“ “	Frederic L. Billon.
“ 1830...	“ “	Sinclair Kirtley.	“ “	Bernard Pratte, Jr.	“ “	George H. C. Melody.
Dec. 1831...	Edward Bates.	Oliver Parker.	Aug. Jones.	Thomas Andrews.	F. L. Billon.	“ “
Oct. 1832...	Ham. R. Gamble.	M. J. Noyes.	“ “	“ “	“ “	“ “
“ 1833...	Sinclair Kirtley.	John Wilson.	G. A. Tuttle.	G. H. C. Melody.	John Garnett.	“ “

Frederick Bates elected second Grand Master, October, 1822, declined.

and will strictly require of the subordinate lodges under this jurisdiction a vigilant and faithful discharge of their duties; and that it is inexpedient either to dissolve or suspend the grand and subordinate lodges.”

In April, 1832, the Grand Lodge adopted a resolution that “hereafter this Grand Lodge shall hold one communication in the year.”

Owing to the anti-Masonic agitation, which reached its climax in 1833, the Grand Lodge in October of that year changed its place of meeting to Columbia, Boone Co., Mo., the date fixed for its first meeting being December 2d, but when the storm had spent its fury the Grand Lodge, which had held three annual communications (in the years 1834, 1835, and 1836) at Columbia, found it expedient to remove back to St. Louis, which was accordingly done, and the annual meeting of Oct. 2, 1837, was held in St. Louis,—S. W. B. Carnegie, M. W. G. Master; John D. Daggett, R. W. Dep. G. Master; and Richard Dallam, G. Secretary.

The lodges chartered by the Grand Lodge of Missouri from its organization in 1821 to the date of its removal to Columbia, in October, 1833, were—

- No. 1, Missouri, at St. Louis, 1821.
- No. 2, Joachim, at Herculaneum, Jefferson Co., 1821.
- No. 3, Hiram, at St. Charles, St. Charles Co., 1821.
- No. 4, Harmony, at Louisiana, Pike Co., October, 1821.
- No. 5, Olive Branch, at Alton, Ill., April 3, 1822.
- No. 6, Unity, at Jackson, Cape Girardeau Co., April 3, 1822.
- No. 7, Franklin Union, at Franklin, Howard Co., April 3, 1822. Charter forfeited December, 1831.
- No. 8, Vandalia, at Vandalia, Ill., Oct. 8, 1822; Grand Lodge of Illinois, 1824. James M. Duncan, W. M.; J. Warnock, S. W.; W. Sec., D. Ewing, J. W. in district.
- No. 9, Sangamon, at Springfield, Ill., Oct. 9, 1822.
- No. 10, Union, at Jonesboro, Ill., Oct. 24, 1822.
- No. 11, Eden, at Covington, Ill., Oct. 8, 1822.
- No. 12, Tyro, at Caledonia, Washington Co., April, 1825.
- No. 13, Tucker, at Ste. Genevieve, October, 1826.
- No. 14, Booneville, at Boonville, April, 1827.
- No. 15, Perseverance, at Louisiana, Pike Co., April, 1828.
- No. 16, Columbia, at Columbia, Boone Co., October, 1830.
- No. 17, Clarksville, at Clarksville, Pike Co., October, 1830.
- No. 18, Palmyra, at Palmyra, Marion Co., April, 1831.

The following were the elected grand officers of the Grand Lodge of Missouri from 1821 to 1833:

The Grand Masters of the Grand Lodge from 1834 to 1867, inclusive, were:

Sinclair Kirtley, Columbia Lodge, No. 16; elected December, 1833 and 1835.

A. B. Chambers, St. Louis Lodge, No. 20; elected November, 1834.

S. W. B. Carnegie, Palmyra Lodge, No. 18; elected October, 1836-38.

Priestly H. McBride, Paris, Union Lodge, No. 19; elected October, 1839-43.

J. W. S. Mitchell, Fayette Lodge, No. 47; elected October, 1844-45.

John Ralls, New London Lodge, No. 21; elected October, 1846.

Joseph Foster, Naphthali Lodge, No. 25; elected October, 1847-48.

John F. Ryland, Lafayette Lodge, No. 32; elected May, 1849-50.

Benjamin W. Grover, Johnson's Lodge, No. 85; elected May, 1851-52.

Wilson Brown, St. Mark's Lodge, No. 93; elected May, 1853.

L. S. Cornwell, Johnson Lodge, No. 85; elected May, 1854-55.

Benjamin Sharp, Danville Lodge, No. 72; elected May, 1856.

Samuel H. Saunders, Relief Lodge, No. 105; elected May, 1857-58.

Marcus Boyd, United Lodge, No. 5; elected May, 1859.

Marcus H. McFarland, Ashley Lodge, No. 75; elected May, 1860.

William R. Penick, St. Joseph Lodge, No. 78; elected May, 1861.

George Whitcomb, Constantine Lodge, No. 129; elected May, 1862.

John H. Turner, Fulton Lodge, No. 48; elected May, 1863.

John F. Houston, Wakanda Lodge, No. 78; elected May, 1864-65.

John D. Vincil, Hannibal Lodge, No. 188; elected May, 1866.

The Deputy Grand Masters from 1821 to 1867 were:

Thompson Douglass, St. Charles Lodge, No. 3; elected 1821-23.

George H. C. Melody, Missouri Lodge, No. 1; elected 1823-25, 1828, 1830-32.

Hardage Lane, Missouri Lodge, No. 1; elected 1826-27.

Frederic L. Billon, Missouri Lodge, No. 1; elected 1829, 1844.

A. B. Chambers, St. Louis Lodge, No. 20; elected 1833, 1835, 1839.

Sinclair Kirtley, Columbia Lodge, No. 16; elected 1834.

John D. Daggett, Missouri Lodge, No. 1; elected 1836-38.

Joseph Foster, Naphthali Lodge, No. 25; elected 1840, 1843.

Joab Bernard, St. Louis Lodge, No. 20; elected 1841-42.

John D. Taylor, Missouri Lodge, No. 1; elected 1845-46.

E. S. Ruggles, Tyro Lodge, No. 12; elected 1847-49, 1851.

B. W. Grover, Johnson Lodge, No. 85; elected 1850.

Samuel F. Curry, Missouri Lodge, No. 1; elected 1852.

Love S. Cornwell, Johnson Lodge, No. 85; elected 1853.

D. P. Wallingford, Weston Lodge, No. 53; elected 1854.

O. F. Potter, Arrow Rock Lodge, No. 55; elected 1855.

W. A. Cunningham, St. Joseph Lodge, No. 78; elected 1856.

Philander Draper, Perseverance Lodge, No. 92; elected 1857.

Marcus Boyd, United Lodge, No. 5; elected 1858.

M. H. McFarland, Ashley Lodge, No. 75; elected 1859.

W. R. Penick, St. Joseph Lodge, No. 78; elected 1860.

John Decker, Naphthali Lodge, No. 25; elected 1861.

John H. Turner, Livingston Lodge, No. 51; elected 1862.

William N. Loker, Occidental Lodge, No. 163; elected 1863.

John D. Vincil, Hannibal Lodge, No. 188; elected 1864-65.

Wm. E. Dunscomb, Jefferson Lodge, No. 43; elected 1866.

The Grand Lodge has participated in most of the important public demonstrations in St. Louis since its organization. Among the events of this character in its history may be mentioned the following:

On Aug. 31, 1823, the Grand Lodge laid the "foundation-stone" of a Presbyterian Church, G. M. N. B. Tucker presiding.

At a special meeting of the Grand Lodge, held on the 29th of April, 1825, present R. W. G. H. C. Melody, D. G. M. and G. M. P.; R. W. Thornton Grimsley, G. S. W.; Rt. W. John D. Daggett, G. J. W. P.; A. Gamble, G. Treasurer; Thompson Douglass, G. Secretary, and a large number of visiting brethren, the Grand Lodge opened in Third Degree in solemn form.

It being stated by the Grand Master that Gen. Lafayette, a brother Mason and officer of the Revolution, had arrived in the city, on motion of Bro. Gamble, it was "ordered that a ballot be now taken on the election of Brother Lafayette as an honorary member of this Grand Lodge," whereupon he was duly elected.

On motion of Brother Gamble, it was "ordered that a committee be appointed to wait upon Brother Lafayette, inform him of his election as an honorary member of this Grand Lodge, and solicit his attendance at the present meeting."

Brothers Melody, Douglass, and Atwood were appointed the committee, and after a short absence returned, accompanied by Gen. Lafayette and his son, George Washington Lafayette, who were received by the lodge standing, and an address delivered by Archibald Gamble, to which Gen. Lafayette replied, and was then conducted to a chair in the east.

On motion of Brother Gamble, it was "ordered that the ballot be taken on the election of Brother George Washington Lafayette as an honorary member of this Grand Lodge, whereupon he was duly elected."

Gen. Lafayette then again addressed the lodge, and with his son withdrew.

On the 21st of October, 1839, at the request of the County Court, the Grand Lodge laid the corner-stone of the court-house in St. Louis, Col. A. B. Chambers, then D. G. Master, presiding.

In 1841 the Grand Lodge concluded to build a college, which was first started in Marion County, where it failed; subsequently it was removed to Lexington, where it again failed, and after years of disasters and troubles it was finally got rid of by being

donated by the Grand Lodge to the State for a military school, for which purpose it was never used.

On the 9th day of May, 1842, the Grand Lodge laid the corner-stone of Methodist Episcopal Centenary Church, Rev. Joab Bernard, D. G. Master, presiding.

In February, 1843, the Grand Lodge was incorporated by the Legislature of the State. On the 28th of June, 1845, the Grand Lodge united with the citizens and public bodies in St. Louis, the Grand Lodge leading, in public ceremonies consequent upon the death of Gen. Andrew Jackson.

The subordinate lodges in St. Louis are—

Missouri Lodge, No. 1; Meridian Lodge, No. 2; Beacon Lodge, No. 3; George Washington Lodge, No. 9; St. Louis Lodge, No. 20; Naphthali Lodge, No. 25; Mount Moriah Lodge, No. 40; Polar Star Lodge, No. 79; Erwin Lodge, No. 121; Occidental Lodge, No. 163; Orient Français Lodge, No. 167; Pride of the West Lodge, No. 179; Good Hope Lodge, No. 218; Keystone Lodge, No. 243; Aurora Lodge, No. 267; Cosmos Lodge, No. 282; Corner-Stone Lodge, No. 323; Tuscan Lodge, No. 360; Caehe Lodge, No. 416; Itaska Lodge, No. 420; Anchor Lodge, No. 443; West Gate Lodge, No. 445; Lamb-skin Lodge, No. 460.

ROYAL ARCH MASONS.—In the year 1820, a sufficient number of Royal Arch Masons being resident in St. Louis and its vicinity to constitute a chapter, a petition was sent to Hon. De Witt Clinton, General Grand High Priest of the General Grand Chapter of the United States, at Albany, N. Y., praying a dispensation for that purpose. Their petition was granted, and he issued to them the following

“DISPENSATION.

“To all Royal Arch Masons to whom these presents shall come, greeting:

“Be it known that I, De Witt Clinton, General Grand High Priest of the General Grand Royal Arch Chapter of the United States of America, do authorize and empower our worthy companions, Amos Wheeler, Thompson Douglass, Abraham Beek, Bennett Palmer, Justus Post, Abraham S. Platt, John G. Sawyer, Derrick Van Pelt, William H. Hopkins, and their associates, to form, open, and hold a chapter of Royal Arch Masons at St. Louis, in Missouri, until the next meeting of the General Grand Royal Arch Chapter, by the name of Missouri Chapter; and I do hereby appoint our worthy companion, Amos Wheeler, to be the first High Priest, Thompson Douglass to be the first King, and Abraham Beek to be the first Scribe of the said chapter, investing them with full powers to assemble upon proper occasions and advance Master Masons to the degrees of Mark Master, Past Master, and Most Excellent Master, and exalt them to that of a Royal Arch Mason; and also to do and perform all such acts as have been and ought to be done for the honor and advantage of the art, conforming in all their proceedings to the constitution of the General Grand Royal Arch Chapter, otherwise this power to be void.

“Given under my hand and privy seal, at the city of Albany, this 24th day of July, A.L. 5820.

[SEAL.]

“DE WITT CLINTON.”

In pursuance of the foregoing authority, a convocation of Royal Arch Masons was held on the 2d day of October, 1820, in the hall of Missouri Lodge, No. 12, when Companions Beek and Canfield were appointed a committee to procure quarters for the accommodation of the chapter. Oct. 14, 1820, a Mark Master's Lodge was opened, additional companions present being Clement B. Fletcher, David Lawrence, James C. Canfield, Samuel G. J. De Camp, and William G. Pettus. Companions Beek, Pettus, Lawrence, and Canfield were appointed a committee to prepare a code of by-laws and procure the necessary furniture and implements for a Mark Master's Lodge.

On the 6th of January, 1821, the committee reported a code of by-laws, which were severally read and adopted. The committee to procure rooms reported “that they had procured from Missouri Lodge, No. 12, the use of their rooms, the rent to commence on Dec. 20, 1820.” Agreed to. On Oct. 30, 1821, the following officers were elected:

Thompson Douglass, H. P.; Amos Wheeler, King; George H. C. Melody, Scribe; Samuel G. J. De Camp, C. H.; William H. Hopkins, P. S.; William H. Pockocke, R. A. C.; Daniel C. Boss, G. M. 3d V.; Hugh Rankin, G. M. 2d V.; Thomas Bothick, G. M. 1st V.; William G. Pettus, Treas.; Archibald Gamble, Sec.; John C. Potter, Tyler and Steward.

There being some doubt as to the authority of the chapter to elect officers under their dispensation, it was thought best to address the General Grand High Priest for his opinion on the subject. He replied as follows:

“ALBANY, 7th December, 1821.

“E. C.:

“In answer to your letter, this moment received, I have to state that in my opinion you may hold your election under the dispensation, precisely in the same way as if you acted under a warrant or charter; the powers granted are the same, the only difference is as to duration. I think that the officers ought to be installed. For this purpose I annex an authority.

“With my best wishes for the prosperity of your members, individually and collectively,

“I am yours, fraternally,

“DE WITT CLINTON.

“THOMPSON DOUGLASS, ESQ.”

“ALBANY, 7th December, A.L. 5821.

“I, De Witt Clinton, General Grand High Priest, etc., do hereby authorize Edward Tyler, Jr., Esq., of Louisville Chapter, to install the officers of Missouri Chapter, and to act in my stead on this occasion with the same powers as I should exercise if I were personally present.

(Signed)

“DE WITT CLINTON.”

Upon the receipt of these documents the former election was declared informal, and Jan. 31, 1822, a new election took place, resulting as follows:

Thompson Douglass, H. P.; John Walls, King; George H. C. Melody, Scribe; William Arnold, C. H.; Thornton Grimsley, P. S.; James P. Speneer, R. A. C.; Hugh Rankin, G. M. 3d V.;

William H. Pooceke, G. M. 2d V.; Archibald Gamble, G. M. 1st V.; S. G. J. De Camp, Treas.; W. B. Alexander, Sec.; John C. Potter, Tyler and Steward.

Companion Thompson Douglass, High Priest elect, was installed April 29, 1822, as such, and duly anointed and received into the order of High Priesthood by Edward Tyler, Jr., High Priest of Louisville Chapter, No. 5, all the companions, except High Priests, having previously retired for that purpose, after which they returned to the chapter, and the remaining officers elect were duly installed.

In August, 1826, the time being near at hand for the Septennial Communication of the General Grand Royal Arch Chapter of the United States at New York, at which time the chapter's dispensation would expire, Hardage Lane was appointed to draft a memorial, and Frederic L. Billon to transcribe the proceedings to be submitted to that body. On Saturday, August 5th, Dr. Lane submitted his memorial and the following:

"Resolved, That the memorial presented by the committee appointed to that duty be received, and that a fair copy of it be made out and signed by the H. P. and forwarded to the Most Eminent General Grand Royal Arch Chapter of the United States.

"Resolved, That the companions of Missouri Royal Arch Chapter, No. 1, now working under dispensation, pray that a charter may be granted them, if upon examination of the transcript of their proceedings by the General Grand Royal Arch Chapter of the United States they shall be found worthy.

"Resolved, That a copy of the foregoing resolutions be forwarded, with the memorial, to the Most Eminent General Grand Royal Arch Chapter of the United States."

The memorial was approved and resolutions adopted, and George H. C. Melody was appointed to present the same to the General Grand Chapter.

On Monday, Aug. 7, 1826, the last meeting of the chapter under the dispensation was held.

The members of the chapter when it disbanded were—

Thornton Grimsley, H. P.; James P. Spencer, K.; Richard T. McKinney, S.; Thompson Douglass, P. S.; Isaac A. Letcher, R. A. C.; David Lawrence, G. M. 2d V.; F. L. Billon, George H. C. Melody, William M. Hopkins, George Morton, William McDonald, John D. Daggett; Sullivan Blood, Treas.

Mr. Melody was at the East a year with the charter in his possession. After his return a convocation of Royal Arch Masons was held in the chapter-room of Missouri Royal Arch Chapter, No. 1, on the 13th day of August, 1827, the following gentlemen being present:

Members, Thornton Grimsley, H. P.; James P. Spencer, King; Richard T. McKinney, Scribe; Thompson Douglass, P. S.; F. L. Billon, Sec.; George H. C. Melody, William H. Hopkins, William McDonald, John D. Daggett.

Visitors, Hardage Lane, E. H. Shepard, William H. Pooceke, Rev. Joshua Bradley; A. L. Mills, Vincennes, No. 1;

Phil. G. Randolph, Potomac, No. 8; William J. Freeland, Eureka, No. 10, Lynchburg, Va.

The chapter was opened in due and solemn form. A communication from Lebbeus Chapman, secretary of the General Grand Royal Arch Chapter of the United States, to Thornton Grimsley, High Priest of Missouri Chapter, informing him that a warrant or charter for the continuation of the chapter had been granted by said General Grand Royal Arch Chapter, was read; whereupon Mr. Melody informed the meeting that he was the bearer thereof, and was authorized by the Most Eminent De Witt Clinton, General Grand High Priest of the General Grand Royal Arch Chapter of the United States, to install the officers of the said chapter, and producing his authority read as follows:

"We, the General Grand Royal Arch Chapter of the United States of America of the most ancient and honorable fraternity of Free and Accepted Masons, according to ancient usage, duly established, constituted, and organized for the said United States of America, agreeably to the resolutions and by authority of a General Grand Convention, held at Hartford, in the State of Connecticut, in the year of Masonry 5798, do hereby constitute and appoint our trusty and well-beloved companions, Thornton Grimsley, H. P.; James P. Spencer, King; and Richard T. McKinney, Scribe, of a new Royal Arch Chapter, by the name and style of Missouri Chapter, to be held at St. Louis, in the State of Missouri. And we do hereby authorize and empower our said trusty and well-beloved companions to hold their chapter at the place hereby directed and appointed at such times as they shall deem necessary and convenient, and agreeably to the General Grand Constitution of this General Grand Royal Arch Chapter, and to admit and advance regular Master Masons to the ancient and honorable degrees of Mark Masters, Past Masters, Most Excellent Masters, and exalt to the august and sublime degree of Royal Arch Masons according to the more ancient and honorable custom of the royal craft in all ages and nations throughout the known world.

"And we do further authorize and empower our said companions and their associates to hear and determine all and singular matters and things relating to the craft within the jurisdiction of the said Missouri Chapter, conforming in all things to the rules and regulations of our General Grand Constitution. And, further, we do hereby further authorize and empower our said trusty and well-beloved companions to install their successors in office, to whom they shall deliver the warrant, and invest them with all their powers and dignities as such, and in like manner their successors in office during the continuance of the said Royal Arch Chapter forever. . . .

"Provided, always, that the said above-named companions and their successors shall do and faithfully perform all and every act and thing required by the General Grand Constitution of this General Grand Royal Arch Chapter, otherwise this warrant shall be void and of no effect.

"In testimony whereof, we, the General Grand Royal Arch Chapter aforesaid, have caused our seal to be hereunto affixed, and our most excellent General Grand High Priest to subscribe his name at the city of New York, this eighteenth day of September, in the year of our Lord one thousand eight hundred and twenty-six, and of Masonry 5826.

"DE WITT CLINTON.

"Attest:

"LEBBEUS CHAPMAN, G. G. Secretary."

"To all Royal Arch Masons to whom these presents shall come, greeting:

"Be it known, that I, De Witt Clinton, General Grand High Priest of the General Grand Royal Arch Chapter of the United States of America, by virtue of the high power in me vested by the third section of the fourth article of the constitution of the General Grand Royal Arch-Chapter of the United States of America, do hereby authorize and empower our worthy companion, George H. C. Melody, to install the officers of Missouri Chapter, No. 1, holden in the city of St. Louis, and county of St. Louis, and State of Missouri, according to the constitution of the General Grand Royal Arch Chapter aforesaid; and I do hereby require of you to make due returns to me of your proceedings on or before the next meeting of the General Grand Chapter.

"Given under my hand and seal at the city of Albany, State of New York, this 23d day of January, A.L. 5827.

"DE WITT CLINTON."

Thornton Grimsley was then duly invested by Mr. Melody with the degree of High Priest and installed as such, all but the High Priests having retired. After their return to the hall, Mr. Melody proceeded to install James F. Spencer, King, and Richard T. McKenney, Scribe.

On the death of De Witt Clinton, at Albany, N. Y., Feb. 11, 1828, the Royal Arch Missouri Chapter passed a series of resolutions, embodying their appreciation of his services and their veneration of his character, and determined to wear a badge of mourning for thirty days. They also recommended all Royal Arch Masons in the State to do the same, and requested the Rev. J. Bradley to deliver an appropriate address.

The following is a roll of the Companion Royal Arch Masons who took part in the first organization of the chapter under the "dispensation," in October, 1820:

- Amos Wheeler, died June 8, 1822.
- Thompson Douglass.
- Abraham Beck, died Sept. 4, 1821.
- Bennett Palmer, St. Charles, died Aug. 17, 1821.
- Justus Post, never participated.
- Abraham S. Platt, St. Charles, Tyler until April, 1825.
- John Y. Sawyer, Edwardsville, demitted April 21, 1824.
- Derrick Van Pelt, died in 1821 or 1822.
- William H. Hopkins.
- James C. Canfield, not found after February, 1821.
- Samuel G. J. De Camp.
- Clem. B. Fletcher, Herculaneum, demitted Jan. 10, 1824.

David Lawrence.

William G. Pettus, demitted April 21, 1824.

Archibald Gamble, demitted Dec. 13, 1823.

The last meeting held by the old chapter, No. 1, before its cessation consequent upon the anti-Masonic excitement of the day, was one convened especially for the advancement of Bernard Pratte, Jr.; on Monday, March 2, 1829, at which time he received the degrees of Mark and Past Masters. The roll of members had then been reduced to nineteen.

After this the chapter lay dormant for seven years and eight months,—no meeting during this time,—but revived in 1836, when the opposition to Masonry, which had assumed a political complexion in many of the States, had very materially subsided, and the institution began to flourish again. Some four or five of the members, with a few others who in the interval had become residents of St. Louis, revived the old chapter, which was opened by J. D. Daggett, H. P., Nov. 5, 1836.

At this meeting G. W. Call, E. H. Shepard, and D. T. Lee were appointed a committee to report upon the propriety of a resumption of labor. That committee reported on the 10th substantially as follows, viz.:

"That under the charter granted by the General Grand Chapter in 1826 the chapter continued its labor until the shock which Freemasonry sustained in 1829 began to be severely felt in Missouri; that its operations ceased through the non-assembling of the craft for work, but without any definite action of the chapter as a body on the subject. No meeting was had from that time until the regular meeting on the 5th November, 1836, when it was opened in ancient and solemn form by Companion J. D. Daggett, High Priest thereof.

"That your committee have fully discussed the propriety of proceeding to work under the present charter, and are unanimously of the opinion that the chapter is competent and fully authorized to do so, and that the prosperity of Freemasonry in Missouri demands it."

This report was adopted, the chapter declared re-organized, and a copy of the report ordered to be sent to the General Grand Chapter, by whom it was subsequently approved.

The following is a list of the High Priests, Kings, Scribes, Secretaries, Treasurers, and Guards from 1820 to 1849, inclusive:

	High Priests.	Kings.	Scribes.	Secretaries.	Treasurers.	Guard or Tylers.
Jan. 1820...	Amos Wheeler.	Thompson Douglass.	Abraham Beck.			
Dec. 1822...	Thompson Douglass.	John Walls.	George H. C. Melody.	W. B. Alexander.	S. G. J. De Camp.	John C. Potter.
Dec. 1822...	William Arnold.	T. Douglass.	Thornton Grimsley.	"	G. H. C. Melody.	Abram S. Platt.
Feb. 1823...	W. H. Hopkins.	G. H. C. Melody.	W. B. Alexander.	T. Douglass.	S. P. Striker.	"
Feb. 1825...	E. H. Shepard.	George Morton.	I. A. Letcher.	F. L. Billon.	James Douglass.	"

In October, 1838, the chapter and the two lodges then in St. Louis, Nos. 20 and 25, occupied the same rooms, each paying one-third of the rent. On the 21st of April, 1841, the recommendation of the chapter was given to the petition of Royal Arch Masons of St. Louis for a new chapter, to be called St. Louis Chapter. Feb. 8, 1847, the petition of Companions Nathaniel Childs, Henry L. Clark, J. W. Crane, Thomas H. Capers, Richard Bond, N. G. Berryman, I. I. Montgomery, Charles Levy, B. I. Vancourt, George Meyers, Alexander Vancourt, and J. W. S. Mitchell to the General Grand Chapter of the United States for the establishment of a new chapter, to be called St. Louis, was read asking the recommendation of the chapter, whereupon

"Resolved, That the chapter do recommend the same."

GRAND ROYAL ARCH CHAPTER OF MISSOURI.—Pursuant to an invitation from Missouri Chapter, No. 1, Royal Arch Masons, a convention of the several chapters in Missouri was held in St. Louis on the 16th of October, 1846, for the purpose of forming a Grand Chapter for the State.

At this convention were represented Missouri Chapter, No. 1, Boonville Chapter, No. 5, Palmyra Chapter, No. 2, Fayette Chapter, No. 6. Elihu H. Shepard, High Priest of Missouri, No. 1, presided, and Stanton Buckner, of No. 2, acted as secretary.

The convention upon being organized proceeded to the formation of a Grand Chapter by the adoption of the following resolution, presented by Companion Daggett:

"Resolved, That we, the officers and proxies of the chapters aforementioned, deeming it expedient and necessary for the better government of the craft, do now establish and constitute

a Grand Royal Arch Chapter for the State of Missouri, agreeably to the constitution of the General Grand Chapter of the United States."

The Grand Chapter having been duly organized by the adoption of a constitution and by-laws, the following gentlemen were elected the first grand officers: J. W. S. Mitchell, G. H. P.; William Hurley, Dep. G. H. P.; Parker Dudley, G. K.; Joseph Megquier, G. S.; Frederic L. Billon, G. Sec.; John S. Watson, G. Treas.; Rev. E. C. Hutchinson, G. Chap.; John D. Daggett, G. Marshal.

Consequent upon this action the allegiance of Missouri Chapter, No. 1, was transferred from the General to the State Grand Chapter.¹

The officers of the Grand Chapter elected in May, 1882, are—

Erwin Ellis, of Lebanon, G. H. P.; A. M. Dockery, of Galatin, Dep. G. H. P.; C. C. Wood, of Kansas City, G. K.; Lee A. Hall, of St. Louis, G. S.; John W. Luke, of St. Louis, G. Treas.; William H. Mayo, of St. Louis, G. Sec.

Appointed officers:

Rev. George W. Penn, of Fulton, G. Chap.; R. F. Stevenson, of Clinton, G. Capt. of H.; Reuben Barney, of Chillicothe, G. P. S.; William B. Wilson, of Cape Girardeau, G. R. A. C.; James B. Austin, of St. Louis, G. M. 3d V.; Lewis Slaughter, of Richmond, G. M. 2d V.; J. C. Hearne, of Hannibal, G. M. 1st V.; J. W. Owen, of St. Louis, G. G.

The chapters of Royal Arch Masons in St. Louis in 1882, with their officers and the number of members, were:

¹ On the 22d of February, 1882, at the Laeledge Hotel, St. Louis, occurred the death of Samuel H. Owens, Grand High Priest and Past Grand Master of Masons. He was born in May, 1835, near Springfield, Ill. During his infancy his parents removed to Missouri, and he was raised to manhood on a farm in Cole County, near Jefferson City. He was educated at the State University at Columbia, Mo. His profession was that of the law, and it is no usual compliment to him to say that he honored his profession. This he did by study, energy, ability to grasp intricate questions, and above all by his high sense of honor in the practice of his profession. He never sought to deceive the court, or do a wrong that he might win his case. As a Mason, he had risen gradually from the humblest position to that of Grand Master of Masons, to which he was chosen in 1872. His administration was eminently successful and practically beneficial to the craft. Subsequently he was chairman of the Committee on Grievance in the grand body. No decision of his was ever reversed, and his reports contributed much to the Masonic standing of Missouri in other grand jurisdictions. In 1881 he was unanimously elected M. E. Grand High Priest of the Grand Chapter.

Missouri, No. 1, Joseph Mountain, H. P.; William H. Mayo, Sec.; one hundred and eighteen members. St. Louis, No. 8, Henry A. Krueger, H. P.; James Harrocks, Sec.; one hundred and eighty-nine members.

Bellefontaine, No. 25, John R. Parson, H. P.; E. V. Kyte, Sec.; one hundred and thirty-one members.

O'Sullivan, No. 40, E. W. League, H. P.; H. F. Hoppus, Sec.; seventy-seven members.

Kilwinning, No. 50, J. Percival Smith, H. P.; John T. McCoy, Sec.; one hundred and eighteen members.

Temple, No. 51, George Lawson, H. P.; John K. Bollinger, Sec.; fifty-one members.

Oriental, No. 78, R. Watson, H. P.; William Crouch, Sec.; fifty-seven members.

The membership of the chapters (eighty-seven in all) subordinate to the Grand Chapter of Missouri, as returned in 1882, numbered four thousand persons.

ORDER OF HIGH PRIESTHOOD.—Very little, if anything, was known of this impressive degree of Masonry in Missouri prior to 1853, in which year George H. C. Melody, P. G. H. P., received the work of the order from Robert P. Dunlap, of Maine, then General Grand High Priest of the General Grand Chapter of the United States. At a meeting of High Priests, held in the Masonic Hall, St. Louis, May 20, 1854, there were present George H. C. Melody, Thornton Grimsley, John D. Daggett, Hon. S. W. B. Carnegy, A. Patterson, John F. Ryland, Richard F. Rees, Joseph Foster, A. O'Sullivan. George H. C. Melody presided, and A. O'Sullivan acted as secretary. After the object of the meeting had been stated by the chairman, a resolution was adopted to the effect that a Convention of High Priests for Missouri be organized.

The following officers were then elected :

George H. C. Melody, president; Thornton Grimsley, vice-president; Joseph Foster, conductor; Richard R. Rees, marshal; A. O'Sullivan, secretary.

At a meeting held on the 26th of May, 1855, "a constitution for the Grand Convention of High Priests of the State of Missouri" was adopted, and under this permanent organization the following officers were elected :

M. E. Comp. George H. C. Melody, president; M. E. Comp. Archibald Patterson, vice-president; M. E. Comp. Rev. J. F. Truslow, chaplain; M. E. Comp. D. De Haven, herald; M. E. Comp. William McLane, steward; M. E. Comp. F. A. H. Garlichs, master of ceremonies; M. E. Comp. Solomon Houch, conductor; M. E. Comp. A. O'Sullivan, secretary; M. E. Comp. J. W. Chenoweth, guard.

The following is the first list of members of anointed High Priests of the State that could be found after careful search through all preceding records of the Grand Chapter of the State, viz. :

George H. C. Melody, Thornton Grimsley, John D. Daggett, S. W. B. Carnegy, A. Patterson, Hon. John F. Ryland, Joseph Foster, A. O'Sullivan, Richard R. Rees, Priestly H. McBride, T. E. Shepherd, Thomas Miller, D. P. Wallingford, Rev. J. F. Truslow, John W. Chenoweth, D. De Haven, Solomon Houch, F. A. H. Garlichs, William McLane, John S. Tisdale, Edward Lea, Marcus Boyd, W. A. Cunningham, Stephen Stafford, James Cloudsley, George A. Kise.

After May 25, 1866, a break occurs in the history of the order. The connecting link seems to have been lost, for diligent search and inquiry fail to properly connect it. There is no record of any meeting from May 25, 1866, until the record starts again, with new officers and several new names, Oct. 7, 1869.

From the best obtainable information it seems that after the death of Companion McDaniel, the president, and Companion O'Sullivan, the secretary of the convention, in 1866, no one had the work of the order until 1868, when Companion J. H. Fairchild, a Past High Priest, of New York, communicated the work to M. E. Companion Thomas E. Garrett and others, who conferred the order on several members, who held meetings during that year. M. E. Companion Garrett was elected president, which office he has held continuously ever since.

M. E. Companion George H. C. Melody was president from the organization until 1860, the year of his death. M. E. Companion Joseph Foster was president until 1865, and M. E. Companion James McDaniel was president in 1866; M. E. Companion D. T. Wainwright in 1867.

In 1882 the officers were—

Thomas E. Garrett, M. E. P.; Allan McDowell, E. V. P.; Isaiah Forbes, E. C.; John R. Parson, E. T.; William H. Mayo, E. R.; W. R. Stubblefield, E. M. of C.; James B. Austin, E. Cond.; Joseph S. Browne, E. H.; William H. Dale, E. Steward; A. Newmark, E. Sentinel.

THE COUNCILS OF ROYAL AND SELECT MASTERS located in St. Louis are—

St. Louis Council, No. 1, John D. Vincil, M.; R. H. Mather, recorder.

Hiram Council, No. 10; John E. Jones, M.; L. J. Clark, recorder.

KNIGHTS TEMPLAR COMMANDERIES.—The Grand Commandery of Knights Templar in Missouri was organized by a convention which assembled on the 22d of May, 1860; Benjamin M. Runyan, president, and Ludwell R. Ringo, recorder. The officers of the Grand Commandery up to the present time (1882) have been—

¹ No conclave in 1862 or 1879.

The Grand Commandery was incorporated under the style of "The Grand Commandery of Knights Templar and the Appendant Orders," on the petition of John D. Vincil, J. M. Fox, William H. Stone, Francis M. Tufts, William M. Rush, John Ure, D. W. Wells, William N. Loker, George Frank Gouley, William Bosbyshell, J. J. McElwee, O. Root, Jr.,

and John Geekie, by the Circuit Court of St. Louis County at the June term of 1871.

The commanderies located in St. Louis in 1882, with their officers and membership, were—

St. Louis, No. 1, William H. Dale, Eminent Commander; John T. McCoy, Recorder; one hundred and twenty-one members.

Ivanhoe, No. 8, H. L. Aldrich, Eminent Commander; R. M. L. McEwen, recorder; eighty-four members.

Ascalon, No. 16, John H. Krippen, Eminent Commander; Frederick Williamson, recorder; seventy-four members.

St. Aldemar, No. 18, William Richardson, Eminent Commander; James Bailey, recorder; eighty-one members.

COLORED FREEMASONS.—The colored people of the United States have a Masonic organization, distinct in its workings from that of other Masons of this country. Their charter was derived from York, England, in 1784, and a lodge was established in Boston. They are called "Free and Accepted Ancient York Masons." Other lodges were soon after started in Philadelphia and New York, and these three formed a Grand Lodge in Philadelphia. Lodges were formed in different parts of the country under the authority of this Grand Lodge until 1847, when delegations from different parts of the Union met in Boston and organized the national Grand Lodge. From that time the craft has prospered. The government of the order is on an independent basis, and vested in a national Grand Lodge, under which the State Grand Lodges work, and under these the subordinate lodges.

The first Grand Lodge in Missouri was established in St. Louis in 1865, with H. M. Alexander as Grand Master, and George Phillips as Junior and John Sexton as Senior Grand Wardens, though subordinate lodges had been working here under the Grand Lodge of Ohio for about twenty years. In 1869 there were seventeen lodges in Missouri, four of them in St. Louis, and also a Royal Arch Chapter (St. John's), working under the Grand Chapter of Pennsylvania, and Western Star Encampment of Sir Knights, working under authority from the Grand Encampment of Pennsylvania. In 1869 the order officiated at the laying of the cornerstone of a colored church, called Carondelet Chapel, in the then city of Carondelet. The officers of the Grand Lodge of Missouri then were—

Moses Dickinson, G. M.; William P. Brooks, D. G. M.; Francis Robertson, Sr. G. W.; William Robertson, Jr. G. W.; R. O. Smith, G. Sec.; Alexander Clark, G. Treas.

There are now about ninety lodges in Missouri, with two thousand members, while in St. Louis there are six lodges. The present Grand Lodge officers are—

Grand Master, Willis N. Brent, Boonville, Mo.; Deputy Grand Master, J. M. M. Stokes, St. Louis; Senior Grand Warden, J. C. C. Owens, Hannibal, Mo.; Junior Grand Warden, W. H. Jones, St. Joseph, Mo.; Grand Treasurer, J. J. Bruce, Brunswick, Mo.; Grand Secretary, Robert O. Smith, St. Louis; Grand

Chaplain, James Madison; Grand Lecturer, Rev. Moses Dickson, Higginville, Mo.

There are four commanderies in St. Louis, with two hundred and fifty members. In 1881 a Grand Commandery was formed by the union of the "Grand Commandery of the State of Missouri" and the "African Grand Commandery," and the following officers were elected:

R. E. G. C., Milton F. Fields, St. Louis; V. E. D. G. C., William T. Mumford, St. Louis; E. G. Gen., Wm. T. Scott, Cairo, Ill.; E. G. C. G., Richard A. Barret, St. Louis; E. G. P., J. C. C. Owens, Hannibal, Mo.; E. G. S. W., James A. Johnson, St. Louis; E. G. J. W., Edward Mitchell, Kansas City; E. G. T., John Pride, St. Louis; E. G. R., Richard H. Cole, West St. Louis.

This Grand Lodge has established an endowment fund of one thousand dollars for the heirs of deceased members, and is gathering funds to establish a Grand Lodge library.

The Colored Masonic Hall is located at 409 Washington Avenue.

MASONIC HALL.—That a building was set apart and used for Masonic purposes at an early period appears from the fact that in the *Missouri Gazette* of July 5, 1809, an account was printed of a Fourth of July dinner given "by Capt. R. Webster in Lee's Orchard, and a ball at night in the Masonic Hall." On the 15th of March, 1817, there appeared in the same paper the following advertisement of a lottery to raise funds for the erection of a Masonic Hall:

"By authority: Scheme of a lottery for building a Masonic lodge in the town of St. Louis,—

1 prize of.....	\$5000 is.....	\$5,000
2 prizes of.....	1000 ".....	2,000
10 ".....	600 ".....	6,000
20 ".....	200 ".....	4,000
25 ".....	100 ".....	2,500
200 ".....	50 ".....	10,000
310 ".....	20 ".....	6,200
1000 ".....	10 ".....	10,000
2550 ".....	6 ".....	15,300
		\$60,000

"Less than two blanks to a prize. Part of the prizes to be determinable as follows, viz.:

"1st. Drawn number on the first, second, third, fourth, fifth, sixth, seventh, eighth, ninth, and tenth day's drawing, each to be entitled to one of the above six hundred dollar prizes, payable in part by one hundred tickets, beginning with No. 7001 to No. 8000 inclusive. The first one hundred tickets for the first drawn number on the first day, and so on in regular succession for the rest. All other prizes floating. Prizes subject to a deduction of fifteen per cent., payable in sixty days after the drawing is completed.

"To be drawn three times a week, five hundred tickets each day. Tickets in the above lottery may be had at the following places, viz.: At the stores of Riddick & Pileher, Th. Hanly, Simpson & Quarles, Moses Scott, and James Kennerly, St. Louis; E. A. Elliot, Ste. Genevieve; John Jones, Mine à Breton; William Bates, Herculeaneum; at the office of Michael Jones, Esq.,

Kaskaskia; at the office of John Hay, Esq., Cahokia, and at the store of John Rochester, St. Charles.

"J. Pilcher, T. Brady, T. Douglass, D. V. Walker, T. Hanly, commissioners appointed by the Legislature for superintending the drawing of the above lottery."

This scheme does not appear to have succeeded, for we find (as elsewhere stated) that the different Masonic bodies occupied the Clark building, and afterwards that erected by Maj. Thompson Douglass on the north side of the present Elm Street, between Main and Second Streets, until 1833. In 1822 committees were appointed by Missouri Royal Arch Chapter, and Missouri Lodge, No. 1, for the purpose of procuring funds to build a Masonic Hall, but this project also appears to have been a failure.

On the 18th of October, 1849, the fourth floor of the building at the corner of Third and Chestnut Streets was dedicated to Masonic uses. The Grand Lodge was opened by the Grand Master, and a prayer was offered by the Rev. Mr. Libby, which was followed by the customary exercises of the order, during which the exordium was delivered by the Rev. Mr. Libby. Subsequently the doors were closed upon all, excepting the members of the order, and the ceremony of dedicating the hall was performed. The procession then formed on Chestnut Street, and marched through the principal streets to Concert Hall, where the ceremonies were opened by prayer offered by the Grand Chaplain of the order. An ode was then sung by the choir of the Unitarian Society, who volunteered their services for the occasion, which was followed by the delivery of the oration by Judge Ryland, the Grand Master. An ode was then sung by the choir, which was followed by the benediction.

About 1853 it was determined to erect a hall which should be in keeping with the prosperity and strength of the order, and on the 12th of February, 1853, a perpetual charter was granted to John D. Daggett, Benjamin M. Runyan, John J. Anderson, William Renshaw, Jr., Daniel G. Taylor, J. R. Barret, David C. Tuttle, Joseph Foster, and T. E. Courtney, as corporators of an association organized to carry out that object.

The first board of directors elected consisted of B. M. Runyan, T. A. Buckland, D. G. Taylor, F. Dings, John W. Luke, Thomas Richeson, John A. Brownlee, James H. McCord, and A. B. Sheder. In June, 1858, the board purchased from Mrs. Anne L. Hunt for fifty-five thousand dollars, being a deduction by Mrs. Hunt of twenty thousand dollars from its estimated value, the lot on which the present building stands, measuring one hundred and nine feet on Seventh Street, and one hundred and thirty-five feet

on Market Street. After various delays the money was secured for the purchase of the lot, and on the 30th of May, 1866, the corner-stone of the present edifice was laid by the Grand Lodge of the State. The cost of the building was about one hundred and ninety-five thousand dollars, which, with the lot, made a total cost of two hundred and forty thousand dollars.

The building was erected under the supervision of the following board of directors: Erastus Wells, president; Samuel Gaty, vice-president; William N. Loker, treasurer; Thomas Richeson, Daniel G. Taylor, John W. Luke, William H. Stone, John D. Daggett, T. A. Buckland. Much of the success of the undertaking was due to the active member of the building committee, William H. Stone, and the president, Mr. Wells.

The building stands on the northwest corner of Seventh and Market Streets. The front on the latter street is one hundred and thirty-five feet, and on Seventh eighty-four feet. It is four stories high, measuring ninety-six feet from the line of the sidewalk to the cornice. The general architectural design is after the Florentine Italian style. It is not heavily ornamented, but plain and substantial, and is built of Joliet marble, nearly white. Near the entrance on Seventh Street is the corner-stone of the building, on which there is the following inscription:

"To the glory of God, the Grand Architect of the Universe, to whom be all honor, praise, and glory: This foundation-stone of Freemasons' Hall was duly laid by the M. W. Grand Lodge of A. F. & A. M., May 30th, 1866, A. L. 5866. John F. Houston, M. W. Grand Master; A. O'Sullivan, G. S."

This inscription was written by the Grand Secretary, A. O'Sullivan, who was a leading spirit in the undertaking, but died before the building was completed.

The lower floor is occupied by stores; on the second floor is the office of the Grand Secretary of the State of Missouri and the library. This is a very handsomely-furnished room, and the ceiling is of unusual height. A flight of stairs leads up to a gallery on which the library cases open. There is also in this apartment a spacious fire-proof safe, for the preservation of the records of the State. One feature to be seen here are well-executed oil-paintings of the Grand Masters of the State from the time of organization. On this floor also is the audience-room or hall. It measures one hundred feet in length by sixty-five feet in width, and is twenty-two feet in height from the floor to the ceiling. Eight Corinthian columns support the ceiling, which is handsomely painted and ornamented. At the west end of the hall is a spacious stage, intended for speakers or other purposes.

The third floor of the building is mainly occupied by the three degree rooms, attached to which are various committee-rooms and small halls, intended for Masonic festivities and other purposes. The fourth floor is divided somewhat similarly to that below, but the rooms are devoted to the administration of the higher degrees. The Royal Arch Chapter chamber is on this floor, and is the most costly and splendid room, in decoration and arrangement, of its character in the building. The ceiling is vaulted and colored blue, with other hues assisting in the ornamentation.

The building was erected under the supervision and direction of James H. McClaren, architect. The building committee was composed of the following gentlemen: Erastus Wells, *ex officio*, president; W. H. Stone, secretary; Thomas Richeson, and Samuel Gaty. Committee for furnishing the halls and carpets, etc.: William H. Stone, William N. Loker, and J. W. Luke.

The building was dedicated on the 14th of October, 1868, by the Grand Lodge of Missouri, W. E. Dunscomb, Grand Master, on which occasion an oration was delivered by Thomas E. Garrett. One of the principal features of the dedication was the procession, which was organized at the Occidental Hall, Seventeenth and Market Streets. The following was the order observed:

Headed by sixteen mounted police, Capt. Kohlhund,
Boehm's Band.

St. Louis Commandery, Knights Templar.

Ivanhoe Commandery, Knights Templar.

Herwig's Band.

Lodges in following order:

No. 243, Keystone Lodge, A. F. and A. M.

No. 218, Good Hope Lodge.

No. 179, Pride of the West Lodge.

No. 167, Orient Français Lodge.

No. 163, Occidental Lodge.

No. 121, Erwin Lodge.

No. 80, Bridgeton Lodge.

No. 79, Polar Star Lodge.

No. 45, Bonhomme Lodge.

No. 40, Mount Moriah Lodge.

No. 25, Naphthali Lodge.

No. 20, St. Louis Lodge.

No. 9, George Washington Lodge.

No. 3, Beacon Lodge.

No. 2, Meridian Lodge.

No. 1, Missouri Lodge.

Band.

Grand Lodge of the State of Missouri and Grand Officers.

Carriages, judges of courts, city and county officials, City Council, etc.

Grand Marshals, Col. James Coff, N. G. Elliott.

Aids, S. B. Stanard, George Rinkel, Jr., William Freadenau,
A. W. Henry, James Denny.

After the dedication ceremonies the lodges, commanderies, etc., proceeded to Bellefontaine Cemetery

to dedicate a monument to Anthony O'Sullivan, who had recently died.¹

The chairman of the Committee on Monument, Martin Collins, delivered the monument over to the Grand Lodge and reported the work done, whereupon Mr. Garret spoke as follows:

"BRETHREN OF THE GRAND LODGE OF MISSOURI,—We stand in this city of the dead, above the mouldering remains of many with whom we have associated in life, to unveil a monument erected to the memory of Anthony O'Sullivan, one of the fathers of Masonry in Missouri. The mortal part of one whom we knew and loved as a brother rests beneath this stone. We are now about to perform the last public ceremony of respect to departed worth, and inaugurate a monument commemorative of his virtues and the position he held in life."

The Grand Master then unveiled the monument, and Thomas E. Garrett, Grand Orator, delivered a eulogy on Mr. O'Sullivan's character.

The monument is of Italian marble, sixteen feet in height, consisting of a broken column standing on a pedestal of three steps, the first step representing the working tools of an entered apprentice; second, of the fellow-craft; third, of the Master Mason. On the front is the inscription, "Erected to the memory of Anthony O'Sullivan by the Grand Chapter and the Grand Lodge of Missouri." On the east side is the seal of the Grand Lodge, and on the west different

¹ Anthony O'Sullivan was born in the county of Kerry, Ireland, on Nov. 29, 1808, emigrated to America about the year 1838, and resided in New York City one year, when he removed to New Orleans, where he was married, Jan. 30, 1841. He removed to Missouri and settled in Arrow Rock, Saline Co., March 17, 1841. He was initiated in Arrow Rock Lodge, No. 55, on May 9, 1846, and raised June 30th the same year. He was exalted a Royal Arch Mason in Boonville Chapter, No. 5, Boonville, Cooper Co., Mo., in 1849, and received the degree of Royal and Select Master in the same chapter. He was created a Knight Templar in St. Louis Commandery, No. 1, on the 1st of August, 1852, and received the degree of the Ancient and Accepted Scottish rite in the Southern jurisdiction in 1859, at a meeting called in Chicago, Ill. He was then made a 33d, and Sovereign Grand Inspector-General of Missouri and bordering States. In the year 1852 he removed to St. Louis, where he resided until 1860, when he removed to Springfield, Mo., and remained there until 1863, in which year he returned to St. Louis and remained till the close of his life. He was elected Grand Secretary of the Grand Lodge of Missouri in May, 1852; Grand Secretary of the Grand Royal Arch Chapter in April, 1854; Grand Recorder of the Grand Commandery in May, 1863; and Grand Puissant of the Grand Council in May, 1864. From the organization of the order of High Priesthood he was its secretary. All these offices he held until the day of his death. He was Grand Secretary of the Grand Lodge under fourteen Grand Masters, always re-elected with scarcely any opposition, and sometimes by acclamation. He was also Grand Lecturer of the lodge and chapter during most of these years, and the chairman of the Committee on Foreign Correspondence, in which field he particularly distinguished himself, and attracted the attention of the fraternity at large.

Masonic emblems of different degrés. A Grand Secretary's jewel is suspended at the top of the broken column. The monument stands on the Masonic lot in the cemetery.

The following were the Grand Chapter Committee on Monument: Isaiah Forbes, William E. Glenn, R. E. Anderson, and Martin Collins, from the Grand Lodge; John D. Vincel, William N. Loker, John W. Luke, and C. A. Rowley. Martin Collins acted as chairman of the committee, and John W. Luke as secretary.

On the 10th of November, 1873, the property was sold under deed of trust, the Life Association of America becoming the purchaser. The ground and building brought one hundred and twenty-seven dollars, subject to a deed of trust for one hundred and forty thousand dollars, with accrued interest amounting to about eighteen thousand dollars. The one hundred and twenty-seven dollars was only intended to cover the expenses of the sale.

The property was again sold under a deed of trust on the 28th of April, 1881, by the trustee, Calvin F. Burnes. Auctioneer Lanham announced that the sale would be subject only to a lien for two years back taxes. Joel Wood, of Wood & Lee, and Mr. Carpenter, a real estate agent, who represented the Hon. Thomas Allen, were the most active bidders. The purchasing bid of seventy-one thousand two hundred dollars was made by Mr. Wood, who bid in the property for the majority bondholders,—Messrs. Joel Wood, W. H. Lee, M. A. Rosenblatt, and Mrs. Eugene Benoist. The purchase deed was made to George H. Goddard, cashier of the Valley National Bank, and Louis Bauman, as trustees. To the cost of Masonic Hall, erected by the Masonic fraternity in 1869, had been added twenty-five thousand dollars by the Life Association of America for the erection of an additional building on Seventh Street, together with steam elevator and steam-heating apparatus. There was a first mortgage of one hundred and forty thousand dollars, for which the sale was made. The building is still used by the various Masonic organizations.

On the 22d of October, 1868, the Odd-Fellows and Freemasons of St. Louis united in laying the foundation-stone of a new hall, to be built by the United Hall Association, at the corner of Benton Street and Broadway. The building (known as Union Hall) was dedicated by the Grand Lodge of Missouri, Oct. 13, 1869, having been erected for the joint use of Masons and Odd-Fellows. It is a three-story structure, stone front; the first story rented for stores and the second for offices, the hall and three ante-rooms

being located in the third story. The dimensions of the hall are: Length, ninety feet; width, forty feet; height, twenty-two feet; and its cost, fifty thousand dollars. The lodges of the Independent Order of Odd-Fellows first using it were the Schiller and the Wingenund Lodges and the Mound City Encampment.

The lodges of Masons which met in it were Beacon, No. 3; Aurora, No. 267; and Bellefontaine Chapter, Royal Arch, No. 25.

The officers and directors of the Union Hall Association, which erected the building, were Joseph W. Branch, president; George H. Rice, vice-president; John Balmann, secretary; Directors, John H. Marquard, Philip Stremmel, W. K. Patrick, John Colonus, H. W. Coppleman, and Frank Wilmyer.

Independent Order of Odd-Fellows.—The first lodge of the Independent Order of Odd-Fellows in St. Louis was established on the 3d of June, 1835, under a warrant granted by the Grand Lodge of the United States at its session held in Baltimore in September, 1834. There were seven petitioners for the warrant, made up from transient brethren of the order then residing in and about St. Louis. One of them was from London, England; two from Louisville, Ky.; three from Pittsburgh, Pa.; and one from Baltimore, Md. By the time the lodge was organized all these petitioners, except the first named, had disappeared and others were substituted. The commission to institute the lodge was committed to Samuel L. Miller,¹ a member of Harmony Lodge, No. 3, of Baltimore, who was about to remove to Alton, Ill.

Considerable delay occurred in finding a sufficient number of members of the order to supply the number of five requisite to constitute the lodge. This was not effected until June 3, 1835, when he instituted the lodge under the name of Traveler's Rest Lodge, No. 1. The original members were Thomas Maxwell, Henry Woolford (afterwards of Louisville, Ky.), William Pickett, John F. Nagle, George B. O'Connor, Matthias Obert, and Joseph Lespie. The place of the first meeting was in a small house situated on the

¹ Samuel L. Miller settled in Madison County, Ill., in 1835, and lived there until his death, July 25, 1879. He became an Odd-Fellow in 1830, joining Harmony Lodge, No. 3, Baltimore, Md., and in 1836 became a charter member of Western Star Lodge, at Alton, Ill. At the time of his death he was doubtless the oldest Odd-Fellow in the West. He instituted the first Odd-Fellow's Lodge west of the Mississippi, and lived to see three hundred and thirty-one lodges in Missouri, and sixteen hundred lodges west of the "Father of Waters," with a membership of eighty thousand, comprising fully one-sixth of all the Odd-Fellows in the world.

north side of Olive Street, between Main and Second. A lodge-room was then fitted up on the east side of Main Street, between Olive and Locust, and in this room the lodge met for the first time on the first Saturday in June. At this meeting eight were added to the membership by initiation, and at the next meeting fourteen were initiated. The first officers of the lodge were Samuel L. Miller, N. G.; Thomas Maxwell, V. G.; B. B. Brown, Sec. and Treas. The place of meeting was changed in 1836 to the hall over the Central Engine House, south side of Chestnut Street, between Third and Fourth. Here the lodge continued to meet for about three years, and then moved to the southwest corner of Main and Olive Streets, over the book-store of J. C. Dinnies & Co.

The first public display of Odd-Fellows in St. Louis took place on the Fourth of July, 1836. After marching through the principal streets of the city in regalia, with emblems and music, the lodge proceeded to the Methodist Episcopal Church on the corner of Fourth Street and Washington Avenue, where an address was delivered by Col. Charles Keemle. An original ode, composed by Lewis T. Thomas, was sung on this occasion, and the celebration closed with a banquet. During the first year of its existence in St. Louis the order had increased to one hundred and fifteen members, and during the second year there was a small increase over this number.

In December, 1836, some of the members of Travelers' Lodge met to petition for a new lodge. John W. Paulding presided, and Charles Keemle, a well-known editor, was secretary. Their petition was signed by J. W. Paulding, Charles Keemle, Henry Lynde Sproat, Thomas S. Tucker, P. T. McSherry, B. B. Brown, W. D. Marrigan, Robert Allen, A. J. Corney, and Charles Soule. The request was granted by the Grand Lodge of 1837. In June, 1838, St. Louis had the honor of a visit from Thomas Wildey, the founder of the order. On June 12th he instituted Wildey Lodge, No. 2, with the following charter members: Charles Keemle, W. D. Marrigan, A. T. Corney, P. T. McSherry, B. B. Brown, Robert Allen, Charles Soule, and Thomas S. Tucker.

The original officers were—

Noble Grand, Robert Cathcart; Vice Grand, Benjamin F. McKinney; Secretary, Robert Breeze; Treasurer, Harris L. Sproat.

Among the early members of the lodge were William Blackburn, afterwards the second Grand Master of the State; William S. Stewart, third Grand Master, and later a prominent member of the Sons of Temperance; and Charles Pickering and Thomas M. Warrall. John Dawson, who subsequently became the

first Grand Master, was book-keeper of both lodges. Within the first year the lodge had fifty-two members.

On June 13, 1838, the Grand Lodge of Missouri, composed of the past officers of the two lodges, was instituted by P. G. Sire Wildey, and the following were the first officers of that body: John Dawson, Grand Master; William Blackburn, Deputy Grand Master; Robert Catchcart, Grand Secretary; Benjamin M. Backensto, Grand Treasurer; William Metcalf, Grand Warden; Nimrod Snyder, Grand Conductor; William S. Stewart, Grand Chaplain.

At the close of the year 1839 the Grand Secretary reported to the Grand Lodge of the United States that during the previous year there had been seventy-five initiations, and that the membership was one hundred and ninety-nine in the two lodges in Missouri.

The room for holding lodge-meetings was in the following year changed to quarters in the buildings on the east side of Main Street, between Vine Street and Washington Avenue. On Nov. 30, 1838, a charter was granted for a degree lodge, and July 26, 1840, a new lodge was chartered in St. Louis,—Germania Lodge, No. 3. On Aug. 29, 1840, the first lodge outside of St. Louis was chartered—Far West Lodge, No. 4—at Boonville. This year closed the first five years of the order in Missouri, and there were four lodges, with a membership of two hundred and sixty-one.

In May, 1841, a charter was asked for St. Louis Lodge, No. 5, but the lodge does not appear to have been organized immediately, for at the Grand Lodge session of June 30, 1841, four lodges were reported in the jurisdiction, namely: No. 1, with seventy-six members; No. 2, sixty-eight; No. 3, fifty-five; No. 4, thirty-two; total, two hundred and thirty-one members.

On the 1st of January, 1841, the Odd-Fellows of St. Louis held a celebration, consisting of a procession and ceremonies at the lodge. The route of the procession was from the lodge-room down Main Street to Elm, up Elm Street to Second, up Second to Market, up Market to Fourth, and up Fourth Street to the Methodist Church, where, after the rendering of an Odd-Fellows' hymn and ode and prayer, an oration was delivered by the Rev. Mr. Maffitt. An anthem was then sung and benediction pronounced, after which the procession returned to the lodge. The officers of the celebration were R. Cathcart, chief marshal; Committee of Arrangements, Benjamin F. McKinney, Louis T. Lebeaume, Jacob Smith, E. H. Shepard, B. M. Backensto, Esrom Owens, Robert Cathcart.

On Dec. 12, 1842, Western Light Lodge, No. 6,

at Weston, was organized, and at this time the six lodges established in Missouri numbered three hundred and twenty-six members.

On April 26, 1843, the city lodges had a public parade in celebration of the anniversary of the founding of the order, and the Rev. J. H. Linn delivered an address.

On the 22d of February, 1843, the Legislature passed an act to charter the Grand Lodge. The list of incorporators embraced the names of Thomas B. Hudson, William S. Stewart, Louis T. Lebeaume, Gerard B. Allen, William H. Remington, Warren C. Corley, Robert Cathcart, W. M. McPherson, B. F. McKinney, William Blackburn, William Childs, and others.

In 1844 four more lodges were instituted in the State, one each at Lexington, Fayette, St. Louis, and Hannibal. In the succeeding year three lodges were organized, one each at Platte City, Weston, and Savannah. The end of this year was the close of the first decade of the order in Missouri. The one lodge had increased to fourteen, and the five original members to six hundred and sixty-six, and the outlook was hopeful and encouraging. In the next ten years there was an increase of seventy-three lodges, making in all eighty-seven lodges, with an aggregate membership of three thousand four hundred and nineteen. The total revenue, exclusive of interest on investments, was \$238,664.01. The amount paid out for relief was \$70,054.30.

On the 28th of April, 1843, the Grand Lodge began to agitate for the building of a new hall in St. Louis, and subscriptions were made by the lodges in the city. On the 28th of July, the same year, the committee was instructed to purchase a lot, forty by eighty feet, on the northwest corner of Fourth and Locust Streets, which was offered at ninety dollars per foot. About the same time Col. John O'Fallon, in order to forward the enterprise, gave the order a valuable lot on Seventh Street. It remained in possession of the Grand Lodge, and a source of considerable income for more than twenty years.¹

It was not, however, until the 10th of May, 1844, that it was deemed prudent to begin the building of the new hall. On that day the building committee advertised for proposals, and in August they were authorized to make a loan of five thousand dollars. The work then progressed rapidly, and on the 26th of April, 1845 (the anniversary of the order), the corner-

stone of the edifice was laid with appropriate ceremonies. There was a grand procession, and the Rev. Mr. Chamberlain, the Presbyterian minister at St. Charles, delivered an address.

The hall was dedicated on the 27th of October, 1846. At nine o'clock the members of the order, in full regalia, assembled in the hall to receive a banner made by Mrs. Anna Maria Evans, and presented by the ladies of Centenary Church. The presentation was made on behalf of the donors by Hon. John Hogan, a well-known citizen of St. Louis, and the banner was received by Dr. John S. Moore. The ceremony having ended, the order, headed by Korpny's Band, moved up Fourth Street in procession to Morgan Street, and thence down Fifth Street to Centenary Church, where the exercises consisted of prayer and reading of the Scriptures by Rev. Mr. Pollock, the singing of an ode composed for the occasion, and an oration by Rev. Charles B. Parsons. Several national airs were then executed by the band, and the benediction was pronounced. After leaving the church the procession passed down Fifth Street to Myrtle, thence to Fourth Street, and up Fourth Street to the hall, where, in the presence of the members of the Grand Lodge, in secret conclave, the ceremonies of the dedication, performed by Elihu H. Shepard, Grand Master, took place. The new hall was situated at the corner of Fourth and Locust Streets, and formed the southern termination of "that fine block of buildings known as Glasgow's row," occupying that side of the square for its entire length. This was the loftiest block in the city at the time, and "the new temple," we are told, "towering as it does above the roofs of the adjoining structures, presents a prominent object in approaching the city, alike imposing and ornamental." The dimensions of the building were forty feet front on Fourth Street by eighty feet on Locust, and the extreme altitude from the pavement to the peak of the pediment was eighty-five feet. The order of architecture of the external edifice was Corinthian from the Temple of Tivoli, at Rome. The basement of the superstructure was about fifteen feet in height, and was constituted in front of stone-work neatly ornamented. The hall proper was two stories high, the walls strengthened by pilasters and ornamented with raised paneling in masonry, and the whole surmounted by a lofty attic rising above a heavy cornice. The window ledges and caps were of stone neatly sculptured, and the façade presented four pilasters ornamented with raised panels and surmounted by appropriate entablatures. In the centre, upon a stone tablet, was sculptured "Odd-Fellows' Hall," while upon the right and left on other tablets were inscribed

¹ On the 8th of August, 1843, a charter was granted to Covenant Lodge, No. 7, at Warsaw; and Nov. 15, 1844, Missouri Lodge, No. 11 (the fifth lodge in St. Louis), was chartered.

"Instituted June 13, 1838," and "Incorporated Feb. 2, 1843."

On one of the walls were engraved in gold the words, "We command you to visit the sick, relieve the distressed," and on the other, likewise in gold, was the injunction, "Bury the dead, and educate the orphan."

The basement was leased by S. Rimmer for a confectionery establishment, known as the "Washington Saloon," and the second story was leased for a term of years to Monsieur Korpony, dancing-master, as a ball- and concert-room.

The third story was divided into three apartments, one of which was designed for a library and reading-room for the order, and the other for the meetings of the Grand Lodge of Missouri and the Encampment. In the fourth story was a large hall for the accommodation of the six subordinate lodges in St. Louis, one of which could assemble here each night of the week.

The cost of the building and lot was about nineteen thousand dollars. The erection of the hall was largely due to the energy of Gerard B. Allen, and it required much persistent work to push the project through, for when the agitation commenced there were but four lodges in the city, with only two hundred and sixty-three members, and most of these were poor. The building was a large and convenient one, and was a credit to the order and an ornament to the city. On the 31st of March, 1863, it was injured by fire. The upper portion was burned, and six lodges lost their charters. The damage was so great that the walls were taken down and the present building was erected, entailing a cost of \$33,557.94 for rebuilding and re-furnishing. The new edifice was occupied July 1, 1864.

In recognition of his labors in inaugurating this great work, Mr. Allen, who is still a leading and honored citizen of St. Louis, was in 1845 elected Grand Master, a position he held uninterruptedly for seventeen years.

Later lodges in St. Louis were organized as follows: Excelsior Lodge, No. 18, Sept. 9, 1846; Laclède Lodge, No. 22, May 4, 1847; Washington Lodge, No. 24, in South St. Louis, May 22, 1847; Wingenund Lodge, No. 27, Sept. 29, 1847.

During the fearful visitation of cholera in 1849 the order vindicated its claim to be considered one of the great philanthropic institutions of the city, and its members were foremost in performing the deeds of mercy which the appalling occasion demanded. Many of its members were stricken down, among them the Rev. Alexander Van Court, the gifted pastor of the Central Presbyterian Church, a true Odd-Fellow, and

a gentleman of whom the most fragrant recollections are still cherished.

The Encampment Branch of the order in St. Louis dates from 1838, Wildey Encampment, No. 1, having been organized in that year.

On the 21st of October, 1853, Goethe Lodge, No. 59, of St. Louis, was chartered.

In 1849 the order celebrated at several central points in the State the fortieth anniversary of American Odd-Fellowship. At St. Louis an imposing pageant was presented by the order, and the oration was delivered by Past Grand Representative Hon. Schuyler Colfax, of Indiana.

In 1856 the order in St. Louis purchased a large lot in Bellefontaine Cemetery, some three hundred feet in diameter, for the burial of members of the order who might die in the city while visiting it. This lot is under the supervision of a joint relief committee of the lodges in St. Louis, whose duty it is to attend to the sick brethren from other towns who are taken sick in St. Louis, and bury them should they die.

The order in Missouri continued to prosper with unabated progress until the breaking out of the civil war. At the close of the year 1860 there had been organized one hundred and forty-eight lodges, with a membership of four thousand eight hundred and eighty, being an increase in five years of sixty-one lodges and one thousand four hundred and sixty-one members. In the succeeding four years no progress was made.

Many of the lodges were broken up and the members dispersed. Their lodge-rooms were burnt or were otherwise ruined, or were taken possession of by troops of the contending sides, and their papers were burned or lost. Some idea of the depression which resulted may be obtained from the fact that in 1863 there were only one hundred and thirty-eight initiations in the whole State. At the beginning of 1860 there were one hundred and thirty lodges in Missouri, with four thousand nine hundred and eighteen members; in 1864 there were but sixty-two that made returns, and only seventy-five that were regarded as in existence, with a nominal membership of two thousand six hundred and twenty-three. The war does not appear to have affected the St. Louis lodges to as great an extent. In 1860 there were eighteen lodges in the city and one at Bridgeton, with seventeen hundred and sixty-six members, and in 1864 there was but one less, and the membership was thirteen hundred and sixty-three.

Upon the conclusion of peace the order began to revive and to recover the ground lost during the war.

The Grand Sire, the national head of the order, was Isaac M. Veitch, a resident of St. Louis, and as soon as hostilities had ceased he issued a proclamation inviting the lodges in the troubled districts to put themselves at once into affiliation with the order, and assuring them of a fraternal greeting. The proclamation closed with the "hope that our brotherhood may come forth from the severe ordeal to which it has been subjected unscathed and reinvigorated by its trials, and that its great heart may ever vibrate in unison with the teachings of charity."

The year 1865 completed the third decade of Odd-Fellowship in Missouri. In the period of thirty years of its existence one hundred and forty-eight lodges had been chartered, the initiations footed up to 9955, and the remaining membership was 3915. The total receipts of lodges, not counting interest on investments, was \$468,904.12. The amount paid out for benefits and relief to members was \$101,810.73, and the amount of investments \$88,879.65.

In 1867 was begun an agitation for a new hall, the present building being insufficient for the demands constantly made upon it. There were then in St. Louis nineteen lodges, with 1938 members. In 1871 a Grand Lodge committee reported having bought a lot at the southwest corner of Ninth and Olive Streets, fronting one hundred and twenty-seven and a half feet on Olive and eighty-six and two-thirds feet on Ninth. It was proposed to build thereon a splendid Odd-Fellows' Temple, but for various reasons the idea has not been carried out, although it is still the purpose to do so at some future time. Most of the stock for the enterprise has been taken. It is held by lodges No. 1, 2, 3, 5, 11, and 18, and Wildey Encampment, No. 1.

In 1868 the lodges in St. Louis established an Odd-Fellows' Library, which was endowed in 1871 by the Grand Lodge, which appropriated three hundred dollars yearly, and assessed each member fifty cents a year and each person initiated the same amount. The yearly revenues of the library are now nine hundred and seventy-seven dollars. There are three thousand three hundred and fifty-five books on the shelves, and the institution is governed by representatives from the several St. Louis lodges. The library officers for the current year are: Chairman, M. C. Libby; Secretary, M. Hoffman; Treasurer, J. H. Crane; Librarian, J. J. Archer.

This library is well patronized by Odd-Fellows, Daughters of Rebekah, and their families, and is one of the most useful institutions of the kind in the city.

On the 4th of October, 1869, Union Hall, corner of Broadway and Benton Streets, was dedicated with

the usual ceremonies by the Odd-Fellows of St. Louis. After the rendering of several musical selections and the singing of hymns, an oration was delivered by Charles G. Manro, P. G. M., followed by an oration in German by C. Evers, D.D., G. M., and the presentation of a banner by the Rebekah Society of Schiller Lodge.¹

The celebration of the Semi-Centennial of American Odd-Fellowship was very generally observed throughout Missouri on the 26th of April, 1869. At St. Louis the celebration was worthy of the occasion. Six lodges and encampments joined in the procession, composed of three thousand five hundred members in regalia. The city presented a holiday aspect, as the result of the mayor's proclamation suspending business. The exercises were at Jackson Place Rink, and the address was delivered by Hon. William Wallace, of Indiana. A large social gathering of the order and their families took place at the Southern Hotel in the evening.

The following table will show (in addition to other important particulars) the amounts expended for relief in 1881-82:

NAME AND NUMBER.	Relief Paid.	Money in Treasury.	Investments.	Membership.
Travelers' Rest, No. 1.....	\$535.00	\$224.63	\$9,199.99	80
Wildey, No. 2.....	266.00	24,631.29	77

* Instituted in 1881.

This does not, however, embrace all the relief afforded, for in St. Louis the various lodges are required to contribute to the maintenance of a board of relief, which cares for the wants of indigent Odd-Fellows, and yearly disburses a considerable sum.

¹ The Odd-Fellows' Hall at Elleardsville was dedicated Jan. 7, 1875.

As previously stated, the order owns a handsome lot in Bellefontaine cemetery, where homeless and friendless Odd-Fellows are buried. In May, 1881, the lodges in Carondelet (South St. Louis) dedicated a beautiful "Odd-Fellows' Cemetery," which is managed by the South St. Louis Odd-Fellows' Cemetery Association. But the glory of Odd-Fellowship is in its care for the suffering living, and in this respect the Odd-Fellows of St. Louis have not been behind any in the land.

The Odd-Fellows of Missouri have also been prompt to respond liberally to appeals for aid from abroad. In 1871 occurred the memorable conflagration in Chicago, Ill., and the order in Missouri evinced their ready liberality by substantial aid to the sufferers in large contributions of money. In 1874 the city of Memphis, Tenn., was devastated by the yellow fever, and in response to the appeal of the Grand Master of Missouri the lodges in the State contributed several thousand dollars for the relief of that city.

The lodges in St. Louis have been remarkably vigorous; not a single one that has ever been organized has been obliged to disband, and there is, it is thought, but one instance where a suspension has ever taken place, and that was but temporary.

During the forty-seven years of the order in Missouri there have been organized 426 lodges, with a present membership of 15,200. The initiations were 48,413; lodge revenue, \$2,066,136.38; number of brothers relieved, 21,654; number of widowed families relieved, 6183; total amount of relief paid, \$173,030.10.

In January, 1881, the lodges in the jurisdiction received a new impetus through the new ritual, new work, etc., which involved a reduction of degrees, and since then the order in this jurisdiction has greatly flourished. There are 351 lodges in Missouri, with a revenue in 1881-82 of \$104,135.65, and \$67,315.82 in the treasury, and \$368,859.10 in investments. During the year \$44,537.15 was paid in the relief of families, sick benefits, education of orphans, and burial of the dead. The present grand officers (1882-83) are—

M. W. G. M., T. B. Gannaway, Paris; R. W. Dep. G. M., C. D. Lucas, Kansas City; R. W. G. W., Henry Cadle, Princeton; R. W. G. Sec., E. M. Sloan, St. Louis; R. W. G. Treas., W. H. Thompson, St. Louis; R. W. G. Rep., James A. Price, Weston; R. W. G. Rep., W. H. Woodward, St. Louis; W. G. Chap., Rev. H. J. La Tour, Rockport; W. G. Marshal, J. T. Johnston, Clarkton; W. G. C., A. A. Wheeler, Miami; W. G. G., W. J. Missemer, St. Joseph; W. G. II., Charles Mulford, St. Louis; G. Lee., George C. Brown, Paris.

The subordinate lodges of St. Louis, with the list of officers of each, for 1881-82 were—

Traveler's Rest, No. 1.—A. G. Lawrence, N. G.; Guido D'Oench, V. G.; Samuel Hemingway, Sec.; William Bryan, Per. Sec.; W. P. Gettys, Treas.

Willey, No. 2.—C. W. Fitch, N. G.; Lewis C. Lane, V. G.; Charles E. Branson, Sec.; Charles Mulford, Per. Sec.; B. Van Blarcom, Treas.

Germany, No. 3.—D. Hasekamp, N. G.; W. H. Henselmeyer, V. G.; F. Rose, Sec.; W. H. Sabbath, Per. Sec.; B. Rohde, Treas.

St. Louis, No. 5.—H. A. Barmeier, N. G.; J. J. W. Thursby, V. G.; Thomas W. Curley, Sec.; John R. Williams, Per. Sec.; William B. May, Treas.

Missouri, No. 11.—S. D. Conway, N. G.; Frank H. Meiser, V. G.; John Yerkes, Sec.; W. A. Hequembourg, Per. Sec.; Samuel R. Fairchild, Treas.

Excelsior, No. 18.—George W. Baumhogg, N. G.; William Bauer, V. G.; Robert L. Little, Sec.; Paul H. Bierman, Per. Sec.; David W. Sadler, Treas.

Laclede, No. 22.—Thomas H. Woody, N. G.; Cyrus Hall, V. G.; Conrad Farner, Sec.; P. C. Egan, Per. Sec.; J. A. J. Arnold, Treas.

Washington, No. 24.—M. E. Williamson, N. G.; Henry Walther, V. G.; John Nolde, Sec.; Otto Kung, Per. Sec.; John Deiningger, Treas.

Wingenund, No. 27.—Frederick Packard, N. G.; Alexander Gillespie, V. G.; Thomas M. Grayson, Sec.; J. D. Shields, Per. Sec.; J. M. Bixler, Treas.

Goethe, No. 59.—Frederich Herkert, N. G.; Edward Kaub, V. G.; Henry Norris, Sec.; Franz Krein, Treas.

Bellefontaine, No. 73.—J. T. Bagot, N. G.; George H. Ellis, V. G.; Joseph Simpson, Sec.; E. F. Smith, Per. Sec.; George Platt, Treas.

Schiller, No. 89.—John Stegmann, N. G.; Jacob Goeres, V. G.; William Friedrichs, Sec.; John Colonius, Per. Sec.; Justus Teuteberg, Treas.

De Soto, No. 90.—Paul Ertelt, N. G.; Adam Heinselmann, V. G.; J. L. Botticher, Sec.; Fred. Kramm, Per. Sec.; John Devoto, Treas.

Carondelet, No. 114.—David Hughes, N. G.; Alexander McKay, V. G.; John Gausmann, Sec.; Matthew Leen, Per. Sec.; W. S. Patriek, Treas.

Jefferson, No. 119.—Charles Meyer, N. G.; Fred. Bieger, V. G.; Emil Simon, Sec.; J. W. Linhardt, Per. Sec.; George Vogler, Treas.

Concordia, No. 128.—Max Brunjes, N. G.; Henry Engelking, V. G.; J. Herold, Sec.; Gustav Kunsemuller, Per. Sec.; John Olferrmann, Treas.

Pride of the West, No. 138.—George Bobb, N. G.; August Krackauer, V. G.; William Seimens, Sec.; E. W. Evert, Per. Sec.; Fridolin Spraul, Treas.

Home, No. 158.—M. Keating, N. G.; W. M. Smith, V. G.; Benjamin Hurl, Sec.; James P. McKay, Per. Sec.; J. Ruppenthal, Treas.

Cosmos, No. 196.—J. J. Ehrhardt, N. G.; F. M. Easterday, V. G.; Richard Jones, Sec.; J. G. R. Wintermann, Per. Sec.; M. Hoffmann, Treas.

Benton, No. 275.—Herman Hover, N. G.; Louis Ost, V. G.; C. C. Goedde, Sec.; Nicholas Berg, Per. Sec.; Charles Reinhardt, Treas.

Mound City, No. 276.—Edwin S. Pike, N. G.; J. T. Even, V. G.; F. A. Kelber, Sec.; William C. McCormack, Per. Sec.; Charles E. Wulfert, Treas.

Summit, No. 277.—Robert Vernell, N. G.; Joseph Heine, V. G.; W. K. Hoffman, Sec.; Thomas Moore, Per. Sec.; Christopher Ehlen, Treas.

Anchor, No. 322.—John Reed, N. G.; John F. Pierson, V. G.;

Philip Schnurr, Sec.; J. W. Chapman, Per. Sec.; Alexander Kilpatrick, Treas.

Arcadian, No. 332.—John Green, N. G.; Henry Bréemer, V. G.; John T. Boles, Sec.; John T. Bell, Per. Sec.; George W. Otto, Treas.

Harmonie, No. 353.—John Schmid, N. G.; U. Harder, V. G.; F. J. Wimmer, Sec.; F. C. Wolpert, Per. Sec.; J. C. Schulte, Treas.

Templar, No. 388.—F. W. Doering, N. G.; C. C. Fouke, V. G.; W. J. Metzgar, Sec.; Charles Becke, Per. Sec.; J. J. Krehor, Treas.

There are also in St. Louis four degree lodges of the Daughters of Rebekah,—Naomi, No. 2, eighty-one members; Faith, No. 29 (South St. Louis); Lily of the West, No. 32, thirty-one members; Martha Washington, No. 45, eighty-six members. There are twenty-six Rebekah Lodges in the State, with one hundred and eighty-eight members. This feature of the order has not prospered in this jurisdiction as in others, and the Grand Lodge of 1882 directed that no more lodges of the kind be authorized.

There are also in St. Louis six encampments, a branch of the order quite independent of the Grand Lodge, and established for the conferring of the "Sublime Degrees." These are as follows:

Name and Number.	Membership.
Willey, No. 1.....	108
St. Louis, No. 13.....	32
Washington, No. 18.....	58
Mound City, No. 19.....	65
Missouri, No. 59.....	27
Carondelet, No. 64.....	38
Total.....	328

The first encampment (Willey, No. 1, of St. Louis) was instituted, as heretofore stated, by Mr. Willey, in June, 1838; the second (Frontier Encampment, at Weston) in 1844. In 1845 a Grand Encampment was authorized, and the same was instituted Feb. 25, 1846. There are seventy-seven encampments in Missouri, with nineteen hundred and thirty-nine contributing members.

The headquarters of the Grand Encampment are in St. Louis, and the officers are—

M. W. G. P., G. D. Gray, Glenwood; M. E. G. P., Lewis L. Allen, Peirce City; R. W. G. S. W., A. J. Blackford, Clinton; R. W. G. S., C. C. Archer, St. Louis; R. W. G. Treas., M. C. Libby, St. Louis; R. W. G. J. W., H. H. Noland, Independence; R. W. G. Rep., J. C. Herms, Neosho; R. W. G. Rep., D. A. Shepherd, Brookfield; W. G. M., D. A. Smith, Carthage; W. G. I. S., John H. Biggs, Canton; W. G. O. S., Charles A. Link, St. Louis.

The Odd-Fellows' Mutual Aid Association of Missouri is an institution organized under the laws of the State, to afford members of the order safe and cheap insurance. It has about two thousand five hundred members.

Colored Odd-Fellows.—There is also extant in St. Louis an order of colored Odd-Fellows, with several lodges.

Independent Order of Good Fellows is a German beneficiary society, whose origin is involved in doubt, and which is supposed to have taken root in St. Louis in 1852. There are ten lodges in the city.

The Maccabees.—This order originated in London, Ontario, several years ago, and had several flourishing tents in St. Louis. Dissensions in the order caused a falling off, and now there are but one or two tents in the city.

The Iron Hall, a beneficiary secret order, originated in Indianapolis in April, 1881. There are several branches in St. Louis.

The Ancient Order of Druids originated in London, England, in 1771, and was introduced in this country by Thomas Wildey, the father of American Odd-Fellowship. The first grove in the West was organized at St. Louis, Sept. 11, 1848, by William Gebhardt, who had been a member in New York. It was called "Missouri Grove, No. 1," and the charter members were William Gebhardt, Philip Censor, Jacob Kothengatter, K. Pfennig, and Ch. Lohmann. This grove is still alive and vigorous. Among its earliest members, and probably the only one now living, was Philip Stremmel, then a leading German, and since prominent in public affairs. On the 9th of April, 1849, Herr Stremmel and a few others instituted "Teutonia Grove, No. 2." The objects of the order were of a social and benevolent character.

The next grove to organize was "United Brothers Grove, No. 3," and Aug. 17, 1850, delegates from these three groves assembled and instituted the Grand Grove of Missouri.

The order grew slowly. It met with much opposition, chiefly because, being secret, its objects were not understood. Some writer in the *Herald des Glaubens* attacked the order, and provoked a vigorous reply in a paper published at Belleville, Ill. The groves were in the habit of appearing in regalia and burying their dead members. Such a proceeding had never been known in St. Louis before, and caused considerable comment. Finally the opposition ceased, and the progress of the order was more rapid and satisfactory. In 1855 it was strong enough to undertake the erection of a hall. Stock was subscribed by the respective groves, and much interest was manifested. At a meeting held on the 15th of April, 1857, the Druids' Hall Association was organized, and on the 4th of May following the first election of directors was held at the hall corner of Second and Spruce Streets. On May 11th the board of directors elected

the following officers: John Keil, president; Louis Frey, vice-president; Frederick Spies, secretary; H. H. Freese, treasurer. On the 11th of June the shareholders voted to purchase from John Simonds the lot on the southeast corner of Ninth and Market Streets for twenty-one thousand dollars, and the purchase was ratified on the 1st of July, 1857. On the 29th of January, 1858, it was decided to erect a three-story building, to be used as a meeting hall for the different groves, and work was accordingly commenced, and the structure finished.

On the 5th of December, 1875, the board of directors resolved to build a new hall, the cost of which should not exceed fifty thousand dollars. The cornerstone of this structure was laid on the 17th of September, 1876. The officers of the association at the time were Henry Ziegenheim, president; E. H. Kortkamp, vice-president; Nicholas Berg, secretary; William Hahn, treasurer. The building committee consisted of Aug. Bohn, H. Heitman, and Hermann Holzgrebe. Louis Kledus was the architect and superintendent.

The building was completed and dedicated Dec. 16, 1877. It has a front of forty-three and one-half feet on Market, and one hundred and forty and one-half feet on Ninth Street, and is a stately structure of brick, four stories high, costing sixty thousand dollars, a splendid monument to the enterprise of the Druids of St. Louis.

Up to the commencement of the war the order continued to prosper, its membership being at one time two thousand three hundred; but the war scattered the members, and many of them fought and died in that conflict. Since the war the progress has been steady, but the former prosperity has not as yet returned. At present there are in existence the following groves:

Name and Number.	Members.
Missouri, No. 1.....	48
Teutonia, No. 2.....	78
United Brothers, No. 3.....	74
George Washington, No. 6.....	36
Western, No. 7.....	49
St. Louis, No. 8.....	51
Laclede, No. 9.....	71
Franklin, No. 10.....	82
Excelsior, No. 11.....	70
Concordia, No. 12.....	38
De Soto, No. 14.....	44
Jackson, No. 15.....	127
Jefferson, No. 17.....	58
Union, No. 20.....	62
Schiller, No. 24.....	49
Lincoln, No. 26.....	44
Walhalla, No. 28.....	107
Oak, No. 30.....	53
Lessing, No. 31.....	43
Canton, No. 36.....	23
South St. Joseph, No. 37.....	29
Total.....	1236

The present officers of the Grand Grove are—

N. G. A., Henry Duve, St. Joseph; D. G. A., P. Schaffmitt, St. Louis; G. S., Henry Grupe, St. Louis; G. T., H. Ziegenheim, St. Louis; G. G., J. Rueger, St. Louis; G. M., H. Koelbeck, St. Louis; G. II., J. W. Wirth, Kansas City.

The present officers of Druids' Hall Association are—

President, E. F. Rethwilen; Vice-President, H. Ruppelt; Secretary, Henry Grupe; Treasurer, W. Hahn.

During the past year the order relieved one hundred and ninety-seven sick members, and paid them \$4992.70 in benefits. During the same period \$19,993.10 was paid to widows and orphans of deceased members. The groves have a capital of \$37,626.50, besides owning Druids' Hall, which cost \$60,000.

Knights of Pythias.—This order was established at Washington, D. C., in 1864. The first lodge in Missouri was instituted at Kansas City, May 5, 1870. The second was instituted at St. Louis May 7, 1870, by I. Q. Cross, P. C., and the charter members were J. Sare, R. S. Wallington, R. C. Silence, Joseph Schiller, Casper Brenner, John H. Weder, Samuel J. Ruoff, C. B. Vail, and Patrick Maher. The Grand Lodge of Missouri was instituted at St. Louis, July 7, 1871, seven lodges participating. Samuel Reed, Supreme Chancellor, was the instituting officer. W. H. H. Russell, a prominent lawyer of St. Louis, was elected Grand Chancellor. There are now fifty-four lodges in Missouri, with about three thousand four hundred members. The lodges in St. Louis are as follows:

Name and Number.	When Instituted.	Members.
Missouri, No. 2.....	May 7, 1870.....	62
Germania, No. 6.....	March 10, 1871.....	113
St. Louis, No. 7.....	April 7, 1871.....	30
Crescent, No. 10.....	Oct. 19, 1871.....	30
Lincoln, No. 18.....	Feb. 9, 1872.....	39
Excelsior, No. 19.....	April 5, 1872.....	77
Pride of the West, No. 24.....	June 29, 1872.....	49
Damon, No. 28.....	Oct. 28, 1872.....	148

Monitor, No. 68.....	Jan. 31, 1882.....	43
Chevalier, No. 70.....	Feb. 24, 1882.....	52
Total.....		1071

This order has "endowment sections," paying death benefits of one thousand, two thousand, and three thousand dollars; and "uniform divisions," in which members enjoy the advantage of a rigid military drill. The present Grand Lodge officers are—

G. C., R. H. Maybury, Kansas City; G. V. C., W. A. Radcliffe, Sedalia; G. P., Rev. John Gierlow, St. Louis; G. K. of R., T. R. Gelwicks, St. Louis; G. M. of E., Adam Theis, Hannibal; Supreme Representatives, R. E. Cowan, Judge John A. Lacey.

Colored Knights of Pythias.—The first lodge of Knights of Pythias (colored) was organized in 1880, and the second in 1881. The membership of the two is about one hundred. There is but one other lodge in Missouri, at Kansas City; and there is no State Grand Lodge. The Supreme Lodge is represented by W. T. Mumford, Deputy Supreme Chancellor Commanding.

The Ancient Order of United Workmen, a secret beneficial organization, which pays two thousand dollars on the death of members, collected on the "co-operative" or "mutual assessment" plan of one dollar from each member, as may be needed, originated in Pennsylvania in 1868, and quite early found a foothold in St. Louis, the first lodge (St. Louis Lodge, No. 1) having been organized May 12, 1875, by R. L. Miller. Within the next year five more lodges were started in the city, and April 25, 1876, the "Grand Lodge of Missouri" was organized by R. L. Miller, D.D., S. M. W., six lodges participating. The first officers of the Grand Lodge were—

P. G. M. W., R. L. Miller; G. M. W., Hermann Kramer; G. G. F., E. Roband; G. O., William Brenneke; G. G., J. O. Hubler; G. R., William C. Richardson; G. Rec., E. F. Schreiner; G. W., R. L. Mueller; Trustees, C. W. Thiel, William Von Ahnen, F. Krage.

The object of the order is partly beneficiary and partly educational, and for the latter purpose the infant Grand Lodge proceeded to raise funds for establishing a library by enacting that one-tenth of its gross receipts should yearly be set aside for that object, and that each subordinate lodge should annually be assessed one dollar for every member for the same end. This project was ultimately abandoned, and the order confined itself chiefly to its benevolent aims and attained a great popularity, there being now in the Missouri jurisdiction about two hundred and forty-five lodges, with seven thousand nine hundred and ten members.

In August, 1878, the Missouri lodges, having attained a membership exceeding two thousand, were accorded "separate jurisdiction;" and in October, 1878, the Grand Lodge was legally chartered, the incorporators being Dr. William C. Richardson, A. Willhartitz, and William Brenneke. In order to afford members of the order insurance to an amount exceeding two thousand dollars, the Grand Legion of Select Knights, an endowment rank, was in March, 1880, organized; it allows three thousand dollars additional insurance, and there are twenty-four legions and about seven hundred and fifty members in this jurisdiction. Since the order was established in Missouri it has had two hundred and eight deaths, and

has disbursed four hundred and sixteen thousand dollars to the widows and children of deceased members, at an average yearly cost of fifteen dollars and fifty cents per two thousand dollars insurance.

The present officers of the Grand Lodge of Missouri are—

G. M. W., H. L. Rogers, St. Louis; G. F., D. H. Shields, Hannibal; G. O., W. D. Crandall, Brookfield; G. Recorder, W. C. Richardson, St. Louis; G. Receiver, John D. Vincil, St. Louis; G. G., S. A. Underwood, Joplin; G. W., W. C. Smith, Holden; P. G. M. W., J. A. Brooks, Warrensburg; G. Med. Ex., William C. Richardson, M.D., St. Louis; G. L., P. P. Ellis, New Florence, Mo.; Reps. to Supreme Lodge, William C. Richardson, J. A. Brooks, H. L. Rogers.

The following table gives a list of the lodges in St. Louis City and County, with date of institution, etc.:

Name and Number.	When Instituted.	Membershp.
St. Louis, No. 1	May 12, 1875	83
Germania, No. 2	July, 1875	73
United, No. 3	October, 1875	89
Missouri, No. 4	March, 1876	72
Enterprise, No. 5	March, 1876	97
Washington, No. 6	March, 1876	70
Franklin, No. 8	May 15, 1876	47
Schiller, No. 9	August, 1876	73
American, No. 10	Oct. 15, 1876	46
Chouteau Valley, No. 11	Jan. 26, 1877	58
Concordia, No. 13	March 12, 1877	65
Jefferson, No. 14	March 9, 1877	203
Welcome, No. 16	March 27, 1877	94
Meta, No. 19	May 27, 1877	60
Union, No. 20	May 25, 1877	58
Security, No. 44	Jan. 18, 1875	87

Knights and Ladies of Honor.—This is a secret benevolent institution to assist the sick and distressed. It was organized at Louisville, Ky., in 1878, originally for the benefit of members of the Knights of Honor and their female relatives, but lately the restriction has been removed, and any persons of "reputable profession, business, or occupation" may be admitted. It pays death benefits ranging from one thousand dollars to three thousand dollars, and is believed to be the first society of its kind to admit female members to insurance on equal terms with men. The first lodge in St. Louis was organized Jan. 21, 1876, by T. W. Seymour, Supreme Deputy. The Grand Lodge of Missouri was instituted in August, 1878, with the following officers, all of St. Louis:

P. G. P., W. H. Haskell; G. P., Thomas R. Dunn; G. V. P., C. M. Riley; G. Sec., Robert Herries; G. Treas., W. H. Haskell; G. Chap., W. A. Halstead; G. G., W. L. Graydon; G. Guard, J. C. Zabriski; G. S., E. J. Williamson; G. Trustees, George Cochran, Edw. C. Winter, F. D. Macbeth; Supreme Representatives, Freeman Wright, C. M. Riley.

The executive Grand Lodge officers are—

G. P., J. M. Thomas, St. Louis; G. Sec., Freeman Wright, St. Louis; G. Treas., Mrs. E. A. Graydon, St. Louis.

Freeman Wright, of St. Louis, is also Supreme Secretary, and Mrs. E. A. Graydon is also Supreme Chaplain.

There are twenty-four lodges in Missouri, with fourteen hundred and ninety-six members. St. Louis has the following:

Improved Order of Red Men.—The order of Red Men is peculiarly an American institution, originating, according to the records of the Great Council of the United States, in 1812, at Fort Mifflin, Pa., on the Delaware. This, however, is denied by Judge George W. Lindsay, of Baltimore, who claims that lodges of the society of Red Men existed in Annapolis, Md., as early as 1771. However this may be, the order ranks among the oldest protective and benevolent societies of the country. The Tammany Society, of Annapolis, Md., which is supposed to be the first society of Red Men, celebrates May 1st as the anniversary of the order. This society had its origin, or was an offshoot of a society known as the "Sons of Liberty," which took active part against the Stamp Act. May 1st was celebrated for many years by the Annapolis Red Men, and on these occasions it was the custom of the members to clothe themselves as children of the forest and perform the "war-dance" and imitate many other Indian customs. On the 20th of May, 1835, the Great Council of the Improved Order of Red Men of Maryland was organized, and in 1847 the Great Council of the United States first met.

The first tribe in Missouri (Minnehaha Tribe) was established in St. Louis about 1858, and Mohawk and Cherokee Tribes were soon after instituted. These seem to have been the only tribes until after the war. Two of them worked in the English tongue and the other in German. There is no record of any new tribes in the city until about 1870, when the existing lodges began to be instituted.

The present officers of the Great Tribe are—

Sachem, Eugene Hirsch, St. Louis; Senior Sagamore, Henry Stratman, St. Louis; Junior Sagamore, Jacob Frank, St. Louis; Prophet, C. A. Brennmehl, St. Louis; Record-Keeper, Joseph Witzel, St. Louis; Wampum-Keeper, Philip Neu, St. Louis.

There are nine tribes of this order in St. Louis, all working in German, and having about four hundred and fifty members. The society is beneficiary, with death and sick benefits.

Independent Order of Red Men.—This society was started by the withdrawal of certain members in Baltimore from the Improved Order of Red Men in 1850. The Grand Tribe of the Independent Order of Red Men was chartered June 11th of that year. At one period the order flourished in St. Louis, and within but a year or two there were perhaps a dozen lodges, but all traces have been lost.

American Legion of Honor.—This is a secret benevolent order, established at Boston, Mass., in 1878, and incorporated in 1879. It embraces a membership ranging from eighteen to sixty-five years, and pays death benefits of five hundred, one thousand, two thousand, three thousand, four thousand, and five thousand dollars. Assessments are graded according to age of candidate upon becoming a member. The order was introduced into St. Louis June 16, 1880, when the first council was instituted by Michael Brooks, of St. Louis, representative of the Supreme Council. On Sept. 19, 1881, the Grand Council of Missouri was instituted with the following charter members: Michael Brooks, Andrew B. Barbee, M.D., Wilbur B. Cook, Thomas S. Hogan, James S. Hannan, Asa B. Ecoff, James J. Dockery, Edward F. Schulz, W. Mardorf, M. Tuhbesing, Charles J. Wendling, John C. Rivers, John M. Collins, and Dr. Edward W. Dewees. The first and present officers of the Grand Council are—

G. C., Michael Brooks, St. Louis; G. V. C., A. B. Barbee, M.D., Tower Grove; G. O., Wilbur B. Cook, St. Louis; G. Sec., Thomas S. Hogan, St. Louis; G. Treas., W. Mardorf, St. Louis; P. G. C., James S. Hannan, St. Louis; Trustees, John M. Collins, St. Louis; J. Walter Bayse, Bowling Green; Charles J. Wendling, St. Louis; Supreme Representative, Michael Brooks, St. Louis; Alternate, J. C. Rivers, St. Louis.

There are fourteen councils in St. Louis, all instituted by Michael Brooks:

Total.....		452

Legion of Honor.—This is a society originating in St. Louis, and, considering its age, one of the most successful on record. It was organized in May, 1879, by John H. Terry, Henry Feuerbach, John W. Barnes, W. A. Edmonds, I. R. Trask, C. M. Whitney, George W. Simpkins, N. G. Pierce, James L. Carlisle, P. H. Cronin, A. S. Barnes, M. N. Burchard, and S. S. Scott, thirteen gentlemen who had been members of an order which had succumbed to bad management and the yellow fever losses of the preceding year. In July, 1879, these gentlemen obtained a charter and organized a Supreme Council, with the following officers :

S. C., John H. Terry; V. C., M. M. Burchard; S. R., James L. Carlisle; S. Treas., N. G. Pierce; S. Chap., P. H. Cronin; S. M. D., Dr. A. S. Barnes; S. O., J. W. Barnes; S. S., H. Feuerbach.

The order was established to provide a death benefit of two thousand dollars, and it was determined, by rigid examinations and closely guarding the admission to membership, to build up an order of high social character. In both respects its success has been beyond all precedent in the history of secret societies. In three years a membership of nearly three thousand has been obtained, embracing the foremost men of the city in every department of trade and every profession. Its roster contains the names of the mayor and most of the leading city officials, the most prominent members of the Merchants' Exchange, leading bankers, judges, lawyers, and clergymen, etc., and the society is composed substantially of all those elements that have made St. Louis what it is, and have given it prominence abroad. It is one of the city's representative institutions, and its reunions and other public entertainments prove that it is popularly so regarded. Its membership and operations are, and probably will be, confined to the city of St. Louis. It is now engaged in raising money for a new hall and Academy of Music, for council rooms and a general headquarters. This building will be situated at the corner of Olive Street and Garrison Avenue, will be

sixty by one hundred and thirty-four feet, four stories high, and rising to an altitude of eighty-five feet. It will cost sixty-five thousand dollars.

The officers of the Supreme Council are—

S. C., C. M. Whitney; S. V. C., Charles E. Slayback; S. R., L. C. Haynes; S. Treas., I. R. Trask; S. M. Ex., R. J. Hill, M. D.; S. Chap., A. F. Harvey; S. G., F. A. Johann; S. O., A. G. Peterson; S. S., John E. Jones.

The following is a list of the Councils, with membership, etc. :

Deutsch Orden Harugari.—The German order Harugari originated in the East about 1846 with some German-Americans, and its object is officially declared to be "to preserve and diffuse the German tongue in the United States, and wherever the order directs, and to afford the German-speaking citizens of the country opportunity to advance their mental and material interests, and to elevate and ennoble their social conditions." This is sought to be accomplished by the fraternity of the lodges. There is a beneficiary department, offering death benefits of \$500, \$1000, and \$2000, also \$200 upon death of the wife of a member, and five dollars per week in case of sickness.

The Grand Lodge of the United States was organized in 1847, but the first lodge in Missouri does not seem to have been organized until some ten years later.

There are now thirty-three subordinate lodges in this jurisdiction, two degree lodges, and one Grand Lodge. The total membership is 2176. In 1881-82 death benefits amounting to \$28,800 were paid, and \$6745.80 in sick benefits. The revenues of the lodges were \$32,428.15, and they had a reserve fund of \$16,020.57. The officers of the Grand Lodge are—

G. B., Wilhelm Weiler, St. Louis; D. G. B., Charles Thomas, Kansas City; G. Auf., Paul Yoschen, St. Louis; G. Sec., Ernst Knickmeyer, St. Louis; G. Treas., Gottfried Guekes, St. Louis; G. Chap., C. Seibert, St. Louis; G. Marshal, P. Gundlack, Jr., St. Louis; G. Rep., Henry Hiemanz, Ernest Knickmeyer; Trustees, Henry Hiemanz, Wilhelm Knickmeyer, Jacob Gruen.

In St. Louis there are twenty-nine lodges, as follows: Germania, No. 70; Hermann, No. 73; Columbus, No. 112; St. Louis, No. 113; Harmony, No. 125; Goethe, No. 158; Concordia, No. 164; Humboldt, No. 170; Teutonia, No. 174; Lincoln, No. 190; Cimbria, No. 204; Walhalla, No. 236; Schiller, No. 240; Allemania, No. 248; Bavaria, No. 261; Eintracht, No. 263; Washington, No. 274; Arndt, No. 311; Barbarossa, No. 331; Fortschritt, No. 341; Deutsche Eiche, No. 366; Hertha, No. 370; Pestalozzi, No. 412; Far West, No. 456; Schiller Degree Lodge, No. 16; Cherusker Degree Lodge, No. 50; Gutenberg Mannie, No. 32; Robert Blum Mannie, No. 49.

Seven Wise Men is the name of a secret benevolent order which originated in New Orleans about 1852, and was established in St. Louis in 1853 or 1854 by Henry Bishop, who had been a member in the former city. Several conclaves were instituted, and in 1859 the Grand Lodge was organized. At one time there were from five hundred to one thousand members in St. Louis. During the war the membership greatly diminished, and communication with New Orleans being cut off, the Northern conclaves declared their independence, and have since refused allegiance to the Southern fountain head. The present membership is mainly in New York, Pennsylvania, etc., and is estimated at about ten thousand. There are three conclaves in St. Louis, the only ones in Missouri:

Name and Number.	Membership.
St. Louis, No. 74.....	75
George Washington, No. 48.....	50
Harmonic, No. 51.....	45
Total.....	170

The present officers of the Grand Conclave of Missouri are—

G. M., Edward Holtz; G. C., Joseph Kolb; G. P., August Warnecke; G. Sec., Henry Koch; G. Treas., John H. Koch; G. H., Fred. Mence; G. G., Charles Taake.

The order pays a sick benefit of from three to five dollars per week, and a death benefit of five hundred dollars.

Ancient Order of Foresters.—This order originated in England in 1745, and is established in most English-speaking parts of the world. Its object is the protection and assistance of its members in sickness and distress, the burial of members and their wives, and the payment of five hundred dollars or one thousand dollars to the surviving families of deceased members. Benefits are collected on the "mutual assessment" plan. It has been established in America some thirty years, and was introduced into St. Louis

in 1875, when the first court was organized by John Waters, of St. Louis, who represented the Sub-High Court of the United States. Among the early promoters of the order were Gardner Hepburn, Robert Herries, J. J. Gower, Dr. Hamilton, and others. In 1877 the District Court, comprising Missouri, Kansas, and a portion of Illinois, was organized, with headquarters in St. Louis. The district officers are—

D. C. R., Gardner Hepburn, St. Louis; Sub. D. C. R., A. M. Osborn, St. Louis; D. C. Sec., T. I. Rankin, St. Louis; D. C. Treas., J. M. Parks, St. Louis.

There are thirteen courts in this jurisdiction, ten of them in St. Louis, as follows:

Court and Number.	Membership.
Pioneer of the West, No. 5925.....	138
Missouri, No. 6179.....	68
St. Louis, No. 6204.....	124

Benton, No. 6456.....	96
Future Great, No. 6461.....	58
Diana, 6801.....	62
Total.....	836

The Sons of Herman is a secret society composed exclusively of Germans, which was established in New York in 1840. Its object is social and beneficial, and to afford German-speaking people in the United States assistance in advancing their material and moral interests. The first lodge in St. Louis was not instituted until 1867, and the charter members were Alexander Bergfeld, Hermann Huss, L. Kusehagen, Heinrich Wiecek, and A. M. Beck.

The Grand Lodge of Missouri was founded Feb. 28, 1868, with the following officers from the three St. Louis lodges then existing: Grand President, A. Bergfeld; Grand Vice-President, H. W. Lindemann; Grand Secretary, W. H. Mueller; Grand Treasurer, F. Zoll; Grand Guide, Hermann Huss; Grand Sentinel, Louis Kusehagen.

The present Grand Lodge officers are as follows: Matthew Buehler, Grand President; Henry Alewei, Grand Vice-President; Louis Schafer, Grand Treasurer; F. Diekroeger, Grand Secretary; C. H. Offer, G. Con.; John Meir, G. I. T.; Chris. Thiemers, G. O. T.; John Kreh, Phil. Bamberger, and H. H. Schwartze, Grand Trustees.

The order pays sick benefits, and seven hundred dollars death benefits. There are twenty-two lodges in Missouri, with fourteen hundred and thirteen members. The receipts of the Grand Lodge (as per report of 1882) were \$13,109.99; \$19,210 was paid in death benefits, and \$4965 for sick benefits. The Grand Lodge has a reserve fund of \$8489.15.

The St. Louis lodges are as follows:

Order of Mutual Protection.—This is a secret society which originated in St. Louis, and was incorporated Dec. 16, 1878, by Theo. H. Thomas, Frank D. Macbeth, George W. Hall, W. A. Edmonds, and J. M. Thomas. Its object is to provide for insurance in sums of one thousand, two thousand, three thousand, and four thousand dollars, collectable by assessment. It has now about fifteen hundred members in good standing in Missouri, Kansas, Iowa, Illinois, and Pennsylvania. The present supreme officers are—

Supreme President, Dr. O. A. Wall, St. Louis; Supreme Vice-President, J. H. Cook, Ottawa, Kan.; Supreme Secretary, G. L. Kennedy, St. Louis; Supreme Treasurer, R. A. Long, Holden, Mo.; Supreme Medical Examiner, Dr. T. E. Holland, St. Louis; Supreme Supervisors, Freeman Wright, St. Louis; W. A. Brawner, St. Louis; Asa Maddox, Kansas City.

The St. Louis lodges are as follows:

Name and Number.	Membership.
Missouri, No. 2.....	31
St. Louis, No. 3.....	63
Concordia, No. 4.....	49
Lyon, No. 5.....	52

Total.....	699

Knights of Labor.—This is a secret colored social organization, whose origin dates from 1855 at Galena, Ill. It has recently been reorganized so as to embrace a death benefit of two thousand dollars. The membership is mainly in Missouri and the neighboring Southern States. There are nearly eighty tem-

ples and tabernacles in Missouri, and the aggregate membership in the one hundred and eight temples and one hundred and twenty-six tabernacles under the supreme supervision is about seven thousand. The head of the order is Rev. Moses Dickson, Chief Grand Mentor, at Higginsville, Mo. Both sexes are admitted, the men as Knights of Labor, associated in temples, and the women as Daughters of the Tabernacle, meeting in tabernacles. The first temple in St. Louis was established in 1878, and the first tabernacle in May, 1878. There are eight temples and seventeen tabernacles in the city, with a membership of two thousand five hundred. This is the most popular colored society in the city.

The Independent Order Free Sons of Israel is a secret beneficiary organization which originated in New York about 1853. Membership is exclusively confined to Hebrews. The order pays one thousand dollars to the heirs of deceased members, and such sick and funeral benefits are paid as individual lodges may determine.

The order flourished mainly in the East until after the war. The first society in St. Louis was established in 1872. There are four lodges in St. Louis, embracing the most prominent and progressive Hebrews of the city. There is also a ladies' lodge, differing from the male lodges in paying no death benefits. The lodges in St. Louis are as follows:

Name and Number.	When Instituted.	Member-ship.
Progress, No. 53.....	Sept. 6, 1872.....	120
Judah Tomo, No. 4.....	April 15, 1873.....	75
George Washington, No. 82.....	Jan. 14, 1877.....	37
Pride of the West, No. 96.....	Dec. 14, 1881.....	26
Total.....	253

The ladies' lodge, *Fortschritts Tochter*, or "Daughters of Progress," was instituted April 27, 1873, and has twenty-six members. The only other lodge of this character in the West is at Chicago.

The lodges in Missouri belong to Grand Lodge District No. 2, embracing Indiana and the States west and north. The District Grand Lodge was instituted Oct. 8, 1876, and the present Grand Lodge officers are—

G. M., Philip Stein, Chicago; Dep. G. M., William Katzenstein, Milwaukee; Dep. Treas., Israel Von Baalen, Chicago; Dep. Sec., William Deutsch, St. Louis; Dep. W., Morris Levy, Chicago; Dep. Tyler, George Jacoby, Minneapolis.

In the interim between the Grand Lodge sessions the order is governed by a general committee, composed of Anthony Lichtenhein and Louis J. Lippett, of St. Louis, and Simon Greenebaum, Morris Oesterreicher, and Hermann Goldsmith, of Chicago. There are about eleven hundred members in this district, and nearly ten thousand members in all.

Knights of the Golden Rule.—This is a secret beneficiary order which originated at Louisville, Ky., in 1879, and was incorporated in that State August 16th of that year, and in St. Louis November 18th of the same year. There were then two castles in St. Louis. It provides insurance ranging from five hundred dollars to six thousand five hundred dollars; and there is also a "Degree of Ruth" for ladies, with an endowment of two thousand dollars. There are seven castles in Missouri, with about three hundred and seventy members. The St. Louis castles are—

Name and Number.	When Instituted.	Members- ship.
Washington, No. 4.....	Aug. 26, 1879.....	95
Excaliber, No. 7.....	Aug. 29, 1879.....	93
St. Louis, No. 117.....	March 16, 1881.....	81
Yeteve, No. 200.....	Jan. 20, 1882.....	29
Total.....		298

The entire membership of the order is about eight thousand in twenty-five different States. There is no Grand Lodge in Missouri, but the functions of such a body are performed by William C. Strector, of St. Louis, Grand Commander. Sir Knight Frank D. Macbeth, of St. Louis, is the Supreme Secretary of the order, and Dr. E. J. Williamson, also of St. Louis, is one of the Supreme Trustees. The membership in St. Louis embraces some of the leading men of the city.

The Benevolent and Protective Order of Elks was established in New York City, Feb. 16, 1868, by a number of members of the theatrical profession, who modeled it after the analogous order of Buffaloes in England. There had been a social club previous to this known as the "Jolly Corks," and from them the nucleus of the order of the Elks was obtained. The main object of the Elks was the cultivation of sociability among its members, but in about six months the feature of benevolence was introduced, and has since been carried to a high degree of perfection. Sick and death benefits are paid, and traveling members who are in distress are relieved. It was originally confined to members of the theatrical and kindred professions, but subsequently was enlarged to admit members of any profession.

On March 10, 1871, the Legislature of New York granted a charter for a Grand Lodge, and subsequently the order spread rapidly throughout the country, and one or more lodges was established in every city of prominence. St. Louis Lodge, No. 9, was founded in June, 1878, and has been one of the most successful and progressive lodges in the order. On the 5th of December, 1878, it was chartered. Its first meetings were held at the Olympic Theatre; subsequently the sessions were held at Druids' Hall, and

on Sept. 25, 1881, the lodge occupied its present beautiful quarters, "Elks' Hall," in the People's Theatre building. The first presiding officer (Exalted Ruler) was Thomas E. Garrett, the dramatic editor of the *Republican*, who served for two terms; then Joseph A. Robertson served one term, and John W. Norton is serving his second term.

The St. Louis representative of the order in the Grand Lodge is Thomas E. Garrett, who enjoys the honor of having been elected the first Exalted Grand Ruler of that body after it became a delegated body. He was elected in December, 1880, and was re-elected in December, 1881.

The charity fund of the order is recruited by annual benefits and balls, which are given under the auspices of the prominent members of the theatrical profession. Among the actors who are or have been members may be mentioned John McCullough, Lawrence Barrett, T. W. Keene, Nat Goodwin, the late Charles R. Thorne, Jr., James O'Neil, and Baker and Farron, besides a host of others who are known throughout the country.

The career of the order has been one of unprecedented success, a success almost entirely due to the happy blending of benevolence and sociability which distinguishes it. The following is a tabulated list of the lodges and their members:

Name and Number.	Members- ship.
New York, No. 1.....	500
Philadelphia, No. 2.....	250
San Francisco, No. 3.....	175
Chicago, No. 4.....	175
Cincinnati, No. 5.....	125
Baltimore, No. 7.....	150
St. Louis, No. 9.....	300
Boston, No. 10.....	350
Pittsburg, No. 11.....	125
California, No. 12.....	175
Indianapolis, No. 13.....	200
Providence, No. 14.....	150
Washington, No. 15.....	125
Illinois, No. 16.....	75
Denver, No. 17.....	110
Total (about).....	2985

This list represents only those in active affiliation. If the inactive members were included they would bring the number up to over three thousand one hundred.

The Knights of Honor, a secret beneficial organization, paying a death benefit of two thousand dollars, collected on the mutual or co-operative assessment plan, was established at Louisville, Ky., June 30, 1873. The first lodge in Missouri was St. Louis Lodge, No. 13, instituted March 12, 1874. The Grand Lodge of Missouri was instituted in St. Louis, Sept. 10, 1875, and in 1876 was incorporated, the following being the charter members: Thomas W. Seymour, W. F. Conner, W. H. Rudolph, Francis

Paule, Peter Kieffer, Philip Hantke, C. Helmund, A. L. Aubin, C. Randow, R. Hodgins, Thomas Haynes, J. N. Ayres, V. J. Matthews, Charles W. Van Dillen. There are eighty-eight lodges in this jurisdiction, with five thousand six hundred and fifty members. One hundred and forty-one deaths have occurred, involving the disbursement of two hundred and eighty-one thousand dollars benefits. The average cost of insurance has been eight dollars and thirty-one cents per thousand dollars. The officers of the Grand Lodge of Missouri are—

A. C. Sheldon, Louisiana, G. D.; E. W. Fowler, Edina, A. D.; J. L. Torrey, St. Louis, G. V. D.; Peter Kieffer, St. Louis, G. R.; S. C. Bunn, St. Louis, G. Treas.; Rev. J. C. Maple, Marshall, G. Chap.; E. S. Hill, St. Louis, G. G.; W. W. Nall, Ironton, G. Guard; W. H. Hawkins, Springfield, G. Sent.; T. E. Holland, M.D., St. Louis, G. M. Ex.; Grand Trustees, David Thomas, D. S. Harriman, M. B. Merriman; Representatives to Supreme Lodge, Joseph W. Branch, Judge N. M. Givan.

The following is a list of lodges, etc., in St. Louis City and County:

Scottish Clans.—In May, 1878, James McCash, with two or three other Scotchmen of St. Louis, formed the nucleus of an organization to mould into one homogeneous whole the scattered independent Scottish clubs in every part of the United States and Canada, and, finally, on St. Andrew's day (November 30th), 1878, the Royal (or Supreme) Scottish Clan was instituted. The object of the association was declared to be to unite Scotchmen and descendants of Scotchmen, embracing all who could claim Scottish ancestry within a reasonable limit; to cultivate fond recollections of Scotland, its customs and amusements; "to be subject to the laws of God and of the land in which we live,"

and to establish a fund for the benefit of the heirs of deceased members, death benefits being fixed at one and two thousand dollars. The first Royal Chieftain was James McCash, the second was Hon. George Bain, one of the most prominent Scotchmen of the West. Dugald Crawford, a leading merchant of St. Louis, was elected Vice-Royal Chieftain. The present supreme officers are—

R. C., George Bain, St. Louis; V. R. C., P. H. Lawson, Massachusetts; R. Chap., Peter C. Peterkin, St. Louis; R. Sec., Richard A. Skues, Kansas City; R. Treas., John D. Cruikshanks, St. Louis.

On Dec. 13, 1878, the Grand Clan of Missouri was organized. The present officers are—

G. C., John W. Mitchell, St. Louis; V. G. C., James C. Kenneth, St. Louis; P. G. C., Robert R. Scott, St. Louis; G. Chap., James C. Dodds, St. Louis; G. Sec., Robert N. Brodie, St. Louis; G. Treas., Peter C. Peterkin, St. Louis.

There are two subordinate clans in St. Louis,—Clan Campbell, No. 1, instituted Dec. 20, 1878, which has one hundred and thirty-one members; and Clan Douglas, No. 3, instituted Feb. 27, 1880, which has sixty-six members.

Independent Order of Chosen Friends.—A secret benevolent order with the above name originated at Indianapolis, Ind., in 1879. It pays one thousand, two thousand, and three thousand dollars death benefits, and admits women on the same footing as men. The first council in St. Louis was instituted March 5, 1881, by Freeman Wright, of St. Louis, the present Supreme Secretary of the Knights and Ladies of Honor. It was named St. Louis Council, No. 2. Freeman Wright was the first Chief Councilor, and J. H. Williamson the first Secretary. During 1881 four more councils were established; but Banner Council (instituted August 24th) has dissolved. The councils existing in St. Louis are—

Name and Number.	When Instituted.	Membership.
St. Louis, No. 2.....	March 5, 1881.....	92
Benton, No. 5.....	May 7, 1881.....	80

Total.....		265

There is no Grand Council in the State; the Supreme Council is represented by H. G. Wilson, Deputy Supreme Councilor.

American Protestant Association.—This is a secret society, originating in Philadelphia about 1850. Its primary object is the promotion of Protestantism, and hence the membership is restricted to Protestants. The society advocates civil and religious liberty and the public school system, and antagonizes foreign interference in the affairs of the United States government. It pays sick benefits, and five hundred dollars on the

death of members, collected by assessments. The first lodge in St. Louis was instituted July 26, 1856, and the Grand Lodge of Missouri was organized in St. Louis, July 4, 1863, with the following charter members: James C. Campbell, Charles Myer, August Heusnerr, Julius C. Schmidt, Frederick Damschroeder, Frank Hussmann, Charles E. Boehmer, Ernest Koenig, August Timke, John Couzelmen, Fred. Steinbrecher, and Henry Gerhold. Some fifteen lodges with about eleven hundred members were established, but the interest declined to some extent, and there are now but eight lodges working in Missouri. Latterly the membership in St. Louis has been restricted to the Germans, and the lodges work in the German language. The officers of the Grand Lodge for 1882-83 are—

G. M., William Wrieden, St. Louis; W. V. G. M., Louis G. Hoffman, St. Louis; G. Sec., G. C. T. Seidlitz, St. Louis; G. A. Sec., Henry Kassing, St. Louis; G. Treas., H. G. Grote, St. Louis; G. Chap., A. Grund, St. Louis.

The councils in St. Louis are—

St. Louis, No. 14.....	Nov. 18, 1874.....	34
Total.....		472

Last year the Grand Lodge disbursed six thousand dollars in death benefits and nine hundred dollars in sick benefits. It owns a four-story building and hall, at the corner of Fourteenth Street and Franklin Avenue, St. Louis, managed by the American Protestant Hall Association, chartered April 12, 1869, the incorporators being C. F. Seidlitz, William Stindler, George Wingman, and others. The property cost twenty-three thousand dollars, but is now worth much more, and is entirely free from incumbrance. St. Louis has furnished two Grand Masters to the National Lodge, James C. Campbell and F. Diekroeger.

Good Ladies.—Freundschafts Versammlung, A. O. K. L., is the title of a secret society of German women, popularly known as Good Ladies. The order originated in Philadelphia, and the first lodge in St. Louis was established in 1859 by Herr August Etling, a well-known German of that period. Several lodges soon sprang up, embracing both German- and English-speaking ladies, but the Freundschafts Versammlung is the only one remaining. It uses the German language, but long ago declared its independence of any foreign authority, and is thought to be the

only surviving lodge of an order once quite strong. It pays four dollars a week sick benefits and fifty dollars funeral expenses, and now has nearly fifty members. The present officers are—

G. M., Mrs. Elizabeth Krone; V. G. M., Miss Elizabeth Delpert; Sec., Mrs. Sophia Krage; Treas., Mrs. Marie Meyer; F. S., Mrs. Katrine Roesner; Chap., Mrs. Louise Klaus.

United States Benevolent Fraternity.—A secret benevolent order under the above title was instituted at Baltimore, Md., Feb. 22, 1881. It pays death benefits ranging from one thousand to five thousand dollars. There are three councils in St. Louis,—Pride of the West Council, No. 7, instituted Oct. 15, 1881, with twenty-four charter members; George Washington Council, No. 16, instituted March 2, 1882, with twenty-three charter members; and St. Louis Council, No. 21, instituted May 20, 1882, with twenty-three charter members, all instituted by Michael Brooks, Deputy Supreme President, who represents the Supreme Council, there being no Grand Council in Missouri.

Royal Templars of Temperance is the name of a society organized in Buffalo, N. Y., Feb. 3, 1877, to assist in the suppression of the liquor traffic and to furnish members with insurance. Benefits are collected by assessments, and two thousand dollars is paid on the death of a male member and one thousand dollars on the death of a female member. An endowment degree, recently added, allows these sums to be doubled. There are about fifteen select councils in Missouri, with an aggregate membership of about five hundred. The first Missouri council was St. Louis Council, No. 1, instituted Jan. 12, 1880, by Thomas Kerns, Supreme Lecturer of Illinois, with the following charter members: Robert Herries, Thomas B. Kerwin, Dr. R. M. King, Adam Woerthage, Charles Scollay, George Cochrane, James H. Dailey, William Parks, Larkin D. Price, Gardner Hepburn, C. J. Helms, H. W. Spreen, F. W. Still, William Galloway, and others. Councils in St. Louis are as follows:

Name and Number.	When Instituted.	Membership.
St. Louis, No. 1.....	Jan. 12, 1880.....	...
Star of the West, No. 3.....	Feb. 13, 1880.....	66
Selah, No. 7.....	March, 1880.....	...
Martha Washington, No. 14.....	Sept. 10, 1880.....	...

Many of the St. Louis Royal Templars are also prominent and active members of the Temple of Honor, Sons of Temperance, and Good Templars.

United Foresters.—A disagreement among the Ancient Order of Foresters resulted in the establishment of the Independent Foresters, Court No. 1 being instituted at St. Joseph, Mo., early in 1876, and Mound

City Court, No. 2, of St. Louis, in April, 1876. The High Court of Missouri was chartered in September, 1878, with some sixteen courts and about five hundred members. In September, 1881, the Supreme body changed the name to the "United Foresters." There are now twenty-one courts in the Missouri jurisdiction. The St. Louis courts are—

Name and Number.	Membership.

Total.....	917

The Grand Court officers for 1882-83 are—

H. C. R., James A. McMillan; H. V. C. R., J. J. Isaacs; H. Sec., C. A. Sargent; H. Treas., H. M. Paul; H. P., Dr. W. O. Young; Reps. to Supreme Court, Louis A. Steber; Alternate, A. S. Partridge.

This order is beneficial. It pays death benefits of one thousand, two thousand, and three thousand dollars.

Patriotic Sons of America.—This order originated in Philadelphia in 1847, and had a large membership in St. Louis before the war. During the war it declined in St. Louis, and was not revived until Dec. 9, 1881, when Camp Washington, No. 1, was instituted. It has about sixty members, and is the only camp of this order in Missouri. Dr. J. C. Nidlet is president, and J. H. Moore is secretary. Its principal object is the cultivation of patriotism. Members must be native-born, and must favor free education, and oppose the union of the church and State and foreign interference in the affairs of this government. It also provides death benefits of five hundred, one thousand, and one thousand five hundred dollars.

B'nai B'rith.—Fraternal organizations (*chevroth*) had their origin with the dispersed children of Israel a great many centuries ago. In every country, in every town where ten or more of them dwelt, they formed a "chewrah" (fraternity) for mutual aid, for attending the sick, burying the dead, and providing for their widows and orphans. Coming to New York from the various countries of Europe, and dispersing thence over the wide territory of the United States, they had long felt the desire to form one great fraternal

union, organized similar to those of the Masons, Odd-Fellows, and like charitable organizations, whereby the Israelites, regardless of former nationalities or liturgical differences, could be united for charitable purposes, and better promote their interests and those of humanity. Thus the order B'nai B'rith (Sons of the Covenant) was organized about forty years ago in New York City, and slowly but steadily extended its lodges over the country, now embracing three hundred and thirty lodges, with about twenty-five thousand members, sub-divided into seven District Grand Lodges. Missouri belongs to District Grand Lodge No. 2, which was organized just thirty years ago, with its seat at Cincinnati, Ohio. In 1855 the first lodge of this order in St. Louis was instituted under the name of Missouri Lodge, No. 22; it has now one hundred and fifty members. In 1863 the second lodge in St. Louis, Ebn Ezra, No. 47, was established; its present membership is one hundred. It was followed in 1872 by Achim Lodge, No. 175, and in 1873 by Julius Fürst Lodge, No. 196. There are now four lodges, with about four hundred members, in St. Louis. Three more lodges of this order are now in the State of Missouri, viz.: one each in Kansas City, Sedalia, and Louisiana, Pike Co., with about one hundred and twenty-five members in all; yet, small as this number is, the work accomplished and amount of charities bestowed by the little band of brethren are remarkable.

The Widows' and Orphans' Fund of this district, giving to the family of each member, in case of his death, one thousand dollars, to no one more or less, and to which *every* member contributes fifteen dollars annually, has now a reserve of one hundred and twenty thousand dollars. It pays annually over thirty thousand dollars to its members' widows, etc., besides large amounts of other benefits and donations to non-members and other charities. The district has now three thousand members, and consists of the seven States of Ohio, Kentucky, Indiana, Missouri, Kansas, Colorado, and New Mexico. It has its orphans' asylum, located at Cleveland, which was established in 1868, and is now sheltering and educating two hundred and sixty-four orphans, irrespective of membership or non-membership of the deceased parent. This institution is acknowledged to be the model orphan asylum of the country, and is often liberally endowed by legacies.

Among the promoters and prominent members of the order are the following grand officers from St. Louis:

Isidor Bush, member of the executive committee of the National or Constitution Grand Lodge, which

consists of *one* member only from each of the seven districts. He has been a member of this order since 1849, was president of the Grand Lodge in 1872, was one of the founders of the orphan asylum, and is chairman of the endowment fund of the district.

Abraham Kramer, one of the first members of Missouri Lodge, its representative to the District Grand Lodge, whose president he also was in 1878, and for several years trustee of the orphan asylum.

Jacob Furth, comparatively a young member, but already distinguished by his activity and influence in promoting the work of the order. He is the present trustee of the Cleveland Orphan Asylum from St. Louis. Mrs. Goldschmidt and Mrs. A. Fisher are St. Louis directresses of the same institution.

Dr. S. Wolfenstein, the efficient superintendent of that asylum, is also a St. Louisan. I. Koperlik, a past president of Missouri Lodge, and for twenty years its secretary, has also been secretary of the endowment fund of the District Grand Lodge since its organization. Rev. Dr. S. H. Sonneschein is also one of the prominent St. Louis members of this order.

Royal Arcanum.—A secret benevolent order, known as the Royal Arcanum, was organized in Boston, Mass., June 23, 1877. It pays a death benefit of three thousand dollars, collected from members in proportion to age. There is no Grand Lodge in Missouri, but the Supreme Lodge is represented by W. E. Robinson and L. A. Steber, of St. Louis, Deputy Supreme Regents. There are eight councils in Missouri, with from six to seven hundred members. The councils in St. Louis are—

Name and Number.	When Instituted.	Membership.
Missouri, No. 107.....	June 17, 1878.....	110
Benton, No. 183.....	Sept. 7, 1878.....	80

Total.....		645

The Cosmopolitans.—There is one lodge of this order in St. Louis, Mound City Lodge, No. 1, established May 7, 1882. Dr. Daniel White is W. G. D. C. C. The society originated in New England several years ago, and has lodges in all parts of the world. Its object is semi-religious, being the investigation of spiritism. No member is admitted who does not subscribe to a belief in communion with the "so-called dead." It is beneficial to the extent that local lodges may provide for the relief of sick or distressed members, either its own or traveling ones.

Treu Bund.—The society from which the Independent Order Treu Bund descended is of great

antiquity; it originated when the Swiss were organizing to resist the tyranny of Albert I., emperor of Austria, and took the world-famous "Gruetti oath." The new order spread all over Europe under different names and generally having a political purpose. It was introduced into America in 1858 by George Ackers, an enthusiastic member of the European order, and St. Louis was the birthplace. The only lodges are in Missouri and Illinois, and the aggregate membership is about one thousand. The objects are social and beneficiary; five hundred dollars is paid on the death of a member, and one hundred dollars for funeral benefits in case the wife of a member dies. Sick benefits are also permitted. There are fourteen lodges in Missouri, and eleven in St. Louis, the latter as follows:

Name and Number.	Membership.
Washington, No. 2.....	65
Lincoln, No. 3.....	38

Total.....	526

There is a Grand Lodge, with headquarters at St. Louis.

G. T. M., John Diren, St. Louis; G. Sec., Hermann Weiterer, St. Louis; G. Treas., George P. Schnur, St. Louis.

Česko-Slovansky Podporujici Spolek.—The "Bohemian-Slavonic Benevolent Association" is a secret order, originating among the Bohemians of St. Louis in 1854. For eighteen years there was but one lodge in the city, and then (1872), under the Supreme Secretaryship of Anthony Klobasa, a very intelligent man of that nationality, the order grew rapidly, and now has over seventy lodges distributed in all the large cities of the country. The total membership numbers about four thousand. The order pays seven hundred and fifty dollars death benefits, and sick benefits of five dollars a week. The supreme officers of the order are—

President, James Svojse, Chicago; Vice-President, Joseph Stankovsky, St. Louis; Sec., F. Hrabacka, St. Louis; Financial Sec., Anthony Klobasa, St. Louis; Treas., William Kleisner, St. Louis.

There are five lodges in St. Louis as follows:

National Americans.—This society was established in St. Louis in 1878, and was incorporated in January, 1879, by Rosswell D. Grant, Dr. Francis O. Drake, John C. Ralston, Dr. Albert Merrell, Dr. W. S. Wartman, Lorenzo Browning, and others, residents of that city. It is composed of native-born American citizens only, and has death benefits of one thousand and two thousand dollars, collected by assessments. Subordinate associations have been established in several States. Those in St. Louis are—

The officers of the National Association for 1882-83 are as follows :

National President, J. C. Ralston, St. Louis; National Vice-President, John D. Vincil, St. Louis; National Advocate, A. B. Parson, St. Louis; National Sec., Lorenzo Browning, St. Louis; National Treas., Dr. F. O. Drake, St. Louis; National Chap., Dr. W. S. Wortman, St. Louis; National Med. Exam.-in-Chief, Dr. Albert Merrell, St. Louis; National Trustees, William Riley, William Hamilton, E. E. Allen.

In July, 1882, the *American Nationalist*, an organ of the order, was established.

Kosmos.—In September, 1882, certain members of the order of the Knights of the Golden Rule withdrew from that fraternity and organized a new beneficiary order called "Kosmos." Its officers are—

S. C., J. M. Webster; S. V. C., Z. C. Lavat; S. Sec., Francis D. Macbeth; S. Treas., S. F. Silence; S. G., C. Niehouse; S. Guard, Alexander Gillanders; S. S., E. O. Bartholomew; P. S. C., Judge W. C. Jones.

During the winter of 1882-83 several lodges were instituted.

Keshet Shell Barzell is the name of a Hebrew secret beneficial order which originated in the East about 1868. It was introduced into St. Louis some four years later, Lebanon Lodge, No. 10, being the first to organize. There are six lodges in Missouri, all in St. Louis, as follows :

Name.	Membership.
Lebanon, No. 10.....	70
Isaac, No. 70.....	65
Ben Jacob, No. 94.....	100
St. Louis, No. 115.....	50
Missouri, No. 126.....	40
Wessely, No. 128.....	45
Total.....	370

These lodges are governed by "District Grand Lodge No. 4," embracing most of the Western States, with headquarters at Cleveland. This body has established a Home for Aged and Infirm Israelites at Cleveland, at a cost of twenty-five thousand dollars. Rev. Dr. Sonneschein, of St. Louis, is one of the trustees of the institution.

Temple of Honor.—This order was established in 1845 by some members of the Sons of Temperance in New York as an exalted degree of that order, but the National Division refused to recognize it. It was then maintained independently, and the excellence of its work and the worth of its teachings gave it for many years great popularity. The exact date of its introduction into St. Louis is not known, but is supposed to be about 1853, as in June, 1854, a Grand Temple was organized with four temples, namely: Louisiana Temple, No. 1, of Louisiana, Mo.; Union Temple, No. 2, of St. Louis; Bard Temple, No. 4, of Hannibal; and Carroll Temple, No. 8, of Carrollton, Mo. W. A. Lynch, of St. Louis, was the instituting officer. The first grand officers were—

G. W. T., William A. Lynch, St. Louis; G. W. V. T., J. H. Harris, Hannibal; G. W. R., J. D. Guiley, Louisiana; G. W. T., J. S. Markley, Louisiana; G. W. Chaplain, B. F. Rankin, Carrollton.

There were present from St. Louis on this occasion G. W. Lynch, W. A. Lynch, J. B. Higdon, Richard Ivers, and T. S. Warne.

The growth of the order was greatest just after the war, when there were seven temples in St. Louis. Of late years the interest has declined, and now there are but six temples in the State, one each at Hannibal, Springfield, and St. Joseph, and three in St. Louis, viz.:

Mount Olive, No. 4.....	15
Total.....	83

The Grand Temple (July, 1882) elected the following officers:

G. W. T., George W. Salter, St. Louis; G. W. V. T., William Hartrey, St. Louis; G. W. R., J. J. Garver, St. Louis; G. W. T., Robert Herries, St. Louis; G. W. Chap., Garden Hepburn, St. Louis; G. W. U., Fred. M. Easterday, St. Louis; G. W. G., Alfred Appleton, St. Louis; P. G. W. T., Timothy Parsons.

Lasalle Frauen Unterstuetzungs Verein is an association of German ladies which pays death benefits of fifty dollars on the death of a member or a member's husband, and sick benefits of four dollars a week. The officers are: President, Miss Anstedt; Vice-President, Julia Reier; Secretary, Consadine Kreutzberg.

ST. LOUIS AGRICULTURAL AND MECHANICAL ASSOCIATION AND JOCKEY CLUB.

Fairs or exhibitions of agricultural and mechanical objects were held in St. Louis at irregular intervals for many years prior to 1855, when an organization was formed for the purpose of holding annual exhibitions. Agricultural societies had existed from time to time, beginning as early as 1822, but none of them were permanent. At first agricultural and "mechanics'" fairs were distinct and separate, but on the formation of the Agricultural and Mechanical Association the two interests were merged, and subsequently the exhibitions were held together. On the first Tuesday of November, 1841, the fair of the Agricultural Society of St. Louis County was opened at the St. Louis race-course, and on the 24th of the same month the Mechanics' Fair was inaugurated "in the buildings recently occupied by Mr. Lucas, on Fourth Street, in front of the Planters' House," continuing three days. The committee of arrangements was composed of William Bird, S. V. Farnsworth, C. Pullis, D. Weston, J. W. McMurray, T. B. Edgar, N. Phillips, Joseph Charless, D. L. Holbrook, D. B. Smith, George Wool, O. M. Vinton, D. Woodman.

For some time prior to 1855 the subject of combining the agricultural and mechanical interests of St. Louis for the purpose of holding annual fairs was agitated, and among those who were especially active in support of the proposition were Hon. J. R. Barret, Henry T. Blow, Col. Thornton Grimsley, Henry C. Hart, T. T. January, Charles Todd, Charles L. Hunt, Andrew Harper, John Withnell, Benjamin O'Fallon, Henry S. Turner, Thomas B. Hudson, John Sappington, John M. Chambers, Frederick Dings, and Norman J. Coleman. It was finally decided to organize a society, and Hon. J. R. Barret procured the passage by the Missouri Legislature, of which he was a member, of an act incorporating the St. Louis Agricultural and Mechanical Association, which was approved Dec. 7, 1855. The incorporators were Andrew Harper, John O'Fallon, Martin Hanna, Walter H. Dorsett, Robert Martin, Olly Williams, John Sigerson, Andrew Christy, John M. Chambers, John Hartnett, Thornton Grimsley, H. I. Bodley, Henry C. Hart, Thomas T. January, John Renfrew, John Withnell, Gerard B. Allen, John Sappington, and William C. Jenks.

The objects of the association were declared to be the promotion of improvements in all the various departments of agriculture, including not only the great staples of industry and trade, but also fruits, vegetables, and ornamental gardening, the promotion of the mechanic arts in all their various branches, the

improvement of breeds of all useful and domestic animals, the general advancement of rural economy and household manufactures, and the dissemination of useful knowledge upon these subjects.

At a meeting of persons interested in the enterprise, which was held on the 4th of February, 1856, it was decided that books should be prepared at once, and the public invited to take the stock of the corporation. All the stock was soon subscribed for, and on the 4th of May the following persons were elected the first board of directors: Andrew Harper, Thomas T. January, Henry C. Hart, John Withnell, Thornton Grimsley, Frederick Dings, James M. Hughes, Henry S. Turner, Charles L. Hunt, John M. Chambers, Henry T. Blow, Norman J. Coleman, and J. R. Barret.

On the following day the board elected the following officers: President, J. R. Barret; Vice-Presidents, Thornton Grimsley, Andrew Harper, and Henry Clay Hart; Treasurer, Henry S. Turner; General Agent and Recording Secretary, G. O. Kalb; Corresponding Secretary, O. W. Collet. P. McAndrew was appointed superintendent. It was determined to hold a fair some time during the following autumn, but considerable delay was experienced in choosing a location for the grounds. Finally, however, fifty acres of land at the northwest corner of Grand Avenue and Natural Bridge plank-road, about three miles from the court-house, was purchased from Col. John O'Fallon for fifty thousand dollars, the company being given twelve years in which to pay the principal, the first two years' interest to be taken in stock. The grounds possessed natural advantages for the purpose, and being contiguous to the water-works, were conveniently located for obtaining an abundant supply of water. A fence nine feet high inclosing them was speedily erected, and although the plans for the buildings were not matured until July, the work was pushed forward so vigorously that the managers were enabled to open the fair on the 13th of October. In the short space of three months the grounds were graded, walks and avenues laid out, and a number of buildings erected. The latter included an amphitheatre, a building for the mechanical department, a floral hall, and a machine-shop, together with three hundred and fifty horse and cattle stalls and a number of pens for sheep and swine. Water from the reservoir was also introduced, and the grounds were ornamented with a number of fountains. For the purchase of the ground and erection of the buildings the sum of thirty thousand dollars, afterwards increased to forty thousand dollars, was appropriated by the directors. The building committee was composed of J. R. Barret, Henry

C. Hart, Henry T. Blow, and Andrew Harper, assisted by A. L. Lyle.

The fair opened Oct. 13, 1856, and the attendance was very large, notwithstanding the fact that the weather was inclement. At eleven o'clock the National Guards arrived on the grounds, and were followed by the Washington Guards and the Grays. Hon. Sterling Price, Governor of Missouri, who was present on horseback, reviewed these organizations, after which there were track exhibitions of horses. T. T. January was superintendent of the fair on the opening day, and the committees on awards consisted of gentlemen from different States. The premium list amounted to ten thousand dollars, and the receipts from the gate, entrance fees, and other sources, to twenty-five thousand dollars. The success of the fair was very marked, and as it was in great measure due to the labors of Hon. J. R. Barret, president of the association, those most interested decided to present him with a testimonial of his services. Accordingly in December following a handsome silver service was purchased and presented to Mr. Barret.

In 1857 the second fair of the association was held, and was even more successful than the first one. The premiums were increased to sixteen thousand dollars, and the receipts amounted to over twenty-eight thousand dollars. A handsome Gothic structure, known as the Fine Art Hall, for the exhibition of statuary and paintings, and a gallinarium of wire network, three stories high, and divided into ninety compartments, were erected for this exhibition. At the third annual fair, which began on the 7th of September, the attendance was greater than at either of its predecessors, and St. Louis was visited by a concourse of strangers greater than it ever witnessed before. From the report of the secretary of the association from its organization to Dec. 1, 1858, it appears that the capital stock was sixty-nine thousand one hundred and fifty dollars, and the sum of sixty-eight thousand six hundred and fifty-five dollars and ninety-six cents had been expended for improvements on the grounds. The contract with Col. O'Fallon gave the association twelve years in which to pay for the land, but as there was a surplus the directors made a payment Nov. 30, 1858, of ten thousand dollars. The dimensions of the buildings then on the ground were: Amphitheatre, diameter, three hundred and five feet; circumference, nine hundred and fifteen feet; arena within the amphitheatre, diameter, two hundred and twenty-five feet; circumference, six hundred and seventy-five feet. Floral Hall, diameter, seventy-six feet; circumference, two hundred and twenty-eight feet. Art Hall, an oval building, eighty-five feet in length. Agricul-

tural Department, two hundred by thirty feet. Mechanical Department, seventy-nine by thirty-one and a half feet. Machinery Department, two hundred by forty feet. Pagoda, forty-five feet in height, and divided into three stories, the pole around which it was built being one hundred and fifty feet high.

In addition to these structures there were a number of other buildings, including a large carriage department, a gallinarium, and a handsome Gothic cottage, with reception-rooms for ladies. The amphitheatre seated twelve thousand persons, and the two promenades, one at the base and the other at the top of the seats, afforded accommodations for twenty-four thousand more.

The exercises at the opening of the fair of 1858 were accompanied as usual by a parade of the military organizations of St. Louis, commanded by Brig.-Gen. D. M. Frost, and including the Light Artillery Battalion, Col. Henry Almstedt; the Mounted Rifle Battalion, Maj. Schaeffer; the First Regiment of Infantry, commanded by Col. J. M. Pritchard, and composed of six companies, viz.: St. Louis Grays, Capt. John Knapp; Missouri Guard, Capt. George W. West; the Washington Guards, Capt. Patrick Gorman; the National Guard, Capt. John B. Gray; the Emmet Guards, Capt. Thomas F. Smith; and the Washington Blues, Capt. Joseph Kelley; and the Rifle Battalion, under the command of Maj. John C. Smith, composed of two companies, the Union Rifles, Capt. Kohr, and the Missouri Rifles, Capt. Schultz.

The premium list was enlarged from year to year until, in 1860, it aggregated the sum of twenty-five thousand dollars, but the receipts continued to increase, and in that year amounted to forty-five thousand dollars. During the civil war the exhibitions were suspended, but in 1866, through the efforts of the president, A. B. Barret, and others, they were resumed.

In October of that year a fair was held, and premiums amounting to thirty thousand dollars were awarded. Since then the association has continued to grow and prosper until it has now become one of the greatest, if not the greatest, organizations of its kind in the country. One of the characteristic features of the association is that its stock does not, nor was it ever intended to, pay any dividends. The stock amounts to eighty-two thousand and fifty dollars, and is so well distributed (the individual holders numbering one thousand and fifty-seven) that on the average no single holder has more than two shares. The only privilege that stockholders have is that of free admission to the grounds at all times.

In this way the association is enabled out of its surplus to improve and embellish its grounds and erect the necessary buildings. The amphitheatre, which was first built, was reconstructed in 1870, and devoted to the display of manufactured goods and textile fabrics until 1876, when it was taken down, and a new mechanical hall, one hundred and fifty feet wide and two hundred and fifty feet long, having two spans of forty-five feet each, and a central span of sixty feet, was erected. These improvements were completed in 1877, when an exposition was combined with the usual annual fair, and proved a success beyond the expectations of the most sanguine. The building is lighted by large skylights running through the centre. The interior diameter of the new amphitheatre, in which stock displays are made, is four hundred and fifty feet. The track is half a mile in length. The original fifty acres have been increased to eighty-three and fifty-six-hundredths acres, costing over one hundred thousand dollars, and in 1876 a brick building, covering an area of twenty thousand square feet, was built for the floral department, and a zoological garden was erected at a cost of one hundred thousand dollars, in connection with which a school of drawing was established. The grounds of the association, when first purchased, were embellished with fine trees of natural growth, and to their attractions have been added handsome buildings, and all the beauties that can be created by the highest art of the landscape gardener and horticulturist. The imposing structures and handsome surroundings make up a picture of unusual attractiveness and beauty. The grounds are eligibly located on Grand Avenue, within the city limits, and are easy of access from all quarters.

The association has proved one of the most important of the factors in the industrial growth of St. Louis, and, indeed, in the development of the agricultural and mechanical resources of the entire State. During the twenty-six years of its existence it has expanded beyond the most sanguine expectations of its founders, and at the present time enjoys a national reputation.

The money expended on improvements since 1856 amounts to over one million dollars, and the buildings thus erected are the most commodious and the most conveniently arranged structures of their kind to be found in any fair inclosure in the United States, every class of exhibition being located in a separate hall or inclosure especially adapted to the purpose for which it is intended. The Zoological Garden is constantly increasing in size and attractiveness, every year witnessing the erection of new buildings for the re-

ception of additions to the collection. The grounds are kept in admirable condition during the entire year, and the spacious drives make them one of the popular resorts of the city, even when not occupied by the annual fair, which occurs in October, lasting six days. The premium list of the Fair Association has always been generous, and is constantly increasing, and the lively competition thus created has raised the standard of stock and productions of all kinds, not only in the State of Missouri, but throughout the entire Mississippi valley.

The attendance at the Fair Grounds during fair week averages forty thousand daily, and fifty thousand dollars is distributed in premiums.

The chief officers of the society from 1856 to 1875 were—

1856-59. J. Richard Barret, president, and Henry S. Turner, treasurer. G. O. Kalb, the present secretary, has been acting in that capacity since 1856.

1860. A. Harper, president.

1861-65. Charles Todd, president; Benjamin O'Fallon, treasurer for 1861, and D. G. Taylor from 1862 to 1866.

1866-73. A. B. Barret, president; with Benjamin Sanford, treasurer for 1867-68, and B. M. Chambers from 1869 to 1873.

1874. Julius S. Walsh, president; E. M. Lackland, treasurer.

The present officers are—

Charles Green, president; R. P. Tansey, first vice-president; E. A. Filley, second vice-president; Hercules L. Dousman, third vice-president; John J. Menges, treasurer; and G. O. Kalb, secretary and superintendent. The present directors are A. B. Pendleton, Julius S. Walsh, Charles Green, James C. Edwards, R. P. Tansey, Johnston Beggs, M. Fraley, George Bain, David Clarkson, John G. Prather, L. M. Rumsey, John J. Menges, Ed. Harrison, D. P. Rowland, Hercules L. Dousman, John Scullin, S. M. Dodd, E. A. Filley, A. B. Ewing, William W. Withnell, and James S. Farrar.

From the secretary's report for the fiscal year beginning Dec. 1, 1880, and ending Dec. 1, 1881, it appears that the value of the improvements was \$204,897.95, and that of the real estate \$135,880.16. Stock had been issued to the amount of \$82,050, and bonds to the amount of \$160,000. The total assets of the company amounted to \$459,768.32.

In 1874, Charles Green became a leading stockholder in the St. Louis Agricultural and Mechanical Association, and served as director until January, 1880, when he was elected president. He has been re-elected to this position every year since. Under his management the St. Louis Fair has increased in attractiveness, and has taken so strong a hold upon public favor that it is hardly an exaggeration to say that it has become the great yearly festival of the Southwest.

Charles Green was born near Ballinasloe, County Galway, Ireland, in 1838. His family possessed a

large landed estate, including the historically celebrated Green Hills, one of the most beautiful places in the Emerald Isle, and cherished with pardonable family pride the traditions of their ancestral home and of its profuse hospitality. Young Green was sent to school at a neighboring town, and at the age of fifteen entered the college at Galway, making his home with a gentleman named Rochford, a distinguished lawyer of that region. He remained at Galway about two years, and in the intervals of study read law.

When he was seventeen his father died, involving a change in his fortunes. He relinquished the elegant surroundings to which he had been accustomed, and in 1857 emigrated to America, and, in response to an invitation from his brother Thomas, settled in St. Louis, where his brother was established in mercantile business. He was placed by Thomas in the St. Louis University, where he finished his education. It was intended that he should study law, but his health failed under the severe course at the university, and when he left that institution he accepted a position in the post-office under Peter L. Foy. He remained in this capacity about a year, and then for four years filled the position of book-keeper in the State Savings Association. When the Merchants' Union Express Company established itself in St. Louis, he was offered and accepted the position of cashier, but in about a year relinquished it to engage in business on his own account. In 1866 he established the real estate firm of Green & La Motte, which is still the title of the house, although his partner, F. X. La Motte, a college friend, died in 1868.

Mr. Green's fidelity to all trusts reposed in him, and his prompt and energetic method of transacting business commended him to the favor of the public, and soon brought him a prosperous and continuously increasing patronage. He has, perhaps, been intrusted with the administration of more large estates than any other citizen. He was commissioner for the Benoist estate, and is now the executor of the estate of John Withnell. In his will Mr. Withnell expressly stipulated that Mr. Green should not be required to give bond. These trusts, and many similar ones, he has so managed as to earn the gratitude of those whom he has served.

His clear and exact knowledge of real estate values was recognized by the County Court of St. Louis County in 1873, when he was elected by that body president of the Board of Assessors. In this delicate and responsible position, requiring such nice and careful exercise of judgment, and so much firmness, he reduced the business of the office to one of perfect system, and such a spirit of fairness characterized his

administration as to win for him the good will and esteem of the public. The popular estimate of his services appears from the fact that he was unanimously re-elected to the same position for four successive terms.

Mr. Green has also served the public in other important capacities. He was a commissioner for the condemnation of the Forest Park property and of the Northern Park, and was also commissioner to value the property of the Columbia Life Insurance Company. He was appointed receiver of the Central Savings-Bank, and the next day filed his bond for one hundred thousand dollars, on which occasion the court (Judge Krekel) praised the promptness with which the document had been prepared, and the extraordinary high character of the names it bore, and complimented Mr. Green upon the high financial and social standing which enabled him to furnish a bond for so large an amount in so short a time, with such exceptional indorsements.

A similar but even more creditable experience was his when, a year or two since, he was elected assignee of the Keokuk and Northern Line Packet Company. He was notified of his appointment on Saturday, and on the following Monday morning his bond for three hundred and seventy-six thousand dollars was filed and approved. Besides the several interests mentioned above, Mr. Green has charge of many estates owned by the wealthiest citizens of St. Louis, and the confidence reposed in him is almost unbounded. Not only has he managed the estates of others with success and to their perfect satisfaction, but he has invested his own means in real estate so judiciously that he has gained a fortune.

As a public-spirited and enterprising citizen, Mr. Green occupies a foremost rank. He was a large subscriber to the company that built the Chamber of Commerce, one of the city's chief ornaments, and has been a director therein since 1875. He has also a large interest in the various street railway companies, and is a director in several of these corporations. He aided prominently in the organization of the Real Estate Exchange, and has been its president since April, 1880. In 1879 he formed one of a syndicate that bought the Carondelet Gas Company, and is the vice-president of the corporation.

In 1868, Mr. Green was married to Miss Henrietta Prenatt, the daughter of a prominent merchant of Madison, Ind., by whom he has had seven children.

Mr. Green's personal characteristics are a firm determination, keen foresight, a rigid integrity, and a steady judgment. Although born rich, he inherited no fortune, but beginning life as a poor boy, he easily

Chas Green

amassed a competence, and at the same time won the honor and respect of his fellow-citizens.

The St. Louis Jockey Club.—Horse-racing was very popular in St. Louis at an early period of the city's history, and to the pony contests of the colonial period succeeded the trials of speed between thoroughbreds, which attracted large assemblages to the "prairie horse-track" on the north side of the St. Charles Rock road, immediately opposite the ground on which the Abbey track was subsequently established by Henry Doyer. One of the famous races on this course was the four-mile heat race in 1848 between the runners "Doubloon" and "Emily," which was won by the latter, ridden by the well-known jockey Gilpatrick. A jockey club was organized in 1828, and the races of that year commenced on Thursday, October 9th, and continued three days,—first day, three miles and repeat, for a purse of two hundred dollars; second day, two miles and repeat, for a purse of one hundred and fifty dollars; third day, one mile and repeat, for a purse of one hundred dollars, free for any horse, mare, or gelding. The racing was governed by the rules and regulations of the association, of which Benjamin Ames was the secretary.

On the 23d of September, 1848, a new jockey club was organized at the Prairie House. Among the prominent patrons of the turf about this time were George W. Goodc, Col. D. D. Mitchell, William L. Sublette, Henry Shacklett, Col. A. B. Chambers, of the *Republican*; Capt. White, of St. Charles, trainer of the race-horse "St. Louis;" Thomas Moore, Benjamin Ames, proprietor of the track; James Bissell, Benjamin Payne, the importer of "Altorf;" Charles Keemle, of the *Reveille*; Gen. Bernard Pratte, Charles L. Hunt, Archibald and William C. Taylor, Matthew Shaffner, Robert O'Blenis, George Marshall, Dr. William Hammond, U.S.A., Maj. R. E. Lee, U.S.A., Thornton Grimsley, B. W. Alexander, Gen. Ruland, Basil Duke, Walter Dorset, Thomas J. Payne, Ferdinand Kennett, Charles Gilpin, Clay Taylor, Leonidas Walker, Col. Samuel B. Churchill, Howard Christy, Judge Wash, Uriel Wright, Church Blackburn, Judge James B. Bowlin, and Gen. William Milburn.

A track was laid out in an inclosure of eighty acres, three miles from St. Louis, on the macadamized road to Manchester, and bounded on the south by the Pacific Railroad. The races on this track commenced on the 8th of October, 1848.

The present St. Louis Jockey Club Company was organized in 1877, with a capital stock of fifty thousand dollars, the charter having been granted on the 27th of August of that year. The incorporators were

John M. Harney, H. L. Dousman, J. B. McCullough, Julius S. Walsh, William Patrick, Edwin Harrison, Ellis Wainwright, C. B. Greeley, and Samuel Ecker. About forty-five thousand dollars of the stock was promptly subscribed, and the ground afterwards known as the Côte Brilliante track was purchased and adapted to the purposes of racing, at a cost of seventy thousand dollars. The track was opened to the public on the 4th of June, 1877. Trotting races were given at intervals, but did not prove financially successful, the St. Louis public preferring the running contests. The company was reorganized in February, 1880, and another charter was granted in February, 1882. The club is one of the leading turf organizations of the country, and has done much to elevate the standard of racing in the West. Its membership comprises many representative citizens of St. Louis, and the association is now in a flourishing condition.

Its rooms are located at No. 18 South Fifth Street, and the track is situated on Lucas and Hunt's addition to Côte Brilliante, bounded on the north by the St. Charles Rock road, on the south by Page Avenue, on the west by Union Avenue, and on the east by King's Highway. The grounds are within the city limits, about four and one-half miles west of the court-house. The race-track is a full mile in circumference, and is said to be very fast. The grand stand is capable of seating six thousand persons. The stables are located both inside and outside of the inclosure, and contain stalls for the accommodation of two hundred horses. The grounds and surroundings are very handsome, and are said to surpass any racing grounds in the country. Annual meetings are held, lasting from seven to eight days, in June.

The officers of the association are—

John M. Harney, president; H. L. Dousman and J. B. McCullough, vice-presidents; Ellis Wainwright, treasurer; and Lewis A. Clarke, secretary; Directors, John M. Harney, J. B. McCullough, H. L. Dousman, Julius S. Walsh, William Patrick, Edwin Harrison, Ellis Wainwright, C. B. Greeley, and Samuel Ecker.

CLUBS.

The Harmonie Club is an association of Hebrews, organized in 1857 for the promotion of social intercourse. Among the founders and promoters were M. Hellman, Julius Klyman, B. Singer, and L. Hellmann. The original membership numbered about twenty-five, but it comprised the leading men of the race then living in the city, and the club has always been a representative Hebrew society. M. Hellman was the first president, and his successors were L. Hellmann, L. Steinberger, A. Langsdorf, August

Frank, and Nathan Frank. August Frank was president the longest period, six years.

For fifteen years the club had rooms on Market Street, between Fourth and Fifth, and for ten years it has occupied quarters on Fourth Street, between Plum and Myrtle; but lately the desire for a more central location has led to the purchase of a lot, eighty by one hundred and thirty-five feet on the northeast corner of Eighteenth and Olive Streets, and the club is now erecting a building which is designed, when completed, to be one of the finest structures of the sort in the country outside of New York. It will be a three-story pressed-brick building, with stone capings, will cost nearly fifty thousand dollars, and is intended to be an architectural ornament to the city and a monument of the enterprise and taste of the Hebrews of St. Louis.

The present membership of the club numbers about one hundred and ten. The officers are—

President, Nathan Frank; Vice-President, A. Langsdorf; Secretary, M. Linz; Treasurer, J. Meyberg; Directors, J. L. Singer, S. Meyer, W. Herntien, M. Kahn, M. Michels, J. Frank, H. Binswanger.

The Concordia Club.—When the Harmonie Club selected its new location in Western St. Louis, it was seen that the change would inconvenience many of the members living in the southern part of the city; consequently in the spring of 1882 a number of its members seceded, and on the 26th of May the Concordia Club was organized with some thirty members and the following officers:

President, Leopold Steinberger; Vice-President, Albert Frankenthal; Secretary, Samuel Steiner; Treasurer, L. E. Green; Directors, Dr. M. Spitz, Frank Block, M. H. Holzman, S. A. River, R. Weil.

The University Club.—In January, 1872, some twenty college-bred men met and organized "The University Club." Among the incorporators were Thomas C. Reynolds, James S. Garland, Charles Branch, Edward Wyman, John W. Noble, S. Waterhouse, Charles H. Goodman, C. C. Whittlesey, Alexander Martin, J. S. Fullerton, Thomas Davidson, Charles A. Todd, John A. Dillon, E. H. Carvier, Frank J. Donovan, D. J. Snider, and George S. Edgell.

The articles of association declare the purpose of the society to be "to promote literature, science, and art, and secure a closer union and co-operation of college and university men and graduates, with a view to a broader and higher culture," etc. At first the idea of a large club, with those concomitants which the word "club" implies, was not suggested, but the organization prospered to such an extent that a build-

ing was soon felt to be an imperative necessity. In like manner it was found expedient to abolish the restriction making a collegiate education the test of membership. Still the club, while becoming more of a social institution than was perhaps contemplated, has always been under the control of former collegians, and has preserved the traditions of its early life in the high character of its members. It now embraces in its membership the leading professional and business men of the city. The first officers were: President, Hon. Thomas Allen; Vice-Presidents, Thomas C. Reynolds, Albert Todd, Samuel Treat, Dr. M. M. Pallen, Dr. J. B. Johnson, Lewis B. Parsons; Secretary, James S. Garland; Treasurer, M. Dwight Collier; Directors, Edward Wyman, Charles H. Goodman, Charles Branch, Newton Crane, Thomas Davidson, J. S. Fullerton, E. T. Merrick, John W. Noble, Sylvester Waterhouse.

Of the above officers, the Hon. Thomas Allen served continuously as president until his death at Washington, March, 1882, while a member of Congress, and Mr. Garland has been secretary for the whole period, one year excepted.

For three years the club occupied quarters at 911 Olive Street. It then removed to 1125 Washington Avenue, where it has had a well-arranged, well-furnished, and very commodious building. For two or three years past there has been a growing feeling that the club was too far "out of town" for the convenience of the members, and during the winter of 1881-82 these views formally prevailed, and quarters are being prepared in the large building on the northeast corner of Fifth and Olive Streets, on a scale commensurate with the standing and means of the club.

At the annual meeting in January, 1882, Prof. M. S. Snow, secretary of the board of directors, gave an interesting sketch of the history of the club. The beginnings were modest,—ten dollars initiation fee and ten dollars yearly dues disclose the unambitious character of the society. Few of the members had any idea of the nature and functions of a club. But in spite of various drawbacks and the constant raising of the fees and dues until they are now about one hundred dollars a year, the active and useful membership has constantly increased, and now numbers about three hundred and fifty, with applications constantly being received.

The present officers of the University Club are—

President, Samuel M. Breckinridge; Vice-Presidents, William H. Pulsifer, Charles Speck, Marshall S. Snow, Heber Livermore, Allan B. Pendleton, Arthur Lee; Secretary, James S. Garland; Treasurer, Huntington Smith; Directors, Estill Mc-

Henry, John O. F. Delaney, N. S. Chouteau, R. S. Brookings, Joseph S. Fullerton, S. E. Hoffman, D. F. Colville, Newton Crane, Henry S. Potter.

St. Louis Commercial Club.—This club was organized in October, 1880, and was modeled after the Boston Commercial Club, which was the first of its class. Its objects are purely social, the design being to cultivate a feeling of fraternity among all classes of business men, and, by affiliating with similar clubs elsewhere, to promote a feeling of fellowship among the business men of widely-separated sections. The membership is limited to sixty persons, who embrace the representative men of St. Louis in the various departments of trade and manufactures, and meetings are held monthly, at which, with a banquet, are discussed matters pertaining to the commercial advancement of the city. In October, 1882, the club entertained the Commercial Clubs of Boston, Chicago, and Cincinnati. The following have been the officers of the club from its foundation :

President, Gerard B. Allen ; Vice-President, E. O. Stanard ; Treasurer, Joseph Franklin ; Secretary, Newton Crane ; Executive Committee, Edwin Harrison, E. C. Simmons, S. M. Dodd.

Germania Association.—The Germania Association was chartered Feb. 16, 1865, by special act of the Legislature, the incorporators being James Taussig, Charles F. Meyer, Charles Enslin, Julius Conrad, Louis Holm, Charles F. Eggers, William D'Oench, J. F. Zisemann, William Hunicke, August Waldauer, Charles Balmer, Ignatius A. Day, and Moritz H. Lemecke. The first directors were Julius Conrad, C. F. Meyer, Felix Coste, Charles De Greck, William D'Oench, John L. Fiala, Louis Holm, William J. Romy, F. W. Rosenthal, James Taussig, and J. F. Zisemann. The first officers were : President, Charles F. Meyer ; Vice-President, Louis Holm ; Secretary, Charles De Greck ; Treasurer, William Hunicke.

Mr. Meyer has been president uninterruptedly up to the present time, and there have been few changes in the rest of the officers, who are now as follows :

President, Charles F. Meyer ; Vice-President, Julius Conrad ; Secretary, Rudolph Fritsch ; Treasurer, E. C. Priber.

In 1865-66 the association built a club-house at the corner of Eighth and Gratiot Street, and furnished it elegantly at a total cost, for building, grounds, etc., of \$110,000. The association has always embraced the leading Germans of the city, and in intelligence and refinement has always been recognized as a representative German institution. Its objects are social recreation and esthetic and scientific culture, and these are prosecuted by singing, lectures, dramatic entertainments, dancing, games, etc. In order more satisfactorily to accomplish these objects the association in

1881 was remodeled, the old organization retaining its corporate existence and ownership of the hall, and the new, the Germania Club and Association (*Gesellschaft*), having charge of the social and educational features. The result was immediately seen in a very large increase of membership. There are now about four hundred and twenty members. The officers of the club and association are—

President, Charles Speck ; Secretary, E. C. Priber ; Treasurer, B. T. Eisenhardt ; Directors, R. Schulenburg, E. D. Meier, E. C. Priber, Charles Nagel, Dr. Frerichs, I. G. Kappner, Charles Schmieding, L. Methudy, N. Eisenhardt, C. R. Fritsch, R. D'Oench, and W. D. Orthwein.

The Mercantile Club.—During 1881 it began to be apparent that the existing club-houses were not situated at points convenient for the numerous business men who might otherwise be disposed to patronize their facilities, and a "down-town" club was advocated. With this in view the Mercantile Club was organized, the incorporators being A. G. Peterson, T. B. Boyd, C. M. Adams, W. B. Dean, D. M. Houser, William McMillan, W. H. Gardner, Melville Sawyer, O. L. Brigham, S. G. Searritt, George T. Parker, George B. Thomson, Charles A. Fowle, E. Hayden, A. A. Paton, S. M. Kennard, Jr., J. R. Holmes, and I. R. Trask, well-known and enterprising business men of the city. The officers were—

President, Edwin Hayden ; Vice-President, George B. Thompson ; Secretary, S. G. Searritt ; Treasurer, A. G. Peterson ; Directors, Edwin Hayden, G. B. Thompson, S. G. Searritt, T. B. Boyd, S. M. Kennard, William McMillan, C. M. Adams, M. Sawyer, A. G. Peterson.

During the succeeding winter the club secured quarters in the "Sumner Building," on Locust Street, between Seventh and Eighth Streets, and after expending about eighteen thousand dollars in remodeling the edifice and furnishing it, held an informal "opening" on the evening of May 12, 1882. The rooms embrace gentlemen's and ladies' parlors, dining-rooms, reading-rooms, a billiard hall, etc., and are decorated and furnished in the most elegant and attractive manner. A novel feature of the club is the admission of the wives of members to its privileges,—a departure from the ordinary usage of clubs that has already become very popular. Although scarcely six months had elapsed from the organization of the club to the opening of the house, the membership limitation to four hundred residents of St. Louis had been reached,—a rapidity of growth that has seldom, if ever, been equaled in the history of similar organizations. The officers for 1882-83 are—

President, S. M. Kennard ; Vice-President, George B. Thompson ; Secretary, S. G. Searritt ; Treasurer, William McMillan ; Directors, S. M. Kennard, G. B. Thompson, S. G. Searritt, Wil-

liam McMillan, Ewing Hill, W. C. Steigers, E. S. Warner, A. G. Peterson, I. R. Trask.

St. Louis Club.—In 1878 some enterprising young business men of St. Louis conceived the idea of establishing another club, and in the fall of that year organized the St. Louis Club. The first officers were as follows: President, George H. Rae; Vice-President, Gen. John W. Noble; Secretary, A. B. Chever; Treasurer, Thomas A. Stoddard. The club secured as its quarters the "old Finney mansion," at 1532 Washington Avenue, and fitted up one of the finest club-houses in the country, the building being spacious and conveniently arranged, and the grounds roomy and attractive. The appointments of the house were and continue to be of the most elaborate and elegant character. The establishment was opened Sept. 23, 1879, with a public reception and an address by the Hon. J. W. Noble. The subsequent career of the club has been prosperous, and the membership numbers over three hundred. The present officers are as follows:

President, John T. Davis; Vice-President, E. C. Simmons; Secretary, E. S. Scranton; Treasurer, A. B. Thompson; Directors, John T. Davis, E. C. Simmons, Joseph Franklin, Geo. B. Hopkins, Dwight Tredway, Daniel Catlin, G. J. Plant.

Spanish-American Club.—El Club Comereial Hispano-Americano was organized in February, 1882, the inspiring mind being John F. Cahill, editor of *El Comercio del Valle*, the Spanish-American paper. Mr. Cahill was the first president, but soon resigned. The officers of the club for 1882 are—

President, Thomas Howard; Secretary, J. L. Corrigan; Treasurer, E. C. Smith; Executive Committee, Pedro Leon, Frank Trayer, Richard Smith, Emilio Guignon, E. R. Quarles.

The objects of the club are the promotion of good-fellowship and sociability among those interested in the trade with Mexico, Central America, and other Spanish-speaking countries of America, and to encourage intercourse with those lands in every legitimate way.

The Century Club is the principal literary association of St. Louis. Among the prominent members are Hon. Henry L. Rogers, Mrs. Virginia L. Minor, J. R. Meeker, W. G. Elliot, D.D., Albert Todd, A. C. Bernays, M.D., Mrs. E. P. Johnson, Louis C. Haynes, Professor E. L. McDowell, J. C. Learned, D.D., Mrs. N. E. A. Rogers, C. W. Stevens, M.D., Miss Fannie Isabella Sherrick, D. W. Blount, M.D., and Francis Minor. The executive officers for the season of 1882-83 are F. F. Hilder, president; Miss Ida E. Dyer, vice-president; Hannibal Loevy, treasurer; and E. W. Banister, secretary. The board of directors is composed of these officers, and Misses Thekla M. Bernays and Mary E. Thorn, and Messrs. C. M.

Whitney, George W. Lewis, George C. Hackstaff, F. E. Cook, J. M. Jordan, D. F. Hulburt, and F. W. Ruckstuhl. The direct management of the club is entrusted to the programme committee, which consists of Hannibal Loevy, chairman, in charge of essays and readings, and Miss Julia F. Lynch and F. W. Ruckstuhl, in charge of music. Among those who have delivered essays before the club are Hon. Henry L. Rogers, Hon. C. M. Whitney, Rev. John Snyder, Mrs. Virginia L. Minor, Professor John H. Tice, Rev. S. H. Sonnenschein, J. M. Jordan, Rev. W. W. Boyd, Rev. P. G. Robert, Mrs. E. P. Johnson, Professor Denton J. Snider, Hon. Nathaniel Holmes, Professor H. H. Morgan, Rev. C. E. Felton, Professor B. B. Minor, F. E. Cook, Rev. M. W. Willis, J. R. Meeker, Francis Minor, James Richardson, Dr. Charles O. Curtman, F. F. Hilder, Hon. A. W. Alexander, and Professor C. M. Woodward.

Deaf Mute Club.—In the summer of 1882 the Deaf Mute Social Club was organized, with D. A. Simpson, president; W. E. Guss, vice-president; J. J. Smith, secretary; A. H. Kohinetz, treasurer; J. H. Wolf, sergeant-at-arms. Its rooms are located at 420 Market Street.

CHAPTER XLII.

PROMINENT EVENTS—MOBS AND RIOTS—DUELS—MILITARY—THE TOWNS OF CARONDELET, HERCULANEUM, AND EAST ST. LOUIS.

In September, 1806, St. Louis was excited by the return of Lewis and Clark, who had traced the Missouri to its source, passed through a defile of the Rocky Mountains, and followed the Columbia to the Pacific Ocean. They had been absent two years and a half, and their arrival at St. Louis, on their return to Washington, was an important event. The Indian chiefs who accompanied them were fêted by the chief inhabitants of the city, and so well were Lewis and Clark pleased with the people that they both became residents of St. Louis, and filled high public offices.

The first execution that ever took place in the Territory of Louisiana was on Sept. 16, 1808, when a young man was hung for the murder of his stepfather. At that time hanging was very simple. Two posts were planted a short distance apart, with a fork at the uppermost ends, and on the forks a stout beam rested, over which was swung a rope. The convict was driven to the gallows in a cart, seated in a chair, upon which he stood when the rope was adjusted to his neck. When all was ready the cart was driven away, and the condemned was left to die by strangulation.

In the *Missouri Gazette* mention is made of a Fourth of July celebration at St. Charles in 1808. Timothy Kirby was president of the day, and Francis Saucier vice-president. In the following year (1809) a similar celebration was held at Harrisonville, St. Clair Co., at the house of Capt. Tabor Washburn. Shadraek Bond presided, and Abijah Ward was vice-president. Peter Darling and other citizens fired a salute at daybreak, and at one o'clock "Mr. Murphy sang a hymn and delivered an appropriate prayer," after which Jacob Boyes made an address. A dinner followed with seventeen regular toasts and "a number of volunteer sentiments, beginning with the ladies." Among the latter who were toasted were Mrs. McClure, Miss Jane McClure, Mrs. Coats, and Mrs. Blair. Jabez Warner, afterwards constable of St. Louis, was at this celebration. He lost an arm (presumably by an explosion) on a similar occasion. At St. Louis, in the same year, the Fourth of July was celebrated by a dinner given by Capt. Webster in Lee's orchard (block No. 37), and a ball at night in the Masons' Hall.

1810. The Fourth of July was observed with a dinner at Maj. Christy's tavern. On Monday, the 24th of September, a public dinner was given by the citizens of St. Louis to Governor Howard. There was a ball in the evening at the Assembly Room.

1811. Fourth of July dinner at Christy's tavern, Governor Howard presiding. August 3d, William H. Ashley's presence in Ste. Genevieve is mentioned. On the 19th of September announcement was made of the reappointment of Gen. William Clark as brigadier-general of the Territorial militia.

On the 14th of December mention is made of the arrival in St. Louis of "Governor Howard and lady in good health." On the following Monday, December 16th, St. Louis and the surrounding country were visited by a violent earthquake. The first shock was felt about 2.30 A.M., and lasted about one and three-fourths minutes. Windows, doors, and furniture were in tremulous motion, and there was a distant rumbling noise resembling that made by "a number of carriages passing over a pavement." The sky was obscured by a thick fog, and there was not a breath of air. The temperature was about thirty-five or forty degrees Fahrenheit. At 2.47 A.M. another shock occurred, unaccompanied by any rumbling noise and much less violent than the first. It lasted about two minutes. At 3.34 A.M. a third shock, nearly as violent as the first, but without as much noise, was felt. It lasted about fifty seconds, and a slight trembling continued for some time afterwards. There was a fourth shock shortly after daylight, less violent than any of the

others, and lasting nearly one minute, and about eight o'clock there was a fifth shock, almost as violent as the first. It was accompanied by the usual noise, and lasted about half a minute. The morning was very hazy, and unusually warm for the season. "The houses and fences were covered with a white froth, but on examination it was found to be vapor, not possessing the chilling cold of frost. Indeed, the moon was enshrouded in awful gloom." At 11.30 A.M. another slight shock was observed, and about the same hour on the following day "a smart shock" occurred. No lives were lost, and the houses did not sustain much injury. A few chimneys were thrown down and a few stone houses split. The earthquake appears to have covered an extensive area in Southeast Missouri, "seaming the face of the country with yawning gulfs and submerging it with new lakes." The destruction was especially severe at New Madrid. There was a volcanic eruption, and gulfs or fissures from four to ten feet deep, and running north and south parallel with one another, were opened for miles, in some instances for five of them. On the night of Jan. 7, 1812, there was another earthquake, which inflicted much greater damage. Until the 17th of February slight shocks were felt from time to time. On the 17th occurred another terrible convulsion, which exceeded in fury all the previous ones. Gulfs and fissures broader and deeper were opened, "until high land was sunk into hollows, hollows made high land," lakes emptied into the fissures, and where there had previously been dry land "broad, sheeted lakes" created. The residents were panic-stricken, and, abandoning nearly all their cattle and household property, fled from the scene of desolation. "Wreckers" flocked to the deserted town and surrounding country, and carrying off the abandoned property in flat-boats, conveyed it to Natchez and New Orleans and sold it. The extent of country visited by the earthquake embraced a circumference of about one hundred and fifty miles, taking the Indian town of Little Prairie, near Carruthersville, as the centre. The loss of human life was small. A Mrs. Lafont died from fright, and a Mrs. Jarvis was crushed by a falling log. Flat-boats on the river were found wrecked for miles and their cargoes ruined. It is believed that some members of their crews were drowned. There were no indications of any previous earthquake in this section, and no tradition of any such visitation existed among the Shawnees, Cherokees, or Delawares. Since 1812 there have been no violent shocks of earthquake, but at intervals slight commotions have been experienced.

In May, 1812, the chiefs of the Great and Little

Osage, the Sacs, Renards, the Shawnees, and Delawares met at St. Louis to accompany Gen. William Clark to Washington City.

On the Fourth of July, Capt. McNair's troop of horse and Col. Musick's company of rifles paraded. The Declaration of Independence was read by Edward Hempstead, and an oration was delivered by James T. Hull, after which dinner was served by Maj. Christy. Silas Bent presided, and Bernard Pratte was vice-president.

1813. A Fourth of July celebration took place as usual, but no account of it has been preserved.

1814. June 18th, a large number of citizens of St. Louis assembled at the Missouri Hotel to greet the return of Governor Clark "to the bosom of his friends and family."

1817. February 22d, the first celebration of Washington's birthday took place. A dinner was given at T. Kibby's "new boarding-house," at the southwest corner of Main and the present Pine Streets, preceded by a public meeting held at Washington Hall, at which Governor William Clark presided, and Col. Alexander McNair was vice-president. At the dinner a number of appropriate toasts were drunk, and "volunteer sentiments" were proposed by the president and vice-president, Maj. Morgan, Graham, and Dorman, Capt. H. S. Geyer and N. Moore, L. W. Boggs, and Thomas Hanly.

This year was an eventful one for St. Louis. Among the more conspicuous occurrences were two duels between Thomas H. Benton and Charles Lucas. The first meeting took place on the 12th of August, when Lucas was slightly wounded in the neck, and the second on the 27th of September, resulting in the death of Lucas. On the evening of the following day, Sunday, September 28th, an affray occurred in front of Kibby's boarding-house, between William Smith, a prominent merchant, and William Thorp, which resulted in the death of Smith. During the year St. Louis made a sudden advance in improvements. In the old section of the town, on Main Street, four or five brick houses were erected by Dr. Simpson and Messrs. Pratte, Bird, Douglass, and Thomas McKnight. About a dozen frame structures were also built. On the hill, in Chouteau and Lucas' addition, laid off during the previous year, frame dwellings were erected by M. Tesson, James Sawyer, Moses Scott, and William Scott, and a small brick building, the first on the hill, for his law-office, by Matthias McGirk, on the west side of Fourth Street, above Walnut. In the same year was commenced the erection of the stone jail at the southeast corner of Sixth and the present Chestnut Streets. William Christy laid off

his addition to the old town, northwest of the present Broadway and Christy Avenue, and Lisa, Bates, and Smith their addition along the river north of Biddle Street.

The Fourth of July celebration of this year took place at Mr. Didier's orchard (afterwards Block 54). A dinner, prepared by Mr. Mills, was served, at which Col. Samuel Hammond presided, with Silas Bent, vice-president.

September 13th, return announced of Auguste P. Chouteau, Jules de Mun, Robert McKnight, James Baird, J. Harro, and others, after forty-eight days' imprisonment at Santa Fé.

In the latter part of December two soldiers named Milner and Goodwin were drowned while attempting to cross the Mississippi, which was very rough at the time, in a small boat. A Mr. Criswell, "formerly residing at the mouth of the Missouri," was also drowned about the same time.

1818. On the 9th of February an Irish Emigrant and Corresponding Society was formed. At the preliminary meeting, held at the house of Jeremiah Conner, Thomas Brady was chairman, and Thomas Hanly secretary. The initiation fee was fixed at five dollars, and Jeremiah Conner, John Mullanphy, James McGunnigle, Alexander Blackwell, and Arthur McGinniss were appointed a committee on resolutions.

On the 1st of April, 1818, the first sale of lots of the town of Hannibal, which had been just laid out, took place in St. Louis. The proprietors of the town were Stephen Rector, Thompson Baird, Thomas Rector, William V. Rector, Richard Gentry, and M. D. Bates. The location was well suited for a town, and Hannibal is now one of the most thriving cities in Northeastern Missouri.

July 4th, the St. Louis Mechanics' Benevolent Society, together with other citizens, celebrated Independence-day. Joseph Charless presided, and Charles W. Hunter was vice-president. Col. Thomas F. Riddick read the Declaration of Independence. Dinner was then served by Mr. Horrocks. In the evening, "in honor of the day," Edward Hook's "very celebrated melodrama, called 'Tekeli, or the Siege of Mongatz,'" was performed at the theatre.

1819. June 9th, meeting of citizens at Col. Riddick's auction-house to prepare for the reception of President James Monroe, then on a Western tour, and expected to visit St. Louis. After reaching Nashville, Tenn., however, he was recalled to Washington.

Fourth of July celebration in Pierre Didier's orchard. Col. Auguste Chouteau presided at dinner;

William C. Carr, Dr. Pryor Quarles, and Col. Miller, vice-presidents. There was a portrait of Washington over the president's chair, surmounted by a live eagle.

Another celebration took place at Lucas' Spring, where dinner was provided. James Loper presided; David B. Hill, vice-president.

July 28th, William H. Reno and wife were killed by lightning on the Sunday preceding this date, near the house of James Berry, about five miles from St. Louis. They had taken shelter under a tree to avoid the rain.

1820. March 17th, first celebration of St. Patrick's day in St. Louis. There was an elaborate dinner, but no public display.

1825. On the 29th of April, Gen. Lafayette was publicly received by the citizens of St. Louis, on the occasion of his visit to the United States. The announcement of the proposed visit of this distinguished hero to this country was received by the citizens of St. Louis as early as the previous September. On the evening of Friday, the 10th of that month, pursuant to notice, a number of the inhabitants of the city of St. Louis assembled at the office of the register "for the purpose of making arrangements for some public demonstration of their feelings upon the arrival in the United States of Gen. Lafayette." Gen. Bernard Pratte was appointed chairman, and Thompson Douglass secretary. It was resolved that Daniel Bissell, William Christy, Auguste Chouteau, Pierre Chouteau, Sr., Bernard Pratte, Stephen Hempstead, Sr., Alexander McNair, William Rector, William Carr Lane, Henry S. Geyer, and Archibald Gamble "be a committee to superintend and direct all arrangements for the reception and accommodation of Gen. Lafayette should he determine to visit this city, and that they be authorized to call such future meetings as they may deem proper." On the Wednesday evening following, "in pursuance of above resolution, a national salute was fired, and a display of fireworks and a general illumination took place in the evening." On the 20th of September, 1824, Daniel Bissell, chairman of the committee of arrangements, wrote Gen. Lafayette at Philadelphia, tendering a welcome on behalf of the citizens, "with an earnest hope that a visit by you to this most western city of the United States will not be incompatible with either your time or your inclination." To this Gen. Lafayette replied from Washington, under date of Feb. 5, 1825:

"The resolutions which the citizens of St. Louis and of the State of Missouri have been pleased to take in my behalf could not but excite the most lively and

deep feelings of gratitude. It has ever been my intention to visit the Southern and Western States, and to be a happy witness of the wonders produced by the spirit of republican freedom and virtuous industry in your part of the Union. Obligated as I am not to leave this city before the 24th of February, and to be in Boston for the anniversary day of the battle of Bunker's Hill, where the corner-stone of a monument is to be laid, my journey must be more rapid than I would wish; but I hope to have it in my power to present the citizens of Missouri, St. Louis, and particularly you, sir, and the gentlemen of the committee, with my affectionate and respectful acknowledgments." Gen. Lafayette, about midnight on April 25, 1825, withdrew from a brilliant ball that was being given in his honor at Natchez by citizens of Mississippi, and departed for St. Louis. On the evening of the 28th the steamboat "Natchez," with Lafayette on board, arrived at Carondelet, five miles below St. Louis, and remained there overnight. On the following morning, about nine o'clock, the "Natchez" arrived at Market Street with the distinguished visitor on board. Intelligence of Lafayette's arrival at Carondelet having reached the city the night before, almost the entire population, with large numbers of inhabitants from the surrounding country, were congregated on and about the wharf. Lafayette, accompanied by his son, George Washington Lafayette, Mr. Levasseur, his secretary, and Mr. De Lyon; Col. Morse, Col. Ducros, Mr. Prieur, recorder of New Orleans, and Mr. Caire, secretary to the Governor of Louisiana, from New Orleans; Col. Scott, from the State of Mississippi; and Gen. Gibbs, Col. Stewart, Maj. Rutledge, and Mr. Balch, from the State of Tennessee, left the steamboat and was formally received by Mayor William Carr Lane and the citizens' reception committee. After an address of welcome by Mayor Lane, and a response by Lafayette, the visitors were escorted to the mansion of Major Pierre Chouteau, where a public reception was held. Gen. Lafayette was transferred from the steamer in an open barouche drawn by four white horses belonging to Major Thomas Biddle and Judge James H. Peck. Mayor Lane, Stephen Hempstead, an old Revolutionary soldier, and Col. Auguste Chouteau occupied the barouche with him. The populace followed on foot and were most enthusiastic, as they were not only at the time of the arrival, but during the period of Lafayette's stay. Capt. Archibald Gamble's horse troop was also present at the reception. After greeting those who desired to see him, Gen. Lafayette visited Gen. William Clark, superintendent of Indian affairs, and inspected his museum of Indian curiosities. Then he was conducted around

the city, and visited the lodge of Freemasons, of which he and his son were made honorary members. He was dined at four o'clock in the afternoon. At night a ball was given in his honor, from which he retired about twelve o'clock and returned to the steamer "Natchez," where he slept. The steamer lay at the wharf during the night, and at an early hour the next morning steamed off down the Mississippi for Kaskaskia *en route* to Nashville. After the visit of Lafayette to St. Louis we are told that there was a "general propensity to bestow his name upon everything. There were Lafayette hats and Lafayette dresses, etc. It happened that a couple of men who had been celebrating the occasion undertook in the evening to settle a dispute in a summary way with the fist. It was at once a *Lafayette fight*."¹

1826. May 4th, news received of the loss of a keel-boat during a heavy gale a few miles above St. Louis. Lewis Musick and wife and one of the men were drowned.

July 28th. Proclamation by the mayor of St. Louis, W. Carr Lane, announcing the death of ex-Presidents John Adams and Thomas Jefferson, and calling a public meeting to take action thereon. At this meeting it was decided to honor the deceased by firing minute-guns from twelve to one o'clock P.M. on the following Monday. It was also decided to hold a funeral service "in the new Presbyterian meeting-house" on Sunday, and that the service should be commenced by the Rev. Mr. Horrell, to be followed by a discourse by the Rev. Mr. Giddings, and to be concluded by the Rev. Mr. Monroe. Hon. James H. Peck, Henry S. Geyer, Edward Bates, Edward Tracy, and Joseph C. Laveille were appointed a committee to carry the decisions of the meeting into effect.

In September the jail was broken open by the prisoners, and among the number who escaped was John Brewer, who was to have been hanged the day following for perjury. He was never recaptured.

In 1826 an act was passed by Congress for the erection of an arsenal somewhere near St. Louis. Some time in the following year it was commenced, but it was many years after before the buildings connected with it were completed in South St. Louis, where it still stands.

In 1830 a bridge was erected across Mill Creek, at the intersection of Fourth and Fifth Streets, and

St. Louis at that time gave indications of rapid advancement.

1832. In July, 1832, on the reception of the news that President Jackson had vetoed the bill providing for the recharter of the Bank of the United States, there was an indignation meeting of the citizens of the county and city of St. Louis held at the court-house. Dr. William Carr Lane presided, and James L. Murray was secretary. Resolutions were drafted strongly expressive of indignation by a committee consisting of Messrs. Edward Bates, Pierre Chouteau, Jr., George Collier, Thornton Grimsley, Henry S. Geyer, and Nathan Ranney. Dr. George W. Call and Messrs. Frederick Hyatt, Matthew Kerr, Asa Wilgus, Thomas Cohen, and R. H. McGill also took an active part in the meeting.

1835. In this year the citizens opened an active campaign on the gamblers, idlers, and other characters whose influence was pernicious to society. An ordinance was secured from the City Council, and several of the leading offenders were imprisoned. This proved effectual, and the city was soon freed of the dissolute class.

In the same year a meeting of the citizens was called, in pursuance of a proclamation by John F. Darby, the mayor, for the purpose of memorializing Congress to let the Great National road, which was then being built, cross the Mississippi at St. Louis in its extension to Jefferson City. The mayor presided, and George K. McGunnege was secretary. A committee was appointed to draft the memorial.

Immediately following the railroad convention in 1835 a murder was committed in St. Louis which aroused the citizens to such a degree that the offender was burned at the stake. The murderer was a powerful mulatto named McIntosh, who had been arrested for interference with officers while in the discharge of their duty. On the way to the jail, in charge of Deputy Sheriff George Hammond and Deputy Constable William Mull, the negro released himself, and drawing a long knife, stabbed Mull; Hammond, on attempting to assist his brother-officer, was also attacked by the prisoner, who at a single blow cut the officer's throat, killing him instantly. McIntosh then fled, pursued by Mull, and citizens joining in the chase he was soon recaptured and imprisoned. The news of the murder spread throughout the city and created intense excitement and indignation, which was increased by the wailings of the wife and children of the murdered man, who gathered about his corpse as it lay in the street. Citizens to the number of a thousand soon collected and proceeded to the jail for the purpose of hanging the murderer, but deeming

¹ At the time of Lafayette's visit to St. Louis there was an old Frenchman living there named Alexander Bellissime, who had been a soldier under Lafayette in the Revolutionary war. Bellissime made himself known to his old commander, who embraced him with much feeling, and the scene which ensued is described as very affecting.

that the crime justified a greater requital, the sentiment changed in favor of burning. The negro was accordingly dragged to the bank of the river, where he was tied to a tree, and a pile of dry, resinous wood was arranged about him. This was ignited, and thus the negro expiated his atrocious crime by being burned alive. The place where the negro was burned is now Tenth and Market Streets, then a common.

1833. June 27th, a destructive storm passed over the city about 8.30 p.m. Houses were blown down and unroofed, walls demolished, trees uprooted, etc. The damage was confined to the Middle and North Wards. The cupola of the Episcopal Church was blown off, and the North Ward market-house was leveled with the ground. A portion of the Methodist Church was also carried away. One colored woman was killed by lightning and several persons were injured.

1837. August 9th, J. Sylvester's jewelry store was robbed of from fifteen hundred to two thousand dollars' worth of jewelry while the proprietor was absent at dinner.

October 12th, Mrs. Hamilton, widow of Alexander Hamilton, arrived in St. Louis on her way East from a visit to her son, Col. William S. Hamilton, of Wisconsin.

1838. February 22d, subscriptions asked for a dinner to be given to Gen. Gaines at the City Hotel on the following day. The committee of arrangements were William Glasgow, Col. William Chambers, Aug. Kennerly, F. W. Risque, J. C. Dennis, T. L. Fontaine, John R. Scott, Henry Smith, J. W. Folger, Col. J. W. Johnson, Col. J. C. Laveille, G. K. McGunegle, S. W. Wilson. At the dinner, which is described as having been a brilliant affair, Mayor William Carr Lane presided, assisted by Gen. John O'Fallon. Gen. Gaines responded to a toast in his honor.

October 12th, a ball was given by the citizens of St. Louis at the City Hotel in honor of Governor Boggs.

1838. In the summer of 1838, Judge Thomas M. Dougherty, of the County Court, accompanied by Linton Sappington, was coming to St. Louis, but the latter stopped at the grocery store of Mr. Bussel, immediately upon the road. A few moments later, when Mr. Sappington rode onward, about a quarter of a mile from the store, he discovered Judge Dougherty weltering in his blood a little distance from the roadside. He was breathing heavily, and died before he could be removed. There was much excitement regarding the murder, and although a thousand dollars was offered for the discovery and

conviction of the murderer, he was never apprehended.

1840. In this year, Andrew J. Davis, proprietor of the *Argus*, was assaulted with an iron cane by William P. Darnes, in consequence of a personal attack made on the latter in the columns of the paper. Mr. Davis died from the effects of these wounds. Mr. Darnes was tried, convicted of manslaughter in the fourth degree, and was fined five hundred dollars.

1841. August 14th, Mr. Hobart ascended in "a balloon of mammoth dimensions" from an inclosure in the upper portion of the city.

November 8th, a meeting of "the friends of Ireland" was held at the court-house for the purpose of organizing an association. Hon. Luke E. Lawless presided. The following officers were elected: Col. John O'Fallon, president; L. E. Lawless, James Clemens, Jr., vice-presidents; Julius D. Johnston, corresponding secretary; John P. McNeal, recording secretary; Edward Walsh, treasurer.

A constitution and by-laws were adopted, and the following committee to solicit subscriptions was appointed: First Ward, D. Carton, John Corcoran; Second Ward, J. G. Barry, P. M. Dillon; Third Ward, William Tighe, Michael Kelly; Fourth Ward, John Donald, John Rice; Fifth Ward, Hugh O'Brien, Mathew Hogan.

In November of this year the Prince de Joinville and suite arrived in the city from the upper Mississippi, and left five days later on board the steamboat "Boston" for Louisville and Pittsburgh. During his short sojourn he was waited upon by many of the citizens, especially the French.

1842. In June ex-President Martin Van Buren visited St. Louis and was accorded a public reception, incident to which there was a civic and military parade.

1843. March 29th, a meeting held at Concert Hall to explain and defend the doctrines of Millerism was broken up by a riotous assemblage, which pelted the speaker with eggs. June 3d, Dr. Lardner, the scientist, arrived in St. Louis.

On the 8th of May, Col. R. M. Johnson, the popular Kentucky veteran, reached St. Louis and was received with a popular demonstration, in which the military were most conspicuous. Col. Johnson remained until the 12th, and was fêted constantly during his stay. The committee on reception were Messrs. N. Ranney, C. Mullikin, T. H. Holt, A. Wetmore, William Palin, John O'Fallon, William Milburn, John M. Wimer, J. B. Col, J. C. Lawless, Hardage Lane, O. D. Filley, J. B. Bowlin, F. Kennett, John M. Krum. In May other distinguished

visitors were in the city, among the number Hon. John J. Crittenden, senator, and William J. Graves, member of Congress from Kentucky, the Hon. J. Philips Phoenix, member of Congress elect for the city of New York, Professor Silliman, the eminent scientist, Josiah Quincy, Jr., and Charles F. Adams, of Massachusetts.

1845. December 22d, the two hundred and twenty-fifth anniversary of the landing of the Pilgrims at Plymouth Rock was celebrated at the Second Presbyterian Church.

1847. In 1847 a meeting of "the friends of Ireland" was called, at which Col. John O'Fallon presided and Christopher Garvey was secretary. The meeting was for the relief of the sufferers in Ireland, and to carry out its object the following were chosen as committee: Col. J. O'Fallon, Col. Joshua B. Brant, George Collier, Judge Bryan Mullanphy, Capt. John Simonds, Edward Walsh, John Finney, Col. Robert Campbell, Eugene Kelley, William Lindsay, Col. T. Grimsley, H. Von Phul, R. M. Rennick, A. Elliott, George Buchanan, George K. McGunnege, A. Vinton, J. E. Yeatman, A. Piggott, P. Slevin, and Capt. William Rowe.

There were meetings held also of Scotch citizens and those of Scotch descent to relieve the destitution of that country. Taking the lead for the relief of Scotland was Kenneth Mackenzie, Col. A. D. Stuart, H. Ogden, T. M. Taylor, T. S. Rutherford, Thomas Webster, John S. Thompson, W. B. Barber, James Moffat, Thomas Primrose, N. E. Janney, William Strachan, Judge Ferguson, and D. A. Marshall.

Anniversary Celebration of the Founding of St. Louis.—On the evening of 22d of January, 1847, a large meeting of citizens was held at the Planters' House to consider the expediency of celebrating the anniversary of the founding of St. Louis, Feb. 15, 1764. On motion of L. V. Bogy, Archibald Gamble was appointed chairman, and Judge A. W. Manning secretary. Col. Bogy explained the object in view, and the following resolution was adopted:

"Resolved, That we will celebrate the approaching anniversary of the founding of St. Louis, on the 15th of February, by a public oration, dinner, and ball."

On motion of Col. T. Grimsley, the following committee of arrangements was appointed: Col. Thornton Grimsley, Hon. B. Pratte, Ed. Walsh, Ed. Tracy, P. M. Dillon, Archibald E. Orme, Martin Thomas, Asa Wilgus, Samuel Treat, Robert Campbell, William Risley, Peter Ferguson, Sullivan Blood, James J. Purdy, John F. Darby, John Finney, Louis A. Lebeaume, H. F. Christy, Wilson Primm, D. B. Hill, Pascal Cerré, George Collier, Henry Von Phul, John B. Sarpy, Thomas Andrews, Charles Keemle, J. M. Field, A. B. Chambers, L. V. Bogy, David Tatum, Henry S. Geyer, John Shade, Edward Bates, James Clemeus, Jr., Nathan Ranney, Edward Charles, John O'Fallon, Fred. R.

Conway, Capt. Gregory Byrne, C. C. Cady, J. D. Learned, William C. Lane, P. G. Camden, Ferdinand Kennett.

A committee was also appointed to wait on the venerable Pierre Chouteau, Sr., brother of Auguste Chouteau, who assisted Laclede in laying out the town, and invite him to participate in the celebration. The committee consisted of John O'Fallon, William C. Carr, and William Milburn. A motion was adopted that the city newspapers be requested to publish the proceedings of the meeting. At a meeting of the committee appointed to take charge of the necessary preparations, held at the Planters' House, subsequent to the meeting above mentioned, Col. Thornton Grimsley in the chair, and J. M. Field acting as secretary, it was "*Resolved*, That a meeting of the committee be held at the Planters' House the following evening, to take action on the subjects confided to their charge." At a meeting of the same committee, held several days later, definitive action was taken on all the propositions submitted except the dinner, and consideration of that subject was postponed. The announcement was made that Wilson Primm, a descendant of one of the founders of St. Louis, and himself a distinguished lawyer, had accepted the appointment of orator of the day, and it was determined that there should be a procession through the principal streets to the rotunda of the court-house, where the oration was to be delivered. Col. Thornton Grimsley was appointed chief marshal, and it was agreed that there should be a ball in the evening at the Planters' House.

Considerable opposition to the proposed ball was developed, and it found expression in a meeting called "to consider the propriety of striking out that part of the programme (relating to the dinner and ball) and adding such other measures as will give all an opportunity of participating." In pursuance of this call, a meeting was held at the Planters' House on the 28th of January, George Knapp presiding, and A. P. Ladew acting as secretary. Resolutions were adopted to the effect that the programme as originally agreed upon, embracing an ovation, a public dinner, and a ball, was "the most appropriate and fitting for the occasion." It was also agreed that those present should use every means in their power to render the festival worthy of the occasion and the city. This seems to have finally disposed of the objections raised, as we hear of no further opposition. In order to provide against the contingency of unfavorable weather, it was decided that should the day prove inclement the place for the delivery of the oration should be changed from the rotunda of the court-house to the theatre. The precaution, however, proved unnecessary,

as the day of the celebration, according to contemporary chroniclers, was mild and clear.¹

At eight o'clock, Col. Thornton Grimsley, grand marshal, accompanied by the aids and assistant marshals, all on horseback, the volunteer artillery company, Lieut. Holzseheiter commanding; a portion of the Phoenix Fire Company, under the direction of Henry Pilkington and bearing the banner of the company, on which was a representation of the landing of Laeède; the Washington Brass Band, directed by Mr. Barkley, and a fife and drum corps, under the command of Drum-Major Roques, assembled on Water Street, about midway of the block between Market and Chestnut, on the spot where Laeède landed on his return from Fort de Chartres in 1764. At the same hour a national salute of twenty-nine guns was fired, and was followed by salutes in honor of Laeède, Thomas Jefferson (two guns), and the cession of Louisiana to the United States (three guns). These salutes were responded to by salvos from the boat-yards in the upper part of the city. After the national salute the Washington Band played the "St. Louis Imperial March," composed for the occasion. About nine o'clock the following officers of the celebration had assembled at the Planters' House:

Committee of Arrangements.—Col. T. Grimsley, B. Pratte, Edward Walsh, Edward Tracy, P. M. Dillon, A. E. Orme, Martin Thomas, Asa Wilgus, S. Treat, Col. R. Campbell, William Risley, P. Ferguson, S. Blood, J. J. Purdy, J. F. Darby, J. Finney, L. A. Lebeaume, Edward Charles, H. F. Christy, W. Primm, D. B. Hill, Pascal Cerré, George Collier, Henry Von Phul, John B. Sarpy, Thomas Andrews, Charles Keemle, J. M. Field, A. B. Chambers, L. V. Bogy, D. Tatum, Henry S. Geyer, John Shade, Edward Bates, James Clemens, Jr., Nathan Ranney, John O'Fallon, Fred. R. Conway, Capt. Gregory Byrne, C. C. Cady, Gen. J. D. Learned, Dr. William C. Lane, P. G. Camden, Ferdinand Kennett, J. A. Sire.

Grand Marshal, Aids, and Assistants.—Col. Thornton Grimsley, grand marshal; Aids, Col. Charles Keemle, Hon. David Chambers; Assistant Marshals, First Ward, B. A. Soulard, Allison Merrill, E. W. Paul, D. B. Hill, John Fulton, Henry C. Lynch, F. W. Beekwith, Samuel H. Pilkington, John Dunn; Second Ward, G. G. Presbury, M. L. Cerré, Henry Almsted, A. Lemp, Adolphe Paul, Wm. Cozzens, Richard Dowling, C. A. Schnabel, Fred. Kretschmar, Dr. John Shore; Third Ward, Thomas Campbell, Daniel Finch, John Hanson, Thomas Gray, C. L. Hunt, John J. Anderson, A. Brewster, V. Staley, George A. Colton; Fourth Ward, Dr. B. B. Brown, H. J. Clayton, David Tatum, Robert Barth, Nathaniel Coleman, J. B. Gerard, Wm. A. Lynch, Charles Walton, Charles H. Peck, William C. Essex; Fifth Ward, James M. Allen, H. M. Snyder, J. G. Shands, A. H. Glasby, Charles E. Loring, Daniel R. Garrison, J. E. D. Cozens, Charles P. Pond, George A. Gannett, Wm. O. Shands;

Sixth Ward, R. B. Austin, S. V. Farnsworth, W. G. Clark, C. W. Lightner, N. Aldrich, Peter Brooks, C. W. Schaumburg, C. R. Anderson, Gregory Byrne, John R. Hammond.

In addition to the above were the following invited guests, men who were residents of St. Louis or the surrounding country at a very early day, some of them before the transfer of the Territory to the United States:

Pierre Chouteau, Pierre Chouteau, Jr., Paul L. Chouteau, Simon Sanguinet, R. Dufrene, Vincent Guion, H. Sappington, J. Baptiste Hortiz, G. S. Choutcau, J. Baptiste Belcour, John Perry, Antoine Schmidt, L. S. Martin, Louis Lemonde.

A number of other gentlemen, including the Governor, State officers, and judges of the Supreme Court, were unable, owing to ill health and other causes, to be present. The various organizations which were to take part in the procession appeared at the points of formation at an early hour, and the spectacle, as they marched through the streets, was very enlivening. Flags and festoons were suspended from the windows of many buildings, and the decorations along the route of the procession were especially handsome and profuse. Business was almost entirely suspended, and the streets were thronged with interested spectators. The assemblage in front of the court-house, where the oration was delivered, was immense. The formation of the line commenced at ten o'clock, and the procession moved half an hour later in the following order:

The Chief Marshal and his Aids.

The Washington Brass Band.

The military as follows:

St. Louis Grays, under command of Capt. West.

N. A. Rangers, under command of Lieut. Barnes.

Fusiliers, under command of Capt. Wagener.

Jaegers, under command of Capt. Korponay.

Artillery, under command of Lieut. Holzseheiter.

Dragoons, under command of Lieut. Steitz.

The whole of the military under the immediate command of Lieut.-Col. Kennett, of the St. Louis Legion.

Following the military came the Apprentices' Library Association, Joseph F. Schiefer, marshal. This association carried the banner of the committee of arrangements. In the front of the line it bore the national flag with a streamer, on which was the name of the association, and in the rear the banner presented to the committee of arrangements by the ladies of St. Louis, through S. Rimmer. This banner was of satin, with the name "Laeède" embroidered on one side, and the words "Our City" on the other. Next in order after the Apprentices came the committee of arrangements, two and two, wearing red badges, and following them the invited guests. In an open carriage was seated the aged Pierre Chouteau, president of the day. Mr. Chouteau was then considerably over ninety years of age. He was accompanied by

¹ "The morning," says the *St. Louis Republican* of February 17th, "opened mild, with a hazy and dense atmosphere, not unlike a morning in Indian summer, and the streets generally were dry and the walking pleasant. Nature seemed to have given just such a day as suited the occasion."

his sons, Pierre Chouteau, Jr., and Paul Liguette Chouteau, and by Gabriel S. Chouteau. Four Indians mounted on horses acted as a guard of honor to Mr. Chouteau. In the next carriage were the Hon. William C. Carr, Col. J. O'Fallon, and Gen. William Milburn, the committee of invitation to Mr. Chouteau. Then followed in another carriage other invited guests. The next feature of the procession was a representation of the "General Pike," the first steamboat that arrived at St. Louis.¹

In the wake of the "General Pike" marched a long procession of boatmen and boys, after whom followed a model, drawn on wheels, of the steamer "Laclede," then considered to be one of the finest vessels on the Mississippi River. The "Laclede" was named for the founder of St. Louis, and was built in that city. After this model came the mayor and city officers, two and two, followed by the various companies of the fire department in uniform and in the order of their incorporation, which was as follows:

1st. The Central Hose Company, preceded by their officers, with flags; next their engine, drawn by four black horses.

2d. The Union, No. 2, Hose Company, their hose dressed in blue, corresponding with the uniform of the men, and their engine, drawn by the company.

3d. The Washington Hose Company, and the engine, drawn by four gray horses, bearing a banner, on which was the likeness of General Washington; dress, yellow.

4th. Tiger Hose Company, which was attached to the St. Louis Engine Company, in scarlet uniform. They carried with them a triangle and gong, "with which they saluted the public as they passed."

5th. The Missouri, preceded by their banner. Following this were a number of Indians in full costume; then the hose company, and the engine, drawn by four gray horses.

¹ This vessel, commanded by Capt. Jacob Reed, arrived at St. Louis in July, 1817. The miniature representation was about twenty feet long, and its hull was that of a barge. The wheels were exposed, and she was propelled by a low-pressure engine, with a single chimney and a large walking-beam. The crew were supplied with poles, and when the current was too strong for the vessel's steam-motor they used the poles to assist in propelling her. The model was mounted on wheels and drawn by eight horses, and was manned by a crew of steamboat captains. Capt. Throckmorton paced the deck, telescope in hand, and directed the movements of the little vessel. From the log-book of the "voyage" it appears that the crew was made up as follows:

J. Throckmorton, master; George Ransom, mate; Thomas Nelson, pilot; Charles La Barge, steersman; J. C. Burkinbine, starboard deck hand; Charles Conroy, larboard deck hand; John Lee and N. J. Eaton, firemen on the first watch; and Hugh Campbell and John Shaw, firemen on the second watch.

6th. The Liberty, preceded by their banner. The carriage was dressed with flowers, and the men wore handsome uniforms. The engine was drawn by six dun horses.

7th. The Phoenix, preceded by a banner provided for the occasion. On the front was represented the landing of Laclede. He occupied the foreground. To his left was a surveyor, who had drawn a plot of the town, and was exhibiting it on the ground. Behind him stood a number of hunters and trappers, and in the rear was the rocky bluff that once showed itself along the shore. On the left the disembarkation of the goods and effects of the pioneers was going on, and in the rear an interpreter was endeavoring to make friends with the Indians. In a scroll above was the name of Laclede, and below the date of his landing. On the reverse of the banner was a phoenix rising from its ashes, with the name of the company and the date of its incorporation.

8th. The Franklin, preceded by a banner with the portrait of Franklin upon it. The hose company and members made a fine appearance, their yellow fire-hats and black capes with gilt letters making them very conspicuous. Their engine was drawn by four bay horses.

Next in order was the Hunting Club, all the members being in full hunters' costume, and provided with horns, buck-tails, and double-barreled shot-guns. Capt. Maedonough's horse supported on his head a large pair of buck's horns. The club was headed by the president and vice-president, Capt. Cohen and Green Erskine, respectively. Following the Hunting Club came the Hibernian Society, preceded by a band of music, and wearing green sashes, and carrying their banner, the harp of Erin. To this organization succeeded a procession of maskers, in carriages and on horseback, wearing grotesque costumes. Next came an omnibus drawn by four horses and filled with citizens. The omnibus was followed by Henry Dolde's ear, heavily laden with bread, and next in order were the public schools. School No. 3, under D. Armstrong, headed the line. It was followed by the Sixth Ward school, and the rear was brought up by School No. 1.

In the line was borne a banner prepared for the occasion, and presented to the schools by the Board of School Directors. It was decorated with a painting of Minerva, goddess of wisdom, and appropriate emblems and inscriptions. After the schools came the lodges of Masons and Odd-Fellows, both orders being in full regalia, and bearing a number of handsome banners. The Odd-Fellows numbered three hundred, and were under the command of their chief

marshal, C. M. Valteau. The city lodges marched in the order of seniority, as follows: Excelsior, No. 18; Missouri, No. 11; St. Louis, No. 5; Germania, No. 3; Wildey, No. 2; and Travelers' Rest, No. 1. Next came the encampment, under the immediate control of the Most Worthy Grand Chief Patriarch, Gerard B. Allen. Lastly came the Right Worthy Grand Lodge. The Most Worthy Grand Master, Isaac M. Veitch, brought up the rear.

The Odd-Fellows were followed by a deputation of brewers, the firms of Lemp, McHose & English, G. Snyder and Winckelmeier being represented. At the head of the procession was a mammoth cask, drawn by four gray horses, on which was seated a representation of the king of Flanders and Brabant, the reputed inventor of beer, bearing a pitcher of the foaming beverage. There were also three large casks surrounded by the implements of brewing. Behind the brewers marched the coopers. At the head of their line was an immense cask on a car drawn by four horses. Seated on the cask was a master-cooper, and several coopers walked on either side holding ribbons attached to the cask. After them marched along line of coopers, bearing implements of their trade. Next followed a wagon belonging to D. Colver's brewery, and behind it came the free school of St. Louis University, numbering seven hundred pupils, which, in turn, was succeeded by the students of the university. Following these was Mr. Wyman's High School, numbering one hundred and seventy-five scholars, and bearing several handsome banners, one of which had been presented by the pupils of "Edgewater Seminary." Then followed the Evangelical German Lutheran School, and a printing-press in a car, with several boys engaged in printing and distributing an ode composed for the occasion on behalf of the Typographical Association by John P. Shannon. Following the press came a long line of printers, including the St. Louis Typographical Association, after whom marched the Society of Saddle, Harness, and Trunk-Makers, Oscar F. A. Scruggs, marshal. They were followed by the St. Cecilia Society in carriages, and by citizens in carriages and on horseback.

The procession moved from Fourth, along Market, into Fifth Street, down Fifth to Carondelet Avenue, where it wheeled into Second Street; up Second Street to Spruce, along Spruce to Fourth, up Fourth to Washington Avenue, along Washington Avenue to Fifth, up Fifth to Franklin Avenue, along Franklin Avenue to Sixth, down Sixth to Washington Avenue, along Washington Avenue to Fifth, down Fifth to Chestnut, along Chestnut to Fourth, where

the line was countermarched. When the head of the procession, on its way down Fifth Street, reached the centre of the block between Chestnut and Pine, the rear was at the hospital, corner of Fourth and Spruce Streets. After marching as far as practicable, for it was soon evident that the width of the street did not admit of the whole line making this evolution, the procession was dismissed.

The Washington Band then played the "Marseillaise," after which the pupils of School No. 3, who had occupied a position in front of the speakers' stand, sang an ode written for the occasion and set to the tune of "The Old Granite State." The band then rendered a march specially composed for the celebration.

A stand had been erected on the sidewalk on the east side of Fourth Street, fronting the court-house. An immense assemblage filled the street from Market to Chestnut Streets, and back to the court-house and the court-house yard. On the platform were seated among others the four Indians who constituted Mr. Chouteau's body-guard. When the music had ceased, the grand marshal, Col. Thornton Grimsley, introduced Wilson Primm as the orator of the day.

Mr. Primm began his address with a historical review of French conquest and colonization in the valley of the Mississippi, and then proceeded to describe the cession of that country's territory in the valley to Spain, and subsequently to the United States, the surrender of Fort de Chartres to England, and the settlement of St. Louis, and narrated at length the political and economic history of the city.

After the oration the committee of arrangements, the invited guests, the marshal and his aids and assistants, and a number of citizens assembled at the Planters' House, where a collation had been prepared. At the table the following officers presided:

Gen. John Ruland, President.

VICE-PRESIDENTS.

John F. Darby.	Asa Wilgus.
H. Von Phul.	Dr. Robert Simpson.
F. R. Conway.	Col. John O'Fallon.
Dr. B. G. Farrar.	Wyllis King.
Edward Bates.	Col. J. B. Brant.

Col. Charles Keemle, *Toast-master.*

The sub-committee on the dinner consisted of Col. F. Kennett, Joseph M. Field, Edward Walsh, Henry S. Geyer, John F. Darby, Samuel Treat.

Pierre Chouteau, president of the day, was seated immediately on the right of Gen. Ruland. The vice-presidents presided at the different tables. Preparations had been made to seat twelve hundred persons, but owing to the belief that there would be too great an assemblage for comfort, many were de-

tered from attending, and there were not more than four hundred persons present. John F. Darby, first vice-president, called the meeting to order. After dinner was over, the first toast, "The Founders of St. Louis," was read by Col. Charles Keemle, toast-master, and repeated by D. Armstrong. It was responded to by L. V. Bogy, on behalf of Mr. Chouteau, and Mr. Bogy proposed, in the name of Mr. Chouteau, a toast to the memory of Pierre Liguete Laeède, the founder of St. Louis. After the toast had been drunk in silence and standing, Mr. Chouteau rose, and in a few remarks in the French language bore testimony to the purity, simplicity, and honesty of the early inhabitants of St. Louis. The band then played the "Laeède March," composed for the celebration.

The toast "Missouri" was not responded to, owing to the absence of Governor Edwards, and Col. Campbell, the Governor's aid, proposed the sentiment "The City of St. Louis,—one of the many instances in which we are indebted to the sagacity of Indian traders for the selection of the site of a commercial city." G. W. Jones, of Iowa, responded to the toast "The Union," after which a letter was read from the Hon. R. W. Wells, regretting his inability to be present. Another toast to St. Louis was responded to by William C. Carr and Mayor P. G. Camden. The following toasts were also drunk: "The Orator of the Day," responded to by Wilson Primm; "The Western Hunter and Trapper," responded to by Hon. Thomas Allen and Mr. Crockett; "Our Army,—the Volunteers and Regulars," responded to by Col. Ferdinand Kennett; and "The Press," responded to by A. B. Chambers. After the toast to "Law and Medicine," Mr. Chouteau, the guest of the evening, who was in feeble health, rose to retire, and was greeted with three cheers twice repeated. As he withdrew the band played "Hail to the Chief," and the company remained standing. Edward Bates replied to the toast "Law and Medicine," and the remaining toasts and those who responded were the following: "Public Education," by the Rev. Dr. Goodrich; "Thomas Jefferson," by Mr. Polk; "Western Boatmen," by Capt. Eaton; and "The Mothers of St. Louis," by John F. Darby. A letter of regret at his inability to attend, owing to indisposition, was read from S. Labadie. Col. Thornton Grimsley then announced that the Laeède banner, made by the ladies of St. Louis, would be presented to Pierre Chouteau, the only person living who had seen Laeède. Mr. J. S. Robb made a humorous speech, and brief addresses were made by Col. John O'Fallon, Gen. Ruland, who gave the health of Grand Marshal Grimsley, G. R. Taylor, and Mr. Treat, of the *Union*

newspaper; Mr. Polk, who proposed a toast to the memory of Governor William Clark; Mann Butler, who toasted the memory of George Rogers Clark; Col. Brant, the memory of Gen. Henry Atkinson; Gen. Ranney, the memory of Capt. Reed; Mr. Field, who proposed the health of "our worthy host," S. Rimmer; Nathaniel Paschall, who toasted the memory of Col. Auguste Chouteau; Mr. Cady, the health of Nathaniel Paschall, "one of the pioneers of the St. Louis press;" Mr. Curtis, the memory of Joseph Taylor, the companion of Laeède, and who first built a mill in St. Louis; N. E. Janney, who offered a toast to "Romulus and Laeède; and J. S. Robb, who proposed the health of Col. Keemle, the oldest printer west of the Mississippi. Dr. Linton and J. M. Holmes also made addresses. The health of Henry Von Phul, the oldest merchant in St. Louis, was drunk with enthusiasm. After several more toasts had been offered the banquet terminated.

Between eight and nine o'clock in the evening the ball, with which the celebration closed, commenced at the Planters' House. There was a very large attendance, and the entertainment is described as having been of a most brilliant and successful character.

The managers of the ball were—

Joseph A. Sire, Bernard Pratte, Charles Chouteau, Frederic L. Billon, Amedee Vallé, Michael L. Cerré, Charles Cabanné, William L. Ewing, Joseph Boujou, Henry Von Phul, S. B. Churchill, James Clemens, Jr., H. S. Geyer, G. W. Goode, Jefferson R. Clarke, Charles F. Tracy, N. Berthoud, W. H. Belcher, D. B. Morehouse, John H. Ferguson, Richard Brewster, Gen. Milburn, Thomas Andrews, John G. Shelton, David D. Hill, John Withnell, R. M. Parks, John S. Watson, A. B. Chambers.

The sub-committees were—

Sub-Committee of the Committee on Arrangements, having special charge of the preparations for the ball, George Collier, John B. Sarpy, Gen. B. Pratte, E. Charles, J. Clemens, Jr., C. C. Cady, Col. T. Grimsley.

Sub-Committee on Invitations, A. B. Chambers, F. R. Conway, J. B. Sarpy, H. Von Phul.

Sub-Committee on Finance, Col. R. Campbell, Capt. S. Blood, William Risley, Capt. J. A. Sire.

Sub-Committee on Procession and Oration, Col. Lewis V. Bogy, Asa Wilgus, Col. Charles Keemle, Gen. N. Ranney, Capt. G. Byrne, David Tatum.

1847. In August, Gen. Phil Kearney arrived in the city and received his friends at the Planters' House.

1848. January 21st, a mass-meeting of Germans, for the organization of a society for the furtherance of the republican cause in Germany, was held at the court-house. William Palm was elected chairman, and William D'Oench, Charles Huth, John Kern, L. Braun, Louis Bach, Joseph Pfeiffer, George A. Krug, Dr. Wiebe, and Charles Muegge, vice-presi-

dents, and Arthur Olshausen, secretary. At a previous meeting, held Dec. 27, 1847, an address had been delivered by Frederick Hecker. Subsequently an address to the German nation was prepared and forwarded to Germany. The following officers were elected: President, William Palm; Vice-President, Col. Waldemar Fischer; Recording Secretary, O. Beckendorff; Corresponding Secretary, Dr. A. Hammer; Treasurer, John Kern.

1852. July 12th, many houses draped in mourning for Henry Clay, who died June 29th. At night there was an immense torchlight procession. The officers were: Grand Marshal, Thornton Grimsley; Aids, Col. A. B. Chambers, C. Kribben; Assistant Marshals, Henry N. Hart, Isaac H. Sturgeon, Basil Duke, Frederick Kretschmar, Augustus H. Linn, Leo D. Walker, D. T. Wright, J. C. Edgar, Lucien Carr, J. T. Camp, Dr. John Shore.

The procession moved down Fifth Street to the intersection of Fourth and Fifth Streets, up Fourth to Locust, up Locust to Fifth, up Fifth to Washington Avenue, up Washington Avenue to Eighth, down Eighth to Olive, up Olive to the Lucas Place.

The following was the order of procession:

Marshal and his Aids.

St. Louis Brass Band.

St. Louis Grays, Capt. Knapp.

Missouri Jaegers, Capt. Schaeffer.

(With their respective banners furled, shrouded in crape.)

Bishop C. S. Hawks, Chaplain, and Uriel Wright, Orator.

Rev. S. S. Gassaway, Rector of St. George's; Rev. Mr. Leech, Rector of St. Paul's.

Then came the pall-bearers in twenty carriages. They were Col. Thomas H. Benton, John D. Daggett, Thomas Andrews, Matthew Kerr, Robert Simpson, Gabriel Chouteau, Edward Tracy, F. Dent, P. Chouteau, Jr., J. B. Sarpy, Henry Von Phul, Peter Lindell, Jesse G. Lindell, Beriah Cleland, Maj. Richard Graham, Sullivan Blood, John Smith, Thornton Grimsley, V. J. Peers, George H. Kennerly, Gen. William Milburn, William Waddingham, David B. Hill, John Finney, Col. John O'Fallon, William Finney, Lewis Bissell, Edward Walsh, J. Clemens, Jr., Archibald Gamble, John K. Walker, Peter Ferguson, Hamilton R. Gamble, Phineas Bartlett, H. G. Renard, Charles Chambers, Robert Wash, John Goodfellow, James J. Purdy, Emanuel Block, Isaac A. Letcher, Andrew Elliott, James C. Sutton, Marshall Brotherton, Louis A. Lebeaume, Bernard Pratte, L. A. Benoit, John H. Gay, James H. Lucas, Henry Shurlds, P. D. Papin, John Simonds, William Glasgow, William Renshaw, Jr., William G. Pettus, Joseph A. Sire, Nathaniel Paschall, Charles Keemle, Elkanah English, Michael S. Cerré, Henry Chouteau, John Rice, Samuel Hawken.

Immediately behind the hearse was the American flag, furled and shrouded in crape, and borne by three members of the United Order of American Mechanics, viz.: State Councilor, M. B. Laughlin; Vice State Councilor, J. L. Faucett; Secretary, I. L. Bailey. Afterwards followed the

Funeral Car, drawn by six horses.

Committee of Arrangements.

Mayor.

City Council and Executive Officers of the city.

Judges of all the Courts.

Members of the Bar and Officers of the Courts.

Officers of the Army and Navy of the United States.

Union Swiss Guards, Capt. Fry.

Lafayette Guards, Capt. Vanhover.

Washington Grenadiers.

(With their respective banners furled and shrouded with crape.)

Order of Ancient Free and Accepted Masons.

Independent Order of Odd-Fellows.

United Order of American Mechanics.

Hibernian Benevolent Association.

German Benevolent Society.

All other Scientific, Literary, and Charitable

Associations, in the order they arrived

on the ground.

St. Louis Fire Companies,

in the order in which they arrived.

Citizens on foot.

Missouri Dragoons, Capt. Brinkman.

Missouri Artillery, Capt. Almstead.

Citizens in carriages.

Citizens on horseback.

Besides these were the association of German Gymnastics, the students of St. Louis University, the society of steamboat engineers, and various other bodies. A number of transparencies were borne in the procession, among them one by the "St. Louis Printers' Union," T. G. Forster, marshal. Several of the engines and carriages of the fire department were handsomely decorated. On the 13th a large assemblage gathered in the space in front of Yeatman's Row to listen to a eulogy upon the character of the dead statesman, delivered by Maj. Wright.

In 1848, at a time when excitement ran high over the victories of the American army in Mexico, the intelligence of the revolution in Paris was received with great enthusiasm, and there was a large meeting held on April 19th; Judge John M. Krum was chosen president, and Alexander Kayser, David Chambers, Judge Bryan Mullanphy, and John F. Darby, vice-presidents, and C. E. Lebeaume, Lewis Cortambert, and Alexander J. P. Gareschè, secretaries. The meeting was largely attended, but it was only preliminary to a general mass-meeting that was in contemplation, for which a committee was appointed to prepare an address and suitable resolutions, consisting of R. S. Blennerhassett, James Lemen, Daniel H. Donovan, John F. Darby, Wilson Primm, James G. Barry, Col. L. V. Bogy, Capt. Deegan, D. A. Magehan, Lewis Bach, Robert Cathcart, J. S. Hall, Reuben B. Austin, P. G. Camden, Judge Schaumburg, Judge Mullanphy, and William Weber. The address at the mass-meeting was delivered by Pierce C. Grace. About the same time the French citizens also held a meeting, at which Dr. John Rivereau presided, and Wilson Primm was secretary.

1852. In March, Louis Kossuth, the Hungarian

patriot, visited St. Louis, and not only obtained very substantial contributions in aid of the cause which he represented, but was received with popular and distinguished honors. He was accompanied by Madame Kossuth and a suite of thirteen persons. He was received on March 9th, on landing from the steamer "Emperor," by a citizens' committee of one hundred, of which Mayor Kennett was chairman, and was escorted by the military and populace to the Planters' House, where he held a reception. On March 12th there was a grand military and civic parade in his honor. During his stay Kossuth was the object of marked attention, and was visited by delegations from the cities of Missouri and other Western States, and invited to visit them also.

1854. In March a prominent event occurred in the history of St. Louis in the reception and entertainment by the city authorities and commercial bodies of the Governor, judiciary, and Legislature of Illinois. The banquet was given March 2d in the Mercantile Library Hall, Mayor John How, of St. Louis, presiding. On June 12th, ex-President Millard Fillmore visited St. Louis, and received a grand ovation from its citizens. The intelligence of his coming was received on Sunday, the previous day, and preparations were at once made for his reception. A committee on reception, escorted by two companies of military, proceeded on a steamboat up the Mississippi to meet the distinguished guest. On the arrival at the city, Mr. Fillmore was received by Mayor How and the city authorities, and was escorted by a procession of military and citizens to the Planters' House, where he was formally received and made a speech. The next day he gave a public reception, and was the city's guest until Wednesday, 14th.

April 27th, a terrific hail-storm swept over the city and inflicted considerable damage. A local account asserts that the streets looked as though they had been "paved with crystallized pebbles." The storm was even more severe at Jefferson Barracks, and the destruction of property was considerable. In Bonhomme township fences and out-houses were prostrated in every direction, and at Carondelet some twenty or thirty houses were unroofed or injured in some other way. No lives were lost.

May 14th, the death was announced of the "Soap Grease Man," a local celebrity who earned his livelihood by going from house to house and purchasing grease for soap. He went about in a wagon, and wore a cockade in his hat and a sword at his side.

1857. In April of this year George Peabody, the banker and philanthropist, visited St. Louis, and was received by the Chamber of Commerce.

1858. May 4th, a number of United States officers arrived in St. Louis on their way to Utah to suppress the rebellion there. Among them were Gen. W. S. Harney, Gen. P. F. Smith, Col. J. E. Johnston, Maj. N. C. Macrea, Maj. J. W. W. Chapman, Capt. A. A. Humphreys, and Capt. A. Pleasonton.

1859. May 10th, a prize-fight took place near the Abbey Race-Course, between James Smith, *alias* "Bendigo," of Philadelphia, and Pat Curley, of St. Louis, for twenty-five dollars a side. Eighty-six rounds were fought, and Curley, who was badly punished, threw up the sponge, and the victory was awarded to Smith.

July 1st, Professor John Wise, the famous balloonist, accompanied by John Lamountain, aeronaut, of Troy, N. Y.; O. H. Gager, of Bennington, Vt., who defrayed the cost of the experiment, and William Hyde, local editor of the *St. Louis Republican*, started from St. Louis in the balloon "Atlantic," with the view of making an aerial voyage to the Atlantic seaboard. The "Atlantic" adventurers were accompanied part of the way by S. M. Brooks, of St. Louis, in the balloon "Comet." The "Atlantic" landed on the afternoon of the following day near the residence of T. O. Whitney, at Henderson, Jefferson Co., N. Y., having made the trip, eleven hundred miles, in nineteen hours and forty minutes. The balloon therefore traveled at the average rate of fifty-six miles an hour. It crossed Lake Erie, a distance of two hundred and fifty miles, in three hours, making eighty-three and a half miles an hour. The ascension was made at five minutes before seven P.M., from Washington Square, corner of Clark Avenue and Twelfth Street, St. Louis, and was witnessed by an immense concourse of spectators.

July 30th, Professor Wise and his son Charles made another ascension from Washington Square, St. Louis, in the balloon "Jupiter."

November 30th, the south end of Lucas Market was blown down by a tornado. Many houses were unroofed, and other damage done.

November 10th, the centennial anniversary of the birth of Frederick von Schiller, the German author, was celebrated. A salute of one hundred guns was fired at sunrise, and the firing was kept up at intervals throughout the day. The German military companies, benevolent societies, Saengerbund, and other associations paraded, and in the evening (commencing at five o'clock) there was an enjoyable entertainment at the Mercantile Library Hall. Many houses and other buildings were brilliantly illuminated, and there was a handsome display of fireworks.

1860. August 11th, the Chicago Zouaves visited St. Louis.

1861. In September of this year Prince Napoleon and suite visited St. Louis. During his visit he called upon Gen. Fremont, and, accompanied by Mayor Taylor, made a trip to the mouth of the Missouri, and along the river front.

1864. January 1st, intensely cold in St. Louis. Before daylight the thermometer indicated 22° below zero, and at seven o'clock 19.5° below; such a degree of cold was without a parallel in St. Louis for at least thirty-one years. For twenty-two winters during that period the mercury had sunk to or below zero. In seven of those winters it fell below ten degrees, viz, in January, 1834; February, 1835; January, 1841; January, 1852; February, 1856; January, 1857; and January, 1864; but at no time before 1864 had it indicated so intense a degree of cold as on the 1st of January.

On the 29th of January a dinner was given to Maj.-Gen. U. S. Grant at the Lindell Hotel, at which there were three hundred guests. Judge Samuel Treat, of the United States Court, presided, assisted by Messrs. John O'Fallon, Wayman Crow, Adolphus Meier, Judge Samuel Reber, James Archer, George R. Taylor, and Barton Able as vice-presidents. Among the military guests were Maj.-Gen. Schofield, and Brig.-Gens. James Totten, John B. Gray, John McNeil, E. B. Brown, Clinton B. Fisk, and A. G. Edwards.

1865. April 15th, the news of the assassination of President Lincoln reached the city. As soon as the official confirmation of the President's death was received the entire city was draped in mourning. At the Levee many of the steamboats displayed flags dressed in crape. Public notice had before been given that different congregations of various Christian denominations would unite together on April 16th for a thanksgiving celebration of victories in certain churches which were named. The decorations in these churches were bordered in crape, and the buildings put into mourning. The exercises were also of the most solemn character. April 17th a meeting of merchants and business men was held on 'Change. There was a large attendance, and the meeting was called to order by Barton Able, who stated the object of the assembly in a brief but suitable manner. He was followed and seconded in addresses by Hon. Henry T. Blow, William M. McPherson, and Brig.-Gen. Clinton B. Fisk.

The following preamble and resolutions, introduced by George Partridge, were then read and unanimously adopted:

"Whereas, The people of the United States have been suddenly called upon, in the midst of their rejoicing for victories won and coming peace, to deeply mourn the loss of their Chief Magistrate by an untimely and cruel death by assassination; therefore be it

"Resolved, That in the death of Abraham Lincoln, President of these United States, the nation has lost a noble patriot, a wise statesman, a just and honest man.

"Resolved, That our heartfelt sympathies are tendered to his family in this hour of their deepest affliction.

"Resolved, That although an attempt has been made to destroy the life of this nation by the assassination of its chief officers, yet we confidently believe that Divine Providence will more fully establish, preserve, and perpetuate the integrity, honor, and glory of this nation, by the enforcement of law, liberty, and freedom among this people, than ever before.

"Resolved, That it is the duty of every loyal man to stand pledged to uphold and strengthen the hands of Andrew Johnson, upon whom the Presidential office now devolves, and to ask God to give him wisdom, discretion, and counsel in the discharge of his official duties.

"Resolved, That the Union Merchants' Exchange of St. Louis will, by their delegates, unite with such others as may be appointed by the County Court, the Common Council, and the military authorities of this city in attending the funeral at Springfield in honor of the late Chief Magistrate of the nation.

"Resolved, That this hall be draped in mourning for thirty days."

At the meeting of the Common Council, April 18th, the following resolutions, introduced by Mr. Staggs immediately before adjournment, were read by the clerk and unanimously adopted:

"Whereas, In the midst of rejoicing over the splendid victory of the Union against armed rebels and traitors, the sad intelligence of the death of Abraham Lincoln, President of the United States, by the hand of a brutal assassin, has reached us; therefore be it

"Resolved, By the Common Council of the city of St. Louis, that we deeply mourn the irreparable loss to the Union of its most worthy Chief Magistrate, and mingle our tears of sorrow with those of the nation upon the death of so great and good a man.

"Resolved, That in the death of Abraham Lincoln the nation is deprived of the eminent services of one whose wisdom, prudence, and statesmanship have guided successfully the ship of State through the most gigantic and causeless rebellion the world has ever known.

"Resolved, That in the acts of our late Chief Magistrate we recognize the highest virtues that belong to the Christian patriot and sage.

"Resolved, That highest on the roll of fame, history will write the name of Abraham Lincoln, the friend of human liberty and preserver of the American Union.

"Resolved, That as a token of our heartfelt grief, the hall of the Common Council be appropriately draped in mourning for the space of thirty days, and that the American flag be raised half-mast.

"Resolved, That our heartfelt sympathies are tendered to his family in this the hour of their deepest affliction.

"Resolved, That a committee of five, in conjunction with the mayor, be appointed to make all proper arrangements for the funeral obsequies of our lamented Chief Magistrate, and that the Common Council as a body, in conjunction with the mayor and heads of departments, attend the funeral of President Lincoln at Springfield, Ill.

"Resolved, That all the bells of the city be tolled at the hour of twelve o'clock M. on Wednesday, during the assembling of the citizens at the different places of worship.

"Resolved, That it is the duty of the authorities at Washington to ferret out the authors of the brutal assassination of President Lincoln and Secretary Seward, and if it be found that any of the leaders of the Rebellion are responsible, either directly or indirectly, for the act, they cause them to be summarily executed when caught."

On the 18th Mayor Thomas also issued the following proclamation :

"MAYOR'S OFFICE, ST. LOUIS, April 18, 1865.

"WHEREAS, The Hon. William Hunter, Acting Secretary of State, has announced to the people of the United States that the funeral ceremonies of the lamented Chief Magistrate will take place at the Executive Mansion, Washington, D. C., at twelve o'clock noon on Wednesday, the 19th inst., and has invited the various religious denominations throughout the country to meet in their respective places of worship at that hour, for the purpose of solemnizing the occasion with appropriate services;

"AND WHEREAS, After waiting until one o'clock P.M. for answer to a telegram without receiving any;

"Now, therefore, I, James S. Thomas, mayor of the city of St. Louis, request that due observance be given by all citizens to the wishes of the Secretary of State as set forth in said proclamation, and for the purpose of more fully carrying out his wishes and showing due respect to the memory of Abraham Lincoln, late President of the United States, request,

"1st, That on said day (Wednesday, the 19th inst.) all business be suspended.

"2d, That all saloons and drinking-houses be closed from nine A.M. to nine P.M. on said day.

"3d, That all theatres and other places of amusement be closed, and remain so until Monday, the 24th inst.

"I am gratified to state that the managers of all the theatres have already acquiesced in this request, and hope that all other places of amusement will do the same.

"JAMES S. THOMAS, Mayor.

"Attest : J. W. HEATH, Register."

The Episcopal Bishop of Missouri also issued an address to the Episcopal Churches. On the 19th, the day of the burial of the remains of President Lincoln at Springfield, religious exercises were held in the churches designated, and the bells were tolled.

An order was issued by the County Court for the erection of a cenotaph in the court-house rotunda. This was done by Mr. Rumbold, the county architect. It was a canopied octagonal pedestal, with appropriate architectural decorations, upon which a coffin remained during the period of mourning, to symbolize the remains of the President lying in state.

1866. March 11th, the following correspondence, which passed between a committee of prominent citizens and Maj.-Gen. Sherman, was made public through the *Missouri Republican* :

"MAJ.-GEN. SHERMAN :

"Dear Sir,—Your friends, citizens of St. Louis, have appointed us a committee to express their gratification in having you, after four years' absence, once more among them as a

fellow-citizen, and, in token of their appreciation of your great service tendered to the Union, ask you to receive from them the sum of thirty thousand dollars, now in the hands of their treasurer, John E. Yore, Esq., and subject to your order, with the wish that you will with it purchase a home in our midst.

"Believe us, general, no pleasanter duty has ever been before given us.

"John J. Roe, William M. McPherson, O. Garrison, John How, Barton Ahle, John E. Yore."

"HEADQUARTERS MIL. DIV.

OF THE MISSISSIPPI,

"St. LOUIS, Mo., Aug. 15, 1865.

"MESSRS. JOHN HOW, BARTON ABLE, JOHN J. ROE, W. M. MCPHERSON, O. GARRISON, and JOHN E. YORE, St. LOUIS, Mo. :

"Gentlemen,—I am this morning in receipt of your kind note, in which you inform me that you have placed the sum of thirty thousand dollars to my credit with which to enable me to procure a home in your midst. I can hardly find words adequate to convey to you my sense of obligation, both for the subject matter and the manner in which it is done. This sum of money exceeds all that I have received from the government of the United States for four years of labor in the midst of danger and trouble, and I can hardly suppose I merit so valuable a reward from personal friends. But I confess it comes to me in such a shape as to encourage a belief that it will provide me with what I most need, a home for my family, and will therefore increase my usefulness in the future. I therefore accept it with grateful thanks, and shall proceed to invest the amount in the purchase of a good house and lot, and will furnish it to the extent of every cent, when I will report to you the exact result. The property thus acquired shall be the 'home' of myself and family as long as I possibly can command my time, which I hope will be for life.

"Again thanking you most kindly, and through you the friends who have made up this sum,

"I am, with great respect, your friend and servant,

"WILLIAM T. SHERMAN,

"Maj.-Gen. United States Army."

Gen. Sherman subsequently notified the committee that he had personally examined a great many places that were held for sale, and gave preference to a house on Garrison Avenue, near the corner of Franklin, the property of David Nicholson, it fronting eighty-four feet on Garrison Avenue, with a depth of one hundred and fifty feet, and held at twenty-five thousand five hundred dollars, whereupon the committee made the purchase and handed Gen. Sherman the deed, and placed the balance, four thousand five hundred dollars, to his credit in the Union National Bank of St. Louis. Gen. Sherman subsequently reported that he had completely and comfortably furnished his house in all respects, at a cost but little exceeding the sum thus provided.

On September 8th, Andrew Johnson, President of the United States, reached St. Louis, in response to an invitation from the city authorities and citizens. After a week of preparation a fleet of thirty-six steamboats laden with citizens of St. Louis steamed up to Alton, Ill., and receiving the Chief Executive escorted him to St. Louis, where he became the

"St. LOUIS, Aug. 15, 1865.

guest of the city. President Johnson was accompanied by Secretary Seward and Secretary Welles of his cabinet, Admiral Farragut and Gen. Grant.

1869. April 20th, St. Louis was visited by a fearful hail-storm. It is asserted that hail-stones an inch in diameter descended. Over twenty thousand dollars' worth of glass was destroyed, and funerals were dispersed and hearses overturned.

1871. March 8th, East St. Louis and the eastern shore of the Mississippi River were devastated by a tornado. The storm, which did not last more than three minutes, seemed to come from the south-south-west, and swept eastward of the city proper. It touched the Illinois shore first at the elevator, and passed along the river bank, inclining to the eastward, and terminating at the track of the Toledo, Wabash and Western Railroad, nearly at the head of Bloody Island. Its velocity is estimated to have been from sixty to seventy miles an hour, and its destructive force was almost irresistible. Seven men were killed and more than fifty persons wounded. A portion of the elevator was demolished, and the steamer "Mollie Able," the ferry-boats "Edwardsville," "Milwaukee," and "America," the ram "Vindicator," the Vandalia Railroad freight-house, and the St. Louis and Southeastern Railroad freight-house and depot were badly wrecked. A locomotive and a Pullman ear and nine ordinary passenger-cars were hurled from the track, and many buildings in East St. Louis were demolished. The handsome passenger depot of the Chicago and Alton Railroad and two freight-houses and other buildings suffered great damage. Three freight-houses belonging to the Ohio and Mississippi Railroad were blown from their foundations and demolished.

Gen. Ranney, the general freight agent of the Memphis and St. Louis Packet Company, was standing on the wharf-boat looking at the cable chains which held the head of the boat. The wind lifted him suddenly from his feet, and carried him some little distance and dropped him into the river. He succeeded, however, in reaching land in safety. Between sixty and seventy dwellings in East St. Louis were destroyed, and the loss thus caused amounted to about seventy-five thousand dollars. The destruction of other property was enormous. Considerable damage was inflicted at Alma, Brooklyn, Nameoka, and other towns and at various points in St. Clair County.

1871. June 25th, the twenty-fifth anniversary of the elevation of Pope Pius IX. to the pontificate was celebrated in St. Louis with imposing ceremonies. There was a parade of the Catholic societies four miles in length, and a general illumination of the city at night. Wreaths of evergreen with portraits of the

pope were conspicuously displayed from many private dwellings. Pyrotechnic displays and bonfires were also features of the demonstration. Maj. Henry S. Turner was the grand marshal of the procession. The aids to the grand marshal were Maj. John P. McGrath, John H. Tracy, Capt. William Albright, William H. Lee, Theodore Hunt, and James L. Patterson. The assistant marshals were John Fletcher, William L. Ewing, B. M. Chambers, Richard Ennis, J. J. Fitzwilliam, Augustus Lamping, Henry Rechten, George Kaufhold, James Gorman, J. F. Grefenkamp, Charles W. Hogan, J. F. Conroy, Patrick Ahearn, Julius S. Walsh, Col. C. Maguire, Hon. John Finn, William Henry, Capt. Henry Hannibal, Col. Arnold Beck, F. Arendes, Patrick Monahan, John Busby, Hon. P. J. Pauley, Richard Walsh, Thomas P. Gleason, and Dr. James C. Cogan.

1872. On the night of January 5th the Russian Grand Duke Alexis and suite reached St. Louis from Chicago, and remained in the city several days. He occupied a suite of rooms at the Southern Hotel, where a ball was given in his honor on the night of January 8th.

1873. October 12th, a joint Catholic celebration of the anniversary of the birth of Father Mathew, the famous temperance orator, took place, on the occasion of laying the corner-stone of the Carmelite Convent, at Second Carondelet Avenue and Viator Street. The anniversary occurred on the 10th, but the 12th was chosen, as it was a more convenient day.

1874. May 28th, a tornado struck St. Louis, and inflicted great damage upon buildings and the vessels along the river front.

MOBS AND RIOTS.¹

On the afternoon of Feb. 25, 1844, some boys were playing ball on the common in the immediate vicinity of the Medical College building of the St. Louis University. This building is still standing on Washington Avenue, near Eleventh Street, a two-story brick structure, dingy with age, the front entrance of which has been walled up for years, effectually precluding any access to it from the street. The boys in their play knocked their ball over the fence into the grounds of the university, and in their search for it stumbled upon the opening into the vault, where were thrown the remains of several bodies that had been used for the purpose of dissection. They ran away and reported to other boys and to their parents the discovery which they had made. Others came and looked, and soon

¹ For the account of the Medical College riot the author is indebted to Dr. E. M. Nelson.

the wildest stories were in circulation. Crowds began to assemble about the building, until by three o'clock over one thousand people were gathered together. The greatest excitement prevailed, and efforts were repeatedly made by the ringleaders to excite the people to violent action, and to tear down the building. By six o'clock the crowd had increased to three thousand or four thousand, and the mayor ordered out the militia. The mayor and city marshal and other officers and prominent citizens were on the grounds the whole afternoon, making every endeavor to quell the disturbance and prevent it from becoming more serious. Several of the leaders were arrested and placed in the calaboose. Up to that time no damage had been done to the building except that the windows had been broken by throwing bricks and fragments of rock. Speeches were made to the crowd by Messrs. A. Kayser, James Mahon, and Blennerhassett, and Judge Mullanphy, urging them to refrain from any violent demonstrations. Finally, as the result of a conference between the mayor and a committee appointed from the crowd, it was arranged that the militia should be withdrawn, and the men who had been arrested should be released, and the crowd should disperse. A committee of twelve was appointed to guard the college building, and the mob adjourned to the court-house.

Later, however, the rioters reassembled at the college more enraged than ever, and excited by their leaders to a perfect frenzy. Bones and fragments of bodies were brought up from the pit into which they had been thrown. The sight of these soon inflamed the passions of the mob to such a degree that they were prepared for any deeds of violence. They broke down the doors, made their way into all the rooms of the college building, tore down and destroyed all the furniture, demolished all the valuable material that had been prepared with much care and at great expense for the museum, and in fact left nothing of the equipment of the institution save only the bare walls and roof.

The shout then was raised to go to the other college, the Missouri School. Here the demonstrator of anatomy and some of the professors and students had made preparations to receive such a visit. The dissecting-room was cleared out, every trace of blood or other indication of the purposes to which it was applied was removed with care from the floor and tables. The opening into the vault, which was arranged in the side of the room like an old-fashioned fireplace, with an opening downward instead of a chimney-flue upward, was closed up with a sheet-iron fender, and a cooking-stove was moved in and set before it, as if it were really a fireplace and chimney.

By dint of hard work this was all accomplished before the rioters arrived there. On their approach the doors were thrown open, and they were invited to come in and see for themselves that all was right. Some of the number went all through the building, and as they did not think to look behind the sheet-iron fireboard that filled up the supposed chimney-place, they discovered nothing to find fault with, and so reported to the rest. Accordingly the mob left without doing any damage there.

In April, 1844, a city election was held, which was signalized by a disturbance and riot in the Fifth Ward. In the afternoon a fight occurred between some members of the opposing parties, which led to the collection, at a later hour, of a large number of the friends of both, when a much more serious disturbance took place. Several well-known citizens who had no part in the affair were seriously injured. As Joseph Jones was passing T. Maher's tavern, he was fired upon and shot in the shoulder, it was said, by some one in the house. When this was reported to the assemblage that had gathered upon Franklin Avenue, it immediately started for the tavern, broke in the doors and windows, and threw the furniture, liquor, beds, and all the contents into the street. This terminated the disturbance. Mr. Jones died April 5th from the effects of his wound.

On Sunday morning, July 29, 1849, a fire broke out in the engine-room of the steamer "Algoma," which had arrived the evening before from the Missouri River with a large cargo. The origin of the fire is unknown. From the "Algoma" it quickly communicated to the "Mary," the "Phoenix," the "Dubuque," and the "San Francisco," all of which were destroyed. The "San Francisco" was cut loose and floated out into the stream, but was carried by the force of the current against the stern of the "Mary," where she hung until she took fire and was consumed. The boats lay above the foot of Vine Street, and below Morgan. While the firemen were still at work upon the fire, and about half-past five A.M., a difficulty took place between a bystander and a member of one of the fire companies, which in the beginning amounted to nothing more than a blow or two. It was, however, the signal for a general fight, in which every possible kind of missile was used. The bystanders retreated, closely followed by the firemen of several companies, and took refuge in a coffee-house kept by J. O'Brien, 89 Levee. When the firemen and their friends attempted to enter by forcing the doors of the house, they were assailed with fire-arms from the windows above, and two or three of their number were slightly wounded. It was now

their turn to fall back, and while doing so some fifteen or twenty men issued from O'Brien's door and fired upon the retreating mass. A few shots were returned by the firemen, and then a rush was made and the Levee soon cleared. The men who had issued from O'Brien's, with their friends, forming a mob, which was largely composed of river boatmen, retreated up Morgan Street, taking refuge in houses farther up the Levee. The firemen and their friends now numbered several hundred, many of them under arms.

The mayor and the police succeeded after great difficulty in arresting a number of the rioters upon both sides and conducting them to the calaboose, but the work of destruction soon commenced. In a few minutes O'Brien's house was carried by assault; everything it contained was broken into pieces and thrown into the streets, and the windows and doors were torn out. Almost simultaneously with the attack upon O'Brien's, the coffee- and boarding-houses of Dennis Murphy, No. 104 Battle Row, and B. Shannon, No. 14 Green Street, were attacked and their contents destroyed. Shortly after the destruction of the houses on the Levee a large detachment marched up Cherry Street to the coffee-house of James Gilligan, which was also completely demolished. It next proceeded to the corner of Fifth and Morgan Streets, and destroyed everything in the coffee-house occupied by Terrence Brady. After the destruction of the last-named house the rioters began to disperse and several further arrests were made by the police. The mayor appointed an additional police force, and fifty citizens were detailed to preserve order during the night. The St. Louis Grays also, at the mayor's request, held themselves in readiness. Nothing of a serious nature occurred during the afternoon. About nine o'clock in the evening a large party of excited firemen and their friends, to the number of two or three hundred, proceeded to the wharf at the foot of Morgan Street with a howitzer, which was placed so as to rake Battle Row, in which were the sailor boarding-houses, in the event of an outbreak. Some of the party had contrived to get possession of an old six-inch howitzer belonging to the steamboat "Missouri," which was lying in the yard attached to the foundry of Gaty, McCune & Glasby. It was loaded with slugs and boiler-iron punchings, and was said to have been in good order to do execution. The mob remained on the wharf with the howitzer for some time, and the mayor and police made several ineffectual attempts to get possession of it. Those who had control did not evince much disposition to use it, and when rain commenced to fall, about half-past ten o'clock, the mob started with the

gun for the Missouri Engine-House, where it was deposited under guard. Afterwards the gun was removed from the engine-house and the doors closed. The police made a descent upon it in its new position, captured the cannon and those who had it in charge, and placed the gun in the jail-yard and the prisoners in the calaboose.

The Missouri Fire Company authorized, as a body, a disclaimer of any participation in the events of the night, and particularly in relation to the cannon.

About ten o'clock on the night of the 25th of May, 1850, a mob of about five hundred persons assembled in the neighborhood of Third and Almond Streets, and proceeded to make an attack upon several houses of ill-fame in the vicinity. They succeeded in destroying entirely all the furniture and contents of four of these houses and slightly injuring one other before the efforts of the mayor and police could disperse the mob. Several of the ringleaders were arrested.

On Monday, April 5, 1852, St. Louis was again the scene of a serious election riot. The election was for mayor and city officers, and after a heated and angry campaign, in which the feelings of both parties were wrought up to a high pitch, the day of election arrived. Early in the forenoon, while the voting was progressing quietly in the five upper wards of the city, a disposition was strongly evinced among those surrounding the ballot-boxes of the First Ward to throw impediments in the way of the Whig voters. Later these persons, who were sufficiently numerous to overawe the more respectable and better-disposed citizens, abused and maltreated a number of persons, some barely escaping with their lives. Mayor Kennett, in company with other gentlemen, repaired to the polls, and was received with repeated groans and hisses. Finally, Mr. Kennett and his friends retired. Joseph Jecko, the Democratic candidate for the office of city attorney, then addressed the rioters and warned them against the consequences of their violence. His speech was effective in preventing an immediate repetition of their acts.

The report that the Germans had taken possession of the polls in the First Ward reached the other wards about two o'clock. Accounts followed each other rapidly of the outrages which were being perpetrated. About three o'clock large numbers of American citizens, Whigs and Democrats, the greater portion, however, being composed of the former, began to move towards Soulard's Market, where the First Ward polls were held. In that vicinity, the sidewalks of Seventh and Fifth Streets, and Park Avenue were densely crowded with Germans. Numerous attacks were made on the Americans as they passed

down; stones and other missiles were thrown, and occasionally shots were fired from the houses. A squad of Americans numbering about two hundred at last arrived opposite the market-house, and, led by a few men who were well armed, marched with a shout for "free suffrages" to the building, and took possession of the polls without resistance. The Germans dispersed, and took refuge in the coffee-houses along the street above and below. The Americans continued to flock down from the upper wards until their force amounted to some thousands. Nearly as large a number of Germans was gathered here and there, as spectators or participants, in knots on adjacent streets.

As soon as the Americans had permanent possession of the Soulard Market building, Mr. McDonough, a Whig, addressed the assemblage, and invited all citizens of the First Ward who had not voted, Whig or Democrat, German, American, or Irish, to come forward and deposit their votes. He explained that the reason of the presence of so many Americans from other portions of the city was to secure them their free suffrages. Mr. Abeles, one of the judges of the election, followed Mr. McDonough. He spoke in German, and repeated in substance what Mr. McDonough had said. On this a number of persons approached the polls and deposited their ballots.

Personal collisions, in the mean time, were occurring among those who were congregated in the vicinity, and several persons were wounded by fire-arms discharged from the windows and doors of the houses. At last a portion of the mob began to demolish the beer-houses, whose tenants had been most active in the assault.

The Soulard Market-House was riddled, as also a house at the corner of Park Avenue and Fifth Street, and the tavern of Mr. Neumeyer, at the corner of Park Avenue and Seventh Street. Some persons had at an early stage of the proceedings taken refuge in this house, and through the windows occasionally pelted the passers-by with stones. The mob besieged the tavern, and having broken a panel of the door, was about to enter when a gun was placed through the aperture and fired, the contents lodging in the breast of a young man named Joseph Stevens, a member of the St. Louis Fire Company. Stevens staggered a short distance across the street and fell dead. His death infuriated the mob. The house was immediately entered, the furniture, bar fixtures, etc., demolished, and the building fired. The flames spread rapidly and the house was soon destroyed.

The firing and fighting with stones continued until after dark. It having become known that the cannon of Capt. Almstedt's artillery were in an armory

near by, the mob started to procure them, and soon returned with two brass six-pounders. These were carefully charged and rolled to the corner of Park and Carondelet Avenues, where they were placed so as to sweep with murderous certainty either side of Second Street, on the sidewalks of which were immense crowds of Germans. The fight was still kept up with pistols and stones, and the party having possession of the cannon were awaiting the proper provocation to use them. Affairs were in this alarming state when Marshal Phelps, accompanied by Capt. Almstedt, arrived, and by dint of argument and persuasion prevailed on the belligerents to desist. Mr. Phelps happened, fortunately, to be acquainted with many of the parties, and his personal influence effected what no official authority could have accomplished. The crowd dwindled away gradually, and by midnight that portion of the city had resumed its wonted quiet.

About ten o'clock at night, however, a demonstration was made against the *Anzeiger des Westens* printing-office by a mob numbering from fifteen hundred to two thousand, the provocation being the publication of certain articles in that paper. By nightfall, however, by direction of the mayor, the company of Grays and the Riflemen had been gotten together and were drawn up in two lines to prevent access to the building. The rioters made no attempt to break the ranks of the military, and late at night they dispersed. Eight or ten persons were severely and about twenty-five slightly wounded.

The most serious riot that had yet occurred in St. Louis took place on Monday, Aug. 7, 1854, and as usual arose out of an election contest. Many persons, principally foreign-born, upon presenting themselves at the polls to vote, were declared disqualified. This enraged them, and as they increased in numbers they gathered in knots and vented their anger in various ways. At length at the Fifth Ward polls a boy was stabbed by an Irishman, who immediately fled towards Morgan Street. A portion of the crowd rushed after him and followed him into the Mechanics' Boarding-House, Second and Morgan Streets, which was immediately assailed with stones and bricks. Several other houses in the vicinity were attacked, their windows riddled and furniture broken. Firing commenced here, there having been none at the polls. Guns and pistols were fired by unseen hands from windows, and some firing was returned from the street. In half an hour after the riot commenced the crowd at the scene of disturbance probably reached five thousand persons. As the forces increased the inmates of the houses attacked were all routed. From Second and Morgan Streets the mob proceeded to

Cherry Street, and on Second Street above Cherry about a dozen houses were stripped of their contents. There was scarcely a house in this neighborhood inhabited by Irishmen that was not assailed by the crowd.

Finally the mob returned to Morgan Street. Here the firing was renewed, and a large body of levee-men was stationed at the foot of Morgan Street to prevent the rioters from passing to the Levee, which it was their evident intention to do. The levee-men had collected a quantity of arms, and held their ground with determination. The attacking party was several times driven back, and two men were killed and several wounded. At length a solid column was formed and a charge made, each man with two stones in his hand, which were used with some effect. The blockade gave way, and the whole mob poured down the Levee. The residents of Battle Row scattered in every direction panic-stricken, but finally rallied. A considerable number took refuge in their houses, and a continuous firing was kept up from the windows, while the thousands in the streets were pelting their houses with stones and bricks. The residents at length were forced to retire and leave their houses to the mercy of the mob.

Every Irish establishment between Morgan and Locust Street, a distance of three squares, was attacked, and the windows and furniture broken and destroyed. About five o'clock a boatman, who was not engaged in the fight, but was standing with some of his companions looking on, was killed by a shot fired from one of the houses in Battle Row.

The work of destruction continued in the neighborhood of Battle Row until dusk. The mob then proceeded on its way, destroying houses on Cherry, Morgan, Fifth, and Green Streets. About ten o'clock it had reached the corner of Franklin Avenue and Eighth Street, where, after destroying Drayman's Hall, it separated into small companies and attacked every drinking-house it could find on Green, Seventh, and Morgan Streets, and Franklin Avenue. About this time the mayor with a *posse* of police arrived on the ground and endeavored to restore order, but in vain. The mayor then ordered out the military. The National Guards and Continentals and St. Louis Grays were soon in readiness, and through their efforts the larger bodies of the rioters were dispersed without bloodshed. Small bodies of men, however, roamed through the streets of the Fifth Ward all night. About noon of the following day, a large crowd of Irishmen from the Levee collected about the corner of Morgan Street and Levee. There was considerable noise in the vicinity all day, but the police preserved

order. A rumor got afloat that two large bodies of Irishmen were on their way to the city to reinforce their countrymen, and on the strength of this rumor the mayor ordered the military organizations to hold themselves in readiness. Assemblages gathered upon the street corners in various sections of the city during the day, and as night fell the excitement and tumult were intensified. About ten o'clock heavy firing was heard from some quarter up-town, and the military moved in that direction. They marched up Green Street, and at the corner of Fifth and Green came upon a mob which was engaged in conflict with a similar mob at the corner of Sixth and Green Streets. The street was entirely blockaded at both corners. The crowd at Fifth Street opened and permitted the Continental company to pass through. The Grays were just in the rear. About midway the square the Continentals were fired into by the mob at Sixth Street and from the houses around. The Continentals returned the fire, scattering the mob, and the police succeeded in making some arrests. Two of the Continentals, Messrs. Spore and Holliday, were wounded, as were several of the mob. The Grays also fired into a mob in an alley between Sixth and Seventh Streets and wounded several. At midnight this quarter was comparatively quiet, but the riot still raged in other sections. At the corner of Seventh and Biddle Streets, and near St. Patrick's Church, a man was flourishing a pistol and making free use of it, when an attempt was made to disarm him by several of the bystanders, among whom was E. R. Violett, of the firm of E. R. Violett & Co. In the struggle, or directly after, Mr. Violett received three shots in the shoulder. He died instantly.

Soon after this an affray occurred at the corner of Broadway and Ashley Streets, in front of the Humboldt House, kept by a man named Snyder. Three persons were dangerously wounded, and Snyder was instantly killed by a shot through the head.

In this way collisions were occurring constantly in all quarters of the city, but especially in the Fifth Ward, and so continued the entire night. At daylight on Wednesday morning the streets were full of men, some in companies of fifteen or twenty, shouting and calling on Americans to protect their lives and homes. During the night the mayor issued a proclamation calling a meeting of the citizens at twelve o'clock on Wednesday, to take measures to restore peace and quiet to the city. At eleven o'clock the merchants met at the Exchange, and devoted the business hour to the consideration of the existing riots and their suppression. The meeting was organized by calling James H. Lucas to the chair, and appointing

Hudson E. Bridge secretary. After brief addresses by Messrs. Lucas, Blennerhasset, and P. G. Camden, on motion of Walter B. Carr, the following resolutions were unanimously adopted:

Resolved, That the mayor be requested to issue his proclamation, calling upon all citizens of the city to abstain from assembling at any of the places where disturbances have recently taken place, and to remain at their homes at night during the existing excitement.

Resolved, That the mayor be requested to suspend for the present the existing police, and to detail a temporary patrol force from among the citizens, to be composed of discreet and reputable men, and that they be authorized to use such authority as may be vested by the laws to arrest offenders against the peace and quiet of the city."

The meeting immediately adjourned to the court-house, where another meeting was held, at which Mayor How and the Hon. Edward Bates addressed the people. Joseph Charless, after a few remarks, offered the following resolutions:

Resolved, That it is the duty of every good citizen in a crisis like the present to support the mayor in preserving the peace and quiet of the city, and that, in the opinion of this meeting, the object can be most effectually accomplished by the selection by the mayor, from the ranks of the oldest and best-known citizens, of one thousand persons to act as a special police and committee for the restoration of order, whose duty it shall be to patrol the city, and disperse all assemblages of persons manifesting a disposition, as well by moral suasion as the exercise of force where it may be found necessary.

Resolved, That the supremacy of the law shall be sustained and the spirit of disorder quelled at whatever cost, that the fair name of our city may no longer be disgraced by bloodshed and murder, and to that end we pledge ourselves to sustain the mayor in maintaining the public peace as proposed in the above resolution."

These resolutions were unanimously carried.

Gen. Ranney proposed that N. J. Eaton be appointed captain of the new police force. It was also proposed that the proprietors of the drinking establishments should close their doors at dark, and that parents, guardians, and masters should restrain the boys under their control from roaming the streets at night.

Mr. Bates then asked the citizens before him to volunteer one thousand efficient men, and the meeting adjourned to the City Hall to carry these practical suggestions into effect. The regular police organization was temporarily suspended by order of the mayor, and Capt. Eaton was appointed to take charge of the special police. A meeting of persons who had enrolled their names during the afternoon was called at five o'clock at the court-house, and about seven hundred met at the appointed time. Capt. Eaton read the names of thirty-three well-known citizens who were requested to act as captains. He then assigned to each of the captains twenty men, from whom he was

to select his lieutenants; the captains and lieutenants all to be mounted. The military were also ordered to hold themselves in readiness, if additional force should be required. Capt. Eaton appointed Maj. M. L. Clark to take charge of the outdoor operations, and made such other disposition of his force as was necessary. These timely and vigorous efforts completely crushed the riots, and at midnight the city was quiet.

As nearly as could be ascertained, about ten persons were killed and about thirty wounded.

The mayor, after an informal consultation with the Board of Aldermen, appointed Messrs. Foster, Knott, and Moore, all competent builders, to examine into the nature and report the amount of damage sustained. This duty they performed, and reported the names of those whose property was injured by the rioters as numbering about ninety-three, and assessed the total amount of damages at \$4250.80. Some of the assessments were as low as two dollars, and the highest about four hundred dollars.

The mayor, in a communication to the City Council on October 10th, said,—

"Auxiliary as I am to erase from my memory all recollection of a time so discreditable to the fair fame of our city, I still cannot depart from this subject without, in a becoming manner, alluding to some of those whose assistance was so cheerfully given in sustaining the laws, and in particular to the military organizations under command of Cols. Renick and Knapp. To these gentlemen, and the members of their respective commands, I am deeply indebted. It became my unpleasant duty to order the Continentals, under Capt. Blackburn, and the Washington Guards, under Lieut. Deegan, to fire upon the mob; and the promptness with which they discharged their disagreeable task showed that they were fully alive to the duties and responsibilities of the citizen-soldier, and were determined to perform their duties at any hazard. In this case five of these brave men, members of the Continentals, were wounded, some of them severely. I am also under many obligations to the companies of Cpts. Pritchard, Prosser, Byrne, Morrow, English, Suebott, Allen, and Steife, for the valuable and efficient aid rendered me in those the most anxious hours of my life. If the mob was not suppressed at once, it was not for want of assistance from these gallant men, but owing to the continually changing scene of their operations,—hardly quelled at one point before disturbances would burst forth at another and a more distant one,—and not until a general meeting of the citizens authorized me to enroll a volunteer police force of one thousand men, under command of Capt. N. J. Eaton, was the public peace restored. This large force, a portion of which was mounted, was distributed in various parts of the riotous district, and completely put an end to the existing disturbance. In alluding to them, I can only say that they were worthy of their gallant commander, whose cool judgment and promptness of action well qualified him as a valuable auxiliary in a time of doubt and danger."

On a Sunday morning in May, 1853, a riot occurred which resulted in the death of two men. A member of Franklin Fire Company interfered in a dog-fight which was going on under the patronage respectively of the residents of Green and Cherry Streets. His

interference was resented by the owner of the dog and resulted in a fight. Being reinforced by some of his fellow-members and others, an attack was made upon the dog-owner and his friends. They drove their opponents through their houses and up into the city. Some of the houses in which the rioters had taken refuge were partly demolished, and the refugees when caught were severely beaten. One man was killed outright, and another so badly beaten that he died a few days afterwards.

The neighborhood of Almond and Poplar Streets, between Main and Fourth, previous to July, 1860, had been inhabited by a number of degraded men and women, whose habits excited the popular indignation to such a pitch that, on the night of July 25th, a general assault was made upon their dwellings. When the attack upon the first place was begun there were some two or three hundred men and boys engaged in it, which number was rapidly increased to a thousand. Bricks and stones were hurled at the windows, on the roof, and against the walls, driving the occupants into the back yard, and from thence to whatever shelter they could find. The commotion soon brought a dozen or more policemen to the scene, who endeavored, without any plan or system, to quell the disturbance, but their efforts were wholly ineffectual.

After breaking all the windows, doors, furniture, etc., at this place, the mob continued on its course, driving out the occupants and destroying and burning beds, furniture, garments, etc. It attacked simultaneously eleven houses, and heaped all their furniture in the street and set fire to them. The work of demolition went on until more than twenty houses had been robbed of their contents, after which the mob dispersed. Policeman Kennedy, on returning to his beat from the scene of excitement, fell down opposite Wyman's Hall and died in a short time from exhaustion.

Railroad Riot of 1877.—The period of inflation and factitious prosperity that immediately succeeded the war was followed, as all painfully know, by a long term of depression. The burden naturally fell heaviest on the working classes, among whom privation begot discontent and distress.

The great lines of railroad, of course, suffered with the rest in the general stagnation. To afford all the facilities in their power to the manufacturers and producers, they reduced their freight charges to so low a point as scarcely to cover the cost of transportation. The force of hands employed at this time by the Baltimore and Ohio Railroad was about three times as large as was necessary for the business of the road, and with the greatly reduced revenue of the line it

was absolutely necessary to make some reduction in this branch of expense. This could easily have been done by discharging the superfluous hands, but in view of the great suffering that such a step would cause it was thought better to keep on as large a force as possible and reduce the wages, and it was hoped that the men themselves would see it in that light.

On July 11, 1877, a circular was issued by the road (after the other great competing lines had taken the same action) giving notice that the wages of all hands earning more than a dollar a day would be reduced ten per cent. from July 16th. At this the brakemen and firemen of the freight-trains began to make preparations to resist, and on the appointed day they refused to work along the whole line. At once applications were made in Baltimore by men out of work to take their places, and though a disposition was shown to drive off these men, they were protected by the police, and the freight trains were moved out of Baltimore. The passenger-trains were not interfered with on that day.

Martinsburg, W. Va., was one of the company's principal relay-stations, where the hands and engines of the freight-trains were changed. The population was to a large extent composed of employés and dependants of the road, and in sympathy with the strikers. When the trains from Baltimore reached this point all the firemen abandoned them. Others offered to take their places, but these were forced from the engines by the strikers, who openly declared that no more freight-trains should be run until the former scale of wages was restored.

As the Martinsburg authorities were powerless, Vice-President King, of the Baltimore and Ohio Railroad, telegraphed to Governor Matthews, of West Virginia, asking his assistance to suppress the riot. The Governor ordered his aid, Col. Faulkner, to take the necessary steps; but the latter soon found that the Berkeley Guards, whom he had called out, were too much in sympathy with the rioters to be depended on for any efficient service. Governor Matthews then telegraphed to President Hayes for the assistance of the United States forces. The President at first hesitated, doubting whether the emergency justified Federal interference; but on receiving a dispatch from President Garrett, of the Baltimore and Ohio Railroad, showing the serious character of the disturbance and the rapidly-increasing danger, he issued a proclamation commanding the rioters to disperse, which was printed in hand-bill form and distributed all along the line. At the same time he ordered eight companies of artillery, serving as infantry, under the command of Gen. French, to pro-

ceed from Fort McHenry and Washington to Martinsburg, where they arrived on the morning of the 19th. The presence of the military overawed the strikers and prevented violence. The trains might now have been sent on had not the threats of the strikers so intimidated those who would have served that they were afraid to come forward, and only two trains were moved that day, one eastward, which reached Baltimore in safety, and one westward, which was stopped at Keyser.

By this time the strike had extended to the Ohio Division of the road, and alarming reports were received as to the intentions of the men on the Pittsburgh and other Western roads, among the rest the Fort Wayne and Chicago, the Lake Shore and Michigan Southern, Ohio and Mississippi, etc. The Western Division of the Pennsylvania was blocked, and there was trouble on the Erie. Troops were called out in both Pennsylvania and New York. The apparently vast extent of the combination caused extreme alarm, and there was an almost total paralysis of trade in Baltimore and towns along the road. The direct loss was also very great, many of the cars detained being loaded with perishable goods, and others with live-stock that were dying with hunger and thirst.

Thus far no act of malicious violence had been done, and it is probable that, beyond the stopping of the trains, none was originally intended, and even this design was confined to a part of the whole force. But, as is always the case, the turbulent and unruly, the vicious and idle gathered around the strikers, swelled their forces, and could not be restrained from violence and outrage.

In St. Louis, while there was no bloodshed, there were many violent demonstrations, and for several days the situation was threatening in the extreme. The first symptoms of trouble were manifest on the morning of July 21st, when it was announced that the brakemen on the Ohio and Mississippi Railway had determined to strike on the following Monday (July 23d), in consequence of a reduction in wages on the 16th of that month. This movement was anticipated on July 21st by a strike on the Central Division of the Ohio and Mississippi Road at Vincennes. East St. Louis being the real western terminus of the roads centring in St. Louis from the East, and their several freight-yards and depots being there, the strike began there in a meeting on the night of July 21st, which adjourned to meet the following day. On the latter date day and night meetings were held, and the strike was formally inaugurated by the employés of the Ohio and Mississippi, Indianapolis and St. Louis, St. Louis and Southeastern, Vandalia Line, Rockford and

Rock Island, Cairo Short Line, and the Cairo and St. Louis Railroad Companies, and the Union Transit and Railway Company, which controlled the traffic over the bridge. An executive committee was appointed, consisting of one representative from the employés of each road, with power to appoint sub-committees from the different branches of railroad service represented in the strike. A resolution was adopted cautioning all of the men against the use of intoxicating liquors. On this day also meetings of workmen in St. Louis and Carondelet were held, and resolutions sustaining the Eastern strikers were adopted. The St. Louis meeting adjourned in a body, and attended one of the meetings of the disaffected railroad men in East St. Louis.

On July 23d the strikers' executive committee had complete control of all the railroad property on the east side of the river, and compelled or persuaded the employés of the railroad shops and stock-yards to join them. They placed sub-committees in the various depots and yards, and guarded the railroad property at all such points. On this day the committee issued, under date of July 22d, its "General Order No. 1": "Freight-trains are forbidden to leave any of the yards after twelve M. to-night, and employés are cautioned against interfering with express-, mail-, or passenger-trains."

In conformity with this order all freight traffic was stopped, and the strikers seized two yard engines for use in frustrating any attempt to get freight-trains away. On this day also the Missouri Pacific Railroad Company acceded to the demands of its employés for the restoration of wages to the old figures, and there was a large demonstration of laboring men.

On July 24th the cigar-makers, coopers, and one or two other branches of trade went on a strike, and paraded the public streets of St. Louis. Delegations of railroad strikers visited the city from East St. Louis, and compelled the employés of the Missouri Pacific and the St. Louis, Kansas City and Northern Railroads, who had resumed work on an increase of pay, to stop, as did also the Harrison wire-workers. Six companies of the Twenty-third United States Infantry, with two Gatling guns, under command of Gen. Jefferson C. Davis, reached St. Louis for the purpose of protecting government property. The Vandalia, Indianapolis and St. Louis, Chicago and Alton, Ohio and Mississippi, Cairo Short Line, and St. Louis and Southeastern Railroad suspended passenger traffic. In East St. Louis everything was quiet and orderly, and the saloons were closed. The executive committee of the strikers issued "General Order No. 2," as follows:

"No person or persons are empowered to settle with any road, except the executive committee. 'All or none' of the employés on the strike to go to work. We, the strikers, will maintain order at all hazards."

Up to this time the demonstrations in St. Louis had been confined to public mass-meetings and parades, in which a few labor agitators, styling themselves the "International Executive Committee of the Workingmen," were the ruling and directing spirits. They had worked on the sympathies of some workingmen, and incendiary and inflammatory speeches, added to the startling events attending the riots in Pittsburgh, Baltimore, and other points in the East, had resulted in the enlistment of many mechanics and laborers. But there were very few, if any, railway men identified with the agitation in St. Louis proper, although these had at times given their moral support; the mass of the disaffected in St. Louis were tramps and irresponsible persons, idlers and curiosity-seekers. On Wednesday, July 25th, however, the demonstrations culminated in open violence. The beginning of the outbreak occurred at a meeting called for eight A.M., to be followed by a labor procession. The meeting was held under the auspices of the Internationalists' Executive Committee, which had prepared a list of industrial institutions at which the procession was expected to call and compel the employés to stop work. The procession, which subsequently degenerated into a mob, started from the Lucas Market, after hearing speeches from several of the executive committee. Prominent in the ranks were a number of colored roustabouts from the Levee, who had been invited by the executive committee to join in the demonstration. This they had done after compelling the captains of such steamboats as were lying along the Levee to advance the wages of their colored workmen.

After marching up and down Lucas Market Place, the procession passed down Locust Street to Fifth, to Poplar, to Twelfth, to the Four Courts. At the corner of Twelfth and Spruce Streets a stop was made at the Phoenix Planing-Mills, and the proprietor was allowed fifteen minutes to close up, which he did. The demand was made by a committee of spokesmen previously appointed from the ranks. While at this point the rank of the procession was broken and was not reformed. The St. Louis Bagging-Factory, at Twelfth and Austin Streets, was the next place visited. The crowd dashed over the Twelfth Street bridge in great confusion, shouting and yelling and alarming the employés of the bagging-factory, who hastened to close the doors and windows before the mob arrived. The spokesmen were met at the en-

trance by Henry Odell, the superintendent, who at once acceded to a demand for instant stoppage of the works. Before he had had an opportunity to do this the mob clambered over the fences, and yelling and hooting, created a scene of confusion as the employés, one hundred of whom were females, were being dismissed.

While at this place the negro roustabouts forced themselves to the front, and during the remainder of the day they were most conspicuous in the scenes of disorder and riot which ensued. All of the places on the programme having received previous notice from the executive committee to close, the mob regarded it as an insult when they were found open, and was apparently greatly incensed thereat. At the foundry of Shickle, Harrison & Co., a square farther west, similar scenes were enacted, and the rioters took possession of the works and compelled the engineer to shut off steam. At the Douglass Bagging Company's works, 1030 Stoddard Avenue, the disorder was even greater. Windows were broken, the door of the engine-room was burst in, and the engineer, under threats against his life, was compelled by the negroes to shut off steam. There were a great many females employed here, and they were peremptorily ordered to quit work, and in some instances received rude treatment at the hands of the negroes. Samuel Wainwright's malt-house, south of the Bagging Company's works, was visited by a crowd of negroes, who finding only a few carpenters at work, compelled them to leave. A heavy shower of rain now drenched the mob, but did not check its progress in the least. The employés of the Park Foundry of Christopher, Simpson & Co., on Park Avenue, were next driven away, and a number of rioters directed their attention to a small grocery kept by a man named Kaemper, which the negro element were only prevented from sacking by the threats of a committee-man to place them under arrest. The mills of the Southern Bagging Company, at Decatur and Barry Streets, were closed by a committee of rioters, who drew the fires in the engine-room and forced the employés to leave. The St. Louis Trunk-Factory was next closed, and the main body of the mob then desisted and started on the return. The negroes, however, attended by a few disorderly white characters, continued east on Lombard Street as an independent mob. They closed the Saxony Mills and the Southern White-Lead and Color Works, with threats of burning if operations were resumed. Thence the mob, ripe for any disorder, swept on to the Plum Street Depot, where the negroes attempted to stop a passenger-train which was on the eve of departure,

and grossly insulted the passengers, but were finally induced to leave by two or three speeches from their white colleagues. The Atlantic Mills next received a visit, and George Bain, who was in the engine room, being insulted by a negro, knocked him down, whereupon another negro assaulted Mr. Bain with a hatchet, and the latter only escaped by flight. After stopping a few bricklayers, at work on a new building, the mob raided a small cooper-shop on Third Street, where they sawed a number of hoop-poles into clubs, and, with threats of murder and arson, influenced the employés to leave. At Third and Poplar Streets the little shop of a poor widow was raided by negroes, who were about to sack it when compelled to leave by others in the mob. Page & Kraus' zinc-works were next closed, and the rioters, many of them fired with drink, continued northward, their passage being marked by similar outrages. At Garneau's bakery, at Seventeenth and Morgan Streets, and the Great bakery, on Morgan, between Sixth and Seventh Streets, they carried off whatever they desired and destroyed a quantity of stock.

At Ninth Street and Franklin Avenue a store was raided, and dry-goods, soap, etc., were thrown into the street, "so that poor people might pick them up." The Park Mills, at Thirteenth and Market Streets, and Halteman & Co.'s millwright-shop were also closed. The scenes of disorder and outrage continued until late in the day. While these two mobs were committing their acts of violence, a small contingent of the rabble attended a member of the International Executive Committee to the steam bakery of Dozier, Weyl & Co., at Sixth and Pine Streets, where there were about thirty employés, male and female. The bakery was closed, and the retail portion was broken into and its contents appropriated by the mob.

Meanwhile the authorities were not idle, but being supported only by the city police, which, while efficient, was unable to cope with the law-breakers, they could not take any effective measures at this time. In this emergency the city authorities called upon the law-abiding citizens for their co-operation in preventing destruction of life and property. The response was prompt, and Mayor Overstolz found himself supported at once by two or three score of the most prominent citizens, among whom were Gen. Marmaduke, Gen. Cavender, Gen. A. J. Smith, Gen. Noble, Maj. H. S. Turner, Walter C. Carr, and others equally well known. These counselors advised that a meeting of the better class of citizens be called for organization and defense. The proposed meeting was held at the Four Courts, and Mayor Overstolz presided. The following report of the executive com-

mittee, previously appointed, was unanimously adopted:

"Resolved, That there is hereby appointed the following-named persons to recruit and organize the citizens in their respective wards to aid the mayor, as a *posse comitatus*, for the preservation of life and property and the due and prompt enforcement of the law and the rights of all the people.

"First Ward [headquarters], court-house, north door. Gen. John S. Marmaduke, Gen. Oliver P. Gooding, Maj. Eugene Weigel, Joseph Lawrence, J. R. Harding, A. C. L. Haase.

"Second Ward, Fourth and Morgan Streets. Joseph Crawshaw, Gen. Fullerton, Col. T. W. Hemm, George Mills.

"Third Ward, Convent Market. Capt. Charles Stressmeyer, Capt. Adolph Knipper, Capt. Frank Conway, C. A. Stifel, Charles A. Pratt.

"Fourth Ward, Ninth and South Cass Avenue. Capt. Henry Bishop, John McManus, F. A. Churchill, Thomas Foley.

"Fifth Ward, Soulard Market. Capt. Charles Ploesser, David Murphy, J. H. Amelung.

"Sixth Ward, Broadway and North Market. Christ. Winkelmeier, George Hannihal, John G. Rubelman, W. C. Van Dillen, Thomas Foley.

"Seventh Ward, C. H. Reighmann.

"Eighth Ward, Broadway and Saulshury. Capt. E. D. Meier, P. Gundlach, S. B. Stannard.

"Ninth Ward, Maj. De Gress, E. Vortriede.

"Tenth Ward, Col. T. T. Gantt, Frank Backof, R. H. Spencer.

"Eleventh Ward, Capt. Charles C. Soule, A. N. De Menil.

"Twelfth Ward, Capt. John I. Martin, John J. O'Brien, Patrick Sullivan, James Collins, Sr., Thomas Morrison, Richard Brown.

"Thirteenth Ward, C. H. Albers, John Williams, C. N. McDowell, Christ. Staehlin, F. Mansfield.

"Fourteenth Ward, Conrad Beck, Henry Brockman, H. C. Meyer.

"Fifteenth Ward, corner Mississippi and Park Avenues. Gen. John S. Cavender, Col. F. Burnham, Capt. John Woods, Dr. Frank Porter, Given Campbell, S. D. Barlow, A. W. Kelsey, George Bain, W. B. Ryder.

"Sixteenth Ward, Col. L. S. Metcalf, Otto Kulage.

"Seventeenth Ward, Rink. Col. T. A. Meysenburg, Alfred W. Henry, Patrick McGrath, Robert McIlvaine.

"Eighteenth Ward, Garrison Avenue and Olive Street. Gen. John W. Nohle, Moses Fraley, Gen. John W. Turner, Preston Player, J. P. Krieger, Sr., Maj. Cahell Breckenridge, George Updike, P. C. Bulkeley, John J. Sutter.

"Nineteenth Ward, Governor Thomas Fletcher, Capt. J. Butler, William H. Clopton, Conrad Rose, George Brunaugh, Joseph Gafford.

"Twentieth Ward, B. Gratz Brown, R. G. Frost, W. F. Cozens, John Finn.

"Twenty-first Ward, Joseph T. Tatum, W. L. Ewing, Jr.

"Twenty-second Ward, D. K. Ferguson, R. L. Jones, Henry W. Williams, Capt. Bart. Guion, John R. McDonough, Matthew Brennan, James Morgan.

"Twenty-third Ward, Lewis Nolte.

"Twenty-fourth Ward, P. O'Brien, A. L. Bergfeld.

"Twenty-fifth Ward, Richard Merkle.

"Twenty-sixth Ward, Maj. Philip Bamberger, A. P. Barbec.

"Twenty-seventh Ward, Jacob Thorp, G. W. Parker.

"Twenty-eighth Ward, Christ. Conrades, John A. Scudder, C. O. Dutcher, Miles Sells, W. H. Scudder.

"Resolved, That all well-disposed citizens who wish to preserve the supremacy of law, and the lives and property of our people, are requested to assemble at nine o'clock to-morrow

morning at their several voting precincts to enroll themselves under the direction and command of the aforesaid officers of their wards, and such aids as they may appoint.

"Resolved, That Gen. A. J. Smith, elected by the Committee of Safety, be and is hereby appointed commander of the citizens under the direction of the mayor.

"Resolved, That any company or body now organized, or which may hereafter be organized, report through its commanding officer forthwith to Gen. A. J. Smith, at Police Commissioners' room, in Four Courts building."

After this meeting another was called for immediate organization, at which Gen. A. J. Smith was elected chairman. The following persons were then elected to take charge of companies under the direction of Gen. Smith: A. W. Kelsey, H. S. Turner, W. H. Clark, John E. Bloomfield, Thomas C. Fletcher, Capt. McMurtry, J. T. Butler, C. E. Salomon, C. C. Slag, J. R. Claiborne. The persons designated proceeded at once to the work of organization, and their efforts were assisted in a great measure by the following proclamation of Mayor Overstolz, under date of July 24th :

"In the present distressed condition of affairs in this city, it becomes my duty as mayor to warn all persons against the commission of acts calculated to excite disturbances and violate the public peace, and to invite the co-operation of all good citizens in the maintenance of law and order. With the points in dispute between the railroad managers and their employés the city government has neither the right nor the desire to interfere; but the scenes of violence and plunder recently enacted in the city of Pittsburgh and elsewhere illustrate the terrible consequence that may result from such difficulties. We do not regard the railroad employés and workmen of St. Louis as encouraging or countenancing these disorders, but it is a fact that cannot be denied that, taking advantage of these complications and of the opportunity afforded by prevailing confusion and excitement, a mob of reckless and lawless men have perpetrated the most outrageous depredations.

"The government of the city of St. Louis is determined to spare no effort to promptly suppress riot, to protect life and property, to vindicate our fame as a law-abiding and self-reliant people. With this object in view, I deem it necessary to invite to the aid of the government the volunteer services of all citizens in favor of law and order within their respective wards for such police duty as may hereafter be assigned to them. In order to make such assistance available, and to promote a proper organization, the following citizens have been selected as a Committee on Public Safety, viz :

"Gen. A. J. Smith, Judge Thomas T. Gantt, Gen. James S. Marmaduke, Gen. John S. Cavender, Gen. John D. Stevenson, Gen. John W. Noble. This committee has designated Gen. A. J. Smith as commanding officer of all organizations of citizens formed under this proclamation. In order to avoid causes of disturbance, all unnecessary assemblages of citizens are forbidden. Parents are requested to keep minors under their personal control. The headquarters of Gen. A. J. Smith will be at the Four Courts, where all reports will be directed."

On the following day, at the request of the Merchants' Exchange, Mayor Overstolz issued another proclamation, calling upon merchants to suspend business temporarily, and directing the closing of all places

where intoxicating liquors were sold. On the same day Sheriff Finn, at the instance of the Board of Police Commissioners, issued summonses for a *posse comitatus* of five thousand men. The responses for volunteers to the committee's call were very liberal. Meetings were held in the various wards, and as fast as companies were enrolled they were armed at the Four Courts, where the mayor had also established his headquarters, and which was transformed into a huge barrack for the citizen soldiery. On Thursday, the 26th of July, the plans for the defense and protection of the city had been so far systematized that Mayor Overstolz issued the following proclamation :

"WHEREAS, The general suspension of the business of the city on July 25, 1877, has afforded ample opportunity to all citizens to perfect their organizations in aid of the city authorities in suppressing the riotous and unlawful action of evil-disposed persons which still prevails throughout the city; and

"WHEREAS, I am now fully prepared to effectually end all further opposition to the peace and good order of this community,

"Now, therefore, I, Henry Overstolz, mayor of the city of St. Louis, do direct and order as follows :

"First, That business and laboring men of all classes, except such as are enrolled among the forces at my disposal, do at once resume their lawful occupations, and refrain as far as practicable from traversing or congregating upon the public streets of the city.

"Second, All persons are prohibited from interference by intimidation or otherwise with the employés or employers of any mill, factory, business or business establishment, or railway. Any such interference is hereby declared to be at the peril of the person or persons offering it, and will be promptly resisted with all the force at my disposal. All offenders in this behalf will be at once arrested and punished to the fullest extent of the law.

"Third, Citizens of all occupations and pursuits are ordered to abstain from any conduct calculated to disturb the peace and good order of the city. It is earnestly desired to avoid the necessity of resort to force, but the majesty of the law will be asserted, the honor and peace of the city maintained, and the property and lives of the citizens preserved. Laboring men, of whatever occupation, dissatisfied with the wages paid them, have the right to abandon their employment, but they have no legal right to interfere, nor can they justify such interference, with those who are content with their wages and desire to continue their employment. To do so is to degrade the dignity of labor and destroy the freedom of the laborer himself. The city government, sustained by all good citizens, has determined that such interference cannot and shall not be tolerated. The responsibility for any collision which may result from the dispassionate but firm execution of this determination must rest upon those who force it upon the public authorities by their violation of the law."

On the same day that the mayor issued the above proclamation, Governor Phelps and Lieutenant-Governor Brockemyer arrived in the city, and the Governor issued the following proclamation :

"WHEREAS, A large number of men have for several days been unlawfully and riotously assembled in the city of St. Louis; and

"WHEREAS, It has been represented to me that said men have unlawfully compelled other men to quit and abandon the pursuits by which they supported themselves and their families, thus to give up against their wish their usual employment; and

"WHEREAS, Said men have impeded the prosecution of the internal commerce of the country by assembling in force and preventing the transportation of the products of the agriculturist, the artisan, and the manufacturer, thereby materially enhancing the cost of the support of all persons in a time of financial distress; and

"WHEREAS, Other disturbances and disorders are threatened in this city and elsewhere in this State,

"Now, therefore, I, John S. Phelps, Governor of the State of Missouri, do hereby require said bands of men so unlawfully assembled to disband and return to their usual pursuits and avocations, and not further to molest the good citizens of this State, or to interfere with their industrial pursuits. And I do assure the people of Missouri, and especially of this city, that I am here for the purpose of seeing that the laws are faithfully executed and enforced, and that the rights of all shall be respected; that order shall be maintained; that all assemblages of evil men shall be dispersed, and that quiet and tranquillity in future shall be preserved; and with the aid of the good people of this State, I do solemnly declare these pledges shall be redeemed, so far as in me lies as their Chief Executive, not only for the peace and welfare of this city, but for every part of this Commonwealth."

Independent of the efforts of the authorities to organize a competent armed force, the merchants of the city held a meeting on Thursday, July 26th, at Armory Hall, to effect a similar organization. W. A. Hargadine, of Crow, Hargadine & Co., was elected chairman, and Goodman King, of Mermod, Jaccard & Co., was chosen secretary. As a result of the meeting a fund of twenty thousand dollars was raised, and a regiment of one thousand men, armed with rifles and navy revolvers, and officered by ex-soldiers, was recruited and placed under the direction of the mayor for guard duty in the business portion of the city. The general organization continued, and did not cease until the authorities had five fully-equipped regiments in the field, including two hundred cavalry from beyond the suburbs, whose services were tendered and accepted through Judge James S. Farrar and James C. Edwards, a company of marines, who did efficient service along the river front, and a company of artillery, in all about four or five thousand men. Several companies were composed of employes of the St. Louis and Southeastern, the Iron Mountain, and other railroads, who were particularly effective. In addition ward patrols were organized throughout the city and suburbs, but these confined themselves to special police duty. The citizen military were utilized for several days in guarding public and private property and protecting points threatened by especial danger.

Meantime the rioters, directed by an executive committee which made its headquarters at Schuler's Hall, at the intersection of Fifth and Biddle Streets,

continued their reign of terror, accompanied by public mass-meetings and parades back and forth before the Four Courts, where the city authorities and citizens' committees had their headquarters. On Thursday, July 26th, the day following their most flagrant outrages, the mob visited the extreme northern section of the city, the majority being negroes, who were led by one of their number, a large man "on a yellow horse." They visited a number of industrial institutions, and were even more insulting and disorderly than on the preceding day. Finding Filley's foundry closed and under guard, they stoned the guards and left. Belcher's sugar-refining works being also closed, they broke open the gates, raked the fires, and broke some windows. After this they had several collisions with the police, but the latter, being armed with guns and bayonets, were uniformly successful. During the day a destructive fire occurred, and was attributed to the rioters. By this conflagration a vacant house at the northwest corner of Second and Madison Streets, belonging to Amos Page, was burned, and a lumberyard belonging to A. Boeckeler & Co. was partially destroyed. On this day the following extraordinary communications were issued by the executive committee:

"TO THE HON. J. S. PHELPS, Governor of the State of Missouri, and all Citizens:

"We request your speedy co-operation in convening the Legislature and calling for the immediate passage of the eight-hour law, its stringent enforcement, and penalty for all violations of the same.

"The non-employment of all children under fourteen years of age in factories, shops, or other uses calculated to injure them.

"Your attention is respectfully called to the fact that a prompt compliance with this our reasonable demand, and that living wages be paid to the railroad men, will at once bring peace and prosperity such as we have not seen for the last fifteen years. Nothing short of a compliance to the above just demand, made purely in the interest of our national welfare, will arrest this tidal-wave of revolution. Threats or organized armies will not turn the toilers of this nation from their earnest purpose, but rather serve to inflame the passions of the multitude and tend to acts of vandalism.

"Yours, in the nation's welfare,

"EXECUTIVE COMMITTEE,
"UNITED WORKINGMEN OF ST. LOUIS."

"TO THE HON. HENRY OVERSTOLZ, Mayor of St. Louis:

"Sir,—We, the authorized representatives of the industrial population of St. Louis, have called upon you to request your co-operation in devising means to procure food for those actually in a destitute condition.

"In order to save a useless waste of your time, it is necessary that we at once say that all offers of work during this national strike cannot be considered by us as a remedy under the present circumstances, for we are fully determined to hold out until the principles we are contending for are carried.

"It is the earnest desire of every honest toiler in St. Louis to

accomplish this their purpose in as orderly a way as this dire contingency will allow.

"The stringency of food is already being felt; therefore, to avoid plunder, arson, or violence by persons made desperate by destitution, we are ready to concur with Your Honor in taking timely measures to supply the immediate wants of the foodless, and respectfully offer the following suggestions, namely: if it is not in your power to relieve this distress, we request that a convention of merchants be called by Your Honor to meet and confer with us as to the best way to procure food for our distressed brothers and their families.

"Each member of all labor organizations will hold themselves individually and collectively responsible to pay for all food procured by their order.

"That we, the unfortunate, toiling citizens, desire to faithfully maintain the majesty of the law while we are contending for our inalienable rights.

"Therefore, we in good faith give you our earnest assurance to assist you in maintaining order and protecting property. Further, in order to avoid riot, we have determined to have no large processions until our organization is so complete as to positively assure the citizens of St. Louis of a perfect maintenance of order and full protection to life and property.

"In the name of all workingmen's associations, by the Executive Committee of the United Workingmen's party of St. Louis."

Another paper, signed by "the Executive Committee," notified physicians and surgeons that they would be "professionally regarded during the present strike by wearing a white badge four inches long and two inches broad, encircling the left upper arm, bearing a red cross, the bars of which to be one inch wide by three inches long, crossing each other at right angles, allowing the bars to extend one inch each way." A few hours after the issuing of these communications a mass-meeting was held at Lucas Market under the auspices of the committee which signed them, at which incendiary speeches were made, the rioters being urged to arm and organize themselves into small companies, and intimations were thrown out that the forces of the authorities were to be attacked. This, however, appeared to be the climax of the riotous proceedings in St. Louis. The news from the East of the cessation of the labor troubles, the judicious distribution of volunteer militia, the effective action of the police, the energetic movement of citizens, the failure of the agitators who were directing the rioters to inaugurate determined efforts, and the lack of substantial results all contributed to assist in the final and peaceful repression of the mob on the following day, Friday, July 27th. The enrollment of the citizen military had been prompt and effective, and in three days about four thousand had been recruited and equipped; some had been put into active service, and all were under arms and ready.

Such was the condition of things when the mayor and his counselors determined to make an attempt to arrest the ringleaders, otherwise the "Executive Com-

mittee," at Schuler's Hall. Accordingly, on July 27th, the following order was issued through the Board of Police: "Capt. William Lee is hereby assigned to the command of the police battalion detailed for the protection of life and property, and more particularly for the capture of the violators of the law now assembled in Schuler's Hall. In effecting the arrest of said unlawful assemblage you will use your best judgment, and should forcible resistance be offered, such as you cannot control without damage to your command, open fire on them. If arrested, files of soldiers will be in readiness to aid you in bringing them to these headquarters."

The raid on Schuler's Hall was made by a battalion of mounted police and patrolmen and soldiery with cannon, and attended by the mayor and prominent citizens. The mounted police led the procession, and on arriving at the hall cleared the street by charging the masses who had gathered there, effectually dispersing them. A number of rioters and idlers who were in the hall were arrested, but the executive committee, having been warned of the approach of the police and military, leaped from the third story of the building to the roof of an adjoining house and thence escaped, but were subsequently captured and punished. This action completely broke up the riot, and although the police prevented the holding of meetings, and the services of the soldiery were availed of a few days longer, there was no further disorder.

The railroad strike in East St. Louis during this period had remained in *statu quo*. The disaffected men were quiet and orderly, and at no time joined the St. Louis mob. On the contrary, they sent word to the St. Louis leaders to "leave them alone." They confined themselves to parades and meetings, and wisely kept the liquor saloons closed, but at the same time compelling the total suspension of business of all railroads terminating there. The beginning of the end in East St. Louis came with the rising of the sun on Saturday, July 28th, the day succeeding the raid on Schuler's Hall in St. Louis. At this hour twelve companies of the Twenty-third United States Infantry, regulars, under the command of Gen. Jeff. C. Davis, came up the river on the steamer "Elon G. Smith," which with an armament of guns had been in service along the river front during the St. Louis riots, and surrounded the Relay Depot, which they at once occupied, the few rioters who were there at that hour beating a hasty retreat. The surprise was complete, and in a short time eight of the companies were sent back to the arsenal. An hour or two after the capture, Governor Cullom, of Illinois, arrived from Springfield, accompanied by United States Marshal E. R. Roe, Col. Merriam, Col.

R. D. Lawrence, Capt. A. Orendorff, Judge William Prescott, Maj. James A. Connolly, Col. S. H. Jones, Major Ray, and a number of prominent citizens of Springfield. Subsequently the Governor issued the following proclamation :

"WHEREAS, Certain persons, active in violation of the law, have assumed to interfere and prevent the movement of railroad trains in this State, and have sought to intimidate honest workingmen, engaged in the avocations by which they earn their daily bread, and to compel them to cease their labor; and

"WHEREAS, This condition of affairs continues, and is intolerable, entailing as it does disastrous consequences, the nature and extent of which it is impossible to foresee,

"Therefore, I, Shelby M. Cullom, Governor of the State of Illinois, acting under and by authority of the laws of this State, do command all such riotous and disorderly persons to desist and return to their homes, and do call upon all sheriffs, mayors, and other officers charged with the execution of the laws to break up all conspiracies against the rights of property and persons, and to this end to employ every lawful means in their power, and to enjoin upon all citizens to assist in bringing about the restoration of order, resumption of business, moving of trains, and revival of manufactures.

"I further give notice that the entire military force at my disposal, as commander-in-chief of the military, will be employed for the support of the civil authorities in this endeavor, and that orders will be given to troops to use whatever amount of force may be necessary to compel obedience to the law."

As soon as Governor Cullom reached East St. Louis he telegraphed for the Belleville Guards, of Belleville, Ill., Capt. Andel commanding, who reached the scene of trouble early in the afternoon. Their arrival was supplemented by that of six or seven hundred more of the Illinois militia, who came in a body, as follows: Brig.-Gen. E. N. Bates, commanding; Lieut.-Col. J. N. Reece, assistant adjutant-general; Assistant Inspector, Maj. G. S. Dana. Fifth Regiment, Colonel, S. H. Barclay; Lieutenant-Colonel, Cornelius Rourke; Major, William C. Gilbreth; Adjutant, C. F. Mills; Surgeon, J. N. Dixon; Sergeant-Major, J. H. C. Irwin. Company C (Governor's Guards), of Springfield, Capt. G. S. Johnson; Company D (Cullom Guards), of Williamsville, Capt. I. F. Constant; Company I (Morgan Cadets), of Jacksonville, Capt. Harrison; Company K (Light Guards), of Jacksonville, Capt. J. N. Swails.

Eighth Regiment, Capt. E. B. Hamilton, commanding; W. L. Distin, adjutant; Francis Aid, quartermaster; R. W. McMahan, surgeon; William L. Ryan, sergeant-major. Quincy Guards, of Quincy, Lieut. R. A. Cox, commanding; Keokuk Junction Guards, Lieut. Wm. Hanna; Carthage City Guards, Capt. C. Long; Mount Sterling Guards, Capt. M. H. Lawler; Augusta Guards, Capt. E. Gillett; Quincy Veterans, Capt. L. Bort; Clayton Guards, Capt. H. A. Horn.

These troops found the city free from disorder and in the possession of the military, which had previously arrived, and beyond the ill-concealed disgust of the rioters at the march which had been stolen on them, and disappointment which found expression only in words and private discussions, there was little to indicate the situation of a few hours before.

On the arrival of the National Guards the following military order was issued:

"HEADQUARTERS SECOND BRIGADE,
FIRST DIVISION, ILLINOIS NATIONAL GUARD,
EAST ST. LOUIS, ILL., July 28, 1877.

"General Order No. 6.

"Having, in compliance with orders from the Governor and commander-in-chief of the forces of the State, assumed command of the Illinois National Guard at East St. Louis, for the purpose of aiding the civil authorities of St. Clair County and the city of East St. Louis in preserving the peace and protecting property therein, to effectually execute this order, acting with the peace officers of said county and city, I hereby command all persons within the said county and city to observe the peace and aid in the execution of the laws. Riotous and other unlawful assemblages are hereby prohibited, and will be promptly dispersed. Private citizens in any considerable number, appearing in public armed with weapons of any kind, will be regarded as rioters and dealt with accordingly.

"The streets of the city and thoroughfares of the county will be kept free from crowds, and all boisterous and unruly persons will be arrested and punished as provided by law.

"Citizens and corporations with whose business any person interferes, by the use of violence or the intimidation of their employes, reporting the fact to these headquarters, will be protected by the forces of this command in the peaceful pursuit of their several avocations.

"By order of Brig.-Gen. E. N. BATES, commanding Illinois National Guards.

"J. N. REECE, A. A. G."

On the following day, Sunday, July 29th, the military was further reinforced by the Fourth Regiment, Illinois National Guard, a company from Peoria, and one from Henry, Stark, and Knox Counties. A number of gatherings of idlers and strikers were dispersed, and there were a great many arrests, individual and collective. There was no trouble in East St. Louis after this, and on the ensuing day a large majority of the strikers returned to work, the movement of freight became general, and all of the railroads resumed operations. The military remained in occupation of the city a few days longer, and with their assistance a number of ringleaders were apprehended and sent to Springfield for punishment.

On Tuesday, July 31st, the people of St. Louis witnessed a fitting *finale* to the labor troubles in a parade of all of the volunteer forces that had rallied to their protection a few days before, in which such companies as still remained in East St. Louis participated. The parade started at half-past four o'clock in the afternoon over a line of march embracing Twelfth

Street, from Clark Avenue to Pine Street, to Fourteenth, to Lucas Place, to Eighteenth Street, to Morgan, to Seventh, to Carr, to Fifth, to Clark Avenue, to the Four Courts, and was composed as follows :

Gen. A. J. Smith and staff: Col. Leigh O. Knapp, adjutant-general; Col. J. S. Fullerton, assistant adjutant-general; Col. R. H. Spencer, chief of ordnance; Col. C. W. Thomas, David Murphy, Eugene F. Weigel, J. B. Gondolfo, R. H. Brown, T. W. Heman, Edgar Miller, aides-de-camp; Col. W. F. Melbourne, aide-de-camp and acting quartermaster; Col. Louis Dorsheimer, aide-de-camp and acting commissary subsistence.

First Brigade.

Knights Templar Band.

Company A, Missouri National Guard, St. Louis, Capt. Chas. E. Pearce; Quincy Grays, Quincy, Ill., Capt. E. B. Hamilton; Peoria Veteran Light Guards, Peoria, Ill., Capt. Thomas Cosgrove; Peoria National Blues, Peoria, Ill., Capt. James M. Price; Belleville Guards, Belleville, Ill., Capt. Casimir Andel.

Merchants' Regiment, St. Louis: Company A, Capt. H. Duncker; Company B, Capt. Fairbanks; Company C, Capt. J. D. Brutsche; Company F, Capt. Robert McCulloch; Company D, Capt. William Harrigan; Company E, Capt. Joshua Brown; Company G, Capt. Robert Cunningham; Company H, Capt. Joseph K. Byers.

Second Brigade.

Gen. John W. Noble, commanding, and staff: Capt. Silas Bent, J. R. McBeth, W. M. McPherson, and J. R. Currie.

Eighteenth Ward Battalion, Capt. F. B. Davidson, commanding: Company A, Lieut. G. C. Castleman; Company B, Capt. R. R. Hutchinson; Company C, Capt. J. D. Slocum; Court-House Guard, Capt. S. F. Adreon; Phelps Guard, Capt. C. L. White; Capt. William C. Marshall's company.

Bremen Battalion, Capt. E. D. Meier, commanding: First Company, Lieut. R. B. Stuart; Second Company, Capt. S. B. Stannard; Third Company, Capt. Buchanan.

Capt. Jefferson Clark's company.

Capt. Rothford's company.

Third Brigade.

Gen. W. U. R. Beall, commanding, and staff: Maj. W. F. Haines, assistant adjutant-general; Capt. George H. West, lieutenant-colonel; Maj. N. H. Clark and F. W. Molt, aides-de-camp.

Company A, Fifteenth Ward, Lieut. H. F. Messengale.

Squires' Battery, Col. Charles Squires commanding.

Excelsior Guards, Capt. H. W. Steirman.

Mayor's Guard, Capt. Wm. Bull.

Real Estate Guards, Capt. E. G. Obeare.

Company A, Carondelet Militia, Capt. J. J. Frey.

Company D, Carondelet Militia, Capt. W. H. Fagley.

Capt. Thomas G. Fletcher's company.

Fourth Brigade.

Col. David Murphy, commanding.

Maj. Soule's battalion, Maj. Charles C. Soule, commanding: Adjutant, F. L. Shaw; Sergeant-Major, W. P. Minor; Commissary-Sergeant, Stephen D. Barlow, Jr.; Company A, Capt. W. S. Long; Company B, Capt. C. M. Woodward; Capt. C. H. Krum's company, Capt. W. P. Nelson's company, Capt. P. H. Cronin's company, Capt. Davenport's company, Capt. Schamitz's company, Capt. Berzey's company, Capt. Gondolpho's company, Capt. Stevens' company, Capt. George H. Shields' company, Capt. Kirk's company, Capt. Cunningham's company, Capt. Brownell's company, Capt. Hahn's company.

Fifth Brigade.

Gen. D. M. Frost, commanding, and staff: Col. H. J. McKellops, adjutant; Maj. N. Wall, quartermaster.

Cosmopolitan Band.

Detachment United States Artillery, Lieut. Bolton, commanding.

Marine Corps of St. Louis Volunteers, Capt. F. C. Moorehead.

Tenth Ward Guards, Lieut. C. H. Stone.

Iron Mountain Railway Guards, Capt. J. H. Woodward.

Southeastern Railway Guards, Capt. Harry M. Kenderdine.

Twelfth Ward Guards, Capt. A. B. Glove.

The parade consisted of the exigency militia of St. Louis, with the exception of Company A, Missouri National Guard, the Illinois State troops, and the United States artillery, and numbered about five thousand muskets. A number of other companies of citizen troops were absent on guard duty.

Thus ended the great riot of 1877 in St. Louis, and considering the fact that at the time of its inception there was only one company of State troops in Missouri, the State and city authorities and the citizens of St. Louis deserve great commendation for the prompt and pacific suppression of the disorder that reigned throughout the city.

FAMOUS DUELS.

One of the most celebrated dueling-grounds in the United States was the well-known "Bloody Island," in the Mississippi River, opposite St. Louis, which gained its name from three fatal encounters there in 1817, 1823, and 1831. The first duel near St. Louis that we have any record of occurred in December, 1810, between Mr. Farrar and Mr. Graham, but accounts are meagre, and it is uncertain when they met. Neither of the parties was injured. The duel that first gave Bloody Island its right to that incarnadined title was that between Col. Benton and Charles Lucas, in 1817, in which the latter was wounded, and at a second meeting killed. The entire record of this duel, which in some respects overrode the accepted laws of the code, and which seems to have been characterized by a bloodthirsty spirit on the part of one of the chief actors, can be found in the *Missouri Gazette* for that year, and in the letters of the principals on the subject.

An extended sketch of Charles Lucas, published Nov. 1, 1817, throws much light on his character and on the training young Western men had in those days. Born Sept. 25, 1792, near Pittsburgh, of Norman parents, who had settled there in 1784, he followed them to St. Louis in 1805, returned to Pennsylvania in 1806, and spent five years in study at Jefferson College. Young Lucas is said to have shown from his childhood penetration, judgment,

originality, independence, tempered in all things with a kindly regard for the rights and feelings of others. After completing his classical education he returned to St. Louis, entering the office of Col. Rufus Easton to study law. As soon as the war of 1812 was fairly begun he joined a company of volunteers raised at St. Louis, and served in a campaign up the Illinois River. The next winter he aided in forming a company of artillery, which tendered their services to the Governor, and were placed on an island near Portage des Sioux. Their captain was Robert Lucas, and when he resigned to enter the regular army, Charles Lucas was appointed in his place. The post was important, and an attack deemed probable. Lucas had displayed zeal, courage, and ability, but no encounter with the enemy occurred during the season. Later that summer he was sent to punish hostile Indians near St. Charles, but the report proved false, and he returned to St. Louis to resume his law studies, was admitted the following spring, and a few months after was elected representative from St. Louis County to the Assembly, filling the vacancy caused by the death of Mr. Emmons, of Bonhomme. He proved a useful and worthy member. In order to extend his knowledge he made a tour in the winter of 1816-17 through parts of the West, and visited the Atlantic States. In 1817 he was appointed United States attorney for Missouri, which office he held at the time of his death. All contemporary evidence goes to show that young Lucas was earnest, industrious, and worthy, both in public and in private life. The family then, as ever since, was one of great mark and power in St. Louis, and every member of it seemed gifted with more than ordinary courage, public spirit, and energy. It was a time when no man could refuse to fight a duel and escape social ostracism, and a faithful attorney often gave umbrage to men, whose reply was a challenge. In 1817, Congressman John Scott demurred at an article written by Charles Lucas, concerning the election at which the former had won, but the dispute was amicably settled.

The difficulty with the famous Thomas H. Benton grew out of political reasons, was, at least on one side, unrelenting, and through its fatal results colored and affected St. Louis politics for a third of a century after. It may justly be ranked as the great political duel of Missouri. We shall first give the account written by Charles Lucas on the night before his first meeting with Benton, and found among his papers :

"The causes of difference between T. H. Benton and me were as follows: At October court of last year (1816) Mr. Benton and I were employed on adverse sides in a cause. At the close

of the evidence he stated that the evidence being so and so, he requested the court to instruct the jury to find accordingly. I stated, in reply, that there was no such evidence, to my remembrance. He replied, 'I contradict you, sir.' I answered, 'I contradict you, sir.' He then said, 'If you deny that, you deny the truth.' I replied, 'If you assert that, you assert what is not true.' He immediately sent me a challenge, which I declined accepting, for causes stated in my correspondence. The jury in a few minutes returned a verdict for me, and in opposition to his statement. He never even moved for a new trial. Since that time we have had no intercourse except on business. On the day of the election at St. Louis, 4th August, 1817, I inquired whether he had paid a tax in time to entitle him to vote; he was offering his vote at the time. He applied vehement, abusive, and ungentlemanly language to me, and I believe some of it behind my back, all of which he declined to recant, to give me any satisfaction other than by the greatest extremities. This is the state of the dispute between T. H. Benton and myself. I make this declaration that, let things eventuate as they may, it may be known how they originated."

The letter Lucas sent to Benton after the challenge in 1816 from Benton was as follows :

"ST. LOUIS, Nov. 15, 1816.—T. H. Benton, present: SIR,—Your note of this afternoon was received. On proper occasions, or for proper causes, I would give the kind of satisfaction you appear to want, but for such causes as the one you complain of, under all the existing circumstances, I would not feel justified in placing myself in such a situation as to be under the necessity of taking your life or jeopardizing my own. I will not suffer the free exercise of my rights or performance of my duties at the bar to be with me the subject of private disputes, nor will I allow it to others for doing my duty to my clients, more particularly to you.

"In this case, who made the first breach of decorum, if one was made? You complain of my having given you the lie direct, and have as much right to complain of the whole jury, who on their oaths found a verdict in direct contradiction to what you stated to be the evidence. My object was that no misstatement of the testimony should be made in hearing of the jury without being contradicted. This was my duty to my client and to myself. The verdict of the jury verifies the statement I made of the evidence, and I will not, for supporting that truth, be in any way bound to give the redress or satisfaction you ask for to any person who may feel wounded by such exposure of truth.

"Yours, etc.,

"CHARLES LUCAS."

After the difficulty in August, 1817, at the polls, Benton refusing to listen to any mediator, Lucas arranged his affairs and sent his enemy a challenge, which was at once accepted. Under date of August 11th a letter found among his papers said,—

"DEAR FATHER,—Embarked as I am in a hazardous enterprise, the issue of which you will know before you see this, I am under the necessity of bidding you, my brothers, sisters, friends, adieu. May my brothers and sisters procure to you that consolation which I cannot render . . . I request my brothers, William and James, to pursue their studies with assiduity, preserving peace and good will with all good men. Father, sister, brothers, and friends, farewell.

(Signed)

"CHARLES LUCAS."

On the following morning they met. Luke E. Lawless, the famous and pugnacious lawyer, and Maj.

Pilcher were Benton's seconds, and Dr. Farrar his surgeon. Joshua Barton, the eloquent and popular advocate and politician, and Col. Clemson acted as seconds for Lucas, and Dr. Quarles as surgeon. The moment the signal was given the two men fired simultaneously. Dr. Quarles, in his written statement to John B. C. Lucas, said,—

“Mr. Lucas appeared to be, previous to and at the time of his taking the ground or distance, cool and collected. At the first fire your son was wounded; the ball struck obliquely on the left side of his windpipe, in the immediate neighborhood of what is called the thyroid cartilage; it buried itself, and having passed obliquely downward, came out at the distance of about an inch and a quarter from where it entered; in its passage it opened the external jugular vein. As it was my opinion that the wound which he had received disabled him from fighting with equal advantages, I dissuaded him from taking another fire. In this opinion I was afterwards confirmed, for he fainted soon after getting into the boat.”

Joshua Barton, the second of Charles Lucas, made the following statement in a letter addressed to John B. C. Lucas :

“In answer to your last inquiry, I assure you that Charles at both interviews appeared perfectly cool and collected before and after taking his position to fire. At the first meeting, when Col. Benton demanded another fire or a second meeting, Charles told me to reload, that he could stand another fire. This I hesitated to do, under a belief, which I have never changed, that to let him shoot again would have been on my part a wanton exposure of the life of a man who, to judge from the profuse discharge of blood, had received a wound which might prove mortal. He requested me to propose shortening the distance, which I declined for the same reasons. It was at the solicitation of Dr. Quarles and myself that he consented to adjourn that meeting. We supported him to the boat, soon after getting into which he fainted.”

Not until September 18th, or nine days before the second meeting, was any statement made by the Benton side, though rumors, charges, and countercharges were abundant. Col. Lawless then made a statement, which, after saying that Mr. Lucas was not satisfied, but found his wound more severe than he thought, concludes thus :

“I again demanded of Mr. Lucas if he was satisfied, and if he wished for another meeting with Col. Benton. To this question he replied that he was satisfied, and that he did not require a second meeting. Having reported this answer to Col. Benton, he declared aloud that he ‘was not satisfied, and required that Mr. Lucas should continue to fight or pledge himself to come out again as soon as his wound should be in a state to permit him.’ This promise was accordingly given, and the parties pledged themselves by their seconds to perform it.”

This statement was confirmed by a letter from Joshua Barton. As the case now stood, Col. Benton had insulted Mr. Lucas; the latter had asked for redress and been refused. They met, and Lucas, the challenger, was wounded. He desired another meeting, but waived his rights under the so-called

“Code of Honor,” and said he did not wish another meeting. Then Col. Benton, who had every advantage on his side, declared with his famous energy and determination that “he was not satisfied,”—that is, he meant to try to kill Lucas, for there is no doubt but that Benton was known as the better shot, and the odds were all in his favor. It is a sad thing to say, but impartial history must write it thus: At the point when the demand for a second meeting was made, even the poor excuse of the duello was left behind.

Mr. Lucas recovered rapidly, though his wound was severe, and the heat of the season very unfavorable. When his friends came to see him, and asked of the talked-of second meeting, he said frankly that if he must meet Col. Benton again the distance must be shortened to better equalize their chances. August 22d he told Barton that he was ready to meet his foe. In a letter dated October 3d Barton says,—

“On Friday, the 22d of August, about eight o'clock in the morning, I waited on Col. Lawless for that purpose. After conversing a while on different subjects, Col. Lawless inquired after Mr. Lucas' health and his state of convalescence, to which I replied that he was then sufficiently recovered to meet Col. Benton. Col. Lawless asked when he would be ready to go out, to which I answered the next morning, or at whatever time should be thought best. Col. Lawless then informed me that he was going that day to Hereuleaneum on important business of his own, and should not return before the next Sunday evening or Monday morning, and mentioned something of Col. Benton's calling on another friend in case the meeting should take place next morning. I professed my willingness to postpone it till his return, if Col. Benton was willing. Col. Lawless not seeming disposed to agree to anything without previous consultation, we conversed freely on everything connected with the affair, and particularly on the prospects of peace resulting from an attempt which had been made a few days before. Col. Lawless did not know at that time whether his friend would drop it in the way which had been proposed, but said ‘he (Mr. Lawless) would make another trial of him.’ We parted with an understanding, as I thought, that Col. Benton was to be informed of what had passed, who could then either withdraw his demand for a second meeting, call on another friend, or wait Col. Lawless' return. I was surprised at not hearing from them sooner, and afterwards asked Mr. Lawless if he had not informed his friend before going to Hereuleaneum, who told me he called for that purpose, but did not find him at home. I considered that a sufficient notice was given.”

With reference to the attempts to bring about a reconciliation at this juncture, the evidence will be taken entirely from Col. Lawless' statements. His letter of September 18th, already quoted from, throws a flood of light on the proceedings. This was published at a time when Lawless thought harmony had been secured. His object was to justify his principal. He says,—

“The earnest representations of Col. Benton's friends and his own generous disposition had considerably weakened those indignant feelings which on the ground had impelled him to

exact from his antagonist a promise of another interview. His cooler reflection informed him that, having wounded the man who had challenged him, and who, notwithstanding the wound, declared himself satisfied, in pursuing Mr. Lucas further his conduct would assume an aspect of vengeance foreign from his heart, and that the sympathies and opinions of his fellow-citizens would probably be roused against him. On these considerations he had almost determined to withdraw the demand of a second meeting, and did not conceal this feeling from those persons with whom he was in habits of intercourse. Col. Benton, in thus yielding to the entreaties of friendship and to the dictates of his conscience, did not imagine that he was furnishing a means of calumny to his enemies, or that the motives of his conduct could possibly be misunderstood. In this idea he found himself disappointed, and was in a very few days assailed by reports of the most offensive nature to his feelings and reputation. Col. Benton then saw the necessity of disproving those reports, either by another meeting or by the explanation of Mr. Lucas, from whom or from whose friends he supposed them to have proceeded. He accordingly determined to await the moment when Mr. Lucas should be sufficiently recovered to come to the field, and then to give him an opportunity of justifying or contradicting the reports in circulation. About this time Mr. Barton called on me, whether in the capacity of Mr. Lucas' second or not I cannot say, and in the course of conversation, in reply to a question of mine, informed me that Mr. Lucas was sufficiently recovered to meet Col. Benton."

Two days later Col. Lawless, having seen Col. Benton, called on Mr. Barton. His statement continues,—

"As I was one of those who were of opinion that he should release Mr. Lucas from the pledge he had given, I felt considerable regret that the generous intentions of my friend should be affected by reports which might have been circulated without the knowledge of Mr. Lucas, and considered it, therefore, my duty to exert myself in every way consistent with the honor of Col. Benton to avert a result which would certainly prove more or less calamitous. With this view, I stated to Mr. Barton the motives that might have disposed Col. Benton to release Mr. Lucas from his promise to meet him and the causes that counteracted this disposition. I then proposed that Mr. Lucas should sign a declaration disavowing the reports in question. To this proposition Mr. Barton assented, and a declaration to the above effect was drawn up and agreed to by us. This declaration, which appeared to me sufficiently full, was submitted to Mr. Lucas, who consented to sign it. Col. Benton, however, did not consider it as sufficiently explicit, and rejected it. This decision appeared to leave no other alternative than a meeting, which was accordingly agreed upon between me and Mr. Barton."

The Lawless account proceeds as follows :

"In this situation matters remained for three or four days, during which my own reflection, and the opinion of several honorable and sensible men whom I consulted, convinced me that the cause of quarrel at present being perhaps ideal, I should omit no effort to prevent the fatal consequences of the intended meeting. In this opinion the personal safety of my friend was my least consideration, as upon such occasions it ever has been. With this view I drew up a second declaration more explicit and full than the former, precluding all possibility of mistake as to the motives or conduct of either party, and, as it appeared to me, consistent with the honor of both. Mr. Barton having examined and approved of it, obtained from Mr. Lucas his consent to sign it. I, on my part, submitted it Col. Benton, and, supported by his other friends, succeeded in inducing him to accept it."

The terms of this declaration are as follows :

"In consequence of reports having reached Col. Benton of declarations coming from me respecting the shortness of the distance at which I intended to bring him at our next meeting, I hereby declare that I never said anything on that subject with a view to its becoming public, or of its coming to the knowledge of Col. Benton, and that I have never said or insinuated, or caused it to be said or insinuated, that Col. Benton was not disposed and ready to meet me at any distance, and at any time whatsoever.

(Signed) "CHARLES LUCAS."

The object of this publication was to show that with honor to both parties the entire matter had been closed. It proves beyond question that here the whole matter should have ended. It fixes the blame of subsequent events on Col. Benton. On this point J. B. C. Lucas said afterwards,—

"My son thought he had attained his object, which was to silence his enemies, to convince the world that he dared to meet a renowned duelist, his superior in the art and mystery of killing men, and give him a full chance to shoot at him; but he dreaded nothing more than the idea of sliding into the character which he most abhorred, that of a common duelist. He apprehended that in pursuing that course any further he would soon forfeit the esteem and confidence of the sober and virtuous part of the community. He thought it was high time for him to retrace his steps, and consented, with the advice of his friends, to sign the declaration."

But there was a determination to force a second meeting. Whether Col. Benton was most to blame, or whether evil-minded friends, knowing his disposition, misrepresented the facts, cannot be easily decided. September 26th, on his return from Superior Court, Lucas, to his surprise, received a peremptory challenge dated three days before. It read as follows :

"SIR,—When I released you from your engagement to return to the island, I yielded to a feeling of generosity in my own bosom and to a sentiment of deference to the judgment of others. From the reports which now fill the country it would seem that yourself and some of your friends have placed my conduct to very different motives. The object of this is to bring the calumnies to an end and to give you an opportunity of justifying the great expectation which has been excited. Col. Lawless will receive your terms, and I expect your distance not to exceed nine feet.

(Signed) "T. H. BENTON."

Young Lucas blazed with indignation, and responded as follows :

"Although I am conscious that a respectable man in society cannot be found who will say he has heard any of those reports from me, and that I think it more probable they have been fabricated by your own friends than circulated by any who call themselves mine, yet, without even knowing what reports you have heard, I shall give you an opportunity of gratifying your wishes and the wishes of your news-carriers. My friend, Mr. Barton, has full authority to act for me.

(Signed) "CHARLES LUCAS."

They met the next morning on Bloody Island. The distance was ten feet. Benton had a barely per-

ceptible advantage in quickness, and his bullet, passing through Lucas' arm, gave him a mortal wound in the region of the heart. He died in a few minutes. Col. Benton was unhurt.

Mr. Barton stated that "at the last interview Lucas appeared equally cool and deliberate; both of them presented and fired so nearly together that I could not distinguish two reports." It was remarked that Lucas raised his pistol in a good direction, hence it is supposed that the ball of his adversary reached his arm before or at the time his pistol went off.

Col. Benton, as is customary in such cases, approached the fallen man and expressed his sorrow. Lucas replied, "Col. Benton, you have persecuted me and murdered me. I don't, or cannot, forgive you." And he repeated these words. Finding, however, that his end was fast approaching, he added, "I can forgive you,—I do forgive you," and he gave Col. Benton his hand.

This is a plain account of a dreadful affair, which ought never to have been permitted. The seconds of both parties appear to have been much to blame. They should, after the first meeting, have declared that sufficient had been done to satisfy all concerned. The second meeting was forced in spite of reason and humanity, and thus a young man of high character and great promise was lost to the service of his State. A letter, printed in 1817, from Col. Rufus Easton, one of the most prominent lawyers in St. Louis at that time, throws further light on the affair. After saying that a report had been industriously circulated in St. Louis to the effect that he had instigated the challenge from Lucas, Col. Easton proceeds,—

"A sense of justice and a respect for truth induce me to state that this report is utterly false. I attest that I traveled with Charles Lucas from the village of Prairie du Rocher to St. Louis, on his return from attending the Superior Court for the Southern Circuit; that we arrived together at St. Louis on the 26th of last month, at about eight o'clock in the morning; that on his arrival he expressed much astonishment at seeing in the *Missouri Gazette*, under the name of L. E. Lãwless, a statement not only containing a long series of facts, but also what were pretended to be the thoughts, motives, and intentions of Col. Benton. Mr. Benton was represented in this statement in glowing colors and occupying a very high ground, and Charles Lucas was standing on a low one. Notwithstanding all these apparent advantages on the side of Col. Benton, something was still wanting, he was not satisfied,—Charles Lucas was yet breathing."

The coolness and high courage of Mr. Lucas at both meetings was proved by irrefragable evidence. He was but twenty-five years old at the time of his death. After the fatal result the *Missouri Gazette* remarked,—

"The infernal practice of dueling has taken off this morning one of the first characters in our county, Charles Lucas, Esq.,

attorney-at-law; his death has left a blank in society not easily filled up."

The party factions of 1817 are long ago forgotten and outgrown, except in the memory and record of such events as this Benton-Lucas duel.

In August, 1818, occurred the next duel of which any distinct account is preserved. It was that of Capt. Martin and Capt. Thomas Ramsay, of the First Regiment United States Rifles. It took place near St. Louis, the exact locality not being recorded, and at the first fire Capt. Ramsay was fatally wounded. He was buried with Masonic honors August 17th.

On the 30th of June, 1823, occurred the death of Hon. Joshua Barton, shot in a duel by Thomas C. Rector, brother of the surveyor-general of the Territorial district. Barton, second in the Benton-Lucas duel, and one of the ablest and best-loved men in the community, was at the time attorney-general for the district of Missouri, and his brother was United States senator. In the *Missouri Republican* of June 25, 1823, Joshua Barton, over the signature "Philo," criticised the official conduct of William Rector, the surveyor general. The editor said, in the same issue,—

"We have inserted the communication signed 'Philo' on the principle that men in office are bound to answer to the people for the manner in which they discharge their public duties, and that if charges are made against them from a respectable and responsible source, and are couched in decorous terms, the press would defeat the object of its institution if it refused to permit them to come before the public."

Barton's complaint was,—

"That the surveyor-general indulged in the practice of giving out the largest and best contracts for surveying to his family connections and personal friends, who sub-let them, and, without incurring any particular labor, responsibility, or risk, were enabled to pocket considerable emoluments."

After the duel (July 16th), Edward Bates, one of the most distinguished men St. Louis has ever claimed as a citizen, gave his public pledge to substantiate this. He then showed that no less than twelve relatives and connections of Surveyor-General Rector had received from him appointments as deputy surveyors, and had sub-let contracts at enormous profits to themselves. In the year 1822 alone, out of two hundred and fifty-four townships surveyed, one hundred and ninety-five were given to his own kindred. Bates concluded his exposure in the following sensible manner: "If Gen. Rector should take offense at what I have written, the courts are open to him, and if I have wronged him, the laws will afford him a vindictive remedy. If he will venture to take this course, I will justify these statements and prove the facts upon him before a jury."

But the Rector blood was aroused when the members of the family read Barton's letter. The general was in Washington attending to his political interests, for his place was in jeopardy. Though expected to return in a few days, his brother Thomas could not wait, but having secured the name of the writer he challenged him. The meeting took place at six P.M. June 30th. Both fired at the word, Barton dying in a few moments, and Rector escaping unhurt. On July 1st Gen. Rector returned, and issued a card requesting suspension of public judgment. He also, losing his temper, wrote angrily to the editor of the journal that had published "Philo's" communication. A week later he published a general denial of the charges against him. Public sentiment could, under these circumstances, have but one opinion, and the Rectors lost caste. Thomas was killed in a brawl some years later, and William died in poverty and misery in Illinois.

On the 17th of September, 1823, the *Republican* remarked, "Two more persons have been killed in duels near St. Louis. Their names are Messrs. Waddle and Crow. It must be a vicious state of society in which the pistol is the umpire in every controversy." Two of the three fatal duels fought in 1823 near St. Louis occurred on Bloody Island.

Undeterred by these tragical events, and yielding weakly to an evil public sentiment, fatal encounters continued. In 1831 the doubly disastrous Biddle-Pettis duel occurred. This also originated in political causes, and had its sources in the war against the United States Bank, at whose head was Nicholas Biddle, a conspicuous figure of the time. The conflict grew fierce and acrimonious. In St. Louis resided Maj. Thomas Biddle, a gallant officer of the war of 1812, brother of Nicholas, and Spencer Pettis, an ardent supporter of the Jacksonian policy. The former was paymaster of the army, and had recently been married. The latter, a lawyer and representative in Congress, desired re-election, and in his canvass was very severe in his criticisms of Nicholas Biddle. Maj. Biddle attacked Pettis in a newspaper article, and Pettis replied in strong terms. Maj. Biddle then resolved to cowhide his opponent, sought his lodgings early in the morning, was shown to his room, found him in his night-clothes and asleep, and proceeded to chastise him unmercifully. Outsiders rushed in and put a stop to the disgraceful scene. Mr. Pettis was in feeble health, and great sympathy was felt for him. He took no immediate steps towards redress; his friends and partisan newspapers said all they could, and at the election he was chosen by a large majority. But the night before the election, Pettis, thinking that

Biddle might attack him upon the street, procured his arrest on a peace warrant, and Judge Ferguson, reasonably thinking that under the circumstances too much peace was better than too little, also bound Mr. Pettis over. This action has been variously criticised. Its causes were purely political. David Barton was Pettis' opponent, and a giant to contend against. Col. Benton himself took the matter in hand, and told Pettis that if they met and he was shot, there was no time to bring out another candidate. "Therefore," he said, "arrest Biddle, print the facts, and after the election vindicate your honor." After the election, for nearly a month, the parties were engaged in official business.

On August 21st or 22d the challenge was carried by Capt. Thomas to Maj. Biddle. They met at Bloody Island at five o'clock on Friday afternoon, August 27th. The intelligence of the duel spread through St. Louis, and an immense concourse of people lined the river shore to witness it. The windows and the tops of the houses were crowded with spectators. Owing to the nearsightedness of Maj. Biddle, the distance was fixed by him at five feet. Both parties behaved intrepidly. When they presented their pistols they overlapped. At the word Pettis suddenly stooped, with the evident purpose of shooting in the abdomen of his adversary. In this he succeeded, but was himself hit in the side, the ball passing entirely through his body. Both were mortally wounded. When assured of this fact, they exchanged forgiveness, and were borne from the ground. Mr. Pettis died the next afternoon. Maj. Biddle survived until the following Tuesday, and was buried with the honors of war at Jefferson Barracks. His widow died in 1851. She was possessed of large wealth, and devoted herself and her fortune to public and private charities. In her will she left provision for a Widows' and Infants' Asylum, a noble benefaction, which stands at the corner of Tenth and Biddle Streets, in St. Louis. In the grounds of this institution the remains of herself and husband reposed for many years, and until their removal to the new Catholic cemetery in the vicinity of the city. On the old monument was this touching inscription,—

"PRAY FOR THOMAS AND ANN BIDDLE."

The officers of Maj. Biddle's regiment passed a glowing tribute to his memory, and the associates of Spencer Pettis at the bar did the same. At the meeting to arrange for the latter's funeral Hon. Thomas H. Benton presided, and Augustin Kennerly was appointed secretary. The following gentlemen were chosen to compose the committee of arrangements:

Joseph C. Laville, Edward Dobyns, T. Andrews, John Shade, Charles Keemle, Capt. J. Ruland, R. H. McGill, Daniel Miller. Mr. Pettis was buried on Sunday, August 29th, and old inhabitants still speak of the funeral as the largest they ever witnessed.

Some time passed before another duel occurred near St. Louis. The *Republican* of July 7, 1838, describes an affair which took place near Alton, Ill., August 4th, between a Mr. Le Lange and R. G. Bates, on account of some personal difficulty which occurred in St. Louis. They met by moonlight, eight yards distant, and at the first fire Mr. Le Lange was wounded in the arm. Here the matter ended.

The duels thus far described were fought with the traditional pistols, but during the last week in September, 1845, Bloody Island witnessed a broadsword duel between two German gentlemen. Mr. Heisterhogen wounded his adversary, Mr. Kibbe, in the face, and blood being drawn, the matter was brought to a close, much after the fashion in vogue at the German universities.

This brief record of some of the most interesting duels fought near St. Louis would be incomplete without reference to an amusing farce in which Francis P. Blair took part. The *Missouri Republican* of March 6, 1849, contained the following item, which explains the result of what most persons at the time supposed would be a tragic event: "We understand that F. P. Blair, Jr., yesterday evening, for the first time since the recent publications in the newspapers, met Mr. L. Pickering, editor of the *Union*, on Second Street, and gave him a personal chastisement. The meeting, we are told, was entirely accidental, and but for the system of non-resistance adopted by the latter might have been serious."

A full account of the causes which led to the bloodless affair would involve a history of Missouri politics at the time. Blair was a defender and ally of Benton. The *Union*, which Loring Pickering then edited, had long been somewhat hostile to the Benton party. The difficulty with Blair began in January, 1849. A letter published from him in the *Republican* of February 1st gives, as shown by the concurrent testimony of Col. George Knapp, of St. Louis, and Thomas T. Gantt, the noted lawyer, a fair account of "the duel that did not come off." Col. Blair says,—

"I published a series of articles in the *Republican*, which were scrupulously devoted to a criticism upon political events, and couched in the most respectable phraseology when individuals were referred to. This is the testimony of men of all shades of political opinion who have read them. They have had, in some measure I believe, the effect I designed. The parties against whom they were directed soon, at least, became uncom-

fortable, and let off repeated explosions of wrath and ribaldry against the author. As I kept the even tenor of my way, however, something else must be done. To this end Mr. Pickering was put forward to demand my name from the editor of the *Republican*, on the pretense that I had made a personal attack on him. As a preliminary, however, to the surrender of my name, the editor of the *Republican* required Mr. Pickering to pledge himself that he desired my name because he considered the article a personal attack, and that he would hold me 'personally responsible.' This is the language of Mr. Pickering's note, which I subjoin; but that there might be no mistake as to the meaning of phrases, it was then explained and assented to that he would either prosecute me in a suit at law, or require satisfaction at my hands under the code of honor. Mr. Chambers (editor of the *Republican*) informed me by note of the demand, and I forthwith assented to its being complied with, and awaited a call from Mr. Pickering. But it seems that such was not his purpose. It was only a trick he had invented to get my name, that he might discharge his wrath upon me by name in his newspaper in a senseless string of epithets. This conduct sufficiently exhibited him both as a knave and poltroon, but in order to display him in still broader relief I asked my friend, Mr. Gantt, to take a note to him for me. . . . I must prefix, however, one or two circumstances of unwritten history. Mr. Ladew, who brought Mr. Pickering's notes, told Mr. Gantt that Pickering had at first thought of making it a running fight with bowie-knives, but had settled, finally, on the place of meeting on the corner of Fourth and Pine Streets. I think, however, it will be obvious to all that the last was as clear an evasion of the meeting as the running fight would have been, for no man of true courage would appoint a place of combat so liable to interruption, and especially when the danger to other people would be so imminent as in one of the crowded streets of a city. In this light Mr. Gantt treated it, and replied that he was a contemptible poltroon. I do not make this publication vaingloriously, for I do confess I had felt very much ashamed whilst I put on a warlike aspect towards Pickering, and it has been a subject of mirth with me and my friends during the whole progress of the correspondence"

The entire correspondence on the subject is contained in a five-column article in the *St. Louis Republican* of Sept. 2, 1875. An incident known as the "umbrella affair" occurred a month later, and both parties published their versions, Pickering's being as follows:

"I recognized F. P. Blair, Jr., as the person who had jostled me, and asked him what he meant by the supposed insult. He said something in reply which I did not comprehend, and instantly struck at me with his umbrella, the point of which entered my left eye near the inner angle, partially blinding me. I immediately returned the blow with my umbrella, when the assailant retreated some ten steps and stopped, at the same time placing his right hand in his bosom as if to draw a weapon. I also, at that moment, seized the handle of my bowie-knife, but Judge Blair, exclaiming to his brother, 'Come along,' or words to that effect, the assailant turned and quickly walked off up the street."

On March 10th, after a political meeting, while returning home, Blair was hailed and fired at three times before he could unbutton his overcoat and secure his own weapon. His assailant was about ten feet distant, but as soon as Blair returned the fire the

former fled. Circumstances pointed to Pickering, and he was indicted before the grand jury, charged with an assault with intent to kill. Blair, on mature reflection, declined to prosecute.

MILITARY ORGANIZATIONS.

St. Louis has been from the earliest period of its history the scene of great military activity at different epochs. Bellefontaine Cantonment and afterwards Jefferson Barracks was an important point for the concentration of troops, and the presence of United States officers and their active participation in the social life of St. Louis has greatly aided in keeping alive the military spirit. Among these officers none was more highly esteemed than Gen. Daniel Bissell, who built the cantonment at Bellefontaine.

Gen. Bissell was born in Connecticut about the year 1768. His ancestors, of English stock, were early settlers of Connecticut, and related to many of the oldest and best families of New England. His father was a Revolutionary veteran, who served with gallantry for eight years in the colonial army. Though barely old enough to shoulder a musket, Gen. Bissell ardently embraced the cause of the patriots, and rose by his bravery through the various grades of promotion from a private to the rank of brigadier-general. His five brothers served with distinction throughout the Revolutionary struggle, and four of them afterwards in the regular army. One of them died on board a prison-ship, and one, Maj. Russell Bissell, died at Fort Bellefontaine, near St. Louis, in 1807, where he had been stationed for many years. No finer record of service by a single family can be shown than that of his father, brothers, and himself, whose military service amounted in the aggregate to one hundred and twenty years.

Gen. Bissell, while a young officer of the Revolution, was once assigned the duty of carrying important dispatches from Philadelphia to Pittsburgh. He made the journey on foot, unattended, and was often compelled to secrete himself from the hostile Indians, to go without food and endure bitter cold, to swim streams, etc. He delivered the dispatches safely, and won the hearty thanks and praise of the commanding officer, who could scarcely believe that he had made the perilous journey without an escort. His military career was an unusually active and brilliant one. As an officer of the regular army, he participated in many of the important battles on the Western frontier, and was with St. Clair in his memorable defeat. While he was in command of Fort Massac, an important military post on the Ohio River above Cairo, and during the administration of Thomas Jefferson,

the province of Louisiana was ceded by France to the United States. He was immediately appointed military commander of that portion of the Territory now embraced in the States of Missouri and Illinois. As heretofore stated, he built by government order the "cantonment of Bellefontaine," and was afterwards for several years commandant of that post.

As military commander, he was intrusted with both military and civil functions, and he left the indelible impress of his strong and honest character upon the measures leading up to the organization of the great States of Missouri and Illinois. He was a warm personal friend of Daniel Boone, and as military commander extended to Lewis and Clark in their famous expedition the hospitality of the Territory, aiding them greatly by his ripe counsel and experience.

Gen. Bissell, after leaving Fort Bellefontaine, was commander of many important points in the South, among which were Mobile, Baton Rouge, and New Orleans. He had the honor of commanding in the last battle, that of Lyon's Creek, of the war of 1812. He was mustered out of service in 1821 at Baton Rouge.

After his retirement from the army, he was strongly urged to accept prominent civil positions under the government, but declined to do so. He entered a large tract of land near St. Louis, on the Bellefontaine road, to which he added from time to time by purchase until his estate numbered two thousand three hundred acres.

He married about the year 1793, at Middletown, Conn., Deborah Seba, the daughter of Jacob Seba, who was a native of Holland and a prominent citizen of Middletown. Gen. Bissell's children were Eliza Seba, who married William Morrison, of Kaskaskia; Mary, who married Risdon H. Price, one of the pioneer merchants of St. Louis; Cornelia, who married Maj. Douglass, of the regular army; James, who died in infancy; and James R., now residing on the old homestead. Gen. Bissell died of pneumonia at his farm on the 15th of December, 1833. His wife died Nov. 15, 1843. Both are interred in the family burying-ground on the farm.

James Russell Bissell was born in Middletown, Conn., Sept. 12, 1808, and came to St. Louis while a child in 1810. He attended school at Mount Airy, near Philadelphia, and afterwards entered Transylvania University, at Lexington, Ky., from which he was graduated. He married March 7, 1849, Anna Haight Christopher, who was born July 10, 1824, and was the daughter of James Matthews Christopher and Elizabeth Lewis, a daughter of Elisha and Anna (*née* Haight) Lewis, both of Satterson, Dutchess Co., N. Y. Her father was born April 25, 1799, at Rochester,

D. Bissell

N. Y. Mrs. Bissell is a cousin of Governor Haight, of California, and is connected with many of the old Revolutionary families of the East.

The children of Mr. and Mrs. Bissell are Daniel, born May 4, 1850; Elizabeth, born Aug. 14, 1852, married to Charles E. Ware, of St. Louis; Sextus Shearer, born Nov. 16, 1856; Anna Haight, born Jan. 29, 1855, died Jan. 1, 1856; Cornelia Douglass, born Jan. 7, 1859; French Rayburn, born March 30, 1861; Cora Mary, born May 10, 1863; Eloise Morrison, born Aug. 21, 1865.

Mr. Bissell has given his children the advantages of a liberal education, and has always been a strong advocate of education and public improvements. For twenty years he has been a leading member of the Bellefontaine Methodist Church. Politically he is a firm Democrat, but in local matters always supports those who in his opinion are best fitted for the positions sought. He is a large landholder and a successful farmer.

A complete history of the militia organizations of St. Louis would of itself fill a volume. Since the year 1808 until the present time the military organizations have borne an active and prominent part in local affairs, and on many occasions they have been called upon to render dangerous service in the interests of city or the State, always responding with true military zeal and promptitude. If it so happened that there was no organization at the time of the demand, companies and regiments were immediately formed, and did their duty like veterans. In 1808 some of the townspeople subscribed for the purpose of forming a volunteer company of infantry, and at a meeting held at Yosti's tavern on August 21st, Benjamin Wilkinson was elected captain; Risdon H. Price, lieutenant; John Voorhees, ensign; and François Vincent Bouis, quartermaster. At this time Capt. Pierre Chouteau commanded a troop of horse. In the same month Governor Merriwether Lewis issued general orders to the militia of the Territory to muster according to law. In November, Governor Lewis, in compliance with the requisition of the Secretary of War, ordered a uniform draft of the militia throughout the districts of the Territory of Louisiana to be made. The quota of the Territory of the one hundred thousand men ordered by the President of the United States was three hundred and seventy-seven, and of these the district of St. Louis was required to furnish ninety-eight men,—seventy-seven infantry and nineteen riflemen. In April, 1809, the companies of Capts. Ellis and Bouis, of Cape Girardeau district, Capt. Otho Shrader, of Ste. Genevieve, Capt. Pierre Chouteau, of St. Louis, and Capt. Mackey Wherry,

of St. Charles, were ordered to rendezvous at St. Louis. July 26, 1809, Governor Lewis issued his proclamation, discharging the militia of the Territory held under his requisition of Nov. 28, 1808, to be again enrolled as before with the ordinary militia. In 1812, Capt. Nathan Boone was commissioned by the President of the United States to raise a company of mounted rangers for service on the frontier. In the same year St. Louis boasted of five companies of militia, commanded respectively by Capts. Joseph Conway, Joseph H. Burkhart, James Musick, Charles Lucas, William Smith, and David Musick, comprising almost every man in the place. With the close of the war the necessity for their existence also passed away, and it was not until 1819 that any other efforts were made in that direction. In December of that year a company of light infantry, called the St. Louis Guards, was formed, with the following officers: Henry W. Conway, captain; George H. Kennerly, first lieutenant; Amos J. Bruce, second lieutenant; Josiah Bright, third lieutenant; John B. Sarpy, ensign; Charles Wahrendorff, orderly sergeant; Charles Keemle, second sergeant; William Renshaw, third sergeant; David B. Hoffman, first corporal; S. Rector, second corporal; Wilson McGunnele, third corporal; William Renshaw, treasurer. In 1823, Alexander Gamble commanded the St. Louis troop. In 1832 the St. Louis Grays were organized, with Martin Thomas as captain. He, however, did not serve actively, and First Lieut. A. R. Easton became captain. Frederic L. Billon and John P. Reilly were also lieutenants. Upon the death of the latter, James S. Thomas (afterwards mayor of the city) became lieutenant, as did also James Dougherty. In 1848 the Grays were reorganized, numbering about sixty members, and at an election held June 6th the following officers were chosen: Captain, George W. West; first lieutenant, George Knapp; second lieutenant, Alexander T. Drysdale. In 1843, Montgomery Blair commanded the Montgomery Guards, and in the same year an artillery company, under the command of Capt. Kretschmar, was organized. In 1844 the battalion known as the St. Louis Legion was formed. Of this command the Grays formed part, being then officered by Capt. L. O. Coleman, First Lieut. George W. West, Second Lieut. George Knapp. As elsewhere stated, a battalion was formed from this material, and volunteered for service in Mexico, with the following officers: A. R. Easton as colonel, Ferdinand Kennett (now deceased) as lieutenant-colonel, and F. Schoentellar, also dead, as major. Col. John Knapp was a company officer.

Upon the return from Mexico the St. Louis Grays

were reorganized, with George W. West as captain, and he so served three or four years. Upon resigning, he was succeeded as captain by George Knapp. After the disbandment of the Grays' battalion, of which George Knapp had become lieutenant-colonel, and John Knapp captain of a company, an organization was effected of the "First Regiment, National Guard of Missouri," and John Knapp became lieutenant-colonel, the command being still vested in Col. Easton. Martin Burke was a line captain. This organization—Lieut.-Col. John Knapp being in command—surrendered to Gen. Lyon, of the United States army forces, when Camp Jackson, commanded by Gen. Frost, was captured.

The old "St. Louis National Guard," which was the pride of every St. Louisan in the olden time, was organized in 1852. On the 16th of July of that year a few persons, actuated by the desire, as expressed in their resolutions, of improving themselves in military exercise and discipline, met at the office of the Lumbermen and Mechanics' Insurance Company, and effected a temporary organization by electing James H. Patterson chairman, and Frank H. Tucker secretary.

A committee, consisting of Messrs. Pritchard, Obear, Field, Cook, and West, was appointed to report a constitution and by-laws, upon the adoption of which the company, which had hitherto borne the name of "St. Louis City Guard," was, on the 29th of July, 1852, fully organized under the name and style of the "St. Louis National Guard," with the following elective officers: Davis Matlack, president; James H. Patterson, vice-president; Alexander J. P. Gareschè, secretary; Frank H. Tucker, treasurer; and C. J. Jackson, Nathaniel M. Parker, Isaac Field, and George West, directors.

At a subsequent meeting, on the 12th of August, Robert M. Renick was chosen captain, John N. Pritchard first lieutenant, Frank H. Tucker second lieutenant, Edward S. Wheaton third lieutenant, and Josiah H. Obear fourth lieutenant. Organized under such favorable auspices, and animated with that *esprit de corps* which ever characterized the Guards, both officers and men vied with each other in their zeal to place the company upon a substantial basis by a careful selection of good men, the adoption of a company and a fatigue uniform, and such other requirements as were necessary for a perfect company. Upon the formation of the First Regiment of Missouri Volunteers, Capt. Renick was promoted to the colonelcy, and Lieut. Pritchard called to the command of the Guards, and subsequently, upon the organization of the brigade in the First Military District, under the com-

mand of Brig.-Gen. Frost, Capt. Pritchard was elected colonel of the infantry regiment, and Sergt. John B. Gray was chosen captain of the National Guards. The martial bearing and thorough drill of the corps was sufficient testimony of the soldierly qualities of Capt. Gray, and the high encomiums which the Guards received, both at home and abroad, were the surest evidence that the reputation and honor of the company were safe in his hands. It was the good fortune of the Guards, in their excursions to Lexington, Ky., to Cincinnati, and to Quincy, to be placed in line with the best volunteer companies in the country, and it is not too much to say that on every such occasion they sustained their good name and the honor of St. Louis.

The officers of the Guards in July, 1859, were William R. Biddlecome, president; John Decker, Jr., vice-president; E. B. Sayres, secretary; Henry Marston, assistant secretary; John L. Lewis, treasurer; and Messrs. Cabot, Hatch, Childs, Nolen, Senter, and Marsh, directors; with John B. Gray, captain; William B. Haseltine, first lieutenant; W. H. Finney, second lieutenant; and William S. Cuddy, third lieutenant.

As evidence of the military standing of the Guards, and of the estimation in which they were held at this time, it may be stated that in the brigade staff of the First Military District they numbered among their members Lieut.-Col. H. J. B. McKellops, assistant adjutant-general; Maj. William D. Wood, aide-de-camp; Maj. N. Wall, commissary; Maj. Cary Gratz, quartermaster; Maj. John J. Anderson, paymaster; Maj. W. R. Biddlecome, judge-advocate-general; and in the staff of the First Infantry, Col. J. N. Pritchard, Maj. E. S. Wheaton, Capt. W. R. Buchanan, adjutant; Capt. N. Hatch, commissary; Capt. Edgar Ames, paymaster; and Capt. H. W. Williams, quartermaster, being eleven superior officers in the brigade and regimental staffs.

The company uniform was greatly admired for its brilliancy and martial effect, and was almost identical with that of the Queen's Household Guards, which is reckoned the flower of the British army. They numbered seventy-eight active and one hundred and sixty honorary members. Their armory was on the corner of Third and Pine Streets.

Among the citizens of St. Louis who interested themselves in maintaining an efficient militia organization, Col. Thornton Grimsley was especially prominent. Col. Grimsley for forty years cultivated and promoted a military taste and spirit, and was at different times in command of the various military grades of the volunteer service of the city. He filled all of

the stations, from an orderly to division inspector. In 1832 he raised a volunteer company and tendered its services to the Governor of Illinois during the Black Hawk war, and in 1836 received from Gen. Jackson a captain's commission in the dragoons of the United States army, which he declined. In 1846, in less than twenty days, he enrolled a regiment of eight hundred men for the Mexican war, but as the government already had a sufficient number of troops in the field the services of the volunteers were declined.

Col. Grimsley, whose father, Nimrod Grimsley, came from Fauquier County, Va., to Kentucky, was born on the 20th of August, 1798, in Bourbon County of the latter State, and at seven years of age lost both parents. Three years afterwards he was apprenticed to the saddlery business, and served his master faithfully for eleven years, the only compensation he received being three months' schooling; yet, by diligent application to business, and possessing a superior mind, he soon won the respect and confidence of his master, and in 1816 was sent to St. Louis in charge of a valuable assortment of goods, where he completed his term of indenture. On reaching his majority the first act he performed was to return to Kentucky and expend his apprenticeship savings in six months' schooling; then receiving an invitation from his old employer in St. Louis he returned, and took charge of his business for some fourteen months, and in 1822 opened a store on his own account, associating with him William Stark. He married Miss Susan Stark, of Bourbon County, Ky., the same year. Several years of ill health, and the destruction by fire of his three years' accumulations left him in a distressed condition, but he did not waste time in idle regrets, but resolutely set to work to re-establish his business, and very shortly was again advancing prosperously.

The frankness of his disposition and natural goodness of heart made him hosts of friends, and in 1826 he was elected an alderman, and was the author of the movement to grade the wharf in front of the city, and strongly advocated that the western edge should be raised three feet higher. In 1828, Col. Grimsley was called to the Legislature of the State, where he was a useful and efficient member. He advocated the completion of the national road to Jefferson City, and urged other important measures. In 1835 he was again elected alderman, and did much towards settling satisfactorily the important claim of the St. Louis commons. From this tract was selected Lafayette Park and the spacious avenues about it, and from its liberal dimensions some of the short-sighted citizens called it "Grimsley's Folly;" now it is one of the chief ornaments of St. Louis. So useful was Col. Grimsley

in his political life, that in 1838 he was sent to the State Senate, and used his influence in the passage of the bill for the construction of the Iron Mountain Railroad, and also for the establishment of a workhouse.

In 1839 he was tendered the nomination to Congress by the Whig party, when the election was throughout the State at large, and made his canvass with great credit to himself, running far ahead of his party at a time when the whole State was overwhelmingly Democratic. In all public measures affecting the improvement, the growth, the interests and prosperity of the city for forty years, Col. Grimsley took an active and conspicuous part. Generous, impulsive, active, and energetic, he was at all times in the front rank, taking a decided part in whatever was calculated to promote the public welfare, whether connected with the mechanical, commercial, or agricultural interest, or conducive to the public improvement and advancement of the State.

As a manufacturer of saddles, Col. Grimsley enjoyed an extensive reputation in the business world. He invented and had patented the military or dragoon saddle, which was universally approved by the officers of the United States army, and did more work at his manufactory for the government at that time than any other factory of the kind in the country.

He was a prominent member of the Masonic order, having been made a Mason in Missouri Lodge, No. 12, and elected Grand Treasurer in October, 1827, and again in 1828.

Col. Grimsley was well informed on all the political questions of the day, having read much and kept pace with the events of forty years. In early life he espoused and advocated the principles of the Whig party, and was the staunch friend of Henry Clay. He was also well acquainted with most of the prominent statesmen of his day, with many of whom he corresponded and held personal relations and intercourse. No man of his day sacrificed more of his time and money in behalf of the city of St. Louis than did Col. Grimsley. He died Dec. 22, 1861, leaving two married daughters,—Mrs. Henry T. Blow and Mrs. George Stansbury,—and a son, John Grimsley.

The Missouri Dragoons were organized by Matthias Steitz, Charles Muller, and others in 1846. On the 1st of December, 1852, a military parade took place. In the line were the Missouri Dragoons, Capt. Brinckman; the St. Louis Grays, Capt. George Knapp; the Missouri Jaegers, Capt. Laibold; the Union Riflemen, Capt. J. W. Crane; and the National Guards, Capt. Renick,—the two last companies having been organized during the year. The Union Riflemen were

officered by Capt. J. W. Crane, First Lieut. James Gordon, Second Lieut. E. E. Allen, Third Lieut. E. Alcon, Fourth Lieut. J. G. Phillips, and Orderly Sergeant N. J. Roff. The National Guards were officered by Capt. R. N. Renick, First Lieut. J. N. Pritchard, Second Lieut. J. H. Tucker, Third Lieut. E. S. Wheaton, Fourth Lieut. J. Obear, First Sergeant W. G. Savage, Second Sergeant H. J. B. McKellops, Third Sergeant N. W. Parker, Fourth Sergeant George W. West, Fifth Sergeant Isaac N. Field.

During 1853-54 the "St. Louis Cadets," composed of the students of the St. Louis University, Capt. William Kenny, and Lieuts. John I. Ainslie, Victor Pujos, and Joseph Bienve; the "Light Guards," Capt. John C. Smith, Lieuts. Daniel Byrne, S. H. Smith, and Peter R. Cavanaugh; and the "Washington Guards," Capt. D. M. Frost, Lieuts. P. Deegan, Joseph Kelly, and Francis Burke, were organized.

There appeared on parade on the anniversary of Washington's birthday, 1854, the following companies:

Washington Guards, Capt. D. M. Frost.
National Guards, Capt. J. N. Pritchard.
Light Guards, Capt. J. C. Smith.
Continental, Capt. E. C. Blackburn.
Missouri Riflemen, Capt. Bernhard Laibold.
Black-Plumed Riflemen, Capt. E. E. Allen.
Missouri Dragoons, Capt. F. Brinckman.
Lancers, Capt. Jackson.
St. Louis Grays, Company A, Capt. Henry Prosser.
St. Louis Grays, Company B, Capt. E. O. English.
St. Louis Grays, Company C, Capt. D. I. Morrow.
Missouri Artillery, Capt. Henry Alinstead.
Union Riflemen, Capt. Louis Frey.
Mounted Riflemen, Capt. Frederic Walter.

The following were the regimental officers: Col. Renick, Lieut.-Col. George Knapp, Maj. Smith, Adj. John Knapp.

In 1858 a new act of the Legislature reorganizing the militia was passed, and many of the old companies reorganized under it, and some new ones were formed, among which were the Washington Blues, Capt. Joseph Kelley, Lieuts. P. E. Burke, John R. Drew, and C. W. Hogan; the Washington Guards, Capt. D. M. Frost, and Lieuts. Patrick Gorman, Robert Tucker, and Patrick O'Connor; the Emmet Guards, Capt. J. C. Smith, and Lieuts. Edward Byrne, Philip Coyne, and Edward Mulholland; the St. Louis Grays, Capt. John Knapp, and Lieuts. Edward Cooper, Augustus Pasquier, and Martin Burke. The City Guard was also organized in this year, with George A. Schaeffer as captain, and A. G. Hequemberg, J. J. Morrison, and B. Davidson, lieutenants; also the Missouri Guards, with George W. West as captain, and Frank H. Tucker, Solomon Scott, and A. C. Bernondy as

lieutenants; National Guard, B. E. Walker, captain; L. H. Garnett, John W. Amiss, and Thomas W. Bandon, lieutenants.

In 1860 the militia was ordered to proceed to the Kansas border to suppress Montgomery and his band. The order was received on Friday, November 23d, and everything was in readiness to move within twenty-four hours afterwards.

On Sunday morning, November 25th, the troops left St. Louis, and endured for three weeks all the rigors and hardships of a winter campaign with remarkable resolution and courage. The objects of the expedition were accomplished without bloodshed, but the troops showed such discipline and zeal as proved that they lacked only the name to become "regulars" in fact. The following is a list of the staff officers and the officers of the various companies:

GENERAL STAFF OFFICERS.

Brig.-Gen. D. M. Frost, commanding; Lieut.-Col. J. S. Bowen; Maj. W. D. Wood, aide-de-camp; Maj. Carey Gratz, quartermaster; Maj. John J. Anderson, paymaster; Maj. N. Wall, commissary; Maj. R. S. Voorhis, judge-advocate-general; Maj. Florence M. Cornyn, surgeon.

FIRST REGIMENT INFANTRY, M. V. M.

Lieut.-Col. John Knapp, commanding.

Regimental Staff.

Capt. H. W. Williams, quartermaster; Capt. Samuel Hatch, commissary; John R. Drew, Paymaster; Joseph T. Scott, Surgeon.

Corps of Engineers, National Guards.

Lieut. McKellops, commanding,—100 men.

St. Louis Grays, Company A.

Martin Burke, captain; S. O. Coleman, first lieutenant; R. U. Leonori, second lieutenant,—36 men.

Sarsfield Guards, Company B.

Charles L. Rogers, captain; Thomas Curley, first lieutenant; Hugh McDermot, second lieutenant; Felix A. McDonald, third lieutenant,—45 men.

Washington Guards, Company C.

P. Gorman, captain; R. Tucker, first lieutenant,—60 men.

Emmet Guards, Company D.

William Wade, captain; E. Byrne, first lieutenant; M. Park, second lieutenant; Philip Coyne, third lieutenant,—44 men.

Washington Blues, Company E.

P. E. Burke, first lieutenant, commanding; Patrick Lanigan, second lieutenant; L. Phillibert, third lieutenant,—40 men.

Missouri Guard, Company G.

G. W. West, captain; Sol. Scott, Jr., second lieutenant,—42 men.

City Guard, Company I.

J. J. Morrison, captain; H. W. Sandford, second lieutenant,—40 men.

Montgomery Guards, Company K.

Patrick Naughton, captain; John R. Carroll, second lieutenant; C. A. Ghio, third lieutenant,—30 men.

Independent Guards.

George A. Schaffer, captain; Charles H. Fredericks, first lieutenant,—36 men.

Squadron of Cavalry.

Maj. Schaffer, commanding; Lieut. W. Jackson, adjutant; A. Jaeger, sergeant-major,—40 men.

Missouri Light Infantry.

William Jackson, commandant; G. Reinhardt, first lieutenant; Henry Betz, second lieutenant; Joseph Snyder, third lieutenant,—36 men.

After the war there were various independent militia companies and some recognized by the State, but it was not until the labor riots of 1877 that the necessity for a well-organized militia force was popularly recognized. When danger threatened at that time, a mayor's guard, police reserves, and other volunteer forces were speedily organized, Maj.-Gen. A. J. Smith commanding. This force, co-operating with a brigade of Illinois militia, Gen. E. N. Bates commanding, and stationed at East St. Louis, succeeded in preventing further disorder. There was no bloodshed, but much threatening, and on a hot Sunday afternoon the Illinois militia, led by a volunteer aid to Gen. Bates, Capt. J. H. C. Irwin (since a St. Louis journalist), captured seventy-nine railroad strikers who were ringleaders of a mob of thousands endeavoring to prevent the departure of the first trains.

After the riots the call for an effective militia force in St. Louis was so urgent that Gen. Squires and Col. J. L. Torrey, his chief of staff, met with much encouragement in their work of organization and discipline. So well sustained were they and others, that the present force has become a credit to the city and State.

The construction of a new armory at the corner of Pine and Seventeenth Streets was commenced in August, 1881, and in May, 1882, it was formally opened by a grand encampment arranged by the Ladies' Military Association. The building fronts two hundred feet on Pine Street, with a depth of one hundred and nine feet. There is a large arena, seventy-four by one hundred and thirty-five feet, designed for cavalry and artillery drill. The building is three stories high, and is admirably arranged for all its purposes. On the third floor is an immense hall, one hundred and four feet by one hundred and ninety-four feet, with a height at the side walls of twenty-three, and over sixty feet clear in the centre to the arched roof. In November, 1881, the First Regiment Police Reserves, which had been in existence about four years, under the command of Col. J. G. Butler, was mustered into the service of the State, and became the Third Regiment, National Guard of Missouri.

The following is a carefully corrected roster of the general, field, staff, and line officers of the St. Louis militia:

Governor Thomas T. Crittenden, commander-in-chief.
Brig.-Gen. John B. Waddill, adjutant-general.

Governor's Staff in St. Louis.—Brig.-Gen. L. T. Pim, surgeon-general; Brig.-Gen. R. Graham Frost, judge-advocate-general; Col. Leigh O. Knapp, inspector-general; Lieut.-Col. Fergus McRee, aide-de-camp.

Eastern Military District of Missouri, Brig.-Gen. Charles W. Squires, commanding.

Brigade Staff.—Lieut.-Col. Jay L. Torrey, assistant adjutant-general and chief of staff; Lieut.-Col. Thomas E. Holland, M.D., medical director; Maj. Edgar C. Lackland, quartermaster; Maj. Samuel Cupples, commissary; Maj. Robert Buchanan, assistant inspector-general; Capt. Jacob D. Goldman, aide-de-camp.

FIRST REGIMENT INFANTRY, N. G. M.—Col. George J. Chapman, commanding; major, Leland F. Prince.

Staff.—Maj. Joseph H. Leslie, M.D., surgeon; Capt. A. L. Shapleigh, adjutant; Capt. William C. Marshall, judge-advocate; Capt. James F. Coyle, quartermaster; Capt. W. G. Smyth, commissary; Capt. Ed. Batdorf, ordnance officer.

Company A, Capt. William P. Hazard, First Lieut. D. Prince, Second Lieut. W. H. Scott.

Company C, Capt. E. W. Duncan, First Lieut. T. S. Slaughter.
Company D, First Lieut. William H. Gregg, Jr., commanding; Second Lieut. Walter Graham.

Company E, Capt. Jacob S. Beck, First Lieut. George A. Simmons.

Company F (at St. Charles, Mo.), Capt. Joseph W. Ruenzi, First Lieut. T. S. Cunningham, Second Lieut. J. B. Martin.

Company G, Capt. F. S. Lawrence, First Lieut. R. R. Tilley, Second Lieut. W. J. Marshall.

Company K, Capt. George H. Platt, First Lieut. Charles M. Munroe, Second Lieut. T. J. Brown.

ST. LOUIS LIGHT ARTILLERY, BATTERY A.—Capt. Samuel D. Winter, First Lieut. P. H. Skipwith, First Lieut. R. E. Williams, Second Lieut. R. D. Saunders.

THIRD REGIMENT INFANTRY, N. G. M.—Col. James G. Butlér, commanding; Lieut.-Col. Edward D. Meier.

Staff.—Maj. W. A. McCandless, M.D., surgeon; Capt. George C. Betts, chaplain; Capt. Pierre Chouteau, adjutant; Capt. Charles E. Slayhack, commissary and quartermaster.

Company A (Lafayette Guard), Capt. Shepard Barelay, First Lieut. F. J. McMaster, Second Lieut. Frank Lowery.

Company B, Capt. Daniel C. Bordley, First Lieut. C. B. Bordley, Second Lieut. John G. Meara.

Company D, Capt. C. P. Walbridge, First Lieut. Charles D. Comfort, Second Lieut. L. M. Hall.

Company E (Mayor's Guard), Capt. William Bull, First Lieut. Walter Johnson, Second Lieut. L. C. Brandon.

Company F (Allen Guard), Capt. Fitz W. Guerin, First Lieut. Walter H. Martin.

Company G (Branch Guards), First Lieut. M. Fritz.

Company H (West End Guards), Capt. Huntington Smith, First Lieut. N. G. Edwards, Second Lieut. John S. J. Miller.

ST. LOUIS LIGHT GUARDS.—Frank Halliday, first lieutenant, commanding; Theodore Hunt, second lieutenant.

BAIN ZOUAVES.—Capt. Robert E. M. Bain, First Lieut. T. R. Roe, Second Lieut. Charles B. Gaunt.

ATTUCK GUARDS (Colored).—Capt. W. H. Berzey, First Lieut. Louis Phillips, Second Lieut. Theodore Williams.

SUMNER GUARD (Colored).—Capt. James G. Horton, Second Lieut. Peyton W. Randolph.

There are also two independent companies of Irish-American extraction, the Emmet and Montgomery Guards, and the aggregate of rank and file in the St. Louis district is thus brought up to about one thousand seven hundred and fifty, with promise of speedily filling the regiments and companies to the full legal limit.

Gen. George Poolé Dorriss was born in Robinson County, Tenn., Oct. 16, 1807. His father was a well-to-do merchant, but the family being large, young Dorriss was soon taught the importance of making his own way in the world. He enjoyed the advantages of a course at Cumberland College, and while still a young man, being affected by the excitement which resulted from the discovery of the lead-mines at Galena, Ill., determined, with others, to try his luck at mining. His father having offered him a farm if he would cultivate it, he turned his attention to agriculture, but being late in getting in his crop, an early frost ruined it, and, disheartened, he concluded farming was not his forte. Soon after an opportunity offered for engaging in the mercantile business in Frankfort, Southern Illinois, and having obtained a stock of goods on credit in St. Louis, and at Louisville, Ky., he established himself in that town. In 1831, while engaged in business at Frankfort, he married Miss Sarah Henderson, in Todd County, Ky. Mr. Dorriss remained about two years in Frankfort, where his business was not very successful owing to the expensive stock of goods which he insisted on carrying. About that time the famous "Platte purchase" occurred, and Gen. Dorriss having pre-empted a valuable tract of land, removed with his wife and effects to Missouri, settling in Martinsville, now known as Platte City. He was among the first to locate there, and built the first brick house, which was considered at that time an important venture. Mr. Dorriss found full scope in the new country for his excellent business qualities. His indomitable energy and enterprise, combined with a sound judgment and keen foresight, won him a prominent place in the community, in which he was regarded as a leader. Being of an ambitious temperament, he took an active interest in public affairs, especially in politics, and was elected to the General Assembly, once as a member of the Lower House, and again to the State Senate.

Aside from his mercantile ventures he engaged in speculative enterprises, and invested largely in real estate, at one time owning thousands of acres. Included in the property he acquired was a large plantation, cultivated by hundreds of slaves. When the gold fever in California broke out, Mr. Dorriss fitted up a train of forty wagons and started overland for

the Pacific slope. For two years he traded in the mining region near Sacramento, and was very successful, realizing handsome profits. He was among the first to ship goods to California *via* Cape Horn.

At the expiration of the period named he returned to Platte, where he remained until after the civil war broke out, and then removed to St. Louis. In 1863, Mr. Dorriss engaged in business in Montana Territory, and for four years was located at Helena. He conducted a highly lucrative trade with the miners, and made several business ventures which yielded handsome returns. After concluding his transactions in Montana he resumed his residence in St. Louis, retiring from active business pursuits, and devoting most of his time and attention to his real estate interests.

Eight years ago he purchased some fifty acres of fine land on the Olive Street road and King's Highway, upon which he erected the large dwelling that he and his family occupied. The Dorriss mansion is an imposing structure, and is considered one of the most palatial residences in or near St. Louis. The interior appointments are luxurious in the extreme, and the surroundings are in keeping. Beautiful drives and artistically laid out walks lead in every direction over the extensive and well-kept grounds, and the entire premises, with the lovely lawn in front, wooded knoll at the rear, and massive iron gates and porter's lodge, are a model of elegant taste and picturesque beauty.

Gen. Dorriss had in all five children, of whom three were living at the time of his death—Mrs. Halderman, Mrs. Whisker, and Thomas Dorriss,—and seven grandchildren. Mrs. Whisker has since died, Jan. 17, 1883.

Gen. Dorriss, while never courting political honors, was several times elected to positions of trust and responsibility, and was a member of the Charleston Convention at the time when the nomination of Stephen A. Douglas to the Presidency was strongly urged. Socially he was very popular, being a pleasant companion and a generous entertainer and friend. In August, 1882, his health began to fail, and he went to Eureka Springs, but was afforded no relief. He was now in a feeble condition, but at his earnest entreaty that he might be permitted to end his days among familiar scenes, he was removed to his home.

His death occurred Nov. 29, 1882, and his remains are buried in Bellefontaine Cemetery.

His daughter, Mrs. A. B. Halderman, who was the almost constant companion of her father for the last few years of his life, owns and occupies at present the Dorriss mansion. Her children now living are Sallie,

G. P. Horns

born in St. Louis Aug. 7, 1864; Georgie, born in Leavenworth Feb. 3, 1874; and Annie, born in Leavenworth July 26, 1875.

CARONDELET AND EAST ST. LOUIS.

Owing to the fact that they have been identified with the history of St. Louis from an early period, the towns of Carondelet, or South St. Louis, and Illinoistown, or East St. Louis, are entitled to brief mention in this work.

The settlement of Carondelet¹ dates from 1767, in which year a Clement Delor de Treget, a native of Quercy, near Cahors, ancient province of Guicenne and Perigord, France, of an old family of position, and an officer in the service of France, came up from Ste. Genevieve to establish himself near St. Louis, and selecting the location hereinafter described, built a stone house for his residence. The high limestone bluffs, commencing at a short distance below the arsenal grounds, bordering the western shore of the Mississippi for a couple of miles in a southwest direction, at an elevation of some two hundred feet above the river, terminate in an almost abrupt descent to the low grounds south, at a distance of five and one-half miles from the court-house. At this point the river in its southern course changes its direction to nearly due south, and the land along its shores is nearly level, with a very slight descent to the mouth of the River des Peres, which at this day is the southern extremity of the city of St. Louis, about seven miles from Market Street, the city's centre. Here, at the south foot of this rocky bluff, at the northern commencement of this level, Delor built his house, which became in time the nucleus of the little village, at first called the village of Catalan's Prairie, which slowly and gradually grew up around him, numbering not over twenty families in a period of the same number of years, and at the date of the transfer to the United States (1804), as we learn from Stoddard, containing some fifty houses and a population of about two hundred and fifty. The whole country along the water-courses being in its primitive state, heavily covered with timber, the few prairie spots on this side being back from the rivers, the first settlers had to clear their lots and lands for their habitations. The only street, or rather road, in the place for many years was the Main Street, running north and south, parallel to the river, at about a hundred yards' distance from it, it being the road from St. Louis to the country south. The houses

were scattered along this road, most of them on the east side near the river, but a few on the west side.

As the little village grew in size and population it extended a few blocks farther south along the Main Street, and west. Towards the upper end of the hamlet a ravine crossed the road, down which the water from the high grounds emptied into the river.

The original village consisted of about a dozen blocks, from the present E or Elwood Street on the north to about L or Lafayette Street on the south, embracing the present blocks Nos. 7, 8, 9, 10, 11, and 12, lying east of Main Street, between it and the river, and blocks Nos. 35, 36, 37, 38, 39, and 40, west side of the road, between it and Second Street. There were no houses south of L Street, north of E Street, nor west of Second Street for many years, and to this day the surface of the ground remains unchanged, no grading having ever been done in this primitive portion of the village, except the grading of the descent of the road from St. Louis down to the Main Street, which was only done after the incorporation of the town to avoid, as in the olden day, the circuitous descent to the village around by Second Street. Elwood Street, the former north line of the village, ascends a gradual plane from Main to Fourth Street. Second Street descends gradually from Elwood, going south to where G Street is marked down on the town plat, between blocks Nos. 38 and 39, where the surface-water drains to the river, this being the lowest cross street of the old village. Second then rises abruptly to Illinois Street. Blocks Nos. 34 and 35 were originally very high ground when purchased and built on by Louis G. Picot after 1850, but have been cut down some twenty-five to thirty feet to the grade of Main Street by the Iron Mountain Railroad Company, which needed the earth elsewhere. These two blocks are the only places where the natural soil has been disturbed in the old portion of the village. There is no G cross street, the ground not having been left for it, but where it appears on the plat the water drains to the river through a culvert under the Main Street. The land west of Second Street, in this hollow, commences to rise again very abruptly west and south to the high ground at Illinois and Third Streets, the site of the present brick Catholic Church, built about 1860, on block No. 57, where stood the first of upright timbers built in 1835. On block No. 58, next south between Kansas and Lafayette Streets, stands the Convent of the Sisters of St. Joseph, established in the same year as the erection of the first log church (1835).

For many years after the first settlement of the village, the road down the hill on the north, owing

¹ The accompanying sketch of Carondelet was mainly prepared by Frederic L. Billon.

to the abrupt termination of the limestone bluffs at the present Dover Street, made a circuit around by Second Street, coming again into Main at Elwood.

In the year 1817 a few persons commenced making improvements on this high ground north of the village, then thickly covered with timber, on both sides of this old road down the hill, which was then abandoned, and a new one of easier descent was made west of the old one, which intersected the Second or back street of the village at the brow of the hill.

After the incorporation of the town in 1832, it was surveyed for the first time, and the lines of the streets and blocks established. In laying off the plat of this north part from Dover Street, the then northern end of the village, Main Street was prolonged nearly on the line of the old road, which had been abandoned in 1817, running parallel with the river, at about eighty yards distant from it, and Second, Third, and Fourth Streets parallel to the First or Main Street, making the blocks three hundred French feet square, as they were in the old original village. This survey cut diagonally through the few places then newly made on this north hill, which had been settled on without other title than the taking possession, as had been the custom in the early Spanish days.

Carondelet, when incorporated as a borough town in 1832, had been a village for about sixty-five years from its first establishment by Delor de Tregot in 1767, under its different appellations,—first of "Prairie Catalan," from one Louis Catalan; afterwards, from about 1790, "Louisbourg;" and finally, from 1794, "Carondelet," after the Baron de Carondelet, Governor-General at New Orleans from that date.¹ No survey establishing the lots and street lines had ever been made. Until then it was an appendage of St. Louis. In the Spanish days its head was a syndic or deputy of the commandant at St. Louis; it had no archives or records distinct from those of St. Louis, and whatever papers and documents relate in any manner to its affairs are intermingled with those of St. Louis.

The village was incorporated by the County Court of St. Louis County, Judge M. P. Leduc presiding, on Monday, Aug. 20, 1832, and its first ordinance, "regulating dram-shops," was approved Sept. 3, 1832, by John Eugene Leitensdorfer, chairman of

the board of trustees. The new town was surveyed for the first time by Laurentius M. Eiler, a deputy county surveyor, in November, 1832, and the first plat of the town was made by him, after which the cross streets were named by calling them after the letters of the alphabet, beginning with A at the north and V at the south end of the town. This plat and survey added to the old village five additional cross streets to the north end of the town, several south, and Third and Fourth to the west, being the east boundary line of the Spanish common field lots, and making the town about a mile and a half long, north and south, by a fourth of a mile wide,—four rows of blocks of twenty-three each, numbered from one to ninety-two, and twelve at the southeast corner on the river, lettered from A to M. The additional cross streets at the north end of the town, A, B, C, and D, although laid down on the plat to extend to the river, were never opened east of the high-road between the same and the river, and were doubtless abandoned, as the land is occupied to this day with fine private residences, overlooking the country far and wide. The main road down the hill was in time graded to the head of the Main Street, and the roundabout descent by Second Street abandoned.

In the course of subsequent years several additional surveys of out-lots north, west, and south from the common fields were made at various times, and finally the common south of the Des Peres was sub-divided and sold or leased.

Carondelet, after it had existed for some twenty years as a borough town, its population having largely increased and many new houses having been erected, a number of them of brick (the first of this description in 1839), was incorporated by act of the Legislature, approved March 1, 1851, and divided into three wards, with a City Council of two members from each ward. James B. Walsh was the first mayor, and the first City Council assembled April 9, 1851. The names of the streets were changed from initials to full names in October, 1854. The act of incorporation, extending the northern boundary to the commons of St. Louis and the southern to the mouth of the River des Peres, gave Carondelet a river-front on the Mississippi of nearly three miles in extent, now embraced in the corporate limits of the city of St. Louis.

The main road from St. Louis down the hill, rough-graded while a town, was greatly improved after its incorporation as a city, but since the extension of the city southwardly to the River des Peres, over more favorable ground, this old portion of the village is in a great measure deserted, and at present is in a ruin-

¹ The nickname "Vide-Poche" (empty pocket), as we have before stated, was derived from the general poverty of its inhabitants, whose sole supply of ready cash with which to pay for the two most important items in their current expenditures, "coffee and fiddle-strings," was obtained by the sale of firewood in St. Louis, with which they were abundantly supplied for long years for miles around.

ous and dilapidated condition. There are a few brick houses scattered among the lots north of Elwood Street, being of the oldest brick structures of the place, but they are almost hidden from the main road by the trees and shrubbery which has been permitted to grow up in this comparatively deserted part of the old town. There were no houses in the old village north of E Street in the French days.

Carondelet had no church nor parish priest for over half a century. Shortly after the commencement of the settlement, as already stated, in the year 1767, a piece of ground on the ascent of the hill, immediately back of the centre of the village, was set aside for a cemetery and the future church. When the village was surveyed for the first time after its incorporation as a town, and the blocks were numbered on the town plot, this one became No. 57. It is bounded by Second and Third and Illinois and Kansas Streets.

The eastern half of this block was used for interments for about sixty years, but the village was so small and the inhabitants so few for many years that they could not support a resident priest, consequently the most devout of them attended mass in St. Louis.

Early in the year 1823 a parish named St. Mary and St. Joseph was established by the Right Rev. Bishop Louis William Dubourg, of the diocese of St. Louis, and a small temporary church of logs was put up at the northeast corner of the west half of the block which had been reserved for the church.

The first curate of the new parish was Father Jean Audissio, who was succeeded by Fathers L. De Neckere, Joseph A. Lutz, R. Loisel, S. P. Doutrélingue, and Condamine, with occasional visits at intervals from Father Edmond Saulnier from the Cathedral parish at St. Louis, who officiated at times until he became the permanent curate, about 1833-34.

In March, 1823, the inhabitants of the village, about a hundred families, raised by subscription the sum of one hundred and fifty dollars, with which they purchased a half-block of ground on the west side of Third Street, across from the church, with a small house of posts on it for the residence of the priest, which was used for that purpose for a number of years.

In the year 1835, Father Saulnier replaced the temporary log church of 1823 by a new and much larger one of hewed upright timbers, situated on the southwest corner of block No. 57, fronting on Third Street. This second church, after having served its

purpose for some twenty-five to thirty years, was in turn replaced by the present one of brick, and very much larger, erected a little north of the other on the same block, where also stands the neat brick residence of the curate of the parish. An entry in the church register by Father Saulnier, dated March 12, 1840, states that five hundred bodies had been interred in the original cemetery to the date of its abandonment in 1839.

The academy and convent of the Sisters of St. Joseph at Carondelet occupies block No. 58, next south of the church block, and separated from it by Kansas Street. It originated and was established under the auspices of Bishop Rosatti, in 1837, by Sisters Marie Pomarel (afterwards styled Madame Celestine, the first Lady Superior), Antoinette Fontbonne, Marie Fontbonne, and Marguerite Bonté, all from France, who were the first to conduct its affairs

VIEW OF CARONDELET IN 1840.

in wooden buildings, which in time made way for the large and commodious brick edifices that now cover the grounds.

When the United States established Jefferson Barracks, which is located on the southeast portion of the land claimed by the inhabitants of Carondelet as the commons of the French and Spanish period, the title to the land had not yet been definitely settled by the United States authorities, consequently the purchase by the United States from the people of Carondelet was only a conditional one, to be determined thereafter. A deed from the inhabitants of Carondelet to the United States, July 8, 1826, recited that for the sum of five dollars paid by Col. J. B. Brant, assistant quartermaster United States army, a certain tract of land lying in the county of St. Louis, bounded as follows: east by the Mississippi River, north by land of Julian Chouquette and Benjamin Patterson, west by the public road leading from Carondelet to Hercula-

neum, south partly by the south line of the Carondelet commons, and partly by the tract marked on the general plat as No. 3, quantity undetermined, had been conveyed to the United States. Should the United States cease to occupy it for military purposes at any time before the title to the same was definitely determined, it should revert to the parties of the first part, with the same rights they then possessed, the United States reserving the right of disposing of the improvements they might deem necessary to put on the land. This deed was signed by Samuel Solomon, George Schoultz, Antony Barada, Antony Motié, Hyacinthe Pigeon, St. Amant Michau, Louis Constant (his mark), Alexis Page (his mark), Joseph Menard (his mark), Aug'n Dube, John B. Shoultz, Dominique Fortneuf. M. P. Leduc, witness. Recorded Book No. 113.

The south line of the Barracks' tract is the south line of the Carondelet commons, and the north line of J. B. Martigny survey, No. 3779, in townships 43 and 44 north, ranges 6 and 7 east.

The most prominent of the early settlers of Carondelet, many of whose posterity still reside in the county, were :

Delor de Treget, original pioneer, Antoine Barada, John B. Boucher, Joseph Chartrand, Sr., Julian Chouquet, Sr., Gabriel Constant, Louis Courtois, Sr., Louis Catalan, J. M. B. Chatillon, Joseph and Louis Desnoyers, Augustin Dube, Louis Dubreuil, François Fournier, John B. Gamache, Sr., Nicholas Gais, *dît* Gravar, Amable Guion, Joseph Guienard, Toussaint Hunaud, Louis Tesson Honoré, Sr., Charles Hotte, Etienne Lalande, Pierre La Puente, Joseph Le May, Laurent Lefebvre, Alexis Loise, Joseph Loisel, Pierre Martin Ladouceur, Sr., Antoine Marechal, Alexis Michel Marie, John B. and Louis Menard, Joseph Moitier, *dît* Rondin, John B. Petit, Hyacinthe Pigeon, Sr., John P. Pourcelli, Sr., John B. Pujol, Antoine Rivière, Charles and Paul Robert, Charles Roche, Charles and François Roy, Lambert Sallé, *dît* Lajoie, Christopher Schultz, Sr., Joseph Hubert Tabeau, Claude Tinon, Charles Vallé, John B. Vien.

In 1870 Carondelet was incorporated with and became part of the city of St. Louis. A contemporary account, under date of April 8, 1870, thus describes the act of taking formal possession :

"Yesterday morning Capt. Fuchs, city register, accompanied by City Engineer Bishop and his clerk, visited Carondelet for the purpose of taking formal possession of the books, records, archives, money, and other property of that ex-corporation, now a part of the city of St. Louis. Capt. Fuchs was armed with a written order from Mayor Cole, directing the officers of Carondelet to make a full delivery of all the documents, etc., connected with their respective offices. The delegation were absent nearly all day. Capt. Fuchs returned to St. Louis proper late yesterday evening. According to his statement, he found things in a singularly confused condition, and the ex-officials did not appear prepared to furnish precise information respecting their departments. At the office of Auguste William Gamache, city treasurer, Capt. Fuchs found that the cash assets of Carondelet consisted of one dollar, in two fifty-cent notes, of which he formally took possession. He also found a quantity

of canceled city warrants, which he appropriated. Mr. Dougherty, ex-register, declined to give the key of the safe to Capt. Fuchs, but said he would keep it until a settlement was made. During the day some cupboards, containing papers and records, two old maps, and a few boxes and books were sent up to the court-house in a wagon and deposited in the city register's office to be examined. To-day Sergt. Prescott and four police officers of the Carondelet sub-district attended Capt. Fuchs and Mr. Bishop in their investigations, and remain in charge of the office, and will permit nothing to be moved until the transfer is completed to-day. Capt. Fuchs states that various claims to articles and documents were preferred by different parties, but that he took possession of everything he could find belonging to the city, leaving the claims of individuals to be settled by the proper authorities. The safe was left in charge of the police. The records of the city do not appear to have been very elaborately kept, and only one book was found at the city treasurer's office.

"Under the order of Mr. Bishop, all work on streets was suspended until further orders, as defects were apparent in the matter of breadth and grade."

HERCULANEUM.—A history of early St. Louis would be incomplete without a brief notice of the now almost extinct town of Herculanæum,¹ Joachim township, the former county-seat of Jefferson County, and the present site of Crystal City, where extensive plate-glass works are now established. Some thirty miles below St. Louis, on the right bank of the Mississippi, an open space of about a mile in extent in the almost perpendicular limestone bluffs, which rise to the height of some two hundred feet above the stream, bordering the west bank of the river for miles above and below, affords an outlet through which the Joachim Creek, a considerable stream, having its sources in the southern part of the county, and following a north by east course, discharges itself into the Mississippi. In the early days of the settlements several of the old French inhabitants made selections and established themselves along the flat lands for some miles up this creek, followed after a few years by a few Americans. After the transfer of the country to the United States and the extensive development of lead mineral throughout all this region back from the river, two enterprising Americans, Col. Samuel Hammond, Sr., of St. Louis, and Moses Austin, of Ste. Genevieve, perceiving the advantages of this point for an extensive lead business from its nearer proximity to the mines than Ste. Genevieve, then the only point of shipment on the river, purchased from one Judathan Kendall, on Jan. 9, 1809, a tract of four hundred arpens of land at the mouth of the Joachim Creek, and immediately laid off their plat of the town of Herculanæum, which consequently was an American enterprise, and proceeded to the sale of a number of the lots.

¹ Contributed by Frederic L. Billon.

Early in the year 1809, immediately after the new town was laid off, John N. Macklot, of St. Louis, a son-in-law of Charles Gratiot, Sr., commenced the erection of a shot-tower on the rocky bluff south of the mouth of the creek, at the south end of the town, and on its completion, in the fall of the year, entered extensively into the manufacture of lead and shot, the first establishment of the kind west of the Alleghenies.

In that and the two following years, 1810 and 1811, a number of lots were sold, and the place took a start by the erection of a goodly number of buildings; but the war with England of 1812-15 interfered materially with its progress, as it did with everything else in this region, and checked its further advance for a time.

On the restoration of peace in 1815 it again began to grow, and for a time improved quite briskly, so that in 1817 the brothers Elias and William Bates, who had become residents of the place, felt justified in erecting a second shot-tower and lead-works, which they established at the northeast angle of the village. These two establishments, as also some others erected subsequently at points on the Mississippi, did an extensive and flourishing business for some years, exporting from the country a large amount of shot and balls, and pig and bar lead.

Western Americans in those primitive days were so enthusiastically patriotic that they seldom permitted the national anniversary to pass over without its due observance. They had a Fourth of July celebration in 1816 at Ellis' tavern, Col Samuel Hammond president, and Dr. John Finley vice-president, at which many from Harrisonville, on the Illinois side, came over and participated in the festivities of the day.

An evidence of the rising importance of the place in population and business, is the fact that a lodge of Freemasons was organized in 1818 under the Grand Lodge of Tennessee, with Wm. F. Roberts, W. M.; Seth Converse, S. W.; Wm. Bates, J. W.; Henry Cellinger, James S. Beaumont, and others. It was one of the three that participated in the organization of the Grand Lodge of Missouri in 1821, there being at that day but two others in the State.

In the Spanish days this region formed the southern portion of the "district" of St. Louis. After our acquisition of the country and the term "county" had been substituted for "district," it formed the township of Joachim, St. Louis Co., extending along the Mississippi from the mouth of the Meramee to the Platin Creek, six or eight miles below Hereulaneum, about twenty miles of river-front, including all of what is now Jefferson County. Governor

Trudeau made a number of grants of land to Americans from 1795 to 1799 in this township.

The county of Jefferson, taken from the southern portion of St. Louis County, was organized by act of the Territorial Legislature Dec. 8, 1818, and Hereulaneum established as its county-seat. The first term of its Circuit Court was held here on March 25, 1819, by Nathaniel B. Tucker, judge of the Northern Circuit; Samuel Woodson, clerk; and Andrew Scott, sheriff.

The place reached its climax about the time that Missouri became a State, when rival points for the shipment of lead, its main business, springing up along the river, mainly Selma and Rush Tower, far more favorable sites, some six or eight miles below, it began to decline, and after the removal of the county-seat in 1836-37 to Monticello (subsequently called Hillsboro', its present name), a more central location in the interior of the county, it gradually ceased to exist, and was lost sight of until the recent establishment within a few years of the extensive plate-glass works, under its new cognomen of Crystal City, seems likely to again bring it into view. The population of Jefferson County in 1820 was eighteen hundred and thirty-five, and in 1830 two thousand five hundred and ninety-two.

Among the more noted residents of Hereulaneum in early days, besides those already mentioned, were John W. Honey, Capt. R. P. Guyard, Mr. Ellis, C. C. Fletcher, and others. When in 1820, the first chapter of Royal Arch Masons in the Mississippi valley was established in St. Louis, so few of that degree were found in the country that, to procure the necessary nine to the petition, the Masons were compelled to make drafts on two or three points in the surrounding country. St. Louis furnished four or five, St. Charles and Edwardsville, Ill., a couple each, and from Hereulaneum they had the name of Clement C. Fletcher. This veteran Mason rarely failed for several years to attend the stated monthly meetings of the chapter, riding up on horseback from Hereulaneum, thirty miles over a broken country, crossing the Meramee, remaining in St. Louis a night, and returning home on the following day, devoting two days to his trip. This gentleman was the father of Governor Thomas C. Fletcher.

EAST ST. LOUIS,¹ situated on the Illinois shore opposite the city of St. Louis, had its origin in a settlement made by Capt. James Piggott, who in 1797

¹ For materials used in the preparation of this sketch the author is indebted to a "History of East St. Louis," by Robert A. Tyson, and to a lecture delivered by Dr. Isaac N. Piggott before the Historical Society of East St. Louis.

established a ferry at this point between the east and west banks of the river.¹

Previous to this Capt. Piggott had established, in 1783, a fort not far from the bluffs, in the American Bottom, west of the present town of Columbia, in Monroe County, which was called Piggott's Fort, or the fort of the Grande Risseau, or Great Run. This was the largest fortification erected by the Americans in Illinois at that day, and was well defended with cannon and small-arms. Upon the petition of Capt. Piggott and forty-five inhabitants of this fort, an act of Congress was passed granting to every one on the public land in Illinois four hundred acres, and a militia donation of one hundred acres to each man enrolled in the militia service of that year. Governor St. Clair, knowing the character of Capt. Piggott's services in the army of the Revolution, appointed him the presiding judge of the court of St. Clair County. The then county-seat was at Cahokia.²

¹ For a full description and history of this ferry the reader is referred to the sub-chapter on ferries in another portion of this work.

² Dr. Isaac N. Piggott. The petition referred to above was addressed to Governor St. Clair, and was as follows:

"GREAT RUN, May 23, 1790.

"TO HIS EXCELLENCY ARTHUR ST. CLAIR, ESQ., *Governor and Commander-in-Chief of the Territory of the United States northwest of the River Ohio:*

"We, your petitioners, beg leave to represent to your Excellency the state and circumstances of a number of distressed but faithful subjects of the United States of America, wherein we wish to continue, and that under your immediate government; but unless our principal grievance can be removed by your Excellency's encouragement, we shall despair of holding a residence in the State we love. The Indians, who have not failed one year in four past to kill our people and steal our horses, and at times have killed and drove off numbers of our horned cattle, render it impossible for us to live in the country any way but in forts and villages, which we find very sickly in the Mississippi bottom. Neither can we cultivate our land but with a guard of our own inhabitants equipped with arms; nor have we more tillable land for the support of seventeen families than what might easily be tilled by four of us; and as those lands whereon we live are the property of two individuals, it is uncertain how long we may enjoy the scanty privileges we have here; nor do we find by your Excellency's proclamation that those of us, which are the major part, who came to the country since the year 1783 are entitled to the land improved at the risk of our lives with the design to live on. These, with many other difficulties, which your Excellency may be better informed of by our reverend friend, James Smith, hath very much gloomed the aspect of a number of the free and loyal subjects of the United States. In consideration of which your petitioners humbly request that by your Excellency's command there may be a village, with in-lots and out-lots, sufficient for families to subsist on, laid out and established in or near the Prairie de Morivay. We know the other American settlers near the Mississippi to be in equally deplorable circumstances with ourselves, and consequently would be equally benefited by the privileges we ask.

With regard to the topography of the country in the vicinity of the present East St. Louis, as it appeared in 1799, and the history of its settlement, Dr. Isaac N. Piggott says,—

"Cahokia Creek, or the River L'Abbé, as it was formerly called, did not run into the Mississippi where it now does, but formed a junction south of Piggott's addition to Illinoistown with the Slough, which then ran at the head of an island, described in the 'Western Annals' as being opposite South St. Louis, and with said Slough ran past the village of Cahokia, below which the only ferry from Illinois to St. Louis could then be kept. By reference to the seventy-second page of Mr. Butler's 'History of Kentucky' it will be seen that Cahokia Creek was knee-deep in front of Col. Clark's camp at Cahokia, where he treated with the Indians, in September, 1778. But so great has been the change that neither Slough Creek nor island can now be properly recognized at that place. The late Auguste Chouteau, when speaking of the first settlement of St. Louis, says,—

"At that time a skirt of tall timber lined the bank of the river, free from undergrowth, which extended back to a line about the range of Eighth Street. In the rear was an extensive prairie; the first cabins were erected near the river and market; no "Bloody Island" or "Duncan's Island" then existed. Directly opposite the old Market Square the river was narrow and deep, and until about the commencement of the present century persons would be distinctly heard from the opposite shore. Opposite Duncan's Island and South St. Louis was an island covered with heavy timber and separated from the Illinois shore by a slough. Many persons are now living (1850) who recollect the only ferry from Illinois to St. Louis was from Cahokia below the island, and landed on the Missouri shore near the site of the United States arsenal."

"Although that description is correct as far as it goes, it does not attempt to describe the landscape at this place, nor when and how Duncan's Island and Bloody Island were formed, and why so named; nor why the only ferry from Illinois to St. Louis had to be from Cahokia below the island, opposite South St. Louis, and landed on the Missouri shore near the site of the United States arsenal; nor when and by whom the Wiggins Ferry at this point was first established. A ferry at this point at that date would have been worse than useless, because it could not have been reached by the inhabitants of Illinois until a road was made, and the River L'Abbé was bridged above its junction with the Slough, which then ran at the head of said island, and which is now known as Cahokia commons, south of East St. Louis. And all the space above the Slough, between the rivers Mississippi and L'Abbé, including the Ferry Division of East St. Louis and what is now known as Bloody Island, and the dike and ponds of water in that vicinity, was then bottom land, covered with majestic forest timber, interspersed with pea-vine, rushes, and winter-grass, upon which stock kept fat all the seasons of the year. The distance between the two rivers was then half a mile in width. This was also used as the common camping-ground for all the friendly Illinois Indians that traded at St. Louis, and sometimes by hostile Indians. Therefore to build the first bridge and make the first road was not only costly and laborious, but an extremely dangerous un-

And that those of us who came to the country and improved land since 1783 may be confirmed in a right of pre-emption to their improvements is the humble request of your petitioners. And we, as in duty bound, shall ever pray.

"JAMES PIGGOTT,
"and forty-five others."

dertaking; for although Col. Clark, in 1778, had taken all the Territory northwest of the river Ohio from the British Lion, yet that country's allies, the Indians, like tigers thirsting for blood, still claimed and occupied and, like lords of the forest, roamed through this vast region of wild country. . . . Excepting a few French villages in this bottom, the whole country northwest of the Ohio River was the abode of ferocious beasts and wild men. Those first heroes of the West were without roads, bridges, newspapers, or mail-carriers. Many of them had assisted in the erection and defense of Fort Jefferson in 1780-81, and had come with their captain and had formed the first purely American settlement at the Great Run.

"When Governor St. Clair, in 1790, first organized civil government in Illinois, he held council with the people, and in view of the prospective importance of this place, he advised his newly-made judge (Piggott) to establish himself at this place. To look at the surroundings of the country, it had very much the appearance of a forlorn hope, but the Governor knew his man. The inhabitants of both sides of the Mississippi felt the great need of such a ferry and co-operated heartily in it. At that time there was no other man willing to take the risk. In the summer-time men could not work here. In the winters of 1792-93, while the River L'Abbé was frozen, Judge Piggott erected two log cabins at this point, and continued every winter to carry on his improvements till 1795. After Gen. Wayne had conquered and treated with the hostile Indians, he then removed his family from his fort at the Great Run to this point, among the friendly Indians.

"As soon as the judge had completed his road and bridge and established his ferry from the Illinois to the Missouri shore, he petitioned (15th day of August, 1797) for and obtained the exclusive right to collect ferriage in St. Louis (at that time a Spanish province)."

With regard to the changes in the course of the Mississippi and the Cahokia Creek, the same authority adds,—

"The main channel of the Mississippi in 1800 ran nearly straight from the Chain of Rocks, supposed to be about nine miles above St. Louis, toward and close to the old western boundary of the Cabanné Island, and from thence striking the rocky shore of Missouri above St. Louis, near where the Sturgeon Market now is, thence running deepest against said rocky shore to Market Street, below which a sand-bar formed which grew into what is now called Duncan's Island, causing the current to deflect to Cahokia Island, and carried off a great part thereof. Meanwhile accretions accumulated on the west side of the Cabanné Island. This caused the current to carry off a great deal of the Missouri shore, and formed what was called the Sawyer Bend, above what is called Bissell's Point. In the fall of 1798 a sand-bar was formed in the Mississippi similar to the one now opposite this place and near the same locality. It increased rapidly, and soon became an island, covered with willow and cottonwood. In time this island received the prefix 'Bloody,' from the many bloody duels it was the theatre of.

"In the progress of time the main channel for steamboat navigation ran east of Bloody Island, and the current thus deflecting against the Illinois shore it was worn away rapidly. I believe the whole Mississippi River would ere now have been running east of this place had it not been prevented by diking. But before dikes proved a success the Mississippi had washed away all the land heretofore described as the Indian camping-ground, lying between the rivers, and filled up the bed of the old Miry Creek at the southwest corner of Illinoistown, and turned the channel thereof from its former route past Cahokia

to opposite St. Louis. For some time the ferry-boats landed at Illinoistown about the northwest end of Main and Market Streets and a mile below it. Various and expensive efforts were made to force the Mississippi back to its old channel west of this island. After several dikes or rock piers had been made along the Illinois shore so far as to deflect the current towards the Missouri shore, and also Dike Avenue having stopped the current from running on the east of this place, the slough which had run there has been rapidly filling up.

"An examination of the old plat of Illinoistown shows that at the northwest end of Main and Market Streets is the place where the bridge and road made in 1795 crossed the River L'Abbé, which is now in the bed of the slough. . . . The slough at the head of the island is already filled up. It is again attached to the mainland, and the other part of it is diked in several places and rapidly filling up. Properly speaking, this place is no longer Bloody Island, but the law-abiding Ferry Division of the city of East St. Louis."

After the establishment of the ferry by Capt. Piggott, various attempts were made to establish towns, some of which were laid out immediately on the shore of the river, and soon washed away. Among these were Washington and Jacksonville. The present city of East St. Louis is built in part on Cahokia common, which extended from the old village of Cahokia to the east bank of Cahokia Creek. Illinoistown, as East St. Louis was originally named, was laid out in the autumn of 1817, as is shown by the following advertisement in the *Missouri Gazette* of October 25th of that year:

"Illinois City, situate in the prairie near the mounds, opposite to the upper end of St. Louis, laid out on an extensive and liberal plan, the principal streets being ninety-nine and none less than seventy-one and a half feet wide; eight lots of one hundred and four and a half by one hundred and ninety-seven feet in a square, each square divided by an alley of twenty feet in width.

"There will be offered at public sale on Saturday, the 1st day of November next, at Savage's tavern, sundry lots in the above-mentioned place. The terms will be made known on the day of sale, the sale to commence at eleven o'clock A.M.

"JOHN HAYS,
"N. JARROT,
"J. B. THOMAS,
"JOHN HAY,
"M. TURCOTTE,
"Commissioners."

The land belonged to John McKnight and Thomas Brady, merchants of St. Louis, and had formerly been owned by Etienne Pensonau, and occupied and possessed by one Vanorsdall.¹ The town was laid out by Col. Thomas F. Riddick, agent for McKnight & Brady. On Monday, Nov. 3, 1817, an auction sale of the lots advertised took place in St. Louis, but some of the lots were disposed of at private sale before and afterwards. The town thus provided for formed the southeast portion of what is now the city

¹ History of East St. Louis, p. 24.

of East St. Louis. Soon after this transaction Illinois City was platted and laid out on land once known as a part of Cahokia common. The whole area surveyed was about three hundred and sixty-nine acres, including streets and a public square. There were sixty-three squares and four hundred and ninety-six lots. The survey was located in what is now the northwestern portion of the city. The plot was recorded in 1825. In 1837 the town of St. Clair was platted by the county surveyor, John M. Messinger, in the employ of John L. St. John. The surveyor's certificate was dated April 13, 1837, and the record made by Mr. St. John, April 19, 1837. It comprised what is now the central part of the city.

In 1859 the town of East St. Louis was platted and entered of record (November 28th). It was a sub-division of lands belonging to Samuel L. Barlow, Henry Chauncey, William H. Aspinwall, and Samuel W. Comstock, lying within United States surveys No. 626, in the name of Richard McCarty; No. 625, in that of Jean F. Perry; Nos. 131 and 132, in that of A. Chouteau; No. 130, in the name of Jean St. Germain; and No. 129, in the name of Gregoire Sarpy. It extended from the central to the northern part of the city, and included a tract once owned by John Jacob Astor. In April, 1865, Henry Holbrook, St. Clair County surveyor, in the employ of the Wiggins Ferry Company, surveyed and laid out seven hundred and thirty-four town lots, under the name of the Ferry Division of East St. Louis. Other divisions have since been added. On the 20th of September, 1872, Oebike and Kase Addition of sixty-seven lots was platted and surveyed. The town was incorporated as Illinoistown Feb. 19, 1859, and at the first town election, April 4, 1859, W. J. Enfield, Samuel W. Toomer, Andrew Wettig, and Henry Jackeisch were elected trustees, and William Hamilton police magistrate and *ex officio* president of the board of trustees. George Johnson was appointed marshal by the trustees, who held their first meeting April 16, 1859. At an election held on the 1st of April, 1861, the citizens changed the name of the town from Illinoistown to that of East St. Louis. The following officers were elected: President of Town Council, Samuel W. Toomer; Town Council, Samuel B. Walker, Florence Sullivan, John Moneghan, and Francis Karle; Police Magistrate, John B. Bowman; Town Marshal, John Henessy.

On the 17th of January, 1865, the Council appointed a committee, consisting of the president, S. W. Toomer, and Messrs. Oebike, Bowman, Kase, and Millard, to draft a city charter. Subsequently the new charter was submitted and approved, and a motion

to change the name of the city to St. Clair defeated. In the same year (April 3d), at the first election for mayor, J. B. Bowman was chosen.

In March, 1865, a St. Louis journal said,—

“The people of East St. Louis have obtained from the Illinois Legislature charters for a gas company, water-works, and a grain elevator. A weekly newspaper is also about to be established there. Mr. James L. Fawcett, formerly well known as the proprietor of the *St. Louis Herald*, has moved his printing material across the river, and intends issuing in a short time the first number of the *East St. Louis Weekly Herald*.”

Since then the city has attained a remarkable development, and being the centre of a vast railroad system, enjoys a steadily increasing prosperity. Connected with St. Louis by the great bridge, its interests are identical with those of the metropolis, to whose trade, commerce, and industries it is a most important contributor.

CHAPTER XLII.

COUNTY OF SAINT LOUIS.

ALTHOUGH the present city of St. Louis was the place where the first settlement in the region was made, other points in the vicinity were settled soon afterward, if not contemporaneously with it. The trading-posts and missionary stations that were first established soon became the nucleuses of agricultural settlements, which gradually extended as the danger from predatory attacks of the savages diminished. The increase of the population was not at first rapid, although the fertile soil gave ample returns for the little labor bestowed on it; there was no near market for the surplus produce, and the ample facilities for transportation to distant markets which now exist were not then dreamed of.

The earliest settlers were French, and although the territory was under the dominion of Spain till the beginning of the present century, the French character of the inhabitants was retained, and the habits and customs of the people were such as they brought with them from their native country, only modified by the different circumstances which here surrounded them.

“At the outset French husbandry¹ was limited to the production of food for home consumption. The farms were small. Near the beginning of the present century a tract of eighty arpens was said to be the

¹ This portion of this chapter, relating to the early agriculture of St. Louis County, was prepared for this work by Professor S. Waterhouse.

largest inclosed farm in the country.¹ No adjacent villages afforded a market for surplus crops, and the French were too fond of leisure to raise more than was necessary for the satisfaction of their own wants. At first maize was the principal grain crop, but in a few years after the erection of Laclède's water-mill they added wheat to their breadstuffs.

"The costliness of foreign goods, together with the poverty of the people, led to the cultivation of cotton. Most of the inhabitants were clad in homespun garments. Enough cotton was raised to supply the domestic wants of the colony.² The cloth woven in their rude looms was indeed coarse, but it was also strong, and answered well the needs of the simple villagers.

"The common vegetables—potatoes, beans, peas, turnips, pumpkins, melons, cabbages, and radishes—were raised in abundance. The village orchards yielded a partial supply of good apples. Small quantities of tobacco and sugar were also produced.³

"The early inhabitants devoted themselves more to gardening than to farming. No hay was stacked for domestic animals. The wild prairie grasses were plentiful and nutritious.⁴ In winter the horses and cattle were allowed to graze at will on alluvial lands, and they always contrived to keep themselves in good condition. A bountiful supply of beef,⁵ poultry, and eggs measurably relieved the early settlers of the irksome labors of agriculture. In a country abounding with game, a race of men naturally fond of hunting would not be apt to devote themselves to the severe

and monotonous toils of farming.⁶ All the neighboring forests were full of game. Deer have been shot near the site of the Planters' House, in St. Louis City. Every adjacent stream was alive with fish. Chouteau's Pond was a favorite resort for fishing prior to the great flood of 1844. In 1803 beef was worth from two dollars and fifty cents to three dollars a hundred. At the time of the cession some of the French farmers already owned hundreds of cattle and swine.⁷

"The farming tools were rough, awkward, and heavy.⁸ The plows⁹ had wooden furrow-boards, and the snaths were either straight or conveniently bent by the accident of growth. The harness of the ponies was a rude combination of straps and ropes, fastened, in lieu of buckles, with strings of buckskin. The oxen were yoked in a primitive oriental fashion. A strip of wood about three inches square and five feet long was strapped to the horns, and the tongue of the cart was attached to the centre of this yoke. The resistance was encountered with the neck and not with the shoulders.¹⁰ The only article in the country on wheels for long years was a *charrette*, a primitive cart, constructed of two pieces of scantling some ten or twelve feet long, joined together by two or more cross-pieces, upon one end of which the body of wicker-work was placed, and the front ends rounded to serve as the shafts, and the whole set on the axle-tree of the wheels. Almost the only use they had for it was to haul in their corn and hay to their barns back of the village. It was sometimes used to take ladies and children out riding. All the males and most of the females rode on horseback.

"Laclède brought up his family from Fort Chartres in 1764 in one of these carts, and F. L. Billon rode up in one from Ste. Genevieve in 1818.

¹ In the neighborhood of the Meramec, "Thomas Tyler had eighty arpens under fence, forty planted with tobacco and corn, then (about 1790) considered the largest farm in the country."—*John Boli*, July 30, 1860, *Commissioners' Minutes*, vol. i. p. 438.

² Reynolds' *My Own Times*, pp. 14–38, 71. According to this authority goods woven by machinery were not introduced into the Illinois settlements till about 1818.

"Sixty years ago Gervais cultivated tobacco in the Little Prairie."—*Aug. Chouteau*, June 1, 1825, *Hunt's Minutes*, vol. ii. p. 4.

³ "Since ten years ago John Boli made sugar every year on the Meramec River."—*Jacques Clamorgan*, July 17, 1806, *Commissioners' Minutes*, vol. i. p. 410.

"In 1799 there was a sugar-camp established on Soulard's land, on the Missouri River, and sugar (maple) made."—*Gregoire Sarpy*, Sept. 7, 1806, *Ib.*, vol. ii. p. 7.

⁴ *Hunt's Minutes*, vol. ii. p. 109.

⁵ Reynolds, speaking of the Illinois colonists, says, "The French scarcely ever troubled themselves with milking cows, but turned the calves out with the other cattle, and made little or no butter."—*My Own Times*, p. 91.

From the similarity of the French methods of farming in the different settlements, it is probable that the same indifference to milk and butter existed in St. Louis.

⁶ Reynolds' *My Own Times*, p. 38. It is a singular fact that while the first settlers of St. Louis were mostly hunters, boatmen, or traders, the inhabitants of Carondelet were all farmers. "About twenty-five years ago there were about thirty families of farming people in Carondelet who had no other pursuit."—*Auguste Chouteau*, July 9, 1808, *Commissioners' Minutes*, vol. iii. p. 217.

"Carondelet contained, twenty-five years ago, about forty families, all farmers."—*J. B. Provenche*, July 9, 1808, *Ib.*, p. 218.

⁷ Reynolds: *My Own Times*, p. 38.

⁸ One of the farmers had an ingenious device. By a portable lodge he provided convenient quarters for himself and a place of security for his tools. "Nic Barsaloux cultivated a piece of land south of Mill Creek. Barsaloux had a small house built upon wheels, and used to have it hauled on said piece of land when he wanted to work on the same."—*Réné Dodier*, March 5, 1803, *Commissioners' Minutes*, vol. vi. p. 110.

⁹ Reynolds' *My Own Times*, p. 38.

¹⁰ *Ibid.*, p. 39.

"The division of lands, originally derived from the mother-country, was sanctioned by the exigencies of the New World. The system combined convenience of fellowship with facility of defense. Generally it began in the village itself with a patriarchal arrangement of the homestead. Often, in imitation of the old French custom, the abode of the father stood in the centre of the lot, and the cottages of his married children were ranged on either side. Sometimes several generations of descendants were grouped around the patriarchal household. Occasionally the village lot contained one or two acres, but at St. Charles the usual size was one hundred and twenty by one hundred and fifty French feet. Some of these features, so characteristic of most French settlements, were exceptional in St. Louis. In addition to this house-lot, each villager had an equal right in the commons and a proportionate share in the common fields. The latter were lands which the Governor granted to the petitioners for the purpose of tillage.¹ The shape of the tract was long and narrow. The common fields at St. Charles were one arpent, or one hundred and ninety-two and a half feet, in width; and a single lot, measuring one arpent by four, embraced about thirty-four acres. The length of the strip was determined by the number of farmers. Every inhabitant owning a lot in the village was entitled to a section of the common fields proportioned to the size of his family and to his means of cultivation. His tenure was absolute. Invested with the fee-simple, the owner was subject to no restraints in the disposal of his land. The first common fields were adjacent to the village, but as the growth of the place required more land for cultivation other and more remote fields were inclosed.

"The common was also situated conveniently near the village. This tract was not devoted to tillage. It was the public pasture and wood-lot. There were no sub-divisions and no exclusive rights. Its benefits were alike free to all who were entitled to their enjoyment.² These grants were sometimes very extensive.

¹ It was the duty of the villagers alternately to guard their growing crops. "The inhabitants in those days (forty years ago) who had a common field lot had a fence to keep the cattle of the town from injuring their grain growing in their field lots. It was the custom of the inhabitants of the town to take it in turns to go out and tend their cattle and keep them from doing injury to the same."—*Baptiste Rivière, Jr.*, July 30, 1825, *Hunt's Minutes*, vol. ii. p. 113; *Monette's History of the Mississippi Valley*, vol. i. p. 184.

² "The common was first fenced in the year 1764, at the expense of the inhabitants, who always kept it in repair, and every person, inhabitant of the village, was in the habit of pasturing his cattle in the same and cutting wood."—*Auguste Chouteau*, May 10, 1806, *Commissioners' Minutes*, vol. i. p. 289.

The Cahokia common was some three miles long. The Ste. Genevieve common contained about four thousand acres. The St. Louis commons, comprising some half a dozen prairies under distinct names, extended to the common fields of Carondelet.³ According to the survey of 1806, the whole tract embraced four thousand two hundred and ninety-eight arpens. By the later and probably more exact survey of 1833 the area of the St. Louis commons was four thousand five hundred and ten arpens. The lands thus reserved for tillage and pasturage were inclosed at the public expense, but the tax raised for the purpose of making the fence and keeping it in repair could be paid in manual labor. Every minute detail was regulated by law.⁴ As in some of the French villages, even the form of the door-yard and garden was determined by enactment; so the method of building and repairing the fences of the common fields, the penalty for the neglect of these duties or for an encroachment upon the rights of others, and the time for plowing, planting, and harvesting were all prescribed by public ordinance. The system of common fields was well adapted to the circumstances of colonial life. It strengthened a feeling of mutual dependence and social attachments. It also afforded a safeguard against the incursions of the Indians. All the farmers being, by the requirement of law, engaged simultaneously in the cultivation of their adjacent fields, could quickly assist each other in the event of an attack. While the community of interests developed a sense of common brotherhood, the individual ownership of real estate prevented the evils of tenantry and the growth of a landed aristocracy. There could be no distraint of tenants where all alike were landlords."

New County of St. Louis.—By an act of the Legislature of Missouri, passed in 1875, the townships of St. Ferdinand, Central, Bonhomme, Meramec, and Carondelet were separated from the city of St. Louis and erected into a county bearing the same name. The act extended the limits of the city, de-

³ "A. D. 1790 there was a common fence that connected with the common field fence of Carondelet, and extended so as to go round and include Prairie des Noyes, Cul de Sac, and the Big Prairie, and the land inclosed within this was generally cultivated."—*Auguste Chouteau*, June 1, 1825, *Hunt's Minutes*, vol. ii. p. 4.

"When he first came to St. Louis the common extended to the River des Peres, but after that, when Carondelet was laid out, there was an agreement between the inhabitants of St. Louis and the inhabitants of Carondelet that the common field fence of St. Louis should join the common field of Carondelet."—*John Baptiste Lorain, Sr.*, Nov. 23, 1825, *Hunt's Minutes*, vol. iii. pp. 82-85.

⁴ *Monette's Hist. of the Mississippi Valley*, vol. i. p. 184.

lined the boundaries or line between the city and county, and made provisions for the organization of the county and the appointment of its first officers. The newly-appointed county judges under the act were Henry J. Sutton, presiding judge; Joseph Conway and James C. Edwards, associates. A meeting of the judges was held at the house of Judge Sutton on the 22d of January, 1877, and the work of organizing the county was entered on. The constitutional oath of office was administered to the justices by Thomas Thomas, notary public, and orders were made that William D. Clayton be appointed clerk of the County Court and *ex officio* recorder of deeds, also that Alfred Carr be appointed sheriff of the county and *ex officio* collector. Thomas T. January was appointed county treasurer, and the amount of the bonds of all these officers was prescribed. It was then ordered "that the presiding justice of this court inform the presiding justice of the old County Court that the new county government is now organized in manner as provided by law, and has assumed the control of the affairs of the county of St. Louis in the newly-established limits as fixed and determined by scheme and charter." By another order the presiding justice was directed to surrender to the mayor of the city of St. Louis the county buildings and property belonging to the old county and located within the extended limits of the city, as those limits were fixed by the scheme and charter.

A committee, consisting of the presiding justice, sheriff, and clerk, was appointed to select a suitable place for a temporary county-seat, and Frank J. Bowman was appointed special counsel for the county in all matters pertaining to its organization. It was ordered that the seal of the new county should be in all respects similar to the one previously used by the County Court of St. Louis County, except that the word "new" should be prefixed to the word "county" on such seal. The special counsel was directed to take measures for determining the validity of the new organization, and the police commissioners of the city of St. Louis were requested to continue the police regulations in the county till further arrangements were made. The machinery of the new county government was thus set in motion.

The temporary county-seat was fixed at the Mount Olive House, on the Olive Street Rock road, nine miles from the old court-house. The owner of this house, Samuel Ecker, offered the same, with all the necessary rooms, for the use of the County Court, all the county offices, and, when needed, accommodation for the Circuit and Probate Courts. This offer was accepted, and the first meeting there of the court was

held on the 12th of March, 1877. This house had been erected for a summer resort seventeen years previously. It was a fine three-story brick building, containing thirty-seven rooms and a hall forty by forty-four feet, amply capacious for a court-room.

The region was pleasant, and the West End Narrow-Gauge Railroad ran within a mile of the place. Here the county business was transacted till the completion of the buildings at the county-seat. Of this house the *St. Louis Republican* of April 23, 1878, said,—

"The Mount Olive House, the temporary seat of justice for St. Louis County, had every inch of available space occupied yesterday.

"It is questionable whether another public-house of the same size in America was ever put to as many uses in the same space of time—six hours—as was this house yesterday.

"In this house is located all the county offices inseparable to the municipal government of a county with forty thousand inhabitants,—a post-office, a large bar-room, where attorneys do not room, a Circuit Court room, a County Court room, a Probate Court room, private offices, a large printing-office, where the county paper is published, and a number of sleeping-rooms. The house is also serving as a hotel, and to-day some part of it will be used as a jail, where prisoners will be temporarily confined until their cases are called.

"Four different organized bodies—the Circuit Court, the County Court, the Probate Court, and the Court of Equalization—held sessions and transacted business, notwithstanding that the rain poured down and the wind roared like a tornado."

A commission, consisting of Robert G. Coleman, Thomas J. Sappington, and Wm. M. Henderson, M.D., was appointed to select a suitable place for a permanent county-seat. These commissioners met on the 7th of May, 1877, and agreed that the best interest of the county demanded the location of the county-seat on a plat of ground belonging to William Patrick, lying south of the Olive Street road, and west of the Watson road, at the point where the Signal Service station was previously located.

This selection proved unsatisfactory to the people, and the commissioners annulled it on the plea that they had not qualified before entering on their duties, and that the selection was therefore void. The *St. Louis Republican* of Sept. 25, 1877, stated,—

"The St. Louis commissioners, Messrs. Coleman, Sappington, and Henderson, appointed by the board of freeholders to locate the permanent county-seat for St. Louis County, met yesterday at Mount Olive and agreed upon a location. The proposals offered comprised three from Mr. Clayton, the Mount Olive, Mrs. Patrick's, near Stratman's, Denny, Buntville, Kirkwood, and St. Ferdinand. The commissioners held their meeting in private, and finally settled on what is locally known as the third proposition of Ralph Clayton, comprising one hundred and four acres of ground on the Hanley road. Mrs. Hanley gives four acres and Mr. Clayton one hundred acres. The land has been held at a valuation of three hundred dollars per acre, aggrega-

ting over thirty-one thousand dollars in total value. The Hanley road starts from Barthold's, on the Manchester road, and running north crosses successively the Clayton road, Bonhomme road, Olive Street road, and the St. Charles Rock road. The location as fixed upon by the commissioners is at the junction of the Hanley road, bounding it on the east, and the projected St. Louis Narrow-Gauge Railroad, bounding it on the west, and running through Forest Park, and from which road the St. Louis, Kansas City and Northern Railroad secured the right of way into the Union Depot. The proposed Narrow-Gauge Road is already graded past the newly-located county-seat. The property is about eight and a half miles from the city court-house, and is accessible from all the thoroughfares in the county, which approach each other as they near the city. The location is about a mile and a quarter southeast of the present temporary county-seat at Mount Olive, the Hanley road passing around Olive Street road a short distance east of Mount Olive. The location is three miles north of Barthold's, and about two miles west of Forest Park, or the city limits."

On the 4th of December, 1877, an election was held to determine the question of location of the county-seat, and the recommendation of the commissioners was indorsed by a small majority.

At a meeting of the County Court, held at Mount Olive, March 4, 1878,—

"It was ordered that the commissioner of county-seat proceed at once to have the square or block of ground reserved for county buildings cleared of all timber, brush, stumps, etc., that in his judgment should be removed, preserving all forest-trees that will not obstruct nor be in the way of the construction of said buildings on said square.

"It was ordered further that as soon as the county surveyor has completed an accurate measurement of the grounds and the sub-division of the same, in accordance with the map of plat approved by this court and ordered filed in the county clerk's office, the said commissioner shall immediately cause at least one thousand lithographed copies of the same to be made for distribution, headed with the name of 'Clayton, St. Louis County Court-House Donation,' in large letters, with the four avenues bordering the court-house square and inclosing the same named and lettered on said map, as follows, viz.: the one running north and south on the east side of said square shall be named and lettered Central Avenue; the one on the north side of said square, running east and west, named and lettered St. Ferdinand Avenue; the one on the south side of said square, running east and west, named and lettered Carondelet Avenue; the one on the west side of the square shall be named and lettered Meramec Avenue, and the one immediately south of Carondelet Avenue shall be named and lettered Bonhomme Avenue.

"The original of said lithographic plats, with the names of said avenues thereon, shall be matters of record, and all of the before-mentioned avenues are hereby dedicated for public use, together with all other avenues, streets, and alleys shown on said original map or plat as recorded and named by the said commissioner of the county-seat.

"It was further ordered that the avenue running north and south on the western boundary of said plat shall be named and lettered Coleman Avenue.

"The avenue running east and west along the northern boundary on said plat shall be named and lettered Henderson Avenue.

"The avenue running north and south and immediately east

of Central Avenue shall be named and lettered St. Louis Avenue.

"And the avenue running with and parallel to the St. Louis County Railroad shall be named and lettered Sappington Avenue.

"All of which are hereby dedicated to public use, together with the other avenues, streets, or alleys marked out and shown upon said plat."

On the 18th of July, 1877, the last act in the separation of the city and county governments was accomplished, and the old County Court adjourned forever. The Board of Finance, consisting of R. C. Allen, justice Sixth District; C. Conrades, justice Fifth District; Henry Overstolz, mayor; E. L. Adreon, comptroller, presented their report. The old court had no objection to interpose, and the warrants were drawn upon the treasurer for the amounts due the city and county respectively.

At this meeting the following was offered by Judge Finney:

"Ordered, That, in pursuance of the provisions of Section 9 of the scheme, the clerk of this court, the county treasurer, and the county auditor be and they are hereby instructed to transfer to the proper officers of the city of St. Louis all records, books, papers, etc., now in the office of this court or under their control.

"And it is further ordered that the furniture, books, and papers in the offices of the county auditor and treasurer and County Court room, and all other property belonging to the former county of St. Louis not heretofore transferred, be and the same are hereby turned over and formally transferred to the city of St. Louis.

"And that the assessor be instructed to transfer to the new County Court all books, plats, etc., now in his possession, and which by the terms of the scheme have become their property."

Adopted.

Judge Allen moved that the seal of the old County Court be turned over to the new County Court. Judge Speck thought there were some objections, but Judge Edwards, of the new County Court, who was present, explained that the transfer would be merely as a piece of property, and it was agreed to.

Judge Finney then offered the following:

"WHEREAS, The Board of Finance appointed under the scheme and charter for the purpose of adjusting the relations between the old county of St. Louis and the city of St. Louis and the new county of St. Louis have this day reported to the court that they have completed their labors, and all appropriate orders having been made and passed; it is therefore

"Ordered, That the functions of this court having ceased and its powers ended, in accordance with the provisions of Section 9 of the scheme, it is hereby adjourned *sine die*."

The resolution was adopted, the vote being as follows: *Ayes*, Judges Speck, Heller, Finney, and Conrades; *Noes*, Judges Allen and Dailey.

The following figures afford a brief summary of the report of the Board of Finance. The funded debt of

the former county, assumed by the city, was declared to be \$6,824,000; all other claims against the county, \$9065.35. The necessary current expenses of the county prior to Oct. 22, 1876, were \$92,575.83, and the receipts from Oct. 21 to May 31, 1877, exclusive of special funds, \$547,704.11; total, \$640,279.94. To ascertain the divisible balance there must be deducted from this sum as follows: Current expenses and other claims accrued and paid from Oct. 21, 1876, to May 31, 1877, \$423,291.07, and amount of outstanding claims, \$30,079.92, leaving the balance to be divided \$186,908.95. On the basis of the assessed valuation of city and county for 1876, this balance, divided proportionately, gives: City's share, \$164,414.30, and the county's share, \$22,491.65.

The location of the county-seat at Clayton led to some annoying litigation. An injunction was sought to restrain the county authorities from the erection of buildings there, on the ground that the place had not been legally selected as the county-seat. After due hearing, however, the application for an injunction was refused.

The following extracts from a St. Louis journal¹ shows what were the views entertained by some at the time concerning the separation, and the effect at first on the taxes levied in the new county:

"Our neighbors of the county have good reasons for the congratulations they indulge in over their condition. Their court-house will not cost them, it is said, over thirty thousand dollars, and they have the means to pay for it already on hand. It and the jail connected with it will furnish ample accommodations for the public business for half a century to come. Clayton is only about eight miles from this city, and will in a year or two be connected with it by a narrow-gauge railroad. The new county possesses many marked advantages,—the suburban boundary, twenty-five miles in extent, of a great and growing city, seventy miles of completed railroad, seventy-five miles of gravel and macadamized road, a hundred and twenty-five miles of good common highway with bridges and culverts, a population of forty thousand, and a taxable wealth of over twenty million dollars, and a long water-line formed by three rivers, whose valleys and bluffs afford a fertility of soil and a beauty of scenery which together can hardly be equaled in any similar area in the United States.

"The people of the county have no regrets to waste over separation, even though it has deprived them of the three hundred thousand to three hundred and fifty thousand dollars per annum which the old County Court was accustomed to expend on their roads and bridges. They find that they are able to keep up their highways with one-tenth of this enormous expenditure, while the decided advantages of having control of their own administration are brought out in every day's experience. All things considered, they have made a good beginning in self-government, and if they keep on as they have begun, will have increasing reasons for rejoicing at the severance of a connection which had become injurious to both city and county.

"The St. Louis County Court has fixed the tax levy for county purposes for the present year at thirty-five cents on the one

hundred dollars,—ten cents for roads and bridges and twenty-five cents for other purposes. This is a reduction of five cents on the levy of last year. The State taxes (for revenue and interest) are forty cents; the total rates, therefore, are seventy-five cents on the one hundred dollars. This, however, does not include the school tax, which is fixed by the district school boards, and varies from twenty-five to fifty cents. The taxable property in the county is twenty-two million dollars. The tax rate fixed upon will therefore yield, theoretically, seventy-seven thousand dollars, of which about twenty-two thousand dollars will go to the maintenance of roads and bridges, and fifty-five thousand dollars for other county purposes.

"Under the old *régime* the people of the county were accustomed to pay about forty-five cents county tax and seven and one-half cents back tax, making a total of fifty-two and one-half cents on the one hundred dollars. The present rate of thirty-five cents is seventeen and one-half cents less, and this although the new county is engaged in erecting its public buildings."

COUNTY BUILDINGS.—John Snyder was appointed superintendent of public buildings, and under his supervision the court-house and jail were erected by Rude and Luke, of St. Louis. The corner-stone was laid on the 9th of May, 1878, and the ceremony was witnessed by more than three thousand people. The Masons of St. Louis had been invited to take charge of the affair.

There were portions of four commanderies of the Templars, in full regalia, commanded by John S. Parsons, Grand Commander. Among them was the committee of Knights Templar of the county, composed of Judge Henderson, T. E. Garrett, and F. V. Westlake; also W. H. Goodin, E. C.; Robert McCulloch, E. C.; Arle De Jong, E. C.; Thomas M. Wannall, P. G. M.; and John A. Sloan, E. C. Among the Masons were Missouri Lodge, No. 1; St. Louis Lodge, No. 20; Kirkwood Lodge, No. 484; Bonhomme Lodge, No. 45; Fenton Lodge, No. 28; Bridgton Lodge, No. 80; Lambskin Lodge, No. 460; Eureka Lodge; and Occidental Lodge, No. 163. The following officers were present: Thomas G. Reddy, G. M. of the State; Joseph B. Austin, G. M.; John W. Luke, D. G. M.; D. N. Burgoyne, S. G. W.; W. H. Stone, J. G. W.; William H. Mayo, G. S.; W. H. Fox, S. G. D.; D. O. Butterfield, J. G. D.; M. Eli, S. G. S.; G. W. Sellers, J. G. S.; John W. Davis, Bearer of Lights; John C. Bloomfield, G. M.; George Thorp, G. Treas.; Thomas H. Benton, P. G. M.; Frederic L. Billon, P. G. T. and S.

On arriving at the ground, Judge J. C. Edwards called the assemblage to order, and nominated Judge Hunton, who was chosen to preside.

Alfred Carr was elected secretary, and then Hon. John F. Darby presented to the secretary an old Bible, and asked that an inscription therein be read. It was read, as follows: "In 1830 two young men, George Cornwell and Richard Tunis, came to the State of

¹ St. Louis Republican, May 10 and 22, 1878.

Missouri as merchants from Philadelphia. When George Cornwell left home his mother gave him this morocco-bound Bible. He died in St. Louis in 1832, and before he died he gave this Bible to his friend, Richard Tunis, and he, in turn, gave it to John F. Darby, who has had it in his possession forty-six years this 9th day of May, 1878. John F. Darby deposited with his own hands this Bible in the place for the reception of mementoes in this corner-stone of the new court-house of St. Louis County."

It was ordered that the book be so deposited.

The ceremony of laying the corner-stone was then performed, after the ritual of the Masonic order, and a brief address, appropriate to the occasion, referring chiefly to Masonry, was delivered by Thomas G. Reddy, Grand Master, who presided at the ceremonies.

ST. LOUIS COUNTY COURT-HOUSE.

The contents of the box were as follows: 1. Deed of Ralph Clayton to the county for one hundred acres of land. 2. Deed of M. F. Hanley and wife to the county for four acres. 3. Report of the committee which selected the site for county-seat. 4. Order for election under said report. 5. Report of county clerk on said election. 6. Constitution of State Grange. 7. Communication from Grand Master of State Grange with reference to grangers in St. Louis County. 8. First and last copies of the *County Mail*. 9. List of directors and pupils of Clayton schools. 10. Constitution of State. 11. Scheme and charter. 12. Constitution of Grand Lodge of State of Missouri, A. F. and A. M. 13. Proceedings of Grand Lodge of State in 1877. 14.

Two ancient coins, presented by Ralph Clayton. 15. Copies of *Republican*, *Times*, and *Globe-Democrat*. 16. Holy Bible, presented by Mr. Darby. 17. Copy of *St. Louis Herald*. 18. New silver dollar, with name of Judge J. C. Edwards and wife engraved. 19. Photographs of Judge Edwards and Henry T. Mudd. 20. Contributions from Judge Conway, as follows: one Continental bill for thirty dollars, issued under act of Congress of January, 1799; one bill for a shilling, issued by New Jersey in 1776; one bill for a shilling, issued by Connecticut in 1776; one United States gold quarter of a dollar, a dime, a half-dime, three three-cent pieces and a copper, a lot of stamps. 21. Copy of Declaration of Independence. 22. Two-thirds of a dollar scrip of Aug. 14, 1776, presented by John P. Helfenstein. 23. Copy of *Journal of Agriculture*. 24. A silver quarter.

After the box was in place, John Studdert, contractor for the masonry, stepped forward and performed the mechanical part of the work.

Addresses were delivered by Judge Hunton, Mr. Eshbaugh, of the State Grange, Patrons of Husbandry, Lieutenant-Governor Brockmeyer, Col. N. Claiborne, R. H. Kern, Gen. Shields, R. Graham Frost, and Judge Edwards. Among those present were noted

Judge W. C. Jones, Judge Charles F. Cady, Lieutenant-Governor Brockmeyer, H. Clay Sexton, George Knapp, Waldo P. Johnson, John G. Kelly, John Knapp, Judge W. W. Edwards, Hon. John F. Darby, Judge James C. Edwards, L. R. Beach, Capt. Conway, John Belleville, James Doyle, Capt. Henry Burgess, Capt. Warren Fox, Capt. William Lee, Judge John F. Farrar, Judge H. L. Sutton, Joseph T. Tatum, Deputy-Marshals Lenori, Coff, Reinstaedtler, Blanchard, and Overbeck, J. R. Claiborne, N. C. Claiborne, Michael Fortin, Aldermen Henry, Barbee, Updike, Crawshaw, and Conrades, Councilmen Campbell and Rude, Dr. Wortman, L. Harrigan, Dr. P. S. Yost, Capt. Joseph A. Brown, A. P. Johnston, Henry Eshbaugh, Rev. Dr. Booth, M. A. Rosenblatt, T. B. Estep, J. M. Loring, S. H. Lafin, Andrew J. Clabby, William Pfister, Erastus Wells, Franklin Utz, Eugene Streble, Nicholas Bell, Col. Butler, Charles Costello, Joseph L. Hyatt, A. W. Mead, Judge Henderson, T. T. January, W. H. Russell, Ashton P. Johnson, William D. Clayton, John McMennamy, Samuel James, Louis Kessler, Dr. William Cousland, Alex. McElhany, Thomas Fitzwilliams, Joseph Maher, M. D. Lewis, Dr. O'Brien, Dr. Isaiah Forbes, Dr. Diggs, Willis Hord, Alfred Carr, Leon De Lisle, William N. Belt, H. B. Belt, Capt. I. M. Mason, Gen. Marmaduke, V.

T. Crawford, Charles L. Hunt, Judge Lanham, William Sutton, Charles Heussler, Robert W. Goode, Dr. A. C. Robinson, T. J. Sappington, John I. Martin, W. H. Swift, C. E. Wells, J. C. Marshall, John Finn, Max Gumpert, Judge Wielandy, William Kreiter, Judge Wolff, Judge Walton, William Drake, John W. Drake, John F. Ryan, Thomas J. Henly, R. Molencott, Fred. Huey, Thomas Cleary, Robert McIlvaine, Judge Studdt, M. W. Hogan, W. A. Brawner, Henri Chomeau, John A. Massey, Henry T. Mudd, J. P. Thomas, Lyman Thomas, James Hardy, Dr. Henderson, Emil Bessehl, F. D. Turner, D. D. Duncan, Col. Benjamin Emmons, William A. Alexander, William L. Yosti, Albert Matlack.

The court-house was first occupied Dec. 9, 1878. Its size is one hundred and six feet front centre, wings project ten feet, the side-fronts of the end wings are fifty-two feet, and the centre wing is seventy-three feet deep. It has two stories above the basement, which is nine feet in height; the first story has a height of fourteen feet six inches, and the second of seventeen feet six inches. From the ground to the top of the cornice is forty-five feet, and to the top of the dome is one hundred and twenty-five feet. In the basement are rooms for storage and three offices. The first floor is divided into offices and the Probate Court room, and the upper story includes the Circuit and County Court rooms, the offices of the prosecuting attorney and the circuit clerk, the judges' rooms, and the necessary jury-rooms. It is a brick structure, and is tastefully finished.

The jail, which stands near the court-house, is connected with it by a corridor ten feet wide and sixteen feet long. This is also a brick building, two stories in height, thirty-two by thirty-five feet in size. It has two corridors, and the cells are of iron. The cost of the two buildings was thirty-eight thousand dollars.

CIVIL LIST.—The officers of St. Louis County since its separation from the city have been:

PRESIDING JUDGES OF COUNTY COURT.—Henry L. Sutton, 1877-78; George W. Brouster, 1879-82; William A. Hequem-bourg, 1883-86.

ASSOCIATE JUDGES.—First District, James C. Edwards, 1877-78; Robert C. Scheneko, 1879-80; Fritz Kraut, 1881-84. Second District, Joseph Conway, 1877-78; Francis Rewwe, 1879-82; John A. Shore, 1883-84.

PROBATE JUDGES.—James A. Henderson, 1877-82; George W. Brouster, 1883-86.

PROSECUTING ATTORNEYS.—Joseph A. Brown, 1877-80; John R. Warfield, 1881-84.

SHERIFFS.—John A. Watson, 1877-80; Robert Scheneko, 1881-84.

COUNTY CLERKS.—William D. Clayton, 1877-78; E. L. Dosenbach, 1879-86.

CIRCUIT CLERKS.—John A. McMinamy, 1877-78; E. H. Ly-cett, 1879-82; Christian D. Wolff, 1883-86.

ASSESSORS.—William F. Pfister, 1877-80; Green Baxter, 1881-82; Francis Rewwe, 1883-84.

TREASURERS.—T. T. January, 1877-78; F. A. Heidorn, 1879-82 (died); James C. Edwards, 1882; George H. W. Heidorn, 1883-84.

RECORDERS.—William D. Clayton (*ex officio*), 1877-78; E. L. Dosenbach (*ex officio*), 1879, until July; William D. Clayton, 1879-80; Francis Ruchl, 1881-86.

SURVEYOR.—Henri Chomeau, 1877-84.

COMMISSIONERS OF ROADS AND BRIDGES.—John A. Massey, 1877-78; Robert C. Allen, part of 1879, county surveyor since.

SCHOOL COMMISSIONERS.—J. R. Evans, 1877-79; J. B. Breier, 1880-84.

The population of St. Louis County, according to the census of 1880, was 31,888. Of this number

there were: males, 16,988; females, 14,900; natives, 25,299; foreign-born, 6589; white, 28,008; colored, 3880.

A comparison of the sum of the population in the townships in 1860 with the population of the county in 1880 shows an increase in twenty years of more than fifty per cent.

WEST END NARROW-GAUGE RAILROAD.—In 1871, James C. Page and Hon. Erastus Wells conceived the project of building a railroad to their property, five and a half miles distant from the borders of the thickly inhabited part of St. Louis. Others were associated with them, and measures were initiated for the accomplishment of the work; but the charter was found to be defective, and the attempt failed. The project was renewed in 1872, but the panic of 1873 arrested proceedings, which were not again renewed till the summer of 1874. On the 9th of January, 1875, the road was advertised for sale under a deed of trust, and on the 23d of the same month it was reorganized under its present name, with the following directors: Erastus Wells, president; J. Lindenschmit, vice-president; W. J. Lewis, treasurer; J. C. Page, C. D. Blossom, D. K. Ferguson, and M. Collins. The work of construction was prosecuted, and on the 11th of June, 1875, the first train passed over the road to Kienlau Avenue, five miles; in October, 1876, it was open to Normandy, eight miles; and on the 1st of October, 1878, the first train ran to Florissant, sixteen miles.

In March, 1879, the road was sold under a deed of trust, and the Missouri Horse Railroad Company became its purchaser. In the same month it was again organized, under the same name, with a capital stock of two hundred thousand dollars and the following directors: Erastus Wells, president; J. R. Lionberger, vice-president; Rolla Wells, superintendent; W. D. Henry, secretary and treasurer; and James Clark.

The total cost of the road has been three hundred thousand dollars, of which less than fifty thousand dollars has been paid for right of way and depot grounds, while the donated way is worth more than five hundred thousand dollars. The road is not now incumbered with a mortgage. Hon. Erastus Wells and Dr. J. C. Page have been active workers in this road from the first.

LACLEDE AND CRÈVE CŒUR LAKE RAILROAD.—This company was incorporated Nov. 26, 1880, with a capital stock of two hundred and thirty thousand dollars. The construction of the road, the termini of which are indicated by its title, was commenced immediately after the incorporation of the company, and the first trains

passed over it July 4, 1881. Its total cost was two hundred and eighty thousand dollars. It was leased to and is operated by the Missouri Pacific Railroad Company. The principal business of the road is the conveyance of passengers to and from the pleasure resort at Crève Cœur Lake in summer, and the transportation of ice in winter directly from the lake, and in summer from the mammoth ice-houses that have been built on its shore. The directors of this road have been from the time of its incorporation Charles B. Shedd, H. H. Stephens, E. A. Shedd, J. S. Field, and A. B. Corey. E. A. Shedd is president; John S. Field, vice-president; Charles B. Shedd, secretary; and H. A. Stephens, general manager.

The company has expended twenty-five thousand dollars in improving and beautifying the grounds on the east or bluff side of Crève Cœur Lake, and the place is now one of the most attractive pleasure resorts in this region. Hotels and further improvements are contemplated, and when these are completed the citizens of St. Louis will enjoy privileges to which they have hitherto been strangers.

On the opposite side of the lake immense ice-houses have been built, and others are in process of construction, for the utilization during the warm season of the ice which forms on the surface of the lake in the winter. This enterprise is conducted by an organization known as the "Crève Cœur Lake Ice Company."

ST. LOUIS SEMINARY for young ladies was projected in 1871. Property possessing great natural beauty, valued at ten thousand dollars, was subsequently improved at an expenditure of eleven thousand dollars, and other improvements render its present value twenty-five thousand dollars. The site is a commanding eminence north of the city of St. Louis, three-fourths of a mile from city limits, on the Wabash, St. Louis and Pacific Railway, overlooking the city and the Mississippi River, and is only a few hundred yards from Woodland Station. The location, though so near the city, is remarkably quiet, there being no business houses near, and is surrounded by beautiful suburban homes.

The spacious, well-constructed building is surrounded by a shady lawn of eight acres, tastefully laid out with walks, bordered with flowers and ornamental shrubbery, all conspiring to render the place an attractive home. The large, well-ventilated rooms have all been arranged with a view to health and comfort.

The school is the property of B. T. Blewett, J.L.D., and is select in its character, receiving only a limited number of those desiring a high grade of scholarship. Though no sectarian influence is brought to

bear upon the pupils, their religious welfare and moral training are most studiously guarded, and every endeavor is made to render the school a Christian home. The limited number allows each pupil to be individualized and to receive that special attention requisite to her culture, affording a great advantage over schools in which large numbers are crowded together. The seminary, up to this period, has sent out only thirteen graduates. The grade of scholarship is designed to be thorough, affording the very best literary advantages. Vocal and instrumental music, painting in oil and water-colors, drawing, sketching, and whatever else may be needful in the thorough culture of a young woman, are most carefully attended to in this seminary.

There will soon be added to the accommodations, already inviting, spacious and airy school-rooms, with all the desired appliances. An important feature in this school is that the year opens in September and closes the middle of May, before the enervating heat of summer oppresses, and all the arrangements, as well as the eligibility of the location, contribute to the health and the general welfare of the pupils. The principal has a select library of fifteen hundred volumes, to which the young ladies have access, besides which they have the advantage of the libraries of the city, and the art galleries, museums, lectures, concerts, and other appliances for their culture.

Benjamin Turner Blewett was born in Warren County, Ky., Sept. 17, 1820, and was the eldest son of Edward Blewett, a Kentucky farmer. He early evinced a strong desire for the acquirement of a thorough education, and although his opportunities were few, and the circumstances by which he was surrounded discouraging, yet by the exercise of great energy and indomitable courage he succeeded in overcoming all obstacles and accomplishing his object. At the age of twelve years he spent a winter in teaching the younger members of his father's family, and in his fifteenth year taught some of the children in the neighborhood besides, the fees being allowed him by his father to pay his school expenses for the remaining months of the year. In this way he spent two years, when a larger school was offered him, which he accepted and taught successfully for two years more. He thus amassed a sufficient sum to attend an academy in Bowling Green, Ky., taught by Josiah Pillsberry, to whom he was largely indebted for that thoroughness in scholarship which has been the key to his success in life. He attended this academy one year, and then accepted the charge of a school, which he conducted successfully for a year. At this time an event occurred which changed his plans for life. While deliberating

Yours truly
B. J. Blewett

whether to read law or to complete his course of study he became convinced of the truth of religion. He now felt it his duty to fit himself for the ministry, and in his twentieth year he entered Georgetown College, Kentucky, which was then under the presidency of Howard Maleom, D.D., one of the most celebrated theologians and scholars of the day. At the close of his sophomore year his means were exhausted; but about this time there occurred a vacancy in the principalship of the academy connected with the college, to which he was appointed on the recommendation of the president and trustees. He discharged the duties of this responsible position satisfactorily for two years, and then re-entered college, and was graduated in 1846. He was at once reappointed principal of the academy, and brought it to a higher state of efficiency and prestige than it had ever attained before. In the mean time he superintended a large Sabbath-school, to which he devoted nearly every Saturday and Sunday, and often several evenings of the week.

Mr. Blewett married in July, 1848, Miss Aris Hedge, of Augusta, Me., and their union has proved an unusually pleasant and happy one. About this time he was solicited to take charge of the High School at Russellville, Ky., which was conducted under the auspices of an association of Baptists. As this opened to him a wider and more independent field of labor, he sent in his resignation to the trustees of Georgetown College, which was very reluctantly accepted, and in January, 1853, removed with his family to Russellville. He entered upon the discharge of his new duties under very discouraging circumstances. The school building was unfinished, having only just been roofed, and was open and surrounded by rubbish. The ten thousand dollars which had been secured for the enterprise having been expended, the structure as it stood was offered him by the trustees, on condition that he finish and furnish it. He was to retain the occupancy of it for five years free of rent, and to conduct it at his own expense for the education of young men. To attempt to do this was considered a rash and almost impossible undertaking, but Mr. Blewett, determined to succeed, at once engaged a contractor to finish the building within a year, at a cost of six thousand dollars, and gave his personal obligation for the money. He spent the year in superintending the structure and soliciting funds for the enterprise in a community which had not been educated to liberality, and which had been thoroughly canvassed before, but by persevering effort the building was finished and furnished at a cost of eight thousand dollars in one year. In January, 1854, the school was formally opened with twenty-five pupils, the fees for

the first term barely paying the assistant. Mr. Blewett had now been arduously at work for a year and a half without any remuneration. There was so little faith, even on the part of friends of the enterprise, in its ultimate success that many hesitated to give it their confidence. The school year opened in September with about fifty pupils, which number increased during the year, and at the beginning of the second year it opened with one hundred pupils.

During this year the school was converted into a college, chartered under the name of Bethel College, and Mr. Blewett became its president. The new responsibility, although attended with all the hardships, annoyances, and difficulties incident to enterprises of the kind, was unhesitatingly accepted by Mr. Blewett. The institution was deeply in debt, but Mr. Blewett succeeded in effecting its reorganization and in winning the public favor by means of earnest, patient, and unyielding effort. At this juncture the son of Chief Justice Ewing, of Kentucky, bequeathed to the institution \$10,000 in cash and real estate valued at \$20,000, on condition that in addition to his \$10,000 the trustees raised \$30,000. The president went into the field, leaving the management of the college largely to his efficient wife, to whose energy and culture he is greatly indebted for his success, and after eighteen months of patient labor secured the necessary \$30,000. In the mean time Chief Justice Ewing died, leaving the college \$3000 in cash and real estate valued at \$60,000.

At the breaking out of the war in 1861, President Blewett resigned, the college having disbanded, and was thus turned away by the events of the war from a work in which his best energies had been employed. During this period the institution had graduated several young men, who have since filled prominent positions in various professions and industries. The edifice had cost \$16,000 (paid for), and \$100,000 in endowments had been secured.

Mr. Blewett then went to Augusta, Ky., and took charge of Augusta College, which he conducted with success up to 1871, when he was invited to assume the management of the young ladies' seminary located at Jennings, an inviting suburb of St. Louis. The establishment of this school required energy and patient perseverance, but Mr. Blewett's experience gave him special fitness for the work. All the obstacles which confronted him at first have given way, and after twelve years of earnest labor his school is now a complete success.

In 1875, Mr. Blewett received the following letter, announcing that the honorary degree of LL.D. had been conferred upon him:

"RUSSELLVILLE, KY., June 10, 1875.

"PRESIDENT B. T. BLEWETT:

"*Sir*,—At the annual session of the board of trustees of Bethel College, by authority of its charter and the amendments thereto, the degree of LL.D. was by special order of the board conferred upon you.

"It affords me especial personal gratification, my dear sir, to make this communication. I trust it will refresh memories yet dear to us all.

"Very truly, etc.,

"RAND H. CALDWELL,

"*Secretary B. T. B. C.*

"Our commencement exercises were far the best since antebellum days, and augur well for our future."

Mr. Blewett has four children,—two sons and two daughters. One of his sons is a graduate of Colby University, Maine; the other of Washington University, St. Louis. Both are principals of prominent schools in St. Louis. His daughters are highly cultivated, and assist him in the seminary. Mr. Blewett is in the sixty-third year of his age, still vigorous, and as earnest in his labors as ever. He conducts a private select school of high grade, which is filled with the daughters of representative families, and derives a keen pleasure from devoting his best energies in the evening of his life to the education of young women.

In the vicinity of St. Louis will be found some of the handsomest suburban residences in the country. Among these one of the most noticeable is the country-seat of William L. Black, one of the leading business men of St. Louis.

TOWNSHIP OF CARONDELET.¹

Carondelet, which took its name from Baron Carondelet, is the southeastern township of St. Louis County. The township of Central and the city of St. Louis bound it on the north, St. Louis and the Mississippi River are east of it, the tortuous Meramec River, which separates it from Jefferson County, forms its southern and southwestern boundary, and a portion of Bonhomme township lies directly west from it. As originally constituted it embraced congressional townships 42, 43, and 44 north, ranges 6 and 7 east; but when the town of Carondelet was organized the northeast corner of the township was taken off, and when the city of Carondelet was absorbed by St. Louis the latter city extended its limits so far as to include a large portion of the township besides.

Gravois Creek drains the northern part of the township, and unites with Des Peres River in South St. Louis, and Mattis Creek, an affluent of Meramec River, is the principal stream in the southern part.

Prior to the commencement of the railroad era highway communication with St. Louis was a matter of the first importance to the farmers, millers, and others in the township, and the county authorities, recognizing this necessity, adopted measures for the establishment and improvement of avenues to and from the city. These roads were either gravelled or macadamized, forming what are ordinarily known as rock roads. Such are the Gravois road, which leads to Fenton and Hillsboro', the Lemay, Tesson, Telegraph, Watson, and Denny roads, and others.

The township has railway connection with St. Louis by the Missouri Pacific, which crosses the north-western corner; by the Carondelet and Kirkwood Branch of the same road, which passes through the northern part, and by the St. Louis and Iron Mountain Railroad, which runs along the shore of the Mississippi River.

The settlement of Carondelet township commenced when the country was under Spanish rule. Farms and stock pastures were developed, and grist-mills and saw-mills were established in various parts of the township. Many of the grinding-mills were propelled by horse-power, and a large portion of these were tread-mills.

Among the early settlers² were De Lor, Sappington, Mackay, the Fines, Musick, Long, Wells, St. John, Bowles, Parke, Barada, Guion, Le Brond, Tesson, soon followed by the McCormicks, Hunt, Dent, Cromwell, Smith, Pipkin, Sale, Grens, Berry, Richardson, Cowen, Eads, Lovejoy, and others.

John Sappington, Sr., erected a horse-mill for grinding grain, the first in the township. Z. Sappington, M. Tesson, and William L. Long each built grist-mills of two horse-power. Jonah and John Sappington, Jr., built a large and profitable tread-mill for grinding grain and sawing lumber. A large stone water-mill was built by G. Sarpy on the Des Peres River, at the Gravois road crossing. This mill was a great convenience to the farmers in the counties of St. Louis and Jefferson.

Capt. James Mackay, for a time in Territorial authority under Don Zenon Trudeau, purchased and settled on survey No. 3066, and opened a farm, on which he made many improvements. He resided on this farm till his death. He was a land surveyor. His son, Zenon Mackay, now resides on this farm, and owns a large portion of the tract which his father purchased.

Joseph Wells settled on the western part of survey No. 9 in 1806, and was a successful farmer and stock-

¹ With acknowledgments to John F. Long and Thomas J. Sappington for valuable assistance.

“MAPLE GROVE.”
RESIDENCE OF WILLIAM L. BLACK,
HALLS FERRY ROAD, NEAR BADEN, ST. LOUIS, MO.

raiser. His life was long and useful, and he left many descendants worthy of his good name.

John Long and family came from Bonhomme to the central part of the same survey in 1807. He entered adjoining lands, and was a successful farmer to the time of his death in 1826.

Philip Fine, Sr., located on survey No. 50, near the mouth of Meramec River. He established Lovering's Ferry, so called after his son-in-law, Lawson Lovering.

David Fine opened a farm on his grant, No. 1988. He and his wife, with Eli Musick and wife and Judge Joseph Sale, organized the first Baptist Church in the township, now known as Concord Church.

G. St. John resided many years and died on survey No. 3065, on the Meramec River. After his death his son-in-law, Dr. Butler, lived on the place and practiced his profession with success.

In 1818, Commodore Theodore Hunt purchased of William S. Long the eastern portion of survey No. 9. He resided on and improved this during about three years, then sold it to Col. Frederick Dent, the father of Mrs. Gen. Grant. Mr. Dent remained on this farm, making valuable additions and improvements, till 1865, when he removed to Washington City, where he died at the advanced age of eighty-seven years. His remains were brought to St. Louis by Gen. Grant, and buried, with those of his wife, in Bellefontaine cemetery. Col. Dent was an active promoter of the public schools in the county, and to his efforts the people are largely indebted for the efficiency of the public schools. He was at one time treasurer. His youngest son, Judge Lewis Dent, erected a neat and costly residence on a high commanding swell of the same tract, and named it "Wish-ton-wish." It was accidentally burned in 1871.

Jonah Parke, a pioneer from Madison County, Ky., in 1804, settled, in 1807 or 1808, on survey No. 2995, and there passed a long and happy life, loved and honored by all who knew him. At his death his two youngest sons, Charles and Samuel, sub-divided the tract, a large portion of which is owned by Judge Shore, of the St. Louis County Court.

Col. Philip Pipkin, a colonel under Gen. Jackson in the Creek and Seminole wars, came from Tennessee in 1830, and in 1836 purchased a part of the David Fine survey, No. 1988, erected a comfortable dwelling and other buildings, and opened a profitable farm. He was highly honored and respected for his gallantry as a soldier and his integrity as a citizen. He died in 1841, lamented by a large circle of acquaintances and friends.

Anderson Bowles came from Virginia at an early

day, and located near the present site of Kirkwood. His amiable wife was one of the first members of the Methodist Church, and was widely known as "Mother Bowles."

These pioneers have passed away, but those of their descendants who remember them recall with pride the sterling virtues which adorned their characters, their high moral worth, their stern integrity, and their active benevolence.

The population of the township was, in 1850, 2354; 1860, 7831; 1870, 5387; 1880, 5691.

Concord Farmers' Club.—This association was first organized on the 5th day of April, 1873, at the residence of Mr. Adam Schuetz, on the Tesson Ferry road, by the farmers in the immediate vicinity. Sept. 21, 1874, a certificate of incorporation was issued to C. D. Wolf, J. Henry Zeleh, Henry Creclieus, C. J. Tautphoeues, George Schaedler, Otto Theiss, Henry Horst, Christopher Heim, and others. During the same year a building site of about two acres was purchased on the Concord School road, one-fourth of a mile west of the Tesson Ferry road, and one and one-half miles south of the Gravois Rock road and town of Sappington (it being a part of what is known as the Saugrain tract), on which the present "Farmers' Club Hall" was erected at a cost of two thousand two hundred dollars, to which improvements to the amount of several hundred dollars have been added since. The building is a frame structure, two stories in height, seventy-five by thirty-five feet, size of main hall forty-five by thirty-five feet, the whole building consisting of nine separate apartments.

The object of the club is the improvement of its members in everything pertaining to agriculture, horticulture, and domestic economy. No sectarian or political discussions are permitted to be introduced in the club. Only practical farmers and horticulturists of good moral character are eligible for active membership, but persons engaged in other pursuits may become honorary members. The present number of active members is one hundred and three, number of honorary members thirteen, making the total membership one hundred and sixteen. The club has a library of over five hundred volumes, with an additional yearly appropriation of one hundred dollars for books. The regular meetings of the club are held on the first Saturday of each month from April to September, inclusive, at eight o'clock P.M., and on the first and third Saturdays of each month from October to March, inclusive, at seven o'clock P.M. Its officers are elected at the first meeting in January of each year, and it is officered at present as follows: President, Thomas J. Sappington; Vice-Presidents, Henry

Creclieus and George Schaedler; Recording Secretary, William H. Sappington; Corresponding Secretary, Jacob Schaedler; Secretary of Finance, Lewis Creclieus; Treasurer, C. J. Tautphoeus; Librarian, O. Heim; Assistant Librarian, William Nebe; and an executive committee consisting of five members.

The Farmers' Mutual Fire Insurance Company of St. Louis County, Mo., was organized by members of the Concord Farmers' Club, and a few other farmers in the neighborhood, in the months of February and March, 1875, and duly incorporated on the 1st of April, in the same year, under an act of the General Assembly of the State of Missouri, entitled "An Act providing for the incorporation and management of local insurance companies," approved March 27, 1874. The following-named gentlemen were elected the first board of directors: Thomas J. Sappington, C. D. Wolff, William A. Weinrich, John P. Litzinger, John H. Horst, Charles Mehl, Martin Rott, and Henry Creclieus. At a meeting held by the said board of directors, April 3, 1875, Thomas J. Sappington was elected president, C. D. Wolff secretary, J. Henry Zelch vice-president, and Martin Rott treasurer. The first policies were issued on the 12th day of June, 1875, and since that time the business of the company has been steadily increasing. They have at risk nearly half a million of dollars, extending all over the county of St. Louis, and they hold premium notes amounting to over one hundred thousand dollars, besides the sum of four thousand dollars cash, and no liabilities. There are now one thousand policies in force. The success of this company is chiefly due to the good management of the board of directors and the efficiency of the president, Thomas J. Sappington. The present board is composed of twelve directors,—Thomas J. Sappington, C. D. Wolff, John Heintz, Frederick W. Sternes, Henry Creclieus, John P. Litzinger, George Greb, James A. Eddie, J. Henry Zelch, Martin Rott, Perry Sappington, and Julius Nolte.

The officers are Thomas J. Sappington, president; J. Henry Zelch, vice-president; C. D. Wolff, secretary; and Henry Creclieus, treasurer.

German Evangelical St. Paul's Church.—In 1838 this society was organized, one mile west from Oakville, on the Baumgartner road. In 1845 the present church building was erected. It is a log structure, thirty by forty feet in size, and the congregation worshiped in it as it was originally built during many years. In 1840 it was weather-boarded outside, renovated and ceiled within, and a gallery was added, making the seating capacity three hundred, and it has now the appearance of a framed structure. It stands

in a cemetery, which was established at the time the church was erected. It is furnished with a pipe-organ, the cost of which was four hundred and twenty dollars. The present number of constitutional members of the congregation is sixty-two. The pastors of this church have been Revs. E. L. Nollau, 1838; G. W. Wall, 1846; Gotthilf Weitbrecht, 1852; J. M. Kopf, 1853; — Jung, 1858; William Fromm, 1860; John Will, 1864; Heinrich Schmitz, 1867; — Schmidt, 1878; and the present pastor, C. V. Wargowski, 1881.

A parochial school, taught in the German language, has been maintained from the first. It is kept in the basement of the parsonage. The church has no debt.

Church of the Assumption of the Blessed Virgin.—This is located near Mattis Creek, where as early as 1842 mass was celebrated by Rev. Father Fischer, of St. Louis. In that year seven acres of land on the Mattis road, one mile from the Lemay Ferry road, were purchased, and a log church was built. The congregation at that time consisted of seven families, and was supplied by Father Fischer, from St. Mary's Church, St. Louis, during two years. In February, 1844, Rev. Joseph Melcher became resident pastor, and in that year a log parsonage was built. This was afterward used as a school-house, then as a teachers' residence, then as a stable, and in 1879 it was burned. Father Melcher was succeeded in 1846 by Rev. Father Zeller, who was followed in 1847 by Rev. Simon Sigrist. In 1849, Rev. Joseph Blaarer came, and was succeeded in the same year by Rev. Remegius Gebhart, who died in 1852, and was followed in 1853 by Rev. John Reis. In 1858, Rev. Matthias Leutner became pastor, and in 1859, Rev. Henry Broekhagen came. He remained till 1871, and was succeeded by Rev. Henry Plebs, who remained two years. In 1873, Rev. Peter Bremerich took charge, and in 1875 he was followed by Rev. William Sonnenschein, who left in 1878, and was succeeded by the present pastor, Rev. Joseph Pope.

The original log church was used till 1848, when the present brick church was built, and the log house became a school-house, for which it is still used. The present church has a seating capacity of two hundred.

In 1871 a brick parsonage near the church was built at an expense of sixteen hundred dollars, and in 1874 a teacher's residence, also of brick, was erected at a cost of five hundred dollars.

From the first a parochial school has been maintained by this congregation, and it is now under the charge of the Franciscan Sisters. In this school instruction is given in both the German and English languages. The parish has no debt.

German Evangelical St. John's Church.—This is located on the Concord School road, one mile northeast from Mehlville. It was organized Jan. 29, 1849, with fifteen members. The first church edifice was a log building, and was erected the same year the society was organized. The parsonage, also a log house, was built the same year. A log school-house was erected in 1865. All these buildings were afterwards weather-boarded and painted.

In 1868 a new church was erected on the site of the old one. It is a brick structure, with a seating capacity of four hundred, and its cost was \$10,000. A new bell was placed in the tower in 1883, at a cost of \$300. A pipe-organ was purchased in 1881 at a cost of \$550.

The parsonage is used as a teacher's residence, and the same old school-house is still in use. A parochial school has been kept here, first in the church, then in the parsonage, and since 1865 in the school-house. The present pastor, Rev. John Will, was the teacher during fourteen years. A teacher is now employed in this school, in which the instruction is given in the German language. It has an average of fifty pupils.

The membership of the church is one hundred heads of families. The pastors have been Revs. G. W. Wall, 1849; E. L. Nollau, 1850; William Rampmeier, 1853; Frederick Judt, 1856; I. G. Stanejer, 1860; and the present pastor, John Will, 1863.

German Evangelical St. Lucas Church.—This society was organized in 1880, with eighteen constituent members. They first worshiped in the Rock school-house near Sappington, but in 1881 their present church edifice was built. It is a frame house, thirty by forty-five feet in size, and its cost was three thousand five hundred dollars.

The first pastor was Rev. Joseph A. Steinhardt, followed in 1882 by the present pastor, Rev. S. Kruse.

A parochial school, in which instruction is given in the German language, is taught in a part of the church. The attendance at this school is an average of twenty-five.

Church of Jesus Christ.—In August, 1881, Rev. Charles H. Ganthier organized a Sunday-school in the McKenzie school-house near Afton post-office. This school was conducted by him during a year, when successful efforts to erect a church and organize a parish were made by Mr. Ganthier and several members of the Episcopal Church in that vicinity. In August, 1882, a church building was commenced, and in the latter part of the next month services were first held in it. It is a wooden structure of the Gothic order of architecture, twenty by thirty feet in size, and its cost was twelve hundred dollars. Mr. Ganthier has

been the rector from the first, and his labors here have been crowned with great success. The parish has no debt.

Convent of the Sisters of St. Joseph at Nazareth.—This convent, a branch of the convent at Carondelet, was established on the Kinger road, two and a half miles southwesterly from Jefferson Barracks, in 1872. It was designed as a home for the aged and infirm sisters of the order, and for this purpose it has been used. The establishment comprises a farm of eighty acres, on which the convent was erected in the year before named. It is of brick, three stories in height, and it forms three sides of a courtyard. It is fitted up with special reference to the comfort of those who have become infirm from age or any other cause. It has a capacity for thirty patients, and an average of fifteen is the attendance. Mother St. John was the Superior of this house till 1879, when the present Superior, Mother De Chantan, took charge.

Glendale School for Boys was opened Nov. 1, 1882, at Glendale, on the Missouri Pacific Railroad, eleven miles west from St. Louis, by E. A. Haight, A.M. He purchased, for the purposes of his school, a large mansion with fourteen acres of ground, known as the Col. Leighton property. The school opened with two scholars, and from this small beginning it steadily increased till, at the beginning of 1883, it numbered twenty-two. It is particularly designed as a boarding-school for boys, for which its pleasant and healthful location and its easy communication with the city of St. Louis admirably fit it.

Mount Sinai Cemetery.—In 1849 the B'nai El congregation purchased an acre of ground on the Gravois road, just beyond the present city limits, and there interments were made till 1868. In that year the Mount Sinai Cemetery Association was incorporated under the general law, and an addition to this of six and a half acres was purchased and laid out. Three years later, or in 1872, a brick building was erected there for a chapel and sexton's residence. This is a tasteful building, and the chapel is elegantly finished, frescoed, and ornamented. In this chapel the funeral services of those interred in the cemetery are held. Splendid monuments are scattered through the cemetery, which is well kept and cared for. By the regulations of the association all members of the congregations B'nai El and Shaare Emeth and their families are entitled to free burial in this cemetery, as are also the poor. The cost of the cemetery with its improvements has amounted to eighteen thousand dollars. The first president of the association was D. Singer, followed, in 1870, by L. R. Straus,

and he, in 1872, by the present incumbent of the office, Louis J. Singer.

Public Schools.—The inhabitants of the township of Carondelet have not been unmindful of the importance of education as a means for developing and moulding the characters of their children. In many parts of the township may still be seen the primitive log school-house, which sprang into existence as soon as there were a sufficient number of children in a neighborhood to constitute a school. These unpretentious temples of science were reared long before the public school system was established, and when this system was provided they were utilized under it as district school-houses. As time has gone on and better educational facilities have come to be necessary, larger and more tasteful buildings have been erected, and now the traveler through the township sees in different localities houses that, in capacity, convenience, and elegance, will compare favorably with those of any region in the country.

In accordance with the customs in their native lands, many of the foreign immigrants have maintained parochial schools for the education of their children in their own cherished faith, but these have not been permitted to supersede the public schools.

St. Louis Quarantine Hospital.¹—In 1854 the city of St. Louis purchased from Augustus Langkopt fifty-eight acres of land on the western shore of the Mississippi River, a mile and a quarter south from Jefferson Barracks, and twelve miles from St. Louis. On this ground stood an inn, which is now used as the residence of the superintendent of the quarantine.

Buildings were erected for hospital purposes near the river. They were one-story wooden buildings, and were at first used for general hospital purposes. On the occurrence of the yellow fever in 1878 these were used for the reception and treatment of yellow fever patients, and upward of one hundred cases were received and treated here. A recurrence of the disease was expected the next year, and it was determined to erect buildings farther from the river and on more elevated ground, for the reception of patients. These buildings were therefore burned early in the summer of 1879, and six new pavilions were erected about three hundred yards west from the river, on ground sixty feet higher than that on which the ones burned stood. These pavilions or wards are each twenty-five by fifty feet, and have excellent facilities for ventilation. They are supplied with water from a reservoir that was built that year, and

which has a capacity of one hundred and sixty thousand gallons. Into this reservoir water is pumped from the river, and from it distributed to all parts of the grounds where water is needed. On the river-bank stands a bath-room, to which patients are conveyed from boats, stripped of their infected clothing, and after a warm or cold bath, as their condition requires, they are wrapped in clean new clothing and conveyed to the wards. A short distance from this is a fumigating-house, where various disinfectants and appliances for fumigating boats, trunks, bedding, and clothing are kept. About two hundred yards up the river from this is the place where the infected bedding and clothing of patients is taken to be burned. About three hundred yards west from the wards spoken of, on still higher ground, stand two small-pox wards that had been previously erected. These have a capacity for fifty patients each, and they are at all times kept in readiness for the reception of cases as they may occur. In addition to these the necessary buildings for the use of the superintendent, physicians, employés, nurses, etc., have been erected, and the establishment is considered complete in all its parts. It is used as a quarantine whenever it is necessary to enforce quarantine regulations, and at all other times as a hospital for the treatment of patients affected with infectious diseases.

A few years prior to the yellow fever epidemic a general desire was felt to dispense with the quarantine, because of its expensiveness and the belief that it was unnecessary. Better counsels prevailed, however, and the experience of that year fully demonstrated the utility of the establishment and silenced the clamor for its abolition. The necessity for its maintenance at all times was shown by the experience of 1882, during which year five hundred cases of smallpox were treated in its wards.

It is worthy of remark that the National Board of Health visited this quarantine station in 1881, and pronounced it the best in the Mississippi valley, and second to none in the United States.

The superintendents of the establishment have been Dr. R. S. Anderson, Dr. H. C. Davis, who died of yellow fever here in 1878, and since that time the present superintendent, Daniel O'Madigan.

TOWNSHIP OF ST. FERDINAND.

St. Ferdinand is the northeastern township of St. Louis County. It, as well as the church at Florissant, was named in honor of one of the kings of Spain, to which country the territory belonged during many years after its settlement. Its boundaries are the Missouri River on the north and west, Mississippi

¹ Information furnished by Daniel O'Madigan, present superintendent.

River and the city of St. Louis on the east, Central township and St. Louis city on the south, and a small portion of Bonhomme township on the west. It is drained by Cold Water, or St. Ferdinand Creek, which rises near its southern boundary and pursues a serpentine course northeasterly, to discharge its waters into the Missouri River, and by Maline Creek, which also rises near the south line of the township, and passes eastward, then southward, and empties into the Mississippi. Fee-Fee Creek crosses a small portion of the southwestern corner of the township.

The surface is rolling and the soil fertile. Agriculture is the principal industry of the township, and Indian corn and wheat are the staple crops.

The principal roads which traverse the township and converge toward the city of St. Louis are the Bellefontaine road, which leads to Spanish Pond, a little lake lying north from St. Louis, and the Hall's Ferry road, which leads across the township in a northwesterly direction, and touches the Missouri River below Mullanphy Island. The latter was once a plank-road, but, as in case of other roads of that kind, its planks have been worn out or removed and replaced by other materials. The old Hall's Ferry road diverges from this toward the east at a point a few miles from the city, and pursues a tortuous course toward the same point on the Missouri. The Natural Bridge road extends in a nearly direct line from St. Louis to Bridgeton, and thence to its junction with the St. Charles Rock road. A branch also extends northward from Normandy to Florissant. These roads were constructed as plank-roads by a company about 1850, but after a few years they became county roads, and, as in other cases, the planks were removed. The St. Charles Rock road crosses the southwestern portion of the township in a northwesterly direction, and terminates on the Missouri River at Brotherton, opposite St. Charles.

The St. Louis, Kansas City and Northern Railroad crosses the township between St. Louis and St. Charles. College View Hill, Ferguson, Ashland, Graham, Bridgeton, Bonfils, and Brotherton Stations on this road are in this township.

The West End Narrow-Gauge Railroad has its northern terminus at Florissant, and gives that city direct communication with St. Louis. This road has stations in this township at Carsonville, Scudder, Graham's, Taylor Road, and Florissant.

St. Ferdinand was first settled by French immigrants, and although soon after its settlement the entire French possessions west of the Mississippi came under the dominion of Spain, it continued to be essentially a French settlement. By an examina-

tion of the baptismal register of the Church of St. Ferdinand, the family names of most of the original or early settlers may be found, and of these a large portion are still represented in the township, either in the paternal or maternal line. Among them are the names of Lefevre, Rivière, De Hetre, Primault, Marechal, Mercier, Lachasse, Dubreuil, Rapun, Menard, De Lisle, Martin, Dejarlais, Carico, Billiot, Peltier, Tesson, Hubert, Montreuil, Moreau, Crilis, Aubuchon, Ouvrey, St. Germain, Brant, Tourville, Bennet, Payant, La Bonne, Alair, Wedington, Barada, Thibaut, Courtois, Gendrom, Bourk, St. Cin, Beaudoin, Presse, Musick, James, Burk, Chovin, Brazeau, Chaput, Derosier, Lorain, Miles, Pera, Smith, Robidou Vasquez, Fortin, Gailloux, Tayon, Latoure, Weaver, Clement, Sanguinette, Chouteau, Walton, Brisette, Pilaire, Dénoyer, Dolson, Read, Castello, St. Cyr, Mullanphy, Chambers, La Violette, Hodromont, L'Esperance, Beaufls, Laramie, Bellville, Vacha, Mulhall, Stevenson, Geno, Goss, Graham, Dillon, Taylor, Rapreux, Hyatt, Clark, Stergers, Higgins, Fremont, Hanly, McMenemy, Grace, Harnett. Other pioneers were Magill, Brown, Archambault, Richardson, Long, Hubbard, Hume, Bates, Harris, Stuart, Jamison, Hodges, Seely, Patterson, Sullivan, Utz, Howdeshell, Carter, Evans, Putnam, Reardon, Todd, Fugate, Quick, Whiteside, Hall, Walker, Yosti, and Worthington.

The father of Judge Hyatt was an early settler in St. Ferdinand, and both father and son have been prominent, active, and useful citizens. James Richardson and Thomas Musick, if not the first, were very early settlers in the southern part of the township. The first came from Virginia, and he was instrumental in bringing here many American settlers, whom he aided in many ways. He was a saddler, and it is said that he once presented to the Spanish alcalde a side-saddle for his wife, for which the alcalde in return presented him a grant of a thousand arpens of land, of which Patterson's Settlement is a part. He came to be a very large landholder.

The early inhabitants of this township, and even those living here at a comparatively recent period, had primitive habits and customs. Their wants were few and easily supplied; the fruitful soil of the region enabled them to raise the necessaries of life easily, and the mild climate did not necessitate those preparations for winter that are required in more northern latitudes. St. Louis afforded a market for the wood or little surplus produce which they wished to exchange for the few luxuries in which they indulged, and they pursued the even tenor of their way, undisturbed by the bickerings and jealousies which creep into mod-

ern society, or by the vanities which fashion engenders. Each rejoiced in the prosperity of his neighbor, or sympathized with him in his adversity. They were contented and happy, and in their dealings with each other they were honest to an extent hardly known in modern times. It is said that the first immigrant who placed a lock on his smoke-house excited a high degree of indignation among the inhabitants by that act. They looked on the lock as a standing insult, equivalent to a direct accusation of dishonesty, and were disposed to remove it from their sight by summary process. The population of the township was in 1860, 4289; 1870, 7214; 1880, 7923.

Fort Bellefontaine, or Old "Fort St. Charles, the Prince."—Fort Bellefontaine was established at the mouth of Cold Water Creek, or St. Ferdinand River, in 1806, by Gen. Wilkinson, then Governor of the newly-acquired Territory of Louisiana. It was during many years the frontier military post, and it was from this point that Lewis and Clark left the borders of civilization on their celebrated tour of exploration. It was occupied by the United States till the establishment of Jefferson Barracks, in 1827, when the troops stationed there were removed to the latter post. The works have gone to decay, and the exact location of the fort is not now discernible.

The following memoranda, gleaned from different sources, give a history of the earlier and later transfers of the land on which stood this fort:

"Governor Zenon Trudeau granted to one Hezekiah Lard (or Lord) a concession of one thousand arpens (850.77 acres) of land on the Missouri River, in the north part of this county, through which runs the Cold Water Creek, dated Sept. 10, 1797. H. Lard built a house, etc., a saw- and grist-mill, and made a farm of the land, and died on it late in 1799. At the request of the widow, an inventory of the estate was taken by James Mackay, commandant of St. Andrew's, by order of the Governor, Nov. 9, 1799, as follows: One thousand arpens of land, seven hundred dollars, with house and farm, saw- and grist-mill and apparatus, five hundred dollars; personal, eight hundred and seventy-three dollars,—two thousand and seventy-three dollars.

"The widow, whose maiden name was Catherine Sullivan Purcell, subsequently married one Morris James, and John Lard, brother of the deceased, having an interest in the mill and farm, the parties petitioned the Governor for a settlement of the estate. With his consent the widow appointed Wm. Musick and John Patterson to act for her, and John Lard appointed Richard Chitwood and John Allen on his part. The Governor named James Richardson umpire, April 2, 1803.

"These parties met at the place on April 23, 1803, in presence of Joseph Hortiz, notary, to superintend and record, and Samuel Solomon to interpret, sent up by the Governor for that purpose. They decided that the farm and land belonged to the estate of Hezekiah Lard, deceased, and that John Lard was entitled to two hundred and fifty-nine dollars. John Lard, when he lived with his brother on the farm, sold a horse for eighty dollars and a bull for thirty-five dollars, which they leave to the Governor to

decide whether he shall repay it; and sixteen hundred feet of boards sold by John Lard he must pay for to the estate. Signed by all the parties, John Lard, Morris James, C. Sullivan Purcell James, John Allen, Wm. Musick, Richard Chitwood, John Patterson, James Richardson, Joseph Hortiz, notary. Costs of arbitration: Hortiz, \$5.50; Governor, \$2; deed, \$4; total, \$11.50."

"The sale of the property of the estate took place on the 10th and 24th of the month.

"The auctioneer to be paid by the estate. April 26, 1803.

"JOSEPH HORTIZ.

"1. William Massey to the United States, April 20, 1806, for two hundred and fifty dollars, paid by Gen. James Wilkinson, United States army, five acres of this land, with the factory and buildings, called Bellefontaine, and the use for five years of the ground now used for the cantonment, with the buildings, gardens, woodland, etc., part of Lard's survey of one thousand arpens.

"2. William Massey to Gen. James Wilkinson, July 29, 1806, for two thousand five hundred dollars, about five hundred arpens of land, called Bellefontaine, except the five acres sold to the United States, and which lies within the said tract.

"There is a deed of William Tharp to Gen. James Wilkinson, April 21, 1806, for the above five hundred arpens for the same consideration, two thousand five hundred dollars, Book A, 269, but as Tharp had no title to the land it must have been for Massey while absent.

"3. State of South Carolina, James Wilkinson, general United States army, to the United States, March, 1809, for two thousand five hundred dollars, the Bellefontaine tract, commencing at the mouth of Coldwater Creek; up said creek, east side, to the back line of Lard's grant; thence east on said line to line of Morris James; thence north on said line to the Missouri; thence with the meanders of said river to the beginning, less the five acres bought by the United States from William Massey, about five hundred French acres, with the appurtenances thereon.

"4. United States, by Gen. Cass, Secretary of War, to James Samuel, Dunham Spalding, H. N. Davis, and E. T. Langham, at Washington, Sept. 29, 1836, for \$1880.10, the above tract, etc., now called 219.47 acres. They laid out the town of Bellefontaine in 1836."

City of St. Ferdinand.—This city, the corporate name of which is as above, is spoken of in some early histories as "Fleurissant," but now bears the common designation of "Florissant." It was settled at

about the same time that the first adventurers located at St. Louis, and was at first an Indian trading-post and a Jesuit mission. Father Meurin, S.J., is believed to have been the earliest missionary who labored among the natives at this point.

But little of the history of the station during the first thirty years of its existence is known. In 1793 it had acquired sufficient importance to be placed under the especial care of the government, as the following translation of a decree issued by the Governor of the province will show :

"The Baron of Carondelet, Knight of the Order of St. John, Colonel of the Royal Armies, Governor, Intendant-General, Vice-Patron of the Provinces of Louisiana, Western Florida, and Inspector of their Troops, etc.

"Inasmuch as His Majesty, whom God preserve, by his royal edict of the 17th of August of 1772, has been pleased to concede to this government the authority to grant titles to special lieutenants of this province, and there having been formed in the district of Ylinoa a new settlement by the name of St. Fernando, and it being necessary to provide for the civil and military government of the same, because of good conduct, distinguished zeal, exactitude, probity, and disinterestedness, which are requisite to insure confidence in the administration of public affairs, and these special qualifications being united in Mr. Blanchete, therefore, exercising the authority in me vested by the said royal decree, I declare and nominate for special lieutenant, with the rank of captain of militia of the said settlement of St. Fernando, its boundaries and jurisdiction, the said Mr. Blanchete, immediately subordinate, however, to the captain commandant of the establishment of Ylinoa, whom I command to have him recognized as such, and to the neighbors, sojourners, and inhabitants of the said post that they respect and obey him as such civil and military commander in all matters within the scope of his authority, awarding and causing to be awarded to him the honors and deference to which he is entitled by reason of his office.

"These presents given, signed with my hand, sealed with the seal of my arms, and countersigned by the underwritten secretary of His Majesty for this government and intendancy.

"At New Orleans, the 30th of January, of one thousand seven hundred and ninety-three.

[Eagle and lion seal.] "EL BARON DE CARONDELET,
ANDRES LOPEZ ARMESTO,
"W. P."

In 1829 the place was first incorporated as a town, but after a few years the charter was allowed to lapse by neglect of the people to select officers. In 1843 it was again incorporated, and its existence as a town continued till 1857, when it was chartered as a city by an act of the Legislature.

After its settlement the Spanish government, in accordance with its custom, granted to the inhabitants of the village five thousand arpens (or four thousand two hundred and fifty acres) of common lands, which have since been known as the St. Ferdinand commons. These were for fuel and pasturage, and they were used as common lands till the time of the second incorporation of the town, when they were leased to

the inhabitants for long periods of time (usually one thousand years), in forty-acre lots, at a nominal rent.

What was known as the common fields was composed of parcels granted by the Spanish government to settlers in the town. These were each one arpent, or about sixty-four yards in width, and extended "from river to river," or from Cold Water Creek to the Missouri River.

By reason of their characteristic sociability, and for mutual protection against the Indians, the first settlers had their dwellings in the town, and their farms were in this long, narrow shape, so that as they went to and returned from their daily labors they were together, and were thus able the better to defend themselves in case of sudden attacks. The titles to the commons and the common fields, which were thus acquired under Spanish rule, were confirmed by an act of Congress in 1812, and the people, or their legal representatives, who had thus acquired lands in these common fields (so called because of the way of inclosing and working them) received deeds or certificates of confirmation by complying with certain prescribed formalities and making the necessary proofs of occupancy, etc. These long, narrow tracts have mostly disappeared, or assumed forms more in accordance with modern customs.

The precautions which the pioneer settlers adopted for protection against the savages were not unnecessary, as their subsequent experience proved. Among the Creole population at Florissant there are numerous traditions of murders by Indian marauders, either singly or in small bands, and without doubt these traditions have truthful foundations, though they may have become much distorted in their details by oral transmission.

The difficulties and embarrassments, present and prospective, arising out of the renting of the St. Ferdinand commons led the people, in 1856-57, to seek a remedy for the evil, and this was finally found in an act of the Assembly incorporating the town as a city. The act was approved Feb. 11, 1857, and contained along with the usual provisions of city charters one authorizing the legislative department of the city "to provide for the inclosing and improving, settling and conveying of all property, real and personal, belonging to said city, and especially for the sale and conveyance of all the lands embraced within the United States survey No. 1202." This survey was made under the act of confirmation passed by Congress in 1812. Under this provision of the charter about six-sevenths of these commons have been sold.

Owing to the loss of the records, the officers

under the first incorporation, which continued from 1829 till 1832, and of the second, which was in force from 1843 till 1857, cannot be given. Under the city charter the mayors have been as follows: Gregoire Aubuchon, 1857; Michael Powers, 1858; Golvin Musick, 1860; Joseph C. Vrand, 1861; Julian Bates, 1862; Leonard Adams, 1863; William J. A. Smith, 1864; and the present mayor, Charles Castello, 1865.

Charles Castello is of remote Spanish descent, though his grandfather came to this country from Ireland. He was born at Mineral Point, Wis., May 22, 1839, but his parents removed to Florissant, Mo., when he was an infant. He received a common school education and was reared as a farmer. At the age of twenty he went to Colorado, where he was engaged during a year and a half in mining. He then returned to Florissant and became a clerk in a store, where he remained during several years. He afterwards became an operator in real estate, and thus acquired a handsome competency. He continues to deal in real estate, and is also a conveyancer and notary.

In 1865 he was elected mayor of the city of St. Ferdinand, and has been re-elected to that office at every subsequent municipal election. He has also been during many years an efficient member of the school board. He now holds the office of public administrator in St. Louis County. He has always been a Democrat, politically, though during the war of 1861-65 he was a firm supporter of the Union. In his religious faith he is a Catholic.

In 1868, Mr. Castello was married to Miss Dora Menke, of Florissant, and they have had four children, two of whom are living.

As an evidence of the place which Mr. Castello holds in the esteem of his fellow-citizens, it is only necessary to point to his long term of service as chief magistrate of the city of St. Ferdinand.

Of the members of the Council of St. Ferdinand three are chosen each year, and in view of the fact that the office is altogether unprofitable, the incumbents have been many. For like reasons the office of clerk and register has been filled by many, often by several in the same year. The treasurers have been Samuel James, Lewis R. Brand, George Grotzinger, Charles W. Smith, and William Mreen. Of these Samuel James has held the office three-fourths of the entire period.

Mr. James' father, who was of Welsh descent, removed from Kentucky to Florissant in 1793. His mother, whose maiden name was Julia Crilis, was a French Creole, born in Cahokia. Mr. James was

born in Florissant, in the house where he now resides, Sept. 16, 1817. He received his education in such schools as were kept in the country before the establishment of the public school system, was reared a farmer, and has always followed that occupation. He became by purchase the owner of the farm which had been the property of his father, and he still owns a large portion of that estate. Between 1840 and 1850 he was engaged in the business of shipping cattle and hogs to New Orleans. In 1850 he went to California, where he engaged for a short time in mining. Aside from this his life has been passed at Florissant.

At the age of twenty-one Mr. James was elected a trustee of the town of St. Ferdinand, and served in that capacity during several years. He was made treasurer of the town in 1854, and held that office in the town and city until 1881. He became treasurer of the school board at the same time, and still holds that position. In August, 1860, he was elected one of the judges of the County Court of St. Louis County, and served in that capacity until the enactment of the ordinance vacating the office in the State. During his term of office the St. Louis County Insane Asylum was established.

Judge James has always held the Catholic faith, in which he was reared, and in politics has acted with the Democratic party.

He was married Feb. 18, 1838, to Miss Virginia Robertson, of Bridgeton, St. Louis Co., and they have had eleven children, eight of whom are now living.

Judge James has always maintained an unblemished character for integrity, and is a respected and influential citizen.

The situation and surroundings of Florissant have not been such as to lead to the establishment there of any important manufactories or shops, beyond what have been required to meet the wants of the people in the immediate vicinity. The round-house and machine-shop of the West End Narrow-Gauge Railroad is located here, at the terminus of that road. It is the repair-shop of the road, and it has facilities for making all the repairs on the rolling-stock, and building locomotives when necessary. The machinery is driven by an engine of twenty-five horse-power, and eight men are employed. E. D. Church is the foreman and master-mechanic.

The city has now six general stores, two hotels, three wagon- and blacksmith-shops, four shops, three tailor-shops, two harness-shops, one shoe manufactory, one tin-shop, and two physicians. Its population, according to the census of 1880, was eight hundred and seventeen.

Florissant Valley Lodge, No. 19, National

Chas Casletto

Samuel James

American Association.—This was organized in 1881 with eighteen charter members, of whom Walter Evans was president; John D. E. Belleville, vice-president; Charles Castello, secretary; Robert Evans, treasurer; and Gabriel Loraine, collector. The present officers are John Belleville, president; John D. E. Belleville, vice-president; Charles Castello, secretary; Robert Evans, treasurer; and Gabriel Loraine, collector. John Belleville is also deputy national president. It is a beneficiary and mutual insurance association.

Florissant Public School.—Prior to 1845 the parochial school of the Church of St. Ferdinand and the conventual school afforded the inhabitants of the town their only educational facilities. In March of that year an act was passed by the Legislature "to incorporate an academy in the town of St. Ferdinand, St. Louis Co." The trustees named in the act were James Castello, Gregoire Aubuchon, George McCullough, James L. Holliday, Edward Harrington, Thomas J. Minor, William Nutt, Paul G. Lindsay, and John B. James, and provision was made for the election of their successors by the inhabitants of the town. The act provided that instruction in the common and higher branches should be given free to the children residing within the limits of the town, and common provision was made for the support of this academy by appropriating two-thirds of the revenue arising from the rents of the commons, which were then under leases. Under this act a one-story brick school building with two apartments was erected, and in this the school was conducted till 1857, when increased facilities were required, and an addition was made to the building, doubling its capacity.

In 1871 the academy plan was dropped, and the city and commons were constituted a school district under the general school law. In 1876 a new school building was erected on Washington Street, in an elevated and pleasant part of the city. The site includes an entire square, giving ample room for playgrounds. The building is of brick, two stories in height, with four school-rooms, having an aggregate capacity for two hundred and seventy pupils, and up to the present time three of these rooms have been occupied and three teachers employed. In the tower of the building a clock has been placed.

In that portion of the district known as the commons a school of primary and intermediate grades is maintained.

The aggregate number of children instructed in these schools during 1881-82 was two hundred and eleven. The cost of the school edifice in Washington Street was between nine and ten thousand dollars, and

the total value of the school property belonging to the city is eleven thousand dollars. The amount expended in the district in 1881-82 for school purposes was two thousand eight hundred and seventy-two dollars.

Church of St. Ferdinand.—As early as 1792 a wooden church stood in the old burial-ground at Florissant. It was called the Church of St. Ferdinand, in honor of the king of Spain who expelled the Moors from that country. The first entry in the baptismal register is as follows: "On Aug. 5, 1792, I, Pierre Joseph Didier, of the order of St. Benedict at Maux, Royal Abbey of St. Denis, and a missionary priest, baptized Claude Pallot, at St. Ferdinand, Florissant." Father Didier remained till 1798, when he was succeeded by Rev. F. L. Tusson, a Recollect, who signed as "curate of St. Charles." He was followed, in 1806, by Rev. J. Maxwell, and he, in the same year, by Rev. Thomas Flynn. After the pastorate of Father Flynn, the Trappists took charge in 1808. The Superior was Rev. Marie Joseph Dunand, who was assisted in the pastorate there from 1809 to 1811 by other Trappists. He resided at Monks' Mound, on the Collinsville plank-road, six miles east of the St. Louis bridge, from 1810 till 1813, visiting Florissant weekly. In 1813 the Trappists left Illinois for France, and Father Dunand (who was commonly known as "the Father Prior") took up his residence at Florissant, where he remained till May, 1820, when he returned to France, and Rev. Charles Delacroix took charge. In 1821 the present church building was commenced. Prior to this time the trustee system had been in vogue here, and this had led to embarrassments and conflicts of authority. Oct. 11, 1821, Bishop Dubourg recorded the following order: "The power of the trustees shall cease from the moment when the new church shall be blessed, and the parish priest shall be the only trustee, under our authority." It was also ordered by the bishop: "The old church, the adjacent grounds, and the debris of the old church shall remain at the disposal of the priest. The cemetery shall remain where it is, and shall be kept inclosed and be maintained at the charge of the parishioners."

The corner-stone of this church was laid by Father Delacroix, Feb. 19, 1821, and the stone for the purpose was presented by Madame Duchesne. It contained the following record in the Latin language: "On this Feb. 19, 1821, I, Charles Delacroix, by permission of Right Rev. Bishop Valentine Louis William Dubourg, laid the corner-stone of this church, dedicated to the Sacred Heart of Jesus, under the invocation of St. Ferdinand and St. Francis Regis;

Madame Duchesne, Superioress, having donated the said corner-stone, Madame Octavia Berthold and Madame Eugenie Andé being present, as also the pupils and many persons from the village." The church was blessed by Father Delacroix, Nov. 20, 1821, and was dedicated by Bishop Rosatti, Sept. 5, 1823.

On the 20th of June, 1823, the church was made over to Rev. Charles Van Quickenborne, S.J., and it has ever since remained in charge of the Jesuit Fathers. The priests in charge have been, since Father Van Quickenborne, Rev. F. De Theux, 1827; Rev. J. F. Van Assche, 1829; Rev. G. L. Gleizal, 1838; Father Van Assche, 1840; Rev. F. J. Sautois, 1853; Father Van Assche, 1857, who remained till his death in 1877; since then the present pastor, Rev. A. Hayden.

In 1879 the church was enlarged, a new steeple was erected, and the interior was renovated, the whole at an expense of five thousand dollars. The old cemetery became too full for further use, and in 1876 a new and tasteful cemetery was laid out. It is located on a hill about a mile south from the city.

Church of the Sacred Heart.—The parish of the Sacred Heart was organized in 1866, in June of which year the corner-stone of the church edifice was laid. It was organized that some forty German families who had become residents in this vicinity might worship together in their native language. The house was completed and dedicated in October, 1867. It is a brick edifice, fifty by one hundred feet, and its cost was twenty-five thousand dollars. The first pastor was Rev. Ignatius Panken, who was succeeded in 1867 by Rev. Ignatius Pankert, and he, in 1876, by the present pastor, Rev. John Banhans. The parish now consists of one hundred and thirty families.

A parochial school was established a year prior to the erection of the church, and a brick building, with a capacity for one hundred pupils, was erected. About 1870 another school building was built, principally for boys. The school is under the charge of the Sisters of the Precious Blood, of whom three are resident here, and one secular teacher is employed. In this school instruction is given in both the English and German languages, and the pupils average one hundred and twenty.

The sisters under whose charge this school has been placed belong to an order the vocation of which is the education of children and youth, and in this they have proved themselves highly efficient.

Sacred Heart Order.—The order of the Sacred Heart was first established in America in 1818. In the previous year Right Rev. Father Dubourg, Bishop

of Upper and Lower Louisiana, made application to Madame Barat, the Superior-General of the order, for a colony of the sisters to establish a home in his diocese. Accordingly five of these ladies—Madame Phillipine Duchesne, Superior, and Sisters Octavie Berthold, Eugenie Andé, Catherine Lamarre, and Marguerite Manteau—sailed from France in March, 1818. They arrived in New Orleans late in May, and at St. Louis on the 22d of August in that year. Early in the next month they opened a school in St. Charles, but after a trial of a year it was found that, by reason of the poverty or indifference of the people, they could not maintain themselves there, and arrangements were made for their removal to Florissant, for which place they departed on the 3d of September, 1819. Their transit was thus described by Mother Duchesne: "Sister Octavie and two of our pupils next embarked. I was to close the march in the evening, with Sister Marguerite, the cows and the hens; but the cows were so indignant at being tied, and the heat was so great, that we were obliged to put off our departure to the cool hours of the morning. Then, by dint of cabbages, which we had taken for them in the cart, they were induced to proceed. I divided my attention between the reliquaries and the hens. We crossed the Missouri opposite Florissant. On landing, Marguerite and I drew up our charges in a line—she the cows and I the hens—and fed them with a motherly solicitude. The Abbé Delacroix came on horseback to meet us. He led the way, galloping after our cows when, in their joy at being untied, they darted into the woods."

Of the region into which these poor but devoted sisters, with their scant effects, came the Abbé Beaunard says, "This country has now, in summer, the appearance of a sea of verdure, studded with oaks of various sorts, walnut-trees, planes, and all kinds of forest-trees, among which stand a number of pretty houses and ornamented villas; but in 1820 not a single cabin was to be seen between St. Louis and Florissant, nothing but a boundless expanse of waving grass, and, to complete the resemblance of this green plain to the ocean, storms often swept over it with sudden violence.

"The Spanish colonist who had originally drawn the plan of this village had given it the name of St. Ferdinand, in honor of the sovereigns of his country, and it is often so called in Madame Duchesne's correspondence. A little church had been built there, under the shadow of which a band of Trappists, driven away from France by the revolution, had taken shelter, and remained there till 1812. The curé of this place, M. Dunand, was the last survivor of this little community,

and he was still known in the village as the Father Prior. He had undertaken to arrange the humble abode which the nuns were to occupy, but as it was not yet finished, they had yet to live in a farm which the bishop had bought in the midst of a wild solitude, surrounded by forests. The Rev. M. Delacroix resided there, and directed the tillage and cultivation of the neighboring land. He was the priest who had come on horseback to meet the sisters at the river-side."

Father Delacroix gave up his own abode to the nuns and made his quarters in a hut of matting, the entrance to which served both as a door and a window, and which had not sufficient space for a chair. The nuns lived as farm servants, looked after the cattle, planted and harvested maize, cultivated vegetables, gathered their firewood, etc. They subsisted during several months on some flour which they bought on credit, and on a small bull salted. Father Beaunard says, "The bishop used to laugh when he saw the nuns engaged in their homely labors, and asked Madame Andé if it was at Napoleon's court she had learned to milk the cows."

Their house at Fleurissant was made ready for them in the latter part of December, 1819, and the sisters went to it, walking in the snow knee-deep, wrapped in blankets, but shivering with the cold and covered with icicles, driving their cattle, guided only by the tracks of the pigs and other animals. Mother Duchesne wrote of their removal: "The cold deprived us almost of the power of motion. Having tried in vain to lead with a rope one of our cows, I hoped to make her follow us out of her own inclination by filling my apron with maize, with which I tried to tempt her on; but she preferred her liberty, and ran about the fields and brushwood, where we followed her, sinking into the snow, and tearing our habits and veils amidst the bushes. At last we were obliged to let her have her own will and make her way back to the farm. I carried in my pocket our money and papers, but the strings broke, and everything, including a watch, fell in the snow. The wind having blown the snow on my gloves they were frozen on my hands, and I could not take hold of anything. Eugenie had to help me pick up my bag, and also my pocket, which I was obliged to carry under my arm."

The first year at Fleurissant was one of great labor and privation. At one time Mother Duchesne wrote: "There was a moment this month when I had in my pocket only six sous and a half, and debts besides." Gradually, however, their condition and prospects improved, and in May, 1820, the number of their scholars had reached twenty-one, and the idea of estab-

lishing a novitiate began to be entertained. In the autumn of that year Mother Duchesne was afflicted with a serious illness, and one of the sisters had the misfortune to break her arm. On the 22d of November their first postulant, Mary Layton, was received, and on the 19th of March, 1821, Emilie St. Cyr and Mary Ann Sumner took the veil. They were followed by Eulalie Hamilton on the first Friday in May, and by her sister Mathilda on the 16th of June, 1821. These accessions greatly encouraged the sisters, and when, soon afterward, the offer was made of a house and its furniture at Grand Cotcau, near the Opelousas, it was accepted, and Madame Eugenie Andé, as Superior, and Sister Mary Layton were sent to the place, of which they took possession on the 28th of August, 1821. They were reinforced the same autumn by two nuns from France. Thus was established the first branch from the mother-house at Fleurissant. In the autumn of 1825 another house, at St. Michael, was established, and in 1827 the house at St. Louis, and in 1828 those at Bayou La Fourche and St. Charles.

From that time to the present houses have multiplied, till in different portions of the United States, in Canada, and in South America are to be found many flourishing and magnificent institutions of this order, which had its humble origin in this place in 1819. The novitiate here continued till the spring of 1847, when it was abandoned by the Sisters of the Sacred Heart.

Sisters of Loretto.—June 21, 1847, six Sisters of Loretto, Mother Eleonora Clarke, Superior; Sister Philomena, directress of studies; and Sisters Theodosia, Vincentia, Ambrosia, and Stanislaus, assistants, took possession of the establishment which the Sisters of the Sacred Heart had abandoned, and which then consisted of a two-story brick house that had been built by Father Dunand, and some old, dilapidated cabins. These, with three acres of land, they at first rented for one year at two hundred dollars. They subsequently purchased the buildings and five acres of ground for one thousand dollars.

It is proper here to remark that the order of the Sisters of Loretto was founded by Rev. Charles Nerinckx, in 1812, at Hardin's Creek, Washington Co., Ky. At that place Miss Mary Rhodes, a pious young lady, first gathered a little school of girls in a dilapidated cabin, the abandoned residence of a former tenant. Success crowned her efforts, and she was soon joined by Miss Christina Stuart, and subsequently by Miss Nancy Havern. The three pursued their self-sacrificing labors for a time, and were joined by two others, Miss Nellie Morgan and Miss Nancy

Rhodes. A small tract of land was purchased and some rude cabins erected, and soon afterward a sixth young lady, Miss Sally Havern, joined them. They expressed to Father Nerinckx a desire to become nuns and devote themselves to the work of educating young ladies. Their wish met the approbation of Father Nerinckx and the bishop, and they were first made postulants, with a few simple rules for their guidance. On the 25th of April, 1812, the first three postulants—Mary Rhodes, Christina Stuart, and Nancy Havern—took the veil at the Church of St. Charles, near the infant convent, and they were followed on the 29th of June by Ann Rhodes and Sarah Havern. On the same day Sister Ann Rhodes was constituted "Superior of the novices, and of the Society of the Friends of Mary at the Foot of the Cross." On the same day also was commenced the erection of some log buildings for a convent, school, etc., and when these were completed the place received the name of Loretto, in honor of "Our Lady of Loretto," in Italy. Thus originated the order of the Sisters of Loretto, whose labors have been crowned with such eminent success.

In 1823 application was made by the Rev. Joseph Rosatti for a community of the Sisters of Loretto to establish a boarding-school for girls in Perry County, Mo., near the seminary of the Barrens; and in May of that year five of these sisters, under Mother Benedicta Fenwick, arrived at that place and soon opened a school. The sisters of the order subsequently established schools at Ste. Genevieve, Frederickstown, and Cape Girardeau. They have now several flourishing schools in Missouri, and others in many of the Western States and Territories.

During the thirty-six years of its existence the establishment at Florissant has steadily increased in usefulness and importance, and additions have from time to time been made to the buildings as such additions have become necessary, and now the community here numbers thirty-five sisters. As its school has increased better facilities for instruction have been added, till in 1880 it was deemed advisable to erect a new school building. Accordingly, on the 1st of August in that year, the erection of a new academy was commenced, under the supervision of Mother Ann Joseph, then Superior of the convent, but in August, 1882, elected Superior of the order.

The building was completed in 1882, and dedicated on the 8th of September in that year. It is of brick, and covers an area of one hundred and twenty by eighty feet. It is five stories in height, including the basement. The latter has the refectory, the culinary department, a recreation-room for junior scholars, and the heating and lighting apparatus. It, as well

as all the other stories, is traversed each way centrally by corridors ten and twelve feet in width. On the first floor, above the basement, are the study halls, class-rooms, and music-rooms. On the second are the dormitories, oratory, library, and music-rooms. On the third are the exhibition-room, the studio, and the infirmary. On the fourth are the young ladies' wardrobe, the museum, and the astronomical and philosophical apparatus, and on the top is an astronomical observatory. The house is heated by steam, lighted by gas, has water distributed to all parts of it, and, in short, is furnished with all the improvements which modern ingenuity, guided by long experience, has been able to suggest. Two features are particularly noteworthy: the excellent ventilation and the facilities for egress in case of fire. The sisters of the institution planned the building, and its construction was under their supervision. The architect was Mr. Lowery, of St. Louis.

The present Superior is Mother Dafrose.

Novitiate of St. Stanislaus.—As early as 1818 Bishop Dubourg requested the provincial of the Jesuits in Maryland to send some of the order to this part of his diocese, for the purpose of establishing a college and taking charge of and conducting missionary work among the Indians. Circumstances prevented a compliance with his request at that time, but in 1823 it was, at the suggestion of John C. Calhoun, then Secretary of War, renewed and favorably considered. Indeed, at this time the provincial was deliberating about the removal of the novices to another locality, and he readily accepted the offer of Bishop Dubourg to donate a farm near Florissant. Rev. Charles Van Quickenborne, master of novices at the establishment in Maryland, was appointed Superior, Rev. Peter J. Timmermans assistant, and seven novices, six of whom were Belgians, who had come to America with the view of joining the Jesuits and engaging in missionary work among the Indians, were designated to come here. Their names were F. J. Van Assche, P. J. De Smet, J. A. Elet, F. L. Verreydt, P. J. Verhaegen, J. B. Smedts, and J. De Maillet. These, with three lay brothers and some negro servants, started on the 11th of April, 1823. They journeyed overland to Wheeling, sleeping in dwellings or outhouses, and generally cooking their own meals. After a brief delay they embarked on two flat-boats and descended the Ohio River to Shawncetown, a short distance below the mouth of the Wabash. Thence they sent their heavy luggage by steamboat to St. Louis, and crossed the prairies of Southern Illinois with a light wagon, the young men performing the journey on foot. This severe part of their trip was

accomplished in seven days. They arrived at St. Louis May 31st, six weeks from the time of starting. On the 3d of June the last of the party reached their destination at Florissant, and were temporarily the guests of the Sisters of the Sacred Heart, who were already established there.

Rev. Walter H. Hill, S.J., in his "History of St. Louis University," gives the following description of the Florissant valley at this time, and of the home to which these Jesuit Fathers and the novices came :

"Florissant, or St. Ferdinand township, was first settled shortly after St. Louis was founded. At the beginning of this century the fields around the village supplied nearly all the grain purchased in the St. Louis market. Florissant valley was famous from the beginning for its beauty and fertility.

"When this region was under the government of Spain, or before the end of the last century, and till a short time before it was transferred to the United States, Florissant was for a time the home of the Spanish Intendant or Governor. His dwelling, which was constructed of cedar logs planted upright on sleepers, into which they were firmly mortised, was torn down only a few years ago, its timbers being still perfectly sound. Its position was nearly in front of the present church at Florissant, and distant from it little more than a hundred and fifty yards. This house was occupied by the Trappist monks in 1809, who had that year closed their two houses in Kentucky, one in Nelson County, the other in Casey County, and removed to Missouri. In 1810 these monks again moved, this time to Looking-Glass Prairie, on Cahokia Creek, Ill., and settled upon a mound six miles from the present bridge at St. Louis, on the Collinsville plank-road, this mound still bearing the name of 'Monks' Mound.' Sickness and loss by death, together with misfortune caused by fire, compelled the survivors to abandon this malarial district in the spring of 1813, and they then returned to France, whence they had originally come in 1804. Their prior, Rev. Joseph M. Dunand, remained seven years longer in America, or till 1820, residing most of this time at Florissant.

"Father Van Quickenborne and companions took possession of their farm in June, 1823, Mr. O'Neil, magistrate of Florissant, having moved from it for the purpose, kindly ceding his right to retain it longer, although his lease had not expired. The land lying northwest from Florissant slopes gently upward from Cold Water Creek, near the village, till it reaches the highest table of the bluffs overlooking the Missouri River, two and a half miles away. Commencing at the upland, a mile from the river, and declining southeast towards St. Louis, lay the pretty little farm now to be their home, and on one of the highest and most lovely spots of all this scene of rich prairie and rolling woodland stood the humble cabin that was to shelter them. The prospect from this elevated position is both extensive and beautiful, reaching far over the charming valley in which the village is embosomed to the town of St. Charles, on the banks of the Missouri, seven miles distant, and to the white line of rolling cliffs, crowned with trees, that stretch from Alton along the Mississippi River. Throughout this entire Florissant valley the soil is of inexhaustible fertility, rewarding even moderate care and industry with plentiful crops of corn, wheat, timothy, and every variety of garden vegetables suited to the climate. Moreover, it is not only a pleasant district to live in, but it is very healthy, as the numerous instances of longevity among the people there spending their long lives conclusively show.

"The dwelling given up to them by Squire O'Neil was a log cabin, containing one room, which was sixteen by eighteen feet in dimensions, and over it was a loft, but not high enough for a man to stand erect in it, except when directly under the eomb of the roof. This poorly-lighted and ill-ventilated loft or garret was made the dormitory of the seven novices, their beds consisting of panels spread upon the floor. The room below was divided into two by a curtain, one part being used as a chapel and the other serving as a bedroom for Fathers Van Quickenborne and Timmermans. This main room of the cabin had a door on the southeast side or front, a large window on the northwest side, without sash or glass, but closed with a heavy board shutter; on the southwest side it had a small window with a few panes of glass, and, finally, on the northeast side was a notable chimney, with a fireplace having a capacity for logs of eight feet in length. At the distance of about eighty feet to the northeast of this dwelling were two smaller cabins, some eight feet apart, one of which was made to serve both as study hall for the novices and as common dining-room for the community; the other was used as kitchen and for lodging the negroes. These rude structures were covered with rough boards held in place by weight-poles; the floors were 'puncheons,' and the doors were of riven slabs, and their wooden latches were lifted with strings hanging outside."

A portion only of the farm was then under cultivation, though in front of the house there was a bearing orchard. They at once commenced the work of enlarging and adding to their house, performing the labor with their own hands. The timber for these additions and enlargements was cut on an island in the Mississippi River, a short distance above the Charbonnière.

Rev. Father Van Quickenborne became the spiritual director of the community of the Sacred Heart, and the church at Florissant, which was not then finished, was relinquished to him by Rev. Father Delacroix, who had laid the corner-stone on the 19th of February, 1821.

By the withdrawal of two of the lay brothers and the death of Father Timmermans, which occurred in 1824, the number of the community was reduced to nine; but in 1825, Rev. Father De Theux and Mr. O'Connor, from Maryland, were added, and in 1827, James A. Yates and George Miles, of Kentucky, were admitted as novices.

In 1825 a school for Indian boys was opened, under the charge of the novices, and one for girls, in charge of the Sisters of the Sacred Heart. These, in 1827, came to number about fourteen children each.

Of the novices who first came to Florissant, J. B. Smedts and P. J. Verhaegen were ordained priests in 1825, and P. J. De Smet, J. F. Van Assche, J. A. Elet, and F. L. Verreydt in 1827.

The missionary work among the Indians, which these men had come hither to engage in, was then entered on with energy, but a few years sufficed to

demonstrate the fact that the good thus accomplished did not meet the expectations of those who had hoped to be able to Christianize and civilize these indolent savages, and although missionary labor was continued, attention was directed to the promotion of education among the white population of the country.

The following history of the novitiate from 1830 to the present time was written for this work by Rev. Walter H. Hill, S.J., who was a novice at the institution :

"Rev. Charles Van Quickenborne was Superior of the mission and of the novitiate from his arrival in 1823 till Feb. 4, 1831. Rev. Theodore De Theux succeeded him, and was Superior till March 24, 1836. At this last date Father P. J. Verhaegen became Superior, but resided at the St. Louis University, except from the summer of 1837 to the spring of 1838, when he was master of novices at the novitiate. Father De Theux was master of novices *de facto* from 1827 to 1831, and *de jure* from Feb. 4, 1831, till the summer of 1837. Father Judocus F. Van Assche occupied the position from 1838 till 1839, when Father De Vos was made master of novices, filling the office till Oct. 3, 1843. Father De Vos was followed by Rev. J. B. Smedts, who remained in office till July 23, 1849, when he was succeeded by Rev. John Gleizel, who remained till July 3, 1857. Then followed Rev. Isidor Boudreaux, who filled the office till Jan. 17, 1880, when he was succeeded by Rev. Leopold Bushart. July 9, 1882, Rev. Frederick Hageman became master of novices, and he still fills the office, Father Bushart having been made provincial. The master of novices is appointed by the general of the society, and is removable by him, though he is usually not removed before filling a term of three years.

"The farm on which the novitiate is situated was given to Father Van Quickenborne and companions in 1823, and it contained two hundred and thirty acres. Adjoining lands were subsequently purchased, so that it now contains six hundred and fifty-five acres, and besides the institution owns another farm of one hundred and twenty-eight acres two miles distant from it. The land extends from Cold Water Creek to the Missouri River, just above the Charbonnière, a distance of more than two miles. More than half of this land is under cultivation ; it is naturally fertile, is well cared for, and is, perhaps, the best farm in the Florissant valley.

"The original cabins were occupied till the summer of 1849, when all except the "Indian Seminary" were demolished. The Indian Seminary, a frame building, forty feet by thirty feet, was moved on

rollers about eighty feet to the northeast of its former site, and it still stands.

"In 1844 the foundation for a three and a half story stone building was dug; the stones for it were quarried by the lay brothers at Musick's Ferry, seven miles down the Missouri River. This building was not finished till the summer of 1849. I found its walls built to the top of the basement when I reached the novitiate, Feb. 3, 1847. In the spring of 1848 the Creoles of Florissant and the surrounding farms were invited to give one day with their wagons and teams to haul the stone for the building from the quarry; they did so with kindness and hilarity, and a large portion of the stone was placed on the spot in one day.

"The present little mound in the garden at the novitiate, in which the dead are buried, was originally covered with forest-trees. It was cleared and perfected in shape for its present purpose in 1839, when the remains of the few who had previously died were transferred to that spot. There are now eighty-eight graves,—thirty-seven priests, thirty-two lay brothers, and nineteen scholastics. Among the dead there buried are Father Van Quickenborne, founder of the mission; his companions, Fathers De Smet, Verhaegen, Van Assche, etc.; also Father Meurin, who died at Prairie du Rocher in February, 1777; of Bishop Van de Velde, who died in Natchez, Nov. 13, 1855, etc.

"The 'Indian Seminary,' founded by Father Van Quickenborne in 1825, was finally closed in 1830, or the year after the opening of the new college in St. Louis, the St. Louis University. The Indian school had not proved a success, the Indian boys preferring the liberty of a wild life in the woods to the restraints of civilized society; they would make their escape and join their tribes roving over the prairies. When the cholera was at its worst in 1832, the students of the St. Louis University were removed for a time to the Indian Seminary at the novitiate.

"The first novices received at St. Stanislaus Novitiate were William Yates and George Miles, both natives of Kentucky. They entered in 1827. Brother Miles still survives, and is residing at St. Charles, Mo. The first scholastic novices were sent for their probation to the novitiate at White Marsh, Prince George's Co., Md. Those received in 1835 and thenceforth were at the St. Stanislaus Novitiate. The novices received during the first twenty years after the commencement of the novitiate were, with few exceptions, Belgians and Hollanders, many of them being drawn to the United States by the influence of the illustrious missionary, Father De Smet.

"In July, 1834, however, four novices were called to Missouri from White Marsh, in order to begin a novitiate at St. Stanislaus. They were Revs. John Schoenmakers and Cornelius Wathis, who were priests, and Revs. J. B. Druyts and J. B. Duerinck, not yet ordained priests; they were all Belgians. Rev. Mr. Schoenmakers, aged seventy-six years, still survives, and he lives at the Osage Mission, Kan., which he founded in 1847. At a later period, and especially after the death of Father De Smet, which took place May 23, 1873, most of the novices were sons of German and Irish parents, but born in the United States. Among the novices was one who was the descendant of a distinguished Delaware chief, the eloquent Father Bushart, now of San Francisco. A small number of Anglo-Americans from Maryland, Virginia, Kentucky, Ohio, Missouri, etc., were novices here at different periods.

"The novitiate has no endowment, and no source of regular income except its excellent farm. It has received donations of money from Belgium. Mainly through the influence of Father De Smet, a gift of thirty thousand dollars in 1869 enabled the institution to erect a large three-story brick building, the foundation of which was dug in 1871, but the cornerstone of which was not laid till July 31, 1873. This additional building was finished in 1874, and the novices moved into it July 2d of that year. It is parallel to the stone building, about sixty feet from it, and the two are connected by a covered bridgeway which stands on pillars and joins the second stories.

"The novitiate was incorporated in accordance with a general law in 1870, under the name and title of 'the St. Stanislaus Seminary.' It is subject to the provincial of 'the Missouri province,' as are all the institutions and residences of the same province. The provincial resides ordinarily at the St. Louis University, and the Missouri province includes institutions in Missouri, Chicago, Cincinnati, Detroit, Milwaukee, and in the States of Kansas and Nebraska. There are in the Missouri province seven colleges for superior education, having not less than fifteen hundred students in actual attendance. The novitiate is the mother-house of all these establishments, but by a misnomer the St. Louis University is often styled the mother-house, because the provincial resides there."

Town of Bridgeton.¹—Bridgeton is a small town fifteen miles northwest from the court-house in the city of St. Louis. It was incorporated as a town by an act of the Legislature in 1843. The present board of trustees consists of Walter B. Morris, John L.

Martin, Patrick O'Malley, George H. W. Heidorn, Thomas J. Baber, and David V. Baber. W. B. Morris, chairman; David V. Baber, secretary; and George H. W. Heidorn, treasurer. John A. Martin, not a member of the board, is collector of revenue.

The town has four churches,—a Catholic, a Methodist Episcopal Church South, a Colored Methodist, and a Colored Baptist. There is also the Bridgeton Academy, the board of trustees of which consists of nine members, six chosen from the town and three from the commons, both town and commons being embraced in the district. There is also a colored school, which is a branch of the academy and is under the control of the board of trustees. There are also in the town one general store, one grocery-store, one saloon, one blacksmith-shop, one wagon-shop, and one hotel. The population of the town was in 1880 one hundred and sixty-seven.

Bridgeton is an old place. It was settled at about the same time St. Louis was founded, and was first peopled by French and Spanish settlers. For defense against the Indians there was here in early times a fort, of which William Owens was the commanding officer, and from him the place was called Owens' Station till the time of its incorporation. Among the French of this region it was known in early times as "Ville de Roberts," and as "Marais des Léards," from a marsh in its vicinity. The original survey of the town was made in 1786 by a Frenchman named St. Germain.

The commons of Bridgeton consist of one thousand acres, granted to the town by the Spanish government, and confirmed by the act of Congress of 1812. In 1852 these were leased to individuals for the term of nine hundred and ninety-nine years, at rents varying from ten to twenty-five cents per acre.

BRIDGETON ACADEMY.—In 1864 the Bridgeton Academy was incorporated by an act of the Legislature. The district of this institution includes the town and the commons, the revenues from which are appropriated to the support of the school, which is free to all scholars residing within the district. The first school-house was a church building, erected by the Episcopalians, and sold by them to the board of trustees. This was exchanged for the house of worship of the Methodist Episcopal Society, which is now the academy. A colored school is kept as a branch of this academy.

BRIDGETON LODGE, No. 8, F. AND A. M.—This lodge was organized under a dispensation in 1845. It received its charter Oct. 14, 1846, with James McClure, W. M.; Benjamin B. Edmondson, S. W.; and Henry Cole, J. W. The lodge first held its

¹ General history of Bridgeton by D. V. Baber.

meetings in the house of James McClure, but in 1849 the present lodge-room on Main Street was fitted up.

The Worshipful Masters since James McClure have been Benjamin B. Edmondson, R. T. Edmondson, George R. Moke, J. H. Garret, R. E. Bland, D. L. Bassett, C. L. Young, T. T. Craig, and the present Master, J. H. Garrett. The Senior Warden is S. W. Henley; Junior Warden, D. V. Baber; Secretary, Jefferson Van Gundy; Treasurer, John D. Parsons. The lodge has enjoyed uniform prosperity from the time of its organization. The present membership is thirty-three.

ST. MARY'S CHURCH (CATHOLIC).—Mass was first celebrated in Bridgeton by the Jesuit Father J. L. Gleizel, in 1851, in the house of Dr. Moore, now owned by Judge Henderson. In 1852 a mission was established and attended by the following priests: Revs. Dennis Kennedy, 1852; James Murphy, 1856; Park Brady, 1858; Thomas Clary, 1862; L. Smith, 1864; J. B. Jackson, 1865; B. Messelis, S.J., 1867; P. J. Clark, 1868; M. Welby, 1869; Patrick Healy, 1871; E. Smith, 1873; James Dougherty, 1874; F. P. Gallagher, 1876; J. D. Powers, 1877; Jos. Schroeder, the present pastor, 1878. The church edifice was erected by Father Gleizel in 1852. It is a brick structure, fifty by forty-four feet in size. A parsonage was erected near it in 1868 by Rev. Father Messelis. The cemetery adjoins the church.

BRIDGETON METHODIST EPISCOPAL CHURCH SOUTH.—It is not known that there was any society of Methodists here prior to 1842, though there were members of that denomination residing here. At about that time a society was organized, and it worshiped at first in the old school-house on the commons. In 1844 a brick church edifice, forty by sixty feet in size, was erected, and in 1855 this was exchanged for the old Episcopal Church, which had been purchased for school purposes. This is a brick building, with a seating capacity of two hundred and fifty. The society has no debt. This was a charge on a circuit till 1872, when it was made a station. Since that time the following clergymen have been in charge here: Revs. F. A. Morris, 1872; J. R. Frazier, 1876; B. R. Thrower, 1878; F. A. Morris, 1878; Joseph Dines, 1881; and the present pastor, W. H. Hensley, 1882.

ST. JOHN'S BAPTIST CHURCH (COLORED).—This society was organized in 1870, with forty members and Rev. William Dorsch, pastor. Mr. Dorsch was succeeded in the pastorate in 1873 by Rev. James W. Powell, who left in 1875, since which time the society has been without a pastor. The present

membership is forty-two. In 1873 a framed church edifice, with a seating capacity of two hundred, was erected. The church has no debt.

METHODIST EPISCOPAL CHURCH (COLORED) OF BRIDGETON.—This was organized in 1874. The first place of worship was the Ferguson school-house, on the St. Charles Rock road; then the house of J. H. Woolfolk, in Bridgeton. In 1882 a wooden house of worship, twenty-six by thirty-six feet in size, was erected in Bridgeton. The pastors have been Revs. J. H. Woolfolk, 1874; W. E. Wilson, 1878; A. Coleman, 1880; C. M. Keeton, 1881; and the present pastor, B. Pullum, 1882. The membership is twenty, and the church has no debt.

Pattonville.—This village is located on the St. Charles Rock road at its junction with the Fee-Fee road, fourteen miles from St. Louis. A post-office had been in existence here under the name of Fee-Fee, which is said by some to be a French corruption of the word *fife*, which was the original name of Fee-Fee Creek. No village existed here prior to 1869. A blacksmith-shop was started by T. T. Lucas in 1860. In 1866 this shop was converted into a carriage manufactory, and in 1869 a church and store were built, and within a year another church was erected. These buildings, with a few residences, comprise the present village. A post-office was established in 1876. It was named Pattonville, from a family by the name of Patton that resided here. In 1879 a fine school building was erected near the village, in which an excellent school is maintained.

The Lucas carriage-factory at Pattonville was first a small blacksmith-shop, started by Thomas T. Lucas in 1860. In 1865 this shop was removed and enlarged, and the manufacture of carriages, at first on a small scale, was commenced. From that time to the present the business has steadily increased, till now sixty vehicles of all kinds are annually made. In 1879 the manufacture of sulky plows was added to the business, and since that time two hundred of these have been turned out from the establishment.

MIZPAH PRESBYTERIAN CHURCH, at Pattonville, was organized Nov. 20, 1842. The original constituent members were James Patton, Agnes Patton, George Patton, James Quinsenburg, George L. Lackland, Eliza E. Lackland, Ann Lackland, Jacob Brown, Ellen B. Brown, Joseph Brown, and Sarah McClure.

The place of worship during nearly thirty years was the old Fee-Fee Baptist Church, half a mile from Pattonville. In 1869 the name of the society was changed to its present designation. The present house of worship at Pattonville was erected in 1870. It is a brick structure with a stone basement, and it covers

an area of fifty-five by thirty-eight feet. In 1870 a parsonage was erected near the church. Ten acres of ground are included in the lot on which these buildings stand, and the cost of the property was ten thousand dollars. The society has no debt.

The pastors of this church have been Revs. R. Finley, 1843; John Lyon, 1847; — Beebe, 1848; — Pettigrew, 1849; H. A. Booth, 1850; — Noble, 1857; T. C. Smith, 1860; W. J. Lapsley, 1868; Alfred E. Grover, 1876; William M. Stratton, 1878; and the present pastor, T. C. Barrett, 1880.

Ferguson.—Ferguson Station is at the junction of the Wabash, St. Louis and Pacific Railroad with a branch running to Union Depot, St. Louis. The place had little importance previous to 1878, but at about that time a rapid growth commenced, and now it contains about sixty families. It has a post-office, a hotel, two stores, three machine-shops, and two churches. The population is largely composed of railroad employes and their families, who find here a convenient and pleasant place of residence. By reason of the absence of marshes in the vicinity and the excellent quality of the water, the village is remarkably healthy.

ST. JOHN'S CHURCH.—Of the churches in Ferguson, St. John's (Catholic) is now (1882) in process of erection. It will be a neat wooden structure, with a seating capacity of three hundred and fifty. Rev. Father D. S. Phelan is the pastor.

PRESBYTERIAN CHURCH.—The Presbyterian Church at Ferguson Station was erected about 1873. It is a tasteful frame edifice, with a seating capacity of between three and four hundred. The society has been supplied by different clergymen, and with commendable liberality it has opened the doors of its house of worship to other denominations.

PUBLIC SCHOOL.—In 1877-78 a brick building was erected for a public school. It has two school-rooms on the first floor, and in the second story a hall, which is to be divided into school-rooms as future exigencies require. The cost of the building was fifty-six thousand dollars. A Kindergarten school is also kept in the village.

The place has one physician and three attorneys, one of whom, T. G. Allen, is a State senator, and another, C. P. Ellerby, is a member of the House of Representatives in the State.

In 1882 a cheese-factory was erected in the village, with all the latest improved machinery and appliances for establishments of that kind. It has facilities for handling three thousand gallons of milk daily, and for cooling the milk it has an ice-machine with a daily capacity of three tons of ice.

It is the property of a stock company, with J. C. Cabanné manager. This company has adopted the plan of furnishing farmers in the vicinity with cows on conditions arranged between the parties.

Black Jack, about three miles east from Florissant, is a hamlet containing two stores and two mechanics' shops. It has a post-office, and is in a fine farming region. It was named from the abundance of the species of oak known in common parlance as "black jack" which grows there.

Brotherton was formerly a small village on the bank of the Missouri River, opposite to St. Charles. It was named from Marshall Brotherton, who owned the land and established a ferry there between St. Charles and the terminus of the St. Charles Rock road. The river has so encroached on the land that the little village has nearly disappeared.

Boufils is a post office on the Wabash and Kansas City Railroad, sixteen miles from St. Louis.

BONHOMME TOWNSHIP.

The township of Bonhomme lies between St. Ferdinand, Central, and Carondelet townships on the east and Meramec on the west. The Missouri River forms its extreme northern boundary, and it joins Jefferson County on the south. Its greatest length between north and south is sixteen miles, and it has an average width of eight and one-half miles, and it includes an area of about one hundred and twenty square miles.

Its surface is rolling, but while it is more uneven than that of the townships lying east of it, it is less hilly than that of Meramec on the west. A watershed divides it between north and south, passing through nearly its central portion. Its northern part is drained by Crève Cœur Creek, the waters of which pass through the lake of the same name, to empty into the Missouri River. Meramec River pursues a tortuous course through the southern part of the township, and receives affluents on both sides. Crève Cœur Lake is in the northern part, about one mile from the Missouri River. This lake has a length of between two and three miles, and an average width of about half a mile. A short distance west from this is a smaller body of water known as Upper Crève Cœur Lake, connected with its larger neighbor by a small stream. The origin of the name of this lake, like that of the township, is involved in uncertainty. Many legends have been written or told concerning both, but all these bear such unmistakable evidences that imagination rather than reality was a prominent factor in their production that even their partial acceptance must be with many grains of allowance.

Elsewhere an account is given of the improvements that have recently been made at this lake, and the prediction is safe that this will become an important point in the not distant future.

The township is traversed by several highways, which pass through it from west to east, and converge toward the city of St. Louis. The Central or Olive Street road passes westwardly through the northern part of the township, and unites near its western boundary with the Conway road, which comes from St. Louis and traverses the township farther south. Through the central portion passes the Manchester road, which is the principal avenue of travel and transportation for the people living some distance north and south from it. The Clayton road passes through the township between the Manchester and Conway roads, and unites with the latter in Central township. The Gravois road crosses the southeastern corner of the township. These are rock roads, and are the avenues of transportation to market for the produce that is raised in the township.

The Missouri Pacific Railroad crosses the southern portion of the township, running for some distance nearly parallel with the Meramec River. This is of course the great avenue of communication between that part of the township and St. Louis.

The early settlers in the northern portion of the township were Joseph Conway, who was scalped by the Indians in Kentucky during the Revolution, but who recovered, migrated to this township, and was the progenitor of the Conway family here; James Kincaid, Jonathan Wiseman, — Smith, Greene B. Baxter, — Hempstead, — Hibler, — Cordell, Frederick Bates, afterwards Governor of the State; — Lanham, John Ball, Henry Mason, one of the first magistrates; William Bacon, William Hannah, and others whose names cannot be recalled.

In the southern part were — Eoff, George and Robert King, John Hardecker, James Richardson, Archibald Harbison, Thomas Keebly, Nathan Shotwell, Thomas Williams, George Sipp, Caleb Bowles, — Rudder, — Longwith, Samuel T. Vandover, John McLaughlin, Jabez Ferris, Peter Breen, — Kuntz, Samuel Stowey, Richard Low, — Jones, and others. These early settlers were mostly immigrants from Kentucky and Virginia. At the time they settled here the township was principally prairie, and the wild denizens of the region abounded. All these people, as they slept in their cabins, were serenaded by the wolves, and their corn-fields and pig-pens were often invaded by bears. The wants of these early inhabitants were not as numerous as those of people in later times, and the abundant resources of

the fertile soil readily supplied the few which they felt, and they were contented and happy. The population of the township was in 1850, 1842; 1860, 3629; 1870, 6162; 1880, 7043.

The pioneer mills in the township were what were known as horse mills. They were introduced at a very early date, and took the place of the primitive mortars for grinding corn. They were established in various parts of the township, and it was not till a comparatively recent period that steam-mills took their place. A short distance from Fenton a steam grist-mill was erected by William Head about 1854. It existed only a few years. In 1852, Smizer's grist-mill and distillery was erected on the Meramec River, a mile south from Meramec Station. This establishment ceased to be operated twenty years since, and the building has been converted into a barn.

At Meramec Station, on the Missouri Pacific Railroad, is located the Meramec Mill. This was first built in 1874 by G. H. Timmerman, with two run of stones, one for flour and one for corn. It was both a custom and a merchant mill, and another run of stones was soon added. C. F. Leonard afterward purchased the mill, and added to it another run of stones for grinding wheat. In June, 1881, H. B. Eggers purchased the establishment, and added to its former machinery seven sets of rollers, with other machinery, for the manufacture of roller flour. The machinery is driven by an engine of eighty horsepower, and the daily capacity of the mill is two hundred barrels of flour. It is wholly a merchant mill. A cooperage is attached to it, and eighteen hands are employed at the establishment. An elevator is in process of construction, and this, when completed, will have a capacity of thirty thousand bushels.

Bonhomme Presbyterian Church.—Bonhomme Church was organized by Rev. S. Giddings, Oct. 16, 1816, with sixteen members. It was the second Presbyterian Church that was established west of the Mississippi River, Concord (Bellevue) Church having been organized on the 3d of the preceding August.

During ten years the church had a hard struggle for existence. Its membership in 1825 was fourteen, and in 1827 it was dissolved and its members united with the church at St. Louis. It was reorganized, with ten members, by Rev. John S. Ball, Nov. 5, 1828, and in 1831 the membership had increased to fifteen.

The records of the church were burned some years since, but it is remembered that during many years it owned no house of worship, and that its services were held in private residences and school-houses. The present church edifice, which stands at the junc-

tion of the Conway and White roads, eighteen miles from St. Louis, was erected about 1840 by Messrs. James Sappington and John Baxter, under the superintendence of Judge Joseph Conway. It is a stone building with a basement, and its size is thirty by forty-four feet. Services have been regularly held in this building since its erection.

The first clergyman who ministered to this church was Mr. Giddings, who visited it from St. Louis from time to time. Soon after its reorganization in 1828, a young licentiate named Hodges was engaged to preach to the congregation for a year, but he died before the expiration of that time. The next preacher was Rev. John Gilbreath, under whose ministrations the church grew and prospered during a number of years. He was followed by a Mr. Beebe, who remained but a short time. Next came Rev. John Lyon, a native of Philadelphia, and a young man of great promise, but his health soon failed, and he was taken by his friends to the place of his nativity, where he soon afterwards died. He was succeeded by Rev. R. P. Farris, of St. Louis, a talented preacher and an able writer. Revs. Henry A. Booth, William H. Parks, A. Shotwell, and James A. Smith followed in order. The present membership of the church is fifty.

Evangelical Lutheran St. John's Church is located at Ellisville, a hamlet on the Manchester road, in the western part of Bonhomme township. It was organized in 1852 with only a few constituent members, and services were first held at Ballwin in private houses. In 1854 a small log church was built a mile and a half southwest from Ballwin, and in this the society worshiped during seventeen years. In 1871 a brick church edifice, thirty by fifty feet, was erected on the south side of the Manchester road at Ellisville. The building cost four thousand three hundred dollars, and it is not encumbered with a debt. In 1872 a brick parsonage was built at a cost of eleven hundred dollars. A parochial school building was erected near the church in 1878. A parochial school had been maintained during fifteen years prior to the erection of this building, and in this school instruction has been given in the German and English languages, and now forty scholars on an average are taught in it.

The clergymen who have served this congregation have been, in succession, Revs. J. A. F. Mueller, — Lehmann, F. P. Pennekamp, Theodore Burzin, August Schnessler, and the present pastor, E. T. Richter. The membership is fifty.

St. Monica's Church (Catholic) at Crève Cœur was erected and the parish organized in 1872, and mass was first celebrated on Christmas of that year.

The parish was founded and the church erected by Rev. H. Muhlsiepen, vicar-general. The church edifice is a neat brick structure, with a seating capacity of one hundred and twenty, and its cost was two thousand five hundred dollars. In 1873 the Franciscan Fathers took charge of the parish, and continued till 1881, when Rev. Joseph Diel became resident pastor. In June of the same year Rev. H. S. Aertler, the present pastor, assumed charge. The parsonage was erected in the autumn of 1881, at a cost of two thousand dollars. A parochial school was established in 1873, and a brick school building was erected near the church. In this a school has ever since been maintained, and the average attendance is forty. Instruction is given in both the German and English languages. The congregation consists of sixty-five families.

Christian Church of Crève Cœur.—A society of this denomination was organized in the vicinity of Crève Cœur in 1875, with twenty members. It has built no house of worship, but has held services in the Crève Cœur school-house. The pastors of the society have been Revs. J. H. Garrison, 1875; J. H. Stuart, 1878; and the present pastor, J. H. Owen, 1880.

Manchester¹ was settled very early in the present century, but for many years it was only a small village. The first settler in the town was an Indian named Bryson O'Hara, who built a cabin at Manchester Spring, and resided there several years, subsisting by hunting, making ox-bows, ox-yokes, etc. The place was first called Hoardstown, from Jesse Hoard, who came quite early from Kentucky and located on the corner of the Manchester road and Crève Cœur Street. The place was called by that name till about 1825, when it began to be spoken of by its present title. An Englishman who settled there about that time christened it Manchester, from the place of his residence in England, and it gradually came to be thus designated by every one. A store was established there at an early date by — Douglass, on the north side of the rock road, a short distance east from Crève Cœur Street, in a log building, which was at the same time a store and a residence. By the side of this store was a blacksmith-shop, which was carried on by William Triplet, who came here in 1816 or 1817 from Kentucky. He was a blacksmith in Manchester till his death, and was an active, influential citizen.

Caleb Carman came from Kentucky to Manchester in 1818, and established a saddlery and harness-shop, where he conducted the business during many years.

¹ Data for early history furnished by John Shotwell.

He was an excellent mechanic, and to the manufacture of saddles and harnesses he afterwards added the business of carriage trimmings.

About one hundred yards east from Crève Cœur Street, on the south side of the rock road, Isaac McFadden established a shoe-shop in 1818 in a log house, which was also a dwelling. He was the only shoemaker in Manchester during many years. He died at the house of John Shotwell in 1856.

Samuel Hindman came from Kentucky and set up a tannery. This tannery came to be the property of Robert Buchanan and Henry Rollins, who carried on tanning extensively, and in connection with it the manufacture of boots and shoes. At times they employed as many as twelve men in the business. The tannery ceased to be operated in 1860.

Between Carman's saddlery and Triplet's blacksmith-shop Starks Cockrill resided in a log house, a portion of which is still standing, and kept a house of entertainment for travelers. This was the first tavern in Manchester.

Samuel Berry, also a Kentuckian, and, as well as the others, from May's Lick, Mason Co., in that State, carried on the manufacture of brick as early as 1822. His yard was on the south side of the rock road, east from Crève Cœur Street. He not only moulded and burned bricks, but was a bricklayer, and built most of the chimneys that were erected in this vicinity during many years.

In 1820 a carding-machine was brought from Kentucky by James Neale and put in a log building that was erected for the purpose in the rear of Mr. Triplet's house, which stood in the rear of his blacksmith-shop. This machine was propelled by an inclined wheel that was turned by the weight of horses. It was used till 1839, when the building was converted into a church.

Martin Shelton resided in the house that was built by Mr. Hoard, and followed the business of teaming. In those days, and for many years afterwards, all the goods that were sold in Manchester and other places that sprang up in its vicinity were brought by teams of horses or oxen from St. Louis over what is now the Manchester Rock road, and produce was conveyed to market in the same manner. Mr. Shelton followed this business, which would now be called freighting, during many years.

In addition to these an old man named Kuntz and his wife resided here in 1826, and these constituted the sum total of the families in the place at that time. This Mr. Kuntz was from Pennsylvania, and had located at what is now Meramec Station many years before, and carried on a distillery there.

In 1830, — Burns established the first tailor's shop in Manchester. His shop was a log building near Cockrill's log tavern, on the same side of the street. These were the pioneers in the different kinds of business in the town. Its growth was during many years slow; as the country around it became settled it had a gradual increase, but in 1880 its population numbered only three hundred and six.

The first frame building in Manchester was erected in 1830 by James Robinson for a hotel, and it was kept as such during many years. It is now known as the "Old Hotel," and stands on the south side of the road, east from Crève Cœur Street.

No great manufacturing industry ever sprang up in this place, and there has been only a local trade to make it a town. The travel that formerly passed through the town has since the Missouri Pacific Railroad went into operation been diverted from this route, and only local travel passes through it now.

In 1850 a brewery was established in Manchester by a Mr. Spoeri. It was located on the south side of the road, at the corner of Church Street. It was conducted a few years by Mr. Spoeri, and then purchased by a Mr. Hoek. After the death of Mr. Hoek the establishment was idle for a time, and was then started by Tobias Fisher. He was succeeded by F. Heim & Co., who purchased the property and conducted the business during two years, at the end of which they were succeeded by Michael Hollocker. He sold the establishment in 1866 to F. Smith, who carried on the business till 1867, when the building was destroyed by fire. It was immediately rebuilt, smaller, and the business was conducted by Mr. Smith till 1870, when it was again burned, and was never rebuilt.

A saw-mill was erected on the present site of the Monitor Flouring-Mill in 1855 by Frederick Barton. It was not long used as a saw-mill, but additions were made to it and it was converted into a grist-mill the next year. About ten years later it was burned, and another and larger mill was erected in its place by Jacob Schriener. This was a merchant mill, and had four run of stones. It was burned, and was succeeded by the Monitor Roller-Mill, which was erected by John Gregg in 1881 on the site of the mill that was burned. It is a frame building, thirty-two by sixty feet in size and three stories in height above the basement. It has three run of stones and six sets of rollers, and its capacity is one hundred and fifty barrels of flour in twenty-four hours. The machinery is propelled by an engine of sixty-five horse-power. It is wholly a merchant mill, and about one-half the flour manufactured in it is sold in the surrounding country.

The balance is sent to St. Louis. A cooperage is attached to the mill, and the total number of hands employed in the establishment is eight.

Manchester now has two general stores, two groceries, one variety store, one drug-store, one flour and feed store, one boot and shoe store, one hotel, three blacksmith-shops, two tin-shops, one tailor-shop, three shoe-shops, two wagon-shops, one cabinet-shop, one meat-market, and one physician.

METHODIST EPISCOPAL CHURCH SOUTH.—In the absence of any records of an earlier date than 1867, it is not possible to learn the early history of this society. It is known that services by Methodist clergymen were held at a very early date in private houses and barns, before a school-house was erected in this vicinity. A society was formed long since, and preaching was supplied by circuit preachers. This has at times been a station and again a charge on a circuit as changing circumstances have required. A house of worship for this society was first fitted up in 1827, when John Ball purchased a building that had been used for a carding-machine, and seats and a gallery were arranged in it. It was used as a church till 1839, when it was sold to Mr. Triplet, and by him converted into a barn. In that year a small framed church was erected near the site of the present house of worship of the society. It was used till 1859, when the present edifice was built. It is of brick with a stone basement, and is forty by sixty feet in size. It is pleasantly located on an elevation a short distance from the Manchester road.

ST. MALACHY'S CATHOLIC CHURCH was organized in 1839 with only a few members. During many years it was visited by priests from the Cathedral at St. Louis, and afterwards from St. Peter's Church at Gravois (Kirkwood). Among those who ministered to this congregation may be named Revs. Jacob Meller and H. Van der Senden. In 1869, Rev. H. V. Kalmer was appointed parish priest, followed by Revs. James Becker, 1874; A. Mayer, 1875 (died); P. Bonaventura, O.S.F., and P. Matthias, O.S.F., 1875; H. V. Kalmer, 1876; J. F. M. Diel, 1881.

The present church building was erected in 1851. In 1869 a parsonage was purchased for twelve hundred dollars, and the next year an organ was procured at a cost of six hundred dollars, and a lot for a cemetery was bought for eight hundred and twenty-five dollars.

A parochial school has been maintained by this congregation since 1851, first in the church, then in a room in the pastor's residence, and in 1871 a building for the purpose was erected. The present teacher is J. H. L. Kothhoff.

ST. JOHANNES' EVANGELICAL LUTHERAN CHURCH was organized in 1867 with fifteen members. The first place of worship was a dwelling-house that was purchased and fitted up for the purpose on the site of the present church, a short distance from the rock road. In 1869 the present church edifice was erected at an expense of two thousand dollars. It is a tasteful wooden structure, thirty by fifty feet in size. A parsonage near the church was built in 1871 at a cost of five hundred dollars. The present membership is thirty-two. The pastors have been Revs. Frederick Koeving, 1867; Armen Hauf, 1869; — Ries, 1869; William Stoeffler, 1871; and the present pastor, Frederick Schmidt, 1878.

MAENNERCHOR AND OTHER SOCIETIES.—At a picnic held on the 4th of July, 1880, by the German population of Manchester, the subject of forming a singing society was agitated, and as a result a meeting for the purpose was held on the 8th of the same month, at which the Maennerchor was organized by the adoption of a constitution and the election of the following officers: William Schroeder, president; Charles Schroeder, vice-president; William Kruse, treasurer; and Henry Seibel, secretary. The object of the society, as set forth in its constitution, was "the cultivation of vocal music and a refined social intercourse among its members."

For the want of a better place the society met during a year and a half in a room over a blacksmith's shop. In 1881 a Saenger Hall, thirty-six by fifty feet in size, was erected, finished in appropriate style, and dedicated on Christmas-day of that year.

The society was incorporated on the 14th of February, 1882, and it has since, as well as before, been highly prosperous, and an addition to the hall has become necessary. It was the pioneer institution of the kind in the county of St. Louis. The present number of members is seventy-four. The presidents of the society have been William Schroeder, Charles Schroeder, and the present incumbent of the office, Henry Steffen. The musical directors have been Caspar Roesslein and the present director, H. W. Dreyer.

On the 4th of July, 1882, the society was presented by the ladies of Manchester with a silk banner, the cost of which was one hundred dollars.

Bonhomme Lodge, No. 45, F. and A. M., was organized in the early part of 1841, with Peter Kincaid, W. M.; A. C. Tindal, S. W.; Lewis Dozier, J. W.; I. F. Hale, Sec.; William Bassett, Treas.; Frederic L. Billon, S. D.; Vespian Ellis, J. D.; and Caleb Carman, Tyler.

The first lodge-room was in the old hotel that was

built in 1830. The Past Worshipful Masters have been, in succession, Peter Kincaid, Dr. William Basset, I. F. Hale, H. H. Duval, John Shotwell, Dr. A. B. Barbee, W. D. Clayton, Vincent Henderson, Dr. James H. Hall, Thomas Ennis, James M. Brewer, John H. Brewer, Charles McQuerry, and Dr. G. W. Wyatt.

The present officers are Kennett Shotwell, W. M.; Dr. Clay Wyatt, S. W.; James M. Brewer, Sec.; John D. Woody, Treas.; John H. Brewer, Tyler. The lodge has been prosperous from the first.

Manchester Lodge, No. 435, K. of H., was instituted Jan. 29, 1877, with ten members. The first officers were George Straszer, P. D.; James M. Brewer, D.; William Overbeck, V. D.; C. H. Corbin, A. D.; R. Padensteeher, R.; R. M. Higgins, F. R. The P. D.'s have been, in succession, J. Brewer, R. M. Higgins, Henry Dietrich, George Straszer, Jacob S. Gates, Jacob Esehenbrenner, J. H. Schaberg, and William Overbeck. The present officers are J. H. Schaberg, P. D.; William Overbeck, D.; Jacob S. Gates, V. D.; Henry Seibel, A. D.; George Straszer, R.; Henry Dietrich, F. R. The lodge has a membership of thirty-eight, and has a surplus of two hundred dollars in its treasury.

St. George's Branch, No. 24, of the Catholic Knights of America, was organized June 5, 1882, with thirteen members. The officers are Victor Nichols, president; S. J. Clark, vice-president; William Kurtenbaek, secretary; and Bernard Schuh, treasurer. It is a life insurance and general aid society.

Ballwin is a town of three hundred inhabitants on the Manchester road, twenty miles west from St. Louis. It derived its name from John Ball, who in 1804 came here and located a farm where the village now is. In 1837 he laid out the town in blocks, each two hundred and nine feet square, and consisting of four lots. One of these blocks was relinquished to the town for a Methodist Episcopal Church, and another adjoining it for a burial-ground. The lots thus laid out were sold as they were required by those who came to make the town their residence, but the early growth of the place was not rapid. Ten years after it was founded there was a store here, kept by Thomas Nichols, also a tavern by John C. Hartman, and a blacksmith-shop, carried on by Henry Harman. At that time there were twelve dwellings in the town. Since then its growth has been gradual and steady till it has reached its present size. An addition to the town of nine blocks has been made, and all have been sold. There are now here four general stores, two hotels, a saddler, two shoemakers, a cabinet-maker, and two blacksmiths.

In 1849, Frederiek Schelp established at Ballwin a manufactory of wagons and agricultural implements in a small way. The business gradually increased till 1854, when the establishment was burned. It was immediately rebuilt on a larger scale and the business continued.

In 1873 a new and larger shop was rebuilt in place of this, which was demolished. Since that time facilities have been added as the business has increased, till nine hands are constantly employed. The manufacture of light carriages has been added to the business, for the supply of the home market and for shipping. Since 1881 the business has been conducted by the firm of F. Schelp & Sons.

METHODIST EPISCOPAL CHURCH.—A Methodist Episcopal Society was first organized here in 1846, consisting of twelve members. The first place of worship was a small log building erected by Mr. Ball for church and school purposes. In 1855 a frame church building, twenty-four by thirty feet, was erected at a cost of one thousand dollars. This was used till 1870, when it was converted into a public school-house, and the present tasteful brick edifice was erected. This stands on the Main Street of the town, is thirty-five by fifty-five feet in size, and cost four thousand five hundred dollars. The society owes no debt.

The pastors who have served this society have been Revs. H. Hahman, 1846; John Keck, 1848; John Hoebner, 1849; H. Ellerbeck, 1850; C. Hoeek, 1851; W. Bollert, 1853; H. Toelle, 1854; C. Bonn, 1855; H. W. Schmidt, 1857; W. Koenicke, 1858; W. Floreth, 1860; G. Boeseng, 1862; John Roelle, 1864; Henry Meyer, 1867; U. Roeder, 1868; W. Schwind, 1871; C. Ska, 1873; J. M. Dewein, 1874; H. Pfaff, 1877; W. Schwind, 1879; Th. Hehner, 1881. The membership is eighty-one.

MISSIONARY BAPTIST CHURCH (COLORED) of Ballwin was organized about thirty-five years since. In the absence of records but little can be learned of its history. It has a framed house of worship, and about twenty members. The pastors that are remembered were Revs. Emmanuel Cartwright, Willis Stafford, and Tinley Lucas.

ST. MATTHEW'S LODGE, F. AND A. M. (Colored), was organized in June, 1881, with Moses G. Mass, W. M.; Samuel Taggart, S. W.; and Frank Darby, J. W., and five members. It has now sixteen members, and James Powell is W. M.; Frank Darby, S. W., and Thomas Salerne, J. W.

Fenton.—The town of Fenton was laid out early in the present century by William Long, and was named in honor of the female branch of his family.

During many years it had very little the appearance of a village; no more than two families resided there till 1838. In that year a store and a saw-mill were erected at this place by James Hibbert, and in 1842, Samuel T. Vandover and David Sigler established small stores (Mr. Hibbert having removed) in log buildings, neither of which is now standing. At about the same time when Mr. Vandover opened his store he started the first blacksmith-shop here, and during many years the village consisted of no more than six families. In 1833, Mr. Vandover, Caleb Bowles, Samuel Rudder, and several other residents of the vicinity established a private ferry over the Meramec River, on the south side of which the town is located, and in 1835, Jabez Ferris established at this point the first public ferry, which he conducted till his death in 1848, after which Mr. Vandover and Mr. Bowles carried it on till the erection of the bridge over the river here. This bridge was built in 1854-55 by a company that was chartered by the Legislature. Of this company Samuel T. Vandover was the first president, followed in 1862 by Isaac Sullens. The bridge was built by J. C. Hall, contractor, and its cost was nineteen thousand dollars. By a provision in the charter the county might at any time become the owner of this bridge by paying for the stock held by individuals. This was done in 1874, and the bridge became free. It is a wooden Howe-truss bridge, built on piers, and it has a length of four hundred and eighty feet. This bridge affords a crossing for the Gravois road, which connects Fenton directly with St. Louis. The town has grown to its present size (about one hundred and fifty inhabitants) within the last twelve years. In 1882 a fire occurred which consumed four buildings in the centre of the town.

Fenton was incorporated Dec. 28, 1874. The first board of trustees was composed of Jacob Fritschle, James M. Bowles, Charles Williams, Henry Temper, and E. J. Thurman. The presidents of the board have been Jacob Fritschle, 1874; E. J. Thurman, 1876; Henry Temper, 1877; John Desalme, 1879; Henry Temper, 1880; John Desalme, 1882. The clerks of the board have been James M. Bowles, 1874; Anthony Roberts, 1876; and Frederick Weh-meyer, 1879. The town has two stores, one hotel, one drug-store, one wagon-shop, one blacksmith-shop, one shoe-shop, and two physicians.

Many years since a saw-mill was built at Fenton. On the foundation of this, in 1872, James Halpine erected a corn- and flour-mill, and this he sold to Henry Temper in 1875. On the site of this Mr. Temper in 1878 erected the present Fenton Flouring-

Mill. It is a frame building, forty-two by twenty-four feet, besides the stone engine-house which ad-joins it. It has three run of stones and a set of rollers, and the machinery is driven by an engine of fifty horse-power. It is a merchant mill, and the flour manufactured here is sold in St. Louis and in various other markets in this region. About twenty thousand barrels of flour are annually manufactured in this mill. The barrels for this flour are made in a cooperage which is carried on by Mr. Temper. Twelve hands are constantly employed at this establishment.

FENTON METHODIST EPISCOPAL CHURCH SOUTH.—At an early day a class was in existence in the vicinity of Fenton, and the name of William Brock is remembered as one of the early leaders of this class. Thomas Williams is remembered as the first local preacher here.

A society was organized about 1830, and services were held in the houses of Thomas Williams and others in the vicinity. A small log church, which is still standing, was erected on the Gravois road previous to 1840, and here the society worshiped till 1860. In that year the present church edifice was erected in Fenton. It is a neat frame building, thirty by thirty-five feet in size, and its cost was one thousand dollars, which was paid before the dedication of the church, and the society has now no debt.

In 1844 the society became divided, a portion affiliating with the Methodist Episcopal Church North. This schism has ceased to exist. A portion of the records of this society have been lost or mislaid, but the following names of preachers who have served the church are remembered: Revs. J. N. W. Springer, William Alexander, T. M. Cobb, George W. Horn, Nathaniel Talbott, John W. Robinson, and J. M. Clayton. Others whose names cannot be recalled have officiated here.

ST. PAUL'S (CATHOLIC) CHURCH, FENTON.—A church building was erected in Fenton in 1879, and services were first held in it on Christmas in that year. It is a wooden building, thirty-two by twenty-six, and its cost was thirteen hundred dollars.

The congregation consists of about forty families, one-half of whom are German, and services are held in both German and English. The congregation is served by the pastor of St. Peter's Church in Kirk-wood. Although this is a young organization, it has no debt.

FENTON LODGE, No. 281, F. AND A. M., was organized May 2, 1868. The charter members were H. S. Jacobi, W. M.; — Stelham, S. W.; A. Bowles, J. W.; T. S. Long, S. D.; James Bowles, J. D.; John R. Vandover, Sec.; William L. Pipkin,

Treas. ; John T. Hawkins, Tyler ; William Barnett, Martin C. Helterbrandt, Thomas Byrns, Leonidas Wilson, Larkin Williams, W. A. Pratt, and S. B. Belew, nearly all of whom came from Bonhomme Lodge, No. 45, at Manchester.

The Past Masters have been H. S. Jacobi, Anderson Bowles, T. S. Long, James A. Bowles, Samuel T. Vandover, H. F. Steinhauer, B. F. Holecombe, E. J. Thurman.

The present officers are H. F. Steinhauer, W. M. ; William Stafford, S. W. ; David Bowles, J. W. ; John H. Wilkins, Sec. ; Henry Temper, Treas. ; George W. Anderson, S. D. ; Jeremiah Strickland, J. D. ; and John McDonald, Tyler.

The lodge has always met in its own hall. It has one thousand dollars invested. The present membership is fifty-one.

FENTON LODGE, No. 180, A. O. U. W., was organized in February, 1880, with the following charter members : Frank Stowe, P. M. W. ; George W. Anderson, M. W. ; John Brummer, F. ; Albert Cable, O. ; William Brethold, R. ; Frederic Schisler, F. ; Peter Brossard, R. , Frank Weber, G. ; Andrew Payne, I. W. ; William Kohler, O. W. ; Peter Barton, Charles Heller, Henry Hoffmeister, William Schisler, Otto Spitz, William Young, and John Zufall.

The presiding officers of the lodge have been George W. Anderson, Frank Stowe, John H. Wilkins. The present officers are Cornelius Dillon, M. W. ; Otto Spitz, F. ; John Stouse, O. ; William Brethold, R. and F. ; Peter Brossard, R.

One death has occurred in the lodge since its organization. The membership is twenty-five, and the lodge is prosperous.

Kirkwood.¹—“The town of Kirkwood was founded in the early part of the year 1853. During that year the Pacific Railroad was in process of construction. H. W. Leffingwell, R. S. Elliott, and others, being impressed with the necessity of a suburban home for families who desired pure air, and to rear their children away from the contaminating influences of a large city, initiated a movement to build a town on some high, healthy locality on the line of the Pacific Railroad, a short distance from and easily accessible to St. Louis.

“An association was organized composed of forty persons, including many of the best men of St. Louis, for the purpose of selecting and purchasing a site for the town. This duty was by the association assigned to H. W. Leffingwell and William R. Pry. They ex-

amined several eligible localities east of the one finally selected, but at last determined to ‘cast their lots’ among the beautiful groves where since has grown the pleasant and substantial town of Kirkwood.

“They purchased of Owen Collins one hundred and twenty acres for twelve thousand dollars, of Thomas Wash eighty acres for six thousand four hundred dollars, and A. S. Mitchell forty acres for three thousand dollars, making two hundred and forty acres for the town site, at a cost of twenty-one thousand four hundred dollars.

“The grounds were then surveyed and divided into forty blocks, and these blocks sub-divided into lots, and wide avenues and one street were laid out at right angles, as follows : Beginning on the north and going south were established the avenues named Washington, Adams, Jefferson, Madison, and Monroe, with Main Street located between Jefferson and Madison Avenues ; on the west and going east, Jackson, Van Buren, Harrison, Clay, Webster, Taylor, and Fillmore Avenues, leaving off the names of some of our illustrious Presidents and substituting the no less illustrious names of Clay and Webster.

“The hotel block they then located on the west side of the town block bounded by Webster, Jefferson, and Taylor Avenues and Main Street, and a hotel of rare architectural beauty, fronting on Main Street, was erected at a cost of fourteen thousand dollars. This hotel was destroyed by fire in December, 1867.

“The lots were sold at auction May 26, 1853, the prices ranging from two hundred dollars to seven hundred dollars per acre. The name of the town was then to be selected, and the very appropriate and euphonious name of ‘Kirkwood’ was proposed by Mr. R. S. Elliott and adopted by the association, partly from respect to James P. Kirkwood, then chief engineer of the Pacific Railroad, and partly in view of the fact that the building of churches (kirks) in the wood or groves of the town was already contemplated, thus suggesting Kirkwood.

“The year following there were added to the town blocks on the east and south, divided by the following streets and avenues : On the east, Smith and Walker Streets and Clark and Holmes Avenues ; on the south, Scott, Elliott, and Leffingwell Avenues.

“The first charter incorporating the town was granted by the Missouri General Assembly, Feb. 20, 1865, and amended Feb. 27, 1869.”

In 1870 the population of the town was twelve hundred. In 1880 it was reported by the census marshal at twelve hundred and eighty, but this was believed to be less than the true number. It is now (1883) estimated at two thousand.

¹ This sketch of this town was prepared by W. S. Stewart in 1875, and embraces the main facts in its history to that time.

The following have been officers of the town since its incorporation :

TRUSTEES.—1865, H. W. Leffingwell, Albert G. Edwards, Richard S. Elliott, William T. Essex, Lucius D. Moore, Francis Berg, Henry T. Mudd; 1866, J. W. Sutherland, Francis Berg, Albert G. Edwards; 1868, Richard Holme, John Pitman, Joshua L. Tracy, August Metzfeldt; 1869, Thomas L. Mills, Armstead O. Grubb; 1871, Lemuel G. Pardee, Theodore Hegee, Michael Higgins; 1872, John Pitman, Joseph R. Matthews, William Armintrout; 1874, A. B. Garrison, Matthew W. Leet, Levi House; 1876, John W. Andrews, William T. Essex, Joseph R. Matthews; 1878, James B. Roberts, Henry A. Hyatt, Charles A. Lawton, George W. Tracy, Matthew W. Leet; 1880, George H. Gill, John W. Andrews, Dr. John Pitman; 1882, H. A. Hyatt, George W. Tracy, M. W. Leet.

CLERKS AND EX OFFICIO TREASURERS.—1865, Francis Berg; 1871, Thomas L. Mills; 1872, Lemuel G. Pardee; 1873, Niram H. Allen.

CLERK.—1874, Niram H. Allen.

TREASURER.—1874, Niram H. Allen.

MARSHALS.—1865, Henry S. Allen; 1866, Lemuel G. Pardee; 1869, James Martin; 1871, James W. Musiek; 1873, John W. Matthews; 1876, William Armintrout; 1878, John C. Farris; 1882, John H. Hayes.

RECORDERS.—1869, Lemuel G. Pardee, Egbert W. Halsey, John W. Sutherland; 1871, Lemuel G. Pardee; 1873, Hugo S. Jacobi; 1878, Cortez A. Kitchen, William S. Stewart.

ATTORNEYS.—1873, James S. Cornwell; 1875, William S. Stewart; 1877, William S. Bodley.

The town has two general stores, five grocery and variety stores, two drug-stores, two boot and shoe stores, three restaurants, one bakery, one wagon-shop, two blacksmith-shops, one barber, one livery-stable, two wood and coal yards, one jeweler, two tin-shops, two attorneys, and two physicians.

THE ATHENÆUM in Kirkwood was erected by a joint-stock company called the Kirkwood Hall Association. The capital stock of this company was fifteen thousand dollars, in shares of one hundred dollars each. It was erected in 1874, on the corner of Webster and Adams Avenues. It is two stories in height, and the second story has a large hall, with stage and scenery, and is designed for lectures, dramatic entertainments, etc. The first floor is fitted up for entertainments of a different character, such as fairs and festivals. Prominent among the promoters of this enterprise were George H. Gill, Enos Clark, John W. Andrews, and A. W. Fleming.

KIRKWOOD LODGE, No. 484, F. AND A. M., was organized under dispensation on the 4th of November, 1873, with the following members: M. D. L. Buel, W. M.; John W. Wade, S. W.; W. H. Fanning, J. W.; Theodore Heege, Treas.; Henry T. Mudd., Sec.; Wesley P. Reckart, S. D.; Oswald Sturdy, J. D.; Edward N. Moody, Tyler; and Edwin B. Sprague and Charles Rossington.

The Worshipful Masters since the organization of the lodge have been Henry T. Mudd, 1876; Hugo S.

Jacobi, 1877; Peter C. Somers, 1879; Benjamin L. Hickman, 1880; James B. Wilde, 1882. The present officers are William C. Bragg, W. M.; George C. Brand, S. W.; Edward H. Lyeett, J. W.; Theodore Heege, Treas.; Hugo S. Jacobi, Sec.; Jacob H. Hawkins, S. D.; John Wilson, J. D.; Rudolph Paehenstecher, Tyler. The lodge has a fund of several hundred dollars invested.

MORNING STAR LODGE (COLORED), F. AND A. M., was organized in the summer of 1879, with N. B. Morris, W. M.; Daniel Oakes, S. W.; and James Beyers, J. W. The lodge met first on the corner of Webster and Madison Avenues, then on the corner of Main Street and Clay Avenue, then at its present hall, on Madison Avenue, between Clay and Webster Avenues.

The present W. M., N. B. Morris, has served the lodge in that capacity from the first. Stephen Thurman is S. W., and Alexander Fletcher, J. W. The lodge has now eighteen members.

KIRKWOOD COUNCIL, No. 8, LEGION OF HONOR, is an order which was founded in St. Louis in 1879. It is at the same time a social and beneficiary as well as mutual life insurance association. Its jurisdiction is limited to the city and county of St. Louis, and it now (1883) numbers about three thousand two hundred members. This council was organized in October, 1879, with twenty charter members, of whom James B. Wilde was chancellor. The present chancellor is William C. Bragg. The council has been quite prosperous, and has lost by death only one member.

KIRKWOOD COUNCIL, No. 616, ROYAL ARCANUM, was organized in April, 1882, with seventeen charter members. The officers are Henry Hough, Regent; E. H. Lyeett, Vice-Regent; H. A. Hyatt, Past Regent; William Dingo, Recorder; and Samuel Snead, Treasurer. The council numbers twenty-two members.

ST. PETER'S CATHOLIC CHURCH.—The records at this church do not show when a mission was established at this point, but from records in existence at St. Mary's Church, St. Louis, it is learned that it was early visited by Rev. Philip Borgna, C.M., vicar-general of St. Louis.

In 1838 it was visited by Rev. Bernard Allen, S.J., and in 1839 Rev. Peter R. Donnelly became the first resident priest. From 1841 to 1854 it was visited by various priests, among whom were Fathers John Baptist Fischer, Joseph Mehlville, and John Hennessy, present Bishop of Dubuque.

In 1854, Rev. James O'Hea resided at Kirkwood. In the summer of 1855, Rev. James Meller became

resident pastor, and remained till 1863, when Rev. H. Van der Lenden succeeded him, and remained till 1874. After him came Rev. Thomas Bonacum, followed by Rev. James J. Dougherty, who was succeeded in 1878 by Rev. G. D. Power. The present pastor is Rev. B. G. Stemker.

In 1834 a rock church existed in Kirkwood (then called Gravois), and it is probable that it was built in 1832. About 1850 it was enlarged, and in 1863 a school-house was built and a parochial school established. In 1865 the site of the present church was purchased, and on the 26th of May, 1867, the corner-stone was laid by Very Rev. Joseph Melcher, vicar-general. The Most Rev. Bishop of St. Louis had promised to dedicate the church on the 19th of July, 1868, but being ill and unable to do so, it was then occupied without dedication. It was blessed by Bishop Ryan, July 4, 1875, while yet unfinished.

PRESBYTERIAN CHURCH.—In October, 1854, Rev. J. F. Fenton organized this church with the following constituent members: Henry Singleton, Mrs. Marsena Singleton, Mr. and Mrs. — Beman, Robert Yates, Mrs. Fenton, and Dr. William Sale. The elders were H. Singleton, Robert Yates, and Mr. Beman. This was during three years the only Protestant Church in the town. The first place of worship was a small log school-house, but in 1856 the present church edifice was erected. It is a brick structure, with a seating capacity of three hundred. The exterior of this building is plainly finished, but the interior has recently been fitted up by the ladies of the congregation in very fine style. The first pastor was Rev. J. F. Fenton, who was succeeded in 1858 by Rev. Edward Sickles, and he, in 1862, by Rev. Allen Maxwell, who remained about three and a half years. The church was then without a regular pastor till July, 1867, when the present pastor, Rev. John R. Warner, was called. The society has from its organization been generally prosperous, and it has now no debt. The worshippers number about two hundred.

GRACE EPISCOPAL CHURCH.—The first Episcopal services in Kirkwood were conducted by H. I. Bodley, a lay reader, in his house, in 1854. He continued to hold such services in Kirkwood till April, 1859, when a parish under the above name was regularly organized, with A. S. Mitchell, H. W. Hough, II. I. Bodley, R. S. Elliot, H. Clay Hart, James Riley, and Thomas Kelly, Jr., as vestrymen.

The corner-stone of the church was laid in August, 1859, and it was consecrated on Whitsunday, 1860. It is a stone edifice, thirty-five by seventy-eight feet, with a spire eighty-three feet in height, and its cost was twelve thousand dollars. A rectory was built in 1866,

on ground purchased for the purpose, at a total cost of six thousand dollars.

Mr. Bodley continued to conduct lay services till September, 1864, when Rev. George K. Dunlap was called as rector. He continued till October, 1880, when he was elected Bishop of Arizona, and was succeeded by the present rector, Rev. F. B. Scheetz.

At the time Bishop Dunlap became rector the number of communicants was twenty. The present number is one hundred and fifty-two. The parish has no debt. Additions and alterations to the church, the cost of which will be one thousand dollars, are now (1883) in progress.

METHODIST EPISCOPAL CHURCH SOUTH.—This church was organized in 1869, with eighteen members, by Rev. W. D. Shumate, in a hall. Rev. John N. Robinson served the church three years, and was succeeded by Revs. J. S. Frazier and B. R. Throver during the next three years. Then followed J. B. McFerrin and Rev. William M. Leftwich, each one year; Rev. J. D. Johnson, one year; then Rev. J. L. Spencer, three years; Rev. J. C. Berryman, one year; Rev. J. J. Watts, one year, and the present pastor, Rev. J. Dines, who came in 1882. By reason of the fluctuating population here the membership has varied greatly. At present (1883) it is fifty, and the society is prosperous.

The congregation first worshiped in Armintrout's Hall, on Main Street, and subsequently in a church on Clay Avenue. The present church edifice, on the corner of Clay and Adams Avenues, was built in 1877. It is a frame structure, with a seating capacity of two hundred, and its total cost was two thousand dollars. The church has no debt.

BAPTIST CHURCH.—Prior to 1870 no Baptist Church organization existed in Kirkwood, though a few members of the denomination resided in the town. July 30th of that year the church was organized with the following constituent members: Dr. B. F. Edwards, Mrs. Eliza Edwards, James Dunham, Mrs. Jane Dunham, Miss Mary Dunham, Allen Jack, Mrs. Maria Jack, J. W. Finley, Mrs. Ellen Finley, P. H. Abrams, Mrs. Angelina Burns, and Mrs. M. W. Leet.

The first place of worship was a rented room in a building now owned by Dr. Pitman, on Webster Avenue, next to the railroad, afterward in an upper room of a building on the corner of Webster Avenue and Main Street. The present church edifice was completed and first occupied in May, 1874. It is a brick building, with a seating capacity of three hundred. It stands on the corner of Webster and Washington Avenues. Its cost was four thousand dollars.

The first pastor was Rev. J. R. Downer, followed, in 1873, by Rev. E. H. Sawyer, and he, in 1875, by Rev. T. C. Coffey, who was succeeded by Rev. William Elmer in 1876, and he by Rev. T. J. Davis in 1878. The present pastor, Rev. J. D. Biggs, was called in 1881. The present membership is forty-five. The church has no debt.

CONCORDIA EVANGELICAL LUTHERAN CHURCH.—In the spring of 1873, Peter Bopp, a citizen of Kirkwood, erected at his own expense a church edifice on Madison Avenue, between Clay and Webster Avenues. The cost of this building was one thousand dollars. In this in May of that year the Evangelical Lutheran Society was organized. The use of the house was given to the society free of rent during three years, at the end of which time the congregation purchased it. Its size is twenty by thirty feet, and its seating capacity is one hundred. At its organization the society numbered twelve, and the number of worshippers is now about seventy-five. A parochial school, in which the German and the English languages are taught, has been maintained during a portion of the time since the church existed here. Professor Martin Guenther has been the pastor from the first.

ROSE HILL BAPTIST CHURCH (COLORED).—The records of this church are lost, but from the recollections of members it is learned that the society was organized in 1870 by Rev. Emmanuel Cartwright, with Willis Mitchell, Mary Hale, Jane Rome, Kirke Gray, Maria Gray, and Alonzo Thomas as constituent members. During the same year the present house of worship was erected at a cost of six hundred and thirty dollars.

The pastors of the church have been Revs. Enoch Bolden, 1870; Willis Stafford, 1872; John Grant, 1874; Jerry McClandingham, 1876; John Johnson, 1881; W. E. Wilson, 1881; C. W. Lewis, 1882; and the present pastor, Finley Lewis, 1882. The society has no debt.

THE SECOND BAPTIST CHURCH (COLORED) was organized in 1878 with thirty-three constituent members. During two years the society worshiped in a rented house, but in 1880 a frame church building was erected at a cost of one thousand dollars, all of which has been paid.

The pastors have been Revs. George Clark, 1878; and the present pastor, Frederick McKinney.

A. M. E. CHURCH.—In the absence of records it cannot be learned when this society was organized, or when its house of worship was erected. It has at different times been a charge on the same circuit with one at Carondelet, and with another at Labadie, but

in 1879 it became a station. Its house of worship is a frame structure, forty-two by twenty-two. Its estimated value is one thousand dollars, and the society has no debt.

The following clergymen are known to have served this society: Revs. J. W. Early, 1864; J. C. Embury, 1865; Moses Dickson, 1868; James Madison, 1870; I. N. Triplet, 1872; W. A. Dove, 1874; W. H. Sexton, 1875; D. W. Oaks, 1879; Hubbard Casper, 1881; and the present pastor, N. S. Parks, 1882.

KIRKWOOD DISTRICT SCHOOL.—Prior to the incorporation of the Kirkwood School District the schools were conducted under the public school system of the State. By an act approved Feb. 17, 1865, the town was made a special school district with a board of six directors, two to be chosen annually, and to serve during three years:

In 1866 a lot was purchased at a cost of two thousand dollars, and a temporary school building was erected at an expense of two thousand five hundred dollars, and a church building was rented for a colored school. In 1869 a brick school-house with four school-rooms was erected on Jefferson Avenue, between Clay and Harrison Avenues, at a cost of eight thousand five hundred dollars, and school was first opened in this in December of that year. In 1870 a lot was purchased and a building fitted up on it for a colored school. In 1876 two rooms were added to the brick school-house at a cost of sixteen hundred dollars, and in 1880 an addition was made to the colored school building at a cost of seven hundred dollars. The school property has now an estimated value of twelve thousand dollars.

In these houses good schools are maintained, under five teachers in the white and two in the colored department. The average attendance is three hundred, though the number of children of school age is much greater than this.

The people of Kirkwood look with a laudable pride on the schools which they maintain, where the children of the wealthy and the indigent alike may receive such an education as to prepare them to fill with honor any ordinary position in life.

KIRKWOOD SEMINARY.—Sept. 5, 1861, this institution was founded on as modest a scale as ever a school started. It opened with seven scholars, supplied with different text-books, in a little room filled with heterogeneous furniture. Kirkwood was then a small village, twelve miles from St. Louis, founded only a few years previously, and with no school of any description. Its churches were struggling into existence. The civil war had divided its population

into bands, and brought an element of discord into what had been a happy and neighborly suburb. No one who has not passed through such scenes can realize the bitterness of feeling that separated old, attached neighbors. Kirkwood being outside of the forts and guns of St. Louis, there was a possibility of danger; and the occasional visits of United States soldiers, hunting for spies and rebel mails, the drilling of the Union militia, and the presence of bushwhackers, real and supposed, all constituted an atmosphere in which it was hard for a school flying the Union flag to receive the support of the entire community. Good hard work had to be done at the foundation, and the discipline and thoroughness of the school had to be such as to command the regard of the community in spite of bitter sectional prejudices. In the first year the school quadrupled its numbers, and for three years rented rooms as it could get accommodations for its increasing numbers, when the citizens of Kirkwood, thinking that the school should be put on a permanent basis, subscribed in 1864 for a small building. Among the early and staunch friends of the school were John A. Allen, of the firm of Claflin & Allen, T. J. Albright, Hudson E. Bridge, John Hoffman, and Gen. A. G. Edwards, of the United States treasury, St. Louis. Hudson E. Bridge, of the firm of Bridge, Beach & Co., selected the site and purchased the ground, giving to the principal a bond that she might purchase it at any time at the price which he had paid. When the land had appreciated four hundred per cent. in value it afforded his generous nature great pleasure to sell it to the principal at exactly the original price, less one hundred dollars donated to the school.

The following year, the school having increased so that the principal, Miss Anna E. Sneed, could not do justice to all, it was deemed advisable to add another room to the building, and Miss Mary C. Sneed took charge of the musical and primary departments. The house was then a little brown structure in the woods with two rooms. The squirrels, rabbits, and birds in the woods, the wild-flowers all around, and the total absence of fences were very pleasant features in those days.

Dr. Henry T. Mudd, of St. Louis, cut through the scrub-oaks a path which extended over the lots where are now the Catholic Church, public school, and many private residences.

In 1866, Miss Hattie E. Sneed was added to the corps of sisters that made the faculty of the school, and as, in the opinion of Mr. Bridge, it was unadvisable to add another room, as "it would make Kirkwood Seminary look too much like a ropewalk," it was

judged best to discard the small building altogether, and erect one large enough to accommodate the school for some years. A year was spent in planning, and the summer of 1868 saw a two-story building, with a large audience hall, recitation- and music-rooms, occupying its place.

The school was incorporated under a liberal charter that empowered it to confer degrees and diplomas, and conveyed to it all powers and rights necessary.

The original incorporators were Hon. E. W. Fox, president; Rev. S. R. Sneed, vice-president; Rev. John R. Warner, secretary; Hudson E. Bridge, Dr. B. F. Edwards, Gen. A. G. Edwards, T. J. Albright, W. S. Woods, John Hoffman, and Anna C. Sneed.

Some years later the faculty was strengthened and new departments were added to the curriculum of study, till it was as full as that of any college in the West for young ladies.

A building for a boarding department began to be very greatly needed. Just then the square of four acres north of the seminary hall, containing a large stone dwelling, beautiful grounds, and the outbuildings, stables, servants' house, etc., came into the market. It was the property of the late William McPherson, and it had long been desired for the seminary. It was purchased in the summer of 1873, and fitted up as a home for young ladies.

Rev. Samuel R. Sneed, who had been for fifty-four years an influential and devoted minister of the Presbyterian Church in Kentucky and Indiana, now gave up his home and came to spend the evening of his life under his daughters' roof, laying down all burdens of care and responsibility, but still blessing his family and the school with his influence and prayers. Here in the summer of 1876 he breathed his last, full of years and honor, and mourned by all, from the highest to the lowest in the community, as a man of faith and prayer and good works.

In 1878 a cousin of the principal's father, Maj. James Hite, of Terre Haute, an old soldier of the war of 1812, and an elder in the Presbyterian Church, made a liberal donation, and lifted the greater part of the incumbrance resting upon the property. The seminary had now good property, suited to educational purposes, ample grounds, furniture, musical instruments, library, the beginning of an art gallery, and the experience and reputation derived from eighteen years devoted exclusively and uninterruptedly to teaching by its principal. It had suffered the loss of several of the original incorporators, Hudson E. Bridge and Dr. B. F. Edwards by death, and others by removal. Hon. E. W. Fox, who for many years had been president of the corporation, had resigned.

W. H. B. & C. CO. N. Y.

W. H. B. & C. CO. N. Y.

It was deemed advisable that, while the school was unsectarian in its character, it should be distinctly guided by Christian counsel from the different denominations interested in its prosperity, and a new board was constituted, largely consisting of leading ministers and citizens in St. Louis. This board favored the institution with its wise counsel for the term of election, four years; and consenting to serve again, their numbers were increased, and the following constitute the present advisory board of the corporation :

Rev. H. D. Ganse, D.D., president, pastor First Presbyterian Church, St. Louis; Rev. S. J. Nicolls, D.D., vice-president, pastor Second Presbyterian Church, St. Louis; Right Rev. Bishop G. K. Dunlop, vice-president, Santa Fé, N. M.; Rev. C. L. Goodell, D.D., secretary, pastor Pilgrim Congregational Church, St. Louis; Rev. M. Rhodes, D.D., pastor St. Mark's English Lutheran Church, St. Louis; Rev. W. V. Tudor, D.D., pastor St. John's Methodist Episcopal Church South, St. Louis; Rev. W. W. Boyd, D.D., pastor Second Baptist Church, St. Louis; Rev. C. E. Felton, D.D., pastor Union Methodist Church, St. Louis; Hon. John B. Henderson, St. Louis; Col. George E. Leighton, St. Louis; Carlos S. Greeley, St. Louis; Capt. Thomas W. Fitch, St. Louis; John Hoffman, Kirkwood; O. A. Grubb, Kirkwood; C. H. Oleott, Rock Hill; Dr. H. F. Steinhauer, Sappington; Anna C. Sneed (*ex officio*), Kirkwood.

The long financial depression over the country was passing away, and in 1880 it was found necessary to build a small addition to the stone dwelling to accommodate the ever-increasing number of boarders. This was not sufficient, and it was deemed advisable to erect a large building, with suitable parlors, dining-room, and accommodations for a family of fifty.

The annual report of the principal, April 25, 1881, said,—

"Last year we were compelled to build sufficiently to accommodate fifty per cent. more boarding pupils than before, and hardly had we finished before the dear ones, who came up to us from different States and Territories in our broad West, were crying in our ears, 'The place is too strait for me; give place to me that I may dwell.'

"We therefore considered our needs deliberately during the past winter, have planned leisurely, with the aid of a skillful architect, J. G. Cairns, Esq., St. Louis, submitting his drawings and estimates to different members of our board from time to time, and so great has been the prosperity of the school and the whole country that we have determined, with your approval, to provide accommodations for twice the present number of pupils. The drawings, perspective, etc., have been laid before you at the former meeting, and our contracts only await your approval, and then we 'will arise and build.'"

Ground was broken for the new building April 26, 1881, and when the 3d of September came the stately new structure was not only complete, but the carpets, curtains, furniture, and even the immense furnaces were in place. This was the summer of 1881, remarkable for its intense heat and sunstrokes, and the short time in which the building was erected is truly

complimentary to the energy of the architect, the contractors, and the principal.

Since then the building has been filled to its utmost capacity with enthusiastic teachers and devoted and faithful pupils.

This institution, in its training, aims to give efficiency and earnestness to character, deepen conscientiousness, and make faithful, devoted, unselfish, and energetic women of those committed to its care, ranking these things as of higher value than its excellent and thorough training in the arts and sciences and all the branches of a liberal education; and as a bright testimony to its success it may point to its honored graduates, educated women and true ladies, serving their generation as wives, mothers, and teachers in many States. The faculty of the seminary have given especial attention to instruction in fine art, as a glance at the specimens hanging in the parlor, and at the carved mantel-piece which reaches to the ceiling, all the designs and work of the principal, will show.

This brief sketch is appropriately closed with the following report of the board, made in 1882, the twenty-first year of the institution :

"During the summer of the last year Kirkwood Seminary was thoroughly rebuilt, greatly enlarged, and made convenient and attractive in every way. Its homelike interior has especially attracted our attention. The year following has been marked by greater numbers, more enthusiastic work, and increased efficiency in all departments of the school. It is delightfully situated near the city of St. Louis, combining the privileges of the city with country scenes of unusual loveliness and culture.

"Its course of study is well arranged, its teachers are excellent and earnest in their work, and the results of the year's work are highly satisfactory.

"We recommend this institution to parents, not only for the value of its training, but also for its marked Christian character, and we believe that those who intrust their daughters to its careful nurture will be well pleased.

"C. L. GOODELL, Secretary."

The faculty is as follows :

Miss Anna C. Sneed, Principal; Miss Mary C. Sneed, Vocal and Instrumental Music; Miss Jeannette McLagan, Advanced Department and Penmanship; Miss Lily M. Bruner, English Branches and Music; Mrs. Helen E. Barr, Primary Department; Miss Ottilie Holteamp, Primary Assistant; Miss Alice Lathrop, Vocal and Instrumental Music; Miss Mary M. Barr, Music and Kindergarten; Miss Nettie Scheetz, Instrumental Music; Miss Bessie Barr, Kindergarten Assistant; Rev. F. B. Scheetz, Examiner in Latin; Madame L. Tinling, French; Madame M. Steiffel, German; Miss Anna C. Sneed, Art Department; Professor H. M. Butler, Violin; Mrs. S. K. Sneed, Boarding Department.

TOWNSHIP OF CENTRAL.

Central township, so named because of its position in St. Louis County prior to its division, has St. Ferdinand township for its northern boundary, the city of St. Louis on the east, the township of Carondelet

and a part of Bonhomme on the south, and Bonhomme on the west. It has a length of about nine miles between north and south, and an average width of eight miles. It has, like the other townships in the county, a rolling surface, and like them a fertile soil.

A branch of the Des Peres River drains the southern part of the township, and the northern and eastern part is drained by another branch of the same stream. Fec-Fee (said to be a French corruption of the name "Fife") Creek takes its rise in the northwestern part, and discharges its waters into the Missouri River.

Several rock roads traverse the township and converge towards St. Louis, affording more facilities for travel and transportation to and from that city than are enjoyed by any other township in the county. Natural Bridge and St. Charles roads cross the northeastern corner of the township, the Central or Olive Street road and the Clayton road pass through the central part, and the Manchester road traverses the southern portion of the township. Prior to the era of railroads these rock roads were not only avenues of communication between this township and the city of St. Louis, but were thoroughfares over which passed constant streams of emigration towards the great West. This was especially true of the St. Charles road, which was the greatest western thoroughfare.

The township is also traversed by four different railroads. The Missouri Pacific crosses the southeastern corner, the St. Louis, Kansas City and Northern and the West End Narrow-Gauge Roads run through the northeastern corner, and the Laclède and Crève Cœur Lake Railroad passes across the southwestern corner.

With the establishment of the great Western railroad system through travel on the rock roads ceased, but to the easy communication with the city which they afford the prosperity of the township is largely due.

Although in close proximity to St. Louis, Central township was not settled and brought under cultivation earlier than other portions of the county. Of the first settlers here, as in some other portions of the county, many were emigrants from Kentucky and Virginia. Of those who came prior to 1820 the names are remembered by the oldest inhabitants of the Waltons, sons of John Walton, Moores, Sullens, Links, Musicks, Robert Wash, Douglasses, Cabannés, Watsons, Murphys, Gratiots, Freemores, Larimores, Polaskes, Charlevilles, Bumparts, Tessons, Mattocks, Kings, McKutchens, Calverts, Carsons, Tyheans, Warfields, Berrys, Curries, Brothertons, Browns,

Gormans, McDonalds, Longs, Lockharts, Smiths, Padgetts, Clarks, Buchanans, and Timons (of the family of Bishop Timon).

Of those who came about 1820 or soon afterwards were the Fitzgeralds, Moseleys, Hunnemens, Claytons, Dennys, Wyatts, McCoys, McCoslands, Suttons, Taylors, Lewises, Marshalls, Phillipses, Harrisones, Humes, Breckenridges, Shumates, Lacklands, Vaughns, Underwoods, Hangemeads, Hartshornes, Beards, McKnights, Hucksteps, Howsers, Wares, Blackwells, Descomes, Prices, Darbys, Finks, Smalls, Bennets, Bruzes, Guins, Gibsons, Browns, Picketts, Hendersons, Edmundses, Boyntons, McGees, Davises, Barrows, Adamses, Williamses, Robinsons, Barrs, Everitts, Hanleys, Nays, McKelders, and Truesdells. The population of Central township was in 1850, 1133; 1860, 5848; 1870, 8923; 1880, 7845.

The pioneer grist-mill in the township was established in the southwestern part, by David Huckstep, in 1825. It was what was known as a horse-mill, propelled by a wheel that was turned by four horses, and it had one run of rock stones.

In 1830, George Gordon built a steam grist-mill in the northwestern part of the township. It had a run of rock and another of burr stones. It was burned after about twelve years.

Olive Street Mill, three miles east from Crève Cœur Lake, was built in 1873 by a stock company, of which E. H. Stratman was the president. It afterwards became the property of Henry Stratman, and in 1880, J. A. and J. F. Hibbert, under the firm-name of Hibbert Brothers, became owners. In 1881, J. F. Hibbert, the present owner, became sole proprietor.

The mill is a substantial brick building with two run of stones, and it has a daily capacity of fifty barrels of flour. The machinery is driven by an engine of forty-five horse-power. It is a merchant mill. The proprietor is about to introduce rollers and increase the capacity of the mill to one hundred barrels daily.

The first tannery was established in the northwestern part of the township, by a Mr. Moore, about 1815. It had ten vats, and was operated till 1832, when it was abandoned. In 1821, Ralph Clayton erected a tannery near the present town of Clayton. It had eighteen vats, and it was worked by Mr. Clayton till 1856, when it ceased to be operated because of the failure of water. A shoe-shop was also carried on by Mr. Clayton during many years, or till ready-made shoes and boots deprived country shoemakers to a large extent of their occupation.

It is believed that the first blacksmith in the town-

ship was George Carson, whose shop was half a mile west of the present court-house. Other early blacksmiths were James Sutton, on the Manchester road, Mr. McCormick, and Martin F. Hanley.

The pioneer shoe-shop was that of Mr. Clayton. It was during several years the only shoe-shop in the township. Fewer mechanics' shops came into existence in Central township at an early day than would have been established because of its proximity to the city of St. Louis, where shops and mills were set up at a very early period, even before this township was settled to any extent.

Clayton.—Previous to the location of the county-seat no town existed where Clayton now is. When the location of the county buildings was under consideration, Ralph Clayton proposed to donate for the purpose one hundred acres of land. His offer was accepted, as well as that of Mrs. Hanley, who donated four acres, and the county buildings were located there, in accordance with the will of the people, expressed at an election held Dec. 4, 1877. Since that time the town has come to include twenty dwellings, three hotels, one grocery, three printing-offices, three attorneys, one singing hall, and the county buildings. A rapid growth in the future is inevitable.

Ralph Clayton, whose name the town bears, was born Feb. 22, 1788, in Augusta County, Va., of English parents. He resided at his native place till 1820, when he removed to what is now Central township, and located seven hundred acres of land. He at once established a tannery, and at the same time commenced the cultivation of his farm. He continued the business of tanning till 1856, and he still resides on the farm that he first located. He was prominently identified with all that has tended to the progress of improvement in this region. He is now, at the age of ninety-five, in good health, and is quite active. He was married in 1831 to Rosanna McCausland, who died in 1862, leaving three children, who are all now living.

Mount Olive Saengerbund.—This society was incorporated Sept. 4, 1882. Its purpose, as set forth in its constitution, is "the culture of vocal music and social improvement." The society now consists of thirty active and sixty passive members. The meetings have been held in the Mount Olive House, but a new hall at Clayton is nearly completed. It is sixty by one hundred and twenty feet, and is divided into principal hall, dining-room, dressing-rooms, library, etc., and its cost is four thousand dollars.

Methodist Episcopal Church South of Clayton.—Prior to 1881 the Methodists in the vicinity of Clayton worshiped at Mount Olive. In that year the

Mount Olive Society was transferred to Clayton, which had become the county-seat.

The society was organized at Mount Olive in 1860, and in that year a house of worship was erected on land donated by Martin F. Hanley and Cyrene C. Hanley, his wife. This house was for the use of all Protestant societies and for school purposes. The trustees for its erection were William B. Woodson, Jesse B. Underwood, and John Suter. In this house the society worshiped till the removal to Clayton. It is a brick structure, with a basement for school purposes, and the seating capacity of the auditorium is two hundred and fifty.

The basement is used for a school, and the upper room is, according to the terms of the deed, for the use of any Protestant denomination desiring to hold services in it.

Of the clergymen who have officiated at that place, the names are remembered of Revs. D. D. Shumate, — Scroggs, J. S. Frazier, — Treadwell, John A. Robinson, and A. T. Tidwell.

During two years after its removal the society worshiped in a school-house at Clayton, but in 1882 a house of worship was erected, and dedicated on the 7th of January, 1883. It is a frame structure, twenty-eight by forty-two feet in size; its cost was two thousand dollars, and it is unencumbered with debt. The membership is twenty-seven.

The clergymen who have served this society since its removal are Revs. B. R. Thrower, J. R. Hicks, J. W. Cunningham, and William Tyler.

Clayton Democrat.—In the latter part of January, 1877, the *Weekly Mail* was established at Kirkwood by a company, with William L. Thomas as publisher. After a time the establishment was purchased by — Johnson, then in succession by Thaddeus M. Gardiner, Lewis & Stevens, and Thomas P. Diggs, and June 10, 1881, the present editor and publisher purchased the office. While Mr. Thomas was publisher the office was removed to Mount Olive, and by Mr. Gardiner it was taken to Clayton, where the journal has since been published. It is a weekly, and, as its name indicates, it supports the principles of the Democratic party.

The Star-Republican.—The *Western Star* was first published in the fall of 1877 by B. B. Crossman at West St. Louis. In August, 1878, Mr. Crossman commenced the publication of the *St. Louis County Republican* at Kirkwood, and in 1879 the two were consolidated under the name of the *Star-Republican* and published at Clayton, to which place the office was removed in December, 1880, and it has since been published at that place. The journal is the firm and

fearless advocate of the principles of the Republican party and of temperance.

The St. Louis County Waechter.—In 1876, William Raine established this journal in St. Louis, and continued its publication during two years. It was then purchased by C. W. Eek, who removed the office to Clayton in 1880, and has since continued its publication there. It has from the first been published in the German language, and it is the organ of the German Republicans in St. Louis County. The *Waechter* is the only German paper in the county.

The St. Louis County Watchman.—In the spring of 1881, F. W. Rauchenstein became joint proprietor of the office of the *Waechter*, and in the autumn of the same year the firm commenced the publication of the *St. Louis County Watchman*, a Republican journal in the English language. Both journals have since been published by the firm of Eek & Rauchenstein from the same office in Clayton.

The first power-press in St. Louis County was brought here by this firm in the fall of 1881, and the first number of the *Watchman* was printed on it.

Webster Groves.—In 1861, where is now the town of Webster Groves, stood only the railroad depot and a small store kept by Augustus Moody. A few residences also were scattered in the vicinity. All the land north from Lockwood Avenue, except here and there a lot, was owned by John C. Marshall. South from that avenue J. P. Helfenstein, Edward M. Avery, William Gore, William M. Prant, J. Richardson, and Edward Lancaster were the owners of the ground.

Mr. Marshal had, a few years previously, laid out a portion of his land in town lots. In 1861, Charles Connon purchased four of these lots near the depot, and in 1862 erected a greenhouse, to which he has since added eight others. South from Lockwood Avenue the owners of the land have since laid out town lots, most of which were promptly sold.

In 1863-64 an impulse was given to settlement here, and the town commenced a more rapid growth. Real estate advanced greatly in price, and men of business in St. Louis established homes for their families here. The town received its name of Webster from Webster College, which had been located near it, and which was named in honor of the great statesman, Daniel Webster. When a post-office was established here it was found there was another town of Webster in the State, and the word "Groves" was added.

Since 1864 the town has had a steady growth, till now there are within the limits of the school district which includes it (one square mile) fifteen hundred inhabitants. The place has three physicians, three

groceries, one drug-store, one shoe-shop, one tailor's shop, three meat markets, and one blacksmith-shop. Of course the nearness of the town to St. Louis and the excellent facilities for communication prevent the large development of business establishments here.

EMMANUEL CHURCH (EPISCOPAL).—This parish was organized in 1866, and in that year Richard Lockwood erected, at the intersection of Lockwood Avenue and Big Bend road, a church edifice, which he presented to the parish. It is a neat stone building, with a seating capacity of two hundred, and the parish has no debt. A rectory was subsequently built near the church.

The rectors of the parish have been Revs. P. N. Meade, Dr. Easter, A. Battle, Charles Ganthier, and the present rector, Rev. Mr. Griffith.

BAPTIST CHURCH (COLORED).—This was organized in 1867, with thirty members. The society has a house of worship capable of seating about one hundred. The present membership is forty. The church has not enjoyed the ministrations of a pastor during many years, till, in the latter part of 1882, Rev. Samuel Lot was called.

CONGREGATIONAL CHURCH.—Jan. 31, 1866, this society was organized with ten constituent members. The first place of worship was a building known as the chapel, that had been erected for school purposes by William M. Prant, R. P. Strudley, and J. P. Helfenstein. The growth of the congregation necessitated a larger place of worship, and in December, 1869, they removed to the public school-house, where they worshiped during two years. In 1871 the present church edifice, on Lockwood Avenue, between Elm and Gore Avenues, was built. It is a stone structure, with two hundred and fifty sittings, and its cost was sixteen thousand dollars. The society has no debt. The pastors have been Revs. Henry M. Grant, James Cruikshanks, Robert Kerr, Leroy Hand, and E. B. Burrows. The membership is ninety.

PRESBYTERIAN CHURCH.—In March, 1866, this society was organized by Henry A. Nelson, D.D., with twenty-five members. Until the erection of their church edifice the society worshiped with Rock Hill Presbyterian Church, but in 1867 their house of worship was completed, and dedicated February 10th of that year. It is a frame structure, with three hundred sittings, and it stands on the corner of Lockwood and Gore Avenues. It is not encumbered with debt. Their pastors have been Revs. Raphael Kessler, J. Marks, D.D., and the present pastor, P. H. K. McComb. The church has been uniformly prosperous, and the present membership is one hundred and twenty.

WEBSTER GROVES PUBLIC SCHOOL.—Before 1868 no public school was nearer to Webster than Rock Hill, one mile distant. In that year a district of one mile square, including the town, was constituted, and a school building was erected. It is a frame structure, forty by sixty feet in size, and its cost was ten thousand dollars. With a wise provision for the future growth of the town, this house was made of a capacity double the requirements of the population at that time; four school-rooms were finished, only two of which were at first used. The full capacity of the house is now required, and the question of adding to the existing facilities is under consideration. Four teachers are employed, and the aggregate annual attendance is three hundred. A colored school, with one teacher, is kept in another part of the town.

SOCIETIES.—Webster Groves Lodge, No. 1729, K. of H., was organized in August, 1879, with forty-three members, and Charles Connon, P. D., Dr. B. G. Bristol, D., N. D. Thompson, V. D., Charles Knight, R., and Charles Babbington, F. R. The presiding officers have been B. G. Bristol, H. Leven. The present officers are Adrian De Young, D.; William Jackson, V. D.; H. L. Peterson, R.; and Charles Babbington, F. R. The present membership is fifty-five. One member of the lodge has died.

Grove Council, Legion of Honor, was organized on the 15th of December, 1879, with fifteen charter members. The officers were George B. Waters, C.; William Moore, V. C.; Robert H. Thompson, R.; J. M. Steere, T. The Chancellors since have been M. B. Williams, F. D. Booth, and the present incumbent of the office, A. De Young. The other officers are D. S. Willard, V. C.; James MacCausland, R.; and J. M. Steere, T. The present membership is thirty-two.

Des Peres Presbyterian Church.—This is located on the Geyer Maddox road, three miles north from Kirkwood. The present house of worship was erected about 1832. It is a stone edifice, with about one hundred sittings. Of the original constituent members of this church only Mrs. Rebecca McCutchen, now ninety-two years of age, survives. Rev. J. N. Gilbreath was the pastor of this church during about twenty-five years. Besides him the names are remembered of the following pastors: Revs. John Lyons, Joseph Fenton, H. A. Booth, William Lapsley, William Claggett, A. Shotwell, William H. Parks, H. Moreton, and the present pastor, J. Addison Smith. A parsonage has recently been erected near to the church. The society has a membership of fifty, and no debt.

German Evangelical Zion's Church.—As early as

1838 a society existed and worshiped in a log church between the Clayton road and Des Peres. In this building the society continued to worship till 1871, when the present church was erected, near the intersection of the Ballas and Clayton roads. It is a fine brick structure, forty by sixty feet in size, and its cost was eight thousand dollars. There is no debt on the church property. A school-house and teacher's or pastor's residence are near the church, and a parochial school is maintained during a portion of each year.

The pastors of the church have been Revs. E. L. Nollau, 1838; E. Arenlarus, 1841; I. Knaus, 1845; John Wettle, 1846; W. Schueneman, 1850; I. F. Roewing, 1854; C. F. Doehring, 1860; N. Joseph, 1864; I. G. Neuschud, 1870; F. Delveau, 1874; Philip Karbach, 1880; and the present pastor, Christian Irion, 1880.

German Evangelical Lutheran Reformed United Church of Central.—This society was organized in 1844, at a place then called the Bonhomme road, now Olive Street, eleven miles from St. Louis, with about twenty members. A log building was erected, and in this services have since been held. It has a gallery, and its seating capacity is two hundred. In 1869 the church was renovated and changed by increasing the height, adding the gallery, ceiling the inside, and weather-boarding and painting the outside. A belfry and steeple were also added, and the building has now the appearance of a frame house. These repairs were made at an expense of five hundred dollars. The house is also furnished with an organ, the cost of which was two hundred dollars.

Several years before the church was repaired a parsonage was built. It is also a log building, covered with weather-boards. The church has no debt.

The following are the names of the pastors who have served this church: Revs. William Schueneman, Henry Knetterer, Michael Kruse, and the present pastor, S. Payn.

A parochial school has from the first been maintained in this church, and instruction is given in both the German and English languages.

Evangelical Lutheran Emanuel's Church of Central.—In 1844 this society was organized on the old Bonhomme road, eleven miles from St. Louis. In that year a small log house of worship was erected, and the congregation has worshiped in this till the present time. It has a gallery, and its seating capacity is one hundred. Some years since the outside was weather-boarded, but a new church is needed, and the congregation is about to erect one a short distance from this, on the Olive Street road, at

a cost of five thousand dollars. The society purchased an organ in 1872 at a cost of five hundred dollars. The church has no debt. The membership is fifty.

A log parsonage was many years since built. A parochial school has been maintained by this congregation since its organization. For this school a neat brick house was erected in 1881, having accommodations for fifty scholars. The average attendance at this school, at which both German and English are taught, is forty. The following names are remembered of pastors who have served this church: Revs. I. F. Buenger, J. A. Mueller, — Harms, C. W. Frederking, H. F. Meyer, W. Hallerberg, T. Landgraf, A. Cordes, and the present pastor, R. Winkler.

Rock Hill Presbyterian Church.—This is on the Manchester road, ten miles from St. Louis and one mile north from Webster Groves. A society was organized here in 1844, with nine constituent members. The congregation first worshiped in the house of James C. Marshall, then in a storehouse on his land. In 1845 the present church building was erected on land donated by Mr. Marshall, and the erection of the building was superintended by him. It is a stone structure with a seating capacity of two hundred, and it is unincumbered by debt. In 1867 a parsonage was built contiguous to the church at a cost of three thousand dollars, and on this there is no debt. The land on which it stands was donated by Mrs. Elizabeth Marshall, widow of James C., who died in 1864. The names of the pastors who have served this church are Revs. William Holmes, William Grosvenor, Albert De Shiel, James Darrah, David Diamond, S. H. Hyde, Benjamin Mills, Henry B. Holmes, William Wilson, and the present pastor, John Leighton. The membership is forty.

St. Martin's Church (Catholic) of Central.—This parish was organized at a very early date, and it was the mother-church from which many others have gone out. R. D. Watson donated the ground on which the church and parsonage were built. These are brick buildings, and the church has a seating capacity of one hundred and fifty. The names are remembered of the following pastors who have had charge of this congregation: Rev. Fathers — Donnelly, James Murphy, James Higgins, Dennis Kennedy, Patrick Brady, Thomas Cleary, Lawrence Smith, and the present pastor, J. B. Jackson, who entered on his duties in 1865.

Evangelical Lutheran St. Paul's Church, U. A. C. (Unaltered Augsburg Confession), at Des Peres.—This church was organized in 1848, with twenty-five members. The congregation first worshiped in a log church that is now used for the pa-

rochial school. The present church, which is of brick, with a seating capacity of four hundred, and has a steeple, bell, and organ, was erected at a cost of nine thousand dollars, on the corner of the Manchester and Ballas roads, in 1866. The congregation has also a parsonage and a residence for the teacher of the parochial school, which has been maintained since 1848, and in which instruction is given in German and English. The attendance at this school averages seventy. The Lutheran congregations at Ellisville and Kirkwood went out from this church.

The first pastor of this society was Rev. I. A. F. W. Mueller, succeeded in 1856 by Rev. A. Lehman, who died in 1875, and was followed by the present pastor, Rev. Theodore Messler. The membership of the church is sixty-six. The society has a cemetery near the present church. It includes two acres of ground, and its cost was three hundred dollars.

Eden Methodist Episcopal Church South.—This society was organized in 1852. The first place of worship was the Ritner school-house, but soon after the organization the present house was built on the St. Charles Rock road where it is crossed by the Wabash, St. Louis and Pacific Railroad. It is a frame building, with a seating capacity of four hundred, and it is unincumbered with debt. The following names of preachers who have officiated here are remembered: Revs. W. D. Shumate, J. W. Lewis, J. E. Godbey, J. S. Frazier, I. R. Hicks, J. W. Cunningham, J. W. Robinson, B. R. Thrower, Wesley Browning, and F. A. Morris.

St. Ann's Church (Catholic) at Normandy.—In 1855, Mrs. Ann Hunt donated to the Jesuits ten arpens (eight and a half acres) of land at Normandy on which to build this church. In that year a church building, which is at present used as a library, was erected. Two years later, or in 1857, the growth of the congregation necessitated the erection of a larger house of worship, and the present stone structure was built. In 1872 it was enlarged and renovated, in 1875 a steeple was added, and from year to year since statuary, paintings, and fixtures have been added, till now it is one of the most beautiful and tasteful churches in the United States. Its seating capacity is three hundred and fifty, and its value is twenty-seven thousand dollars. In 1868 a brick parsonage was erected at a cost of five thousand dollars. A parochial school was established in 1857, and a school building was then erected. This was enlarged in 1874, and again enlarged in 1882, and its present capacity is one hundred pupils. Three teachers are employed, and the average attendance is sixty.

The pastors have been Revs. P. J. De Smet, who

established the parish, — Van Hulst, — Condon, previously pastor of St. Xavier, and the present pastor, F. X. Kuppens, S.J. All these were Jesuits.

Mount Zion Methodist Episcopal Church South.—Although many Methodists resided in the vicinity of Crève Cœur, no society existed there prior to 1870. In that year a society was organized, with about seventy-five members, and the present house of worship was built on the corner of the Olive Street and Ballas roads. It is a brick structure, with two hundred sittings, and its cost was two thousand dollars.

The pastors who have served this society have been Revs. Walter D. Shumate, who was mainly instrumental in organizing the society and building the church, F. S. Frazier, — Treadwell, John W. Robinson, A. T. Tidwell, and the present pastor, William Tyler.

Evangelical Theological College.—This institution was established thirty years since, in Warren County, Mo. In 1882 measures were taken to remove it to St. Louis County. A lot of eighteen acres was purchased at the intersection of St. Charles road and Hunt Avenue, and there college buildings are in process of erection. The estimated cost of these buildings is eighty-five thousand dollars.

Protestant Orphan Asylum.—In 1850 the late Rev. Dr. A. Bullard, who was strongly impressed with the importance of establishing an institution of learning under the patronage and control of the Presbyterian denomination, put forth active efforts for the establishment of such an institution here. The result was the erection and partial endowment of the Webster College, so named in honor of the great statesman Daniel Webster. A farm of one hundred and fifty acres was donated for this purpose by the late John C. Marshall, and ten thousand dollars were given by Carlos S. Greeley toward the erection of a college building. Other enterprising individuals also donated large sums for the purpose, and the stone building which was intended as the residence of the president of the college was erected. In this a school which was expected to develop into a prosperous college was established. The professors in this school were Rev. David Dimond and Rev. James A. Darrah. The school continued during four years, when the death of Dr. Bullard, who was killed by the railroad accident at Gasconade River, deprived it of its most influential supporter, and it soon ceased to be used as a college, though hopes were entertained of its subsequent revival. These hopes were blasted by the breaking out of the civil war.

In 1857 a boys' boarding-school was established in the building by Professor Edward M. Avery, and

successfully conducted during five years, or till the war commenced, when it was abandoned, and the building was closed. The farm then reverted to Mr. Marshall, and the house, with ten acres of land, became the property of Mr. Greeley. The Sanitary Commission subsequently came in possession of it, and added to it a large brick building. The establishment then became a Soldiers' Orphans' Home, under the patronage and control of the Sanitary Commission, aided by the State. It was conducted for this purpose till 1869, when it was donated to the St. Louis Protestant Orphan Asylum, on condition that twenty-four thousand dollars should be raised for its endowment, which was promptly done. Possession of the buildings was taken in December of that year, and the children of the asylum were removed hither.

This, which was the first orphan asylum in St. Louis, was established in 1834, and had maintained a prosperous existence till its removal. It brought hither all its inmates, and here its benevolent work has since been carried on.

The affairs of the asylum are administered by a board of sixteen lady managers, and its income is derived from the interest of its endowment, which is invested, and the voluntary contributions of its benevolent friends. Twenty acres have been added to the grounds, and the whole is cultivated for the benefit of the institution. The average number of orphans cared for here is one hundred.

Mrs. George K. Budd has been the efficient president of the board of managers since the removal of the asylum to Webster Groves. The other officers are Mrs. Edward M. Avery, vice-president; Mrs. Anna L. Blood, treasurer; and Mrs. Rebecca H. Morton, secretary. The matron is Mrs. George R. Pegram.

German Protestant Orphan Asylum.—In 1858 Rev. L. E. Nollau found on a boat a child whose parents had died on their passage to this country from Germany. This child he placed under the care of Mrs. Wilhelmina Meyer, in rooms which he set apart for the purpose in the Good Samaritan Hospital, which he had just then established on Carr Street, between Sixteenth and Seventeenth. This was the commencement of the German Protestant Orphan Asylum.

The number of children in the establishment thus founded rapidly increased, and larger accommodations became necessary. Rooms were accordingly rented on the corner of Jefferson and Dayton Avenues, and to these the children were removed, though they continued to board at the Good Samaritan Hospital. On the breaking out of the civil war in 1861 the gov-

ernment took possession of this building for a soldiers' hospital, and the children were removed to a house on the corner of Carr and Sixteenth Streets, where they remained till near the close of the war, when they were taken back.

In the autumn of 1866 a farm of sixty-five acres on the St. Charles road, nine miles from St. Louis, was purchased at a cost of twenty-three thousand five hundred dollars, and to the large dwelling on this farm the orphans, then fifty-five in number, were removed. In 1870 a wing was added on the east of this building, and in 1874 another wing was added on the west, and a tower was erected in front. The cost of these additions was fifty thousand dollars.

Jan. 18, 1877, the entire establishment was burned, and one child perished in the flames. The children were removed to the Good Samaritan Hospital again till spring, when they were quartered in temporary

GERMAN PROTESTANT ORPHANS' HOME.

shanties on the farm. During the summer the present asylum was erected, and was first occupied November 18th of that year. It is a brick structure, one hundred and sixty by seventy feet in size, and three stories in height above the basement. It is fitted up with all the modern conveniences for an institution of this kind, and it is believed to be one of the best-arranged asylums in the country. Its cost was fifty thousand dollars. There have also been erected a teachers' residence, bakery, laundry, ice-house, and stable, all of brick, and their total cost was twenty thousand dollars. In December, 1882, twenty acres were added to the farm, and the cost of this addition was two thousand dollars. The grounds have been improved and beautified, and the place is now more attractive than any other of the kind in the vicinity.

On March 23, 1861, the institution was incorporated by an act of the Legislature, with Lewis E. Nollau, Frederick Maschmeier, T. Frederick Mass-

man, Michael Voepel, and Francis Hackemeier as incorporators. This board has been increased to the maximum number allowed by the charter.

The presidents of the board have been Frederick Bolte, Michael Voepel, Christian Knickmeier, and Mr. Voepel again. The management of the asylum devolved wholly on its founder, Rev. Mr. Nollau, till his death in 1869, until which time Mrs. Meyer continued to discharge the duties of matron. On the death of Mr. Nollau, the present superintendent, Franz Hackemeier, entered on his duties, and Mrs. Hackemeier became matron.

In the Asylum no sectarian distinction is made, but the children of Jew and Gentile, Catholic and Protestant, alike are received and cared for. The asylum is not endowed, but is dependent for its support entirely on the contributions of benevolent people. It is a noteworthy fact that the first donation was made in 1858 by a child four years of age, Charles H. Hackemeier, who gave the sum of one dollar from his little savings. The next contributor was Mr. Voepel, who gave ten dollars.

From its humble beginning with one orphan in 1858 its benevolent work has increased till now it has two hundred and thirty-five inmates. To the watchful care and efficient labors of Mr. Nollau the early success of the institution was largely due.

Franz Hackemeier, the superintendent of the Asylum, was born in Hanover, Germany, May 8, 1831. He received an ordinary education in the schools of his native place, but did not acquire a trade

or profession. In the autumn of 1844, with his parents, he left the land of his nativity, and on the 1st of January, 1845, they arrived in St. Louis.

During their first summer here he and his father labored in a brick-yard; then they were employed in a lead-factory until the death of his father in the fall of 1846. The support of four brothers and sisters devolved on him, and he continued for a year to labor in the factory by day, and at night sold newspapers. He then learned the business of a tobacconist, which he followed until 1849. In the spring of that year he entered the clothing house of Young & Brothers, first as an errand-boy. He soon came to be superintendent of the store, and continued in that capacity until 1856, except during a short interval. In that year he and his brother-in-law embarked in the dry-goods and clothing trade on Franklin Avenue, in which they continued until 1861. He then during a year collected funds for the Good Samaritan Hospital,

after which, on account of his health, he engaged until 1869 in farming. On the death of Rev. L. Nollau, he became superintendent of the German Protestant Orphan Asylum, which position he has

Franz Hackemeier

since continued to fill. He has been a director of the Good Samaritan Hospital and of the Orphan Asylum from the commencement of those institutions.

His mother died in June, 1849, and he was married in 1851 to Miss Mary Piper, who is now matron of the Orphan Asylum. They have one son, Charles H. Hackemeier.

The poverty and hardships of Mr. Hackemeier's early life served to strengthen the benevolence and sympathy with the unfortunate with which he was endowed by nature, and to fit him for the career of usefulness which it has been his good fortune to pursue.

Lutheran Orphans' Home.—The German Evangelical Lutheran Orphans' Home ("Zum Kindlein Jesu"), with which is connected an asylum for aged and indigent members of the denomination, was erected in 1867 by the German Evangelical Lutheran Hospital Association of St. Louis. This association was incorporated in 1863 by an act of the Missouri Legislature. The first building erected was a log house, which is still in use. In 1873 a brick building forty-five by fifty-five feet in size, three stories in height, with a Mansard roof, was erected, and dedi-

cated on the 8th of June in that year. In 1882 a frame building for an orphan school was erected.

Since the erection of the first building three hundred and eighty children have been cared for in the Home. The present number is one hundred, and there are ten aged and infirm men and women cared for at the establishment.

The Home is located at Des Peres, on the Manchester road, fifteen miles from St. Louis. Forty acres of land belong to the Home, and the value of the whole is ten thousand dollars.

The first president of this asylum was the late Rev. Johann Freidrich Buenger, who at his death in 1882 was succeeded by the present president, Rev. Christlieb C. E. Brandt, pastor of the Evangelical Lutheran St. Paulus' Church of St. Louis.

The first superintendent of the asylum was the late Rev. E. H. Lehman, of Des Peres. The present superintendent is Ernst Leibner. The teacher is Heinrich Keller.

MERAMEC TOWNSHIP.¹

Meramec township is composed of United States townships 43 (north of the Meramec River), 44, and 45 of range 3 east, and the two western ranges of sections in range 4 east, having the Meramec River as its southern boundary till Antire Creek is reached, thence through Bunkum on the line of township 43. Its western line joins Franklin on the line of range 2 east, a distance of twelve miles. At a very early period in the history of the State the township was a locality of great importance, owing to the fact that it was the frontier of advancing civilization and a breast-work for the protection of the growing Western emporium, and the key to its gates. The irregular character of most of its surface, composed of great heights and deep ravines, gave it great strategic importance in the struggles with the Indians. From it the upper Missouri country was explored, and in it a citizens' guard was formed to repress the Indians and the no less to be dreaded white marauders. Great encouragement was given by the French and Spanish governments, and subsequently by that of the United States, to the formation of frontier volunteer companies and scouts, and deeds of daring and danger and cases of suffering and sacrifice were common, and stamped the character of the people with open-hearted hospitality, and were rewarded by liberal grants of land.

The origin of the name is involved in obscurity, and quite a number of different versions are current

¹ Written especially for this work by William Muir.

among the traditions of the early settlers. Mahr-ah-mec is given as the Indian for *the water of the bitter springs*, with no point obvious to-day. Again, Mah-ah-mac refers in the Indian to *the waters of death*, from the reputed unhealthiness of its banks in malarial seasons and to its fatality to swimmers, tempted into its beautiful waters, to be caught in a cold stream flowing from numerous springs, by inducing cramps and death by drowning. Some trace the name to *the river of the smoking springs*, from the spring in which it originates and from the numerous columns of vapor seen, in the frosty air of winter, from the surrounding hills. Others say it means *catfish stream*, and yet others trace it to the Merrimac of New Hampshire. A very pleasing and plausible version is based on a very early and rare house of entertainment near the site of the present town of Franklin and near the St. Louis County line, kept by Mac Young. This was the great rendezvous of the scout, hunter, trapper, fisher, trader, and settler. In its management he was ably assisted by a noble-hearted wife named Mary, and it was talked of as a rendezvous, base of operations, source of supplies, as *Mary and Mac's*, till the brief appellation was applied to the entire river and adjacent country. The Youngs are historic characters, and Robert Young King, born in 1812, and now postmaster of Oakfield, takes his middle name from them.

Indian relics, implements, camps, and trails are quite numerous. On the line of the old King's Highway, the oldest road known, running along the south edge of the township (on the first bluff) are numerous well-marked "mounds" containing pottery, arrow-heads, etc., of which William H. Coleman and his brother, State Senator R. G. Coleman, have fine collections. In the excavations for the senator's new residence many fine specimens of pottery were found. On Tavern Creek, just west of the county line, is a large, well-defined fortified village, with a circle of defensive out-works. The cave in Tavern Rock has numerous inscriptions and remains. A cave in the bluff opposite the Boxley bridge, sections 9, 45, 4 east, is another place rich in relics, and no doubt connected with the mounds on the bluff. On the south edge of the township, between the mouth of Flat Creek, sections 30, 44, 3 east, and L. D. Votaw's, along the bank of the Meramec was an old village, and great quantities of pottery used to be plowed up. The Shawnees were here till 1812, and single families much later. A curious cave exists on the west fork of Fox Creek, sections 30, 31, 44, 3 east, containing Indian remains, and traditions say it is connected by a subterranean communication with Tavern

Cave on the Missouri River, and one of the numerous caves on the Meramec. Arrow-heads, axes, pelt-knives, and other implements of stone are very frequently turned up by the plow, and there are few farmers who have none of them. George Letterman, of Allentown, makes a specialty of collecting them. The Shawnees frequented this locality, and were quiet and generally liked. The Delawares were also peaceable. The Pawnees, Cherokees, and Osages were not trusted, but the Kickapoos were thievish, cruel, and generally dreaded. They frequently visited and camped at the large springs as late as 1832. John Ball, from Kentucky, one of the very earliest settlers, tells of an Indian prophecy in 1780. In that year honey-bees began to be seen on the wild-flowers, and an old Indian told him that when "the white man's fly" appeared, the Indian had to move; "that the white man would push out the red race, and the black man would in turn take the country from the white race."

The Koonce massacre was an incident associated with one of the oldest families of the neighborhood. Towards the close of the last century, perhaps 1795, a band of Kickapoos and Omahas murdered nearly all the Koonce family, in the town of St. Charles, then the principal city west of the Mississippi River, and took a baby boy, the youngest of the family, away with them. The boy's niece, Mary Koonce, became the wife of John Votaw, and mother of L. D. Votaw, and settled on the old "Votaw place." The Shawnees had their village near, and a band of them lived beside them till about 1820. The head man, "George," was very friendly, and on intimate terms with the family, and knew of their relationships. About 1826 a band of Shawnees visited their old haunts, and the head, or the interpreter, was "George." He informed the Votaw family that he had found young Koonce, now a "brave," and would try to persuade him to visit them when he returned to his tribe. He kept his word, and Koonce and several children visited his relations, and remained a year among them, but finally returned to his tribe among the Omaha Indians in Wyoming in 1831, and has never been heard of since.

On the north edge of the township, and running nearly parallel with the Missouri River, there still exists the great "Indian trail" adopted by the Spanish adventurer and silver-hunter, then named the "King's Highway," which led to the "Upper Missouri Country," as all west of St. Louis County was then called, to Santa Fé and the West. It commences near Bellefontaine, and passing Crève Coeur takes the continuation of the Olive Street road on the

bluffs, St. Charles on the opposite side of the river being then, and till 1826, the principal city of the State. The rich bottom-lands of the Missouri River presented extraordinary inducements for settlement, and this desire was cordially met and encouraged by the early commandants as creating a cheap and efficient protection to the other portions of the county, and to the city itself. The traders, voyageurs, and Indians grazed their fattening cattle in these rich bottom-lands to fit them for the consumption of the city and military posts; hence, we find the Spanish grants running from 102, James McDonald, 122, 124, 132, 133, 134, and upward. Among these grants were those in Florissant, the garden spot of the county, and the celebrated prairies of Carondelet township, between the Meramec and Mississippi Rivers, in surveys 110, 111, and 403. Many of these grants bear the signature of Zenon Trudeau in 1796, and the direct descendants of most of the grantees are still in possession of portions of them.

Along the south side of the township, at irregular distances from the Meramec River, ran the old "State road," traced by the Indians, used by the French hunters, trappers, and adventurers, and the Courtois, Moreaus, Bitticks, Poilevres, Fortins, and Farrahs, antedating the time when the Spanish-French possessions became territory of the United States. This old State road ran in behind St. Paul, past the Ninian Hamilton place, now the Catholic Protectorate, north of Eureka, Allenton, and Dozier's, to Mary and Mac's, and then far beyond was the key that opened the south side of the township. As the upper ends of the hollows and intervalles from the two rivers and pathways were settled, pathways were opened up on the great "backbone" of the Osage range, and the centre of the township was opened through its whole length by the great State or Rock road. Jefferson City became the capital of the State in 1826, with a tri-weekly mail, carried on horseback. In 1836 a daily mail was granted between Jefferson and St. Louis, which opened the way for the stages started by Thomas L. Price, of Jefferson City. The road was graded and graveled in 1852-58 as part of a plan of public improvement championed by Oly Williams, of the St. Louis County Court, and is to-day the just pride of every citizen. The stage that destroyed the horseback "mail courier" was itself in turn supplanted by the locomotive on the opening of the Missouri Pacific Railroad.

The connecting link between the Missouri, Meramec, and Mississippi Rivers was an "Indian trail" from St. Albans, on the Missouri River, through Melrose, through the grounds of William Muir,

thence on the divide between Clifty and Fox Creeks, where it was joined by the mail route from Samuel Harris', thence above and parallel with Clifty Creek to Eureka and the mouth of Big River, and the Meramec to Hillsboro' and Herculeaneum, on the Mississippi.

For many years after Upper Louisiana was ceded to the United States the nearest flour-mill was that at Chouteau's Pond, on Ninth and Poplar Streets, St. Louis, whence the breadstuffs were transported on horses, as there were neither wagons nor wagon-roads in the country. Many were the races and stratagems to avoid the Indians, and many the tale of hunger and of hardship in the settler's family from the bread-bearer being overhauled by the robber race.

Ninian Hamilton set up a horse-mill on survey 766, which was supplanted by a water-mill and bark-mill for tanning by Henry McCullough, who carried on along with his tannery a shoemaking establishment that not only supplied the surrounding country, but enabled him to ship large quantities to a brother in the South, often employing eight men. Afterwards Samuel Harris erected a mill at the original Fox Creek post-office and tavern, section 19, 44, 3 east, and a mill was also built by Adolph Kehr, near Chesterfield. Several small mills were set up at different points. In 1854, T. R. Allen built a grist- and saw-mill with wool cards at Allenton. About the same time a grist- and saw-mill was built by Woods, Christy & Co., of St. Louis, at Glencoe, and run by Messrs. Bushy, Cyrus Turner, Parr, and others till about 1868. Fenn's mill and broom-handle factory was erected near Howell's Ferry, and burned down about 1867. Robert Eatherton, along with Messrs. Eickerman & Woolsey, of St. Louis, erected a splendid mill with all the modern appurtenances and improvements at Orrville, at a cost of thirty-two thousand dollars, which ran about a year, and was burned down in 1868 and never rebuilt. In 1872, Frederick Hencken put up a neat grist- and saw-mill on the State road at Fox Creek, with two sets of burrs and a circular saw (since sold), at a cost of about three thousand five hundred dollars. In 1880 a saw-mill was set up at Allenton, run a short time, and removed to Fox Creek bottom. Besides these, quite a number of small mills are run by thresher engines. About 1818 a distillery was operated on the McCourtenay tract. The cider of a fine orchard planted there, and now in the channel of the Missouri River, was, along with corn, used in distillation. Andrew Hamilton had a distillery on his place, as is previously noted.

The Glencoe Valley Lime-Works are situated in

sections 10, 14, 41, 3 east, and call into economic use and give value to several natural products that have for years been regarded as worthless. About 1868, Samuel Terry, from Ohio, bought the Mulligan tract, in this valley. Close examination and test revealed great beauty and durability in the rock of the bluffs, which present vast mural formations on each side. So promising were the prospects that a joint-stock company (the Glencoe Marble Company) was formed, a side-track laid from Glencoe Station, Missouri Pacific Railroad, and fine steam machinery procured to saw the rock into slabs, etc., which were greatly admired. The track was afterwards extended to fine variegated gravel and paint-clay deposits farther up the valley. William Gowans, familiarly known as "Tennessee," put in the first blasts with single-drill bores; now six to ten cans of powder is no uncommon charge. The cost of transportation so embarrassed operations that the Marble Company gave up business in a few years. In 1868, John Oliver, then manager of the Bagot farm, experimented with the several strata of rocks with a view to the production of lime, and a small kiln was erected on the Bagot place, which gave such assurances of success that a large kiln was built on the opposite side of the valley in 1876.

The quarries of the Marble Company were leased by a company for lime-burning, and a kiln put up. The lime was so well received that other kilns were added to keep pace with the demand, and the works fell into the hands of Cobb, White & Case, of Portland, Me. The lower kiln, operated by Fink & Oliver, was bought out by the same firm, and has John Oliver as resident manager, while David Thomas manages the upper works. The kilns produce about four hundred bushels of lime every twenty-four hours, which is in demand all over the West and South. About seven cords of wood are consumed by each every twenty-four hours, about one hundred men are employed, and twenty-nine thousand dollars of working capital represented.

The managers have about three hundred head of sheep to graze the lands. A prosperous village has sprung up, with a population of about one hundred inhabitants. Never-failing springs abound; building and dimension rock is worked; sand-rock is shipped to St. Louis to use in bottoms of steel-melting pots; the schist or flints are used to mix with fire-clays at the retort-works; paint-clays of several colors are dug, and gravel of several kinds forms mosaic walks for the landscape gardener, and the common gravel, everywhere abounding, forms almost indestructible roads.

John Oliver, resident manager and originator of the lower lime-works, to whose restless energy much of the

success of the industrial enterprises of the valley can be traced, was born in Northampton County, Pa., in 1833. He came to Missouri in 1856, and began his lime experiments in 1868, while managing the farm of his father-in-law, Joseph Bagot, of the St. Louis Glass-Works, and to whose knowledge of metallurgic chemistry and financial liberality much of the success of the industries of the valley is traceable. Mr. Bagot died May 28, 1867, in the prime of active life, with a high record and within easy grasp of affluence.

Mr. Oliver has never mingled with active political life or held office, has been a promoter of industry, the active patron of agricultural and horticultural progress, a practical farmer, and a thorough family man.

Andrew Crawford opened a quarry on quite an extensive scale near Eureka. He had a side-track and all the needed appliances, and worked for several years getting out building rock. The cost of transportation and competition of rock nearer the city compelled him to relinquish the enterprise.

A fine quality of building rock is found north of Allenton, which was used with fine effect in the construction of the county farm buildings.

T. M. Hunt worked a fine sand-face on the county line near Pacific. It produces a fine quality of pure glass-sand that is shipped to St. Louis, Pittsburgh, and other points for making glass. The railroads cut through a hill of this sand-rock of remarkable character in this vicinity.

Mineralogical specimens of great interest and value are frequently found. Ores of zinc and lead, containing silver, iron, barytes, are found in some localities in quantity. Large slabs of shells, forming beautiful tablets, are found abounding on the highest hills, and rare specimens are obtained in the quarries. In the débris of the ravines fine specimens of pebble, carnelian, onyx, and other gems are found.

Agricultural pursuits occupy the large proportion of the people, and many large, productive farms exist. Wheat, corn, and potatoes of very high quality are produced, with rye, hay, millet, etc. Hemp and tobacco, formerly staples, are now given up.

Horticulture has received great attention, and is found both a pleasant and profitable investment. Apples and peaches are the staples. The apricot has done well where tried, and has in some places been found quite profitable. The pear, cherry, and plum are moderately successful, and the small fruits can always be depended on. Wild native fruits are abundant. The service-berry, persimmon, mulberry, and papaw are of high character, and persistent efforts are being put forth to domesticate them, and with the

most flattering success. Some new fruits of especial excellence have originated here. A fine yellow October peach, the "Pond," originated in the Essen orchard at the Pond Store, and is widely disseminated. "Aunt Susan's Favorite" is a fine large showy striped apple, ripening in the end of August. It came from seed planted in 1837 by Mrs. Susannah Tippet at "Cedar Groves," on the State road. It has gained a wide celebrity.

On the farm of William H. Coleman is one of the very largest of apples (yellow, overspread with russet, ripens in October), of very rich, high flavor. It came from seed sown by a colored man in 1856. The seed come from Spence Tyler, in St. Charles County.

The seedless persimmon obtained by William Muir, on the edge of the county, is a wildling of very high character, and will be appreciated as a new departure in native fruits.

Two nurseries are established in the township. Erich Essen, near Orrville, makes peaches and grapes a specialty, and William Muir, on the Allenton-Glencoe and State roads, makes "native plants" a specialty, along with a general nursery and ornamental stock.

A few native animals still exist here. The red fox, wild-cat, mink, skunk, opossum, and raccoon are common. The musk-rat still frequents the creeks and ponds. Occasionally a colony of beavers appears on the Missouri River. Last season a number have settled in a belt of cottonwood on the land of William H. Coleman and cut down quite large trees. There have been three trapped, and the skins sold at a high figure. The gray and fox squirrels, chipmunk, and rabbit abound. Deer are often seen, sometimes killed. Several have been killed this winter.

The turkey, quail, and pheasant still haunt the woods and fields, but are too recklessly killed, even in violation of stringent laws and protective societies.

Fine fishing is had on the Meramec, which is still, as of old, much frequented by parties for pleasure. Besides the common native varieties, several fine kinds have been introduced by the State Fish Commissioners, and all are wisely protected by law. The cold spring streams of the Meramec are well adapted to the varieties of trout. The fresh-water mussel is common, and fine pearls are sometimes obtained from them. The honey-bee is still found in the woods, but is not a great success in domestication. Honey-dews are very copious some seasons.

The edible morell (*Phallus esculentus*), erroneously but commonly called here the "mushroom," abounds in April, in the open woods near old post-oak or hickory-trees, and in old apple-orchards. The cultivated mushroom (*Agaricus campestris*) has followed

in the wake of pastoral occupations, and is abundant in old meadow lands in August in favorable seasons.

Red and white clover did not exist in the county at its early settlement, and it was felt to be a great want by stockmen. At an early date Absalom Link, of Fee-Fee, made a visit to Kentucky, and with other articles brought clover-seed, which he sowed and tended till it became a large crop in common use.

The towns and villages in this township are not large in themselves, but possess in an eminent degree that rural feature of large populations clustering around and tributary to them.

Ashland, at the mouth of Fox Creek, on the north bank of the Meramec, was a purely paper town, laid off by a party from Pittsburgh at a very early date, with beautiful plats of steamboats, mills, hotels, etc., but never a building. Several of the owners of corner lots have visited the place and bewailed the scene, and although long ago sold out for taxes it has still an existence on the maps.

Allenton is a pleasant village thirty-two miles west of St. Louis, on the Missouri Pacific and the San Francisco Railroads. It is situated in a strikingly beautiful valley, extending from Pacific to the mouth of Flat Creek, a distance of about eight miles, and presents, especially at its western end, some striking marks of "water-wear" on the rocks that form the edges of the valley. The view from the hills on the north is serene and lovely in a high degree. The town was laid out by Thomas R. Allen in 1852 upon the north edge of the Courtois tract.

Among the original owners of lots were John Demier, John Des Moulins, W. C. Turner, William J. Meyers, Richard Ivers, John Fleming, Louis Leudwig, C. S. Prongue, James S. Phelps, Mrs. Chamberlain. On the north side of the railroad track were several buildings not within the charter limits. The mill erected by Mr. Allen has been noticed. The buildings are generally neat and clean, and display much floral taste. I. C. Brown has a fine residence on the east side of the town, and a large farm close adjoining, with an extensive orchard. The store and post-office kept by F. Wengler is large and commodious, with a large brick addition. George W. Foster erected a fine brick building on the site of the Phelps house. Nelson W. Allen occupies the old family mansion. There are several fine residences within view, those of the late William Harris and the Hon. R. C. Allen being most conspicuous. Besides the store and post-office, there are a saloon and meat-shop and a blacksmith-shop. There is a fine district school building in the village, and a colored school is kept in the old school building to the west. There is a literary

society, and the village is noted for the sociability and intelligence of its inhabitants. G. Letterman, the teacher, a native of Pennsylvania, has occupied that position for thirteen years, and is a botanist, geologist, and antiquarian.

The county farm-buildings, just north of the village, on the Lawler-McPherson land, sections 33, 34, 44, 3 east, were projected before the separation of the city and county, on a magnificent scale, the estimated cost being two millions of dollars. Work was suspended after the foundation and first stories had been built, and the ruins remain, a stupendous waste of labor and capital.

The fruit farm of the Allen heirs, one of the largest and best in the county, is on a portion of the Courtois tract, just south of the town.

Thomas Rowland Allen, who laid off the town, was born in Frederick County, Va., on the 5th of March, 1815. His father, Robert L. Allen, died there at the age of eighty-four. In 1838 he married Diana Snapp and came to Missouri, in 1839 settling near Chesterfield, and taught school. In 1846 he removed to St. Louis and entered business as a wholesale and retail grocer. In 1851 his wife died of cholera. By her he had five children, all of whom are now dead. In 1853 he married Dorothea Adelia, daughter of Capt. Wash, of Virginia, then living near Kirkwood. When he laid out Allenton he built and removed his family there. The mill is noticed in another place. He was justice of the peace about 1854, and township assessor in 1861. While in that office at his own expense he collected the first agricultural and horticultural statistics of the township, and this led to the appointment of a State commissioner of statistics in 1866. He was an original member of the Meramee Horticultural Society, and on the 25th of August, 1870, became a charter member and master of the first grange in Missouri—Meramee, No. 1, organized by O. H. Kelly, of Washington, D. C., secretary of the National Grange. He was appointed general State deputy in 1871. In 1872 the State Grange was organized, and he was elected master. He was elected in 1872 for a second term, and in 1876 was elected chaplain. He died Feb. 3, 1878. His wife and three sons survive.

Isaiah Clark Brown, whose large property and fine residence adjoins Allenton, was born near Dozier's. His grandfather, John Brown, came from Kentucky in 1796, and settled in Florissant, upon a grant from the Spanish Government. He moved to Fox Creek, on the Leonard Farrah survey, No. 148, in 1812, sold it to Doty, who in turn sold it to William Harris in 1825; moved to near Kirkwood, and died in 1840.

Benjamin Griffin Brown, one of two sons who reached maturity, was born in 1796, married a daughter of William Inks, and moved to the Bittiek survey, No. 2010, in 1840. Bittiek sold to William Inks, who came from Kentucky with the Votaws and others, and settled on the farm now owned by Augustus Wengler, in 1802. B. G. Brown taught school for many years. The first school-house was built on the William Harris place, and taught by Mr. Edwards. Mr. Brown was justice of the peace for several years, and township assessor from 1844 to 1848. He died at his home on the 15th of March, 1872; his wife, born in 1801, having died the day before. Both were buried at the same time. The orchard he planted in 1816 still exists and bears some good fruit. The children were Isaiah C., John T., Martha (who died young), Cyrus, and Andrew.

Isaiah, the oldest, was born in 1825. He was deputy sheriff of St. Louis for three years, during the terms of Lebeaume and Maddox; was two years in the county marshal's office under David McCullough; was coroner in 1852-54; dram-shop collector one year; and superintendent of the county farm nine years. He married in St. Louis, and has two children grown.

Fox Creek, near by on the west, was so named by an early hunter from Bridgeton, who shot a very large fox there. Foxes are still numerous in that vicinity.

Frederick Wengler, postmaster and store-keeper of Allenton, came with his father, William Wengler, from near Dusseldorf, on the Rhine, with Paffrath Steines and others, in 1834. The father settled near Fiddle Creek, and died of cholera in 1849. His family were William, Frederick, Augustus, Albert, Minnie, and Otto. Frederick went to Judge McCullough in 1836 to learn tanning and shoemaking. He married Agnes Pyatt in 1842. He held a pre-emption and located one hundred and fifty-seven acres in section 33, 44, 3 east, which he still farms. The remainder of the valley was taken up by John Pyatt. He opened a store in 1854, and in 1861 bought the present store from F. R. Allen; was appointed postmaster in 1860, was mail agent on the Missouri Pacific Railroad for several years about 1864, and was superintendent of the county farm from 1870 to 1874. He has quite a large family, of whom William C. is the oldest. He was for several years station agent, then deputy United States collector in St. Louis, deputy sheriff of the county under Robert Schnecks, and is now deputy county clerk. The oldest daughter is the wife of the Hon. R. C. Allen.

William C. Inks, son of William Inks, who came

with the Votaws from Kentucky in 1803, lived on the old place on survey 2010. He owned considerable property, and laid off Pacific City, in Franklin County. He married Ann Eliza King, from near Manchester, and had a large family of daughters. He died on the 24th of September, 1864.

William Harris, the oldest son of Samuel Harris, of Fox Creek, was born at Fee-Fee in 1809. He married Easter, youngest daughter of Josiah McClure, born March 31, 1816. He bought the pre-emption of the home place, section 33, 44, 3 east, from Joseph Inks. He also bought one hundred and fifty acres from Doty, section 3, 44, 3 east (the Benjamin G. Brown place), with its fine orchard. He opened a store near the creek near the railroad bridge in 1851-52, and sold out to John T. Brown. He was elected a member of the State Legislature in 1854-55, along with Francis P. Blair, B. Gratz Brown, Thomas H. Benton, and other celebrities, and polled a larger vote than Col. Benton. His family consisted of two sons and two daughters, of whom only one survives, Missouri Frances, wife of I. J. Collins. He was an enthusiastic farmer and fruit-grower, a great reader, and an original thinker. He died March 28, 1881, and was buried in the McClure cemetery. His brother Joseph was killed in the Gasconade railroad bridge disaster, in November, 1856. He was twice married. His son by the first wife, James Rennieck, is a cord-wood merchant in St. Louis.

Josiah McClure came from Bowling Green, Ky., in 1819. He remained for a time at Fee-Fee, and bought property on Fox Creek, in section 4, 44, 3 east. He married Sarah Harris in Virginia, April 16, 1793. The family consists of eight daughters and one son. Of these, Easter, the youngest, is the widow of William Harris. He died in 1826. He donated an acre of ground as a public cemetery at a very early date. It still bears his name.

Andrew McClure, the sixth child of Josiah, was born Oct. 21, 1805. He was a widely-known citizen, and died on Nov. 1, 1877, leaving one son, William, and three daughters still alive.

Hon. Robert C. Allen owns and farms the McClure place. He has a handsome brick residence, with grove and lawn convenient to the farm buildings, and near the railroad bridge over Fox Creek. He was born in Brooklyn, N. Y., in 1836, was in Iowa a short time, and came to Missouri in 1857. On the breaking out of the war he assisted Gen. Francis P. Blair to raise a battalion, and in 1861 was chosen captain of Co. A, and was United States mail agent on the Missouri Pacific Railroad in 1862-63. At the time of Gen. Price's raid he joined the Fortieth

Missouri Regiment, and was captain of Co. K. He was mustered out in the spring of 1865, and was appointed judge of the County Court by Governor Thomas C. Fletcher. In 1866 he was elected judge of the County Court, and re-elected to the same office three terms in succession; was commissioner of roads and bridges in the new county in 1879, and has been elected to represent the Second District in both the Thirty-first and Thirty-second General Assemblies.

He married Minnie, eldest daughter of Frederick Wengler, and has six children living and two dead.

Eureka is thirty miles west of St. Louis, on the Missouri Pacific Railroad, in the corner of survey 3206, part of the Louis Courtois, Jr., tract. It was laid out in 1858 by Meesrs. Strodt & Shands, of St. Louis. It has a fine business position, the country roads to Bunkum, Big River, Antire, Bald Hill, Glencoe, Allenton, and Clifty Creek, all centring there. It is surrounded by a fine agricultural and fruit-country. There are about one hundred houses in and immediately surrounding the village. There is a church (Methodist Episcopal Church South), the foundation is laid for a Catholic chapel, and an Episcopal chapel is being subscribed for. There are also a district school, Freemasons' Hall, post-offices, three stores, two blacksmiths and wagon-makers, and a saloon. The Methodist Church is a very neat frame building, cost about one thousand two hundred dollars, besides donations and labor, and was dedicated by the venerable Dr. McAnally, Aug. 8, 1880. The membership numbers about forty, and has a flourishing Sunday-school. The Catholic families number about fifteen. The sites for both churches were donated by Peter M. Brown.

The Masonic Hall is a large, substantial frame building owned by a joint-stock company of Masons, and represents two thousand five hundred dollars of stock. Meramec Lodge, No. 95, meets there. It was organized Nov. 22, 1877, with the following officers and charter members: Samuel R. Woods, W. M.; Daniel Cleary, S. W.; August Guttermuth, J. W.; Charles Vanhorn, S. D.; David Horn, J. D.; Frederick Wengler, Treas.; George Hornecker, Sec.; Samuel G. Trower, Tyler; R. C. Allen, James Everett, J. B. H. Beale, R. A. Lewis, John Weiss, Charles Paffrath.

Thomas Thomas, postmaster, store-keeper, and notary public, was born in Manchester, England, in 1822; came to the United States in 1844; enrolled as a volunteer in the Mexican war in Buffalo, N. Y., in 1846, and served till its close, and located a bounty warrant on Big River in 1848. He moved to Eureka in 1856; served in the Fifth Missouri Cavalry for two

years during the civil war; was justice of the peace for three terms; is married, and has a family mostly grown up.

George Hornecker was born in Haguenau, Alsace, in 1830; came to St. Louis in January, 1853, and graduated in Roher's Commercial College. He began business in Eureka as a general merchant in 1865; was elected justice of the peace in 1878; has for years been a prominent Mason, holding high positions in the lodge; is married, and has a young family. His father came to the United States in 1855, and is yet living.

Several distinguished men have been residents in this vicinity. Edward William Johnston, brother of Gen. Joseph E. Johnston, lived from 1860 to 1866 on his farm at Waldstein's Switch. He was a brilliant political writer, and died in St. Louis in 1867. His wife died the day after him, and they were buried together. The venerable Maj. Beale was a native of Virginia; was a veteran of 1812; lived for many years with his son, Dr. J. B. H. Beale, and was for many years justice of the peace; he died in December, 1881.

James Brown and Peter M. Brown, brothers, are two of the leading citizens of the county. They took up their permanent residence in Eureka in 1865, on giving up their life occupation of farmers. They came to Missouri with their father, Russell Brown, from Virginia in 1818, James being twelve and Peter M. ten years old. They traveled from Bellefontaine by the "old King's Highway," and settled near Labadie, on the Missouri River, where they remained till 1839. At that time they moved to a New Madrid grant in Jefferson County, on the Meramec River, opposite Eureka. James married Melinda Cochrane, of Lincoln County, on the 9th of April, 1829. She died March 5, 1874, having lived together nearly forty-five years. His father died in 1843. Of the family two are still alive, Miss Henrietta and Joseph A., justly esteemed for the wisdom of his counsels on the critical questions arising out of the separation of the city and county. At that time he filled the office of county counselor and prosecuting attorney.

Lorenzo Dow Votaw is the representative of two of the oldest families in the State. His grandfather, John Votaw, came from Kentucky in 1803, accompanied by his sons John, Henry, and Isaac, and his brother-in-law, William Inks. George Smith, MeKeage, Williams, and Benjamin Terry came about two years after. John Votaw died in 1828, and was buried in St. Louis. John, the oldest son, was born in Kentucky in 1797; entered United States land in section 32, 44, 3 east, and married Mary Koonce, born

in St. Charles City in 1794. His family consisted of seven sons,—Lorenzo Dow, Silas P. (in California), Felix A. (died in St. Louis when quite young), John A. (in California), George Wash (died in Texas in 1866), Nicholas Marion (died in McDonald County in 1878), Landon J. (died in Texas in 1868).

Lorenzo Dow, baptized and named after the celebrated Methodist missionary preacher of that name, was born Oct. 25, 1820. He married Pauline Keatley, of Franklin, Dec. 29, 1841, by whom he had a son, Alonzo W. She died in 1852. He then married Eliza Robertson, of Manchester, Mo., who had a daughter, Laura A., and died in 1859. He married Elizabeth H. Davis, who died Jan. 5, 1883. The elder Votaw planted an orchard of seedlings about 1816, of which a few proved of great value, especially the Walton. The trees are almost entirely gone. When quite young he went a few days to a school kept on Clifty Creek by a man named McIlvain, who was killed in a cave on the Mississippi River a few years after. When a boy he helped to make whiskey for the traders at Christmas-time, ran races, and traded among the Indians along with his uncle, and was a great favorite and on intimate terms with them. The year of running off the Indians is often referred to by the old settlers, and was 1814-16, when the settlers united and went out to punish the Indians in the upper Missouri country and in Illinois for numerous thefts, murders, and general insubordination.

Samuel Pruitt settled on survey 1975, the site of St. Paul, and was regarded as the oldest settler on this edge of the county.

Glencoe, a station and small village on the Missouri Pacific Railroad, twenty-six miles west of St. Louis, where Hamilton Creek empties into the Meramec, was laid out about 1854 by Woods, Christy & Co., of St. Louis, and is the switch-point of the Glencoe valley track. It contains a few houses and small store, but for about a year has had no post-office. There are some fine residences in its immediate neighborhood. "Glencoe Heights," northeast of the depot, was built by Robert K. Woods about 1855, and is now the property of William L. Ewing. It is a fine frame pavilion, with the finest ornamental trees and plants and a choice orchard. Northwest of it is the fine concrete residence of Alfred Carr, with a stately lawn and fine meadows. It has one of the finest orchards in the county. Southwest of the depot, and almost overhanging it, is the summer residence of B. W. Lewis, of St. Louis, with a fine orchard. Still farther south is "River Craig," the imposing concrete house built by A. W. Alexander, from which a magnificent view is obtained.

The Orphan Protectorate, a charitable institution for the care of orphan boys, is about a mile north of the depot. It was founded and is principally maintained by the Catholics of St. Louis. From sixty to one hundred boys are there cared for and educated. The establishment is in charge of the Christian Brothers, and was opened in 1872, and was under the care of Brother Leo, as managing director, in 1876-78. He was the pioneer of the Protectorate at Westchester, N. Y. Brother Tertullian relieved Brother Leo in 1878, and continued till 1882, when Brother Leo was again put in charge. A lay board of directors in St. Louis manages the finances, and gives direction to the operations of the institution. There is a resident priest at the Protectorate, and regular daily morning services are held besides the Sunday services. There are about five regular assistants, and farm hands are employed as needed. The boys work on the farm, and attend school in relays.

The lands consist of about three hundred and twenty acres, of which two hundred are under cultivation. There is a fine garden, orchard, and vineyard attached, and the usual farm crops. Early vegetables are raised in quantity, and fine milk is made a specialty. Everything is done to render the institution as nearly self-sustaining as possible, and to aid in finishing its buildings, and extending its capacity for good. The buildings consist of offices, reading-room, dormitories, dining-room, etc., in a concrete building erected by James E. Yeatman. A splendid stone building for chapel, lecture-room, schools, etc., is only partly finished. The old Hamilton rock house, the fine concrete dairy-house, and large barns are apart from the principal buildings, and are in use in the agricultural operations. Some of the original Ninian Hamilton orchard trees still exist, and a neat, partly artificial pond in front adds to the attractiveness of the retreat. The Protectorate property is situated in the northern portion of the Ninian Hamilton grant.

Ninian Hamilton came from Kentucky in 1803 along with his father, also Ninian, who located survey one hundred and twenty-four. Ninian was born in Kentucky, 1783, and settled on survey seven hundred and sixty-six, where the old State road crossed the valley. He built a house, and was one of the most enterprising men of the times. He married and had five sons and four daughters, and died about 1834. Ninian (2) was born in 1809, and died in 1856. His grandmother died in 1851, aged one hundred and four. The heirs sold to A. S. Mitchell, who in turn sold to James E. Yeatman, who erected the fine concrete house, and the first in the neighborhood, about 1856. To aid in the construction of the house a lime-kiln

was erected, by the creek, and fine lime made, which was the inception of the extensive lime-works in the valley. Andrew Hamilton, fourth son of Ninian (1), bought the Spanish grant, survey two thousand and twenty-three, and operated a distillery. He sold to John Whitsett, of North Carolina, whose heirs sold to Thomas F. Ackerman, M. D. Heltzell, and others.

Judge Henry McCullough was born in Kentucky in 1788, and married Priscilla Smith, born in 1787, and the sister of Ninian Hamilton's wife. He was married three times, and had a very large family. He entered land in sections 14, 44, 3 east, and bought a fractional 40 from N. Hamilton for a mill-site. He had a tannery, shoe-factory, and bark- and grist-mill, and was a most enterprising man. He was justice of the peace about thirty years, and judge of the county court from 1849 to 1852. He died July 6, 1853. His last wife, *née* Delila Hamilton, was killed by a car on the Glencoe Valley Road, opposite her own door, Aug. 23, 1876, in the seventy-sixth year of her age. His son David was for many years marshal of the city of St. Louis.

John Stoy was born in St. Louis in 1801, a son of Dr. Stoy, who had a ferry at Carondelet. Dr. Stoy settled beside Peter Breen at Barret's Station. John settled on the road above Glencoe, sections 5, 44, 4 east. He had a large family, and died May 2, 1882.

Bunkum is a settlement across the river from Glencoe, forming the segment of a circle, with the base extending from near Acker's Ford to opposite St. Paul, and flanked by the Antire hills. The land in the vicinity is very rich, and is thickly settled. There are two schools in Bunkum, and the Lewis Chapel, built and maintained for the greater part by the Lewis family.

Martrom Lewis was one of the earliest settlers. He located in the northeast portion of the county; lived at Lewis Ferry about 1816; married Margaret, daughter of Elijah Brockman, of Virginia, and sister of John and William Brockman. She died without family, and he afterwards married Elizabeth Darby, by whom he had three sons who grew to manhood,—Rufus A., Philander P., and Martrom D. He built a frame residence on the bank of the river opposite Glencoe, and was the first station agent there. He cultivated a very large and fine farm.

Rufus A. Lewis married the daughter of Anderson Bowles, justice of the peace, who died April, 1877, leaving quite a large family. He represented the county in the State Legislature in 1852-54, and was township assessor. He is an excellent and extensive farmer.

Philander P. Lewis married Mary Clark, and resides in Bunkum.

Martrom D., the youngest son, succeeded his father as station agent, and studied and practiced law in St. Louis, but still owns property here. He married Susan, daughter of the Hon. Judge Tippet, and has for years been public administrator of St. Louis.

Starting out anew at the west end of the State road, we begin with Samuel Harris, who was born in Virginia in 1787, went to Kentucky with his parents in 1796, and came to near Fee-Fee in 1808. He married Sarah Inks; went against the Indians with the Missouri volunteer scouts in 1812-16; bought out Lambert at the edge of the county, in section 19, 44, 3 east, in 1827; was a carpenter, and kept a tavern and post-office. This was the first office west of St. Louis, and he distributed the mail by rider to Jefferson County, by Hillsboro' and Hereulaneum. He erected a small mill; his wife died in 1836, leaving William, Joseph, Lefremsier (in California), James, Wash, and Isaiah C. He married Mrs. Ann Thomas, *née* Brawley, by whom he had two sons and three daughters. He died in 1851.

Isaiah Clark, his youngest son, was baptized by and named after Rev. John Clark, the early Baptist missionary. He married Miss Turpin, of Allenton, by whom he has a large family, and lives near Fox Creek.

Dutch Hollow.—The next point east of the "Sam Harris place" is a picturesque valley on the line of the State road, and embraces portions of sections 17, 19, 20, 44, 3 east. In the upper portion is a neat hamlet, known by the same name, and containing a store, shoemaker's, harness-maker's, two blacksmiths', and a carpenter's shop, and a commodious tavern, with a number of farm-houses quite near. During the California and Kansas emigration this was a celebrated camping-place. It was a relay point for the Jefferson City stages, and has suffered by the railroad. It is about thirty-one miles from St. Louis.

Charles Paffeath, known far and wide as "mine host, Dutch Charley," was born in Lichtlin, Prussia, in 1809, and came with an uncle, Herman Stein, and others to the United States in 1834. He entered land in section 17, 44, 3 east. His uncle died the same year of cholera, and he married the widow, his senior one year, who died in 1871. He sold out his original entry to Joseph Henseller in 1845, opened store and tavern in "Dutch Hollow," and gave it the name. He graded and graveled the State road from the county line to Judge Tippet's, and in 1858 rented his place and paid a visit to Europe. He had bought a fine piece of land from Miner Ferris, which

he greatly improved. The cultivation of fine fruits and vines is with him a passion. He has a fine frame house, in which he still lives.

Melrose is a small hamlet that forms the terminus of mail route 28,457 from St. Louis. It is about three miles south of the Missouri River, on one of the highest points on sections 7, 8, 44, 3 east. It was laid out by Charles H. Haven with great care, as the nucleus of a great "Park of Fruits of One Thousand Acres," about 1851. The first store was opened by Charles Wetter, and the first dwelling-house erected by John Ratford. The home dwelling, "Woodlawn," was a tasteful Gothic cottage, with grounds laid off and planted in the highest style of art. The vineyards and orchards were truly fine, and cost in all about fifteen thousand dollars.

The seminary was a capacious frame building, three stories high, and was intended as a day and boarding-school for young ladies. It was occupied by Mrs. Pinckney, of Philadelphia, and the Rev. Mr. Finlay, of Pennsylvania, for some time. It has also been used as a Catholic chapel and a tenement-house. The property was sold by the sheriff in 1879, and the home grounds and lands were bought by John Wildberger, of Cheltenham. Many of the original buildings have decayed. The store and post-office is a handsome new frame building, owned by Herman Kreinkamp, and occupied by Louis Wackher, the postmaster.

The road from Melrose enters the State road about twenty-nine miles from St. Louis, and opposite the beautiful residence of John Letcher, oldest son of Isaac and Julia (Bobbs) Letcher, of St. Louis. He was born in St. Louis in 1823, and was one of the pupils of Elihu H. Shepard. He married Cornelia, daughter of George C. Frazier and Priscilla Caulk. He taught school for several years, and purchased his present place, section 16, 44, 3 east, in 1858, while it was still in woods, and has brought it up to the present fine condition of "Rose Mount." He is a lover of fine fruits and flowers, and is a principal supporter of Bethel Church and Sunday-school, and an active member of the Good Templars.

Fox Creek is a hamlet on the State road, and derives its name from being the location of the post-office that has so long borne that name, although itself on the head-waters of Wild Horse Creek. The land in section 9, 44, 3 east, was entered by Martin Hencken in 1838, and subsequently added to by purchase from Nathaniel Bacon. Hencken came from Bremerhaven in 1836 with his wife and family, and at the time of his death left a family of five sons and two daughters, all of whom live in the neighborhood except Martin, who

is in New York. His wife died on March 4, 1879, aged eighty-one. Frederick Hencken, his youngest son, began store-keeping in 1859, and was appointed postmaster of Fox Creek post-office in 1860. He married Mary H. Becker, and has a young family. He built a steam mill, noticed elsewhere.

There are now quite a number of buildings in and around Fox Creek, together with a blacksmithy, carpenter, wagon-maker, and undertaker-shops, and a tavern, besides the store and post-office.

Cedar Grove was the residence of Judge Peregrine Tippet, long and well known as one of the most active and intelligent citizens of the county. He came from Maryland about 1832, remained a few years in St. Louis, and entered land in section 3, 44, 3 east, in 1835; laid out a farm, planted a large orchard of choicest fruit, and was an authority as a farmer and pomologist. "Aunt Susan's Favorite" apple originated here from seed sown in 1837 by Mrs. Tippet, *née* Susanna Lee. In the original orchard, near the site of the "old cabin," stands a service-berry tree of gigantic proportions, at least one hundred feet high and beautifully balanced, in early spring a veritable "mountain of snow."

The judge in early times kept a store and wayside inn, was justice of the peace for many years, and judge of the County Court from 1858 to 1864. He moved to Mississippi and died, leaving two sons and a daughter. One son, Henry, is dead, and the other, Philip Lee, lives in Jackson, Miss. His only daughter, Susan, is married to M. D. Lewis, public administrator of St. Louis City. The property is now owned by Joel R. Frazier, his nephew-in-law.

Philip Tippet bought the farm adjoining his brother, Judge Tippet, from Mark Stevenson. He was born in Maryland in 1804, came to the neighborhood of Chesterfield about 1837, and taught school for many years. He was justice of the peace several years, and clerk of the Court of Common Pleas in St. Louis from 1846 to 1850. He married the widow of George C. Frazier in 1844, by whom he had one son, Josiah, now in Colorado. He was accidentally drowned in the Meramec at Glencoe while fishing, along with his son, in April, 1870. Mrs. Tippet died March 7, 1875.

Joel Richards Frazier is the son of George C. Frazier, from Kentucky, and Priscilla, daughter of Richard Caulk, born July 3, 1804. He was educated in Central College, Missouri, and taught school for many years. He married his cousin, Katherine Frazier, of Kentucky. He owns the Judge Tippet property and the adjoining Walter Shields land, in section 3, 44, 3 east. He was township assessor in

1877-80. He is an active supporter and officer in Bethel Church and Sunday-school, and an earnest promoter of the Law and Order Association. His father, George C., was a man of superior ability and education, taught school near Chesterfield, and in St. Charles County was justice of the peace for several years about 1837, and died about 1841.

Pond, or Speers' Pond, is a small but noted settlement, on the State road, twenty-six miles from St. Louis. It has a store, and post-office of the same name. The land, section 2, 44, 3 east, was pre-empted by John Brockman, from Virginia, in 1835, and was sold to Cyrus Speers (son-in-law of George Ferris), who kept a store and tavern for many years. This was for a long time the "voting-place" for the township, and the scene of many a political fracas. Mr. Speers sold his property to Mr. Hilkenkamp; he to Frederick Dreinhofer, from Osnabruck, Germany.

A new store was put up by Frederick Essen, whose widow married Charles Hillebrand. The store was burned down, and a fine new one erected, which, with the post-office, is managed by the widow of C. Hillebrand.

James Wright came from Virginia about 1840, and settled in section 31, 45, 3 east. He exchanged lands with Louis Bartrow, who settled on sections 11 and 12, 44, 3 east. Mr. Wright married Miss Sweeney, of Maryland, by whom he had one son and daughter, Margaret, wife of John T. Brown. Mrs. Wright died Jan. 8, 1859, aged fifty-three, and he died April 4, 1872, aged sixty-nine.

Thomas M. owns a portion of the property, which he has greatly improved. He married Martha, daughter of John Howell, and has a rising family.

William Eatherton was born in Spottsylvania County, Va., in 1807, and came to Missouri in 1839, settling in Gasconade County. He came to the present place, section 6, 44, 3 east, in 1844, and kept store for several years. He married Frances Pendleton, who died in 1856. In 1858 he married Virginia A., daughter of B. F. Lipscomb, who came from Virginia in 1839, and settled on Wild Horse Creek.

John W. Doss came from Kentucky about 1844, settled in section 31, 45, 4 east, and was justice of the peace for several years.

Ellisville is twenty-two and one-half miles from St. Louis, in section 32, 45, 4 east. The post-office, store, and quite a number of buildings are over the line in Bonhomme township. It was settled by Capt. Harvey Ferris, from Kentucky, before 1837. He built the large "brick house," then a notable structure, and which is still standing. Capt. Ferris sold to Vespuccio Ellis, afterwards United States consul to Vene-

zuela, and closely associated with the events that culminated in the Mexican war. Mr. Ellis sold to Mr. Hereford, from Virginia, father of Dr. Hereford, of Bridgeton, and Mrs. Dr. Beale, of Eureka. In 1842 he secured the location of a post-office at this point, and named it Ellisville, after his old post-office in Virginia. He sold to Samuel Wilson, and he to Maj. Clarkson, of Kentucky, who in turn sold to Capt. Hutchinson, of steamboat fame, who laid off a large training course, with fine stables, and engaged in the raising of fine horses. He planted extensive orchards, and greatly improved the surroundings and the stock of the country at large. He was, however, disappointed in the results, and subdivided his farm into small lots. Adam Doehring purchased the brick house and a considerable portion of the land.

Leaving the State road and turning to the western edge of the township, we find the following early settlers:

Baldwin Locker, located near the Wild Horse road, was born in Louisa County, Va., March 15, 1803; married Annie Carpenter, of same county, born in 1804. He came to Missouri in 1838, and entered United States land in section 5, 44, 3 east. He had four sons,—Louis (dead), Robert, Thomas, and John (in Montana). He died in 1875, and his wife in April, 1877. Both buried in Bethel Cemetery.

Herman Steines came along with C. Paffrath and others in 1834. He settled on section 6, 44, 3 east, and adjoining lands in Franklin County. He taught school for many years, was justice of the peace during several terms, and was assessor of the township for some years. He died, leaving a widow and a number of grown children.

His son Frederick is now justice of the peace, and lives on a portion of the Wm. Hamilton survey, 385.

Rev. Robert G. Coleman came from Spottsylvania County, Va., in 1837, the year of the flood in the Missouri bottom. The "great flood" occurred in 1844, and forms an important epoch in the history of Bonhomme bottom, its marks being yet distinctly visible and a long lake formed where cultivated fields existed. The water was up to the wagon-bed bottom in crossing over from the Lewis Ferry. In 1837, Mr. Coleman bought a part of the McCourtney tract, and later, portions of the Bell, Caughlin, Henry, and Mackay tracts. This tract bears date from Zenon Trudeau, 1798. Alexander McCourtney deeded survey 152 to his brother John, and John subsequently to his son Martin. The Rev. R. G. Coleman had four sons, William H., Spencer G. (in Franklin County), John M. (died in 1849), and Robert G. He died about 1842.

William H. Coleman was born in 1815 in Virginia, came to Missouri with his father in 1837, was married to Hardinia Bromley Goodwin, daughter of K. Goodwin, of Lexington, Ky., in 1839. He erected a log house on the place, and in 1848 the present substantial brick mansion.

The river is cutting away the bottom lands here with fearful rapidity, and unless its direction is changed it will sweep on to the bluff. W. H. Coleman has lost at least thirty acres, and Senator Coleman as much.

Mr. Coleman has held no public office, but has ever been the active promoter of public enterprises. He is an earnest Granger, and Bonhomme Grange Hall, built by a joint stock company, is on his land on the Bly place. The Bacon school-house, one of the earliest in the township, was located near the same spot.

Robert Goodwin Coleman, ex-State senator, the youngest son of the Rev. R. G. Coleman, married his cousin, Eliza, daughter of Henry Tyler. The oldest son, John, married Mary, daughter of John Orr, and the oldest daughter married her cousin, Dr. Robert G. Coleman. He built his first house in 1844, and his present residence in 1869. He was elected State senator in 1857, and again in 1877. He was one of the first Good Templars in the county, in the lodge organized at Antioch, in 1856, of which he was Grand Templar.

Henry Tyler came from Caroline County, Va., in 1837, and bought some large tracts of land in the Mackay grant 1955. He had five sons and two daughters,—Mrs. Senator Coleman and Mrs. Edmond A. Nickerson, of St. Louis. Capt. William Tyler, brother of Henry, came about 1835, and bought a portion of the Graham grant 134. He had four sons,—Zachary, John S. (now dead), Dr. B. R. (now removed from the county), and Alexander L., of St. Louis. He represented the county in the State Legislature about 1840-42, and died in Virginia about 1864. James R. Eatherton now owns the property. Along with Capt. Tyler there came Zachary Tyler and Dr. Halliday, and about the same time William Boxley, Massey, and Daniel Coleman, from Caroline County, Va. William Boxley purchased the Darby property, which he sold again, and went to Southwest Missouri. Dr. R. H. Stevens and his brother came about 1838, and bought largely in the Musick & McDonald tracts, surveys 122 and 150, which he ultimately subdivided and sold, and removed to near Crève Cœur.

Orrville is a small hamlet on the edge of the Theophilus McKinnon survey 163, in the beautiful Bonhomme Creek bottom, and takes its name from the Orr family, long settled there. It has a store and

post-office, kept by Gustave Hoppenberg, a school, blacksmith and wagon-maker, and a number of other buildings. The residence of William P. Bacon is a fine frame building, and he is the representative of an old line of settlers.

John Orr and James Orr, brothers, came from the Cow Caddens, Glasgow, Scotland, and bought the Richardson survey 134. John married Maude Eleanor Graham, daughter of Alexander Graham, part of whose farming-lands now form Wild Horse Lake. They had four children, James, Mary, John, and Robert. He died about 1829. William Bell, of survey 909, was Mrs. Bell's uncle and also from Scotland.

James married Elizabeth C. Breckenridge, and died without children.

John Orr, the second, married Margaret, daughter of Parks Bacon. His children are William T., Mary, Walter, and Julia, all married in the neighborhood.

Robert Orr was born in 1829, and bought the Theophilus McKinnon survey 163. In 1849 he married Laura, daughter of Thomas Caulk. He was justice of the peace for six years. He sold to John Hoekersmith. He has three sons and four daughters alive.

Richard Caulk came from Maryland; was an officer in the Spanish army, and obtained a grant of four thousand arpens of land. He settled on survey 125; married Sallie, daughter of Lawrence Long, and had six children,—Ruenna, Thomas, Priscilla (Mrs. Frazier-Tippett), Ann Eliza (Mrs. Hugh Miller, now in Colorado), Isaac (dead), and Sarah (Mrs. Alton Long).

Thomas Caulk, the oldest son, was born in this county in 1800, and received a grant of six hundred arpens in Pike County for that fact; he settled on survey 126 under Charles Kyle; he married Miss Worthington; was assessor, and was in the State Legislature in 1837, and went to the Indian nation.

The Bacon brothers came from Virginia about 1812. They were William, Ludwille, Nathaniel, and Nicholas. Ludwille entered land at the mouth of Bonhomme Creek; he married a Long; his son Parks married Elizabeth C. Breckenridge, by whom there were four children, of whom William P. Bacon and Mrs. Margaret Orr still reside in the vicinity. Nancy, daughter of Ludwille Bacon, married Robert Lewis, from Loutre Island, and had a family, among them Garland and Warner Lewis, the well-known lawyer and editor.

Mrs. Elizabeth C. Hyatt (*née* Breckenridge) is one of the most notable residents of the neighborhood. She was born in Kentucky in 1797; married Parks Bacon,

noted before, and was left a widow; she then married James Orr, uncle of John and Robert Orr, by whom she had a son James. Again widowed, she married N. Ferguson and had two daughters, Mrs. Hoekersmith and Mrs. Humes; left a widow for the third time, she married Judge Hyatt, of Florissant, and is yet again a widow, hale, bright, and entertaining.

James Ball lives on Bonhomme Creek, sections 22, 45, 3 east, and is the representative of one of the earliest settlers in the township. His father, James Ball, came from Kentucky with Daniel Boone, and was for many years his close companion. He was an intelligent man, his library in these "wild woods" comprising about fifty volumes, and he had the first family Bible and clock in the township. His family record is most minute and distinct. Although a small man, he was brave and daring in the extreme. He had a large family of daughters; the youngest is the wife of J. Robert Eatherton, who has been a conspicuous and highly enterprising citizen, and owns the Capt. Tyler farm.

Lawrence Long came to Missouri from Virginia along with Samuel Conway about 1796. He settled on a Spanish grant of one thousand arpens, including the site of Chesterfield. His descendants are mostly in Bonhomme township. His children were Lawrence (married Sarah Post), James (married Leah Fitzwater), Alton (married Sarah Caulk).

James and Leah Long were main supporters of Chesterfield Church.

Chesterfield is on the very edge of the township, and is as much in Bonhomme as in Meramec. It contains about a dozen dwellings, church, and school, and has a long and interesting history. It has lately obtained a post-office at Wetzell's store, with Henry Wetzell as postmaster. C. Andrae is an old settler.

The town was laid off by Col. Justus Post in 1817. Elihu H. Shepard says of him, "He was one of the best informed and wealthiest citizens of the Territory, had been educated at West Point, was a profound, practical mathematician, and had served with credit in the United States army during the war of 1812. He was possessed of an estate of one hundred thousand dollars, mostly in cash, purchased large tracts of land, built a country residence and a mill in Bonhomme (Meramec) township, made other improvements, and gave embellishment to the country and life to business around him. . . . He became director in the Missouri Bank, and became involved, . . . left Missouri and settled in America, Ill., and died, having disposed of his large estate in St. Louis County for a trifle when he left, which, if held to his death, would have left his two sons millionaires." The bricks for

the mansion of Col. Post were made by Letcher & Bobb, of St. Louis, in 1822. Many well-known names cluster there,—Albert Worthington, Dr. Kincaid, Dr. James Hall, etc.

The Darby family came from North Carolina in 1830, and bought land in the Bell & Mackay grant. They sold to William Boxley about 1837. Hon. John F. Darby was a member of this family.

Bonhomme Post-Office, with its fine homesteads and closely-settled, fertile land, is an attractive spot. The store and post-office are kept by Charles Boiselier. The daily mail-stage on the Olive route makes this its terminal point. It is quite near Howell's Ferry, an important crossing to St. Charles County, and is in an affluent neighborhood. Charles Boiselier owns the store, and is postmaster. His father and uncle removed from France to Germany from political causes about 1839; emigrated to Missouri and bought land.

Thomas Boyer came from Fulda in 1836. He found a few German families already here. C. Angelrodt and four others had settled a short distance above, and were known as the "Bremen Company," whose widely-extended influence in Europe attracted considerable emigration. Mr. Angelrodt has long been known as senior member of the firm of Angelrodt & Barth, consular agents, St. Louis. He bought a large tract of land in the Mackay survey at sheriff's sale for taxes, that had been owned by a Dr. Eden, non-resident. Mr. Angelrodt sub-divided and sold it.

Adam Bates came here about 1823. He had a large family, a portion of them in St. Charles County. Henry lives on the homestead, and was justice of the peace. Adam Wardenberg came about 1833. He bought some of the Eden land, and settled on survey 414. S. Dachreden lives on the old Worthington place, and came here about 1834, as did the Krennings, Krums, and Adolph Kehr, of Kehr's Mill. Rapphoff, Ficke, and E. Becker came about 1837. John Howell, of Howell's Island, is son of Thomas Howell, born in 1783, and settled on the land known as the Governor Bates farm. He sold to Governor Bates, and removed to St. Charles County. John married a daughter of Martin McCourtenay, and had a large family,—Rudolphus, Orlando, Martin, Martha (Mrs. T. M. Wright), Minerva, and Huldah. His first wife died, and he married a Miss Iden. Martin McCourtenay, nephew of Alexander McCourtenay, came from Pittsburgh in 1837. He had two sons, who both left, and two daughters, Mrs. J. Howell, noted above, and Mrs. Mary Link, who resides in the vicinity and has a large family, mostly grown up.

St. Andrew's was laid off by John Henry early in

the century, but never gained much note. It is now about eight hundred yards from the bank of the Missouri River, engulfed in the bed of that destructive stream, which is now destroying the richest lands of the vicinity.

The settlement of the township presents three distinct waves. A few adventurous spirits, mostly Kentuckians and French, explored the land and obtained grants previous to 1800. Another influx from Kentucky occurred from 1800 to 1820. Then came a lull incident to the settlement of the State government, which continued until 1830. Between 1830 and 1840 came the great wave of wealth from Virginia, supplemented by, but not commingling with, the great German emigration of that period.

The first German settler known of in the township was Worth, who came about 1818 and settled on sections 5 and 6, 44, 3 east, on the Beckemeyer place, now owned by Frederick Ossenfort. He served in the great European war with Napoleon, and came to the United States at its close.

The first colored man that owned land in the township was Jesse Hubbard. He belonged to Nancy Bacon, then Mrs. Robert Lewis, and went with Mr. Lewis to California in 1849-54. They returned with fifteen thousand dollars, which was divided between them. The share of Jesse was then divided by his mistress, who gave him his freedom along with his share, and he bought land from James Orr and settled on it.

The "Old Church by the Lake" was a log building at its east end, which for many years sheltered a throng of rough but earnest worshipers. It was built by the Baptists, but its doors were open to ministers of every denomination. Its cemetery alone remains.

Chesterfield Church took its place, and has already been noticed.

Old Baptist Antioch Church is situated on the old King's Highway, in section 15, 45, 3 east. It was erected mainly by the Coleman and Tyler families. It was dedicated May 29, 1841, and constituted a Baptist Church by Noah Flood and John H. Thompson. John Wright was ordained deacon, B. F. Lipscomb clerk, and Abner Bly treasurer. As many as thirty-three persons were baptized by immersion at one time. The Rev. J. M. Peck, of St. Louis, frequently preached here.

New Antioch Church was dedicated on Dec. 25, 1860, by William Crowell, of St. Louis, assisted by Mr. Hickman, and the old church building was given up for the use of the colored members. In 1872, Robert G. Coleman, John Hockersmith, and A. J. Cumming were ordained deacons. William H. Cole-

man was appointed clerk in 1846, and still fills the same office. A Sunday-school meets in the church, and a cemetery is attached.

Rock Bethel was built on Wild Horse Creek by the Methodists, at a cost of two thousand dollars. It was dedicated in 1859 by Rev. Dr. Finney, assisted by Wesley Browning, the preacher in charge. A short time after opening it was discovered that it was placed on the wrong survey, and the owner, Mr. Solf, refusing to sell the land, the building was lost.

Log Bethel, or Little Bethel, was built on section 4, 44, 3 east, for the Sunday-school and as a temporary preaching-place till a better could be built, but was never formally dedicated.

New Bethel Methodist Church was erected on the State road, section 3, 44, 3 east, and is a fine frame building, with rock basement for Sunday-school purposes. It cost four thousand seven hundred dollars, and was dedicated by Rev. Dr. McAnally, assisted by Wesley Browning and J. S. Frazier, on April 8, 1875. It has a membership of one hundred and fifty and a flourishing Sunday-school.

Bethel Cemetery is a beautiful spot, regularly laid out and tastefully ornamented. The first burial was that of William Atwell, who was born June 16, 1854, and was killed by striking against the roof of Laclède bridge on the night of Aug. 29, 1873.

Eureka and Lewis Chapel have been noticed in their respective locations; the Protectorate Chapel has also been referred to. A cemetery has been laid out in connection with the institution; the McCullough burial-ground has been given up, and most of the bodies have been removed to Bethel or the Protectorate Cemeteries. The Inks Cemetery is situated at Augustus Wengler's, and is a public burying-place. The McClure Cemetery is located on Judge Allen's farm, and contains the dust of many pioneers.

Meramec Preaching Circuit was part of Manchester previous to 1859. In 1859 it was separated and called Allenton Circuit, with Wesley Browning, preacher, who was succeeded by Rev. Jacob Ditzeler. Rev. J. N. W. Springer was preacher in 1860-61. It was without a preacher in 1862-63, but occasional services were held by the Revs. W. Alexander and Atkinson, of Manchester. In 1864, Rev. Mr. Compton took charge, and was succeeded by Rev. J. E. Godbey. In 1866 the circuit was united with Union, with the Rev. William M. Williams, preacher. In 1868 the name was changed to Meramec Circuit and Allenton dropped. The Union and Meramec Circuits, J. E. Godbey, C. P., and L. W. Powell, assistant, were composed of Union, Franklin, Eureka, Lewis Chapel, and Little Bethel. In 1872 the Franklin County places were separated and Fenton added. In 1875 Fenton was dropped, and Eureka and Lewis Chapel was united in Meramec Circuit.

The following is a list of Meramec Circuit preachers: Wesley Browning, 1859; Jacob Ditzeler, 1859-60; J. W. N. Springer, 1860-61; ——— Compton, 1864; W. M. Williams, 1866;

J. E. Godbey, 1865-68; L. W. Powell, 1868; H. C. Watts, 1870; J. H. St. Clair, 1872; R. F. Chew, 1873; L. W. Powell, 1873; Abram Slater, 1874; I. R. Hicks, 1875-79; J. W. Johnston, 1879-81; J. W. Robertson, 1881-82.

Among the early ministers who labored in this field may be mentioned

Revs. John Clark, Methodist (afterwards Baptist); Lorenzo Dow, Methodist; J. M. Peck, Baptist, St. Louis; Robert G. Coleman, Baptist; Jacob Hudspeth, Francis Brownley, and John R. Brown, Cumberland Presbyterians; Lemmon and Hardeman, Baptists; Garvin, Presbyterian; Jesse Green, T. A. Morris, R. A. Bennett, and Robert A. Young, Methodists.

Societies, Orders, etc.—Meramec Horticultural Society, established in 1859, held monthly meetings at the houses of the members and annual exhibitions at different points. It was supplanted by the Patrons of Husbandry. Meramac Grange, No. 1, the first in the State, was organized by O. H. Kelley, Washington, D. C., August, 1870, and met near Glencoe. Pacific Grange meets near Eureka; Bonhomme Grange meets in the hall at Wild Horse; Arville Grange near Pond. The last two are dormant.

A lodge of Good Templars was organized at Antioch in 1856, and another was organized at Glencoe, 1857. Meramec Lodge, 146, meets at Bethel and has forty-four members. Lone Star Lodge meets at Eureka and has twenty-five members. Masonic Lodge meets at Eureka. Harigari (German) meets at Wetzell's Store, near Chesterfield.

Following is a list of ex-justices, etc., resident in the township:

Richard Caulk, as Spanish officer; William Harding; ——— Post, 1820; Henry McCullough, 1820-50; J. P. Lawler, 1850; George C. Frazier, 1837; Robert Lewis, 1849; Hugh Miller, Philip Tippet, Perigrine Tippet, Benjamin G. Brown, T. R. Allen, Robert Orr, W. S. Holloway, James Sappington, John W. Doss, Maj. Beale, Herman Steines, Thomas Thomas, Henry Dreinhofer, Henry Bates, Fred. Storren, John Quirk, George Hoenecker, William Muir.

ASSESSORS.—Thomas Caulk, Benjamin G. Brown, 1844-48; William S. Holloway, R. A. Lewis, Herman Steines, Thomas Thomas, T. R. Allen, Joel R. Frazier, Green B. Baxter.

LEGISLATORS.—Thomas Caulk, Capt. William Tyler, Rufus A. Lewis, William Harris.

CONSTABLES.—Albert Worthington, Green Baxter, Wash. Bacon, D. S. Warfield, William Stosberg.

COUNTY OFFICERS, 1833.—Robert C. Allen, State Legislature; Frank Rewwe, county assessor; William C. Wengler, deputy county clerk; *Justices of the Peace*, F. W. Steines, Herman Heinze; *Public Notaries*, Thomas Thomas, D. C. Taylor; *Constable*, Samuel G. Trower; *Post-offices and Postmasters*, Allenton, Frederiek Wengler; Bonhomme, Charles Boisselier; Eureka, Thomas Thomas; Fox Creek, Frederick Hencken; Gumbo, Henry Wetzell; Glencoe, wanting; Melrose, Louis Wackher; Orrville, Gustave Hoppenberg; Pond, Mrs. Eliza Hillebrand.

Among the early physicians of the township were—

Drs. Peter Kincaid, Edward Zoller, Eherwine, Keuckelhabn, Toney, James Hall, Wilson, Swartz, A. W. McPherson, Dunn, L. D. Morse, Wyatt, Galny, Alexander, S. R. Woods.

Physicians, 1833.—Dr. J. B. H. Beale, born West Virginia, 1819; graduated Cincinnati College, Ohio, 1846; located in Eureka, 1854.

Gustave Stricker, born Oberkirch, Baden; graduated Heidelberg College in 1852; located near Fox Creek in 1856.

Robert G. Coleman, born St. Louis County, 1840; graduated Cincinnati College, Ohio, 1867; located near Orrville in 1867.

Samuel Rush Loing, born Petersburg, Va., 1852; graduated Louisville, Ky., College in 1874; located on Wild Horse road in 1876.

Lee Earnest Munroe, born St. Louis County, 1860; graduated Pope's College, St. Louis, in 1880; located at Glencoe in 1881.

In the township there are sixteen district schools, "Druhes School," on State road, section 6, 44, 4 east, Catholic; Protectorate School, near Glencoe, Catholic.

Meramec township had in 1850 a population of 1921; in 1860, 2468; 1870, 3436; 1880, 7923.
